

BALLINGER DAILY LEDGER

VOLUME XVII.

NUMBER 277

BALLINGER, TEXAS, WEDNESDAY, MARCH 1, 1923.

MEMBER ASSOCIATED PRESS

NEFF USES AXE ON 6 MEASURES

(By Associated Press)

AUSTIN, March 1.—Late this afternoon the Senate passed the Hidalgo and Tarrant counties court bills over the governor's veto.

AUSTIN, March 1.—An agreement on the compromise plan of the Pope text book bill between the Senate and House conference committee was expected to be completed today, Senator Stuart, of Fort Worth, announced.

The compromise provides for extending the contracts in effect December 1st until 1925, and then leave to the commission the work of awarding new contracts. The Senate conference committee will meet late today to take final action. The House members have agreed to the compromise.

Eight of the appointees named by Governor Neff were confirmed today by the Senate. They include two new members of the state railroad commission, and two members of the text book commission. Action on the appointment of Mrs. Charles DeGroff, of El Paso, as a member of the board of regents of the Texas Technological College, was again deferred for further action.

Governor Neff vetoed six measures today, including bills creating district courts in Bexar, Tarrant and Hidalgo counties. Others vetoed were the insurance reciprocity bill, a measure codifying the state laws, and a bill adding two bankers to the State Banking Board.

The Burkett bill providing for the creation of the Eleventh Civil Court of Appeals at Eastland, was passed by the Senate by a vote of 23 to 5.

The Senate passed a resolution asking officials of the extension service of the University of Texas to submit to the special session plans for decreasing illiteracy in Texas.

The Senate passed bills creating the Ninety-second and the reorganizing of the Forty-sixth and Forty-seventh judicial districts.

The committee reported favorably the gasoline tax bill, levying a tax of two cents per gallon, and also a bill increasing the maximum road tax levy from thirty cents to one dollar.

The House passed bills requiring newspaper publishers not carrying as much as \$10,000 worth of property to make bond to protect persons obtaining judgments in libel suits, the bill requiring adequate fire escapes on buildings three or more stories.

The measures authorizing the consolidation of the Frisco and five other Texas lines were completed, and will probably be introduced Monday, Senator Stuart stated.

HOUSE PASSES FARM CREDITS

(By Associated Press)

WASHINGTON, March 1.—The farm credits bill passed by the House proposes to establish two new banking systems, one a government and the other a private bank, to meet the financial needs of the agricultural industry. The bill now goes to a conference committee.

A resolution was introduced in the Senate today by Senator Sheppard of Texas, requesting President Harding to use his good offices toward settlement of the remaining disputes of the striking railway shopmen.

Judge James J. Neal, of San Angelo, had business here Thursday. Mr. Neal is one of the executors of the Hughes estate, and he was here conferring with R. G. Erwin, the other trustee.

6 SAILORS LOST IN SHIP FIRE

(By Associated Press)

MANILA, P. I., March 1.—Six enlisted men in the United States navy and serving on the U. S. destroyer Hulbert of the Asiatic fleet, were burned to death in an explosion in the boiler room recently, it was made known here today. The explosion was caused by a flareback of oil burning under the boiler. No others were injured.

NEFF EN ROUTE TO SWEETWATER

(By Associated Press)

AUSTIN, Mar. 1.—Governor Neff and delegation of legislators left for Sweetwater this morning, where they go to attend a celebration commemorating the signing the Texas "Tech" College bill.

TEXAS TO BOOST M'ADOO BOOM

(By Associated Press)

AUSTIN, Mar. 1.—A state-wide conference for the purpose of organizing a "McAdoo for President" Club, will be held here on March 6th, Senator Bledsoe, of Lubbock, stated this morning. A petition calling for such a conference was signed by the legisla-

tors. A campaign will be launched to urge the candidacy of William Gibbs McAdoo for president of the United States in the 1924 campaign.

Mr. and Mrs. Price Maddox motored down from Maryneal Wednesday and spent the night with Mrs. Maddox's parents, Mr. and Mrs. D. P. Moser. Mr. Maddox says the Nolan county country is in fine shape, and declares that he never saw livestock winter better than they have this season.

CONGRESSMAN DIES SUDDENLY

(By Associated Press)

WASHINGTON, March 1.—Representative W. Bourke Cochran, democrat, of New York, died suddenly here today. He celebrated his sixty-ninth birthday yesterday, and made a spirited speech last night in opposition to the farm credits bill which is pending in congress.

DON'T SQUEAL ON TEXAS FRIENDS

(By Associated Press)

LOS ANGELES, Cal., Mar. 1.—Bert B. Bruce, who according to federal officers, said he came from Texas, refuses to confirm the belief of the officers that he knows who stole an automobile belonging to Robert L. Reid, of Long Beach, California, and violated the Dyer Act by taking it to Texas.

