INJUNCTION IS FILED AGAINST UNIONS

DRAG NET LAID FOR BOMB PLOT LEADERS

(By Associated Press)
CHICAGO, Sept. 1.—Police and federal authorities have launched a vigorous drive against radicals and terrorists believed to be behind the plots to bomb and wreck railroads throughout the country. The round-up began this morning with the arrest of a man charged with bombing the homes of two workers in the Illinois Central shops at Burnside. Frank Hartman, one of the trio who were arrested yesterday in connection with the alleged plot to blow up the Western Express on the New York Central, is still in custody of the officers, although the other men have been released, having furnished evidence that they were not connected with the plot.

The activity of the officers in launching the nation-wide raid followed a twenty-four hours of increasing disorders, burning of bridges, dynamiting of railroad property throughout the nation, and other depredations.

In connection with the round-up, deportation proceedings against aliens arrested in connection with the plots are probable the authorities stated.

Card of Thanks

I wish to publicly thank the fire boys for the efficient work in saving my home from destruction by fire Friday morning. The fire was gaining good headway when discovered and without the prompt and efficient service of the Volunteer Fire Company the house would no doubt have been destroyed.

Troy Simpson.

NO HOPES FOR ENTOMBED MEN

(By Associated Press)
JACKSON, Calif., Sept. 1.—There are no hopes of rescuing the 48 miners entombed in the Argonaut mine. The rescuers will pierce the depths of the mine too late to save the men who have been buried either dead or alive since last Sunday. This fear was increased this morning when officials said that the depths of the mine, where the men are supposed to be buried, could not be reached before next week.

The fire which imprisoned the men nearly a week ago has been placed under control and is about out, but the heat is still intense below the 2500 foot level, and the rescuers cannot reach the entombed miners.

The families and friends of the men buried nearly a mile underground are almost frantic with grief, and are spending day and night near the mine shaft hoping against hope that the men will be rescued alive.

H. W. Bowen, of the Wilmett-Wingate country, was a pleasant caller at The Ledger office Thursday, dropping in to see the new model linotype machine. Mr. Bowen stated that crops were good in the Wilmett section, and that they would commence cotton picking next week.

Sim Cottelle left Thursday afternoon for Houston, and other points, where he goes on cotton business.

SAYS MINER DID TO CLEAN UP CITY NOT SURRENDER FOR COUNTY FAIR

(By Associated Press)
MARION, Ill., Sept. 1.—Attorney General Brundage today emphatically denied that Otis Clark, the first man indicted in connection with the Herrin mine massacre, had surrendered as was reported yesterday. "Clark was arrested," said the attorney, "and he did not surrender."

An investigation of the massacre continued today while the miners in Williamson county are busy in the mines that have been idle four months. Clark is still in jail waiting for Circuit Judge Hatwell to set a date for the hearing on a petition to obtain his release on bond.

Judge J. H. Baugh returned to his home at Brownwood Thursday afternoon. He had been here attending district court.

The Civic League has announced that the week of September 4th to 9th will be "Clean Up" Week in Ballinger. The League states that they are announcing the earliest date this year for the fall clean up in order that the city may be spotlessly clean during the County Fair.

"Thousands of people will doubtless visit the city during the three days of the Fair, and will gain a much better impression of the city if every yard, alley and street is free of weeds, trash and rubbish."

Committees from the Civic League will bring this matter to the attention of householders thru-out the city by calling them over the phone and reminding them that the semi-annual city clean-up is in progress.

The Civic Improvement Committee of the Young Men's Business League has informed the ladies that the commercial organization may be depended upon to assist in this meritorious move.

PREDICTS A THIRD BALE PER ACRE

E. M. Setser, of the Norton country, was in the city Friday, and reported cotton beginning to move in his part of the county. Mr. Setser forecasted that considerable acreage in the Norton country will yield a third of a bale per acre, and stated that eighteen hundred acres of the Mebane long staple promised a third of a bale per acre. Most of the long staple cotton will be hauled here to gin under contract with Edwin Day.

(By Associated Press)

CHICAGO, Sept. 1.—The United States government today granted a temporary restraining order against the six striking railroad shops crafts, their officials and members, restraining them from in any way interfering with the operations of the railroads or their properties.

The order was granted by Federal Judge Wilkerson and will remain in effect until Sept. 11th pending a hearing on the government's application for a permanent injunction.

The suit is intended, according to government officials to keep the railroads operating, and free from interference and obstruction by workers who are refusing to work, and who are attempting to keep others from working.

In addressing the court in asking for the injunction Attorney General Daugherty said, "No unions or combinations of unions can dictate to the American Union, and when the labor unions attempt to dominate the American people and deprive them of the necessities of life, then the government will rise up and destroy the unions."

