HICKMAN GOES TO DEATH CALMLY

No More Designations Says Highway Board

(By International News Service)
 AUSTIN, Oct. 19.—No further applications for designating highways will be considered by the State Highway Commission, until further announcement, it was announced today.

The statement was of an order passed by the commission setting out that "this action is being taken because of the large mileage already on the system and the fact that the future income of the department has not yet been fixed. It is believed that the best interests of the state require that the funds on hand and definitely in prospect be used on the system already laid out. This is not intended to prevent applications being filed with the state highway engineer for designations but any future applications will not be acted upon until the commission feels that funds in prospect will warrant the addition of mileage."

The action taken has been expected for some time, and more than once Commissioner Cone Johnson in open session has declared that while applications of this kind were being considered, that such action ought to be taken at once. The reduction of the gasoline tax to two cents on September 1 seriously cut into the department's revenue.

Work is Started On Highway 30

Actual work on the building of Highway No. 20 started Thursday when a crew of four men started to work on the north end of the road leading from Ballinger to the precinct line two miles north of Hatchel. State Engineers Garrett and Winters, with Owen Powell and J. P. Rhuman, started a survey of the road Thursday and will continue until all the plans are ready to submit to contractors for bids on the construction.

State Appraising All Toll Bridges

(By International News Service)
 AUSTIN, Oct. 19.—The State Highway Commission has directed Gib Gilchrist, highway engineer, to make an appraisal of the toll bridges across the Red River connecting Texas and Oklahoma, with a view of getting together with Oklahoma authorities for the purpose of purchasing them.

Engineer Gilchrist was authorized to make a complete appraisal of the bridges, fixing the replacement values. The bridges are on state highways.

The Oklahoma highway department was requested to join in the appraisal in order that the values may be concurred in by both departments.

PLUMBERS FINISH PIPING GAS INTO COURTHOUSE

Street & Evans of Winters, who have been piping the Runnels county courthouse for gas, have finished the job and Thursday afternoon County Judge Paul Trimmer was given the inspector's task, stating that the job was O. K. and the gas ready to turn on. Mr. Trimmer stated Friday that a meter would be set and that they would start trying out some stoves which the county intends to buy for the various offices.

To Investigate Royalty Deals

(By International News Service)
 WASHINGTON, Oct. 19.—Secretary of Interior Roy O. West, today ordered an investigation of all government royalty oil contracts. This action was taken following an opinion by Attorney General Sargent that the contract with the Sinclair Crude Oil Purchasing company in the Salt Creek Field, negotiated by ex-Secretary of Interior Albert B. Fall and renewed by Dr. Hubert Work, now chairman of the national republican committee, was invalid and not binding upon the government.

Air Mail Pilot Is Found Dead

(By International News Service)
 CLARION, Penn., Oct. 19.—The body of William C. Hopson, Cleveland air mail pilot, was found in the wreckage of his burned plane near Polk, six miles southwest of Franklyn, Penn., at 7 o'clock this morning, according to word received here. He apparently lost his way in a fog yesterday and crashed.

McDonald is 36 Hours Overdue

(By International News Service)
 CROYDON, England, Oct. 19.—That Commander H. C. McDonald has joined that ghostly esca-drille of those who have yielded up their lives in attempts to span the Atlantic Ocean by airplane, was the belief forced upon Croydon Airdrome and air ministry officials today.

McDonald has been missing for 34 hours now, whereas his plane was only fueled for 24 hours. He is approximately 36 hours over-due here now.

NEW CITIZENS

J. C. Warren and wife, late of Paint Rock, but formerly residents of Mineral Wells, have come to Ballinger to make their home. Mr. Warren has been appointed local agent for the Sims Oil Co. here, succeeding Ollie Hamilton, resigned.

Mrs. Speer and Mrs. Howell visited in Winters Thursday.

ATTENTION ROYAL ARCH MASONS

There will be a school of instruction in the chapter degrees each night this week. All Royal Arch Masons are urged to attend. J. M. MCGREGOR, Sec'y.

Zeppelin Will Return Oct. 27

(By International News Service)
 WASHINGTON, Oct. 19.—Dr. Hugo Eckener and officers of the Graf Zeppelin came here today to receive from President Coolidge and high government officials the hon-

ors and plaudits of the nation for the epochal transatlantic flight. Included among the welcomers was Herbert Hoover, republican presidential nominee. Under the present plans the zeppelin will return to Germany on October 27. Eckener announced. A large number of applications have been received from people who desire to be included in the passenger list on the return trip, he said.

