SAN ANGELO AND ABILENE STORM CITY

Wednesday Night Crowd Largest of Present Fair

The Wednesday night crowd at the fair was the largest so far this year. The grandstand and bleachers were filled Wednesday night and the mid-way on the carnival grounds were crowded most all the evening. Many people spent the entire night inspecting the exhibits in the different buildings and did not attend any of the entertainment features.

The grandstand acts this year are pronounced by all to be the best program ever presented in front of the grandstand and it is a show that is worth fully twice the price of admission. Eleven feature acts and a big display of fireworks together with special features each afternoon and the style show on Friday night should be worth 35 cents of anybody's money.

On the carnival grounds the miniature train is attracting the crowds and receiving a liberal patronage. The train is a real little locomotive and runs with its own power on a miniature track pulling three open cars. Ten cents is charged for a ride and the kiddies are taking advantage of this new and novel ride. Many grown persons are also patronizing the

The big style show will take place in front of the grandstand tomorrow night at 8 o'clock.

Winters High School will meet Santa Anna team on the athletic field at 4 o'clock tomorrow afternoon.

The school children's parade will start moving down Eighth street at 1 o'clock tomorrow afternoon. Over 6000 children are expected to enter the parade.

A big fireworks display will be shot immediately following the style show.

The baby show will take place at the Ladies' Department tomorrow afternoon at 2 o'clock.

The Ballinger pep squad will line up for Winters tomorrow at the Winters-Santa Anna football game.

There will be no illuminated parade tomorrow night preceding the style show.

A Ford sport roadster will be given away Saturday night in front of the grandstand.

Ballinger School Gets First Place

The judging was completed in the Independent School booths Wednesday afternoon and awards made immediately afterwards as follows:
 Ballinger, first.
 Winters, second.
 Miles, third.
 The scoring of these booths gave the following score to the different booths: Ballinger 825; Winters 650 and Miles 615. Judges who inspected the work were C. H. Hufford, superintendent of the Coleman High School; Margaret Roach of Coleman; Mary A. Stevens of Coleman and Helen Swift of the A & M. College Extension Service.
 All three booths were good exhibits and showed the people just what kind of work is being done in the schools of Runnels county. Especially was the display entered by the Manual Training Department of the Ballinger school good. A large wicker rocker entered by this department was as neat in workmanship and as substantial in construction as can be found in any of the furniture stores. A miniature sail-boat in this exhibit was also very good and was perhaps the hardest piece of construction in the display.
 The work done in the Home Economics departments of all three schools was extra good and showed that the girls are being taught useful things along with their other courses. Each school convinced the public that useful things are being taught and the school booths were features at the fair and many people inspected the booths during the first three days.

Throngs Greeting Smith in South

(By International News Service)
 RICHMOND, Va., Oct. 11.—Gov. Alfred E. Smith brought his fight for the Presidency of the United States into the South today and here in the capital of the old Confederacy received an ovation such as is seldom given anyone. The governor will speak Saturday night in Louisville, Ky. On Tuesday, October 16, he will speak at Sedalia, Mo., and on October 19 in Chicago.

Non-Stop Flight Is Abandoned

ROOSEVELT FIELD, N. Y., Oct. 11.—With its undercarriage torn and the propeller broken off, the monoplane Columbia was resting on the old Westbury Golf Course near Curtis Field this afternoon at the spot where it landed a few minutes after taking off from Roosevelt Field on an attempted non-stop flight to Rome, piloted by Robert Q. Williams, the veteran pilot. The voyage came to an abrupt end when Williams found the load too heavy to achieve the necessary altitudes.
 Williams nor Navigator Bonelli either were injured.
 Williams had reached an altitude of but 50 feet when he was half a mile from the starting place and decided to land.

Oscar Williams was another home boy who was in the Abilene delegation Wednesday.

San Angelo and Abilene Storm City

San Angelo, 300 strong, stormed the city Thursday afternoon on a special train of six coaches, which arrived here at 2 o'clock. All six coaches were loaded to capacity and it was the biggest delegation ever to visit the Runnels County Fair from an out of county city. E. E. Lowrie was chairman of the Ballinger trip and put it over in grand shape.
 As soon as the train was stopped at the passenger depot, the line of march was formed with Mayor W. D. Holcomb in the lead of the DeMolay Band. The football team from San Angelo came next and they were followed by 300 boosters from that city.

