A Letter Of Thanks

I wish to express my sincere thanks and appreciation for the splendid vote the people of Eastland and Callahan Counties gave me in this Primary election.

I made the race strictly on my own merits and I assure the people of the 107th District that I intend to continue my campaign on the same high plane.

I will greatly appreciate the continued support of the voters of this District at the election to be held on August 27th.

If you elect me as your Representative I promise you that I will faithfully perform every duty and responsibility of this office of high trust, giving due consideration to every individual of the District.

If elected, I will make a vigorous and uncompromising fight for a general reduction of Government expenses and lower taxes, this being the basis of my platform.

Thanking you again for the splendid support given me in the recent Primary election and asking for your continued influence and support.

Respectfully,
B. L. Russell, Jr.,
Candidate for State Representative 107th. District.
A. W.

Mr. and Mrs. W. F. Gilbert of Jayson are visiting relatives here

Mr. and Mrs. B. A. Kelly and Mr. and Mrs. Carter of Houston visited W. J. Greer and wife last week.

Mr. and Mrs. A. D. McGinnis, J. T. Berry and Wm. Reagan of Cisco visited Mr. and Mrs. H. Hall Sunday.

Mr. and Mrs. Weaver and Lottie Mae returned to their home in Levelland Monday.

Locals

J. Frank Brown, wife and daughter, Miss Laverne, of Levelland were short time visitors with Mrs. A. E. Kirk Monday.

Mrs. W. Guy and children of Roswell, New Mex. are visiting her sisters, Mmes. Paul Poe and H. H. Guy.

Miss Bettye Mae Jackson is attending summer school at Lubbock.

Rev. Canaday filled the pulpit at the Baptist church Sunday morning and Rev. Vaughn at the evening hour in the absence of the pastor, Rev. A. A. Davis, who is holding a meeting at Necessity.

Mrs. Simms and daughters have returned to their home at Italy, Texas after visiting their daughter and sister, Mrs. A. A. Davis.

Miss Margaret Lee Reed of Abilene and Miss Nell Ruth Kellert of Eastland who are the guests of Miss Violet Boatwright will leave Saturday for Abilene.

O. C. Richards and wife of San Angelo are visiting his parents, W. R. Richard and wife.

Mr. and Mrs. M. T. Overall of Dallas were last week guests of her father Rev. J. W. Holt and wife.

Elmer Walker and son Wayne and Henry Collins of Olden visited in Grand Prairie Tuesday.

Dabney Estes has returned to his home in Italy after visiting his mother, Mrs. A. A. Davis.

Elmer Gilbert of Roby is visiting relatives here.

Rev. B. F. Clement was called to Fort Worth Friday to hold the funeral of Ned Raub, who was killed there Thursday. He is survived by his parents, Mr. and Mrs. J. A. Raub of German, 4 brothers and 2 sisters. He was laid to rest in Rose Hill cemetery at Fort Worth.

J. C. Poe and Miss Merle Stone announced their marriage one day last week, which took place 22nd. of March. The friends of Mrs. Poe gave her a nice bridal shower Friday in the home of Mrs. Lon Medford.

Mrs. C. J. Williams and Mrs. Clyde Brymer were in Cisco Thursday.

To The People Of Eastland County

I wish to express my sincere appreciation to the people of Eastland County for the splendid vote given me for Criminal District Attorney in the first primary.

You gave me over twice as many votes as my nearest opponent, and I assure you that this testimony of your faith in me will not be misplaced.

I have nothing but the best of feeling for you who voted for my opponents, and will sincerely appreciate your help in the second primary. The fact that I polled by far the heaviest vote of any of them makes me doubly grateful, and I assure you that I will appreciate a continuance of your support in the second primary, which will be held on August 27.

If you see fit to entrust me with this important position in the August primary, I promise you that I will fill the office to the best of my ability, and that your trust in me will be hope sacred.