Dollar Days in Ballinger to Attract Many Shoppers

When the stores of this city open their doors on Saturday and Monday, it will doubtless be to hundreds of waiting customers, because of the fact that the prices quoted on items listed for the city-wide Dollar Day sales endeavor are such as to warrant a ready response. So impressed with the response for unity of effort, has been chamber of commerce officials that plans are now in the making for a trades week, in which every store in the city will be asked to join, and in this way feature something special for each day during a whole week.

The buying public can avail itself of many bargains which represent items of worth, two, three and even five times the price asked.

Not in several years have such substantial savings been offered, nor such unity of effort demonstrated, and this is only the beginning, for there will be and must be many similar events in the future, because of the peculiar condition that exists just now. Ballinger must extend her trade relations, the merchants must sell more goods to survive, the buying public demands popular prices and the only means of meeting these conditions is to act in unison in putting the wares of the Ballinger merchants before the buying

public in such a way that the desire to possess them is irresistible.

The merchants who have lined up for Saturday's and Monday's Dollar Day are listed below and we urge that you read their ads avail yourself of the wonderful opportunity offered:

- Higginbotham Bros., featuring dry goods, furniture and hardware.
- Helpy-Selfy, grocery and market.
- Jeanes Co., grocery and market.
- The Hub, dry goods and ready-to-wear.
- The Ivory, variety goods.
- "M" System, grocery and market.
- Stone's, dry goods and ready-to-wear.
- D. E. Moody Music House, musical accessories.
- Hall Hardware Co., general hardware.
- Healer Chevrolet Co., automobile accessories.
- Piggly Wiggly, grocery and market.
- City Grocery, grocery and market.
- Currie Produce Co., poultry specialties.
- Bettis & Sturges, ladies' ready-to-wear and dry goods.
- Fit-U-Well Style Shop, ladies' ready-to-wear.
- West Texas Utilities Co., electrical appliances.
- Ballinger Floral Co., floral designs and pot plants.

(By International News Service)
 SAN QUENTIN PRISON, Oct. 19.—Grimly cool to the threshold of eternity and buoyed up by religious ecstasy, William Edward Hickman, 21, today paid with his life for the brutal murder of twelve-year-old Marion Parker in Los Angeles.

He mounted the scaffold with a firm tread, studiously avoiding the gaze of more than two hundred spectators. The trap was sprung at 10:10 and he was pronounced dead at 10:25.

Twenty-two seconds after he entered the death cell with Warden James Holohan and Father William Fleming, the fatal trap was sprung.

Detective Dick Lucas, veteran Los Angeles policeman, who obtained Hickman's confession after the horrible crime, fainted immediately after the execution.

KANSAS CITY, Oct. 19.—Somewhere in the country safeguarded from interviewers, Mrs. Eva Hickman, mother of William Edward Hickman, spent today without detail of the hanging of her son, which was scheduled for 10 o'clock this morning, Pacific Coast time, at San Quentin penitentiary. She will not know the details of the last hours of her son's life for perhaps two days.

Captain Charles Edwards, former chief of police of Kansas City, is with her and other members of her family.

SAN QUENTIN PRISON, Calif., Oct. 19.—Consoled alternately by the Bible and a phonograph, through the long, restless night, William Edward Hickman, "The Fox," condemned slayer of little Marion Parker, 12 years old, of Los Angeles, calmly faced death on the gallows at 10 o'clock this morning. He retired at 8:30 o'clock last night but restlessly tossed until 3 o'clock this morning when he arose and played "Ave Maria" by Schumann Heink, and "In a Monastery Garden."

Father William Fleming, pastor of the San Rafael church, arrived shortly after 7:30 to spend the last few hours with the doomed man. Hickman greeted him cordially.

Meanwhile the prison guards tested the rope by which the slayer must die.

Hickman made his last confession and received the holy communion at 8:30 o'clock after which he ate a hearty breakfast.

LOS ANGELES, Calif., Oct. 19.—The crime for which William Edward Hickman went to his death on the gallows—the murder of 12-year-old Marion Parker, Los Angeles girl—is said by Los Angeles police to have been the most brutal in the history of the city.

