300 DROWN WHEN DAM BREAKS

Byrnes Is In Tom Green County Jail

Special to The Ledger.
SAN ANGELO, Mar. 13.—Newton Byrnes, 23, the murdering chauffeur of three members of the J. W. Juergens family, in San Angelo, is safe in the Tom Green county jail today. He was brought here early Tuesday morning by Sheriff Rob Hewitt and Deputy Sheriff James White from Sulphur Springs where he was arrested late Sunday.

He made a new statement here today which was about the same as the one he made to officers in Sulphur Springs, adding a few more of the details and telling of kissing the faces of each of his three victims after their bodies had been hacked with a hatchet, a butcher knife and an ice pick.

No disturbances have been reported after the arrival. Byrnes is being well guarded, however, in the jail here. He was composed this morning and requested that he be furnished with cigarettes and reading matter.

If attorneys have been employed by Byrnes, it has not been learned. D. I. Durham, district attorney, will meet with the grand jury this afternoon after it is empaneled by Judge J. F. Sutton, Tom Green county district judge. This is a special jury summoned Monday afternoon and night.

Forged Check Cause
A forged check was given as the cause of the triple killing.

(Continued On Page 6)

TEACHERS MEET STARTS FRIDAY

Ballinger and Rannels county teachers will go to Coleman on Friday, where they will attend the Mid-Texas Teachers Institute to be held in that city at the Coleman high school on Friday and Saturday, March 16 and 17. There will be no school here on Friday, H. C. Lyon, superintendent of the city schools and president of the association declared.

A fine program has been arranged and many well known lecturers and educators from over the state will be present and address the teachers from Brown, Callahan, Coke, Concho, Comanche, San Saba, Coleman, Erath, Lampasas, Mills, Nolan, Sterling, Eastland, Hamilton, Mason, Menard, Rannels, Taylor, Tom Green and McCulloch counties.

Several hundred teachers are expected to attend the institute. The first program will be held Friday morning, starting at 10:00 o'clock. Addresses and lectures will be heard throughout Friday and Saturday.

Mr. Lyon declared that the teachers and visitors were urged especially to attend the Friday evening program starting at 7:30 o'clock at the high school.

The program for Friday is as follows:
Invocation—Rev. J. W. Shuler, Coleman.

Glee Club Contest—Open to all schools within the District, Miss Hettie Hofstetter, San Angelo, director.

Address—"Business Efficiency in School Administration," S. M. N. Marrs, State Superintendent of Public Instruction.

Address—"Evolution and Christianity," Prof. D. W. Arnette, Simmons University.

Style Show Contest—Open to All Home Economics Classes in the District, Miss Bernice Alsop, Coleman, Director.

Most every teacher in Rannels county is expected to attend the two days gathering.

MARLAND SPUDS NEW WELL; VACUUM RIGS

MELLON HEARD IN NEW PROBE

WASHINGTON, Mar. 13.—Two men high in the councils of the Republican party, Secretary of the Treasury Andrew Mellon and Ex-Senator William M. Butler, Coolidge campaign manager in 1924, testified under oath today before the Senate Lands Committee that Will Hays sought to give them some of Harry F. Sinclair's Liberty Bonds in exchange for cash contributions to make up the Republican deficit of 1923.

Mellon refused the deal but made a \$50,000 contribution.

Butler also refused the deal.

Hays, former chairman of the Republican National Committee, who followed them on the stand, admitted their testimony was correct.

REPORT HERE MONDAY OF THE DEATH OF MRS. HANCOCK ERRONEOUS

The report received here Monday from Coolidge, Texas, telling of the death of Mrs. Hancock, the mother of Mrs. R. T. Williams and Miss Eleanor Hancock of this city, was false, according to a telegram received here early Tuesday morning by M. S. Karanomy, of Higginbotham Bros. & Co.

Mrs. Hancock is seriously ill and little hope is held for her recovery.

Mr. and Mrs. Williams and daughter and Miss Hancock went to Coolidge Monday afternoon, arriving there at 2 o'clock Tuesday morning.

Mr. and Mrs. W. A. Bridwell and daughter, Miss Willie Wood, and Frank Bridwell, have returned from Fort Worth where they attended the opening of the Fat Stock show and visited relatives.

Dr. C. W. Cheatem has gone to Fort Worth to spend a few days looking after business.

Marland Oil Company spudded its No. 1 Byler, J. F. C. Roach survey, about three miles northwest of Ballinger last week and drilling under way at about 200 feet on Monday, while Vacuum Oil Company was rigging its Owenwood No. 1 Fowler, near its producing wells north of the city.

Other wells over the county are drilling, reports indicated Tuesday while nothing could be learned from four or five wells.

