VOLUME 20 NUMBER 191

BALLINGER, TEXAS, TUESDAY, NOVEMBER 17, 1925.

MEMBER ASSOCIATED PRESS

LEGION BANQUET FRIDAY NIGHT

Members of the American Legion and Auxiliary will have a banquet Friday night of this week at the Central Hotel. This has been the custom at the beginning of rehearsals for the annual Legion show for several years and will be followed again this year. Tickets will be sold to all Legionnaires who wish to attend at \$1.00 a plate and a delicious menu of turkey and all the trimmings will be served. A good program has been prepared for this affair and a pep meeting will be held at the conclusion of the spread to start the show towards another success.

Anyone outside of the Legion who would like to attend is invited to do so and may secure tickets from C. W. Thorp, who is in charge of ticket sales for the banquet. Tickets must be secured by Thursday evening as that is the closing date for preparations and the hotel will then be notified how many plates to prepare.

All members of the east will be issued tickets to this occasion and it is in their honor that the banquet is presented. The east in this year's show is larger than heretofore, there being seven men and seven women in the personnel. Those who will take part this year are: A. R. Jones, R. W. Earnshaw, Harry Lynn, J. D. Motley, M. C. Atkins, Frank Cameron and Louis Cohen, taking the masculine roles; Mrs. Paul, Mrs. Ernest Moody and Misses Sharp, Copass, Reynolds, Stroble and Butler enacting the feminine parts.

One of the big features of 1925 show that has already been announced is that the big Irish cop, "Patrick O'Grady," will be portrayed by Louis Cohen in Irish dialect.

The banquet will be served at 8:00 p. m., and anyone desiring to attend is asked to get a ticket from the committee by Thursday evening.

FARM BUREAU WILL COMBAT LOSS BY FIRE IN RURAL DISTRICTS

CHICAGO, Nov. 16.—Because farm property destroyed by fire each year in the United States, if in one group, would make a city as large as Kansas City, the American Farm Bureau Federation is out to smother the torch of carelessness that is responsible for most of this waste.

A campaign of education among rural communities will be one of the many subjects to be taken up at the annual meeting here December 7, 8 and 9.

President Coolidge will make an address Monday morning. His address will be broadcast. The president is expected to arrive here Monday morning and leave for Washington Monday afternoon, in time to deliver his annual message to congress, Dec. 8th.

The matter of grazing on public domains, of vital importance to Western stockmen, probably will be injected into the meeting. Muscle Shoals, Truth-in-Fabric, and other legislative and governmental problems also will come up for discussion.

Secretary of Agriculture Jardine will speak at the annual banquet, Tuesday night, Dec. 8th.

ONE MILLION FOR 30 SHOWS

(By Associated Press)
DALLAS, Nov. 17.—The purchase of 30 moving picture theatres in Texas by Louis Dent and C. J. Musselman of the firm of Dent & Musselman Inc., of Dallas, at an approximate cost of \$1,000,000, was announced here this afternoon by Dent.

Four of the picture houses involved in the transaction are located in Breckenridge.

GERMAN SLAYER IS BEHEADED

(By Associated Press)
LIMBURG, Germany, Nov. 17. Karl Angerstein, a paralytic, who last December killed eight members of his household after enticing them separately to his bedside, was beheaded today.

After the crimes, Angerstein stabbed himself and set fire to the house and screamed for help, declaring that the family had been murdered and himself wounded by robbers.

W.C.T.U. ELECTS NATIONAL PRES.

(By Associated Press)
DETROIT, Nov. 17.—Mrs. Ella Boole, of Brooklyn, former vice-president of the National Woman's Christian Temperance Union, and a prominent woman suffrage worker, was chosen president of the national body by a unanimous vote at the 51st annual convention today.