Going to the school where Marion was a student, Hickman told her teachers that her father had

been injured and that he was to take her to him.

Soon afterwards he began telephoning and sending telegrams to Perry M. Parker, warning the father that Marion would be killed unless he ransomed her for \$1500.

The girl was kidnaped on Dec. 15, 1927. Two days later Hickman kept an appointment with Parker, took \$1500 in marked money from him, drove his automobile along the street for a block and then hurled a package from the car. It contained the torso of the kidnaped girl.

On Dec. 17, other packages were found in Elysian Park. They contained the dismembered portions of the child's body.

Hickman then began his flight northward. He sped along the coast and finally reached Seattle, where the first definite trace of him was found, when he passed one of the marked bills. Hickman then doubled back to Oregon. He was captured near Pendleton on December 22.

In the Pendleton jail he confessed that he kidnaped the Parker girl but insisted that she had been killed by an accomplice.

Four days later, while en route to Los Angeles, he confessed that he alone killed the Parker girl, dismembering her body in his Los Angeles apartment.

Hickman began his prolonged legal battle to save his life on Jan. 25, 1928. His chief counsel was Jerome Walsh, youthful Kansas City attorney. Hickman entered pleas of "not guilty" and "not guilty by reason of insanity."

On February 9 he was found to be "sane and guilty," and five days later he was sentenced to be hanged on April 27. He was granted a stay of execution while the Supreme Court of the State of California reviewed his case. The court denied his appeal and he was re-sentenced to be hanged on August 9. The date of the execution was set for October 19.

BRITAIN TO CURB RECKLESS DRIVING BY DRASTIC LAWS
 (By International News Service)
 LONDON, Oct. 19.—Bad driving and the influx of cheap cars have brought about so many accidents in Britain recently, that a bill is to be presented to Parliament making it illegal for anybody to drive a power-operated vehicle unless declared physically fit by a doctor, and holding a certificate showing that a rigorous driving test has been passed.
 The big automobile associations consider that such a law would automatically put an end to the menace of the driver suffering from heart trouble who buys a car one day, learns to drive in a few hours—a frequent occurrence in Britain—and has a serious accident the first time he takes it out on the road.
 There was a recent case in a

London magistrate's court where it was shown that a driver, summoned for dangerous driving, had several epileptic fits within a couple of days of his driving license being granted. Another motorist, aged 76, brought to court for driving dangerously, was stated to be paralyzed in both legs. In attempting to apply his footbrake he put his foot on the accelerator.
 "In England today a man can buy a car and take it out although he might be a public peril behind a pushcart," says an official of the Royal Automobile Club. "In London alone we examine about 70 would-be drivers every week who apply for our driving license, but of these scarcely 40 per cent fail to pass the test. Yet they continue to drive to the danger of the community."

LONDON HEALTH SOCIETY HAS SCHOOL FOR LOVERS WHO PLAN TO MARRY
 LONDON, Oct. 9.—Now comes the school for lovers.
 The New Health Society of Lon-

don has inaugurated for young men and women who contemplate marriage the object of the education being the lessening of the difficulties of wedded life.
 "We hope," an official of the society said, "that by means of these courses young people may learn the difficulties of marriage and parenthood, and that they may also prevent youngsters from rushing into impossible alliances."
 "Too few couples learn in time whether they are suited, and half the ruined marriages of today are caused by ignorance on the part of both husband and wife before marriage."
 T. L. Kimmel, proprietor of the Electric Hatcheries at Hockley, has doubled the capacity of his incubators this year and will handle 15,000 more eggs. This is one instance of the increasing interest in poultry in the town.
 Ballinger Floral Co. has some Dollar Day Specials—see them.

District court will convene in Ballinger next Monday at 1 o'clock. District Judge Woodward will deliver the charge to the grand jury and that body will be busy here all next week looking into cases that have been held over to await their action.

Many towns around Ballinger are planning for a big Armistice Day program on Monday following Armistice, which falls this year on Sunday. Some of the places are observing Saturday and Sunday with fitting celebrations. Ballinger has made no announcement as to what will be done here and no program will be announced at the present. It is understood that quite a delegation will go to Brady to attend the Turkey Trot and accompany the football team on Monday, November 12.