COTTON DROP FOLLOWS BULLISH CROP REPORT

(By Associated Press)
WASHINGTON, Sept. 1.—Despite a decline of thirteen and eight-tenths percent during the month of August, the cotton market dropped about three dollars per bale today.

A reduction of 874,000 bales in the prospective cotton crop this year since the forecast given out month of August, the cotton department of agriculture in the September cotton report forecasting the total crop, made public today.

The total crop is estimated at 10,575,000 bales and the condition shows a decline of 13.80 points during August as compared with a decline of 7.70 points for the previous ten years in August. The condition of the crop throughout the country is given at 57 per cent normal on August 25th as compared with 70 per cent normal on July 25th. The condition of the Texas crop is given at 59 per cent normal and the production of the Texas crop is estimated at 3,644,000 bales.

DALLAS — Tenfre Knickerbocker this fall will take charge of the School of Journalism of Southern Methodist University here, according to announcement by John H. McGinnis, professor of English at the university. Mr. Knickerbocker is the son of Dr. Hubert Knickerbocker, pastor of the First Methodist church of Wichita Falls. Mr. Knickerbocker attended Southwestern and Columbia universities and worked on several Eastern newspapers.

CHICAGO, Sept. 1.—The shop strike situation became more acute today with the filing of suit for injunction against all striking employees of the railroads in the United States and their union officials. The injunction suit was filed in federal district court today by Attorney General Daugherty.

The petition for the injunction named the railway employees' department of the American Federation of Labor the six striking shops crafts and one hundred and twenty railway system federations. The suit seeks to restrain all the strikers from interfering in any way with the operation of the railroads. The petition was filed shortly after the arrival here of Attorney General Daugherty and created considerable stir in railway circles.

WASHINGTON, Sept. 1.—The leaders of the striking shopmen will not abate their efforts to make the strike effective, regardless of whatever action is taken in the Chicago federal court as the result of the injunction proceedings instituted by Attorney General Daugherty, according to W. H. Johnston, president of the International Association of Machinists, one of the largest groups of employes in the strike.

"Filing this suit is just another blunder to be added to the large list of blunders which the administration has already made in dealing with the railroad situation," said President Johnston. Continuing his comment Mr. Johnston said, "I am surprised that the attorney general did not try to restrain the railroads instead of the men. The administration has done everything it could to help the railroad management in this strike and has stood out against the unions."

2 DEAD AND 7 HURT IN WRECK

(By Associated Press)
CAPE GIRARDEAU, Mo., Sept. 1.—Two persons were killed and several injured in the wreck of a Frisco passenger train near here today. The train crashed into a creek when the trestle gave way.

BEAUMONT — According to local representatives, the Kansas City Southern should finish construction of its belt line thru Port Neches by October 1. This line, when completed, will not only provide rail facilities for the growing town of Port Neches, but also will allow of more ease in freight handling for the different tank farms and for the refinery.

REASONS WHY DEATHS SHOULD BE RECORDED

Benefits derived from death registration.

Settlements of estates.

Settlements of life insurance policies.

Settlement of pension and war claims.

Civil action at law in settlement of damage suits, death due to criminal negligence.

Proof of dissolution of marital relation in case of disappearance and desertion.

An aid to life insurance companies in the disposition of border line cases.

Settlement of contestible life insurance claims, establishing proof of fraudulent statements and misrepresentations.

Aid in sanitation and prevention of occupational and communicable diseases.

Location of endemic disease areas.

Detection of epidemic diseases and indications for the adoption of hygienic measures and establishment of quarantine measures.

Universal observance of the Sanitary Code by the undertakers would result in the admission of the state to the federal death registration area.

The state would be the recipient of financial benefits and other funds available under different federal acts.

Franchising privileges of the mail by the Bureau of Vital Statistics.

A complete mortality report of the state will operate as an aid in the unification of the federal mortality experience.

NOTICE TO CONTRACTORS

for STATE ROAD AND PAVEMENT CONSTRUCTION

Sealed proposals addressed to J. Frank Paxton, Mayor, for the improvement of certain roads and streets in the City of Winters, Texas, will be received at the office of the Mayor, Winters, Texas, until 10:00 a. m., September 22, 1922, and then publicly opened and read.