Behind the San Angelo crowd came the Ballinger band and pep squad and following them was the McMurry Band and the Abilene delegation. The parade passed through the principal streets and moved on to the fair grounds, taking all the marchers and practically all the crowds off the streets into the front gate to give by far the largest afternoon crowd to attend the fair this year.

The San Angelo boosters will leave after supper tonight for the return trip. Abilene will leave in their cars as they feel like they are ready and will not go home as a body.

Both towns have their polo teams with them and will meet in a heated duel at 3 o'clock. Terrapin races will be another feature between the two cities late this afternoon on the regular program.

The Abilene delegation arrived in Ballinger today at 11 o'clock and led by the McMurry Indian

Band paraded through the streets and to the fair grounds.
 The delegation was large and made a good parade. Many of the Abilene visitors did not enter the parade but drove on to town and some to the fair grounds before the majority of the crowd arrived.
 A welcome committee met the Abilene crowd on North Broadway several blocks out and as soon as the crowd was assembled they proceeded on to town and their cars were parked on Seventh Street on the National Guard drill ground and the parade formed from there. As the delegation approached the Santa Fe Railroad, Doc Holland turned loose a string of sky bombs to notify the town of the approaching visitors.

Following the parade the McMurry band and boosters assembled on the street at the intersection of Eighth Street and Hutchings Avenue for a concert and pep demonstration. After the concert the crowd was turned loose to go and do as they pleased.

The party was made up of about 100 boosters and the band.

T. S. Lankford of Abilene was among the visitors at the Runnels County Fair. Mr. Lankford says that he is not a visitor but just helped to bring the boys over to a good town.

Jimmie Jacobson, Miss Margaret Sturges and Mrs. A. E. Bozell and children visited in Coleman and returned Thursday.

The real worth of Boy Scouts is being felt in Ballinger this week and we are getting several more companies organized and equipped for they are a good thing for the town as well as it being good for the boys.

A man leaving Fair Park on Wednesday night had a flat and a nearby Boy Scout was called on for assistance to do a good turn for a visitor and soon about a dozen scouts had the wheel jacked up, the tire off, the spare on and the man on his way without even getting his hands soiled.

So far this year not a single thing has been reported stolen at the buildings on the fair grounds. One reason for this is that the buildings and grounds are well policed. And another which we like to believe is, that the world is getting better.

San Angelo took no chance this year on getting rained out and chartered a train. The road between San Angelo and Ballinger is under construction and would be impossible to get over in rainy weather.

The local Boy Scouts were out Wednesday in their new uniforms and made a nice showing in the parade. The scouts are being a great deal of help to the fair association and are working each afternoon and night doing good turns to the visitors. They are also assisting in the taking of tickets at the Carnival.

FREE PAPERS

Unusual but true, the delivery of 1000 copies of The Daily Ledger each day of the fair, to the visitors. It is safely estimated that the cost of the paper, printing, folding and distributing this many copies of the paper, extra, is from \$35 to \$40 each day. To support this, we must have advertising, and to this solicitation we have had a ready response from some few. Others look at it in the light of a donation of just that much money. Any business man who is actually a business man and not just a man in business, knows the value of newspaper advertising well enough to not place it in the class of other forms that are in reality nothing but a donation. Community pride and a desire to be of service to the visitors prompted the management of this paper to take this step. If you have a pride, if you are proud of the community in which you live, if you want a better paper, and if you want 100 per cent value for every cent spent for your advertising, you will get it in The

Simple Way to Be Rid of Gas

PEOPLE who belch after eating may not realize that the cause is excessive gastric acid. Or may not have been told how easily this may be remedied. Quick and complete relief can be obtained by taking a little "Pape's Diapiesin" after eating or when pain is felt. Remember this for your comfort, and lest that constant gas on the stomach does not drift into gastritis!

"Pape's Diapiesin" instantly neutralizes the excess stomach acid and soothes, heals and strengthens the inflamed stomach lining, thus promoting normal, painless digestion and helping to prevent future trouble. For many years millions have used and recommended "Pape's Diapiesin" for the speedy and sure relief of indigestion and allied stomach troubles. Follow their example! Get a 50-cent package of "Pape's Diapiesin" from any druggist; no matter how severe your stomach troubles you will get relief.

OUCH!

By Bressler

Daily Ledger. We are proud of Ballinger, we are proud of our fair, and we are proud of the majority of the business institutions of the community, but we believe the value of the advertising columns for this particular time has been overlooked by the greater number of our firms.

