MEMBER INTERNATIONAL NEWS

FLOOD WATERS SWEEP TOYAH

The Texas & Pacific railroad dam at Toyah crumbled late Wednesday afternoon under the strain of millions of barrels of water accumulating in the reservoir, and all tributaries emptying waters from continued rains onto its watershed, according to a telegram received here by Mrs. H. H. Luckett from a tenant in that place.

The entire town was inundated Friday morning, the telegram announced, and water covered the floors of every residence in the town. Mrs. Luckett owns a 14-room dwelling there, which was reported to be standing in water covering the first floor two feet.

The extent of damages to her house and the city has not been learned.

MARINES CLASH WITH BANDITS

(By International News Service)
WASHINGTON, July 26.—A clash between five marine corps airplanes and a band of armed outlaws in Nueva Segovia, Nicaragua, was reported today to the state department by Minister Charles C. Eberhardt at Managua.

GRISHAM FEELS CONFIDENT AS PRIMARY NEARS

Special to The Ledger:
EASTLAND, July 26.—Carrying his campaign into Cisco, home city of R. Q. Lee, one of his opponents, Judge R. N. Grisham, candidate for congress, in a speech there Wednesday night declared he would carry 21 of the 29 voting boxes in Eastland county, and would lead in the county with 2,000 votes in the race. Judge Grisham and R. Q. Lee live in this county.

"Taking up diversified farming, which has been discussed in the campaign by an opponent, Grisham said, "If congress passed a law compelling the farmer to diversify, such a law would be unconstitutional. But if it were not, would you want federal agents coming into every community to inspect the farm to see how many acres each farmer had planted in kaffir corn, peanuts, and cotton?" the speaker asked.

Judge Grisham urged a tariff on farm and ranch products and on oil as the surest means of aiding West Texas, together with lower transportation rates for farm and ranch products. He expressed confidence of leading the race Saturday by a large margin.

WOMEN BEST MARTYRS SAYS BRITISH REGISTRAR

(By International News Service)
LONDON, July 26.—"There is nothing that does a woman so much good as feeling that she is doing a bit of martyrdom," declared Mr. Registrar Friend recently, during the hearing of a young wife's claim for arrears of alimony.

Other epigrammatic utterances on matrimony made by Mr. Registrar Friend were:

"Men do the hunting, and when they have done the kill they must have consideration for the party."

"A woman seems sometimes capable of forgiving, but never of forgetting."

"Women can be angels," concluded Registrar Friend, "some of them prefer to be—"

Separated husband (interrupting) "Cats."

Mrs. E. Allison and daughter, Miss Elois, of Denton, are visiting friends and relatives here.

MONOPLANE IS FORCED DOWN

(By International News Service)
ROCKFORD, Ill., July 26.—The monoplane Greater Rockford in which Bert Hassell and Parker D. Cramer propose to make a one-stop flight to Stockholm, Sweden, hopped from here this morning on the first leg of its flight for Mount Evans, Greenland, but was forced down by a bumpy air strata a few miles from here.

The plane was slightly damaged in landing, and repairs will delay continuance of the flight a few days.

It developed that the plane was badly damaged, and will not be ready to leave for two weeks. The landing gear was broken, the propeller bent back, the left wing shattered, and the fuselage damaged.

Hassell wept in disappointment upon having his plans frustrated.

TO GIVE VIEWS ON DRY ISSUE

(By International News Service)
ALBANY, July 26.—Against the advice of some of his closest friends, Governor Alfred E. Smith, it is understood, has decided to discuss prohibition in every campaign speech.

Some national leaders attempted to point out that his declaration on prohibition in his acceptance speech would be sufficient, but the governor told them that he intends that the country have a clear understanding of his position, and as he has always spoken his mind in political battle, he will so continue.

47 ABSENTEE VOTES POLLED

Forty-seven absentee votes had been polled here by Wednesday afternoon, the last day on which ballots could be filed, W. A. Forgey, county clerk, announced. Eleven of the absentee votes were mailed from various cities, and the remainder were cast here by voters who expect to be out of the city during the primary.