Pure Oil Company's workman are bailing from 2,435 in its No. 1 Giesecke, 18 miles east of Ballinger after pulling tubing from that depth last week. After bailing is completed, a test for a gas well will be made.

Pure Oil Company's No. 2 Giesecke continues to make quite a bit of gas.

Waterhorn Oil Company's No. 1 King is reported to be drilling below 3,000 feet.

Griswald, et al No. 1 Willingham is said to be drilling around 1,600 feet.

Summers, et al No. 1 Reese is shut down, awaiting water connections for the boiler.

The other wells of the county are reported to be drilling but the depths could not be learned Tuesday at noon.

Vacuum Oil Company is expecting other material from Gainesville this week. Some six carloads of casing has arrived here from that city and this will be used in the Fowler and Flanagan wells, according to George H. Luck, superintendent for the Vacuum Company here.

Be wise and advertise.

THE WEATHER

(By International News Service)
WEST TEXAS—Partly cloudy, cooler in the southeast portion. Warmer in the north portion tomorrow.

EAST TEXAS—Partly cloudy, probably local showers on the west coast. Cooler tonight. Warmer in the northwest portion tomorrow.

English Flier Hops Off For Long Flight

(By International News Service)

LONDON, Mar. 13.—Captain W. R. Hinchcliffe, who hopped from Cranwell airdrome at 8:45 o'clock this morning is attempting a trans-Atlantic non-stop flight, it was announced by Mrs. Hinchcliffe some few hours after the flier left with a male passenger.

He passed Mizen Head, Cork County, Ireland, this afternoon, flying westward according to Dublin dispatches.

(By International News Service)

LONDON, Mar. 13.—Captain W. R. Hinchcliffe, British ace, hopped off in his Stinson monoplane at 8:40 o'clock this morning for an unannounced destination.

He told an I. N. S. representative just before the hop that he would establish a new long distance record before he landed.

AVIATRIX DIES IN AIR CRASH

(By International News Service)

LONDON, Mar. 13.—Lady Carberry, English aviatrix, was instantly killed when her plane crashed at Nairobi airdrome in East Africa, according to dispatches received here today.

A passenger in her plane named Cowie, was also killed.

Ruled Index Cards 5x3 inches \$1.50 per thousand at Ballinger Printing Co. tfd

(By International News Service)
LOS ANGELES, Mar. 13.—Ninety-eight bodies of the victims of the San Francisco-Quito Canyon flood were fished out of Santa Clara river, 14 miles from the St. Francis dam, according to reports to the sheriff's office here.

Twenty-five more were recovered at Saugus according to reports from 300 deputies of a rescue crew.

It is believed that between 200 and 300 were drowned when the giant dam crumbled early today.

An unconfirmed report stated that an airplane had sighted eight bodies near Saugus. The Ventura county sheriff reported that four bodies had been recovered at Piru and two more at Santa Paula.

Relief work is seriously hampered by road and rail conditions with huge sections being wiped out by floods.

The Ventura officers were unable to penetrate the flooded district beyond Santa Paula while Los Angeles rescue workers stopped Saugus.

The Masonic Temple at New Hall has been turned into an improvised morgue for the dead.

Fleets of ambulances are carrying Los Angeles doctors and nurses, dispatched to the accessible towns in the flood swept Santa Paula Valley.

Heavy deposits of salt will make the recovery of bodies difficult, the workers stated.

Theories that the dam was dynamited or caused by an earthquake have been discounted.

D. C. Matthews, powerhouse employe at San Francisquito reported yesterday that he had found the soil at the foot and in the center of the dam in a mushy condition.

A report from Ventura declared that officials of the Southern California Edison Company can account for only 75 of its 175 employes.

LOS ANGELES, Mar. 13.—The lives of between 75 and 100 families were imperiled this morning and many are believed to have been drowned when the huge St. Francis dam of the Los Angeles aqueduct water system broke sending a wall of water rushing into the valley.

At New all, the bodies of three known victims have been recovered.

Officials are unable to determine the cause of the break. Some, however, believe that an earthquake caused the crumbling.

LOS ANGELES, Mar. 13.—The bodies of 33 persons drowned when the 208-foot St. Francis dam, five miles north of New Hall, went out this morning, have been recovered by Southern Pacific railroad employes today.

The railroad officials estimated that between 200 and 300 were drowned. All of the recovered bodies were found in the New Hall community at day break.

J. D. Motley of the Chamber of Commerce and Chief of Fire Department Louis Cohen, have gone to Dallas to look after business matters. They will probably visit the Fort Worth Fat Stock Show.

Carl Wilson has returned from Fort Worth where he attended the Fat Stock Show.

Train Irish Army in New Military College
(By International News Service)

DUBLIN, March 12—As a result of military knowledge gained during their recent visit to the United States, Major General McNeill, Lieut. Collins Powell, a nephew of the late General Michael Collins, and a number of other youthful officers have been appointed instructors at the Irish Military Training College at Phoenix Park.

