White Retracts Charges Against Governor Smith Callaway Now Ahead of Perkins

(By International News Service)
NEW YORK, July 31.—Following the publication this morning of a review of the legislative record of Governor Alfred E. Smith in the New York legislature years ago, in which William Allen White, Kansas editor, charged Smith with voting consistently with Tammany to protect the saloon, gambling, and vice, White today issued a statement modifying and withdrawing several charges.

The Kansan declared that after talking with Walter Lippman, of the New York World, he learned Smith was deeply aggrieved, and he, White, felt that the governor might honestly oppose bills on constitutional grounds or because unenforceable, or infringed upon personal liberty, or encouraged police blackmail.

White asks all newspapers, particularly Republican, to give the new statement the same consideration they did yesterday's and completely withdrew charges affecting gambling and prostitution, but not saloons.

Tunney Quits Boxing Game

(By International News Service)
NEW YORK, June 31.—Gene Tunney today announced his retirement from the ring at a luncheon given boxing writers at the Biltmore Hotel.

He gave as his reason the statement that no contender available was capable of attracting a large purse, and it would be two or three years before another developed. He said that was too long to wait, so he would step aside.

The champion declined to say what business he purposed to enter.

Run-Off For Tax Collector

Only one county office will be under contest in the run-off election August 25, all other officers being elected in the primary. W. L. Brown and Ed J. O'Kelly are still in the race for tax collector, Arthur Byers being eliminated in the primary. Brown, tax assessor incumbent, received 1558 votes; Byers, 1067; and O'Kelly, 1081. The combined votes for O'Kelly and Byers exceeded Brown's strength by 590.

Miss Georgia Singletary was re-elected district clerk by a majority of 56 votes over her two opponents, E. Hoyt Smith and R. A. Hunt. Miss Singletary registered 1886 votes; Smith, 1042; and Hunt, 788.

Miss Ima McKown defeated both of her opponents by a margin of 440 votes. She polled a total of 2078 votes, as compared with 856 for C. A. Womack, and 782 for T. F. Bridwell. Miss McKown will succeed W. A. Forgey, who was not a candidate for re-election.

In the other county offices, Mike C. Boyd won over Sidney Caskey for tax assessor, the vote being 2534 and 1212, respectively; and Roy L. Hill defeated C. P. Shepherd, county attorney incumbent, by a vote of 2194 to 1503. R. J. Deems was elected commissioner of precinct No. 1 with 882 votes over J. R. Holloway, who received 442. Pat Tillery was elected public weigher of precinct No. 1, receiving 890 votes to 402 for O. R. Jonas.

Mr. and Mrs. E. Shepperd and two daughters returned Monday night from Colorado, where they had been on an extended vacation trip.

12 Overcome By Smoke In Bakery Fire

(By International News Service)
DALLAS, July 31.—Twelve firemen were overcome by smoke, and H. Zeron, an employee, was badly burned when the Quality Bakery here was swept by fire, causing a \$25,000 loss, this morning.

Brennan Is Near Death From Poison

(By International News Service)
CHICAGO, July 31.—George E. Brennan, Democratic national committee man from Illinois and a close friend of Governor Alfred E. Smith, was reported near death from septic poisoning this morning.

Pickets Defy Court Orders

(By International News Service)
NEW BEDFORD, Mass., July 31.—While 256 strike pickets and their sympathizers are awaiting court arraignment today, picketing of 56 textile mills continued in defiance of orders of city authorities.

The strike was called in protest against a 10 per cent wage cut.

3 Killed In Explosion Of Boat Lighter

(By International News Service)
NEW YORK, July 31.—Three were killed and one injured when a lighter of the steamer Chancellor, moored to pier 22, Staten Island, blew up today.

The dead are William Woods, engineer, and Joseph Martin and John Durado.

Two buildings near the pier caught fire from the explosion.

Padre Island Reported Sold

(By International News Service)
SAN BENITO, July 31.—The sale of Padre Island, reaching from Point Isabel to Corpus Christi, to J. M. Parker and Jones Brothers, of Kansas City, by Col. Sam Robinson and associates, of Brownsville, was announced today.