Absentee votes cast this year represent a comparatively large number, Mr. Forgey said, and the result is interpreted as evidence of a great deal of interest in the present campaign. Most of the votes were filed by families, practically as many women voting as men.

STABILIZATION OF THE FRANC BRINGS OUT HIDDEN FRENCH COIN

(By International News Service)
PARIS, July 26.—Stabilization has finally convinced many French gold hoarders that they might better empty their old woolen socks of golden "lozies" and exchange them for some pretty colored paper bills. In spite of the fact that every Frenchman was urged to consider it his patriotic duty to turn in every bit of gold during the war, long lines of people are now standing before the exchange windows in the Bank of France, eager to convert their savings.

Occasionally one deposits a large bag of the gleaming pieces, others carry it in the proverbial "woolen sock" and many others come with various fancy receptacles of tin or glass. The rate is the same for all of them—ninety-seven francs fifty-five centimes, approximately four dollars, for a bright twenty-franc gold, providing all of the original gleam is there.

The bank no longer receives silver pieces.

Mrs. O. C. Sykes and Mrs. L. O. Sykes are visiting their parents, Mr. and Mrs. T. P. Reed, in Goldthwaite this week. An annual family reunion will be held at the home of their parents this week.

'Best o' Luck in November, A'

Thousands of telegrams, letters and telephone calls have reached Governor Alfred E. Smith since he was nominated for president by the Democratic convention. He is pictured at his desk in the executive mansion, reading a portion of his bulky mail.

FAIR BOOSTERS ENCOUNTER MUD

The Ballinger caravan composed of the local band and fair boosters to San Angelo Wednesday, returned late in the afternoon after a tedious journey over muddy roads. At Willow Creek it was necessary to enlist the aid of a team in order to cross the turbid waters, and along the entire route the muddy condition of roads retarded progress, some four hours being required to make the return trip.

The good will visitors arrived in San Angelo about 10 o'clock, and started parading the principal streets, escorted by policemen, who cleared traffic for the marching band. A concert was given in the St. Angelus Hotel, where J. D. Motley, secretary of the Chamber of Commerce, addressed the crowd assembled for the concert, extending an invitation for them to attend the Runnels County Fair, to be held in Ballinger from October 9 to 13.

The Board of City Development of San Angelo had members of the band, E. E. King, president of the fair association; Leslie Baker, and Mr. Motley as guests at a luncheon at the St. Angelus Hotel. The motorcade left San Angelo at 3 o'clock in the afternoon.

The trip was made in recognition of the Sheep & Goat Raisers Association of Texas in convention at San Angelo this week, and to advertise the county fair to be held here. It was the first of a series of trips that will be planned prior to the opening of the 1928 fair.

FIGHT RETURNS TO BE RECEIVED HERE AT CENTRAL HOTEL

Local fight fans will have an opportunity to hear broadcast returns of the Heeny-Funney heavyweight classic tonight, thru the courtesy of the Ballinger Electric Company.

A receiving set will be erected at the Central Hotel by the electric shop, and the fight will be received blow by blow.

An invitation is extended the public by the hotel management and by G. P. Teague, manager of the electric company, to be present for the fight returns.

Misses Jennie Louise and Mary Copeland, of Cleburne, are visiting in the home of Dr. and Mrs. J. G. Douglass here this week.

Be wise and advertise.

CHIEF POWERS TO SIGN PACT

(By International News Service)
PARIS, July 26.—The American treaty to maintain world peace by outlawing war will be signed here by leading powers designating their desire to accept the pact August 27, the foreign office announced today.

AGRARIAN GROUP OPPOSES CALLES

(By International News Service)
MEXICO CITY, July 26.—While most friendly relations exist between President Calles and the agrarian faction of the Obregonista party, Deputy Ygama, spokesman for the agrarians, declared today that his colleagues are unalterably opposed to Calles remaining in office after the expiration of his term on December 1st.