WE NEED A FEDERAL BUILDING

There is quite a lot of agitation here now for some concentrated effort towards getting a federal building for Ballinger. The local postoffice has made a remarkable showing for the past four years in receipts and it is understood here that money will be available next year for the erection of federal buildings in a number of Texas towns. It would be a good thing for Ballinger and there was never a time when Ballinger had a better chance than at the present time to secure such an addition to her assets. It is believed that Congressman Thomas L. Blanton will feel friendly towards the proposition. The newly elected Congressman, Col. R. Q. Lee, is a friend to this city and knows our growth and needs, and friends of Senator Tom Connally believe that he would assist in the matter. If anything is done at this time it will take organized effort and should be started at once.

CUR GIGANTIC HIGHWAY PROGRAM

America's road building program this year involves an expenditure of \$11 for every man, woman and child in the country. It is expected to reach the tremendous total of \$1,360,025,776. Widening of old roads is an important feature, particularly the addition of shoulders on paved highways.

According to the American Automobile Association, this means

"Borah to Trail Gov. Smith Through the South"—Report By Bressler

that at the end of 1923 we will have more than 600,000 miles of surfaced highways. The federal aid system, consisting of 145,000 miles of important interstate trunk lines, will be about two-thirds completed.

Our highways are the arteries that give life to the nation. They take more money than almost any other item in the budget, and they pay it back more rapidly in social and industrial progress.

STUDIES IN GOVERNMENT TO BE PUSHED AT YALE

(By International News Service)

NEW HAVEN, Conn., Oct. 19.—Studies in the field of government are to be pushed at Yale University under the Eugene Meyer, Jr., public service fund and the newly announced Alfred Cowles Foundation for which Yale has received \$350,000 from the children of the late Alfred Cowles, one of the owners of the Chicago Tribune.

Mr. and Mrs. Philip B. Stewart, of Santa Barbara, Calif., Mr. and Mrs. W. Dam H. Cowles, of Spokane, Wash., and Alfred Cowles, of Chicago, are the donors. William H. Cowles graduated at Yale in 1887 and Alfred in 1886. Mrs. Stewart is their sister. Their father died in 1889.

Ballinger People Hear Sousa's Band

Ballinger was well represented in Abilene Thursday night at the concert given by Sousa's Band at the Simmons University auditorium. The band was brought to Abilene under the auspices of the Cowboy Band of Simmons University, and was the first of four big attractions that will play there this year. The remaining three which will appear during the remainder of the year are Paul Whiteman and his orchestra, Will Rogers and John McCormick, the famous Irish tenor.

Those who heard Sousa's concert pronounced it wonderful and some stated that they had never heard a band until Thursday night.

Among those present from here were: J. B. Pace, M. J. Weaver, Miss Hazel Hamilton, Mr. and Mrs. W. L. Brown, Mrs. J. G. Douglass, Mrs. Jess Jones, Nan Nell Jones, Mrs. Max Russell, J. T. Preston, Mr. and Mrs. M. L. Taylor, Mr. and Mrs. Garrett Daugherty, Mr. and Mrs. E. M. Lynn, Miss Frances Trail, James Baskin, Mr. and Mrs. R. M. McMillan, Mrs. Jack McGregor, Mrs. Ellie Saunders, Wix Currie and Chas. Willingham. There were perhaps others from here who heard the concert and whose names we were unable to get.

Be sure to call on Ballinger Floral Co. Dollar Day. 19-1td.

DRY BELIEVES GOVERNOR TO BE BEST EXECUTIVE

"I lived in New York for 30 years," says Dr. Edward T. Devine, head of American University in Washington, D. C., "and although a Methodist, a republican and a dry I believe Governor Smith to be an able, resourceful executive, with a better grasp of affairs, of finance, administration and legislation than even Hughes or Roosevelt, though I had a great admiration for both of those men. His integrity is above suspicion and his freedom from subservience to any political or ecclesiastical authority has been abundantly demonstrated. As to prohibition I have been a life-long dry, both personally and politically, but I have no expectation that the dry laws of the nation will be relaxed during his time; and I have no fear they will remain as disgracefully unenforced as they now are."

