## MORE MONEY TO LOAN ON OTHER CROPS

*By United Press.*  
WICHITA FALLS, Aug. 4.—Chairman Frank Kell of a special committee appointed to investigate proposition for making loans on crops other than cotton, announced today, that the Federal Reserve bank will extend its facilities, permitting "commodity rate" for loans on other crops.

## DALLAS WANTS TRAINING CAMP

Dallas, Tex., Aug. 4.—A committee of the local chamber of commerce is at work preparing an application which will be filed with the war department, asking that a citizens' training camp, similar to the one conducted at San Antonio, be established in Dallas in 1917.

General Funston has assured the local committee of his co-operation in securing the civilian training camp for Dallas.

## MILLION DOLLAR TORNADO

*By United Press.*  
ST. PAUL, Minn., Aug. 4.—A tornado sweeping through northern Minnesota and southern Canada this morning, destroyed much property, and it is estimated did a million dollar damage to crops. It is believed that no lives were lost.

## COTTON TICKETS GOOD SECURITY

*By United Press.*  
AUSTIN, Tex., Aug. 4.—Texas farmers, for the first time in their lives will have an opportunity to hold their cotton in warehouses and market it gradually at a cheap rate of interest this year. This is made possible by the agreement of banks in practically every city of the state to advance money on bonded warehouse receipts at 6 percent interest. One Dallas bank has notified Manager F. C. Weichert of the state warehouse and marketing department that it is prepared to loan \$5,000,000 on these conditions. Other banks in various parts of the state have signified a like willingness.

## SUCCESSFUL REVIVAL

Rev. J. V. Havenor, of the New Home neighborhood, was transacting business in Ballinger Thursday and had just returned home from the Cross Plains and Cross Cut country, where he had been conducting revival meetings in that section and reports a very successful revival at several places.

## GERMANS REGAIN LOST TERRITORY

BERLIN, Aug. 4.—The war office announced the first good news for several days, when the report was received this morning that the Germans had succeeded in regaining Fleury, and landing a heavy blow to the enemy. Thursday passed in all the theatres without notable gains for any of the belligerents. In the Stokhod region of Russia, violent fighting continued between the Russians and the Austro-Germans while German counter attacks against the British in the Deville wood sector in France, all of which were repulsed, bombardments characterized the operations in France.

Battles also took place along the Sereth and Dinester rivers in Galicia, between the Russians and Teutons, while in the Caucasus region the Russians near Diarbekr carried out a bayonet attack against the Turks which resulted in the capture of a Turkish war and some 300 prisoners and guns. In the Travanzan valley of the Austro-Italian theatre, the Italians have made fresh progress against the Austro-Hungarians. In the Adige valley, in the upper Posina region and in the district of Cortina Diampezzo the Austrians are bombarding Italian positions.

## ROWENA CROPS IN GOOD CONDITION

(San Angelo Standard)  
A fair representation of Rowena's citizenship, headed by P. J. Barron, merchant and stock-farmer, invaded San Angelo Thursday morning. The visitors were here for several hours. In addition to Mr. Barron were: Rev. C. A. Chval, pastor of the First Presbyterian church; Antone Pustka, public weigher, and Fred Machotka, harness dealer and machine shop man.

Mr. Barron reported that business in Rowena was good. The town is not lying idle, but is progressing, four new residences now being in course of construction.

Relative to crops, it was stated that prospects for cotton are as good now as they have ever been. The cotton acreage around Rowena is larger this summer by several thousand acres, due principally to the failure of small grain. With this crop gone, the farmers planted their fields in the fleecy staple.

## Miles Crops Good.

Crop conditions are holding up splendidly in Runnels county, considering the dry times, and a good general rain within the next fifteen days will practically assure a better cotton crop than was raised in 1915. This was the assertion Wednesday of W. D. Jennings well known Miles attorney, while in San Angelo on business.

"We have had some good local rains," said the visitor, "but they have not covered all the territory. In spots though, conditions are fine. One man told me the other day that he could show me cotton that would make a half bale to the acre."

## CONGRESSMAN HENRY CALLS ON GOVERNOR

Congressman Bob Henry, who was defeated in his campaign for United States senator, was at the capitol Thursday conferring with Governor Ferguson. Mr. Henry also was a guest of the governor at luncheon at the mansion. Although it was declared that Mr. Henry's visit was of a purely personal nature, it was intimated that certain political issues were discussed, especially the state convention in Houston next week.