TAX PLACED ON CEREAL DRINKS

(By Associated Press)
WASHINGTON, Nov. 17.—A new tax of one-tenth of a cent per gallon on cereal beverages was approved today by the House ways and means committee in its preparation of the revenue bill to be submitted at the next session of congress.

FRENCH GOING TO NORTH POLE

(By Associated Press)
PARIS, Nov. 17.—The French navy department plans an expedition to the North Pole next spring and a subsequent airplane flight from the pole to New York city, it was announced today.

The expedition will be supplied and manned by the navy department and equipped with scientific apparatus.

The expedition will be known as the French Air Mission to the North Pole.

FORMER PRINCESS BURNED TO DEATH

(By Associated Press)
GROSS WARDEIN, Hungary, Nov. 17.—Princess Chika, wife of the adjutant of former King Ferdinand of Bulgaria, was burned to death today while cleaning a pair of gloves.

The princess was formerly Princess Rowova of Russia, and was twenty-five years of age.

Mrs. J. J. Erwin Jr. left for her home at Sweetwater Monday after visiting relatives here for several days.

MEET TO MERGE FARM BODIES

(By Associated Press)
MITCHELL, South Dakota, Nov. 17.—Plans for merging farm organizations representing 23 agricultural states and to provide a centralized program of activity were under consideration at the opening of the National Farmers Union Convention here today.

States included in the delegations were Texas, Oklahoma and Arkansas.

Out to the Woodshed

Ledger Man Inspects New Ballinger School Building

In company with W. A. Cain, superintendent of the city school system, a Ledger reporter visited the new high school building Monday afternoon, and inspected the new structure from basement to top floor. The building is nearing completion and will be turned over to the board of trustees to be occupied by the high school classes within a few days. The principal work yet to be done is the installation of furniture and equipment and most all the various firms from which this material was purchased will have crews here during the week to install their part of the material. Floors in only a few rooms yet remain to be oiled and following this process the interior of the building will be cleaned and made ready for occupancy.

The auditorium, it was stated, will be ready for use on December 1st. This auditorium has a large stage 28 feet in the opening, with dressing rooms on either side. It will be equipped with two sets of scenery and a velvet curtain of blue and gold will give the stage a very distinguished appearance and make it suitable for any kind of a performance. The footlights are built in the stage. There are twenty-eight lights and reflectors and these will shed a brilliant light on the stage. Overhead lights of red, white and blue are arranged so that any or all of these colors may be used. A piano will be installed in the auditorium at once so that there will be no trouble in moving an instrument from some other part of the building.

The auditorium will have a seating capacity of 705 persons on the lower floor and in the balcony. Opera chairs are used to seat the auditorium. The lower floor is of maple and inclined so that one seat will be as good as another in witnessing attractions on the stage. The large windows may be shaded so that the inside can be made dark during daylight, has two large entrances to the orchestra floor and two to the balcony. The balcony is raised by graduated elevations, having eight tiers in all that extend all the width of the building, and in the center at the extreme rear a space has been reserved for the installation of a motion picture projector. A man will arrive here Wednesday to commence installing the chairs and other furniture in the auditorium.

The room on the Northwest corner of the first floor will be used by the home economics department. This room is practically complete now, having a built-in cabinet which extends across the room, and work tables for the students. In the other end of the room will be the school cafeteria where lunch will be served the pupils at nominal charges. This cafeteria will be under the supervision of the home economics department. Across the corridor on the Southwest corner is the sewing room of this department and machines and other equipment are ready to be uncrated here. The machines are power-

driven and many sockets for electrical connection are found along the walls. The home economics department will cook with both electricity and oil, these two methods being those in use in Ballinger by the general public.

The large halls on each floor contain many steel lockers along the walls, where students can leave their belongings in safety. Drinking fountains are also found in each of the halls as well as toilets for both boys and girls on each floor.

On the Northeast corner of the first floor is the manual training department room in which classes will be started shortly. This room is furnished with very practical desks built for this work, and the equipment will be convenient for both the instructor and the pupils taking the course.