All officers in the Irish army will henceforth be trained in the institution.

CAMPFIRE GIRLS IN BIG CELEBRATION OF 16TH ANNIVERSARY

(By International News Service)
NEW YORK, Mar. 12—A birthday celebrated by 190,000 young people is the schedule for the Camp Fire Girls of the nation during the week ending March 17, when the organization will be 16 years old.

Instead of receiving gifts on their anniversary, they intend to give them. The Red Cross needs children's clothing and infants' layettes to replenish supplies depleted by recent disasters. So the Camp Fire Girls throughout the country, more than 7,000 groups, have been working since January in co-operation with the Needlework Guild of America renovating old articles of clothing and making new ones, in preparation for the birthday ceremonies.

A program has been arranged for each day of the week beginning Sunday March 11 with Camp Fire services in churches. Monday a radio program; Tuesday, exhibit of clothing and layettes; Wednesday talks before schools; Thursday talks before Parent-Teachers Associations and clubs; Friday mother and daughter banquet; Saturday birthday council fire.

Check Flu-Grip By Using Vicks At First Sneez

Health Authorities Urge Precaution to Prevent Epidemic

If all colds were checked at the beginning, influenza, pneumonia and grip would be greatly reduced.

It takes quick action to get ahead of the germs of these dread diseases. Many cases of flu start from germs breathed in. The effective way to attack them is direct—with vapors of Vicks VapoRub.

When rubbed on the throat and chest the ingredients of Vicks are released in the form of vapors which, being breathed in, carry medication to the inflamed air passages and lungs direct and instantly. In addition, it acts like a poultice and helps the vapors inhaled to break up the congestion.

While grip and influenza are so prevalent local people are urged to keep Vicks VapoRub ready at all times for instant use.

SEE ROOM FOR BILLION IN U. S. IN FIFTY YEARS

By Robert S. Thornburgh
(International News Service Staff Correspondent)

ST. LOUIS, March 13—If applied chemistry continues its present scientific advance the area now constituting the United States will be capable of supporting a population of one billion within fifty years.

This startling assertion was made to the International News Service by Dr. Ralph H. McKee, head of the chemistry department at Columbia University, during the semi-annual session of the American Institute of Chemical Engineers.

McKee's prediction is a radical departure from the attitude taken by many scientists, who hold that within a few generations the food producing qualities of the land will be insufficient to support rapidly increasing population.

"If we were using the same methods of agricultural and food production as fifty years ago, the country would not even now be self-sustaining," McKee explained.

"The present production methods would support a population of 160,000,000, in comparison to our present 117,000,000.

Can Feed 500,000,000
"If we actually applied scientific principles of production already known the land could be forced to support 500,000,000 persons within the continental limits of the United States."

One of the fundamental problems in the solution of the troubles of the farmer is that of scientific use of fertilizers, according to McKee. He pointed in this connection to the obligation of the chemical industry to produce a cheap, effective fertilizer that would assist agriculture, predicting that such a development is just around the corner.

McKee sees great hope for fertilization in the cheap production of synthetic ammonia, derived

from nitrogen of the air, hydrogen from water or other sources and chemical brainpower. This is one of the products suggested for the Muscle Shoals project.

"In supporting of such populations as we have in the future no doubt the farmers, with the great industrial concentration driven to fewer acres of land, will be called upon to produce two or more crops of wheat and corn every season," McKee said.

"That of course means nothing more than intensive fertilization with the new chemicals destined for discovery and the application of other scientific principles, now quite unnecessary."

Cattle Twice as Big
The new farmer probably will raise cattle and hogs twice as large as the present breeds—three hundred years ago the farm animals were about half the weight of those driven into the stock yards today. All the other crops will correspond—bigger wheat, corn, fruit and vegetables, to meet the demands of a vast population.

Really intensive fertilization and therefore better dollar values per acre, is being practiced to the

Don't count on Carrie!

Do menstrual periods make you a stay-at-home certain days of every month? They needn't! And you need not endure one pang of pain if you'll accept the assistance of Midol. Midol makes menstruation an incident! No pain, not even discomfort, is necessary now. Women who used to have the very hardest time have found this to be true. Midol is a marvelous product; the work of specialists. It is not a narcotic. But it stops all pain in five to seven minutes. Taken in time, the pain never starts. All drugstores have Midol, in aluminum pocket case for fifty cents, so it's folly to suffer!

greatest advantage in Georgia, Alabama, and Florida, according to McKee.