It also was rumored that the run off primary was considered at considerable length.—Austin American.

## NEW SCHOOL FOR THE DEAF AND DUMB

*By United Press.*  
AUSTIN, Aug. 4.—The board of trustees for the deaf and dumb school, announced today that the sign language heretofore taught in the school, would be discarded and plans had been made for a new school where only lip reading will be taught. The building for the new school will cost sixty-five thousand dollars.

## FINDS TOOLS USED 40,000 YEARS AGO

*By United Press.*  
PHILADELPHIA, Aug. 4.—Stone implements and household tools, estimated to be 40,000 years old, forming part of a collection owned by Meremphat, son and successor to Rameses the Great, 1,300 years before Christ, have been unearthed in the pre-historic monarch's palace at Memphis, ancient capital of Egypt. Advice telling of these important discoveries have just reached the University Museum here from Dr. Clarence S. Fisher, leader of the Eckley B. Coxe, Jr., expedition to Egypt it was learned today.

In a full report, Dr. Fisher describes wandering through the spacious halls of the great palace that for centuries lay buried in ancient Memphis, gold ornaments, scarabs, vessels of various kinds and vases were found intact, just as they must have been when the lords of those days excavated. Many of the relics found, says Dr. Fisher, date back to the Stone Age. Traces of a fire that must have ravished the palace are found on every side, according to the archaeologist.

## THE FIRST TO CROSS NEW CAUSWAY

Judge C. H. Willingham, who for the past six years has worked to get a causway on the Colorado river and a road opened up thru his farms to benefit the citizens south of the city in coming to Ballinger, was the first citizen of the county to cross the bridge after the floor was finished. The contractor told the Judge that he could walk over on the causway if he would be at the river Friday morning at 6:30 a. m., and the Judge was there at the appointed hour.

Bruce Creasy returned home Thursday from a business trip to Valley Mills and other points in that section.

## HARD QUESTION FOR COURT TO ANSWER

*By United Press.*  
ST. PAUL, Minn., Aug. 4.—Having had breakfast, the Minnesota State Supreme Court sat down on its bench here today to find out what this thing is that people call lunch.

Some persons say lunch is merely an apology to the stomach for the long wait between breakfast and dinner. Others say that anything eaten in the middle of the day is lunch unless the eater has a hundred thousand dollars and a Boston accent in which case it is luncheon. The average man, the one who goes down town to work early in the morning and smokes nickel cigars or a pipe, conceives lunch as a square meal on a round table for fifteen cents. But it's up to the court to decide officially. Bill Moshier, arrested because he didn't have a hotel or restaurant license, says he wasn't serving lunch in his place and the court must decide whether the things he gave out to be eaten constituted lunch.

## INSISTS ON WITHDRAWAL OF AMERICAN TROOPS

## UNCLE SAM'S BOYS TAKE NO CHANCES

*By United Press.*  
COLUMBUS, N. M., Aug. 4.—Militiamen from western Massachusetts have been assigned the honor of guarding the base camp. A cordon of troops is thrown around the entire camp every night. It is a duty of great importance. The easterners already have demonstrated their efficiency. Colonel W. C. Hayes, commanding the second Massachusetts regiment will testify to that today.

While inspecting the guard lines last night the Colonel and his Adjutant were riding thru a lonely stretch of desert in pitch darkness south of the camp.

"Halt," came the sharp command from an alert guardsman.

"That's all right, my man," said Colonel Hayes soothingly.

"This is Colonel Hayes inspecting the guard."

"I don't care who you say you are," came the menacing reply.

"Dismount and advance to be recognized and don't loiter either."

In the darkness the Colonel could see the dim outlines of the sentry with his rifle leveled.

"And I didn't loiter," the officer said. "I fairly tumbled off that horse and advanced. When the guard recognized me he apologized for causing me the inconvenience. I doubt if any suspicious characters get into camp through the lines."

## CONGRESSIONAL CANDIDATES CAMPAIGN EXPENSES

The Abilene Times in publishing the expense accounts of various candidates, says that Judge Thomas L. Blanton's expense account was \$3,453.09, and Congressman Smith's campaign account was \$36. The county candidates spent from \$75 to 236.