On the Southeast corner is the only regular class room found on this floor.

Going up the wide double stairway to the second floor one faces the entrance to the balcony of the auditorium.

On the left side of the stairs is found the superintendent's office and school board room. This office is large and gives sufficient room for trustee meetings or committee conferences with the superintendent. There is a small ante room and a closet where later a cloak system may be installed.

On the right of the stairs is the principal's office. It is large and has a large waiting room which can be observed by the principal at his desk at any time.

On the Northeast corner of the second floor is found the commercial department room. It is large and will need to be as there are over 100 students taking courses in this department already.

On the Northwest and Southwest corners are found large class rooms all completed and awaiting installation of chairs and desks.

On the Southeast corner of the

SAYS TEXAS HAS STORMY SESSION, QUEEREST GOV. AT AIR INQUIRY

(By Associated Press)
SARATOGA SPRINGS, New York, Nov. 17.—"We have some queer governors in these United States, but if you want to find the queerest of them all you will have to travel all the way to Texas," is an extract from a speech by Dr. Alexander Richmond, president of Union College here, in arguing today that the chief purpose of women's colleges is to fit girls to become home makers.

MITCHELL TRIAL IS RESUMED

(By Associated Press)
WASHINGTON, Nov. 17.—Resuming its sessions today after a three-day recess, the army court martial trying Col. William S. Mitchell heard new witnesses who had been summoned by the defense to support Mitchell's charges against the war and navy departments administration of aeronautics.

GETS A RULING IN ROAD SUIT

(By Associated Press)
AUSTIN, Nov. 17.—3:37 p. m.—The plea for intervention by Governor Ferguson and the State Highway Commission in the suit against the American Road Company was denied today by Judge George Calhoun.

Judge Calhoun also held Attorney General Dan Moody has the right to sue for cancellation of the American Road Company's highway contract and to recover any monies illegally held.

AUSTIN, Nov. 17.—Judge Geo. Calhoun was scheduled to rule at 2:00 o'clock this afternoon on the plea of Governor Ferguson and the State Highway Commission to intervene for the state in the American Road Company suit.

The greatest suffering in the world is not half so painful as the fear of facing it.

Only thing on earth more trouble than raising a family is taking care of a young bird dog.

(By Associated Press)
WASHINGTON, Nov. 17.—The Shenandoah court of inquiry was tossed along a squally course today when it reconvened to investigate the charge that its own judge advocate had sought to bring false testimony before it.

With the accused naval officer, Capt. Paul Foley, waiting to deny that he had sought to influence the testimony of Mrs. Margaret Lansdowne, and with Mrs. Lansdowne's attorney excluded by a marine guard, the widow of the Shenandoah's captain was herself summoned to repeat her version of the story.

Mrs. Lansdowne's lawyer, Joseph Davies, was excluded by the court after he had insisted on appearing as counsel for the woman.

REELFOOT LAKE IS HAVEN FOR GAME

(By Associated Press)
NASHVILLE, Nov. 17.—Reelfoot Lake, winter quarters for millions of the wild duck family, this year offers protected refuge to the migratory visitors from the North and the far Northwest.

A sanctuary in the grassy bend of the curiously-shaped lake and in the deep wild grasses is wired off from the reach of the hunter's gun.

A heavy fine is provided for any person who enters the wire enclosure or drags a boat about the grasses within, which will be permitted to grow up in the wild-est confusion, untouched by human.

Reelfoot Lake was formed by the great earthquake of 1811-12. It is ragged and jagged. Some parts of the marshy sections are impenetrable and it is very dangerous for hunters to attempt a trip on its vast expanse without the guidance of a "pusher."

Reelfoot's Northern tip extends just over the Kentucky state line. The lake proper contains 14,160 acres and with its marshes included, 20,050 acres.

Thousands of sportsmen from the United States and many from foreign countries have visited the lake every year. A conservative estimate of the number killed on the first day of the open season was 10,000.