Getting the paper into the very hands of the strangers within our midst is worth a great deal, and if that paper contains a message of importance to your particular line it will be worth a great deal to you. There are only two days left in which you may take advantage of this important opportunity offered by this paper—Friday and Saturday.

SHERIFF'S SALE

Notice is hereby given, that by virtue of a certain Order of Sale issued by the Clerk of the County Court, at-law of Dallas County, on the 26th day of September 1928, in a certain cause wherein Enterprise Butchers Supply Co. is plaintiff, and Jno. MASTER JNO. A. NICHOLSON WINS IN ART EXHIBIT

Master Jno. A. Nicholson of this city won one first prize and one second prize in the Art Exhibit at the Runnels County Fair. One of the pictures is a lake scene with trees and mountains in the background and on this painting he drew a blue ribbon. Another is the picture of a tree in black and white and for this he received a second prize. The tree is a local scene and was copied from a Ballinger yard.

At the West Texas Fair at Abilene John won two first places in the exhibit there. The lake scene on which he won here got a blue ribbon at Abilene and a blue vase of flowers won a first place at Abilene but did not receive anything here.

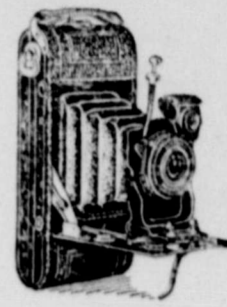

John's work to the public looks as good as anything in the exhibit and his talent in the art line should be developed.

COKE COUNTY TO VOTE ON \$100,000 BOND ISSUE

The Coke County Commissioners' Court Tuesday approved a petition presented by the voters of District No. 1, for the calling of a road bond election in that

district for \$100,000 and set the election day for November 24. If the issue carries the money will be used to improve the highway from Robert Lee to the Tom Green county line leading to San Angelo and will connect at that line with a good road.

Ballinger Trims Coleman 20 to 0

The Ballinger Bear Cats kept their standing at 1000 per cent in the Interscholastic League Wednesday by trimming the Coleman team by a count of 20 to 0. The game was one of the raggedest affairs ever witnessed here due to squabbling and protest on every decision of the officials. This was unfortunate, coming before a big crowd at the Runnels County Fair, and before many people who were viewing their first football game. The Ballinger team, however, was rearing to go at any time and our hats are off to Coach Wright who only went on the field one time during the game and that was to bandage the hand of an injured player.

Coleman elected to kick and Captain Middleton of the Bear Cats selected the south goal to defend. McKinney kicked to Ballinger's 20 yard line. The kick was gathered in by Parrish, left halfback, and behind his team mates he raced 80 yards across the Coleman goal for a touchdown in less than one minute of play. From that time on Ballinger was never in danger of defeat and only once did Coleman threaten to score. In the second quarter they advanced the ball to the Ballinger 20 yard line only to be held for downs and to let Ballinger kick the ball far back out of danger. Another sensational run by Parrish came in the first period when he intercepted a pass and ran 70 yards across the Coleman goal only to be brought back for an off-side play and penalized five yards. Parrish also carried the ball over for the second touchdown in the second period through the line. Allison kicked each goal. Wrangling and slow play occasioned by penalties caused the play to be slow after Ballinger's second touchdown until in the last half. Ballinger opened the second half with running plays and carried the ball from their 20 yard line to the Coleman 30 yard line where they lost it. At the beginning of the fourth period the Bear Cats carried the ball to the Coleman eight yard line and Captain Middleton carried it across for the final score of the game. Tell in faded to kick goal.

McKinney, Close and Forman were the outstanding stars for the Coleman team. They made many first downs on running plays and on their spread formation puzzled the Ballinger men with passes and line plunges. McKinney out-kicked Coker and Middleton all through the game for a short distance. Ballinger completed many passes for good gains with Schuman doing most of the passing. Three players were banished from the game for roughing and 19 penalties were assessed against the two teams. Ten of these were for off-side plays.

The starting line-up was as follows:

Ballinger	Position	Coleman
Wilson	LE	Roberts
Robinson	LT	Edens
Chastain	LG	Stoup
Allison	C	Chauteau
Coker	RG	Brooks
G. Smith	RT	Prater
E. Smith	RE	Snodgrass(c)
Wheeler	QB	Case
Shuman	RH	McKinney
Parrish	LH	Lee
Middleton (c)	FB	Forman

REV. J. S. TIERCE NAMED CO-CHAIRMAN FOR BAYLOR UNIVERSITY FUNDS DRIVE

WACO, Oct. 11.—Further assurance that the Baptists of Texas and Baylor University alumni will reach the \$2,000,000 goal sought in the Greater Baylor state-wide campaign has reached the state office here with the acceptance of a large number of county chairmen who will cooperate with city, association and district chairmen to promote the drive.

