## MANY LOST IN STORM ON CARIBBEAN SEA

(By Associated Press)  
SANTO DOMINGO, July 29.—Many passengers were lost when three schooners were sunk off the coast of Santo Domingo in a storm.

Forty-four bodies have been washed ashore, and many are missing.

MIAMI, Fla., July 29.—Eight persons are known to be dead as the result of the tropical hurricane that struck Nassau Monday, says the first direct report received here from the steamship Captain McDonald.

Property damage estimated at more than \$4,000,000 in Nassau is reported.

No reports have been received from outlying districts of the island, and the loss of life and property it is feared will be greater.

WEST PALM BEACH, Fla., July 29.—The damage from the hurricane in this area is now estimated at \$2,500,000.

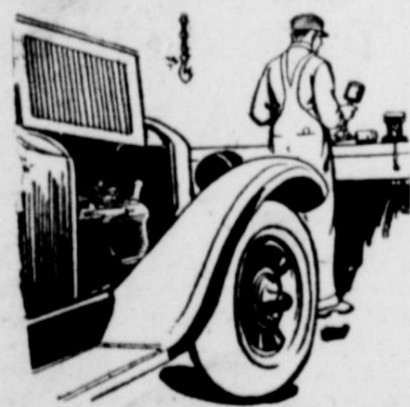

The only fatality reported is the death of a boatman, whose head was crushed between a boat and the seawall.

### MAKES HOLE IN ONE— WINS DOZEN GOLF BALLS

Dr. J. G. Douglass holed out in one and receives one dozen golf balls while playing a second round at the Country Club golf links Wednesday afternoon. The Strain Drug Company has a sign posted at hole No. 5, a ninety-four yard link, in which a dozen golf balls are offered free to all players making this hole in one shot. It is the second time the drug store has put up, J. Whit Patterson having made the hole in one a couple of years ago. It is the first hole-in-one for Dr. Douglass, but he has one game to his credit in which he "birdied" the course.

## COURT MARTIAL FOR 13 GUARDS

(By Associated Press)  
WASHINGTON, July 29.—Court martial for twelve enlisted coast guardsmen and one officer, charged with misconduct, was ordered today as the outgrowth of an investigation of alleged rum running by guardsmen on the New Jersey coast.

### WHAT AILS YOUR ENGINE?

That particular noise under the hood that you do not understand is no mystery to us. The engine is out of order and we can locate the trouble quickly. Let us get at it right away and save a more serious repair job. Our auto repair shop is fully equipped to cope with adjustment work of every description. Give us a trial.

Old Fire Station Bldg. Phone 419

## ROAD BOND LAW SURE OF PASSAGE

(By Associated Press)  
DALLAS, July 29.—Sufficient commitments have been obtained from members of the legislature to secure the passage of the road bond validating acts, J. A. Kemp, of Wichita Falls, chairman of the state-wide bond committee, said here today. Mr. Kemp got an expression from a sufficient number of legislators to insure the passage of a measure making good the road bonds which were declared void by the Supreme Court some time ago.

Mr. Kemp believes that the legislature should not attempt anything more than bond validation in the special session of the legislature called by Gov. Ferguson on September 13.

## 151 INDICTED IN ILLINOIS PRIMARY

(By Associated Press)  
CHICAGO, July 29.—True bills, naming forty-two persons and raising the total to 151 persons, charged with vote frauds in the irregularities of the April primaries, were voted today by a special Cook county grand jury. A number of women are named.

Mr. and Mrs. Frank Keeney, of Bronte, were visitors to Ballinger Wednesday afternoon. Mr. Keeney stated that cotton and feed around Bronte were doing fine.

Ted, the little son of Mr. and Mrs. R. E. Truly, is ill with typhoid fever. This is the second case of fever in this family, little Mary Elizabeth Truly having recently passed through a siege of it.

## ROBBERS GET \$65,000 OFF TRAIN

(By Associated Press)  
SALISBURY, Mass., July 29.—Train robbers moved the "Wild West" to New England today and got away with \$65,000 in cash in a daring hold-up near here.