Meanwhile, Luis Morones, missing labor head, has reached the United States, according to current reports.

ITALIA SUPPLY SHIP REACHES NORWAY COAST

(By International News Service)
LONDON, July 26.—With its flag at half mast in memory of the brave explorers left to the stark terrors of the Arctic wastes, the supply ship Citta di Milano, with General Umberto Nobile and survivors of the Italia disaster on board, arrived at Narvick, Norway, today, according to a Central News Agency dispatch from Stockholm.

The re-arrival was watched with sullen interest by harbor workers, who refused to handle ropes thrown from the ship to the dock.

As soon as the ship was moored Italian soldiers with rifles and bayonets were stationed on the gangway. It was announced that Nobile and his companions would not go ashore until darkness, when they will go direct to the special train chartered to bear them to Italy.

The resentment of Norwegians over the loss of Captain Roald Amundsen led to the policy of precautionary measures. No interviews will be granted while the party is en route.

BOY HAD NECK BUB AS RECOVERED

SHARON, O., July 26.—Harry Herbert is enjoying his summer vacation here although physicians said he could not live after he had broken his neck while swimming a few weeks before he was to graduate from public school.

Harry not only recovered in time to graduate with his class, but won class honors for scholarship.

HEALTH IN FLOODED DISTRICTS

During the present rains, which have been much needed, one is probably reminded of the frightful disaster of the flood in the Mississippi Valley, approximately a year ago. Some comfort may be obtained in the knowledge that better villages are being built on the ruins of those destroyed, and a better public health regime has been inaugurated.

Following the flood of waters, there has developed another flood—a flood of sanitation development, which has placed that area many years ahead of the old program in connection with the development of full-time health service.

If the work continues as it has to date, the Mississippi Valley will enjoy the universal health protection it deserves. This should stimulate other communities to strengthen their local health departments.

It is estimated that 40,000,000 American people will listen in on radio reports of the Tunney-Heeney bout, and follow it round by round to its finish. Radio gatherings will bear the characteristic atmosphere of the huge assembly of spectators, and cheers and groans will issue from the listeners according to their reception of announcement of the progress of the fight. Men in Texas will pause in the current political swirl, long enough to hear the fight to the end, but the post-bout debates will lose their color in the limelight of political discussions.

Oklahoma Lady Gives Interesting Account of Long Use of Black-Draught In Her Home.

Sagecyah, Okla.—"I have taken Black-Draught ever since I was a child, and can recommend it as a splendid medicine for family use," says Mrs. Cora Maberry of this place. "My mother used it, in bringing up her family, and after I had a home of my own, I continued to use it, as I thought it was especially good to give the children."

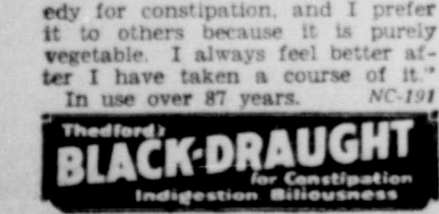

"My children did not mind taking Black-Draught, and so when they got upset with stomach spells, or were constipated, I gave them Black-Draught tea."

"If I found that they were taking cold, I was quick to start giving them Black-Draught, as it helped them to throw off the impurities which caused the trouble."

"My children are all grown now and have homes of their own, but I still keep Black-Draught in the house and use it myself when I wake up in the morning feeling dull and 'headachey', and have a bad taste in my mouth."

"Black-Draught is a simple remedy for constipation, and I prefer it to others because it is purely vegetable. I always feel better after I have taken a course of it."

In use over 87 years. NC-191

Motley Originates "Ferry" Plan To Increase Funds of C. of C.

J. D. Motley, secretary of the Ballinger Chamber of Commerce, will entertain bids for the construction of a ferry boat, to be ready for service at once. No particular specifications are prescribed, other than that the boat will float, and will bear the weight of a car with occupants.