CHICAGO TAXICAB MAN HAS RADIO FOR FARES

(By International News Service)
CHICAGO, Mar. 12—An enter-

prising cab driver of Chicago, Edward H. Belding, has rigged up the interior of his car with a three-tube radio set. The aerial is on the roof. Hanging on the side of the car is a daily newspaper clipping—"the pick of the air."

Belding reports that almost all

his passengers enjoy the radio except the occasional wife of a DX "nut" who fails to use the device.

SPOTS BEFORE EYES

**Miner Had Dark Spots Before
Eyes. Felt Dull, Tired,
Achy. Doesn't Get
Down Any More.**

Somerset, Ky.—Telling how he had
known of the merit of Theoford's
Black-Draught since he was a boy,
Mr. Albert Garland, of this city,
recently said:
"I used to work in the mines,
but lost quite a bit of time on ac-
count of the sick spells I had. I
would get to having a bad taste
in my mouth, and a very dull, tired
feeling and ache. I would have dark
spots in front of my eyes, and I
would be so dizzy I would stagger
like I was drunk.

"I took medicine, but didn't seem
to get any better.
"My mother told me to try Black-
Draught, which I did, and after a
few doses I felt much better. Now
I take it as soon as I feel the least
bad, and I don't get down. I cer-
tainly can say that it has done
more for me than any other medi-
cine I have ever taken.

"I never get without Black-
Draught. If I go on a visit, I take
a package along in my suit-case.
My health is better now than it
has been in years, and I believe it
is the use of Black-Draught that
did it."

Black-Draught is prepared from
medicinal roots and herbs, of high-
est quality. Try it. **NC-195**

MOVIES

**Novarro in His Very Best Role:
Support Excellent**

Because his decided Latin ap-
pearance and demeanor, as well
as temperament, Ramon Novarro
is seen at his very best in "The
Road to Romance," the Metro-
Goldwyn-Mayer screen version of
the famous Joseph Conrad novel,
which closes a two-day run at the
Palace Theatre tonight.

Novarro is essentially of the
Latin type and his fine features
and marvelous physique stamp
him an ideal Spanish hero.

Novarro was great in "Scara-
mouche," magnificent in "Ben-

Hur," marvelous in "Old Heidel-
berg," but is his own natural self
as the dashing Jose Armando in
"The Road to Romance." To say
a man is his own self in a role
puts him on a much higher plane
than acting ever could.

During Novarro's screen career
he has appeared in roles of many
nationalities and he has adapted
himself to them in an excellent
manner—yet to do so he had to
rely on his ability as an actor. In
"The Road to Romance" he dis-
cards the artifices of acting and
becomes Ramon Novarro in the
age of chivalry and adventure.

Novarro is ably assisted in his
new picture by the petite and
charming Marceline Day, who
portrays the role of a Spanish
gentlewoman.

The remainder of the cast, in-
cluding Roy D'Arcy, Otto Matie-
son, Cesare Gravina and Marc
McDermott are excellently cast in
their respective roles.

The picture, which was directed
for Metro-Goldwyn-Mayer by
John S. Robertson, is both highly
romantic, colorful and pictur-
esque.

**"WHAT PRICE GLORY"
IS A PICTURE DRAMA
WITHOUT A VILLAIN**

"What Price Glory," the merry
war film which opens at the
Palace Theatre tomorrow for two
days' engagement, is a screen
play without a villain. Another
novel feature of it is that you
can use your own discretion in
picking the hero. Nobody will
dispute that the fiery Charmaine,
played by Dolores Del Rio, is
a more than adequate heroine,
and that Privates Kiper and Lip-
insky supply all the comedy nec-
essary.

But who's the hero? Is it Cap-
tain Flagg, the hard-boiled
marine who uses profanity by
preference, gets gloriously drunk
at Bar-le-Due and leads his men
into battle as light-heartedly as
though he were going on a picnic?

Or is it Sergeant Quirt, the rough
and blustering leatherneck, who
knows all the card tricks in the
deck, steals his superior officer's
sweethearts when he gets a
chance and takes his war as a
matter of course?

Victor McLaglen plays the first
and critics say it's his best per-
formance yet, while Edmund
Lowe is "the shifty baby" of the
second part, and so cunningly did
Laurence Stallings, one time cap-
tain in the marines himself, and
Maxwell Anderson construct the
play that even on the stage the
audience could choose its own
hero.

In making the film, Raoul
Walsh resolutely stuck to the
same idea. There wasn't going to
be any villain in his scheme of
things, and if a hero or heroes
were necessary they wouldn't be
of the mold commonly visible on
the screen. And so the audience
can take its choice of the big-
hearted, bombastic Flagg, and the
handsome, unscrupulous Quirt.
But whichever is the hero, they
have one thing in common—they

are both real men.