Third Filing Of Expenses

The third filing of expenses of county candidates must be made this week, W. A. Forgey, county clerk, announced Tuesday.

All candidates who were in the primaries must make a report, to include expenses incurred since the last report, together with expenses previously filed.

THE WEATHER

(By International News Service)
All Texas—Generally fair.

Second place in the congressional race stubbornly shifted from T. P. Perkins, of Mineral Wells, to Oscar Callaway, of Comanche, as late returns from counties in the eastern portion of the district poured in. Perkins was judged winner over Callaway early Sunday morning on the basis of all available returns, but later figures indicate unmistakably that the contest for nomination in the run-off will be between R. Q. Lee and Callaway.

Reports from boundary counties of the district were delayed, and complete returns have not yet been registered, but the number still out will not change results in the standing of the candidates, it was said. Callaway supporters were confident of a wide gain with reports from the eastern portion of the district, where his principal strength is said to lie.

With latest available returns, Callaway had a margin of 403 votes. It is predicted that Callaway will have a further gain when a few small boxes still out report.

A telephone communication from Comanche to The Ledger shortly before press time Monday gave the following standing of candidates, based upon latest available figures: Lee, 17,122; Callaway, 11,268; Perkins, 10,865; Shanks, 7,800; Grisham, 6,299.

Tornado Kills 27 In Poland

(By International News Service)
WARSAW, July 31.—Twenty-seven persons were reported killed and 38 injured when a tornado swept the Vilna district, destroying 200 homes.

Nobile Group Reaches Italy

(By International News Service)
ROME, July 31.—General Umberto Nobile and his fellow survivors of the Italia disaster crossed the Italian frontier en route home today.

They traveled quietly, and there was no demonstration. It is expected that they will go to their respective homes until summoned by Premier Benito Mussolini for an inquiry into the expedition.

Milan dispatches declared that Lieutenant Vighieri got an enthusiastic reception there.

Americans Face Further Defeat

(By International News Service)
AMSTERDAM, July 31.—Another disappointment for American participants in this year's Olympics came today when Lloyd Hahn was beaten in the 800-meter finals by Douglas Lowe, Britisher, who repeated his performance of four years ago. Hahn finished fifth.

The only satisfaction for the Americans came when Elizabeth Robinson, of Chicago, won the 100-meter finals for women. Leighton Dye's sparkling semi-final victory in the 110-meter hurdles helped some more. He equalled the record.

Another heartening result was gained by Georgia Tech's star, Ed Hamm, when he established a new Olympic record of 25 feet and 4 3/4 inches in the broad jump.

D. Reeder Dry Goods Co.

Serving Runnels County For A Quarter Century
TWO ENTRANCES—EIGHTH ST. & HUTCHINGS AVENUE

FINAL CLEARANCE ON SUMMER APPAREL

New Fall merchandise is arriving and we need the room—though you have more than two hot-weather months to wear these summer garments and such low prices offer an unusual inducement to purchase another dress or suit for vacation, street or dress wear, or for the beginning of the next warm-weather season.

SALE OF ALL DRESSES

Just two price groups remain in a complete range of sizes. Dresses of printed crepe, flat crepe, and other summer silks—every one a suitable style for summer or early fall wear, at a mere fraction of their original value—real worth-while reductions.

Dresses to \$16.50 Regularly Dresses to \$9.00 Regularly

\$6.75 \$3.75

Wayne Made Wash Frocks Reduced

Always \$1.95 Regularly, at **\$1.55**

Wash frocks at a price actually lower than the cost of material—beautiful fast color materials, perfect fitting, and the season's very newest styles—and best of all a complete range of sizes in more than a dozen combinations and shades.

Mallory Straws for Men

Values of \$6.00, Choice \$1.45

No man can afford to wear an old straw when one of these exclusive Mallory Hats can be had at such a figure—mostly sailors—many are cravenetted and are not affected by wet weather, and every one a this season's hat. Profit by our loss and purchase a "spare" for the remainder of the season.