This spontaneous desire on the part of the secretary originates with a situation experienced Wednesday afternoon on returning from a good will visit to San Angelo. When the seven automobiles composing the caravan reached Willow Creek, after laboriously plying their way over muddied roads, a swollen stream confronted them, and the water was at such a height as to render the road impassible for automobiles.

A farmer alive to the financial opportunity was stationed at the stream with a harnessed horse, and was drawing automobiles across for a \$1 fee. Mr. Motley, in line with his characteristic policy of rigid economy, disapproved of the toll, and deliberated the possibility of loading cars into the single truck of the motoreade, thereby decreasing the total expenditures for being towed to the opposite bank.

The "commercial" Sir Walter Raleigh refused to concede to this proposal, and contended that the usual fee would be charged for each car, regardless of the number pulled across at one time. Mr. Motley is determined to not be caught in such straits again, and as a precaution against the recurrence of such a situation he will convey a ferry with him on future good will trips.

And if the plan proves practicable, he will probably continue his services on a commercial basis, competing with the enterprising farmer, whom he suspects of impounding waters from other streams into Willow Creek to his monetary gain.

Mr. Motley declined to say whether revenue gained from this project will be applied to his personal gain or added to the funds of the organization. It is probable that he is awaiting the outcome of the undertaking; in the event the move proves profitable, he will class it an individual task, but if losses are incurred, he will charge the deficit to the organization, it is openly rumored.

DEATH AVERAGE HIGH AMONG DIVORCED MEN GERMAN FIGURES SHOW

(By International News Service) BERLIN, July 26.—Divorce means flirting with death. This is proved by German statistics just published.

For each 100 married men that die between the ages of 30 and 35, death takes no less than 235 divorced men between the same ages. The corresponding mortality figure for bachelors is 197 and for widowers 226.

On the other hand, marriage is dangerous to women.

For each 100 women that die between the ages of 30 and 35, the mortality rate for women is as follows: single, 72; widowed, 66; divorced, 79; married, 121.

WILKINS FLIGHT TO SOUTH POLE WILL BE FROM CAPE COLBECK

(By International News Service) LONDON, July 26.—Details of the daring flight over the South Pole which is planned by Captain Sir George Wilkins, the Australian airman who was knighted for his work in the Arctic, have just been published here.

The trip will be made from a base near the Cape Colbeck ice barrier in King Edward VII. Land on the eastern side of the Ross Sea, where ships have established bases for whaling fleets.

From this base Sir George intends to cover the Anarctic to Graham Land, which is situated to the southward of the Shetland Islands, covering enormous wastes never before seen by man. In the course of his research he intends to fly over the South Pole.

The main object of the flight is to ascertain what land, if any, lies between two unexplored areas of the Antarctic Circle which Cook and Billingshansen failed to penetrate, although they approached the fringe of the great ice barrier.

The machine which Sir George will use is being equipped with the most scientific instruments for aero-navigation.

**VOTE FOR
E. J. MILLER
FOR DISTRICT JUDGE**

E. J. Miller

He Stands for—

More trials and fewer continuances. Continuances and delays are the greatest friends to the criminal and the greatest foe to civil justice. "Justice delayed is justice denied." There is a cry all over the district about violations of the prohibition law and other laws and it has been charged by surrounding people that it is easier to clear a murderer in this district than any other district in the State. Delays and continuances are responsible for a good part of this.

MORE WORK AND LESS PLAY—Six days work per week or keep dockets clear. It costs your County \$100.00 per day for court and jury to sit around and do nothing. My opponent says that another Court must be created to handle the business of this district. If you elect me I will stay on the job and attend to all the business of the district thereby saving the district the expense of another court, \$10,000.00 per year.

DEMOCRATIC ROTATION IN OFFICE—Isn't 20 years long enough for one man to hold this office? Isn't \$80,000.00 enough for one man to draw from the public treasury?

Why not give a young man with vigor, zeal and industry an opportunity for faithful patriotic service?