## SCHOOL BOARD MEETS THIS AFTERNOON

The regular monthly session of the school board convened at five o'clock this afternoon. Quite a lot of business has accumulated and the board will be in session until late.

Dr. Warner, the tick eradicator left Friday morning for Brownwood on a short business trip.

## By United Press

WASHINGTON, Aug. 4.—Mexican Ambassador Arredondo delivered to Acting Secretary Polk a note from Gen. Carranza today, naming commissioners and accepting the last proposition laid down by the American government for a settlement of the Mexican trouble.

Carranza will insist that the first thing to be decided by the United States and Mexico is the withdrawal of the American troops. While the Mexican government accepts the plan proposed by the American government for settling the trouble, it is made plain in the note received today that the commissioners are to devote their attention to the points mentioned by Mexico in previous notes to the department, and the outcome of the commission's work depends upon whether the United States will withdraw the American troops from Mexico or not.

## HOW EUROPE'S MAP HAS BEEN CHANGED

The allies possess 643,640 square miles of Germany's colonies. Soon they will have German East Africa, giving them all of Germany's foreign possessions, a total of 1,027,820 square miles of territory.

Germany and Austria hold 85,873 square miles of allied territory:

Belgium	11,373
Poland	50,000
Servia	19,000
Northern France	6,500

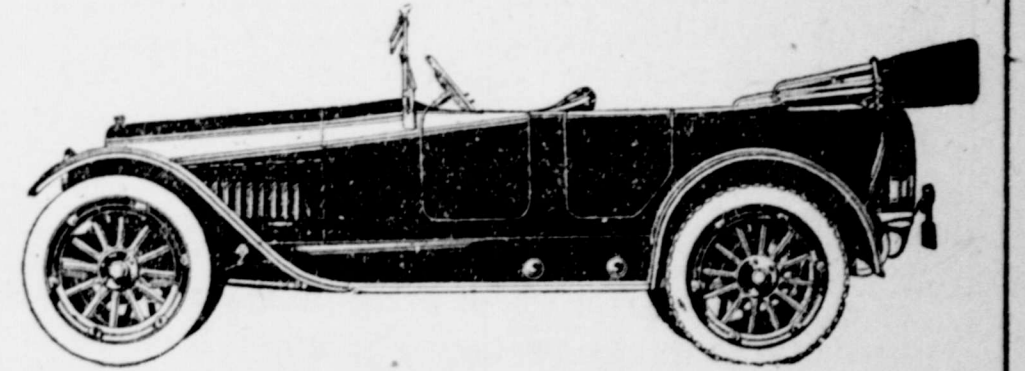

If we were in Germany's shoes it would be as though we had lost California, Oregon, Washington, Utah, Montana and Idaho.

If we were in the allies' it would be as though we lost New York and Pennsylvania.

Despite the fact that we are little short on moisture, conservative estimate, at the prevailing price, Runnels County has a three million dollar cotton crop in sight. This of course includes the \$40 seed.

The friends of Culbertson and Colquitt are putting in much time trying to prove which one is the best prohibitionist. From our view point either one of the gentlemen makes a bitter pill for the pros.

Duval County, the home of State Senator Archie Parr, polled 803 votes for Ferguson, 803 votes for all other candidates of Archie's choice and 803 against submission and against the Robertson insurance law, and no vote polled for any opponent. Any man who says that there is not something crooked about this kind of vote should move to Duval and become a member of Archie's political organization.

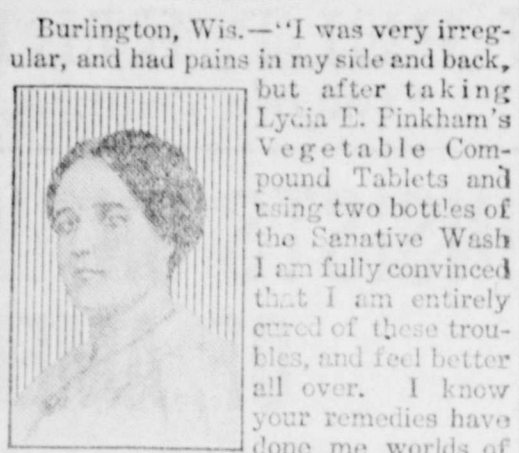

What has become of the bootlegger who "worked" this territory so often? Is it possible that all of them were included in the dozen sent from here to the pen at the last term of court? Perhaps it was a lesson the boys will not forget.