Men's Summer Clothing at \$10.

Light weight suits that will be highly desirable for August and September wear, and then will do service again next summer—and the price is just about half regular value. The patterns are most desirable and tailoring perfect.

Boys Summer Suits with Two Pants

Sizes 9 to 17—\$12.50 Values

\$6.50

Just another instance of taking our legs in order to make room for incoming fall stock. Boys suits of cool materials with two pairs long trousers—an offering that should make instant appeal to thrifty shoppers.

The progress of America has been attributed in large measure to her system of public education, which has attracted universal attention, and which many European countries are attempting to duplicate. Under our form of popular education, expenditures for public schools in the cities of the nation are only about two per cent of the total income of the people of these cities, and approximately two-fifths of the expenditures of these cities are for public education. The public high school with a wide range of subjects is distinctly American. The old supposition that popular education would endanger efficient government has been shattered by the American experience.

Device Means Of Destroying Fish Enemies

An innovation of depopulating streams of natural enemies of fish will probably result from an experiment to be conducted near Del Rio under the supervision of J. G. Burr, director of education and research of the state fish, game, and oyster commission. Mr. Burr was here Monday night en route to Del Rio, via San Angelo, where he planned to make a short stop on official business. While here he conferred with J. P. Flynt, local warden, and ruled on river bed bounds near Bronte, where gravel supplies were in dispute.

The experiment to be tried at Del Rio is a process of electrification of the water, by which the fish are temporarily stunned. All water life comes to the surface immediately after the electrical current is applied, and men are enabled to remove suckers, garfish, and other natural enemies of fish from the streams. In a short time the fish have recovered from the temporary shock, and no loss results.

The Central Light and Power Company is furnishing electricity and workers at Del Rio. Provided the experiment proves practicable, the commission will devise a portable power unit, and extend the service to all streams in Texas.

"Many times as much fish are devoured annually by these enemies than are caught," Mr. Burr declared. "All streams will thrive with fish when we have conquered these destroyers."

The commission and its work have experienced a wonderful growth under the supervision of Will J. Tucker, commissioner incumbent who entered the service

March 1, 1927. Mr. Burr stated. The department is growing in public favor, and cooperation of the public is making possible the most successful work, he added.

"Conservation work in Texas is in its infancy," Mr. Burr asserted, "but the people are coming to recognize its importance, and it is gaining in results. Other states have probably gone beyond Texas with reference to this program, but our state is rapidly coming to the fore."

Commenting on the expenses of operations, Mr. Burr pointed out that licenses, permits, and penalties supported the commission. However, more money is needed for a thorough program, he said. Texas spends one-fifth annually of each of the states of New York, New Hampshire, California and Pennsylvania in the promotion of this work, while the territory is nearly the same size, he declared.

"The greatest disadvantage current lies in the 'spoils' system," said Mr. Burr. "With each new administration there is danger of an inexperienced man being placed at the head of the commission. The real peril is in the likelihood of an irresponsible man being appointed. A move is under way to remedy this evil, by removing the commission from its political foundation, and have it supervised by a special board, similar to boards of regents of state colleges."

Mr. Burr declared that Mr. Flynt stood highest in the department, and that his work in this section had been highly commended. A survey of the nearby streams was made by the two men to secure data as to natural advantages for fish.

Mr. Tucker will attend the international game commission's convention in Seattle, Washington, the latter part of August, Mr. Burr announced. Officials from over the entire nation and Canada will be in attendance.

DOES THE SHOE PINCH?

The shoe bill pinches all but the favored few—so does the new shoe.

Why not give your feet a real treat and buy new soles from our shop, instead of new shoes?

They will look as good as new—and feel better. There is an actual difference in the quality of Resoles and the skill in applying them, as between good and cheap new shoes—more perhaps.

Skilled workmen in our shop, rebuild shoes with the most modern shoe factory machinery.