DESCRIPTION OF WORK TO BE DONE: Two blocks of paving with curbs on Main Street and one block of paving, curbs and one concrete culvert on Post Office Street. Approximate quantities: 8060.06 sq. yds. pavement, 1530.75 lin. ft. curbs, 17.37 cu. yds. Class "A" concrete, 2103 lb. reinforcing steel, 35 cu. yds. Structural Excavation dry. Proposals are requested on six inch plain one course portland cement concrete, 1:2:3 1-2 mix and as an alternate on 2 1-2 inch vitrified brick with asphalt filler on one inch and cushion on 5 inch concrete base (base to be 1-2 1-2 3 mix).

Three separate partial contracts for this work will be signed, one with the City of Winters, the second with Runnels County and the third with Runnels County covering a portion of the pavement on which State and Federal Aid has been granted.

The work will be paid for in cash on monthly estimates.

Detailed plans and specifications for the work may be seen for examination, and information may be obtained at the office of the City Secretary, Winters, Texas; U. Stephens, County Engineer, Ballinger, Texas, and at the office of the State Highway Department, State Office Building, Austin, Texas.

A certified, or cashier's check for One Thousand Five Hundred Dollars, (\$1,500.00), made payable without recourse to the order of J. Frank Paxton, Mayor, City of Winters, Texas, must accompany each proposal, as a guarantee that the bidder, if successful, will enter into contract and make head in accordance with the requirements of the specifications. The right is reserved to reject any and all bids or to waive all technicalities.

Proposals shall be submitted in sealed envelopes and marked "Bids for the Construction of Certain Street Pavements in the City of Winters, Texas."

All bids will be retained by the City and will not be returned to the bidders.

Here is Fair Sample of What Irrigation Would Do for Us

Marston Cotten, who cultivates a large acreage on the W. W. Farmer farm down the river, having charge of about one thousand acres, of which two hundred acres is in cotton, was in the city Thursday and brought along with him a few stalks of cotton from his irrigated field.

Mr. Cotten's experience this year is a practical demonstration of what a little irrigation will do in this country. He has one hundred acres of irrigated cotton and one hundred acres of dry land cotton. He estimates that he will get at least 80 bales off the irrigated field and not more than eight or ten bales off the dry land cotton. Others who have seen the cotton agree with Mr. Cotten's estimate.

"It will cost me about five hundred dollars more to raise the 80 bales than it will to raise the eight bales," said Mr. Cotten, "as I will be out about five hundred dollars in irrigating the hundred acres."

On a basis of twenty cent cotton, including the seed, Mr. Cotten will realize about \$10,000 from the hundred acres of irrigated land and about \$1,000 from the hundred acres of dry land, at a cost of only \$500 more for cultivating the irrigated land. Of course the \$500 does not include the cost of picking.

A kinky headed cotton picking negro can see the difference, and it is a practical demonstration of what could be done with the thousands of acres of fertile land within the proposed irrigation district of the Colorado Valley project, if the land owners would get busy, build the dam, impound the water and turn it through the canals and into the ditches to feed the crops when they are the proper stage.

There are thousands of acres of cotton within the bounds of the proposed irrigated area which will not make rent enough to pay the taxes, from six to ten acres being required to turn out a bale, while if the water had been turned on and the crop given one good wetting at the proper time, the yield would have been from a half to one bale per acre, and instead of this county marketing twenty-five thousand bales of cotton the yield would have been four or five times that amount, and land which is now rated at \$25 and \$50 per acre would be rated at \$200 and \$300 per acre, and a dozen farm hands would be employed in cultivating and harvesting crops where there is one employed now.

It has been thoroughly demon-

strated that the land in Runnels county yields abundantly when the water is applied. The Dean brothers have been successful in irrigating on a small scale. The W. W. Farmer irrigated farm is profitable, and all other farmers in the county who have water to put on their land when the crops need it are making it pay.

The possibilities of the big irrigation project on the Colorado river are too great for the average man to grasp. It would be worth more than an oil boom, would bring more money and development into the county than an oil boom, and would be a lasting benefit.

**GLASS OF SALTS
CLEANS KIDNEYS**

If your Back hurts or Bladder bothers you, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite your kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it is no longer a source of irritation, thus often ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia water drink, which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

A small want ad in The Daily Ledger often saves you money.

**MAKING TALK
COME EASIER**

(By Hamilton Wright)
Special to The Ledger:

BROWNWOOD, Aug. 31.—Public utility companies of West Texas demonstrate their faith in this section of the country when they take the cat of adversity by the tail and snap its head off. The West Texas Telephone Company, operating exchanges and toll lines in the counties of Brown, Coleman, Runnels, Taylor, Concho, Menard, McCulloch, San Saba, Lampasas, Hamilton and Mills, has under way great extensions and betterments at this time.