The state is considering the establishment of a biological station there for scientific study and investigation.

Over 55,000 bales of cotton already gathered and the 1925 crop still moving at the rate of more than half a million dollars a week is not a bad record. If any county in West Texas beats Runnels this year it should be proud of the feat.

The result of a negro and a Mexican quarrel at Sweetwater was that the negro got a "45" shooting a Mexican woman to death, shooting the Mexican man until he is in a hospital expected to live, and injuring a child until it will lose an arm. The negro is in jail for safekeeping until twelve men can adjust matters and give him a verdict.

Coleman is making great plans for entertaining the district convention of the West Texas Chamber of Commerce in that city on December 18th. Some unusual features are to be put on the program at this gathering and a large attendance is expected. This is Ballinger's district and a large party of Ballinger people will probably attend and ask for the next convention.

The San Angelo Standard is moving from a building which it has occupied for the last 20 years to its own new, fireproof, modern building. It is planned to move the offices and machinery in two days and be ready for business on the third day. The paper will be issued in tabloid form while moving operations are going on. The Standard is a credit to San Angelo and West Texas, and will be better able to serve the public in its new building with new equipment.

Many turkeys have been shipped from Runnels county during the past two weeks to make Thanksgiving dinners for the folks back East. Two cars of dressed birds were consigned to Boston and another will leave

BAYER ASPIRIN PROVED SAFE

Take without Fear as Told in "Bayer" Package

Does not affect the Heart

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-five years for

Each unbroken "Bayer" package contains proven directions. Handy boxes of twelve tablets cost few cents. Drug-gists also sell bottles of 24 and 100

NEARLY INSANE AT TIMES

Mrs. Saunders Tells how Lydia E. Pinkham's Vegetable Compound Relieved Troubles of Change of Life

Knorrville, Tenn.—"I took Lydia E. Pinkham's Vegetable Compound while going through the Change of Life. I was very nervous, could not sleep and had melancholy spells. In fact, I was nearly insane at times and my memory was almost a blank. I was so weak I could not do my housework half of the time and suffered dreadfully with my back. My doctor said I would have to worry it out and I went through this for three years before I began taking the Vegetable Compound which I saw advertised. I think it was eight bottles that I took. It has been two years since I took any and I haven't had a doctor since for that trouble. I do all my washing and ironing and I have gained from 110 to 130 pounds. I feel so well I think I do not need any medicine now, but I advise all women who suffer physically and mentally as I did to give the Vegetable Compound a fair trial. I hope it will do as much for them as it did for me."—Mrs. T. A. SAUNDERS, 71 E. Depot Street, Knorrville, Tenn.

here by express for New York. Poultry dealers estimate that only 30 per cent of this year's crop has been sold and that the Christmas rush will be far greater than the Thanksgiving.

The Ballinger Chamber of Commerce is getting ready to commence its annual membership and budget drive within the next few days. The campaign will be made before Christmas this year so that no time will be lost after the first of the year in this work. Memberships and budget agreements run from January to January and unless the drive is completed before that time the chamber is left without visible means of support on the first day of January.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache dryness. No struggling for breath at night—your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates thru every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

BRONTE GETS ANOTHER HIGHWAY

(Bronte Enterprise) The Ballinger Ledger in its last week's issue gave out some information that is good news to Bronte. The State Highway Department has notified Judge Paul Trimmer of Ballinger that the Department had designated the Ballinger-Bronte Highway. Ballinger had worked to get the road designated through Wingate to Sweetwater. But as the Bronte-Sweetwater Highway was already in existence, the route Ballinger wanted the road to go to Sweetwater would parallel the Bronte-Sweetwater Highway, hence, instead of giving Ballinger what they had asked for, the Department designated the highway from Ballinger to Bronte so that it can connect with the highway to Sweetwater at this point.

