MEMBER INTERNATIONAL NEWS

Bomb Blast Kills Chang's Body Guards

(By International News Service)
PEKING, June 4.—Marshal Chang Tso Lin, former dictator of the Peking government, was slightly wounded and several members of his bodyguard were killed when a bomb exploded under the train upon which the party was fleeing to Mukden.

This information was conveyed here today in a special dispatch from Mukden.

H. and Gus Giesecke, of San Antonio, arrived in Ballinger Friday to spend several days here looking after business. They expect to return to San Antonio some time next week.

Mr. and Mrs. J. H. Goss and Mr. and Mrs. Marion C. Dodge and young daughter, of Abilene visited Mr. and Mrs. Troy Simpson here yesterday.

Policeman Is Killed In Fight With Gunmen

(By International News Service)
CHICAGO, June 4.—Policeman William Conner was shot and killed in a desperate battle with Chicago gunmen when he surprised them in the act of robbing a safe drink parlor this morning.

Rev. and Mrs. Alvin O. Rue and son, Alvin Jr., have returned home from Denton and other points in North Texas and Tulsa, Oklahoma, where Rev. Rue attended General Assembly of the Presbyterian Church, U. S. A.

Condition of Two In Hotel Fire Critical

(By International News Service)
ENNIS, June 4.—G. P. Gage and W. W. Osborn, employees of the Southern Pacific Railway Company, are in a critical condition as the result of injuries received this morning in a terrific fire which destroyed the King Hotel here.

Gage suffered both legs broken, a fractured skull, and serious internal injuries when he jumped from the room he was occupying on the third floor of the hotel. Osborn sustained severe burns, and his clothing was virtually burned off his back while he was escaping from the flames.

The loss to building and contents was placed at \$50,000.

Local Band Working Hard for Convention

Director H. H. Carsey, of the Ballinger Booster Band, has begun intensive rehearsals in preparation for the trip to the Fort Worth convention of the West Texas Chamber of Commerce.

The Ballinger music makers will enter the band contest in the four year class and from now until time for the convention will rehearse on the numbers to be used in this contest. The numbers are unusually hard in the fourth year class and much practice will be necessary by the local handsmen. Only two numbers will be used this year by each band. One of these selected in the history written by mitte, while the director can offer any number he desires for his band's "warming-up."

To warm up Mr. Carsey has selected a march, "The Billboard's Bazaar," by Ed Chenette. Mr. Chenette, composer of this number, will be the principal judge in the competition.

The selection which will require hard work by any band will be a

Friendship Plane Off On Second Leg

(By International News Service)
TREPASSEY, New Foundland, June 4.—The trans-Atlantic plane Friendship, bearing Wilmer Stultz, Miss Amelia Earhart, and Lou Gordon, arrived here at 2:28 o'clock this afternoon.

HALIFAX, Nova Scotia, June 4.—The trans-Atlantic plane Friendship, carrying Miss Amelia Earhart, Wilmer Stultz and Lou Gordon, hopped off from here at 9:30 o'clock this morning for Trepassey, Newfoundland, on the second leg of its trans-Atlantic flight.

Miss Earhart is a well known aviatrix and Boston social worker.

Burton Reese and Crews Alexander have returned from Bryan, where they are students in A. & M. College. They will spend the summer with their parents here.

'Lone Ace' Hops For East After El Paso Stop

(By International News Service)
EL PASO, June 4.—Colonel Charles A. Lindbergh hopped off for his unannounced eastern destination this morning. He was forced to stay here overnight because of a local electrical storm.

JOHN J. BUGG VISITOR IN CITY

J. J. Bugg, former superintendent of the Rannels county public schools, is here with his family from their home in Casa Grande, Arizona, for an extended visit. Mr. Bugg concluded his term as county superintendent here four years ago and moved to southern Arizona, where he has been engaged in teaching. His home is situated between Tucson and Phoenix. He is a member of the faculty of the Florence schools.

FATHER OF JOE SIMMONS DROPS DEAD AT DALLAS

J. M. Simmons was called to Dallas Saturday afternoon because of the death of his father, who died instantly from heart failure. Mr. Simmons was 69 years old, and had been suffering from heart disease for several years. Besides his son here, he is survived by his wife and three daughters.

Mrs. J. M. Simmons and the children accompanied Mr. Simmons to Dallas for the funeral.

Be wise and advertise.