Halting the train and holding up the crew, the robbers proceeded to overpower the baggage master on a Boston & Maine railroad train and escaped with the big loot.

The money was being sent to a bank at Amesbury, Massachusetts by the Federal Reserve Bank of Boston.

## LIQUOR DEATHS INCREASED TO 44

(By Associated Press)  
BUFFALO, July 29.—While a nation-wide search got underway today for three higher-ups in the wood alcohol bootlegging ring, deaths among their customers had increased to forty-four. The city of Jamestown reports four deaths from poisoned booze during last night.

The men who are being sought are alleged to have known that the liquor was poisoned when they sold it.

Capt. A. D. Tally, who came up from Mason with his son, W. A. Tally, first of the week, will remain over for a few days and attend the old soldiers reunion at Christoval. He and his son visited Wingate Wednesday, returning to Ballinger Thursday and Walter returned to his home at Mason. "The Mason country is in the best shape it has experienced in thirty years," said Mr. Tally.

Ledger want ads pay.

## MOODY'S MAJORITY IS 2,816

(By Associated Press)  
DALLAS, July 29.—Noon tabulation of the Saturday primary returns gives Dan Moody a majority of 2,816 for governor, and puts him over the 400,000 mark.

George B. Terrell, for commissioner of agriculture, has the highest vote of any democratic candidate, with the count being 453,197.

The total vote has gone to 802,428.

Get today's news today—read The Daily Ledger.

## WILL NOT TESTIFY BEFORE SEN. COM.

(By Associated Press)  
CHICAGO, July 29.—Flatly refusing to answer questions today before the Senate campaign funds committee, Thomas Cunningham, of Philadelphia, advised that he be cited to the Senate for contempt.

Cunningham said the \$50,000 he contributed to the Vane senatorial campaign in Pennsylvania was a personal matter.

Rev. B. W. Bigham returned Thursday from a five weeks sojourn in Oklahoma, where he visited relatives and watched the Texas political battle from a distance. His friends accused him of deserting his party, and consequently he did not have a voice in defeating "Ma." Rev. Bigham says that Oklahoma was wet when he left that state.

H. T. Hodge, of Abilene, is here visiting his daughter, Mrs. W. D. Seales, and looking after his theatrical interests in Ballinger.

## GRAND JURY INDICTS NORRIS FOR MURDER

### TROOPS READY IN CHURCH FIGHT

(By Associated Press)  
MEXICO, D. F., July 29.—Newspapers today are said to have been reliably informed that Mexican federal troops in the city of Mexico, beginning tonight, will be kept in readiness for any disturbance arising from the religious situation in the republic.

It was said that the Catholic churches would be kept open until 10:00 o'clock each night for the rest of this week on account of overflow crowds attending the last services conducted by the priests. As a result of the Mexican laws dealing with the question the priests will withdraw from their pastorates Saturday night and will not conduct any further services until the trouble is settled.

### LOSES APPEAL TO HIGH COURT

(By Associated Press)  
BEIRUT, Syria, July 29.—The appeal of Bennett Doty, of Memphis, Tennessee, formerly of Fort Worth, from a sentence of eight years at hard labor for desertion of the French Foreign Legion, today was rejected by the higher military court.

Get today's news today—read The Daily Ledger.

### CREDIT AND DIVERSIFIED FARMING

When a farmer applies for a loan he is usually asked a very significant question.

"How many crops do you plant?"

The reason for this credit inquiry is that the financial safety of the farmer is almost certain if he does not depend on one or two crops for his investment returns.

The far-sighted farmer runs no risks, and thus guarding against failure, is considered a good liability when he is in need of financial assistance.

This bank is in a position to offer attractive loan terms to responsible borrowers.

Professional baseball is again attracting the attention of those fans who became very much interested in the governor's race during the past three weeks.

"Ma" Ferguson has waited too long to resign from the governor's chair. The legislature will throw her out when they meet on September 13, unless she decides to quit before the special session convenes.

And while we are speaking of definitions, we would like for our friend, the editor of the Brownwood News, a semi-weekly publication in Brownwood, Brown county, Texas, to turn to his vol-

??????  
**AUG. 15**  
Watch This  
Space

ume of Mr. Webster's latest issue and look up the word "scoop." We doubt if he knows the meaning of the word, according to the impression left in our mind after reading a story in his paper of July 27.