That simply is fine. It puts Bronte right in "the middle of things." It connects Bronte with Ballinger with a highway so that our people can go there to trade with less difficulty as to roads and at the same time it puts Ballinger on an almost direct line to Sweetwater via Bronte.

The Enterprise in behalf of all our people wants to thank the Ballinger people and also the highway department for this "plum" we were not even expecting. Sometimes, good things come to us when we don't expect

them. When we get irrigation and the cool, refreshing waters of the Colorado are flowing down the canal and Bronte becomes a town of several thousands with beautiful homes and parks, as result of an abundance of water, our good friends at Ballinger can drive out and have lunch in our parks, enjoy the beauty and loveliness of "the old home town." We extend to them in advance an invitation to make Bronte their playground. And all the dream we mention above will come true, so far as improved conditions are concerned when we get the water.

TANGO DECLARED "IN" BUT VISITORS SHUN IT

(By Associated Press) PARIS, Nov. 17.—Dancing masters, and especially dancing mistresses, have decreed that the tango must be danced; that it is the last gasp in rhythm and the poetry of motion. But the decrees are lost on most of the visitors to Paris. Even Frenchmen decline it.

Spaniards and South Americans make a majority of the dancers in fashionable clubs and cafes when the tango comes on. This is especially true at afternoon dances, when most of the participants are not in formal dress. Street clothes and the tango do not go well together, and it cannot be done at all in Oxford bags.

One American girl who refused the tango at a tea party laughingly apologized: "I have given it up. I have decided that it could only be danced with some man one is desperately in love with and should be done on a secluded verandah in the moonlight. It is too hard to stage properly."

PAINS ALL OVER

Lady Says She Took Cardui and Never Saw Such Improvement—Was So Weak Couldn't Stand.

Weatherby, Miss.—Mrs. James M. Hall, of this place, writes that she was "getting weaker all the time" when Cardui, the woman's tonic, was first brought to her attention. After she had taken Cardui a while, she writes that she "never did see such an improvement."

"I suffered all the time and had pains all over," says Mrs. Hall. "I was so weak I could not stand. My skin was cold and flabby. I did not have any color. I had always been a very active woman—used to outdoor exercise, walking and going where I pleased, and to get down, not able to get myself a drink, was indeed a hardship. "Nothing seemed to help me, till I began on Cardui. The first bottle seemed to strengthen me, and I sent for five more. By the time I had taken these, I was on my feet, going around, doing my work, gained in health and strength. "I took two more bottles, and I am well and strong. Can work my garden. I haven't had any more sickness." Ask your druggist. NC-155

Catarrhal Deafness is often caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE will do what we claim for it—the rapid relief of Catarrh or Deafness caused by Catarrh. Sold by all druggists for over 40 years. P. J. Cheney & Co., Toledo, Ohio.

SAN ANGELO ARTISTS TO APPEAR IN CONCERT

Messrs. Parks Goodey and Verne Leonard will appear in concert next Thursday evening at the Eighth Street Presbyterian Church, and will be assisted by Miss Louise Doss, soprano.

Mr. Goodey comes to West Texas from Dallas, where he was well known as a pianist and teacher, having been associated there for the last nine years with Philip Tronitz and Reuben Davies. Mr. Goodey has been teaching in Ballinger and San Angelo since last September, with marked success.

Mr. Leonard also comes from Dallas, where he was well known as a musician and teacher. Mr. Leonard organized a class in violin in Ballinger last spring.

Healthy Hair Gleamy, Thick, Wavy—Full of Life

The constant curling and waving demanded by modern style in hair dress, slowly burns the color, lustre and very life from the hair, leaving it dry, faded, brittle, attracted with gray, then the hair roots shrink and the hair falls out fast.