"Brownwood, Tex., 7-22-28.
"To Whom This May Concern:

"It gives me pleasure to bear sincere testimony to the work and worth of one, E. J. Miller. He is an attorney of years of successful experience, a citizen who stands for law and order and the best welfare of the individual citizen, and a Christian man of character above reproach. A vote for him will be a vote for the best interest of our judicial district.

"Cheerfully submitted,
"E. GODBOLD,
"President Howard Payne College.
"M. E. DAVIS,
"Teacher of Bible."

"The Store of Personal Service"

**E. J. MILLER
CAMPAIGNS HERE**

E. J. Miller, of Brownwood, candidate for district judge, was here last night and today in the interest of his campaign. Mr. Miller has conducted an intensive campaign over the entire district, and visited Runnels county on several occasions.

Commenting on the political encouragement he has received in Runnels county, Mr. Miller declared that he had authentic assurance that he would lead the county by a large margin. He said that over the entire district he has gained encouragement and numerous predictions of victory in the race.

Basing his claims for office upon strict enforcement of the prohibition law and other laws, Mr. Miller pledges to devote six days per week to work in the office of district judge, if elected, and to work for the best interests of the district.

**Falcon Island, Disappearing Spot In
South Sea, Finally Has Been 'Tagged'**

(By International News Service) BERKELEY, Calif., July 26.—"Falcon Island," the "hide and seek" island of the Tonga Archipelago in the South Sea Island region is now "it."

The disappearing island has been "tagged," measured and photographed by a group of scientists and natives according to word received here today by Dr. William A. Setchell, chairman of the botany department of the University of California.

This is the first time any humans have "slipped up" on the island since its recent reappearance.

When Dr. Setchell visited the region in 1926, Falcon Island was hiding out, but even then, the professor predicted it would become nervous and reveal itself before long.

Land on Island

Passing ships have reported seeing the island but an expedition headed by Professor J. Edward Hoffmeister, geologist at the University of Rochester and including Professor Harry S. Ladd, geologist at the University of Virginia and the Hon. William Tugi, premier and prince consort of the kingdom of Togi, first landed on the volcanic island the latter part of May.

The expedition reached the island at midnight, fearing another submarine act. Waiting until morning to land, they tried to row a boat to the banks, but not being able to get within 70 feet of its shoreline, they had to swim for it.

Hon. William carried the barometer on his head while swimming, and with it, they found that the island is 360 feet high. It measures two miles long.

Hon. William planted the flag of Togi on the top of the island, but the professors were content

to pick up a few samples and take all of the measurements.

It was learned that the island is the result of a volcano. It erupts ashes instead of lava. The ashes fall and form an island. Not being of very sturdy substance, the waves wear the ashes away, thus the disappearing island.

Often Sighted

Falcon Island, according to Dr. Setchell, was first sighted in 1865 by a British naval vessel. In 1871, "a smoke rising from the sea" was seen by the British naval vessel, "Sappho," in the location where the island had been.

In 1885, it was again seen as an island. In 1889 it was surveyed by a party from the British vessel Egeria. Then again it disappeared, and was not seen again until last year.

"Diamond Head was doubtless formed by a volcano operating under much the same conditions," commented Prof. Setchell. Eventually Falcon Island may be thrown up out of the sea as other islands in the group have been, by a tremendous upheaval. Until then, the process of appearing and disappearing will continue periodically.

**DUSSELDORF TAKES OVER
BIRTHPLACE OF HEINE**

DUSSELDORF, July 26.—The city of Dusseldorf has decided to take over the house in which Heinrich Heine was born in 1799, and to equip it in its original form.

The present occupants will be provided with another house, so that the house can be opened for the public.

RUSSIAN MOVIE ACTOR AT AGE OF 52 SETS A HAMMER THROW MARK

(By International News Service) MOSCOW, July 26.—A 52-year-old movie actor, Christakoff, who plays grandfather and cripple roles for the Soviet Kino trust, established a new Soviet hammer throw record against competitors half his age. Christakoff threw a 15-pound hammer 183 feet in the Moscow district amateur track and field meet at which district entrants to the "red Olympiad," the Spartan games, were chosen.