When this county finally succeeds in getting good roads, the old people, who are now young people, will wonder how we got along without them. The people are wasting enough time and losing in wear and tear on autos and vehicles a sufficient amount to build many miles of good roads.

The Socialists of Runnels County are having the official county ticket printed in circular form and they will be scattered broadcast over the county. The ticket will contain a candidate for every county office except attorney and superintendent, the Democrats having a monopoly on these offices.

Burlington, Wis.—"I was very irregular, and had pains in my side and back, but after taking Lydia E. I know your remedies have done me worlds of good and I hope every suffering woman will give them a trial."—Mrs. ANNA KELLY, 710 Chestnut Street, Burlington, Wis.

The many convincing testimonials constantly published in the newspapers ought to be proof enough to women who suffer from these distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

This good old root and herb remedy has proved unequalled for these dreadful ills; it contains what is needed to restore woman's health and strength.

**RAILWAY MEN NOT SEEKING REAL EIGHT HOUR DAY**

Actual Object Is Enormous Wage Increase For No More Work, Companies Declare.

What is an eight hour day? The answer to this question is one of the vital points in the wage controversy between the railroads and their engineers, conductors, firemen and brakemen which will come to a head early in August, when the employees complete the nation wide strike vote they are now taking to enforce their demands.

The railroad managers say that the train employees' organizations are misleading the public when they refer to their demands as providing for an eight hour "basic" day which the employees are contending for merely provides for an enormous increase in wages by increasing the rate of pay per hour without either limiting the working day to eight hours or even requiring a full eight hours work for a day's pay.

The spokesmen for the brotherhoods admit that they are not asking for a "real" or "absolute" eight hour day, but they insist that the granting of the demand for a day's wage for eight hours or less and for 50 per cent more than the regular hourly rate for all overtime will make it so expensive for the roads to work their train crews for more than eight hours that they will increase the speed of their trains and thus effect a reduction in the working hours of the train crews.

This assertion was explained recently by W. G. Lee, president of the Brotherhood of Railroad Trainmen, who said:

"If all terminals were 100 miles apart we would be in a position to demand an absolute eight hour day. But we recognize that the divisions vary in length, many exceeding 100 miles. As a concession to the railroads we have agreed to the twelve and one-half mile basis in lieu of the absolute eight hour day. On long divisions it permits them (the managements) to ignore the eight hour day and escape the overtime by simply making an average speed of trains equal to or exceeding twelve and one-half miles an hour."

On the other hand, the railroad managers assert that they cannot increase the average speed of their trains without decreasing the load of each train and running more trains, which would require the employment of more train crews to handle the same amount of freight they now carry. This, they say, would increase operating expenses by even more than the increase in wages would amount to.

In order to provide for a real eight hour day the railroad managers declare many changes would have to be made not only in the wording of the demands as presented by the employees, but also in many of the most important of the other provisions of the present wage schedules which the brotherhoods insist shall be left unchanged. Most of the present schedules applying to freight and switching service provide for a day's wage for each 100 miles or less their trains run or for each ten hours or less of work, thus guaranteeing a day's pay to any man who is called for any work during the day. They also provide for extra payment for hours in excess of ten or miles in excess of 100. In passenger service the basis for a day's pay is even less. In the case of engineers and firemen it is five hours in eastern territory and six hours and forty minutes in western territory. The demands provide for a day's pay for eight hours or less or 100 miles or less and do not apply to the passenger service, which is already on a basis more favorable to the employees than an eight hour day.

The demand for time and one-half for overtime would therefore penalize the railroads, they say, for time required to complete a train run in excess of eight hours or for any delay, while the employees would still continue to draw a full day's pay in many cases for considerably less than standard day's work.

**TO SETTLE LABOR DISPUTE**

Federal Body Should Fix Railway Rates and Wages.

Baton Rouge, La.—Commenting on the prospective railroad strike for higher wages, the Times says:

Congress should pass an act at once giving the interstate commerce commission authority to settle the labor disputes, just as it has the right to fix rates.

It is more important that the interstate commerce commission have the right to fix wages and settle disputes than it is that it have the right to determine freight rates and prohibit rebates.

Business can hobble along under high freight rates. Death would follow a general railroad strike.

Both the railroads and the railroad men may be able to withstand a strike but the public cannot. The public is not in a position to face a general strike of the railroads in the country.