Try this for one week! While combing and dressing your hair, moisten your hair brush with a little "Danderine" and brush it through your hair—the effect is startling! Your hair immediately takes on new life and that healthy, youthful lustre, becomes incomparably soft, wavy and appears twice as thick and abundant. "Danderine" costs only 35 cents a bottle at any drug store.

Every Little Bit Added to What You've Got—

Of course, appearance is not the only thing, but it's one very important factor in a personality.

That's the reason we maintain that better wearing apparel pays.

A New Necktie --especially one of these new silks at \$1—will be "a little bit added." --sox to match can be found here also.

PIGGY WIGGLY

THE HOME OF QUALITY ECONOMY AND CLEANLINESS

Have you ever analyzed the popularity of Piggly Wiggly? It is true that all Piggly Wiggly stores from Maine to California and from Toronto to Miami and San Antonio look alike, but that is not what attracts customers. Piggly Wiggly's popularity is the result of Piggly Wiggly's complete display of quality groceries, fruits and vegetables; the result of Piggly Wiggly's money-saving prices; of Piggly Wiggly's cleanliness, and of the satisfaction you find in choosing with your own hands without persuasion or interruption. More than a million customers a day in the 1,800 Piggly Wiggly stores—the day-after-day home of quality, satisfaction and economy.

Movies

"Air Mail" Closes Run at Queen Tonight

The Paramount production, "The Air Mail," which opened a two-day run at the Queen Theatre yesterday, closes as the main attraction at that house tonight.

Warner Baxter, Billie Dove, Mary Brian and Douglass Fairbanks Jr., are featured in the leading roles of the picture, written directly for the screen by Byron Morgan, author of all Wally Reid's big auto successes among others.

The picture has to do with a crook who gets an air mailman's job with the express purpose of making away with a valuable shipment when the opportunity should present itself.

Just what does happen, however, makes "The Air Mail" real entertainment.

Milton Sills Coming in Another Thrill Film Soon

Another big First National feature picture, with Milton Sills in the stellar role, has been secured for the Queen Theatre.

The coming picture is "The Making of O'Malley," an adaptation of Gerald Beaumont's Red Book Magazine story of the same title. It is Sills' first starring vehicle, and is a vivid, heart-gripping story of a New York policeman and a society heiress, especially fitted for the stalwart dramatic vigor of the star—outstanding exponent of two-fisted roles.

Supporting Sills is an excellent cast headed by Dorothy Mackaill, just seen here in "Chickie." Others in the cast include Thomas Carrigan, who gained a high place in filmdom as Nick Carter in the detective series; Helen Rowland, six-year-old phenom; Claude King, Warner Richmond, Julia Hurley, Allen Brander, Nell Craig, Charles Graham and Jack de Lacey.

Thrills galore, pathos, tragedy, color, real fun, beautiful photog-

raphy, a wonderful love story and unusual settings are promised in "The Making of O'Malley." A large part of the picture was photographed on the streets of New York city, where Sills, who plays the role of a policeman, is shown actually engaged in directing New York's street traffic.

"The Making of O'Malley" is scheduled for showing at the Queen Wednesday and Thursday of this week.

"THE MAKING OF O'MALLEY"

ATTRIBUTES OF SERVICE—

What makes the FIRST NATIONAL BANK OF BALLINGER a financial leader in this territory is its power of usefulness; the power for good that lies in its size, its age, its record, its dependableness and its faithful service.

Ledger Man Inspects New Ballinger School Building

(Continued from Page 1)

third floor is found another regular class room, and across the hall on the Northeast corner is the Senior study hall. This hall has a capacity of 60 students and will take care very nicely of any Senior class produced here for some time.

The large study hall is located in the center of the third floor and directly over the balcony of the auditorium. It has a capacity of 130 students and is well lighted and arranged. In the East end of the study hall is the library where a special librarian will take care of the books and pupils can go for references of any nature. The library is separated from the rest of the room by a railing, with a counter where books will be issued. Shelves will preserve the volumes in good shape.