The officers say that Bruce practically told that he knew the details of the alleged theft, but when questioned he said that he "came from Texas where people do not squeal on their friends."

The man is being held for the grand jury.

ABILENE PLEDGES \$200,000 FOR SIMMONS COLLEGE

ABILENE, Mar. 1.—In addition to what this city has already done for Simmons College, this city will raise \$200,000 for the new building to be used as the boys' dormitory. Plans for the building have been drawn and the work will be rapidly pushed.

D. Reeder's DRY GOODS

TWO FRONTS--HUTCHINS AVE. & 8th ST.

Exceptional Presentation of New Dresses, Suits, Skirts, Wraps, Sportwear

Garments distinguished by many subtle touches of creative fashioning far above the commonplace. We have been notably successful in our selection of a most comprehensive display of springtime apparel that is in every way truly expressive of the advanced mode at prices that are decidedly moderate.

Dresses for Afternoon and Street Occasions

\$12.50 to \$39.50

Every new development of the springtime mode will be found in this noteworthy assemblage. Touches of hand embroidery in self or Oriental effects give them a note that is exceedingly smart. The Jenny neck wave pleating and circular panels are but a few of their distinctive features. Fashioned of New Flat Crepe, Canton Crepes, Taffetas, Silk Sport Weaves, Alltime Crepe and Paisley Combinations.

\$12.50 to \$39.50

Beautiful Two and Three Piece Costume Suits

\$13.50 to \$37.50

Fascinating developments in two and three-piece models, fashioned according to the newest mode. All of them are faultlessly custom tailored in a great diversity of favored fabrics, such as twill cord, Poirat twill and tweed, including the new tweed knicker suits. Also separate knickers of tweed or khaki.

\$13.50 to \$37.50

New Sr lame radsha Capes and Coats

\$29.50

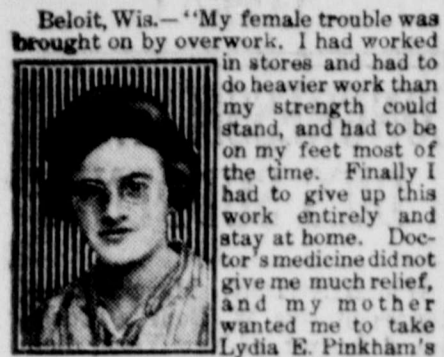

The new concepts in fashion are admirably portrayed in this grouping of Coats and Wraps. They are beautifully made, smartly styled and developed in the most favored materials. The values are very, very unusual.

Visit Our New Queen Quality Shoe Department for the Newest in Spring Footwear at Reasonable Prices.

FRIENDS NOTICED IMPROVEMENT

Wonderful Results from Lydia E. Pinkham's Vegetable Compound

Beloit, Wis.—"My female trouble was brought on by overwork. I had worked in stores and had to do heavier work than my strength could stand, and had to be on my feet most of the time. Finally I had to give up this work entirely and stay at home. Doctor's medicine did not give me much relief, and my mother wanted me to take Lydia E. Pinkham's Vegetable Compound. I took a couple of bottles of it and thought it did not help me as much as it should, so I gave it up to try something else. Nothing I took helped me much, so I finally decided to give the Vegetable Compound another trial and to take enough of it to make sure it would help me. I have taken it over a year now and it has brought wonderful results. I have gained from 83 to 110 pounds and am keeping house now. My friends all notice the change in my health. I will be glad to answer all letters that women write to me about the Vegetable Compound."—Mrs. W. G. Monson, 1615 Park Ave., Beloit, Wis. Mrs. Monson is willing to write to any woman suffering from such troubles.

PROGRAM FOR TECH JUBILEE

The committee in charge of the West Texas jubilee celebration commemorating the success of the movement for the West Texas college, and which resulted in the passing of the Texas Technological College bill, announces an interesting program.

The big celebration will be held at Sweetwater tomorrow, and Sweetwater has been working hard all the week to arrange to handle the big crowd which promises to attend. The committee announces the following program:

1.—7:30 a. m. Reception committee with Guard of Honor commanded by Captain Sidney C. Mason of Sweetwater National Guard will meet Governor Neff and other guests at the T. & P. railway depot and accompany them to the Wright Hotel.

2.—9 to 10 a. m. The Governor and other guests will be given an auto drive around the city.

3.—9 to 10 Band concert from the grandstand by the Colorado and Sweetwater bands, massed.

4.—10 to 11:30 a. m. Speaking from the grandstand: Hon. M. E. Rosser of Snyder, presiding.

(a.) Address of Welcome to West Texas with something of the school movement; Dr. P. C. Coleman, Colorado, who issued the call that eventually brought about the Texas Technological College.

(b.) The Work for the College in the Texas Legislature; Senator Bledsoe of Lubbock.

(c.) March 2nd in Texas History; Dr. J. D. Sandefer, president of Simmons College, Abilene.