PARENTS OF 13 SWEAR OFF

Here is the first posed photograph of Mr. and Mrs. Edward Cromwell, of Bridgeport, Conn., whose controversy over whether or not they should have more children finally was adjudicated in court. Cromwell, a \$20-a-week teamster, was paroled by the judge, forgiven by his wife and announced that he would be "reasonable" in the future—all in the brief space of 30 minutes.

First National Moving Today

The First National Bank began moving Monday morning to the C. A. Dooze building where the institution will be housed for the next two or three months. The employees took advantage of the holiday to move all their books, stationery, money and other equipment needed in carrying on business to the temporary location, and are preparing to open for business Tuesday morning.

The bank is extremely fortunate in securing quarters in the Dooze building where the fixtures were originally built to order for a bank. The arrangements will be very similar to that in the old building and each employee will be easily found in his place Tuesday morning.

The First National Bank has been occupying the building at the intersection of Eighth Street and Hutchings Avenue for 22 years, taking over the building from the Walker Drug Company at that time. Business will be conducted in the C. A. Dooze building until the extensive improvements are completed on the bank building.

FORMER MISSIONARY TO LECTURE HERE TONIGHT

W. R. Holder, former missionary to Africa and eminent religious worker, will deliver a lecture at the First Christian Church at 8 o'clock tonight. Rev. Alfred Crager, pastor of the church, urges that a large audience be in attendance for the address.

Republicans Are Settling Differences

(By International News Service)
KANSAS CITY, June 4.—The quadrennial "side-show" is accompanying the Republican National Convention. The settlement of differences between the "lily whites" and the "black-and-tans" of the southern states got under way today with the meeting of the national committee.

Seventy-three votes in the convention are involved, representing factional quarrels of eight states and one territory.

The candidacy of Herbert Hoover is involved in practically every contest arising.

BEAUMONT, June 4.—Twenty-six delegates to the State Democratic Convention here are involved in a fight between Rene B. Creager and Congressman Harry M. Wurzbach.

Australian Flyers Near Goal In Storm

(By International News Service)
HONOLULU, June 4.—The Australia-bound plane, Southern Cross, is fighting a thrilling battle with the elements on the last 800 miles of its 3,100 miles dash from Hawaii to Suva, of the Fiji Islands group, according to messages from the monoplane picked up by the Radio Corporation of America today.

"Hitting storm clouds now; its rough riding," a message declared. Fifteen minutes later the message came: "Clouds every way we turn. Black clouds beneath." At 7:30 the information was: "Descending 2,000 feet." Five minutes later the dispatch was: "Down to 800 feet. Stiff breeze blowing."

SYDNEY, N. S. W., June 4.—The trans-Pacific monoplane Southern Cross, en route from Honolulu to the Island of Suva, passed over Phoenix Islands at 1:30 o'clock this afternoon, (mean Greenwich time) according to Captain Kingsford-Smith, co-pilot of the plane.

The Australian-American aviators are now approximately 1,900 miles from Katal.

A radiogram received at 4:32 Greenwich time, gave the position of the trans-Pacific plane Southern Cross at latitude 6 south and longitude 173.12 west.

"Rough riding and only one generator left for light," Capt. Kingsford-Smith reported.

RAIN IS LIGHT OVER COUNTY

Rainfall in Rannels county Sunday afternoon and night was light according to a report compiled by the West Texas Telephone Company. The heaviest rain reported was at Ovalo and Brady, where one inch fell. Many other places in the county reported showers but stated that the small amount received would do but little good.

Rumors of hail in the northern part of the county were not confirmed by the rain report and no damage from wind was reported.

(By International News Service)

Two Charged With Murder After Fight

(By International News Service)
AUSTIN, June 4.—Murder charges were filed today against Adolph Haffelder and Wesley Hough, following the death of O. D. Moore, as a result of a stabbing affray at a revival meeting here a few nights ago.

Haffelder and Hough had previously been charged with assault to murder. Their bonds were increased from \$1,000 to \$2,000, each, today.

Hough declares that he struck Moore after the latter had struck his mother. Haffelder denies connection with the tragedy.

2,000,000 VACATIONISTS TO SPEND \$150,000,000 ON N. ENGLAND SHORES

(By International News Service)
BOSTON, June 4.—Two millions of fathers, mothers, children and sweethearts will visit the mountains, lakes, seashores and historic spots of New England this summer and will spend over \$150,000,000 in this section, according to estimates made by the National Touring Bureau of the American Automobile Association.