Hard, flinty, heavy weighing, acid-swelled, thick soles are dear at any price. In our shop, we resole with the same weight of leather that your shoe was originally built to carry. We do not "cobble"—we rebuild.

If you look in your closet tonight you will probably find several pairs of shoes needing new soles or new heels.

Bring them in to us and save the price of a new pair of shoes.

Club Boy Tells of Cisco Trip

Following is an essay on the 4-H Club trip to the R. Q. Lee model farm at Cisco recently which took second place in a contest arranged by H. W. Lynn, manager of the Ballinger Cotton Oil Mill. Willie N. Wright, of Miles, is author of the article, and he was awarded a prize of \$5.

The 4-H Trip to Cisco

For the past few weeks Mr. C. W. Lehmburg and Mrs. Lura Hollingsworth have been working for a 4-H visit to the R. Q. Lee model farm at Cisco. Their hopes were realized Thursday, June 14, when the trip was made.

The excursion was scheduled to leave Ballinger at 6:00 a. m., but like most things of this nature it was a few minutes late. However, about 6:15 the crowd left Ballinger. The next stop was at Winters where another slight delay was encountered. With the exception of minor car trouble this was the only stop until Cisco was reached.

The first thing the visitors noted was the hospitality of the Cisco Chamber of Commerce. This body of Cisco citizens accommodated the visitors in every conceivable manner. Several cars joined the crowd at Cisco and drove out to the farm. Here again the visitors met hospitality in the person of Mrs. R. Q. Lee, who assured them that the farm was

at their disposal. The secretary of the Cisco Chamber of Commerce made a short speech in which he enumerated the many excellent features of Cisco and neighboring vicinity. The Runnels county delegates then adjourned to the dairy barn and milk house which they thoroughly inspected. The boys then judged and placed a class on Mr. Lee's excellent young Jerseys. Luncheon was then spread under the large tank and everyone enjoyed a bountiful feast.

Immediately after luncheon the inspection of the farm was resumed. Among the interesting events of the afternoon the visitors will long remember Mr. Homann's lecture on hogs and Mr. Patterson's lecture on chickens.

After everyone had inspected the farm to his satisfaction the delegates adjourned to the Cisco lake and bathing pool, where the Cisco Chamber of Commerce treated the visitors with boat rides and swims in the pool.

About six o'clock the return trip was started and with the exception of slight motor trouble made the trip without mishap. I am sure that no one can deny Mr. Lehmburg and Mrs. Hollingsworth their well merited praise of a perfect day.

WILLIE N. WRIGHT,
Miles, Texas.

HERRING TOPICS

Everybody was very proud of the good rains which fell the last few days.

Ellis Madison, of San Antonio, spent Wednesday and Thursday night with Marvin Hale.

J. J. Fuller is on the sick list this week.

AMERICA IS THIRSTING FOR REAL SHAKESPEARE. VIEW OF MORRIS GEST

(By International News Service)

LONDON, July 31.—"America is thirsting for real English Shakespeare."

This is the opinion of Morris Gest, the American theatre manager, who is at present touring England, for the purpose of assembling a Shakespearean company to tour America.

"The Americans are culture-mad. They have the money and all the material comforts. Now the one thing lacking is education and art. The parents who were too busy making money in their younger days are now trying to inoculate in their children the advantages of learning."

SOVIET SCIENTISTS IN HUNT FOR VITAMIN "E" THAT MAKES MEN WILD

(By International News Service)

MOSCOW, July 31.—Experiments with newly discovered vitamins has led certain Soviet scientists to believe that the new vitamin "E" is what makes men wild. And the increasing variety of the human diet to include ever increasing amounts of vitamin "E" is largely responsible for the growing immorality in the modern world.

Prof. M. M. Zavadovsky, director of the laboratory, said that by the rigid exclusion of vitamin "E" from the diet of white mice, rabbits and guinea pigs he has produced absolute sterility. The laboratory animals were normal and healthy in every other respect and continue to grow because of the presence of all other vitamins in their food. The activity of reproductive organs, however, diminished from month to month until at the end of a quarter to half a year of "E-less" food, they were absolutely dormant.

