## WILSON CHANGES SPEAKING TOUR; TEXAS NOT ON LIST

Washington, Aug. 29.—It was announced today that President Wilson will not visit Texas on his tour of the nation which was scheduled to start next Wednesday.

The announcement from the White House today that plans had been changed, and the official itinerary made public fixes the starting date for the tour on Sept. 3rd, and the tour will end on Sept. 30th, and will cover only those states from which senators oppose the treaty.

The president hopes to convince the constituents of the senators that the treaty and league of nations is necessary, and has force the senators to ratify the treaty with the league of nations.

Mr. Wilson will speak at Oklahoma City and Little Rock, and at no other points nearer Texas.

W. E. Harrison, of Bay City, will succeed R. L. Harlow as manager of the Ballinger Lumber Co. Mr. Harrison, wife and son are here and will occupy the Wagle place. Mr. Harlow and family will leave next week for Oklahoma, where they will make their home.

## LONE STAR TRAIL MANAGER HERE

That the Lone Star Trail will be the most popular highway in Texas and will carry more travel than any other trail, is the statement of Chester Val-Res, president and general manager of the Lone Star Trail Association, who was in Ballinger in the interest of the trail Friday.

Mr. Val-Res says not another trail across Texas is in as good shape today, and no other trail has as much work already in progress than this trail. The trail passes through the heart of Texas from Texarkana to El Paso, and has a top line connecting with the Jefferson Highway to Shreveport, giving direct route from eastern and northern travel to the west over an all-the-year route.

"Our route will be so well mapped out and marked that a tourist can make the entire trip across Texas without having to ask a question about which way to go," said Mr. Val-Res, "as we have adopted the most perfect system of marking the route, and will make plain the way."

The Lone Star Trail Association will supply maps of the route and log books and the work will be handled through the Chamber of Commerce at Waco, and along the trail. Mr. Val-Res says that at least fifteen thousand tourists annually will pass through Ballinger over this trail.

### GOSPEL MEETING

Evangelist H. C. Harper, of Sneads, Florida, one of the best known and most interesting of the preachers in the Church of Christ will begin a series of gospel meetings at the 9th Street tabernacle tonight.

Miss Aileen Rowland returned to her home at Navasota Thursday afternoon after a visit to her sister, Mrs. A. J. Pfeffer, of the Winters country. Mr. and Mrs. Pfeffer were here to bring Miss Rowland to the train.

## SAYS PEACE SHOULD BE REJECTED

Washington, Aug. 29—Senator Knox, of Pennsylvania, today attacked the peace treaty and league of nations in a speech before the senate. Mr. Knox declared that the treaty contained the seeds of future wars, and said that he was convinced that the treaty should be totally rejected.

## GRAIN MAY MOVE TO NEW ORLEANS

Fort Worth, Aug. 28—A telegram was sent today to Julius Barnes, federal grain administrator, by the West Texas Chamber of Commerce and the Texas Grain Dealers, asking that a new low rate on grain from Texas to New Orleans be instituted quickly and that some of the Texas crop be diverted from Galveston which port is unable to handle the vast amount that is pouring in. They asked that a portion of the crop be sent to New Orleans, where there are more ships.

The shippers are handling the biggest grain crop Texas has ever had and it is proving a difficult situation. Cars are in the yards at Galveston, it is reported, and cannot be moved because they are loaded with grain and are awaiting the arrival of ships before they can be unloaded. The shipment of oil supplies taken together with the vast increase in the crop is attributed as the cause of the congestion.

Mrs. D. E. Rose and daughter, Mrs. Burton who are here from Tennessee visiting Mrs. S. P. Stone, returned from a visit to Cisco Friday at noon.

Miss Juanita Durham, of Sterling City, is the guest of the W. A. Francis family, while en route to Winters where she will teach school.

## You can economise in clothes

THE high cost of clothes is not the price you pay for them; it's what you get for your money.

If the clothes don't wear, don't give you good service, they're expensive at any price. You can reduce the cost of clothes by being particular about what you get for what you spend.