Here is what Quinn Martin, of
the New York World, says of this
smashing photoplay:
"What Price Glory" becomes
a film play of vast and insepar-
able entertainment qualities. It is
terrifically funny, vitally hard-
boiled and triumphantly free, for
the most part, from the sticky
slabs of sentiment which hereto-
fore have featured and marred
the efforts of those makers of

the cinema who have striven to
prepare for us in celluloid some-
thing of what once happened in
the fields of France.

"I can only bend low in ack-

T. P. Perkins of Mineral Wells Out for Congress

T. P. Perkins of Mineral Wells, has announced his candidacy for the Democratic nomination for Congress from the Seventeenth District of Texas. Mr. Perkins was born on a farm in Titus County, Texas, in 1883, and received his education in the public schools at Mount Pleasant, at Austin College, Sherman, Texas, and at the State University at Austin. For three years, 1905 to 1908, he taught in the public schools of this state—1905 to 1907 at Ferris, Texas, and the term of 1907-1908 at Grapeland, Houston County, earning a sufficient amount therefrom to complete his education in the law department of Texas University, where he graduated receiving his L. B. degree in 1910.

After having been admitted to the bar in 1910, Mr. Perkins commenced his career as a lawyer that year at Snyder, Severy County, Texas, and continued his practice there until 1915 when he moved to Palo Pinto County. Since 1915 he has resided in Palo Pinto County and continuously followed his chosen profession in that county and enjoying a splendid practice. Mr. Perkins is an outstanding lawyer of his section of the state and has for many years taken a prominent part in civic and political affairs.

In 1912, Mr. Perkins married Miss Grace Cunningham, a daughter of the late J. L. Cunningham of Palo Pinto. He is a member of the Christian Church and is a teacher of a Bible class in the Central Christian Church of Mineral Wells.

The statement of Mr. Perkins relative to the principal planks in his platform is as follows:

"In announcing my candidacy for Congress from the Seventeenth District of Texas, I hereby submit to the Democratic voters of such district the following issues for their consideration, which issues I deem to be important at this time.

Federal Reserve Bank

At the two different hearings held in the Federal Reserve Bank at Dallas for the purpose of investigating complaints against the present management of the bank, at which hearing I was present and it was my pleasure to represent the complaining bankers as a patriotic duty, it was shown that the management was unsympathetic toward the banks located in the smaller towns of the Eleventh Federal Reserve District, which includes all of Texas, and that they had taken the position that banks should not lend money to farmers to assist them in the making of their crops, but such banks should invest their deposits in government securities and commercial paper. It was further shown that on June 29, 1927, when the local loans of banks was at its peak, the Federal Reserve Bank of Dallas had approximately ten times as much money invested in government securities and paper purchased in the open market, commercial paper, the majority of which had its origin outside this district, than it had in rediscunts to member banks, \$36,847,000.00 representing the first class and \$3,802,000.00 representing the latter. It is my contention that a continuation of such policies will seriously cripple the agricultural and live stock interests of this section and will greatly retard the development of this, the western section of Texas. This is a question of vital importance to you.

By the re-election of the governor and other officers over such evidence and in the face thereof, by a six to three vote, the board of directors of the Federal Reserve Bank have approved these actions and policies of the governor and have made his policies their policies. The resolution now pending in the House of Representatives should be passed in order that Congress may be advised of the

T. P. Perkins, of Mineral Wells

present conditions in the Federal Reserve Bank at Dallas to the end that legislation shall be passed remedying the present situation and preventing a recurrence of such conditions.

I further approve the principle of the bill now pending before Congress placing a limitation on the salaries of Federal Reserve Bank employees, the governor of which banks now receive as high as \$50,000.00 per annum and secondary officers as high as \$40,000.00 per annum, and here state that in my opinion such salaries should be cut not less than fifty per cent.

State Rights

I am a firm believer in the Jeffersonian doctrine of state rights. If a halt is not made in the encroachment of the Federal Government upon the powers reserved by the states under the terms of the Federal Constitution, the

time is not far distant when the sovereignty of the several states will be destroyed, and this government will be one of the centralized powers. The sovereign rights of the states must be restored and respected.

Tariff Revision

I am a firm believer in the Democratic doctrine of tariff for revenue only as a general proposition, but if a protective tariff is placed on manufactured products, which are the articles of purchase in this section, then justice and right requires that the raw products should be protected in a like manner. Our people of this section should not be required to purchase on a market competing with the cheap markets of the world.

National Defense

This country will never wage a war of aggression or a war for the purpose of territorial expansion.

However, that does not mean that we will never be drawn into a war with some other nation. In order that we might be prepared to meet any nation or nations that may look upon this country as a prey and to defend ourselves from invasions of nations inclined to war, I hold that we should maintain a small army, build sufficient aircraft to provide for the adequate defense of the nation and to maintain sufficient navy to protect our shores and commensurate with the standing of this nation as a world power.