(d.) Something of the Benefits of the Technological College to a state; Hon. L. T. Carpenter, of Dallas, who put the "Tech" in the College bill.

(e.) What it has Taken to get This College for West Texas; Porter Whaley, Manager of the West Texas Chamber of Commerce, who has been with the movement from the first.

(f.) Address by former Governor W. P. Hobby, director in the Texas Technological College.

5.—11:30 to 12:30 a. m. Public reception to Governor Neff at the Wright Hotel.

6.—2 to 3 p. m. Review of 500 school children by Gov. Neff, Mr. Rosser to introduce Mrs. W. W. Beal of Sweetwater School Board, who will present the children to the Governor.

7.—3:00 p. m. Address by Gov. Pat M. Neff, with introduction by Hon. R. M. Chitwood.

8.—7:00 p. m. Banquet at the Wright Hotel.

Notwithstanding the bad roads, it is expected that a large crowd from the West Texas towns which have been fighting for the new school, will attend the celebration. Ballinger will be represented. The Star-Telegram, Dallas News and Fort Worth Record will send correspondents, while city builders from other large cities in the state will be present. Fort Worth, it is reported, will send a special Pullman, bringing the delegation from that city.

The celebration at Sweetwater has nothing to do with the locating of the college, and it is not

expected that any member of the locating board will attend the meeting.

"CLEAN AND DRY" IS FOWL HEALTH SLOGAN

Care, Sunlight, Fresh Air With Roomy Quarters, May Prevent Roup

(By SETH W. SHOEMAKER) Director, The School of Agriculture, International Correspondence Schools, Scranton, Pa.

The most common ailments of fowls are cold, canker, catarrh and roup, developing during the fall and winter months. The poultryman who gets the best results out of his flock will be the one who takes time by the forelock and adopts preventive measures.

All of these troubles are likely to come from exposure to damp or cold at seasons of the year when the temperature rises and falls quickly. Although fowls are just as likely to take a cold in July or August as in midwinter, in cold weather they do not seem to recover as quickly and the results are liable to be more serious. They are especially likely to take cold on damp, rainy days when they go to roost with wet plumage.

Canker and roup often are merely stages of the same disease. Canker and catarrh, which are infections of the mucous membrane, are mild forms of diphtheria, in which may occur patches on the inside of the throat and on the tongue or at the opening of

A Sick Fowl

the windpipe. These conditions follow one another quickly unless prompt attention is given to the first symptoms of cold. While the earlier forms of the disease do not seem to be contagious, roup is very contagious.

Disease may be prevented if the fowls are provided with plenty of room and fresh air without draft, dry, clean scratching litter and an abundance of sunlight. The careful poultryman will go over the flock each day and remove all birds that show symptoms of disease.

Permanganate of Potash

Among remedies perhaps the most satisfactory is permanganate of potash in the drinking water. Just a pinch is necessary.

It will give the water a pinkish tinge. This is general treatment for any flock in case an individual seems to be getting sick.

Any fowl that shows signs of trouble, such as discharge at the nostrils and watering of the eyes, should be removed from the flock and have head, throat, face and nostrils bathed in warm water containing some antiseptic solution and should be kept in perfectly clean surroundings. Permanganate of potash in a fairly strong solution is now indicated.

Some poultrymen use Epsom salts as a preventive remedy. This may be given in the drinking water or in a slightly moistened mash at the rate of 10 to 12 ounces to each 100 fowls. Before the salts are administered the fowl should be kept away from all feeds and drinking water for about 12 hours.

Care With Vitrol

Other poultrymen use copper sulphate or blue vitrol at the rate of one ounce to each 10 gallons of water to prevent the spreading of the disease. If this disinfectant is used, however, great care must be taken not to get it on the fowl's feet, or on the bird's feed.

All things considered, permanganate of potash is the most satisfactory. A pinch of it is dissolved in the drinking water. Place eight ounces of the permanganate of potash crystals in a pint bottle of water to make the stock solution. One teaspoonful of this saturated solution will be sufficient to add to one gallon of drinking water.

A warm mash containing a little ginger and red pepper may also be

TEXAS DRUGGIST REGAINS HEALTH

"I Have Gained 24 Pounds of Firm Flesh and Feel Like New Man."

If you are one of the many weak and weary, underweight, nervous, run down folks who are half sick and half well you can profit by the remarkable experience of this prominent Texas druggist.

Mr. Ed. Waller, proprietor of Waller's Drug Store, Hubbard, Tex., says, "Like most folks who work indoors and do not get enough exercise, my muscles became flabby, had no appetite and had that 'tired out' feeling with me constantly. Six months ago I began taking Ironized Yeast. At that time I weighed 130 pounds. Today I tip the scales at 154, have a fine appetite, my muscles are as hard as a tool dresser's and I have that 'rearing to go feeling' all the time."