The estimates are based on a careful study of 1927 figures, with an allowance of 10 per cent increase for this year, which is approximately the normal growth in motor touring, according to the association.

Launching of the "Ten-way Program" by twenty A. A. A. Motor Clubs in New England and intensified development of motor services in this area have already exercised a pronounced effect on the stimulation of motor tourists interest in New England, according to the association.

TED TRULY HAS OPERATION

Ted, 8 year old son of Mr. and Mrs. R. E. Truly, who was scalded in an automobile wreck last October 6th, underwent a skin grafting operation at the Halley & Love Sanitarium Monday morning, and it is now hoped that his recovery will be entire and speedy. Skin was taken from his own body for the grafting process as it was thought this might do better than that taken from another person. The young fellow was resting as well as could be expected Monday afternoon.

Court Defers Its Action In Sinclair Case

(By International News Service)
WASHINGTON, June 4.—The District Court of Appeals recessed today for the summer without acting on the appeal of Harry F. Sinclair, sentenced to three months imprisonment for contempt of the United States Senate.

ANOTHER UPSIDE
DOWN CAKE IDEA

An Unusual Confection and
Also a Delicious Dessert.

(Prepared by the United States Department
of Agriculture.)

If your family wants an unusual
and also a delicious dessert try an
"upside down" pineapple cake. It
may be served with or without
whipped cream or hard sauce. The
two parts are prepared separately and
then put together in the way de-
scribed by the United States Depart-
ment of Agriculture.

Pineapple Mixture.
1/2 cup sugar 2 tablespoons
3 tablespoons butter 1/2 pineapple juice
3 slices pineapple

Stir the sugar until it is melted in a
smooth frying pan, then allow it to
brown. Add the butter and the pine-
apple juice and cook until a fairly
thick sirup is formed. Place the sec-
tions of pineapple in the sirup and
cook for one or two minutes or until
they are light brown, turning them
occasionally. Have ready a well-
greased, heavy baking pan or glass
baking dish, place the pineapple on
the bottom, and pour the sirup over it.
Allow this to cool so it will form a
semi-solid surface, then pour in the
following cake batter:

Cake Batter.
1/2 cup butter 1/2 cup sugar
1 egg 1/2 cup milk
1 1/2 cups soft wheat 1 teaspoon vanilla

Cream the butter, add the sugar,
add the well-beaten egg, and vanilla.
Sift the dry ingredients together twice
and add alternately with the milk to
the butter, sugar and egg mixture.
Pour this over the pineapple. The
batter is rather thick and may need
to be smoothed on top with a knife.
Bake slowly in a very moderate oven
(300 to 325 degrees) for three-quarters
of an hour. Loosen the sides of the
cake, turn it out carefully, upside
down. If the fruit sticks to the pan
lift it out and place it on the cake in
the place where it should be.

Banana Pudding Nicest
and Easiest of Desserts

One of the easiest and nicest des-
serts you can make is banana pudding,
for which the United States Depart-
ment of Agriculture supplies a recipe.

Banana Pudding.
1 quart milk 1/2 cup vanilla
4 or 5 eggs 1/2 cup sugar
1/2 cup milk 1/2 cup sugar
1/2 cup soft wheat 1/2 cup sugar

Beat the milk, sugar and salt in a
double boiler. Beat the egg yolks
lightly and pour slowly into them some
of the heated milk. Pour back into
the double boiler and stir constantly
until the custard coats the spoon. Re-
move at once from the fire, place the
pan in a bowl of cold water, and stir
the custard until cool. Add the vanilla.
Grease a baking dish, put in the bot-
tom of the dish a layer of sweet
crackers, and slice over them a layer
of banana. Pour over this some of the
custard and fill the dish about three-
quarters full with these layers. Make
a meringue of the whites of the eggs
and one tablespoonful of sugar to each
egg. Spread over the pudding and
cook in a slow oven until golden
brown. Then let the pudding stand
until thoroughly chilled before serving.

To Clean a Room
Cleaning a room according to a
definite plan will save labor because
the different steps in the process will
not need to be repeated. When rooms
near together are to be cleaned on the
same day, it is often easiest to get all
of them ready, then clean them all,
and finally put them all in order.
Sweeping and dusting should be
made as dustless as possible, for the
object is to remove dust, not to scat-
ter it, the United States Department
of Agriculture points out.