Again thanking you, and assuring you of my sincere appreciation, and so letting your support through the coming election, I remain

Gratefully Yours,
Grady Owen.

SHERIFF'S SALE
THE STATE OF TEXAS
 County of Eastland } By
 virtue of a certain Order of Sale
 issued out of the Honorable 51st
 District Court of Eastland County,
 on the 5th day of July 1932
 by W. H. McDonald, District
 Clerk of said Court, upon a judgment

**TEXAS RAILROADS PAY
 SUBSTANTIAL PART OF
 STATE'S TAX BURDEN**

● Taxes is one of the large fixed charges connected with the operation of Texas railroads. From the standpoint of the welfare of state, counties and communities, railroad taxes are of much importance. This annual obligation must be met from the earning capacity of the rail carriers.

In 1931 the railroads of Texas paid a total of \$8,303,108.47 in federal, state, county, municipal and miscellaneous taxes. The distribution of this amount to the various tax funds is shown below:

	Amount Paid	Per Cent of Total Tax Paid
U. S. Government.....	\$ 61,270.13	.74
State	1,954,435.47	23.54
County	1,146,669.97	13.81
Roads	1,699,764.15	20.47
Improvement Districts.....	175,606.87	2.12
Schools	1,437,152.74	17.31
Cities	1,792,994.61	21.59
Miscellaneous	35,214.59	.42
Total	\$8,303,108.47	100.00

It can thus be seen that railroad taxes represent an important and indispensable factor in the economic life of our state. They help in a large measure to pay the expense of our state, county and municipal government, build and maintain highways, pay the cost of drainage and other improvements, and support our schools and educational institutions.

It is the desire of Texas railroads to extend this helpfulness to Texas counties and communities in carrying this heavy burden. However, their ability to meet these obligations as they become due depends upon their ability to earn sufficient revenue with which to pay these and other heavy expenses connected with their operation.

● RAILROADS HAVE ALWAYS SHOULDERED THEIR SHARE OF RESPONSIBILITIES TO THE NATION, THE STATE, AND THE CITIES AND COMMUNITIES THEY SERVE, AND WILL CONTINUE TO DO SO TO THE EXTENT OF THEIR ABILITY.

Farmers Must Plan For Profits

WHEN selling prices are low, the only sure road to profits is the one which leads to lower production costs. The farmer cannot control market buying prices. But he can control his own operating costs and he can plan to maintain a favorable margin of profit. To reduce production cost (even though the farmer cultivates fewer acres) PER ACRE PRODUCTION MUST BE INCREASED.

This calls for more intensive fertilization which will make every acre under cultivation give maximum results. Since labor costs remain about the same per acre, regardless of production volume, increased per acre production really means a proportionate saving in labor cost. Better fertilizing means also better quality which in turn means higher selling prices.

This is not mere theory. It has been proved over and over again in numberless practical farm tests.

Nitrogen is the growth element in all fertilizers. Arcadian Nitrate of Soda used as top dressing or side dressing supplies this growth element in a quickly available form at a time when this type of plant food is vitally needed. Only the short sighted farmer will neglect to give his fields adequate nitrogen if he hopes to make a profit.

The Shipping Qualities of Tomatoes Improved Prices

IN TESTS conducted by the West Tennessee Experiment Station, up to plants that received heavy applications of Nitrate of Soda in addition to mixed fertilizer made high yields and produced as well fruit of improved shipping quality.

A commercial shipping test was made to a receiving point in the North, where they were examined. The fruit from the heavily fertilized plants were found to be superior.

Growers have long recognized that top dressing with Arcadian Nitrate of Soda brought increased yield. Now they know that fruit of good shipping quality which obtains better selling prices calls for heavy fertilization.