Among the improvements being made at large expense are:

One additional No. 12 metallic circuit between Goldthwaite and Lampasas, increasing facilities 200 per cent. The pole line between these places is also to be rebuilt throughout.

A new line 18 miles in length is being built between May and Cross Cut, giving Brownwood and other towns direct service with the Pioneer oil fields.

A new No. 12 metallic circuit is being erected between Ballinger and Coleman, a distance of 38 miles, replacing an existing No. 14 copper metallic circuit which proved inadequate. Five miles of new pole lines are being rebuilt along the Goldbusk highway from Coleman to the Santa Fe railroad shortening the distance to points West of Coleman by reason of eliminating double-ply lines thru Coleman Junction.

Considerable reconstruction work is now under way at the Ballinger exchange in which more than 2,000 feet of cable will be replaced and more than two carloads of new poles will be used for replacement.

At Winters a full car of poles will be used for line replacement.

The long distance connecting Ballinger and Paint Rock will also be rebuilt, two full cars of poles being required for the task.

At the Brownwood exchange more than two carloads of poles will be used for replacement purposes and more than 5,000 feet of lead-covered cable of various sizes will be erected to provide additional facilities.

All these jobs will be completed during 1922, according to F. W. Greber, general manager of the concern, in an interview with the writer.

School of Expression
F. Wilmeth will open school of expression Sept. 11. For terms, phone 59. 31-24

DOG SHATTERS FRIENDSHIP OF WORLD WAR VETERANS

(By Associated Press)

TROY, Kans., Aug. 31.—Unable to settle amicably the ownership of a German police dog which they jointly had captured on a battlefield in France, the friendship of two world war buddies has become shattered and one was placed under arrest on charge preferred by the other, theft of a dog—"German shepherd, valued at \$200," according to the complaint.

It was in the summer of 1916 while the two soldiers, Max Adamson and W. L. Sparks, were on the French front, that they found the dog, standing guard over the dead body of his master, a German officer. With considerable difficulty the two Americans captured the dog. Nearly a year later, Sparks brought the dog home. He claimed ownership. Later Adamson was mustered out and came home. According to Sparks, the complainant, Adamson since then has tried to get possession of the dog, and finally did so and took "Bob," the dog's American name, in an automobile to Oklahoma.

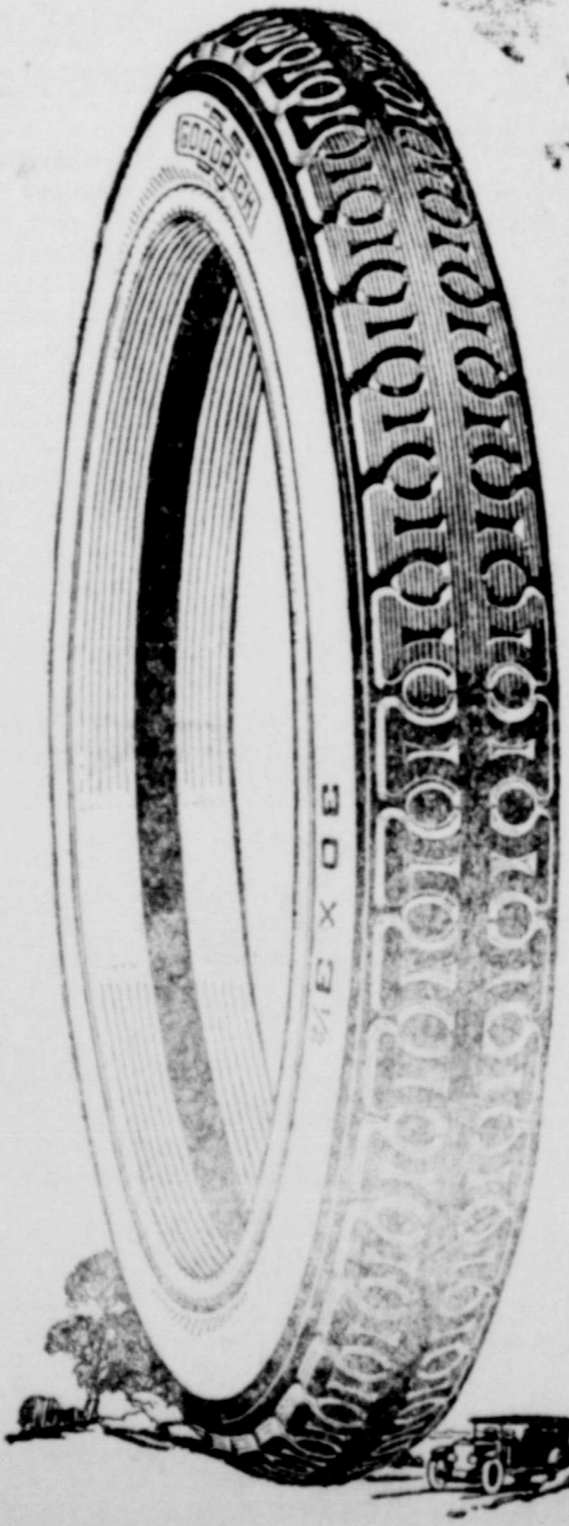

Sparks traced them and had Adamson arrested in Clinton, Oklahoma, and Sheriff W. L. Privett obtained a requisition to bring Adamson back here for trial.