Retirement of Baylor's indebtedness and creating of additional endowment will be effected when the campaign succeeds. Raising the \$2,000,000 really means an aggregate of \$4,300,000 for Baylor, with promised gifts of \$1,000,000 from Dallas and Waco for new buildings, and \$300,000 promised by the General Education Board when the school's endowment is increased.

Rev. J. S. Tierce of Ballinger, has accepted the chairmanship of Runnels county in District No. 1 and has already begun activities toward promoting the campaign in that section. His church chairmen will be announced soon.

Every step of the work now leads toward the launching of the popular campaign from Nov. 23 to Dec. 4. On the Sunday preceding, "Baylor Sunday" will be observed at every Baptist church in Texas before the great campaign begins.

Mr. and Mrs. L. R. Tigner are enjoying a new Pontiac six, which they purchased Wednesday from Ballinger Auto Company.

Likes And Dislikes
Dislike of something old is easier than the discovery of something new.—The American Magazine.

Nothing Gets By the Youngsters These Days

—they are cruelly critical, and unfortunate is the child who is shunned by his playmates because he is lacking in some respect which they think is important.

That's one of the terrible things about HOLLISOLIS (scientific name for neglected shoes). It develops rapidly on children's feet and the child may be entirely unconscious of it. But not so his playmates! And even his best friends won't tell him about it.

HOLLISOLIS can be readily checked by a shoe rebuilder and it is up to mothers to watch for the first signs of this disease and have it repaired before it causes embarrassment to their youngsters.

SMITH'S WELFARE PROGRAM APPEALS TO WOMEN, SAYS MRS. MORGENTHAU

Governor Alfred E. Smith's platform has a particular appeal to women because it deals with problems which lie "close to the hearts of women," says Mrs. Henry Morgenthau, Jr., prominent party leader. Comparing the party platforms point by point, she declares:

"Three problems lying close to the hearts of women, stressed by the League of Women Voters, relate to social welfare. The Democrats stand for the protection of children. They favor adequate appropriations for the Women's and Children's Bureaus and they demand equal wages for equal service. These matters are not mentioned in the Republican platform. The Democrats favor labor laws protecting women, and, on this subject also, the Republicans are silent. The program of the League of Women Voters was given far more sympathetic consideration at Houston than at Kansas City. "Prohibition is an issue that cuts across both parties. The planks

in the two platforms differ little, if at all. Governor Smith has made this statement: "So long as the Volstead Act is on the statute books, it will be enforced to the best of my ability."

"Other matters covered by the party platforms are of great concern to the women of the country. These relate to the financial problems of households—to family budgets. Much has been said and will be said about the prosperity of the country. Not enough has been said about the prosperity of individuals. The fact of the matter is that there are now more than three million unemployed. The Democrats pledge themselves to study this important problem in order to develop a scientific plan whereby in periods of unemployment, the federal government can take measures to relieve this stringency.

"The Democrats promise also that when taxes are next revised they will be revised from the standpoint of the small taxpayer rather than the large taxpayer. Rates will take care of the small busi-

ness as well as the large.

"Governor Smith's brilliant record during his four terms as Governor of the state of New York has always appealed to the women of the country, irrespective of party. The Democratic platform promises businesslike reorganization for all departments of the government.

"From an administrative position second only to the position as chief executive of our nation, Alfred E. Smith emerges as a man of great ability, one who, in the words of Colonel House, 'Knows more about government than any other man in America.'

RICH MURAL PAINTINGS OF THIRTEENTH CENTURY FOUND IN OLD CHURCH

(By International News Service)
MUNICH, Oct. 11.—Work of restoration on the Cloister Church on the Island of Frauenworth in the Chiemsee has brought to light mural paintings right and left from the altar which dates from the beginning of the thirteenth

century, when this part of the church was built.

The paintings, which represent symbols of the early Christian church, are comparatively well preserved, the colors being still fairly bright and the drawing clearly discernible.

Most of the mural decorations from the Roman period were destroyed when the church was rebuilt a few hundred years later. Parts of these have also been found, but they are so damaged that the original themes can not be made out.