I am not in sympathy with and have no patience with the present invasion of Nicaragua and believe that we should in no wise interfere with the internal affairs of other nations, however small they be. The principle is wrong and I am against it in every way.

Cancellation of Foreign Debts

This government has already made offers of cancellation of a large portion of the debts owed by foreign nations, in some instances as much as fifty per cent, and to the extent that the remainder of the debts not offered to be cancelled represents only the funds loaned to such foreign countries since the war for rehabilitation and not for the redemption of such debts, for honesty and justice demand that such debts be paid.

Eighteenth Amendment

I am a life-long prohibitionist. I know that prohibition is the best thing for this country and its citizenship. Therefore, I stand foursquare for the Eighteenth Amendment and all laws enacted placing it in force. I also believe in a rigid enforcement of prohibition laws, whether state or national, to the end that the illegal sale of intoxicants may be absolutely prohibited within the confines of this nation. I regret the effort that is being made to nullify the Eighteenth Amendment to our Constitution and have no sympathy with such movement and as your representative in Congress, I shall do everything in my power to uphold the letter and spirit of this great law.

Women's Rights

Of equal importance to the

Eighteenth Amendment with regard to the welfare of this is the Nineteenth Amendment which conferred on the womanhood of this nation the right of suffrage just as the portion will the affairs of government be run with honesty and intelligence. It is also my conviction that women in the same character of men as men should receive same amount of compensation for no reason for it to be wise.

Adjusted Compensation For Veterans

I stand for an extension time for adjusted compensation to be made and I believe that this government as it is, should adequate for and provide for all and crippled veterans.

In conclusion I desire that I am a Democrat for a government of, for the people. I further favor the rule of the majority pressed at the ballot box in favor of party government the democracy of this national District sees fit me as its representative in the House of Representatives shall always strive to the expressed wishes of constituency and to do that for the best interest of the district I represent.

Very respectfully

T. P. PERKINS

ANNOUNCING THE NEW FEDELCO WASHER

The Fedelco Electric Washer Embodies Every Outstanding Feature of Recent Washer Development. And Every Feature Has Been Thoroughly Tested and Approved

A Few of the Principal Points of the Fedelco Washer

1. Square type porcelain tub. Enamelled on inside and outside.
2. Large top opening. Aluminum top and cover. Easily cleaned.
3. Beautiful, trim appearance. Washes sixty pounds of clothes per hour.
4. Eight position—reversible swinging wringer. With large semi-soft rolls.
5. Adjustable legs. Can be set at most convenient height.
6. Attractively priced, with easy monthly payments.

West Texas Utilities Company

BLANTON GIVES OUT PLATFORM

Congressman Thomas L. Blanton, of Abilene, now representing the 17th Congressional District of Texas, in announcing his platform for the Senate race, has released his platform and will make a strong fight for the Senate.

Mr. Blanton gives his record as a Congressman and tells what he will endeavor to do if elected to the Senate of the United States. As soon as his work is completed in Washington, he will return to Texas and make one of the most extensive campaigns ever waged in the state for any office.

To The People of Texas:

Seeking promotion, but not financial gain, I voluntarily give up my House position of high honor and the same salary Mr. Mayfield receives, for an opportunity to serve you. High office should not be used for pleasure-getting, money-making, globe-junketing, or personal aggrandizement; but solely as a means of rendering maximum service that best benefits alike all of the people.

Proper Standards of Qualification.

Senators should not be social butterflies, lazy, indifferent, ease-loving, and yoke-bound, but should be sober, law-abiding, honest, conscientious, sincere, industrious, tireless, painstaking, courageous, unselfish, dependable, in good health, punctually present at all sessions, wholly uncontrolled by special interests, and representing no selfish sects, but faithfully representing all of the people. Voting with the "gang" for every treasury raid, and following the path of least resistance, insures popularity with colleagues and the Press Gallery, but makes him absolutely worthless to constituents. He must be willing to fight a man's fight, uncompromisingly, when fight only will protect the public. The issue is: which candidate is best trained, best equipped, best qualified, best intentioned, best measures up to the proper standard, and is best prepared to render maximum service of greatest value to all of the people of Texas? I have represented in Congress two different Districts (16th and

17th), embracing 69 counties extending from Mineral Wells to El Paso, and Burnet to Lubbock. Each successive District Democratic Convention has endorsed my record. The last Convention certified that for the second successive biennial election I had carried all Counties in my District, and all 26 voting precincts in my home county, and all 26 voting precincts in my opponent's home county, and by unanimous vote passed the following resolution:

"The above demonstrates conclusively that the people of the 17th Congressional District of Texas are practically unanimous in backing Congressman Blanton in his fight to eliminate waste, extravagance and graft from the business of this Government, and that he has their confidence, esteem and commendation; that we approve and commend his record and work in Congress; that we heartily endorse him for the U. S. Senate, and urge him to make the race for that position in 1928, and we pledge him our support, and we especially commend him to the people of Texas as being worthy and well qualified to hold such position with profit and benefit to the people."