The calamity is too awful to contemplate.

It would be more frightful than a dozen Mexican wars. It should not be in the power of a set of men to bring such a disaster to the public.

The commission has the right to say what the railroads shall charge for their service.

This commission should be given the right to say what they shall pay for the labor that it takes to perform this service.

And it should be given this authority at once.

Proposed Increase in Wages Will Ne-

to Be Borne Not by Rich Capitalists,  
but by 100,000,000 People of United  
States.

The employees in railway train ser-  
vice, now taking a strike vote, are not  
only the highest paid workmen in  
America, but they have profited dis-  
proportionately by recent advances in  
wages, declares Samuel O. Dunn, editor  
of the Railway Age Gazette, in the  
July issue of the North American Re-  
view.

As a reply to the question whether  
the railroads should grant the \$100-  
000,000 increase demanded, Mr. Dunn  
gives the following table showing the  
average yearly wages of engineers,  
firemen, conductors and other train-  
men and the average of all these class-  
es combined:

In another table he gives the average  
yearly wages of the remaining 82  
per cent of railway employees and also  
separately those of train dispatchers  
and telegraph operators, station agents  
and section foremen, showing the  
marked contrast between their earn-

seeking a further advance:

All other employees	\$385.58	31.6	40.3		
Operators and dis- patchers .....	994.42	31.9	42.6

Section foremen....	757.36	32.0	37.1		

"The increase in the average wage of  
all train service employees," Mr. Dunn  
says, "in the eight years 1906-14 was  
44 per cent, and in sixteen years 58 per  
cent. The increase in the average wage  
of the other 82 per cent of employees in  
the same periods were 25 per cent and  
40 per cent. The average wage of the  
300,000 train service employees in 1914  
was \$1,253; of the other 1,381,000 em-  
ployees \$387. The contrast between the  
wages of the train service em-  
ployees and those of train dispatchers  
and telegraph operators, station agents  
and section foremen is especially strik-  
ing. The working day of dispatchers  
and operators is limited to nine hours  
by federal law, but that of station  
agents and section foremen is ten  
hours, and they must hold themselves  
in readiness for duty at any time.

"The demands of the train service  
employees cannot be fairly granted un-  
less proportionate concessions are also  
made to other railway employees, but  
the railroads cannot grant the demands  
of the train service employees, much  
less a 25 per cent advance in wages to  
all their employees, which would  
amount to \$220,000,000 a year with  
their present freight and passenger  
rates.

"Most people are disposed to regard  
sympathetically all movements of  
workmen to improve their condition  
on the assumption that any ad-  
vantage labor may gain will be secured  
at the expense of capital. No such as-  
sumption can be made in this instance.  
The proposed increase in wages would  
necessarily result in advances in rates  
and most or all of it would, therefore be  
borne, not by rich capitalists, but by  
the 100,000,000 people of the United  
States. Probably 80 per cent. of all  
the people of this country have smaller  
incomes than the men in railway train  
service, and it is impossible to find  
under present conditions, any justifica-  
tion for a large advance in the income  
of this relatively well paid class mainly  
at the expense of that much larger part  
of the public which is nowhere near as  
well off."

The public cannot afford a rail-  
road strike. It will be more  
disastrous to America than ten  
wars with Mexico. — Chicago  
Tribune.

Members of the railroad brother-  
hoods should hesitate before going to  
strike.—New York World.

# The Ledger's New Map of Mexico

(Size 26x36)

Also Texas and Oklahoma

This is the map that should be in every office  
and home at this time. The new map of Mexico  
contains information and data that every reader  
will want when American army enters the Repub-  
lic. It is very complete, showing every state in  
different colors, all railroads, towns, complete in-  
dex of over 2000 names, with location and popula-  
tion of every town. The Mexico map covers one  
large sheet with important information on reverse  
side of the sheet, while at the foot of the hanger is  
a large number of half-tone views, including the  
pictures of Mexican notables.

## Texas and Oklahoma

These maps are the same size as the Mexico  
map. In addition to railroads, towns, and popu-  
lation, these maps show the auto roads. The maps  
are the latest, having just been received off the  
press from plates recently made. You may have  
a map that you think is a good one, but remember  
changes are taking place every day.