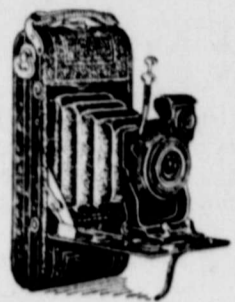

"Educators find," Dr. Devine further says, "that Alfred E. Smith is interested in education, social workers, relief and prevention of poverty, the humane care of the sick and disabled, the rational treatment of criminals, business men, and that he is sympathetically interested in prosperity and sound business methods; and all farmers will find that he is intelligently and fruitfully interested in practical measures for their relief."

ADOPTS SECRECY ON PLANES

125 New Cars Sold Since October 1st

Citizens of Runnels county have spent more than \$100,000 for 125 new automobiles since October 1st, according to estimates placed by automobile dealers on the cars sold.

Following is a list of new cars registered since October 1st at Collector W. L. Brown's office at the courthouse:

- Fords, 37.
- Chevrollets, 37.
- Whippets, 17.
- Pontiacs, 15.
- Dodges, 7.
- Chryslers, 6.
- Willys-Knight, 3.
- Nash, 1.
- Oldsmobile, 1.

This year up to date there has been registered in the county since January 1, 5,498 cars, 540 trucks and 1,641 transfers on second-hand cars.

The total for last year on cars was 5,241 and trucks 776. Already this year there has been 257 more cars registered with two and a half months to go on and these months are the best in the year for the automobile dealers.

The tax collector's office has received two tons of new numbers for 1929 but have received no receipts yet to issue. The new numbers are slightly loud in color, being made up of a black background with bright orange numerals on it. At the bottom of the number is "Texas 1929" which has not been on the numbers heretofore. The numbers sent to this county begin at 826-951 and run to 868-450.

In addition to the car sales reported above, there were many used car sales which were not tabulated or included in this report.

SIMMONS DEBARTERS TO VISIT WITH AUSTRALIANS

Simmons University of Abilene has lined an invitation to all high school debating teams to visit Simmons on October 29 and hear the debate between the Simmons debating team and the Australian team.

The Australian team has a reputation for good debating. Two of the team members are graduates of the University of Sydney, Australia, and also have their L.L.D. degrees. The other member is an undergraduate but has had much debating experience.

The teams will discuss the question: "Resolved, The Parliamentary Form of Government is Superior to the Presidential Form."

The Debate will be held at the Simmons auditorium at 8 o'clock on the evening of October 29.

G. P. Teague and parties from San Angelo will leave early Saturday for San Antonio, where they will attend a convention of General Electric refrigerator dealers.

Produce Steady; Hens, Eggs Up

The produce market shows a slight gain over the previous week, with eggs and hens leading the list. Pecans remain unchanged with the demand good. Green hides are still bringing from 6 to 8 cents.

The following prices were being paid by local firms Friday:

- Eggs per dozen, 40 cents.
- Hens (heavy) 17 cents.
- Hens (light) 14 cents.
- Fryers 23@26 cents.
- Roosters 5 cents.
- Hides 6@8 cents.
- Pecans 9@12 cents.
- Maize \$12@20.
- Oats, 55 cents.
- Cream (sour) 38 cents.
- Cream (sweet) 45 cents.

Owing to the heavy demand for eggs and milk, occasioned by the influx of extra labor incident to the gathering of the cotton crop, the planting of small grain, and the building of one pipe line through the county and the erection of two pumping stations and preparations for the building of 55 miles of paved roads and also the anticipated building program in the city as well as that already under way, makes these items scarce just now.

Also the demand for milk and butter cuts down the source of supply of the local creamery considerably, thus curtailing to a great extent the output of this institution.

Cotton Market

The prices being paid on the streets of Ballinger for cotton, Friday ranged from 18 to 18 1/2 cents. The staple was coming in at a pretty lively clip and one gin-ner stated that while a good part of the crop was gathered, that he did not believe that it was half in as yet.

One farmer had marketed only five bales and will gather in the neighborhood of 75 bales. Another had gathered only one bale and will gather 40 to 45.

PIRATES LOOT BRITISH SHIP

HONG KONG, Oct. 19.—Pirates, shipping as passengers, looted the British steamer, Anking, in the Gulf of Tonking. While the officers were at dinner, the 40 pirates rushed the bridge, killing officers on duty, after which the ship was looted of about \$40,000. The story of the attack rivals the wildest tales of the Spanish Main in cruelty and ferocity. After remaining on board for several days, the pirates cast off in Honghai Bay, a notorious lair of Chinese pirates.