INDIAN IN KILTIES BRINGS DISPUTE IN BANFF CELEBRATION

(By International News Service)

BANFF, Alta., Canada, July 31.—Chiefs of the Bloods and Stoneys are seething with indignation here this year and are

deciding in their annual pow-wows whether or not they will allow their tribesmen to attend the gathering and festival to be held at Banff the last of August and the first of September.

One of the braves last year, in a spirit of fun or otherwise appeared before a host of visitors here garbed in kilt, coat, sporran, plaid, glengarry and all, and the dignity of the tribes has been ridiculed to such an extent, the chieftains claim, that it will require a large amount of influence to persuade the Indians to forget the incident.

The Indians last year enacted a peace treaty shortly before the Scotch incident which again caused a breach.

Indian days at Banff this year may prove to be an excellent feature should the braves decide the appearance of an Indian in Scotch dress is not such an indignity after all.

Mr. and Mrs. J. W. McEntire left for Fort Worth Monday, to be at the bedside of their son, Raymond, who is to undergo an operation for appendicitis. They were accompanied by Mrs. W. E. Middleton and Walter Middleton, Jr.

Trotzki never can come back, says former Premier Kerenski of Russia. And Trotzki no doubt can say the same thing about Kerenski. —Louisville Courier-Journal.

CANCER CAUSED BY AUTO-POISON IS GERMAN VIEW

By O. D. Tolischus
International News Service Staff Correspondent

BERLIN, July 31.—Cancer is caused by autopoisoning through intestinal bacteria turned virulent.

It is not caused by infection and is therefore not infectious. Its cure consists in auto-vaccination which returns the virulent bacteria to their former non-virulent and even beneficial state.

This is the new doctrine propounded by Professor Dr. Eugen Bostroem, of the University of Giesen, in a book, "The Human Cancer," just published. If accepted, it would entirely revolutionize the war against this deadliest of man's enemies.

According to Prof. Bostroem, the bacteria which are normally present in the intestines and which ordinarily fulfill a useful and necessary function, may turn poisonous because of diverse internal and external influences.

Absorbed by Blood

These bacterial poisons are absorbed by the blood, are spread through the body, damage the blood forming cells, pollute the blood, impair the food distribution within the body and thereby weaken the body and reduce its resistance. In time, the poisons so irritate the germinal tissues of the blood vessels that a pathological growth of new cells results, especially since poison has killed off the hormone whose task it is to guard the delicate germinal tissues against damage.

The pathological growth of new cells is then the cancer. Professor Bostroem arrived at his conclusions following the discovery that the cancer cells themselves were dead and could not multiply and that therefore the cancer growth must be produced by another "mother tissue." Bostroem finds this mother tissue in the germinal tissue of the blood vessels.

Cure the Cause

Professor Bostroem's doctrine also corresponds with the results of recent investigations showing that cancer is especially prevalent among well-fed, or over-fed people.

His doctrine would also explain why all researches which started with the dead cancer cell itself which is merely the final product, did not lead to any result.

The cure proposed by Prof. Bostroem, therefore starts with a cure of the cause. The auto-vaccination is accomplished through the introduction of germs cultures which have been cultivated and then killed off but which are still active and capable of reconverting the poisonous bacteria to their former non-poisonous state.

CHURCH OFFICIALS MOURN MOTHER EVA

(By International News Service)
DENVER, July 31.—The death here recently of Mother Eva, founder and head of the Community of the Transfiguration of the Protestant Episcopal Church, brought expressions of profound grief from church officials of all denominations and the unanimous opinion that churchdom had lost one of its greatest executives.

Mother Eva died here while on a visit from Glendale, Ohio. She was 66 years old.

Mother Eva was the daughter of the late Stanley Matthews, former Justice of the Supreme Court of the United States, sister of the Right Reverend Paul Matthews, bishop of the Episcopal diocese of New Jersey; Mrs. Wm. Cooper Proctor and Mrs. Horace Gray of Cincinnati.