Be wise and advertise.

Men Cut Hair
Like Scalwags
Says "It" Author

By Arthur L. Marek
(International News Service Staff
Correspondent)

HOLLYWOOD, Calif., June 2.—
Barbers are ruining the roman-
tic appeal of the American men
with their close hair crops, ob-
serves Madame Elinor Glyn,
famed author of "Three Weeks."
"American men are having
their hair cut like scalwags,"
says the discoverer of "It."
"No man can look romantic
with an American haircut—or
with English shoes," she con-
cludes.

Mme. Glyn arrived from Eng-
land on a flying visit to Holly-
wood to confer with officials of
Metro-Goldwyn-Mayer studios on
a new film story.

After visiting for a few days,
Mme. Glyn will return to Eng-
land to complete her writing.

American women, by contrast
with their men, are romantic
with their men, are romantic,
Mme. Glyn finds.

"The American woman is very
charming, though often lacking
the poise of her European sister,"
says this noted authority. "But
they ought to learn how to make
up their eyebrows. Most of them
don't make them quite heavy
enough," Mme. Glyn advises.

One of the most popular eroic
melodramas ever filmed was
"Alias Jimmy Valentine." It
made Bert Lytell with the fans
and it made a great deal of
money for the old Metro com-
pany.

What could be more natural
than for Metro-Goldwyn-Mayer
to remake it, capitalizing on the
present craze for underworld
stories.

This is exactly what is to be
done, and the new Jimmy Valen-
tine will be none other than Bill
Haines. This is quite a departure
for Bill, and we approve. As for
the story it is high time that
Jimmy Valentine's sensitive
finger-tips quivered again to the
falling tumbler of a safe com-
bination.

News of great interest to Holly-
wood arrived recently over wire-
less telephone from Paris.

Bob Fairbanks, sitting in the
United Artists' studio, talked for
several minutes with his brother,
Doug, who revealed that he and
Mary are coming back sooner
than they expected. They will be

in Hollywood on June 15.
Doug starts immediately on his
new picture. He has abandoned
plans to shoot part of it in
Europe.

A fanfare of applause hailed
the performance of 60-year-old
Margaret Mann in her first pic-
ture, "Four Sons."

Not a few of the wiser ones,
who know the ways of Holly-
wood, wondered whether her
fame was to be as fleeting as
that of many other sensational
discoveries.

Apparently not. Fox has cast
her for an important role in "Me
Gangster," the Charles Francis
Coe story of the New York
underworld, and of Paris.

June Collyer and Don Terry
are the youngsters in the picture,
which will boast such players as
Anders Randolph as the father,
Arthur Stone, Pauline Garon and
Claude Gillingwater.

One question is settled. Stars
do sometimes autograph their
pictures personally. We saw Vic
McLaglen sitting before a writ-
ing desk in his dressing room
signing his name to 140 photo-

graphs of himself. They were for
the Fox convention delegates.

Vic tells us his next picture
after "The River Pirate," will be
"The Baggage Smasher," and
that James Tingle will direct
him.

After that he does "Captain
Lash," the first original screen
story of Charles Francis Coe.

MRS. BRUNSON SUSTAINS
INJURIES IN CAR WRECK

Mrs. H. C. Brunson sustained
painful injuries about her shoul-
der, arms and knees as the result
of an automobile wreck near the
Dry Ridge school Saturday after-
noon. The small automobile in
which she and her husband were
riding overturned at a sharp
curve, causing only minor dam-
ages to the car. Mrs. Brunson
was taken to her home, six miles
southwest of Ballinger, where she
was given immediate attention.

She is rapidly recovering, it
was reported Monday.

Mrs. E. M. Eubank has as
guests her father, J. A. F. Hub-
bard, and sister, Mrs. T. L.
Eubank, of Winters.

METHODIST NINE TO PLAY
S. BALLINGER WEDNESDAY

The Methodist Sunday School
baseball team will meet the South
Ballinger nine Wednesday after-
noon at 5 o'clock at Fair Park.

The Methodist club has ac-
quired two new infielders,
"Dubbs" Wooten and Billie
Dickson, since their last game,
which was played last Wednes-
day with Talpa, the victory going
to the local team by the score of
13 to 8.

"Red" Greer and "Red" Lat-
timore are slated to pitch for the
Methodists, and Curtis Harber
will twirl for the South Ballinger-
gerites.