DALLAS—The Elephant Butte dam project, shown in a relief map, 6x18 feet in size, will be part of the El Paso exhibit at the State Fair of Texas, October 6 to 15. The exhibit is being arranged by the El Paso Chamber of Commerce and will be shown in the main exhibit building.

WILL HOLD CONFERENCE ON SOCIAL WELFARE

DALLAS, August 30.—The twelfth annual meeting of the Texas Conference of Social Welfare will be held here on October 15 to 18, the annual gathering of Texas social workers "and socially minded men and women where, in many section meetings and general sessions the problems of child welfare, delinquency, the family, health, and the like, are discussed authoritatively and

inquiringly by the most competent men and women from in and out of the state," according to Elmer Scott, executive secretary of the Civic Federation of Dallas.

Dr. Carrie Weaver Smith, superintendent of the Girls' Training School at Gainesville, is president; Dwight Breed of the Texas Public Health Association, Austin, secretary; and J. K. Hexter, president of the Civic Federation of Dallas, is treasurer.

THEY'LL SOON BE ON THEIR WAY

"Old Man Texas," "Mix Texas" and the Texas Kids, enroute to the State Fair of Texas at Dallas, Oct. 6-15. (With acknowledgements to John Knott for the suggestion in his cartoon of June 29.)

STATE FAIR THRIFT TICKETS AS WALT MASON MIGHT TELL OF THEM

(With Acknowledgements and Apologies to the Poet.)

For rhymes Walt Mason has a wonderful gift—
To match this word he might employ "thrift,"
And that's the idea this tale's to tell;
How you can save and have fun as well,
You've heard about the great State Fair,
Held at Dallas in the fall each year,
It's a fair most worthy the great Lone Star—
Bigger and better than the rest by far.
Its mission is instruction—education;
To uplift and better the state's population;
To afford folks pleasure—to show the wonderful things
That industry, hard work and contentment brings.
Thousands go through its gates each fall,
And there's profit and pleasure—satisfaction for all.
This year a new building will grace the big park—
Almost as big as Noah's famous ark.
Its brick and steel arches are rising on high,
A silhouettes of beauty against the blue sky.
Within it at Fair time, there'll be motor cars fine,
With Texas-made articles of "most every line."
It's going to take money to pay off the builders,
So there's a new plan suggested to fetch in the "guilders"
As you pass through the turnstiles at the entrance,
By buying your tickets ahead this time,
On every single ticket you'll save a good dime—
Where you took four in your party to previous time,
Now you can carry one more than two pairs.
This, in a word, is the Thrift Ticket plan—
A saving appreciated by every good man.
And, they not only save but are convenient too,
For at grandstand and coliseum they'll let your folks through.
Buy Thrift Tickets now so when you come up this fall
You'll see a new building, the best of them all.
Just send in your check for the tickets you need,
And they'll be mailed direct to you with uttermost speed.
Fix the folks up at home and tell the neighbor next door
About the Thrift Ticket plan—that'll sell a lot more.
You can buy them in Dallas at various stores,
But a check to "State Fair" will quickly bring yours.

GETS FREE SHOW FOR FALL FAIR

C. H. Blanks
Lightweight Strong Man

The Runnels County Fair Association has signed up C. H. Blanks, the noted lightweight strong man to stage several open air free acts during the three days of the Runnels County Fair, September 14th, 15th and 16th.

Among the stunts which the entertainer will stage will be to allow a Buick, Hudson or Cadillac automobile to be driven across his chest. He will also have 400 and 500 pound rocks broken on his chest with a sledge hammer. Another of his acts is to have a rope loop passed around his chest and a Ford car tied to each end of the rope and pulled in opposite directions for half a minute. He also has ropes tied around his arms, and offers a reward if Ford cars pulling in opposite directions can make him give up in one minute.

Blanks also agrees to kill the engine in a Ford car by lifting up on the front end when it is thrown in low, holding the car back and preventing it from running over him.

His acts are interpolated with numerous comedy stunts which are guaranteed to entertain the crowd.