VOICE OF THE PEOPLE

The time is near at hand when the people of the nation will express at the ballot box their approval or disapproval of its public servants and national policy.

When the public speaks it always is portentous, significant and consequential. Whether the verdict applies to national politics a public utility, a private business or an individual. It is an incontrovertible force in which judgment the victor or the victim must abide.

The public demands, and is entitled to service—good service and constructive service—no other kind will develop confidence and trust or perpetuate loyalty and patronage.

This sort of service forms one of the basic principles upon which the West Texas Utilities Company is founded. It is with pride that we point to the thousands of satisfied customers who stand loyal and steadfast. We like to believe that it is a commentary to our unswerving efforts that our industry continues to grow and thrive in such gratifying proportions.

VARICOSE VEINS REDUCED Or Money Back

Simple Home Treatment That Is Giving Amazing Results

If you have varicose veins or bunches you can start today to bring them back to normal size, and if you are wise you will do so.

Just get an original bottle of Moone's Emerald Oil at any dispensing pharmacist and apply it night and morning to the enlarged veins. It is very powerful and penetrating.

After a few days' treatment the veins will begin to grow smaller and by regular use will soon reduce to normal.

People who want to reduce varicose veins, or get rid of eczema, rashes, or piles in a few days should not hesitate to get a bottle at once. It is such a powerful, penetrating antiseptic oil that a small bottle lasts a long time. Any pharmacy can supply you. John A. Weeks sells lots of it.

WINTERS PEP SQUAD ROOTS FOR BALLINGER

The Winters pep squad dressed in the costumes of blue and white, arrived in Ballinger Wednesday afternoon just before the Ballinger-Coleman game and marched to the Ballinger side line and worked hard to cheer Ballinger on to victory. This co-operation between these two schools in Runnels county shows a good spirit of friendship and Wednesday much comment was heard on the side line at the presence of the Winters squad.

Friday the Ballinger squad will return the compliment when the local squad of ninety will line up and help support the Blizzards in their game against the Santa Anna eleven.

BARE LEGS OF GIRLS WIN OVER PROPRIETIES ON THE GROUND OF HEALTH

(By International News Service) VIENNA, Oct. 11.—Bare legs of young girls won a victory against the proprietries of old-fashioned professors, when the Superintendent of Viennese Schools decided that "while it can not be proved that bare legs are immoral, it cannot be disproved that this fashion is a most healthy one."

The bare-legs-fashion, which came into vogue this summer reached its climax during the last hot days of the season, which were at the same time the first school days of the coming season.

Many high school girls, appearing in school without their stockings met with severe disapproval of their professors, especially the women professors.

The matter came before the superintendent, who decided in favor of bare legs. The judgment was received with much satisfaction by the Viennese youth, but it has also caused severe affliction among hosiery manufacturers.

Mrs. Douglas' Sunday school class of the Methodist church will sell home-made cakes, pies and candies Saturday, October 13, at Piggly Wiggly. 8-55d

South Carolina Has Good Roads

NASHVILLE, Oct. 11.—By the end of the present year, 1,307 miles or about 40 per cent of the designated hard surfaced system of state highways in South Carolina will have been completed, according to C. E. Jones, chairman of the South Carolina Highway Commission, who in a radio address here last night told something of the history of road legislation in the Palmetto state, gave a brief glimpse into the workings of the "Pay as You Go" road act of 1924 and declared that, with the continued cooperation of the government of the state "there shall be completed at the earliest possible date a connected, dependable, all-year-around system of highways and permanent bridges of which South Carolinians may justly be proud!"

The estimated cost of the designated South Carolina highway system is in excess of \$100,000,000, Chairman Jones said, and by the end of 1928 nearly \$50,000,000 of this road bed investment will have been expended.

If the motor vehicle revenues continue to increase through 1928 only five per cent annually and remain constant thereafter, the highway system can be completed by 1932 and paid for, principal and interest, by 1953 without resorting to property taxes and exclusive of all federal aid funds. The anticipation of a five per cent increase in motor vehicle revenues appears an ultra-conservative estimate. Chairman Jones said, in that the registration of motor vehicles in the state in 1927 increased 10.5 per cent over 1926 as compared with an average of 5.1 per cent for all of the states of the American Union. From 130,000 motor vehicles registered in 1923, the registration in 1927 jumped to 200,000 or 53.6 per cent in the four year period.