Be wise and advertise.

Much Small Grain Now Being Planted

The acreage to be planted to small grain in Runnels county, from indications now apparent, will be big in comparison to former years. Seasonal rains earlier in the fall, giving promise of a good stand, has been the means of inducing many farmers to plant both oats and wheat.

It is pointed out that the small grain as a winter pasture for stock and poultry is sufficient return to justify the planting, and the possibility of receiving rains in the future which would promote growth all through the winter and the final fruiting and maturity in the spring with a fair out-turn would be the means of releasing into the channels of trade thousands of dollars.

One car of seed oats was unloaded recently by two grain dealers and has been sold for planting purposes and this one car will cover something like 1000 acres.

Other shipments will be received and there is also the local supply, farmers in some instances using their own seed. By the addition of several grain dealers and the addition also of the various towns in the county, one can readily see that, the same condition existing in each locality, the acreage to be planted to small grains would be an enormous item in the county as a whole.

It is also intimated that the percentage of home garden patches this year is unusually large and with the addition to the turnip greens will be the hog jowls which will enable the farmers, in a large sense, to live at home.

Ballinger Floral Co. has some Dollar Day Specials—see them. 19-ltd

CANADA'S POPULATION IS GROWING, FIGURES SHOW

(By International News Service) OTTAWA, Oct. 19.—Canada's population has increased by 870,000 over its last census, according to the latest statistics of the Canada government which reveal

Ontario still leading the Dominion provinces with a total population of 3,229,000.

Other figures follow: Prince Edward Island, 86,400; Nova Scotia, 647,000; New Brunswick, 415,000; Quebec, 2,647,000; Manitoba, 655,000; Saskatchewan, 851,000; Alberta, 631,900; British Columbia, Northwest Territories, 9,200.

KILLS THREE OVER COW

KINGSPORT, Tenn., Oct. 19.—Neal Smith, his wife and eldest son are the victims of a bitter mountain feud, the outgrowth of a row over a cow. Another son, wounded, escaped death by hiding in a ditch. Miller Horn, a farmer, is charged with the shooting.

"Nothing So Clearly Marks a Failure"

"That last man seemed to have just the experience and other qualifications you were looking for. Why did you pass him up?"

"I thought so, too, at first but did you see his shoes? Nothing so clearly marks a failure, and we have no time for failures!"

Many a worthy fellow goes plodding through life, little realizing the unimportant points upon which he is judged and which, unknown to him, are continually neglected.

That's one of the insidious things about HOLLISOLIS. Though it is easily corrected when recognized, even your best friends won't remind you of so personal a thing. And yet it may be an important item that stands between you and success!

ZION NATIONAL PARK IN SOUTHERN UTAH ENJOYED GOOD TOURIST SEASON

(By International News Service)
ST. GEORGE, Utah, Oct. 19.—Zion National Park, located in the central southern part of Utah, enjoyed a good tourist season during the summer of 1928, according to E. T. Scoyen, superintendent of the park.
A total of 30,616 visitors passed through the gates to the wonderland. Utah led the list of states from which the visitors came, California was second in representation, Illinois and New York running a close race for third place. Every state in the union and the

District of Columbia was represented on the register. Many foreign countries such as Australia, Bolivia, Canada, England, France, Germany, Java, South Africa and Sweden were included in the list.
Zion Park is open for campers the year round.

SAYS WIFE BEAT HIM
ATLANTIC CITY, N. J., Oct. 19.—Charles M. Berry, 64, complained in court that his wife, Eloise, 53, beat him with a horse-whip and did an Indian war dance as he lay prostrate on the floor. Berry says that they had lived together tranquilly for 40 years until his wife discovered "these new-fangled ideas of woman's freedom."

The Farmer Finds A Real Champion

Governor Smith's speech on the farm question at Omaha, has set the western prairies on fire with enthusiasm for the Democratic candidate. That in Governor Smith the farmers have at last found a champion who is jumping into the fight for agricultural justice on their side is the keynote of all unbiased comment coming from the Western states.

Governor Smith went to Omaha, to the heart of America's great farming empire, to tell the farmers that he is prepared immediately on election to take the leadership in getting the kind of agricultural legislation they have been vainly demanding from the Republicans for the past eight years. The response to this offer of friendship and action has been electric.