A question about his eligibility to the international Spartan games has been raised because of his profession. It is claimed that as the games were organized as a sort of workers' Olympiad, Christakoff, who is not technically a worker, cannot compete.

Mrs. Cecil Thorp, who was severely scalded several days ago, when a pot of tea was overturned, is now reported to be suffering considerably. A special nurse has been retained.

DOES THE SHOE PINCH?

The shoe bill pinches all but the favored few—so does the new shoe.

Why not give your feet a real treat and buy new shoes from our shop, instead of new shoes?

They will look as good as new—and feel better. There is as much difference in the quality of soles and the skill in applying them, as between good and cheap new shoes—more perhaps.

Skilled workmen in our shop, rebuild shoes with the most modern shoe factory machinery.

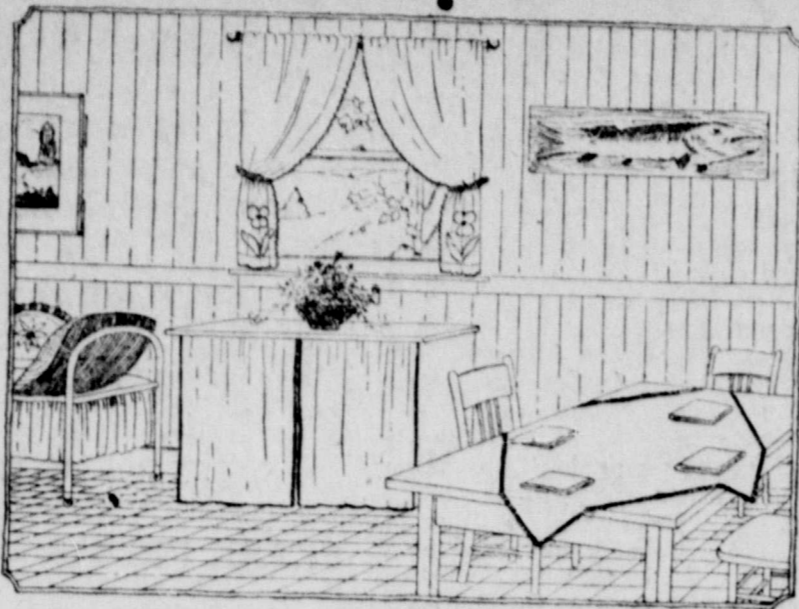

Hard, flinty, heavy weighing, acid, swelled, thick soles are dear at any price. In our shop, we resole with the same weight of leather that your shoe was originally built to carry. We do not "cobble"—we rebuild.

If you look in your closet tonight you will probably find several pairs of shoes needing new soles or new heels.

Bring them in to us and save the price of a new pair of shoes.

GOOD YEAR SHOE SHOP
Bob Carsey

MAKE SUMMER HOME PRETTY

A cottage in the woods, mountains or seaside is tucked away in the back of almost every family's dreams. Much of the furniture can be made by the man who is at all handy with the hammer and saw, or can be bought second-hand and painted, if the attic back home doesn't yield up enough treasures. When it comes to the smaller furnishings, simplicity and economy are again the keynote. They must be able to stand lots of hard wear, be sunfast and easily laundered. A few dozen used flour bags bought from the bakery will make a great variety of articles especially suitable for the summer home. They cost but a few cents apiece and meet all these requirements. The stamping is not hard to remove. The inked places are first covered with lard or kerosene and allowed to stand overnight. The bags are then washed out in lukewarm water. Curtains are one of the first considerations. The bags come a yard square, and few cottage windows are deeper than 36 inches. They are trimmed with appliqued or stencilled designs, or with a border of contrasting material. Small brass rings are sewed on because the curtains are drawn to at night to avoid the need of window shades. Cupboards for dishes, utensils, and personal effects are made out of crates and covered, sides and front, with curtains, similarly decorated or dyed. The table cloth and napkins have borders of checked gingham, and can be safely boiled to remove stains. Then there are pillows to be made, and perhaps a runner or two, not to mention a goodly supply of dusters, dish and face towels, all of which are made out of the used bags. When it comes to personal apparel, the flour bag kitchen apron, beach coat and play suits for the children, are admirably suited to summer cottage wear.