Thus I present a clean bill of health from the people who know me best.

For All Good Measures; Against All Bad Ones.

During my eleven years in the House I have helped to pass every good law, and have vigorously and uncompromisingly fought every bad measure. By years of close study and application I have mastered the rules and precedents of both House and Senate. They are tools without which one is impotent. I know how to find camouflaged legislative riders in appropriation bills, and how, when, and where, to make proper points of order to eliminate them. I am intimately familiar with the business, functions, scope and history of all departments, bureaus, commissions, and independent offices of the Government; with important past legislation, with the history of all old claims some involving \$100,000,000 still pending; with the business connections and idiosyncrasies of Senators, Congressmen, and lobbyists, with whose shrewdest leaders we must measure swords, and I have spent all my vacations in investigating and checking up every establish-

ment of Government. I have found out exactly what they do with their annual millions, and just how little some of them benefit the people. Many should be abolished. I have found waste galore, extravagance beyond computation, and much graft. And I am making against them all a determined fight. If we people could get 100 cents value for every dollar expended, our annual expenses could be cut in half, which would cut taxes in half, for every dollar comes from the people in taxes. I have never yet taken any junket; neither has any member of my family. I carefully compare all annual supply bills with those of previous years, and have saved millions by knocking out unauthorized riders with proper points of order. By digging up records and briefing facts, I have blocked many bad claims. By posting myself, I have stopped many pet schemes. But I made enemies both of Colleagues and the Press gallery. It was hard work that should be done by somebody. I did it. I have not missed a roll call this session. I did not miss any last session. During the last two sessions of the 67th Congress, Mr. Ricketts and myself were the only two members who answered all roll calls. The few I have missed during my eleven years here, were due to other important official business. No posted member will deny that I have been on the floor functioning practically all of the time. I am always on the job. Waste, extravagance and graft must stop. "A real partnership must be established between the Federal government and all of the people."

Evidencing results of hard work, we have reduced taxes almost every year, and yet have had left over an unexpended surplus of: \$313,000,000 in 1922; \$309,000,000 in 1923; \$505,000,000 in 1924; \$250,000,000 in 1925; \$377,000,000 in 1926; and \$635,000,000 in 1927.

THEATRE BIBLE CLASS ATTENDANCE INCREASES

Mr. Bruce taught a most practical and interesting lesson on the "Feeding of the Five Thousand."

The Good Fellowship Bible Class of San Angelo will send a good delegation Sunday who will furnish the program. Besides the male quartet there will be three pointed addresses by the Good Fellowship Class and president of the Finance Corporation, George Glover of the Martin and Glover wholesale grocery, Enmit Galamore, treasurer of the Baker-Hemphill Company.

We are hoping to have a good attendance and all members and visitors are urged to be present on time to greet our guests and start the program on time that we might get the full benefit of the program. Palace Theatre, 9:30

DEATHS

Infant Williams
The infant daughter of Mr. and Mrs. A. B. Williams died Monday morning at 8 o'clock at the fam-ily home, 9 miles south of Bal-linger on the Paint Rock road.

Funeral services were held at the home at 6 o'clock Monday afternoon with interment being made in Evergreen Cemetery. Rev. Alfred Crager, First Chris-tian pastor, officiated. Higginbotham Bros. & Co., un-der-takers, prepared the body for burial and were in charge at the grave.

SHAMROCK—A new general produce company has been estab-lished here by one of the largest concerns of its kind in the South-west.

FT. WORTH—A Panhandle Plains and an All-West Texas ex-hibit are to be shown throughout the Fat Stock Show by B. M. Whiteker of the West Texas Chamber of Commerce.

Be wise and advertise.

LARGE CROWDS ATTEND SHOW

Large crowds were in attend-ance Monday afternoon and night for the first two performances of "Take My Advice," the Pat Wil-iams Post No. 8, of American Leg-ion, seventh annual show. A school children's matinee Mon-day afternoon at 4 o'clock proved to be quite successful with a large number of children being present while the night show was also well attended with almost every seat in the auditorium of the American Legion Hall being sold.

Tonight's performance will be-gin at 8 o'clock sharp.

The show, a three-act comedy, all took place in the editorial of-vice of the Eureka News. Miss Mildred Butler, playing the part of Miss Peggy Acton, was the leading character of the comedy and was probably the best of the entire cast. She portrayed well her representation of a young stranger in Eureka, later proving to be the daughter of the man who owned most of the city, and a niece of the man who was endeavoring to crush his brothers city and make his own, some dis-tance up the river on which the town of Eureka was located.