**We Purchased them for The  
Readers of this Paper.**

**How to Get One**—The usual price of the map is \$1.50—that's what it would cost you if you  
went into a book store to buy one. By special arrangements with the en-  
gravers we are able to make the most generous offer ever made on a map of this kind. The map goes with  
the subscription to this paper. Send us \$2.50 and we will send you The Daily Ledger for six months and a  
copy of this splendid map. Send us \$4.00 and we will send The Daily Ledger one year and a copy of the  
map free. Our supply of these maps are limited and on account of the Mexican war the makers of the maps  
are rushed with orders, and it will be some time before we can get another supply. This offer is good to either  
new or old subscribers. Send in your order today.

**Why Endure Summer Colds?**  
All it isn't necessary to have a  
stuffed head, running nose. To  
cough your head off as it were.  
All you need do is to use Dr.  
Bell's Pine-Tar Honey. The sooth-  
ing and healing balsams open the  
clogged air passages and in a short  
time you get relief and start on  
the road to recovery. Your nose  
stops running, you cough less and  
you know you are getting better.  
Get a bottle, use as directed. Keep  
what is left as a cough and cold

### EXPRESSES "APPRECIATION"

James Skinner wishes to express on behalf of himself, publicly, his thanks to the Robert A. Johnson Co., and to the Walker Drug Co. in return for an "appreciated" confectionery present. May both firms be successful and may the Mr. S. K. Gatling receive a full measure of both pleasure and profit. The 50c will be remitted as soon as the recipient of the gift is able to negotiate his finances. "This candy unbeatable."

### Just the Thing for Diarrhoea.

"About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Buford, N. D. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.

### HOW EIGHTH STREET WILL PROBABLY BE FIXED

When the work of pulling the holes out of the pavement in Eighth street begins, it is probable the people doing business on that street will be inconvenienced for a few days. In order to level the road it will be necessary to tear up the macadam and re-roll the crushed rock. This will give the street a new pavement and make it the best in the city, for all of which the people can afford to be inconvenienced for a few days.

### MUCH PAPER GOING TO WASTE IN BALLINGER

Albert and Herbert Sledge are meeting with success in gathering old magazines, newspapers and waste papers. One would be surprised to see the amount of paper that has been going to waste in this city. These two boys have rented a warehouse and are storing the paper until they can assemble a carload, when it will be shipped to the mills. It is an experiment and if the boys make the proposition pay arrangements will be made for saving the waste hereafter and convert what has been thrown away into cash. The Chas. S. Miller iron warehouse just across the alley from the rear of the express office is being used to store the paper in. Those having old papers and magazines will favor the boys if they will phone them.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### BAND BOYS MAKING MUSIC AND ENJOYING LIFE

Sheriff Perkins returned Thursday night from Brady where he had official business, and took advantage of the opportunity to attend the reunion of the Mountain Remnant Brigade U. C. V. which is holding a three days session in that city. It will be remembered that the Ballinger band is making music for this reunion, and Mr. Perkins reports that he never saw a bunch of boys enjoying life more and getting more for their money than the Ballinger music makers. The sheriff says he found every one of the boys parading around over the grounds with a girl, including the professor of the band and the other married members. An introduction was necessary before some of the boys would recognize the Ballinger sheriff, and he is under pledge not to tell a complete story of his trip. Mr. Perkins said that every one he met, and who learned he was from Ballinger, had something to say about the Ballinger band. "The Brady people and the visitors to the reunion are carried away with our band," said Mr. Perkins, "and they say we have a right to feel proud of it."

The reunion closes today, but the music makers are not due to return to Ballinger until Sunday. Constipation is the starting point for many serious diseases. To be healthy, keep the bowels active and regular. Herbine will remove all accumulations in the bowels and put the system in prime condition. Price 50c. Sold by Walker Drug Co.

JUDGE BAUGH ELECTED COUNTY ATTORNEY

Judge J. H. Baugh received a letter from an old friend and school mate, who is now county judge of Culberson county, in which the friend informed Judge Baugh that he had been elected county attorney of Culberson county. The friend assured Judge Baugh that it was not a political joke, but a real genuine, bonified election, and he urged Judge to come to Culberson county at once and accept the honor. As the honor bestowed upon the Ballinger attorney fails to guarantee any fancy salary, and as the Almanac fails to give the population of this new spot on the Texas map, Judge Baugh has so far failed to accept the nomination, and he is taking it as a joke played on him by his old friend and says it goes John Weeks one better.