MIXED SPEED LAWS ARE TABULATED AS AID FOR TOURISTS

(By International News Service) CHICAGO, July 26.—Tourists encounter a variety of speed limits in the various states, and for the benefit of those touring into neighboring states, or making transcontinental tours,

this summer, the touring bureau of the Chicago Motor Club has compiled the following summary of the varying limits.

Motorists from Illinois entering bordering states may increase their speed five miles an hour on entering Wisconsin, Iowa, Kentucky or Indiana, the states named having a limit of 40 miles per hour. Michigan has no speed limit, putting the matter of safe driving squarely up to the driver. Missouri's limit is 25 miles an

hour. Legal limits for the open road range from 20 miles an hour in Massachusetts to 45 miles in Florida, North Carolina, and Nevada. Montana requires that the motorist be "reasonable," while South Dakota says that he shall be "prudent," and penalties are imposed in these states where either the speed or manner of driving is deemed dangerous. The District of Columbia has a 22-mile limit. Missouri is the only state with a 25-mile limit.

With the different speed limits to be observed in crossing state lines and international borders, the Chicago Motor Club holds that it is well for motorists making long trips to familiarize themselves with the speed regulations.

Ted Truly underwent his fourth skin grafting operation in the Halley & Love Sanitarium, Wednesday morning, and is reported to be resting very well.

GERMAN MERCHANT FLEET NEAR PRE-WAR STRENGTH

(By International News Service) BERLIN, July 26.—The German merchant marine is rapidly approaching pre-war strength. It is now 75 per cent of the total tonnage held by Germany in 1914, according to statistics just issued by the Germanic Lloyd.

There were on June 1st 2,456 seagoing ships, with a total tonnage of 3,838,000 gross register. This tonnage, however, made up but 5.8 per cent of the world's total as against 11.3 per cent before the war.

OLDEST MAN IN WORLD GIVES AGE AT 156 YEARS

(By International News Service) SARAJEVO, July 26.—Tadija Moustafitch, a native of Herzegovina, claims to be the oldest man in the world—going on to 156. That is two years more than the age claimed for Zoro-Age, of Constantinople.

Moustafitch is a peasant and takes his age as a matter of course, failing to find any particular reason for living so long. He works in the fields every day and admits taking a little alcoholic stimulant.

RESIDENCE LOANS

SHOWING ADVANCED STYLES IN SHOES

Advanced styles in Shoes can now be had in absolutely the newest and smartest patterns of the coming season. Reptile leathers in alligators, lizards, and snakes are stronger this season than ever before due to the fact that they can be bought in the most beautiful patterns ever made in this type of footwear. They are stronger because they are prettier. In more conservative patterns we have a large selection of new patent leathers, some with reptile trimming, others in the beautiful and new regent Pumps, also straps and other designs. See them at our window display.

Genuine alligators in ties, straps, and pumps, both spike and Cuban heels. No style better, no shoe smarter. **\$10.00**

Patent, regent Pumps, Cuban and spike heels. A shoe that fits all kinds of feet from "AA" to "C". Especially good for dress. **\$7.50**

Low heel, one straps in genuine snake heels and toes. Dark brown and blacks, the season's best colors, \$5.00 to **\$7.95**

Beautiful navy blue, kid pumps, spike heel with attractive bow on toe. You will be pleased with both its smartness and comfort. **\$7.95**

A snappy Cuban heel, pump in patent leather with trimming on the toe and down the sides. Especially attractive for street wear **\$5.00**

Many other new patterns in all popular colors and designs. Also new arch supports in the new colors and styles. Call for the shoe you want; we have it.