This is probably the finest endorsement any product could have. A druggist knows! With all the preparations in his store to choose from, Mr. Waller found Ironized Yeast the best. Your own druggist will tell you the same thing. Because Ironized Yeast is a scientific product of concentrated brewer's yeast in union with the kind of iron doctors use to enrich the blood. The vitamins of the brewer's yeast will nourish your shrunken tissues, filling in hollows and scrawny places with firm flesh. Your blood will take on new strength and soon your whole body will tingle with the glow of perfect health.

Ironized Yeast is positively guaranteed to give satisfactory results or your money refunded. A ten-day treatment costs only a dollar; it means the difference between fine health and your present half sick condition. Get it today. Ironized Yeast Company, Atlanta, Ga.

Recommended and guaranteed by Weeks' Drug Store.

given to fowls that have colds or roup.

Fowls badly affected with roup should be promptly killed and their bodies either buried or burned. After this the premises should be cleaned and disinfected with creosote or some similar material.

Santa Fe engineers were here Wednesday conferring with the city engineer regarding street paving. The Santa Fe has agreed to stand its share of the cost of paving and instructed the engineers to go ahead with the work. The paving will be extended to the corner of the Central Hotel on Eighth Street. There is some talk of property owners petitioning the city commission to carry the work on up Eighth and into the residence section.

M. F. Treadwell was down from Santa Angelo Thursday, looking after the interests of the Ballinger light and ice plants.

Mrs. John W. Riddle, wife of the United States ambassador to Argentina, has been elected an honorary member of the Argentine Society of Architects.

The coal industry is said to be overdeveloped, and coal prices seem to be in the same fix.—Omaha World-Herald.

FIX RULES FOR BAND CONTEST

A committee consisting of Capt. Wright Armstrong, of Brownwood; Stuart L. Williams, of Ballinger; and Walter Yaggy, of San Angelo met in the last named city Wednesday and drew up the rules which will govern the \$2000.00 band contest which is to be a feature of the West Texas Chamber of Commerce convention in San Angelo in May.

The competing bands will be divided in three classes: those over 2 1-2 years old; those between 1 1-2 and 2 1-2; and those less than 1 1-2 years old.

For Class A bands the following prizes will be awarded: first, \$500.00; second, \$250.00; third, \$100.00. Class B bands: first, \$350.00; second, \$150.00; third, \$75.00. Class C bands: first, \$250.00; second, \$125.00; third, \$50.00. In addition to the above prizes the band having the youngest members will receive a special prize of \$50.00; the band coming the greatest distance, \$50.00; the best uniformed band, \$25.00; and the band with the best instrumentation, \$25.00.

Other prizes of gold medals, special uniforms, gold plated instruments are being secured by the committee from band houses and others, and will be awarded to various winners and winning directors.

Competing bands will not be required to wear regulation band uniforms, but all bands are urged to adopt a uniform dress. Rules were drawn preventing the use of professional musicians hired especially for this contest. Each band will play one march, one overture or selection, and one number of their own choice; three in all. No entrance fee is charged any of the bands, but competing bands will be required to register and be on hand each of the three days of the convention.

Between six and seven hundred musicians will be in the big band parade, and crash down together on the march tune which will close the big West Texas pageant.

J. F. Valient left for Fort Worth Wednesday afternoon. He will probably bid on street paving in Dallas before returning to Ballinger to look after the job here.

And possibly the confusion at the Tower of Babel resulted from the discovery of oil while digging for the foundation.—Border City Star.

"We ought to amuse our criminals," says an Ohio editor. We should catch 'em first.—Newark Star-Eagle.

\$5.00 For a Name

On March 3rd I will open for business in the stand between Cordill's Jewelry Store and D. Reeder's men's store on Eighth Street. Will carry a complete line of mixed, boxed and individual package candies, pipes, cigars, tobacco, cigarettes and papers, tablets, novelties, hot coffee, sweet milk and sandwiches.

Come to see me on opening day, fill out the coupon below and hand it in and try for the \$5.00 prize to be given to the person submitting the most suitable name. For the best name submitted by a lady, I will give a \$5.00 box of candy; if by a man \$5.00 in merchandise; and if by a child \$5.00 in merchandise.

Yours truly,
A. L. DUNN

is picture Miss Dana is to be as a modern young miss to the altar in uncertainty and trepidation to marry a wealthy choice. A combination of circumstances at the provide her with the intention to effect a spectacularly just as the clergyman is to tie the knot.

a scene which will go to of any modern young miss bridegroom left at the post, the bride picking up her and running. Of course, he is a very fascinating bride—not half so fascinating as young fellow, played by Bryn Fashburn, who passes along the roadster at the opportune moment and helps the young miss her pursuers. And they do to her!

**Chamberlain's Cough Remedy
The Best Thing So Good for a Cough
or Cold.**

"Everyone who has used Chamberlain's Cough Remedy speaks all of it," writes Edward P. Miller, Abbottstown, Pa. People who once use this preparation are seldom satisfied with any other. It is excellent to allay a cough or to break up a cold.