Neal McAlpine, playing the part of Jimmy Sampson, a wak-er of dead towns, representing a promoting firm that made cities out of small towns, was also good. McAlpine is not new to the pa-trons of the Legion shows, nei-ther is Miss Butler.

Other members of the cast who showed well their parts were Troy Simpson, as Jud Fenton; Harry Lynn, as editor of the Eu-rika News; Bob Mannion; Mrs. H. T. Forson as Mrs. Nelson-Dodd, society leader and presi-dent of the Uplift Society; M. H. Boynton as John Wargrim, rich ruler of Eureka; Mrs. Ernest Moody, his daughter, Marcia Wargrim, and Miss Claudia Smith as Virgy Mannion, Bob's sister.

Between acts features were giv-en by Miss Louise Doss, assisted by the young women of the Bal-linger high school, in "The Glow Worm," with Miss Helen Brewer as the pianist. This was a very pretty feature with the young girls presenting an illuminated chorus. This was very attractive and drew much applause.

The feature between the second and third acts was "In The Sweet Long Ago," with Miss Olga Zap-pa the soloist and a Colonial chorus. This was also very beau-tiful and the applause was boun-dant. The same features will be presented between acts tonight.

The members of the chorus were Misses Olive Jean Cordill, Evelyn Brewer, Olive Mae Barrow, Lou-cille Sledge, Dotsy Sims, Opal McWilliams, Virginia Holman, Elizabeth Doss, Ada Lou Glass and Eva Ruth Forgey. For the second chorus, it was the same as above with Misses Patterson and Smith taking part. Mrs. C. W. Cheatem had charge of the ward-robe of the company.

The duets were given by Misses Helen Williams and Jewel Chan-ey as the orchestra played before the start of the play. These were very delightful.

The orchestra, under the direc-tion of Ernest Moody, was very good, and played some of the most popular music before the curtain and between acts.

Costumes worn by the ladies of the cast were furnished by The

Hub, while the furniture used was through the courtesy of King-Holt, furniture dealers here.

WOMEN, WEAK, TIRED, Rundown and Nervous

or who suffer ovarian pains, pains in the lower part of the stomach, bearing down pains, female weak-nesses, headaches, backache, mel-ancholia, despondency, nervous derangements, flushes of heat, fleeting and indefinite pains, whites, painful or irregular pe-riods, should write to Mrs. Ellen Lovell, 7693 Mass., Kansas City, Mo.

She will entirely FREE and without charge to the inquirer ad-vice of a convenient home method whereby she and other women say they have successfully re-lieved similar troubles.

The most common expression of these thankful women is "I feel like a new woman." And others, "I don't have any pains what-ever anymore." "I can hardly believe myself that your Wonder-ful Method has done so much good for me in such a short time." Write today. This ad-vice is entirely free to you. She has nothing to sell. tfd

Byrnes is In Tom Green County Jail

(Continued from Page 1)

Byrnes said he forged a check on Mr. Juergens and that Mrs. Juer-gens had been getting after him about it and giving him quite a talking when he became mad on Saturday night, March 3, about 11 o'clock and attacked her, first striking her with his bare fist. Then the blood spouted from her face.

"I went mad and then started the awful mess," Byrnes is alleg-ed to have said. "The sight of blood made me wild."

The mother, Mrs. J. W. Juer-gens, 37, was first killed. The daughter came into the room to see what was the matter and he then attacked her, Myrna, about 13, and killed her. The grand-mother, Mrs. Rose Schirra, 62, of Pittsburg, heard the disturb-ances and she was the last to fall before the onslaught of the crazed chauffeur.

Is Not Crazy

"I am not crazy," Byrnes is quoted as telling news reporters while in jail Monday afternoon at Fort Worth. "I am guilty and expect to go to the chair for this offense."

Byrnes was left in the Tarrant county jail a short time Monday

afternoon and then removed to San Angelo during the night with Sheriff Hewitt and Deputy White arriving there with him early Tuesday morning.

Tells of Trip

Byrnes repeated to Tom Green county officials Tuesday morn-ing his story of the slaying as first told in Sulphur Springs. He told of his trip from San Angelo to San Antonio, to Dallas and on to Sulphur Springs where he was arrested at the home of friends of the Juergens family.

He told the sin detail and told

officers where the Nash sedan of the Juergens might be found.

Victims to Pittsburg

The bodies of the three victims left here Monday night for Pitts-burgh, Pa., where funeral services will be held and interment is to be made. Juergens accompanied the remains. He will return here in about a week and assist in the prosecution of Byrnes.

Mrs. C. W. Thorp and little daughter have gone to Germyn to visit Mrs. Thorp's sister, Mrs. J. Harold Tucker, for several days.
