"Remedy For A Troubled World"

By Glenn Willson
Pastor Carbon Baptist Church
Through the years man has been trying to solve and settle the many problems of the world. They need to realize they are fighting a losing battle as long as they depend only upon the strength and wisdom of man. World troubles will vanish if man will follow God's teaching in I Chronicles 7:14. "If my people, shall humble themselves, and pray, and seek my face, and turn from their wicked ways, then will I hear from heaven, and will forgive their iniquity, and will heal their land."

ordinating scientific research, he said, here are these differences: "Warime research was chiefly concerned with applying knowledge which had previously been discovered, while problems like that of cancer require the discovery of new knowledge."

Dr. Frank E. Adair, president of the American Cancer Society, said that "in reconverting the scientific effort of the nation from the problem of war to those of peace, one of the chief problems we face is that of cancer."

Dr. Adair asserted that between Pearl Harbor and V-J Day cancer killed more than twice as many Americans as did the Germans and the Japanese. Unless something is done about it, he said, 17 million Americans now living would die of cancer, which is exceeded only by heart disease as a cause of death.

Elmer H. Bobst, president of William R. Warner & Co., chairman of the executive committee of the Cancer Society, said that the business men on its board, under the leadership of Eric A. Johnston, stood ready to do all in their power to support the cancer research program.

Several of the projects were authorized under a co-ordinated plan for development of the Missouri river basin. World halted during the war will be resumed on the million acre Columbia basin project in south central Washington and the central valley project in California.

Explosive Pens Used in War Traced to Fascists. ROME.—The wartime propaganda story that American and British airmen had dropped explosive pens and pencils which wounded Italian children when they picked them up was proved a myth.

The Grin that Won a War

DON'T LET HIM LOSE IT NOW!

HE WENT INTO BATTLE with a smile and a wise crack... he took everything the enemy could throw at him, and suffered in silence when wounded.

We can't let him lose that spirit now. During the endless months of impatient waiting to come home... or the long weeks of convalescing... thoughts may weigh heavily on his mind.

We at home helped him keep his chin up. When he's back, proudly wearing the little gold eagle, emblem of an honorable discharge... will that grin fade? Will that happy-go-lucky smile change to bitterness? The grin that won a global war can win a private one and the Red Cross is ready to help wherever need for its counsel and guidance exists.

Through the long, grueling years of war the Red Cross reached across the sea and extended a friendly hand to our fighting forces... and those returning home can find in every local chapter the same symbol... the same spirit of helpfulness.