As to good roads legislation in the state, Chairman Jones said that in 1924 the "Pay-as-You-Go" roads act was passed under which a motor vehicle license was collected and in which a statewide highway system was designated. A tax of three cents per gallon and federal aid allotments were

WORRIED A LOT

Rua-Down, Nervous, Appetite Gone, Lady Shows Great Improvement After Using Cardui.

Waterloo, S. C.—"I took Cardui at intervals for three years, and have been in good health since last fall," says Mrs. Noble J. Hayes, who lives near here. "My improvement after taking a course of this medicine was really remarkable."

"I am much stronger and can accomplish so much more work now. My weight increased twenty pounds, and my color is fresh and good."

"For a long time I had been feeling poorly. Some days I dragged around the house and had not enough energy to do my housework."

"I worried a lot about myself. I did not seem like myself, and my nerves were all on edge. I did not sleep well, and my appetite left me."

"I found Cardui to be an excellent tonic. After I had taken it a few weeks, I began to pick up and to gain in weight and strength."

"Now I am in fine health. I have recommended Cardui to many of my friends, and shall continue to do so."

For over 50 years, Cardui has been used with success and recommended by thousands of women for weakness and similar ailments.

Try it for your troubles! At all drug stores. NC-192

pledged to the construction and maintenance of the system. By amendment to the road act, the gasoline tax was raised to five cents per gallon, three fifths of which is available to the highway department and two fifths to the counties of the state. In 1926, the General Reimbursement Act was approved which permits road authorities of any county to enter into a reimbursement agreement with the state highway department providing for the construction of the state highway system in any particular county. As construed by the state supreme court, Chairman Jones said, this act permits a county to furnish funds for the building of roads within its borders and then to be repaid annually in the same amount the highway department would have expended in the orderly process of its road construction program. Such action on the part of counties, accelerates the construction of highways in marked degree.

The highway system, as of January 1928, comprises 5,591 miles, of which 3,326 have been constructed of earth and gravel type, with 98 miles under contract; 511 miles had been completed of standard hard surface with 443 miles under contract; 228 miles had been constructed with a semi-hard surface treatment, which means that a total of 4,606 miles of earth, gravel, surface treated and standard paved roads were completed or under contract on the first of the year 1928.

South Carolina Chairman Jones said, is a small state comprising only 30,989 square miles, yet its highway construction progress is unequalled by that of any state in the Southeast and if respective areas and revenues are considered is far beyond that being undertaken by any other state in the Union.

\$500 Reward for Cattle Thieves

Mr. D. E. Sims of Paint Rock was in Ballinger Thursday and called at The Ledger office to have an ad run in regard to people killing, stealing and mishandling his cattle. The ad will be found in The Banner-Ledger this week.

Mr. Sims stated that he had always tried to keep his place open so that people could go to the river and enjoy fishing and camping, and said that he hoped he would be able to do this as long as he lived, but that unless he could get some relief from the way his stock was being handled he would be forced to fence his place and put it under lock and key and allow no one to enter.

"Ninety-eight per cent of the people are square and do not hurt

anything, but the other 2 per cent are so rotten that it looks like I will have to do something." Mr. Sims stated. Mr. Sims pointed out that most of the places on the river were closed and that he realized lots of people did not have the time or money to go far from home for an outing and for that reason he hoped to be able to keep his place open to the public.

FIT-U-WELL STYLE SHOP IS NAME GIVEN NEW STORE

The new ready-to-wear and dressmaking shop opened last Saturday by Mmes. J. L. Gill and T. J. Forgey, has chosen for a name Fit-U-Well Style Shop, and Miss Marguerite Truly was awarded the prize, the making of a silk dress free of charge.

These ladies have been identified with Ballinger business firms for several years, and while not new to the ladies of the town, their

style shop is new. They carry a full line of ladies ready-to-wear and millinery and do sewing for the public. The location is in the Lynn building, opposite Pearce Drug Store.

NOTICE

My bolle machine and all cleaners have been drained out and are ready for this season.—Mrs. W. E. Haggey 8-6d-w1

Tom Caudle of Coleman was in Ballinger Wednesday to witness the downfall of the Coleman Colts. Tom, until he moved to Coleman, was one of Ballinger's best football enthusiasts.

L. Afferbach and his sister, Mrs. Emily Pape, left Wednesday for San Antonio, where they will be at the bedside of their brother, who is in a very serious condition in the Santa Rosa Hospital.