Blanks also does a "human fly" stunt, climbing up the face of tall buildings, which he may stage here if the crowds wish to see him.

He has issued a broadcast challenge for a wrestling match and will meet any wrestler weighing under 150 pounds. He also offers a reward of \$500.00, to be posted in any local bank, for anyone at his weight of 125 pounds to duplicate his chest-breaking stunts.

"COLD IN THE HEAD"

is an acute attack of Nasal Catarrh. Those subject to frequent "colds" are generally in a "run down" condition. HALL'S CATARRH MEDICINE is a Treatment consisting of an Ointment, to be used locally, and a Tonic, which acts quickly through the Blood on the Mucous Surfaces, building up the System and making you less liable to "colds." Sold by druggists for over 40 Years. F. J. Cheney & Co., Toledo, O.

REVIVAL BEGINS SEPTEMBER 17

Rev. C. E. Simpson, pastor of the Methodist church, and Rev. Jess. Mitchell, pastor of the 8th Street Presbyterian church, have joined forces in a revival, and plans are being perfected for the meeting to begin the third Sunday in September.

Rev. and Mrs. R. L. Flowers, of Dallas, will be here to assist in the revival. Rev. Flowers is a successful evangelist and Mrs. Flowers is his helper and singer in evangelistic work.

The series of services will be held at the Methodist church, and committees are being appointed to look after the details and arrange for the meeting. With the two churches co-operating and a cordial invitation extended to all the churches to join in the campaign against sin, the revival season promises to be a successful one.

Pronounced Success

The uniform success that has attended the use of Chamberlain's Colic and Diarrhoea Remedy in the relief and cure of bowel complaints, both for children and adults, has brought it into almost universal use, so that it is practically without a rival and as everyone who has used it knows it is without an equal.

SOCIETY

Cut Glass Shower

Miss Ruth Nicholson, a bride-elect of the season, whose marriage to Elbert B. Clappitt will be a social event of September 4th, was honored at a cut-glass shower at the home of Mrs. Floyd Carr, Thursday afternoon. Miss Beatrice Nance and Mrs. Carr being hostesses.

Three tables were arranged for bridge in the game rooms, which were beautifully decorated with vivid-hued cut flowers in baskets. Unique place cards were miniature bride-grooms. Mrs. Leslie Baker won high score. After the very interesting games, Misses Marthyle Bridwell and Beatrice Nance entered the room with a large basket of laundry, and presented it to Miss Nicholson, to her surprise when she opened it, she found many beautiful and useful pieces of cut-glass.

A delicious salad course was then served to the following guests: Mesdames H. S. Strain, Troy Simpson, Leslie Baker, R. L. Williams, Oscar Williams, LeRoy Nicholson, R. L. Stephenson, A. R. Jones, John Weeks and Hatton Laxson; Misses Ruth Nicholson, Rena Butler, Marthyle Bridwell, Eleanor Kirk, Mildred Herring, Mamie Cathey, Nann Kevel and Dorothy Nance.

Swimming Party

Misses Mamie Cathey and Rena Butler's compliment to Miss Ruth Nicholson, a bride-elect of Sept. was a swimming party and miscellaneous shower at Dean's Dam Monday afternoon. The few intimate friends of the honoree met at the home of Miss Butler and motored to the dam, where a delightful swim and lunch were enjoyed. When the lunch baskets were being opened, Miss Nicholson was given one, and to her surprise when she opened it, she found many pretty and useful gifts.

The guests on this occasion were: Mesdames, R. L. Stephenson, A. R. Jones, E. A. Giesecke, Willie Stephens, Oscar Williams, R. L. Harwell, J. R. Lusk and Floyd Carr; Misses, Eleanor Kirk, Mal Skinner, Elizabeth and Octavia Jones, of Talpa, Ruth Nicholson, Lillian McKinney, Beatrice Nance, Kate Cockrell, Mamie Cathey and Rena Butler.

The Ideal Purgative

As a purgative, Chamberlain's Tablets are the exact thing required. Strong enough for the most robust, mild enough for children. They cause an agreeable movement of the bowels without griping. They are easy and pleasant to take and agreeable in effect.

BETRICE BURNHAM IS IDEAL LEADING LADY

The difficulty of securing suitable leading women to support present-day male stars was strikingly demonstrated in selecting the cast for Douglas MacLean's latest Paramount-Thomas H. Ince comedy, "The Home Stretch," at the Maeroy Theatre today.

Beatrice Burnham, the winsome little brunette who appears opposite Mr. MacLean in the production, was chosen for the part by Thomas H. Ince only after more than eighty women had been called and given extensive camera tests. The part called for a distinct type capable of expressing marked individuality and Miss Burnham was ideally suited to the characterization.