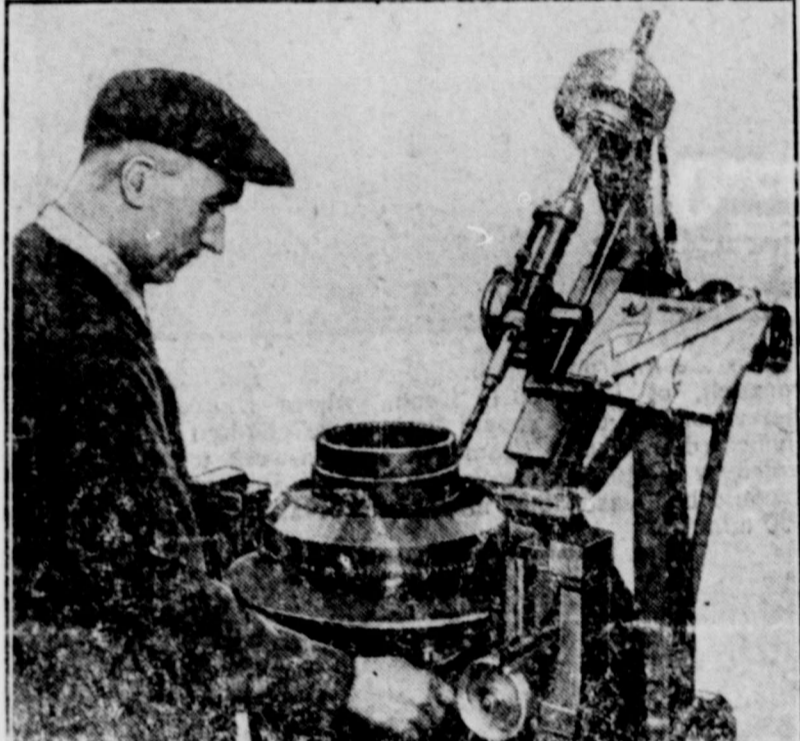

Ceburn Smith, of Beaumont, will
visit his parents here, and rela-
tives and friends in Abilene,
during his vacation.

Fred Atwell, son of Mr. and
Mrs. W. F. Atwell, and James
Trail, son of Mr. and Mrs. R. T.
Trail, will attend a six-weeks
encampment of the signal corps
of A. & M. College, to be held at
San Antonio, beginning this
week. They will return to Bal-
linger at the termination of the
camp.

Balancing Ford Flywheels

THIS machine ascertains just how much out of balance a flywheel
of the new Ford car may be and then proceeds to correct that
fault, no matter how small. The operation looks simple, but it is
one of the most precise in the entire field of automobile manufacture.
The flywheel is first placed on the machine and tested for balance with
a series of spirit levels and graduated discs. The result of this test
registers automatically on a chart and a metal drill promptly drills out
of the flywheel, at the necessary point, sufficient metal to make it
balance perfectly. It is one of the many applications of precision
manufacture which make for smooth, quiet performance and long life
in the new Ford car.

GERMAN'S AIR LINERS MAY
SOON CONQUER OCEAN WAVES

At the left are shown some of the fuel
containers of the giant LZ-127 which hold a
form of gas only slightly heavier in specific
gravity than the air, thereby getting greater
radius. The giant framework of the German
dirigible, a vessel of 3,750,000 cubic feet, is
shown at the right. Dr. Hugo Eckener, inset,
famous dirigible builder, is supervising the
construction at Friedrichshafen.

Dr. Hugo Eckener, dirigible expert
of the Zeppelin company, is the mas-
ter mind which directs the construc-
tion of these monster trans-Atlantic
 flyers.
It is by the hand of this great
builder that Germany is entering
into the transportation of passen-
gers and freight across the ocean.
The proof that these giants of the
air can cross the sea has been given
in the flights by Dr. Eckener when
the Shenandoah and Los Angeles
were launched to this country.
The newest methods of manufac-
ture have enabled Eckener to give
the LZ-127, his latest effort, more
cruising radius than heretofore was
thought possible. New gas fuel
which is almost as light as air has
been developed for these ocean
liners.
When the LZ-127 is finished, she
will mark an epoch of air flight
history. Ocean flying has been a
series of spasmodic dangerous as-
saults on the uncharted air cur-
rents. Some have been success-
ful but the majority have added little
to the advancement of knowledge
which would bring success to trans-
Atlantic commerce by air.
To Germany, tied down as she is,
will probably go the honor of being
the first to start regular trans-
Atlantic service. Dr. Hugo Eckener
will be the man whose unswerving
belief in the Zeppelin type makes it
possible.