Get all-wool fabrics and high-class tailoring; nothing else wears so well. Get good style; a good appearance is economy. You'll get all these things here in Hart Schaffner & Marx clothes; complete satisfaction or money back.

**Higginbotham Bros. & Co.**

## PASSENGER TRAFFIC IS PICKING UP FAST

The west bound Santa Fe Thursday carried an extra coach and brought about fifty passengers to Ballinger. The train was operated as a double header until it reached Brownwood, coming out of Temple with two engines furnishing the power.

The Abilene and Southern arriving here at noon Thursday also brought a large number of passengers, many of whom stopped here while others transferred to the Santa Fe.

There is a rapid increase in passenger traffic, and the trains are running late almost every day. The traffic will of course increase as the season for crop harvest and heavy movement of both passenger, express and freight traffic has hardly opened.

Just how the railroad companies will handle the business is to be watched with interest, but unless there is an increase in train service, the public is going to get mighty sore before the rush is over.

## WAR S. STAMP WORKER IN CITY

J. A. McLean, territorial Savings advisor for this territory with headquarters at Brownwood is in the city in the interest of War Savings Stamps and Savings Certificates. Mr. McLean will probably remain over until Saturday to meet with the local school teachers in their conference Saturday morning.

Mr. McLean has twenty counties in his district, and he says that he recently visited the oil field counties and secured one-third of the entire quota for the twenty counties.

The government is now issuing \$100 registered treasury saving certificates which are on sale at the local postoffice for \$84. The certificates bear interest at the rate of four per cent compounded every ninety days. The certificates are also issued in \$1,000 denominations.

Martin Friek, of the Winters country, passed through Ballinger Friday en route to Bay City where he had farm interests.

Mrs. W. H. Doss returned to her home at Valley Mills Thursday afternoon. She was accompanied home by her daughter-in-law, Mrs. A. K. Doss and children.

Dr. J. W. Dickinson, of Fort Worth, returned from a visit to Sonora Thursday, and is visiting his brother Dr. R. A. Dickinson.

## WILSON AND GOMPERS IN CONFERENCE

Washington, Aug. 29—President Gompers president of the American Federation of Labor, conferred with President Wilson this afternoon to discuss the labor situation.

Nothing was given out to indicate what was agreed upon between the president of the nation and the president of the federal labor organization.

The governors of seven states also met with the president this afternoon to discuss plans to lower the cost of living.

Mr. and Mrs. J. A. Dierschke and Mrs. Pelsner returned to their home at Moulton, Texas, Thursday afternoon. They had been visiting their brother, G. H. Dierschke and family of South Ballinger.

August Globber and family are here from Dallas visiting Mr. Globber's mother and other relatives.

**AN ILL WITHOUT A REMEDY**

The president of these United States and Congress are having a devil of a time with the labor unions, to stave off a strike, etc. As far as we are concerned, we are willing to take a stand and make a fight, as it's going to come sooner or later. The labor unions have charge of the railroads now and the management, freight and passenger traffic is the most damnable farce in commercial history. Yes, the arteries of commerce are choked up and we haven't had a freight shipment in three months.—Albany News.

That the United States is confronting a most serious situation from threatened strikes is certain. Already wages have been

advanced, with an ever increasing rise in the cost of living until money seems to have little value. A solution for the trouble is the important task of the hour.—Albany Reporter.

Yes, we are in the dickens of a fix, and can't consistently criticize Germany, Russia or any other nation. It seems to be an ill without a remedy. To increase wages means to increase the cost of living, and to not increase wages means that commerce will be tied up, food panics precipitated in the large cities, and the devil to pay generally. Things are getting in such a muddle that the average man does not care much what happens next. That's a pessimistic view to take of the situation, but it is a fact. If it is going to take a revolution, akin to that pulled off by our neighbors on the south to settle the trouble, why not let it come, and then maybe we can reorganize and get down to doing business again on the basis of a civilized people.