Among those called to take the tests were actresses of featured prominence as well as several who had never appeared before on the screen. For one reason or another none of them met the requirements of the part until Miss Burnham appeared. "The Home Stretch," is a stirring story of a young race-horse owner who meets with innumerable difficulties and set-backs before he finally overcomes his desire to gamble. Several clever and gripping situations distinguish it as superior to all former Douglas MacLean features while the comedy touches are deftly and entertainingly handled in Mr. MacLean's enthusiastic style.

NO CHANGE IN BANK FORCE

In yesterday's report concerning the active service of R. W. Bruce with the Ballinger State Bank, some people gained the impression that he would displace some of the men already with the bank, this is an erroneous impression, N. K. Freeman will remain as active Cashier of the bank and Mr. Bruce will work in another department of the bank, and all the present employes will remain as they now are. The heavy fall work necessitated an extra man and Mr. Bruce was persuaded to give some of his time to the work in which he will engage.

A small want ad in The Daily Ledger often saves you money.

W. W. Farmer left Thursday afternoon for Amarillo, where he will be for some time looking after property interests.

"Ho—Nellie! Listen! I've just read an advertisement about Kellogg's Corn Flakes and fresh fruit. It's so hot down here today and I'm so about all-in that I don't want anything else for supper but a hot pitcher of cold milk, a lot of Kellogg's Corn Flakes and a trunkful of fruit!"

For hot weather!

Kellogg's

CORN FLAKES

are nourishing and appetizing
Eat them instead of heavy foods!

Heavy foods in summer are a menace! No wonder sluggishness and headaches follow heavy meals! Use your good judgment this summer and serve Kellogg's regularly and you'll quickly see the snap that a lighter diet will put into finicky appetites and fagged-out brains!

For the evening meal of a hot day, nothing can be more delightful than a big bowlful of Kellogg's Corn Flakes with fresh fruit! And, it means much to the health of every family member! Let them eat Kellogg's liberally, from the youngest to the oldest!

Kellogg's Corn Flakes are not only crisp and the most delicious of all cereals, but they are nourishing—they sustain the physical as well as mental worker! They are wonderful for children!

Insist upon Kellogg's Corn Flakes in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!

The Only Difference Is In the Size

YOU may have a large car or a small one—touring car or roadster, closed or open, a delivery car or a sedan.

No matter what the size or weight of your car, the Dayton Pneumatic Tire that fits it will have the same sturdy, long-wearing quality as every other Dayton Tire.

There's a difference in the size of Dayton Tires—one for every wheel. But there's no difference in quality.

Dayton Tires

Cords Fabrics

All Dayton Tires are made of the same finest quality materials, and are built with the same expert care.

We've studied their construction from A to Z. We've watched them in service. And we can tell you that when you put one—of any size—on your car, you're going to get more and better tire service than you've ever had before.

Give us a chance to live up to that promise. Come in and hear the whole story of Dayton Tires.

Dayton Tires are the kind of tires we like to sell—they please you and the people you sell to. Ask us to let you feel one.

SCHOOL BOARD CHANGES PLANS

Following a busy session of the school board Friday morning an announcement was made which is of importance to the patrons and pupils of the school and which makes a change in the assignments as announced a few days ago.

After a thorough discussion of the question, and after hearing various complaints relative to assignment of the pupils, the board decided that all children in the Fifth and Sixth Grades, regardless of where they live in the district, would attend West Ward. In this readjustment district lines are obliterated and children from all over the independent district who are in the Fifth and Sixth Grades will be enrolled in the West Ward school. Mr. and Mrs. Daniels will have charge of the Sixth Grade and Mrs. Brock and Miss Josephine Burris will have charge of the Fifth Grade.

The readjustment calls for all children in the First, Second, Third and Fourth grades living South of the river to attend the South Ward school, which will be in charge of Mrs. West. Seventh grade pupils living South of the river will attend Central, but the Fifth and Sixth will go to West Ward.

The First, Second, Third, Fourth and Seventh Grade pupils, irrespective of where they live, will attend Central school.

In making this announcement the school board declared that such an adjustment was final and patrons and pupils would waste time in protesting and complaining. The members of the board and the superintendent stated that they had given much time and thought to working out the most satisfactory plan, and due to the locations of the buildings, rooms, and finances this plan has been adopted as the best for all parties concerned.

The board elected W. R. Summers, of Mart, as principal of Central school, succeeding Miss Sammie Padgett, who resigned and will not teach this year.