Fifteen per cent of the people play golf, says an expert. If you will it golf.—Wall Street Journal.

A small want ad in The Daily Ledger often saves you money.

**COW, SOW AND
HEN SPECIAL ON
MARCH 20TH**

The agricultural department of the Santa Fe Railway expects good results from the livestock demonstration train which will be in Ballinger, Tuesday, March 20th, at 8:30 a. m., for a meeting with farmers and town folks who are interested in dairying, hog raising and poultry raising, according to The Earth, the company's agricultural and industrial paper.

"In the enterprise described," says The Earth, "the Santa Fe is co-operating with the Texas A. & M. College which has several important messages for everybody who gives thought to the development of the important farming business of this great commonwealth. The college is sending its best men to present three big subjects—Professor Evans, dairying; Professor Ward, hog raising; Professor Edson, poultry raising; and others of the extension service, who will discuss the three subjects generally. These men will be disappointed if farmers fail to ask questions. They urge farmers to bring their problems to the meeting. Women are specially invited.

"In addition to the lectures mentioned, there will be a meeting for boys and girls, conducted by John Eagan, A. L. Smith and T. B. Wood, district agents of the college extension service. A number of Santa Fe officials will accompany the party. "The train will stand at the Santa Fe station, and the meeting will start immediately on arrival.

"The Santa Fe has run a number of trains similar to the one now organizing for Texas, and satisfactory results have followed in every instance. Everything points to success for the project under way. Farmers are invited to help make it a success by attending the meeting."

**DO YOU BELIEVE
IN WORDS FROM THE
WORLD BEYOND?**

"A Dangerous Game"—what is it? The title of the picture that is to be shown at the Fo-to-sho Theatre Saturday, is fancy-catching, but its meaning would not be guessed unless one heard something about the story.

The "dangerous game" is the game that spiritualist and clairvoyant fakirs play when they fleece the public with their trick communications with the "dear ones who call from the other world." Usually the "other world" is well constructed with trap doors, wires, black velvet curtains and dozens of props. There is, periodically, an outburst of sentiment against these fakirs every few months in any large American city. And yet they remain and flourish. Why? Only the Solomons of today could answer, and they would differ in opinion. The single fact is, probably, that too many people still believe in communication with the other world—at ten dollars a message.

Gladys Walton is the star of "A Dangerous Game," and the story was adapted from "Gret'n Ann," written by Louis Dodge and published in the Ladies' Home Journal. Hugh Hoffman wrote the scenario and King Baggot directed. Baggot's "Human Hearts," and "The Kentucky Derby," Universal-Jewel specials, have swept the country during the past season.

**TRAIN AMPUTATES
A NEGRO'S LEG**

ABILENE, Mar. 1.—Charlie Miller, negro, lost one of his legs when he was struck by a passenger train here Tuesday. The negro was running to catch the train, and it is supposed was blinded by a mist which was falling at that time, and he did not see the train in time to clear the track. The trucks of the locomotive crushed the limb off just below the knee.

A small want ad in The Daily Ledger often saves you money.

**SIDEWALK MACHINE
IS OPERATING AGAIN**

The concrete mixer which is used on the curb, gutter and sidewalk work, resumed operations Wednesday afternoon, and is running again today. The extension in front of the Harwell garage has been made and the machine is spreading concrete for a new sidewalk in front of the old opera house building and Spann's grocery. The contractors report that sufficient sidewalk work is under contract to keep the crew busy for several days.

Round-up, clean-up and get-ready work is about all that will be looked after on the street paving this week, but with favorable weather the work will be launched in all branches Monday, and with full crews at work on all lines of the program rapid progress will be made.

Excellent Remedy for Constipation.

It would be hard to find a better remedy for constipation than Chamberlain's Tablets. They are easy to take and mild and gentle in effect. Give them a trial when you have need.

Dr. and Mrs. J. G. Douglass were host Wednesday to a number of friends, the occasion being the Doctor's birthday. No statement was given out as to "what birthday" this was, except that he is on the "sunny side" of fifty—and that he yet considers himself just a "youth."

"Grover Cleveland Bergdoll is worth \$208,802." Not an American citizen in time of war, however. — Louisville Courier-Journal.

KNEW GREAT MEN

Veteran Doorkeeper Familiar With Giants of Finance.

In Fifty Years of Service, Wall Street Employee Has Watched Them Come and Go.

John P. Burnes, who has just completed his fiftieth year as a doorkeeper in the service of the New York Stock exchange, enjoys vivid reminiscences of the days when Commodore Vanderbilt, Cyrus Field, Jay Gould, James R. Keene and Russel Sage were the predominating figures in Wall street. He has witnessed intimately a greater number of stupendous financial deals, perhaps, than any other man in the United States. He has seen mammoth fortunes piled up in brief spaces of time, and he has seen men who were millionaires one moment go to their graves the next practically penniless.