LE MONT, MAGICIAN, AT PALACE THEATRE

Possibly no form of entertainment dates back as far or has been of greater interest to the generations past as has been the various forms of mystery—magic, illusions, black art and escapes. Real artists in this line have entertained multitudes, and such qualifications are possessed by born artists alone. "Le Mont," who appears at the Palace today and tomorrow, has clearly demonstrated that he surely belongs in the class quoted above.

"Le Mont's" elevating witty patter combined with his clever conceptions hold his audience spell bound at times and other times rocking with laughter at his witticisms.

His program consists not only of some of the usual effects offered by other artists but presented in a new dress that takes them out of the ordinary, but also contains a number of original effects which he is the inventor and builder. This adds considerable charm not obtained otherwise.

Specializing in animal and bird effects which never fail to please and is being lauded constantly for his exceptional ability in presenting his program in such a

manner as to please the most exacting.

Woman's Dream Comes True
At last you find a new wonderful face powder that keeps ugly shine away. Will not enlarge the pores, and spreads so smoothly the skin looks like a peach. MELLO-GLO is made by a new French Process and stays on longer. Good looking, well groomed women simply love this marvelous new Face Powder—MELLO-GLO. J. Y. Pearce Drug Co.

ONE LEGGED MAN WITH MANDOLIN MAKES MONEY WALKING ABOUT FRANCE

(By International News Service)
PARIS, June 4.—With aviators of every nation spanning the earth and waters in the shortest possible time, and modern mermaids swimming straits and channels, one-legged Abel Patigny has found a way to do his bit.

In 1918, Patigny, former printer, was run over by a taxicab. The chauffeur drove off leaving his victim behind him so no damages could be collected. The poor man was taken to the hospital where it was found necessary to amputate one leg.

When he was released he began looking for work. Nothing could be found but he suddenly remembered he could play the mandolin and decided to start out playing his way around France. Fortunately, the hospital presented him with a pair of good crutches.

"They are safer than any airplane," says Patigny, "and they have carried me all over my good country."

Patigny covers many miles a day, walking from village to village at a good pace of four and one-half miles an hour. Once in the town he plays his repertoire, sometimes doing a curious one-legged dance he has invented.

BLEEDING GUMS: The sight of sore gums is sickening. Reliable dentists report the successful use of Leto's Pyorrhoea Remedy on their very worst cases. If you will get a bottle and use as directed druggists will return money if it fails. J. Y. Pearce Drug Co. 1td

Announce Rotary Club Committees

Officers of the Ballinger Rotary Club have been elected for the ensuing year and President Lyon has appointed all committees to serve for the next twelve months. Since the club was only recently organized and the first elected officers had served for only a few months the club re-elected all officers for another year.

The Rotary Club is rapidly growing and the members are becoming more enthusiastic with every meeting. The programs at the Wednesday noon luncheons are good and the attendance is increasing. An average attendance of 82 per cent was reported for the month of May, and the record for June is expected to be even better.

The club will launch some definite programs with the beginning of the new year, and especially will more attention be paid to the boys of Ballinger. Organized boys' work will be inaugurated. Rotarians believe this is one of the important items to be considered here.

Following is a list of officers elected and committees appointed. The entire membership of the club will be found listed on the committees:

Board of directors—H. C. Lyon, president; Elmer Shepperd, vice-president; Marvin Atkins, secretary; Wix Currie, treasurer; R. T. Williams, H. W. Lynn, Earl Morley.

Aims and objects committee—H. C. Lyon, president; Marvin Atkins, secretary; Wix Currie, chairman community service and

boys' work committee; R. T. Williams, chairman vocational service committee; Elmer Shepperd, chairman club service committee. Community service and boys' work—Wix Currie, chairman; J. Doug Motley, John A. Weeks. Vocational service committee—R. T. Williams, chairman; Paul Trimmier, O. C. Sykes.

Club service committee—Elmer Shepperd, chairman; O. L. Parish, education committee; Sam Behringer, program committee; H. W. Lynn, classification committee; Troy Simpson, public relations committee; Earl Morley, fellowship committee; Will McCarver, entertainment committee; J. C. Sturges, auditing committee.