J. D. Smith, of the Wingate country, was looking after business in Ballinger Wednesday afternoon. Mr. Smith says feed crops are fine in his part of the county, and that the cotton looks good, but is not what it appears to be. The plant is thrifty, but the fruit is short. However, Mr. Smith says that it is putting on.

**WOMAN AFRAID TO EAT ANYTHING**

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Adlerika I can eat and feel fine." (signed) Mrs. A. Howard. ONE spoonful Adlerika removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Removes old waste matter from intestines and makes you feel happy and cheerful. Excellent for obstinate constipation. J. Y. Pearee Drug Co.

**FLOWERS FOR THE LIVING**

A little note to The Ledger signed "A Voter," says, "I think the candidates and the public in general should extend thanks to The Ledger for its untiring efforts in giving the returns of the recent primary. The work and expense of giving us the quick report was no small thing, and gathering these returns was no soft snap. I think all those who assisted in giving the public the good service deserve credit."

The writer of the little missive didn't sign his name, but the handwriting expert in The Ledger office says S. D. Williams is the man who handed out the flowers for the living.

**BALLINGER TOURISTS RESCUE AUTO VICTIM**

A. L. Parr, Mr. and Mrs. A. E. Crawford and Earl Wheelis returned Wednesday from a trip to Mexico. They motored to Del Rio and crossed the border at that place.

While traveling near Del Rio the Ballinger party witnessed an auto accident in which an old lady was seriously injured. The car in which the old lady was traveling turned over, underpinning her, after dragging her a considerable distance. The old lady was rescued and carried to a hospital where her arm was amputated. The flesh was torn from the arm and the member mangled in such a way that it could not be saved.

Mr. Parr stated that they made the trip to Del Rio in five hours and twenty-five minutes, traveling in an overhauled Ford.

**Kids Want Watermelons?**

Let them bundle up the old discarded cotton clothing, send them to The Ledger office and then they can buy the melons.

Mr. and Mrs. C. W. McKinney, of Coleman, are here visiting friends for a few days. Mr. McKinney was formerly in the poultry business here, acting as manager for the Potter Produce Co.

Walter Tally, former Ballinger citizen, was here from Mason on business Thursday.

**TRICKY BETS**

Over at San Angelo it is reported that a wager was made that Jim Ferguson would not get 500 votes in that county. His name was not on the ticket, and of course he did not get any votes. The loser paid the bet.

Down at Houston a man bet another that Zimmerman would be third man in the race when the votes came in. One of the first three candidates was a woman, Mrs. Ferguson, and Zim was third man. The loser paid.

Over at Abilene it is said that a wager was made concerning "Ma's" word; one of the bettors betting that she would not keep her word about resigning. Both are claiming the money.

**HERE IN INTEREST OF GYM FOR TRINITY UNIVERSITY**

L. J. Wilkins, assistant coach of Trinity University, located at Waxahachie, spent a few hours in Ballinger Thursday in the interest of a big gymnasium for Trinity University, one of the leading schools in the Southwest, a member of the Texas Conference.

Mr. Wilkins said the board of trustees of the school expected to construct a gymnasium to cost between \$75,000 and \$100,000.

He was also scouting around in this section for football players and new students for the school.

Mr. Wilkins stated that Barry Holton, athletic director, and one of the famous Notre Dame eleven, former Freshman coach of that great school, expects to

have one of the best football teams in the Southwest next year. Trinity has four games with Southwestern Conference members: A. & M. College, S. M. U., Rice Institute and Baylor University. Last year the Tigers defeated Baylor and Rice on their home gridirons. Mr. Wilkins left Thursday afternoon for San Angelo, where he will look after business of the school.

**NO ACTION ON PENN HALL FOR KINDERGARTEN USE**

The board of trustees has taken no action on the matter of allowing the Kindergarten Association the use of Penn Hall for the kindergarten this year. Dr. E. C. Baskin, vice-chairman of the board, stated Thursday.