On the North side of this floor is a ladies' rest room with closets and a large room containing a regular living room suite of furniture. This room will be used by the lady teachers.

Another room on the North side of the third floor will be used for the science lecture room, and on the Northwest wing will be the science laboratory. Furniture has not been installed in either of these rooms yet, but a man will arrive Wednesday to put in the laboratory equipment. All sinks and electrical connections are ready and the installation will only require a short time.

On the Southwest corner of this floor is another class room.

Four of these class rooms will be equipped with pedestal armchairs and the remainder with desks. The study halls will also be seated with desks.

The color scheme of the new building is a particularly pleasing one and each floor carries a different plan. The ceilings throughout the building are an ivory white. Walls of the auditorium are silver gray with cream and the wainscoting is silver gray. Walls of the first floor are in gray ivory and cream stone with the exception of the home economics room which has a light tan wall with a dark tan wainscoting. The walls of the entire second floor are read and silver gray with a cream and lichen gray wainscoting. The walls of the third floor are bright sage and ivory tan mixed with a bright sage and pale azure wainscoting.

Woodwork throughout the building is solid oak, with the exception of the floors which are of maple.

Lighting fixtures will be installed at once. The house is already wired and the fixtures will only have to be hung and connected. Convenient switches are arranged to cut the light on or off all over the building.

Large cement steps on the North side lead to the main entrance of the building, however there will be entrances from both the West and East sides.

Large seven-foot column light standards will illuminate the front entrance and bracket lights will be placed on either side of the doors. There are also two entrances to the rear of the building leading to both sides of the auditorium stage.

Glassed-in bulletin boards are found in each hall, where announcements of school activities will be posted. Every door in the new building is equipped with air brakes to prevent slamming.

The building is heated by steam with radiators in every class room, corridors, study halls, offices and auditorium. A double-pipe steam system from a large boiler in the basement will supply the heat.

An electric bell system is already installed which is controlled from the superintendent's office, principal's office and study hall. Class periods will be handled by this method.

A feature that may add much to the safety of the building is the fact that it is resting on a solid ledge of limestone rock. When excavation was made, dirt was removed until a solid, level strata of rock was struck which is about four feet thick, and the building was erected on this natural foundation.

RHEUMATISM, NEURITIS, PAIN

"Heet" Relieves Instantly

With applicator attached to cork, just brush "Heet" over the pain area, whether in hands, elbows, shoulders, feet, knees, legs, back, neck or body. Instantly, you feel this harmless, glorious, penetrating heat draw the pain, soreness and stiffness right out of the aching or swollen joint, muscle or nerve. Besides, "Heet" scatters the congestion and establishes a cure. "Heet" contains two soothing, penetrating ingredients, too expensive to use in ordinary liniments or ointments. "Heet" is a clean, pleasant liquid; doesn't stain, blister or irritate the skin and costs only 60 cents at any drug store.

THE FARMERS AND MERCHANTS STATE BANK ENJOYS CONFIDENCE, GOOD WILL AND PATRONAGE OF BALLINGER AND SURROUNDING TERRITORY

—because its officers are experienced and proved bankers.

Latest Bobs and Waves Now Available to Chinese Girls

SAN FRANCISCO, Nov. 14.—For the first time the beauty shop has invaded Chinatown. Two of them are doing a flourishing business.

The operators are Chinese girls, graduates of hair-dressing and maniere schools, and on the walls hang diplomas informing customers that they are duly qualified.

Most of the patrons are Chinese girls who want the latest bobs and waves. However, an occasional Chinese sheik, with pinch-back coat and 22-inch trouser cuffs, can be seen opposite the manipulator of orange stick, cuticle knife and buffer.

One Fire—Two Losses

Fire in the building that houses a business causes two losses—the property loss and the loss of earnings as a result of business interruption.

You need two kinds of insurance for complete protection—Fire Insurance on the property, Prospective Earnings Insurance on the business.