Commodore Vanderbilt was in the height of his power when Burnes, then twenty years old, began his service at the exchange as a page. Although the commodore was not a member he was a frequent visitor on the floor and Burnes recalls him and his great financial coups with admiration.

Of Jay Gould, Burnes says: "No one could cross his path and not suffer. Gould always avenged all interference with his plans. To obstruct any of his schemes was fatal financially."

A phase of Wall street life on which Burnes likes to dwell is the "fun-making." Big Christmas parties in which all of the brokers and their families participated were a feature of the old days, and at these parties it was the custom, according to Mr. Burnes, to present each broker with a gift which was supposed to typify his outstanding characteristics. Great indeed was the hilarity, Burnes said, when "Calumny Bill" was presented with a map of Greenwood cemetery, and the well-known "bouquet gentleman" of the street drew out of the fourth box which he unpacked, the usual violet bouquet.

Methods have changed radically in the 50 years of Burnes' experience. Pages and criers in the early days of the exchange were required to know not only the names of every man on the floor, but his initials as well, because business was conducted in those days by calling each individual personally. Today all transactions are done by the aid of the telephone, the telegraph, and signals, and men are called mechanically by numbers. All traders have definite locations on the floor in booths from A to Z, and each trader has a number. He is called by placing his number on a centrally located board. With the aid of colored disks he can be summoned mechanically to five different parts of the room.

Tree Fertilizing a Success.

Fertilization of forests, hitherto considered a fallacious theory even by some of the world's leading foresters, has been proved successful at the close of a ten-year experiment by the German government. The experiments were carried out at Owingen, County Slegmaringen, southern Germany.

A comparatively barren slope of black Jurassic soil was chosen. It has been used for pasture land and bore a growth of stunted pines and juniper bushes. Two experimental rows of trees were planted, the soil for one having been first prepared with a clover crop and nitro-oxygen for fertilizer. The second was planted without any preparatory crop. Various sections of each row then were fertilized with different materials.

Greatest successes were recorded by the trees fertilized with Thomas slag and kainite. Next to these flourished the trees fertilized with slag alone. The slag and kainite nourished trees registered a growth of 523 centimeters against 408 centimeters by those in unfertilized sections. Those with slag grew but 513 centimeters between 1906 and 1920. The trees treated only with slaked lime showed little progress.

Fossils Valued by Chinese.

Fossils of all sorts have a high commercial value to the Chinese. They are called "dragon bones," and when powdered, dissolved in acid and mixed with a liberal quantity of native super-phosphate, are of undoubted efficacy as a medicine for every kind of illness, from rheumatism to gunshot wounds. The apothecary shops naturally carry on a considerable trade in fossils, and if a Chinese finds a fossil bearing locality, he guards it as if it were a gold mine.

Foreigners find it tedious and often impossible to obtain permission to examine some of the long worked beds that for centuries have been bequeathed by one generation to another. —North China Herald.

Laws Regulate Air Lanes.

Forty countries have national air laws regulating the operation of civilian aircraft and designed to decrease flying accidents, due to reckless piloting, according to a survey which the Aeronautical Chamber of Commerce of America forwarded to the Department of Commerce the other day.

"Twenty-six nations which ratified the international air convention, drawn up following the armistice, have established national legislation providing for safe borders," the chamber says. Fourteen other nations have various kinds of national air laws.

SULPHUR IS BEST TO CLEAR UP UGLY SKIN

Irritation and Breaking Out Often Healed Over Night, Says Skin Specialist

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowles Mentho Sulphur may be obtained at any drug store. It is used like cold cream.

DENTON—The Kindergarten Club of the College of Industrial Arts has undertaken collection of data and statistics concerning cities and towns interested in establishing kindergartens. Two hundred and fifty letters and questionnaires have been mailed to Texas county school superintendents. The club also is mailing information about kindergartens to prominent and influential former club members.

GALVESTON—Expansion of school facilities here will be directed by William B. Ittner, school specialist, who is attending a national meeting of school specialists in Cleveland, Ohio. Reconstruction of schools will start actively as soon as Mr. Ittner arrives, but at present a local architect is going ahead with preliminary survey plans.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe to keep her Locks Dark, Glossy, Beautiful.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage. Nowadays though, we don't have the troublesome task of gathering the sage and the musky mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

A small want ad in The Daily Ledger often saves you money.

SOLVING TEXAS LABOR PROBLEMS

(By Associated Press)

AUSTIN, Mar. 1.—Belief that the coming season will find the labor situation in Texas better than at any time in recent years, was expressed by State Labor Commissioner Joseph S. Myers today. Commissioner Myers said the greatest possibility for solving the labor problem in Texas is the plan of co-operation between Texas farmers and the labor department under the employment agency bill recently passed by the legislature.