"It is a misunderstanding in some way," Dr. Baskin asserted, "the board has not taken any action of this matter this year and I do not know what steps will be taken by the board at the next meeting in regard to this matter. We had talked a little about using the hall for a couple of Junior high school classrooms."

It was stated in The Ledger some time ago that the board had released the hall to the kindergarten for their use again this year.

**Garden Truck**

**Saffron Skin from Sour Bile**

South Georgian Drives Out Enormous Quantity Sour Bile with Dodson's Liver Tone

After a long period of the worst form of weakness and the terrible feeling of sickness that comes from a system loaded with sour bile, Mr. Sam Puckett says: "When I kept getting those bilious attacks rector I took enough calomel to kill a mule, that was all the time. Finally I turned saffron color all over. My wife happened to read about Dodson's Liver Tone in the Weekly Constitution, so we drove to town and got a bottle. It was like magic. It drove quarts of sour bile out of me as black as ink. From that day I have felt as if I had a new liver, and whenever I begin to feel weary and bilious, with no appetite, a dose of Dodson's Liver Tone puts me to rights."

This wonderful, quick action, liver starter ought to be in every household, if for no other reason than to stop the use of dangerous calomel. Dodson's Liver Tone is pleasant to take, even for children, and never makes you sick. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs but a few cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Put a pinch  
of P.A.  
in the  
paper

THEN do your little finger-exercise and seal the seam. There, Men, is a cigarette you can brag about. Prince Albert is crimp-cut and stays put in the papers. Doesn't land in your lap or flutter to the floor. Easier to roll, you'll agree.

Real tobacco, every bit of it. You can tell that by the feel of it. When you open the tidy red tin, the rich fragrance that rises to greet you is a genuine delight. Cigarettes made with P. A. are fragrant when you smoke them too. Fragrant and friendly. You'll say so!

They are cool and refreshing as a drink of spring-water. They are mild and mellow as Indian summer. It is their wonderful taste you will remember longest. You'll roll 'em and smoke 'em, morning to midnight, and enjoy every one.

This same tobacco that is so delightful in a home-rolled cigarette is equally delightful in the bowl of a pipe. As a matter of fact, Prince Albert leads the field among pipe tobaccos. If you like a pipe, you'll like it more with good old P. A. in the bowl.

P. A. is sold everywhere. And always with every bit of bite and punch reserved by the Prince Albert process.

**PRINCE ALBERT**

—no other tobacco is like it!

## SHOULD HUSBANDS DO HOUSE WORK?

How Mrs. Dyer Solved the Problem.

Mrs. Mildred Dyer was lucky. She had a good-natured husband who helped her with much of her housework. Because she was in ill health for five years, it was often necessary for him to do this. But it bothered Mrs. Dyer. She felt that he had to work hard enough anyway. The time he spent in doing her work was needed for his own. She determined to find the road to better health.

She writes: "I think Lydia E. Pinkham's Vegetable Compound is simply wonderful. My health is better than it has ever been. I am getting stronger and gaining in weight." She has solved her problem and her household is happier. The Dyers live at Redlands, Calif., Route A, Box 183. How often does your husband have to do your housework? No matter how willing he is, no woman feels comfortable about it. Perhaps you, too, will find better health through the faithful use of Lydia E. Pinkham's Vegetable Compound.

## COTTON PROMISES HALF BALE TO ACRE

W. C. Penn was exhibiting a stalk of cotton which he pulled from the Will Mullins crop on the Johnson place North of the city, Wednesday afternoon. The stalk was well loaded and still fruiting and Mr. Penn predicted that the eighty acre field from which he plucked the stalk would produce half a bale to the acre. "There is going to be a good crop made," said Mr. Penn, "but I don't believe that the price will drop below 15 cents." The pioneer cotton man, however, predicted that the market would not run as high as in recent years, and expressed the opinion that the farmers would be in luck if they could pocket fifteen cents around for their 1926 crop.