Bottles in History

The first bottles probably were made of animal skins. In ancient Egypt bottles were made out of such materials as stone, alabaster, porcelain, ivory, gold, silver, bronze and glass. The Phoenicians and Romans also made glass bottles. Earthenware bottles were possessed by the Egyptians and Hebrews, and still are used in the East. Venice held the monopoly of the manufacture of glass bottles in the Middle Ages. In China, beautiful bottles of various forms, and substances such as jade, agate, and rock crystal, have long been known. Bottles made of the dried rind of gourds are used by Italian peasants. The first bottle-blowing machine was invented by an Englishman near Ashby in 1882. The first fully automatic machine was invented by Michael J. Owens in America, between 1890 and 1900.

Today's Tasks First

Today is the appointed time to get your job done. Never put it off until tomorrow, for tomorrow will never come. Inertia is one of the greatest of our sins. Do today what should be done today—tomorrow will find its own tasks.—Grit.

GOLD RUSH ON IN NORTHERN CANADA

Calgary—A radium "rush" is on in northern Canada. It is something new in mining adventure. The old time gold "rush" has passed into history for the time being, at least. Discovery of \$10,000,000 worth of radium has produced a novelty in mine prospecting.

But there is a gold "rush" also in British Columbia, hundreds of men going out into the gold districts. It has been predicted that 10,000 will go out from Vancouver alone. Two hundred grams of the precious radium—quoted now at \$50,000 a gram—are already in prospect at Great Bear Lake, judging from calculations made during pre-

liminary surveys, according to Dr. A. E. Cameron professor of mining at University of Alberta. This is one third of that already produced in the whole world. Syndicating operations have covered all the territory in which the pitchblende is supposed to lie—as they have the known gold fields—so that a "rush" of prospectors generally would not net

them anything. However, there has been just as much picturesque activity among a smaller number of persons in the Far North to obtain the precious ore. There is a possibility, in view of the extreme importance of radium to the world, that the government may take over the deposits. But just now the chief problem is how to get it out—there

being no railway and the trail being too long and hard for carriage otherwise than by airplane. And the capacity of airplanes to carry heavy ores is very limited. The deposits are at La Bine Point, Great Bear Lake. Hugh A. Spence, mineral technologist of the Dominion department of mines at Ottawa, has examined the deposits and pronounced them very valuable. Discovery was made in the spring of 1930 by Gilbert La Bine and considerable work has been done in opening. At present values, ore could easily meet the cost of shipment to rail, which is \$400 a ton. Improved transportation facilities, however, will have to be provided. A small gasoline boat drawing a ten-ton scow is the available method of transportation across Great Bear Lake (and via the Great Bear River) to Norman on the McKenzie River Waterway, and ore has to be handled several times. Railroad is at Waterways, Alberta. An estimate of radium in prospect, which was based on calculations by Spence, takes it for granted that 2,000 tons of pitchblende are obtainable, this running 50 per cent uranium oxide, which gives 130 milligrams of radium to a ton. In the vicinity of Fort Norman discovery wells, considerable attraction exists for exploration. The area is a large one over which districts are scattered in which structures closures and petroliferous strata may reasonably be expected. Planes making frequent trips have taken in prospectors to stake ground, and the two commercial planes services have reported themselves able to handle only a small part of the traffic offered to them. Ground south of La Bine Point has already been staked for miles. The more recent staking has been principally in the hope of finding silver. The silver occurs as leaves and films throughout the massive pitchblende, also as a strong vein up to 30 inches wide of carbonates and wire silver in contact with the pitchblende (silver constituting 40 to 50 per cent of the vein matter) and as leaves and films on joints and cracks in a 10 to 15 foot sheared band on the foot wall side of the vein. Surface ore in spots is very rich—almost pure metal. More than 1,000 claims have been staked, according to latest reports.

TAX FREE Firestone TIRES

WHILE THEY LAST!
Buy Now— This offer is limited—while our stock lasts we are selling Firestone Extra Value Tires at Tax Free Prices. When these are gone prices will go up. Don't delay—
Buy Now and Save.

*Firestone tires are made of the finest materials under special supervision. Each tire is made without the use of any artificial materials. They are of the highest quality and are guaranteed to give you the longest service life.