Thru the "farm bloc" of the legislature, which has approved Commissioner Myers' plan of state-wide co-operation, the plan will be instituted. The labor committee of the "bloc" plans to direct its efforts toward informing farmers in the various communities of the plan and to urge them to report their labor needs and labor surplus to representatives of the labor department.

"In past years the principal difficulty with labor in Texas has been the distribution," Myers added. "So great has become this problem that the federal government recently instituted an extensive survey of the problem, especially in this state. With a state labor law that will give the labor department authority and means to handle the labor situation, we should have little difficulty in the future."

Commissioner Myers also expressed the opinion that the problem of surplus labor from across the Mexican border can be handled to better advantage under the state co-operative plan.

Members of the co-operating

committee of the farm "bloc" are: R. E. Sparkman, Italy, secretary; S. J. Howeth, Alvarado; and J. A. Merritt, Snyder.

Public Notice

The undersigned hereby give notice that they were on the 19th day of February, 1923, duly appointed Independent Executors of the Estate of Wm. Hughes by the County Court of Runnels County, Texas and have duly qualified as such Executors—and all persons holding claims against said Estate are required to present same to us for allowance within the time prescribed by law and all persons indebted to said Estate in any amount are hereby notified to come forward and settle same.

Our residences and Postoffice addresses are given below: Jas. J. Neill, San Angelo, Texas; Ralph Erwin, Ballinger, Texas. d-1-8-15-22

"COLD IN THE HEAD"

Those subject to frequent "colds" are generally in a "run down" condition. HALL'S CATARRH MEDICINE is a Treatment consisting of an Ointment, to be used locally, and a Tonic, which acts quickly through the Blood on the Sinus Surfaces, building up the System and making you free from "colds."

Sold by druggists for over 40 years. F. J. Cheney & Co., Toledo, O.

Ballinger is about to lose another good man and his wife. J. M. Pyburn has accepted a position with a drug firm at Lubbock, and will probably become financially interested in the business, and he announced this week that he would leave for Lubbock in a few days. Mr. Pyburn has been in Ballinger for quite a number of years, and he has made many friends here who will wish him success, wherever he goes, but who at the same time regret to see him leave Ballinger.

FINDLAND BILL LONG PAST DUE

(By Associated Press)

WASHINGTON, March 1.—The Minister to Finland, Dr. Axel Leonard Astrom, made an appointment today for a conference with Secretary Mellon tomorrow to begin preliminary plans for refunding the Finnish government's debt to the United States. The amount due the United States by Finland is \$8,281,926 in principal, and about \$1,150,000 accrued unpaid interest.

FIRST FREE SOUP KITCHEN ESTABLISHED IN EL PASO

(By Associated Press)

EL PASO, March 1.—El Paso has opened the first free soup kitchen in its history. It is conducted at Trinity Methodist Episcopal Church, South, of which the Rev. W. B. Hogg is pastor. An average of 12 persons a day eat at the kitchen, which is in the basement of the church, about ten blocks from the center of the city.

The church intends to establish another soup kitchen in the Mexican quarter of the city, the pastor said.

Rev. and Mrs. E. D. Messer have a new girl baby at their home. The young lady arrived on the first day of March.

WHERE DEATH LOSES TERROR

In Mongolia, Murder, Either Wholesale or Retail, Seems to Be a Matter of Course.

Mongolia, as described by Dr. Ferli and Osendowski in "Beasts, Men and Gods," that voracious tale of adventures which fortunately would be impossible anywhere else, is a land where death has become so nearly the common lot that it causes there scarcely a little emotion of any kind. It really seems as if the people intended being killed as little as they intend killing. Murder, either of the wholesale or the retail kind, excites no particular horror. Those who commit it are so numerous that they are wholly unashamed, and while they become frozen if their activities along this line seem excessive even in Mongolia, they are not particularly hated and their lives are no more in danger than those whose homicidal exploits are less numerous.

All this would be incredible if the histories did not record similar conditions existing at many times in many other parts of the world. The Romans knew something like them in both the western and the eastern empires, and a strife of affairs not materially different is recorded in the two great works of our own history, the Spanish and the Dutch fought and slaughtered each other with as little compunction as do the Russians, Chinese and natives today in Mongolia, and in what now are Holland and Belgium the hangman and the man with the ax and the rack were as busy as like executioners were seen to be in Urgan by Doctor Osendowski.

Appreciable loss of torture is inflicted in Mongolia than by both sides in the Netherlands, but it is not missing altogether. Offenders apparently are never tried, even by the most summary of drumhead courts-martial. Whoever has or assumes a little authority, civil or military, imposes an instant sentence, and not infrequently executes it on the spot with his own always ready revolver.

The natives are not quite so sanguinary as the aliens, but the difference is slight, and were a new Genghis Khan to arise among them he could receive almost exactly such a horde of savage nomads as more than once invaded and terrorized Europe from the same grim land.