## BIG PRICES PAID FOR VALLEY CORN CROP

(By Associated Press) HOUSTON, July 29.—While the Iowa corn farmer importunes congress for aid in obtaining better prices for his produce, his Rio Grande Valley colleague is selling corn as roasting ears at prices reported in some instances as high as \$100 an acre in the field, J. V. Meyer, agricultural agent for the Gulf Coast Lines-International & Great Northern, said in telling of an Edinburg farmer having received this price for a ten-acre field. Another Rio Grande Valley farmer, J. A. Edmiston, of Edinburg, is reported by Meyer as having sold 20 acres of corn for \$1,000, or \$50 an acre.

## Movies

### "Why Women Love" Closing its Run Here Tonight

The tang of the salt sea air, the silvery treacle of moonlight on the ocean, the lyric lighting of a craft on the bosom of watery wastes—such are the elemental charms that make a cinematic feature of "Why Women Love," which closes a two-day run at the Queen Theatre tonight. It is one of the pictorially outstanding productions of the season, according to some of the critics.

Add to this a dramatic development of story values, the performances of such sterling players as Blanche Sweet, Robert Frazer, Dorothy Sebastian and Russell Simpson; a supporting ensemble ideal in the roles portrayed; photography that is perfect; spectacular scenes that are thrilling in the extreme, and the masterful direction of Edwin Carewe, and the result cannot be anything short of a cinematic triumph.

Robert Frazer appears as a stalwart maritime hero opposite Miss Sweet, and striking characterizations are contributed by Edward Earle, Dorothy Sebastian, Alan Roscoe and others whose talents are unquestioned.

"Why Women Love," which is a First National picture, was adapted from Willard Robertson's famous play, "The Sea Woman."

### Buck Jones Feature Next at the Queen

What would happen if a troupe of cowboys toured Europe?

The answer to this will be found in "The Cowboy and the Countess," the Fox Films production starring Buck Jones, which comes to the Queen Theatre tomorrow for two days engagement.

Buck is the lovable and high spirited Jerry Whipple, who takes his band of cowboys with him when he follows the lovely Elsa Verlaime abroad. His adventures after he reaches Europe are thrilling indeed, and the unexpected way in which the story reaches the highly dramatic climax will hold the interest of everyone.

Others in the cast include Helena D'Algy, Diana Miller and Harvey Clarke. R. William Neill directed the production.

## RETENTION DAMS PREVENT FLOODS IN THE ALAMO CITY

(By Associated Press) SAN ANTONIO, July 29.—When the anniversary of San Antonio's big flood comes September 9 and 10, residents of the city will be reasonably safe from any repetition of the disaster of 1921.

A huge dam in Alamo Heights, North of the city, will be well enough under way by September 1 to preclude any flooding of the downtown section. This construction, the Olmos Creek detention dam, is designed to take care of the rise in the Olmos watershed and hold it in Alamo Heights until the streams flowing through San Antonio can pass it off without going over their banks.

A second safeguard against high waters is to be the cutting through of an "overflow channel" for the San Antonio River, which winds sinuously through the entire downtown district. This channel will eliminate, when necessary during heavy rains, a big bend in the river.

Mrs. Troy P. Simpson and little daughter have returned from a visit to Abilene, where they visited Mrs. Simpson's mother.

Miss Mary Russell, of Liberty Hill, is here visiting Miss Marthyle Bridwell.

Jack Pickford, movie actor, claims he recently saw his wife, Marilyn Miller, and had dinner with her.

### Troubled France Spent More on Amusements

(By Associated Press) PARIS, July 28.—Every class of amusements in Paris last year had a greater patronage than in 1924.

Those in the French capital paid approximately \$12,000,000 to all sources, from which one million dollars was realized on the tax for the poor. The state took over a million as its tax.

Theatres led the list, followed closely by the movies. Music halls ranked third in popularity, and then circuses, dance halls and museums.

The uninformed should be told that the air derby in Belgium bears no resemblance to an aviator's headgear.—Dallas Journal.

It may be hot, but a fellow named Luke Warm was arrested in Chicago.

DR. W. B. CALDWELL AT THE AGE OF 82

Countless girls and women now know how foolish and needless it is to "purge" and "physic" themselves to avoid sick headache, dizziness, biliousness, sallow skin, colds, or sour, gassy stomach.