### ELECTRIC CABLES MAY DELAY WORK

Manager Trendwell, of the local light plant, announced today that the high line crew would reach Winters with the poles tomorrow, and that the arrival of the crew in that city would complete setting poles from Rowena to Winters, a distance of almost thirty miles. The next work will be to string the wire, and this is where a delay is feared. An order was placed for the wire in June, and it is long overdue, with no certainty of arrival soon. The demand for copper and the rush orders is supposed to be responsible for the delay. With the stringing of the wires and the installing of the transformers the matter of turning on the current connecting Ballinger with Rowena and Winters by electricity will be completed.

### A Hacking Cough Weakens the System.

Don't suffer with a hacking cough that has weakened your system—get a bottle of Dr. King's New Discovery, in use over 40 years, and benefiting all who use it, the soothing pine balsam with tar heal the irritated air passages—soothes the raw spots, loosens the mucus and prevents racking the body with coughing. Dr. King's New Discovery induces natural sleep and aids nature to cure you.

### A FREAK CALF

Mr. R. F. Green, the Silver Moon Daily man, brought in to Adolph Wilke, of court-house fame, a three weeks' old calf that has its heart in its neck. Dr. Hale examined the calf Thursday and found the heart up in the neck, just under the jaw, and no heart in its body that should be in the usual place. The calf is fat and healthy and bids fair to live alright and Mr. Wilke says he will put it on exhibition in the court house park.

When the baby is suffering the double affliction of hot weather and bowel disorders, the remedy needed is McGee's Baby Elixir. It reduces the feverish condition, corrects the stomach and checks looseness of the bowels. Price 25c and 50c per bottle. Sold by Walker Drug Co.

Capt. A. B. Hutcherson and wife and their son Arch Hutcherson, of Midland, came in Thursday afternoon to visit relatives and friends in this county. Mrs. M. L. Patterson and daughter, Miss Vera, who had been visiting at Midland, accompanied them to Ballinger.

### The Best Laxative

To keep the bowels regular the best laxative is outdoor exercise. Drink a full glass of water half an hour before breakfast and eat an abundance of fruit and vegetables, also establish a regular habit and be sure that your bowels move once each day. When a medicine is needed take Chamberlain's Tablets. They are pleasant to take and mild and gentle in effect. Obtainable everywhere.

Joe Bengel, the stock dealer, left Thursday afternoon for Valera to look after a bunch of horses he has in pasture near that place.

### Should Sloan's Lintment Go Along?

Of course it should! For after a strenuous day when your muscles have been exercised to the limit an application of Sloan's Lintment will take the soreness and stiffness away and get you in fine shape for the morrow. You should also use it for a sudden attack of toothache, stiff neck, backache, stings, bites and the many accidents that are incidental to a vacation. "We would as soon leave our baggage as go on a vacation or camp out without Sloan's Lintment." Writes one vacationist: "We use it for every thing from cramps to toothache." Put a bottle in your bag, be prepared and have no regrets.

H. C. Fletcher, who represents the auto business for the Higginbotham, Currie, Williams Co., left Thursday afternoon for Comanche in the interest of his firm.

If you sit in a cool draft when you are heated and get a stiff neck or lame back, you will be looking for something that will ease the pain. Fix your mind on Ballard's Snow Lintiment and don't be talked out of it because it is the best pain relieving lintiment you can get anywhere. Price 25c, 50c and \$1.00 per bottle. Sold by the Walker Drug Co.

Mr. and Mrs. S. J. Carmony and children left Thursday afternoon for Moody, where they will make their future home. Mr. Carmony had been operating the ice plant in Ballinger the past year and recently sold the same to the Ballinger light plant.

### Cure for Cholera Morbus.

"When our little boy, now seven years old, was a baby he was cured of cholera morbus by Chamberlain's Colic Cholera and Diarrhoea Remedy," writes Mrs. Sidney Simmons, Fair Haven, N. Y. "Since then other members of my family have used this valuable medicine for colic and bowel trouble with good satisfaction and I gladly endorse it as a remedy of exceptional merit." Obtainable everywhere.

J. F. Harris, one of the Ledger's good friends who has been living near Tennyson, has moved to the Pony community. He was in to have the address on his Banner-Ledger changed this week.