"Tea" From Cassia Plant.

Laboratory investigations by the department of chemistry, United States Department of Agriculture, have shown that a very delightful beverage resembling tea in many respects can be made from cassia, a wild plant that grows abundantly in the South Atlantic and Gulf states from Virginia to Texas, when the leaves of the plant are treated by processes similar to those used in curing tea. The cassia plant has been used to a limited extent by Indians and, during the Civil war when tea and coffee could not be obtained, by people of the Southern states to make a beverage. Unless properly cured, however, cassia does not make a good beverage.

It having been demonstrated in the laboratory that cassia could be treated by processes similar to those used in the tea industry and an excellent beverage made from it, work has been undertaken to produce it on a larger scale. An experimental plant has been installed near Charleston, S. C., and preliminary reports indicate that the laboratory results can be duplicated on a commercial scale.

Has Renewed Youth.

Biologists the world over are attempting to promote longevity, while in London there is a man who mocks at the gropings of science. He is ninety-eight years old, and has grown not only a third set of teeth, but also has new eyesight. Up to last year he was forced to eat soft foods and wear glasses, now, with his newly developed teeth and eyesight he may eat the toughest steak and read the smallest type without spectacles. Carroll, the great medical experimentalist, says that it would be possible for man to grow new tissues, eyes, teeth, thyroid glands, if they could manage to live to the age of about one hundred and twelve. Although he is only ninety-eight, the Londoner has commenced to develop brand new tissue. The only physical defect from which he suffers is poor hearing.

A Fighting Fish.

Of all the fish that fight, the cross of war with several palms goes to the swordfish. It may be—it probably is—that he is the best fighter because he is the best armed and not because he is more valiant and skillful in combat than many others of the fierce fish that make a battlefield of the sea.

One of the reasons given for apparent increase in the number of sharks is man's destruction of the swordfish, for the swordfish has no more pity for a shark than a robin has for a worm.

Killing a shark seems to a swordfish but a gentle form of exercise. The swordfish, in addition to being an enemy of the shark, is also said to be one of the great enemies of the whale, and this is held against the swordfish as one of the reasons why he should be destroyed and eaten.

War Against the Umbrella.

Tradition has it that the first umbrella was carried in the streets of London, and now in the same city there is a violent agitation against the umbrella. On a rainy day, which is quite the usual thing in London, the forest of umbrellas makes the thoroughfares almost impassable and quite a formidable garrison has taken shape with the hope of having the umbrella declared a nuisance.

TO KEEP BARS UP TO FOREIGNERS

(Capital News Service)

WASHINGTON, March 1.—Although witnesses representing many industries urged the Senate committee on immigration to let down the bars to admit labor from abroad, republican leaders decided, after conferences with senators and representatives, that no change shall be made by this congress in the restriction law.

Opposition to the change in bars and exclusion of Japanese were issues in the new bill which make its acceptance doubtful at any time.

Adoption of the 2 per cent quota based on the 1890 census would be a deliberate discrimination against the so-called newer immigration, said many members of congress.

"If it is not intended arbitrarily to discriminate against the immigration from Austria, Denmark, Czechoslovakia, Italy, Poland, Norway, Roumania, Sweden and other countries, why did the proponents of the measure take the 1890 census?" a report on the now definitely shelved bill asks. "It is too apparent that it is intended not to reduce immigration from Great Britain or Germany, but completely to estop almost all immigration from all other countries."

The cry for more cheap foreign labor comes from steel mills, mines, and contractors who want "hunkies" to do the most unskilled kind of manual labor. Americans will not do such work except at a high price. But Americans generally have indicated they would rather pay an increased price in money for steel,

railroads and buildings than the increased price of depreciation in the value of citizenship, which inevitably follows throwing down the gates and letting an enormous influx of ignorant foreigners into this country.

A Good Thing—Don't Miss It.

Send your name and address plainly written together with 5 cents (and this slip) to Chamberlain Medicine Co., Des Moines, Iowa, and receive in return a trial package containing Chamberlain's Cough Remedy for coughs, colds, croup, bronchial, "flu" and whooping coughs, and tickling throat; Chamberlain's Stomach and Liver Tablets for stomach troubles, indigestion, gassy pains that crowd the heart, biliousness and constipation; Chamberlain's Salve, needed in every family for burns, scalds, wounds, piles, and skin affections; these valued family medicines for only 5 cents. Don't miss it.

ACME BARBER SHOP IN NEW QUARTERS

I have moved my shop from the upstairs location over City Cafe to the new quarters in front of Demoville Metal Works building, next door to Ballinger Auto Company. Will be open for business in new quarters Saturday, with everything strictly sanitary and the best barbers to serve you. I wish to thank you for your liberal patronage in the past and assure you that I will appreciate your trade. Come and see me in my new location.