**MRS. DOOLEY'S ADVICE TO WORKING GIRLS**

Milwaukee, Wis.—"I wish all girls who work and suffer from functional disorders would profit by my advice and take Lydia E. Pinkham's Vegetable Compound. Before I was married, when I came home from work at night, I would be just worn-out with pain which dragged me down. I took Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I no longer work from morning until night and it does not bother me, and I wish all girls who suffer as I did would try Lydia E. Pinkham's Vegetable Compound."—Mrs. H. Dooley, 1325 25th Street, Milwaukee, Wis.

Working girls everywhere should profit by Mrs. Dooley's experience, and instead of dragging along from day to day with life a burden, give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound a trial. It has overcome just such conditions for thousands of others, and why not for you? For special advice, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

**Says Government Wants New War**

Washington, Aug. 28.—Representative Mondell, Wyoming, in the house late today charged that the administration is "planting the seed and actively endeavoring to create the sentiment for intervention in Mexico."

Such a conclusion, he asserted, cannot be escaped by "anyone carefully reading the newspapers." The plain effort is being made on the part of the administration to create a situation in which congress will be compelled to act," declared the republican leader, who added that carefully prepared information regarding intervention was being spread thru out the country.

During his speech, the republican leader also referred to the war department's plan for an army re-organization on the basis of a force of 570,000 officers and men, asserting such a force was too large, but that there "need be no fear that congress—at least the republicans—would approve it."

"This congress, at least the republican members," declared Mondell, "will not approve any program that will cost over a billion dollars a year."

**BUYING MATERIAL FOR 1,500 WELLS**

(From the Oil Weekly)  
One of the major producing companies in the West Texas district has just placed an order with a milling company for derrick timbers for 500 standard rigs, to be used in the West Texas district.

Another company with considerable acreage in West Texas has placed orders with the mills for timbers for 400 rigs, and still another company has material for 300 standard rigs.

All this material is for delivery to the West Texas fields, and is indicative of the plans of the producing companies for the development of the central West Texas district.

While the figures are not available that will show the plans of all the operators in West Texas, it is well known that a drilling program is in contemplation that will make the development already under way look like only a beginning.

Most of the companies are facing drilling obligations on leases in Eastland, Stephens and adjoining counties and are forced to begin operations at specified times or lose their acreage.

It is believed that a large part of the material recently ordered are for use in Stephens county, as it is known that development of this county has been delayed seriously, and that operators are unwilling to sacrifice their holdings in Stephens county on account of the scope of territory that has shown production, and because of the good records, established by the completed wells in this county.

Four steps have been decided upon, he said. They are: Demand for congressional and presidential investigation; an appeal to Governor Smith to protect the interests of citizens of New York who visit Texas and legal action against the persons who attacked Shillady.

**Negro Leaders  
Predict Trouble**

Washington, Aug. 28.—Asking for an amendment to the peace treaty so as to provide for racial equality, a delegation of negroes, speaking for the national equal rights league, told the senate foreign relations committee today that serious trouble might be expected unless better treatment was accorded negroes in the United States.

"The black man has given notice," said A. Whaley, New York negro, "that what he has suffered in the past will not be endured in the future. He means business now. There can be no

compromise."

William Monroe Trotter of Boston, secretary of the league voiced a similar opinion, said the "oppression" of the negro in American was reaching a point where no one could be sure "that our land will be a land of peace." Neither witness, was questioned as to what he had in mind by these declarations. Only five of the seventeen committee members, all of them republicans, attended the meeting. An amendment to give the United States a mandatory over the Kamerun, a German colony in Africa, was requested by Joseph T. Thomas, a negro of Cleveland, Ohio, representation the national race conference, American negroes he said, could be recruited to police the territory under white of-

fiers. A petition that all the African colonies taken from Germany be "divided between Egypt, Abyssinia and Liberia," was filed by the league of darker people of the world.

The amendments were proposed by the equal rights league of Nations covenant that the members would agree and vouchsafe to their own citizen, the possession of full liberty, right of democracy, and protection of life without restriction or distinction based on race, color, creed or previous conditions.

The other would add a similar guarantee as separate section of the treaty.

# Twenty-Four Hours a Day!

**Cletrac**  
TRACTION TYPE TRACTOR

## We Will Run Our "Cletrac" Twenty-Four Hours a Day

Commencing Monday, September 1st., 1919.