Orphaned children in Cincinnati, Cleveland, Honolulu and China had been gathered into communities created by Mother Eva.

Instead of relying on her abundant wealth to give her every comfort in life she chose to answer the call of her heart and gave herself to the poor and friendless children and her wealth to the community of the transfiguration. She had wealth and could have commanded a place of social, cultural and artistic prominence, but she chose a life of service.

Mother Eva was possessed of a brilliant mind and education the equal of her distinguished

brother. During her lifetime she had written much poetry of a high order of merit, fairy tales which she often read or told to the children in Bethany Home, and was the author of numerous religious works.

NEGRO DRUMMER OF LIGHT GUARD IN HONOR GRAVE

(By International News Service)

HOUSTON, July 31.—A new made grave in a negro cemetery here will get careful attention as the years come and go, in memory of "Captain" John Sessums, negro drummer of the Houston Light Guard.

The old negro, who died recently, was the only drummer the famous Light Guard ever had.

When Sessums was buried, the prominent and wealthy of the city followed the casket to the cemetery.

William States Jacobs, pastor of the First Presbyterian Church, and one of the state's leading ministers, officiated at the funeral services. Race and creed were forgotten as the aged negro was laid to rest.

Sessums became drummer when the Houston Light Guard was organized in 1873. A few years later the company went to New Orleans to compete with crack drill teams from all over the United States. At that time the negro was working as a janitor in a bank.

Determined to go along with his "boys" as he called members of the Guard, Sessums told his employer he "jes had to go even if the darned ole bank went busted." He went, and lost his job.

The young men who formed the Light Guard grew to mature age and the Light Guard Veterans Association was formed. Sessums proudly claimed membership in the new organization and beat his drum for them whenever the opportunity offered.

Surrounded by men who had heard him play his drum for nearly half a century, the old negro died in a local hospital for whites while men prominent in the city's commercial and social life choked back their tears.

"Ah! a black man but a Light Guard," the old fellow proudly whispered a few moments before his death.

Acid Stomach

"Phillips Milk of Magnesia"
Better than Soda

Hereafter, instead of soda take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

O'KELLY THANKS HIS SUPPORTERS

I take this method to thank my loyal supporters in the primary election last Saturday. I appreciate your support more than words can express and I shall always remember such friends.

I will be in the run-off in the second primary and I want to win by all honorable means and I take this opportunity of inviting those who supported me last Saturday to again vote for me and all other voters in the county to consider my claims and give me your support. I feel that I can fill the office in an acceptable manner and am asking for a public office the first time in Runnels county, although I have lived here many years, and I promise faithful service if you elect me in the second primary in August.

ED J. O'KELLY
31-1td-1tw

TO THE VOTERS OF RUNNELS COUNTY:

I want to express my sincere appreciation to every one who supported my candidacy. I believe that the race was clean in every respect. I extend congratulations to my successful opponent.

E. HOYT SMITH

TERRIBLY ILL

Kentucky Lady's Health Was Very Bad. Had Severe Pains and Could Not Sleep.

Lexington, Ky.—Mrs. J. H. Nichols, who lives at 513 Elm Tree Lane, this city, says that Cardui has been of valuable assistance to her on two occasions, which she tells about below:

"Some few years ago, my health was bad. I had very severe pains in my sides. My nerves were in a terrible condition. I could not rest.

"The lower part of my body was very sore. I could hardly stoop over to lace my shoes. I would have to put my foot on a chair. I did not feel like eating, and did not sleep well at all at nights.

"A friend of mine recommended Cardui. I began taking it and saw quite an improvement in my condition. I kept it up until I felt strong and well."

About a year ago, Mrs. Nichols says, she found herself in a nervous, run-down condition. "I took Cardui again," she adds, "and it helped me wonderfully. It is a splendid tonic."

Thousands of women have written to tell how Cardui helped them to get rid of pain and suffering. Cardui is a mild, medicinal tonic, made from purely vegetable ingredients. At all drug stores. NC-190