They have found that Dr. Caldwell's Syrup Pepsin helps to establish natural bowel "regularity" even for those heretofore chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it never gripes, sickens or upsets the most delicate girl or woman. Besides, it is absolutely harmless and so pleasant that even a

cross, feverish, bilious, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.

**Virginia Lady Tells of Taking Cardui and Says She Has Since Recovered Perfect Health.**

Lynchburg, Va.—"I have taken Cardui several times for a run-down condition and have found it perfectly splendid," says Mrs. Lee T. Marsh, 715 First Street, this city.

"About ten years ago," she explains, "I became so weak I could not go about. I looked like a skeleton and . . . was dreadfully worried about myself. A friend suggested Cardui and I decided to try it."

"I kept up the medicine until I had taken six bottles. It regulated and built me up. I improved greatly."

"Last year we drove up here through the country from Florida. I was exposed to the weather and must have taken cold, for I became ill . . . I got run-down, lost flesh, . . . could not sleep and had no appetite at all. I was so nervous that I did not know what to do."

"I thought of Cardui. I began to take it regularly and it was not long before I began to feel better. I took six bottles, one after another, and at the finish of the last one was perfectly well again. Since then I have continued gaining in weight and all winter have been in perfect health."

**MEDICAL DOCTORS vs. CHIROPRACTORS**

EDITORIAL—FORT WORTH STAR-TELEGRAM

This so-called "health drive" by the medical profession of the State of Texas will not produce the desired prejudice of the public against Chiropractors, as is seemingly its prime motive.

The medical profession cannot be blamed for attempting to throw out the imposters in their own profession; but people of sound judgment and reason know they have no right to control or thwart the honest efforts of a different profession which has proven, beyond doubt, a blessing to mankind.

For a very simple explanation of the situation that now exists between the medical profession and Chiropractors let us liken the medical profession to the railway system and the Chiropractic profession to the automobile world. The chief purpose of the railway system is transportation; so it is with the automobile. The chief purpose of the medical profession is assisting in transporting one from a state of disease to a state of health; the purpose of the Chiropractic profession is the same. If the railway system, on account of its seniority in the field of transportation, should attempt to "educate the people" against the automobile, what would the result be? The answer is obvious: which would be—more passengers for the automobile. If the medical profession, on account of their seniority in the field of therapeutics, attempts to "educate the people" against Chiropractors, what will the result be? The answer will inevitably be—more patients for the Chiropractors.

In their public speeches and their literature for publication the medical profession attempts to lead the public to believe that they would have no quarrel with the drugless profession if they would only "qualify" by entering the medical schools and complete the medical course of study.

Since the science, art and philosophy of medicine and Chiropractic are entirely different, it is preposterous for the public to believe that the medical profession is sincere in their statements that a drugless practitioner would be better qualified to practice therapy after having finished in medical studies. In this connection we refer you back to the illustration of the railway train and the automobile: let us ask if an expert automobile driver would or could be made more proficient and safer for the public by forcing him to learn to drive a locomotive engine? It would be just as reasonable for the Railway Engineers' Union to try to have laws passed that would prohibit the use of automobiles as it is for the medical profession to try to have laws passed that would prohibit the use of Chiropractic.

Chiropractic adjusts the spinal columns of sick people; if this failed to bring health to the sick, they would have no business and no action would be taken against them by the medical profession. The great crime (?) that a Chiropractor commits is that the sick get well under his care and more and more patients come to him to get well, and the physicians' business suffer. It is at this point that the autocracy of medicine dons its well-worn mask of "benevolence," its threadbare cloak of "public welfare," and starts its campaign against Chiropractors—and for what?—for making the sick well contrary to medical laws, made by medical men.

The end is not yet. The medical fraternity has yet to learn that the people's rights cannot be trampled under foot, that life, liberty and the pursuits of happiness cannot be subservient to the private gain of any single class.

The great commonwealth of the State of Texas will rise in unison and demand of the Senators and Representatives an adequate law which will insure their constitutional right to secure the services of a Chiropractor if they so desire and not be wholly dependent, live or die, upon the medical profession. A law which it at least equal to that which is upon the statutes of twenty-six other states giving Chiropractors legal recognition.