'FEED BACK' IN RADIO GETS IN SUPREME COURT

By William S. Neal
International News Service Staff
Correspondent

WASHINGTON, Oct. 9.—Both the honor of one of the greatest inventions of radio and millions of dollars are involved in two cases which the United States Supreme Court will bear and undertake to decide in the near future.

Involved in the case are four of the most noted inventors of the world and the greatest business organizations engaged in radio manufacturing, as well as the United States government.

Couched in technical phrases of both science and law in the hundreds of pages which make up the record of the cases before the court, is told conflicting stories of how inventors developed the "feed back circuit," declared to be the basic invention of all modern radio.

On one point there is apparent agreement—that the great invention resulted from a desire to eliminate the nuisance of singing telephone wires and that its discovery was in part an accident.

Radio Inventions
While discussion of modern radio generally dates back only a few years to the time when broadcasting became popular, the inventions go back to periods from 1912 to 1914 when scientists were busily engaged in solving the problems which make modern radio possible.

In one case before the high court the Third Circuit Court found that Dr. Edwin H. Armstrong, whose radio discoveries began while he was an amateur wireless operator at his home in Yonkers, N. Y., and a student at Columbia University, was the inventor of the "feed back circuit." The Circuit Court of Appeals of the District of Columbia held that Dr. Lee DeForest was the inventor. Inventions of Irving Langmuir of the General Electric company and Dr. Alexander Meissner, whose claims belong to the United States government, are involved.

The Westinghouse Electric company became owner of Armstrong's patents while DeForest's patents were transferred to the DeForest Radio and Telephone company, with the American Telephone and Telegraph company having part interest. The General Electric and the federal government are made respondents also in the appeal of the Westinghouse company and Armstrong.

The "feed back" invention itself apparently was based upon the vacuum tube conceived by Thomas Edison, adapted to radio by Fleming, an English inventor, and improved into the audion by De

Forest. These inventions, as described in court papers, were for the purpose of gathering in radio waves and converting them into frequency vibrations which would be audible to the human ear. The audion consisted of a vacuum tube with wires and a metal plate.

Singing Wires
Dr. DeForest is said to have conceived the idea in 1912 of using the audion on a telephone line to get rid of the singing of wires which had long puzzled scientists, and was successful. Armstrong claims at the same time to have been working with the audion and perfecting the device which revolutionized radio, although, according to the statement of his attorneys, he did not know that he was doing so at the time.

Four patents were sought, by Langmuir in October, 1913; Armstrong in August, 1913; Meissner in March, 1914, and DeForest in March, 1914. All, however, claimed prior dates for the discovery, DeForest claiming that his discovery went back to 1912 when he was taking the "sing" out of telephone wires.

All claimed the same results for the "feed back" circuits—that it would amplify radio currents many times by "feeding back" and would produce radio frequency currents at exactly the wave length wanted.

DOGS ON DISPLAY
Attracting attention of the children are two litters of puppies at the fair grounds. Not before have dogs been placed on display and no premiums are offered, but there is one Collie with a litter of pups and one Spitz, located near the poultry sheds.

Thus gaining the idea, the fair association might open a new department next year. There are, in this and surrounding counties many dogs of high breeding, which if placed on exhibition would attract wide interest.

COLEMAN PEP SQUAD SHOWS SCHOOL SPIRIT

The Coleman pep squad, dressed in blue and white and carrying canes with blue and white Coleman pennants on them, stormed the town Wednesday afternoon, coming to attend the fair and support their team. The squad was under the leadership of Miss Peggy Gross and she was assisted by Miss Daisy Hines and Chas. Smith. The teacher in charge of the squad was Miss Pauline Mogford.

Between halves the squad marched upon the field and gave a few stunts which drew big applause from the crowd witnessing the game.

Just before the game the Ballinger pep squad leaders crossed the field and presented the Coleman leader with a large bouquet of roses.

Robert Lee Football Team Witnesses First Game Here

Coach O. L. Taylor of Robert Lee High School, was here yesterday with 15 members of his football team, and 14 of the men witnessed the first football game of their lifetime. Only one man of the 15 had ever witnessed a football game, and it so happened that Ballinger and Coleman should furnish the first play for the boys.

The personnel of the visiting squad was: Woodrow Gardner, Roy Denman, Boyd Smith, Reagan Dan-

iel, Chas. Daniel, Winfred Baze, Troy Casey, Wilson Brylin, Frank Allen, Ford Shrapshire, James W. Clift, and Thurman Babb, were among the men who made the trip. C. E. Eaton of the faculty of the high school was also present. Winfred Baze was the only member of the football squad who had ever witnessed a football game. Many of the boys also visited a fair for their first time and expressed much bewilderment at the vast showing here.

