erican nation from time to time thankful.

We are thankful today for Thanksgiving. We are thankful for the Pilgrim Father who originated the day that has become a custom. If there ever was a time in the history of the American nation when the people should be thankful it appears to us that the 1916 Thanksgiving is the greatest of all. When we stop to contrast our condition with what conditions might have been if it had not been for the true Americans that govern the affairs of this nation, truly we should be thankful.

Some people will be thankful tomorrow. Others don't know how to be thankful. Some will observe the day as it should be. Others will abuse it—waste it, adding to their grouch and say things with them are not as they should be. May be they are not, but who is to blame? Thanksgiving is an American holiday. Why not be an American tomorrow.