The "Cletrac" never boils water—never heats excessively—and gives that same dependable service whether it works one hour or twenty-four. Mr. Harley Turner, prominent rancher and breeder of fancy horses, of Water Valley, has been investigating the Cleveland tractor for the past three months. Yesterday he handed us his check for a "Cletrac."

Come out and watch this little machine perform. Listen to the motor and see if you can catch the slightest indication of labor. If you try to follow it around the field you will walk faster than you ordinarily walk. If the wheel type tractor is so successful why didn't they put wheels on the fighting tanks? Why didn't they use wheel type tractors in France instead of caterpillars? Ask the boys who went across—they will answer the question for you.

If you have some acreage to plow near Ballinger, get in touch with Mr. Kayser at the Central Hotel.

If you are interested in tractors, watch the "Cletrac in the 1,000 acre demonstration.

Those who remained away from the revival Thursday night for fear that they would come in contact with dampness caused by the refreshing showers which fell a short time before the hour of service, missed a good service.

The attendance was good, considering that Ballinger people are afraid of rain, and the evangelist Dr. Fincher, delivered a message inspired weak man to a desire for the better life.

Tonight bids fair to be a record breaker for attendance as it is auto night, and a committee has been organized to assist in bringing people to church. It will be the special service for the week. The first week of the revival is practical over, and while the rain has interfered to some extent the work is well organized and next week will no doubt be a great week for the religious interest of the city.

District Attorney Walter U. Early, who has 130 acres in cotton on his farm east of the city, says he has the finest prospects in the world for a bale to the acre. There is a third to a half bale to the acre now in matured bolls on the plants, he says and the late rains which caused some shedding is also causing cotton to bloom freely. A reasonable dry September, Mr. Early thinks, will enable this new crop of blossoms to mature a crop.—Brownwood Bulletin.

### Living Cost Must be Lowered Soon

Washington, Aug. 28.—Industrial peace in the United States, according to the legislative council of the railroad shop crafts, depends on the results the government can show in the next ninety days in its campaign to reduce the cost of living.

That time limit was actually set today by council in suggesting to union locals throughout the country that President Wilson's compromise offer in response to their demands for higher wages should be accepted pending the outcome of the effort to restore a normal price level.

If the cost of living does not come down, the 500,000 members of the shop crafts would reserve the right to strike for more money with them probably would be associated the remainder of the 2,500,000 railroad employees.

The letter of the executive council was said to compose somewhat the uneasiness felt in official circles over the immediate labor situation and to focus attention on the legal measures being directed by Attorney General Palmer and his assistant, Judge Ames, to take the inflation out of prices and to punish hoarders and profiteers.

Washington, Aug. 28.—Director General Hines today served notice on "public officers, railroad officers and employes and citizens generally in California, Arizona and Nevada" that the railroad administration would undertake to restore full railroad service in those states on and after 7 o'clock next Saturday morning and that all employes, who do not return to work by that time will find their places filled.

Anyone who interferes with or impedes the use of railroad property, Mr. Hines said, would be dealt with for having committed an offense against the United States.

This action coming after the announcement by the four brotherhood chiefs that the brotherhoods would assist the railroad administration in operating the lines if the illegal strike was not terminated is the most drastic ever taken by the government in a labor controversy.

Mr. Hines, in addition, sent telegrams to the governors of California, Nevada and Arizona, and to the mayors of principal cities in those states, asking co-operation in maintaining traffic and in preventing interference with the movement of trains.

If you feel "Blue" "no account," lazy, you need a good cleaning out. HERBINE, is the right thing for that purpose. It stimulates the liver, tones up the stomach and purifies the bowels. Sold by John A. Weeks.

Miss Berta Bostic came in Friday and is here to resume her duties in the local schools.

### A Traveling Man's Experience

You may learn something from the following by W. H. Ireland, a traveling salesman of Louisville, Ky. "In the summer of 1888 I had a severe attack of cholera morbus. I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic and Diarrhoea Remedy and to take no substitute. I took a double dose of it according to the directions, and went to sleep. At five o'clock the next morning I was called by my order and took a train for my next stopping place a well man."