RICKARD WILL OPEN DOG RACING IN NEAR FUTURE ON A NEW MIAMI TRACK

(By International News Service)
MIAMI, Fla., Oct. 11.—Tex Rickard is taking a flyer in greyhound racing at Miami this winter, according to George R. K. Carter, local business associate who is proceeding with plans to construct a dog track and exclusive club house on south Miami Beach.

The track will be started shortly and completed before January 15. Tex is expected here to supervise operations about the middle of October.

Mr. Carter, after a long distance call to Rickard said that Rickard would depend on gate admissions as the only source of revenue since the state prohibits the use of pari-mutuel wagering. Carter said he was certain that Rickard does not plan to desert the fight promoting business merely because of the new adventure but would devote his attention this winter to the track.

Greyhound racing under this plan in Miami was not a success last winter. In 1926 three large tracks operated in the Miami district and great crowds thronged the grandstands nightly. When there was agitation for the abolition of racing a little more than a year ago, the dog tracks attempted to operate without the pari-mutuels and thin crowds compelled them to close.

Later in the year "coursing races" were introduced, having had successful introduction in Kansas and Arkansas, but Miamians and the thousands of winter visitors would not pay to see scores of rabbits slaughtered nightly and the blaze of glory which attended the opening died down to a faint flicker when the "coursing races" closed in a storm of protest from humane agencies.

The track which will be under Tex Rickard's guidance will use mechanical rabbits.

Be wise and advertise.

Will You HELP?

Fire is the greatest criminal in all history. He kills, burns and destroys without mercy. He blots out thousands of lives and hundreds of millions of dollars worth of property each year.

Will you help capture this criminal—tie him—bind him—run him out of town? This is Fire Prevention Week. Now is the time for all of us to band together for the protection of our homes, our places of business, and the lives of our families.

Salem, Oregon, was second; Frankford, Penn., was third and South Pasadena, Calif., fourth.

LONDON SCHOOLGIRL MAY GET LAWN TENNIS CROWN OF SUZANNE AND HELEN

(By International News Service)
LONDON, Oct. 11.—Is Miss Catherine Smith, 17-year-old London schoolgirl, British lawn tennis expert discovered a coming Suzanne Lenglen and Helen Wills.

Daughter of the world's great forehand hitter—the famous Englishman, S. H. Smith—Miss Catherine is declared by the critics to have inherited her father's immensely powerful forehand drive.

She is a pretty blond, standing nearly 5 feet, 9 inches, and appears to be physically ideal for strenuous tennis. Her fast kicking forehand drive is likened to that of Helen Wills, while her sprinting powers are compared favorably with those of Mlle. Lenglen.

In her first appearance on any court she was defeated by Miss P. G. Brazier, the junior champion of the South of England, after a magnificent game.

Her father plans to give her an intensive course of training, with the ultimate objective of letting her compete at the Wimbledon Championships when she is older.

Marrs Favored Demo Ticket

(By International News Service)
AUSTIN, Oct. 11.—S. M. N. Marrs, state superintendent of public instruction, declared today that he helped draft a statement released by Attorney General Claude Pollard last Tuesday, urging the support of the democratic ticket.

RADIUM IS TO REPLACE SURGEON'S KNIFE IN OPERATIONS FOR GOITRE

By O. D. Tolischus
(International News Service Staff Correspondent)

BERLIN, Oct. 11.—A new achievement of medical science which replaces the knife with radium rays in the treatment of Basedow's disease and certain malignant kinds of goitre was revealed by Professor Fritz Gudzent, of the University of Berlin, at the recent Congress of Physicians and Scientists at Hamburg.

Basedow's disease is a dangerous swelling of the thyroid gland which heretofore could be cured only by an operation that involved serious danger to the patient's life.

A 24-hour application of radium rays proved sufficient in most cases, Professor Gudzent said. In advanced cases the application of the rays was repeated once, at the most twice, at intervals of a few months.

The cure came then gradually. No harmful after-effects could be discovered in any case.

Professor Gudzent is scheduled to visit the Mayo Hospital at Rochester next Spring as representative of German medical associations to study the Mayo cure of rheumatism through the extraction of teeth.

"We have been unable to effect any such cures in Germany," Professor Gudzent said, "that's why we believe there must be more to that cure than the mere removal of teeth."