DEATHS

H. G. Hayes
H. G. Hayes died at his home 4 miles Southeast of Ballinger at 8:15 Friday morning, death bringing to an end a long period of suffering through which Mr. Hayes passed. Mr. Hayes had been in poor health for some time and for about eight weeks he had been confined to his bed. Death did not come as a surprise, and his condition for some time had called to his bedside seven children of the deceased.

Mr. Hayes was one of the pioneers of Runnels county. He came to this county from Marlin, Falls county, thirty-one years ago. He was sixty-two years old. Experiencing the many changes through which this country has passed during the last thirty-odd years, Mr. Hayes had made a good citizen and did his part towards making Runnels county a better place in which to live. He was a member of the Methodist church, and a consistent Christian.

Deceased is survived by a wife and seven children, and has a brother, J. A. Hayes, a former citizen and business man of Ballinger, who now lives at Blackwell. The children are: Mrs. Jeff Knight, of Crews; Mrs. Perry Howard, of Knox City; Misses Cora and Helen, Harvey, Blair and Marion Hayes, who are at home, and all the children were present when their father died.

Funeral arrangements were announced Friday afternoon, and Rev. Clark, pastor of the Methodist church of Paint Rock, will conduct the funeral services at the home at 9:00 o'clock Saturday morning, and interment will be made in Evergreen cemetery.

Simpson on Sixth Street about noon Friday called out the fire company, and resulted in considerable damage to the room. The wall paper was damaged by fire and other damage was done by water and chemicals which were used in checking the flames that threatened to destroy the home.

weigher and his appointment is subject to the approval of the commissioners' court. Mr. Batts assumes all responsibility, and Mr. Boothe wishes to thank those who have in any way aided him during the time he has had charge of the yard.

J. P. BOOTHE
E. F. BATT'S

No Substitute Offered
Say what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety nine out of a hundred druggist recommend Chamberlain Colic and Diarrhoea Remedy, when the best medicine for diarrhoea is asked for, and do so because they know from what their customers say of it, that it can be depended upon.

Notice to Farmers
Effective today an agreement has been reached between us in which J. P. Boothe retires as cotton weigher, and E. F. Batts takes charge of the yard. Mr. Batts is the nominee for public

SHERLOCK HOLMES IN "THE DEVIL'S FOOT" COMES TO FO-TO-SHO

Eille Norwood, who portrays the role of Sherlock Holmes in "The Devil's Foot" and other motion pictures of "The Adventures of Sherlock Holmes," is an actor well known throughout England thru his long and successful career on the stage and in motion pictures.

His portrayal of Conan Doyle's great master detective in "The Devil's Foot," which comes to the Fo-to-sho Theatre, Ballinger, on Friday and Saturday, and in other pictures of this series of short subjects, is the work of an artist and the result of long and patient study of this character by a genius at character portrayal and at make-up and disguise.

Mr. Norwood was born at York, and made his stage bow shortly after his graduation from Cambridge University. Altho the greatest part of his dramatic work has been done in London, he has also appeared throughout the United States and Australia.

Mr. Norwood has played many big parts in London plays, has been manager of two or three London theatres and is author of several successful plays. He made his first appearance in motion pictures in 1920. Altho he has appeared in several long feature pictures produced in England, his greatest film achievement is his portrayal of the famous detective in "The Adventures of Sherlock Holmes," which are being distributed in this country by Educational.

"The Man Under Cover" is the long feature at the Fo-to-sho today and tomorrow.

tequila, aguaranta, mescal and other liquors of Mexican manufacture. Approximately 1,000 quarts of prickly pear liquor were transported recently by government officers from natural channels flowing from the river to the more distant sections up the state.

Enforcement officers in Corpus Christi report diminishing stocks and declare that rum runners are experiencing unusual difficulty in bringing in fresh supplies. An unconfirmed report has it that dry agents are operating two airplanes in the Corpus Christi district and are keeping bootleg operations to a minimum.

The Key that Unlocks the Door to Long Living

The men of eighty-five and ninety years of age are not the rotund, well-fed, but thin, spare men, who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much or of some article of food not suited to his constitution, causing indigestion or constipation and will need a dose of Chamberlain's Tablets to move his bowels and invigorate his stomach. When this is done, there is no reason why the average man should not live to a ripe old age.

DRY RAIDS CAUSE LIQUOR SHORTAGE

SAN BENITO, Aug. 30—Activities of customs officials and prohibition officers in making seizures of liquor in the border sections is reported to have resulted in a shortage in dry territories farther up the coast.

Dry officers recently returned to headquarters in Brownsville after a raid in the Rancho district, South of San Benito, bringing a wagon heavily loaded with