Program committee—Sam Behringer, chairman; E. E. King, Alfred Crager.

Education committee—O. L. Parish, chairman; Will McCarver, Garrit Ridders.

Entertainment committee—Will McCarver, chairman; Bryan Woody, Doug Motley, Troy Simpson, Will Doose, Bert Stobaugh.

Classification committee—H. W. Lynn, chairman; Will Doose, Willie Stephens.

Continuance Is Granted Man In Homicide Case

The regular jury venire for the May term of County Court convened at the court house at 1:30 o'clock Monday afternoon. Only one criminal case was on the regular trial docket, styled the State of Texas vs. W. L. Clark.

This was the case in which Clark ran over and killed W. A. Pace on May 29, 1927, after which the grand jury returned a bill of negligent homicide against the former. The case was transferred to the County Court from Winters.

On the call of the case the state attorneys announced ready, while the defense asked for a continuance, which was granted by the court. The case was set for trial on the first Monday in August, being August 6th next.

Young Clark is the son of Deputy Sheriff S. T. Clark of Winters. At the time of the tragedy he was allaged to be slightly past 16 years old.

From 30 to 35 witnesses for both state and defense were in court Monday afternoon. The firm of Doss & Boynton was employed for special prosecution in the case, and with C. P. Shepherd, county attorney, appeared for the state.

Continuance in the case was granted on the grounds of the sudden illness of the leading defense attorney, Judge T. T. Crosson. A. O. Strother and R. T. Thornton, both of Winters, also represented Clarke in the case.

Considerable interest centers about the case, because of the fact that the victim of the tragedy was a pioneer citizen of northern end of the county. The jury was discharged, there being no other business before the court.

Woman Swimmer In Chicago Pool Sets a New Mark

(By International News Service) CHICAGO, June 4.—Mrs. Myrtle Huddleston, a 30-year-old mother, who was the only woman to swim the Catalina Channel, shattered all known endurance records for men and women when she remained in the Lincoln Park west pool here for 50 hours, 10 minutes and 15 4-5 seconds.

The new record topped by seventeen hours and fifty minutes the mark set for women recently by Miss Nyle Austin, of San Bernardino, Calif. It also beat by four hours and ten minutes the best previous record of men swimmers, held by Otto Kemmerich, of Germany.

Mrs. Huddleston took nourishment only three times during the two days she remained in the water. During the entire time a company of officials were present to see that she did not touch the sides or bottom of the tank. She also remained in motion constantly.

RHEUMATISM IS BLAMED FOR 80 PER CENT OF THE HEART DISEASE DEATHS

LONDON, June 4.—Rheumatic diseases are responsible for 80 per cent of deaths from heart disease under 20 years of age, according to Sir George Newman, chief medical officer to the British ministry of health.

Speaking before a conference on rheumatic ailments, attended by medical men from the United States, France, Germany, Holland, Belgium and Sweden, Sir George said:

"The acute rheumatism of children is sowing the seeds of a growing harvest of disease of the heart and the nervous system. Chronic forms of rheumatism are very seriously crippling many hundreds of thousands of people all over the world.

"Closer supervision by parents and teachers should be exercised over all children under the age of 14. The personal and environmental hygiene of children must be steadily improved."

Stenos Cry for More of It

We have a fresh shipment of that famous Carnation Carbon Paper, which bears the reputation of being the only paper on the market once used by stenographers that "they cry for more." Five cents the sheet in any amount and well worth double the price.

Parachute Schools For Travellers To Be Necessary Soon

By Edward B. Lockett (International News Service Staff Correspondent)

WASHINGTON, June 4.—The American travelling public will have to go to parachute schools one of these days as a part of its general education.

The expansion of commercial airways throughout the United States and the constantly increased travel in the air by persons owning their own planes has brought about the necessity for a widespread knowledge of the use of the parachute, army aviators declare.

The parachute, thus far the only known and tested safety device for those who are stranded high above the earth in a frail machine of whistling wires and struts, is as important as the airplane engine, aviators say. When the engine fails the parachute is the only resort left. As soon as the general run of aerial passengers realize the parachute makes their safety in the air practically certain, army flyers say, commercial aviation will show a far greater expansion of passenger carrying air lines.

The most important advantage of parachute practice, say those who have made the leap, is that it instills confidence in the jumper.

"When people tell you stories of chutes that don't open," declared one officer, "take it with