The people who till the soil and supply the nation with its food are now assured that if Governor Smith is elected they will see the standard of "Equality for Agriculture" hoisted in the Capitol of the White House. They are expressing their enthusiasm in no uncertain terms.

Especially telling has been the contrast drawn between Governor Smith's pledges for the farmer and Herbert Hoover's policy of evasion. Hoover's hostility to Agriculture has been well known ever since his days as war-time Food Administrator. Now as Republican candidate he is trying desperately hard to cover up his bad past record, but his heart remains the same as before, and his only plan to solve the problem of the surplus crop is to starve the farmers—until there is no more surplus.

On such cruel and unjust policies, Governor Smith has turned his back. He offers the farmer prosperity and equality through the McNary-Haugen principle and the farmers are showing that they know him now as their best friend and chief hope.

S. S. Class Meets With Mrs. Holliday

The T. E. L. Class of the Ballinger Baptist Sunday school held its monthly business and social meeting October 4th with Mrs. Geo. Holliday at her beautiful new home seven miles from town. Greeted by the hostess in her usual manner, we at once felt "at home" and entered into the business session. After the usual routine of business, consisting of devotional, led by Mrs. McClain, hearing reports from the different committees, etc., the matter of entering the contest for the efficiency banner in organized Sunday school class work was presented and discussed, resulting in a unanimous vote to enter same beginning the first Sunday in October and continuing for six months. The next phase of new business was the annual election of officers. Report of the nominating committee was

acted upon and the following officers were elected for the ensuing year:

President, Mrs. Earl Holliday.
First vice president, Mrs. W. C. McCarver.
Second vice president, Mrs. W. R. Wilkinson.
Third vice president, Mrs. L. E. Bair.

Secretary of Records, Mrs. A. F. Brock.
Assistant Secretary of Records, Mrs. C. A. Wilson.

Treasurer, Mrs. S. H. Daugherty.
After adjournment a social hour was spent and we all had the pleasure of looking through the charming, well-arranged home—a really modern bungalow—and we congratulated Mr. and Mrs. Holliday on this well deserved achievement and rejoice with them.

Fruit punch was dispensed throughout the afternoon and all left with grateful hearts for a pleasant afternoon and the gracious hospitality accorded us.

REPORTER

Livestock buying and selling is active in Lampasas. W. T. Maxwell shipped four carloads of one and two year old fat steers to St. Joseph, Mo., recently. Three cars of mixed cattle were also shipped by breeders to Fort Worth.

WELL, girls, you've helped me keep my cook," said Mrs. Foster to the assembled members of the Kitchen Club. "Martha told me the other day she was going to leave, and I asked her if she wouldn't stay through today, as you were going to come over and help me dress up my kitchen. I haven't heard a word since about her going. And she's been planning some of her own dishes for you all day. You must help me to make the kitchen pleasant, so I can keep her."

The Foster kitchen was, if the truth be told, gloomy enough to make any cook dissatisfied. And, at that, it would probably have been an average sort of kitchen, a few years ago, before women began to get their eyes open about the possibilities of kitchen decoration. Dingy walls, dingy floor, black stove, dull brown cupboards, two left-over chairs—all these in a room with the cold, harsh light of a north exposure!

Any psychologist could have told Mrs. Foster that the sunniest disposition must change to had temper in such surroundings. For color has a real and definite effect on people. Its influence for good or bad is just beginning to be realized. And we may hope that as our kitchens grow more colorful, both our cooks and ourselves will come to enjoy more greatly our stay in them.

table with white porcelain enamel top, kitchen cabinet and cupboards in gold-ten, refrigerator, white.

Color for the Cook, Too!

Mrs. Foster said she was going to one better; as she was going to beautify her cook, too, with chintz aprons in brilliant flower designs. That's a good idea, to make yourself or your cook part of the color scheme! If the kitchen is in solid colors, flowered aprons may be used. If the kitchen decorations are in large flowers or figures, plain colors will be better for the aprons. "Set" the colors in salt water before washing the aprons, and they will keep their brilliance much longer.

"Now the pot can call the kettle groan!"

Colored Pots and Pans

Mrs. Foster is planning to make the rounds of the hardware and furniture stores to find kitchen vessels that will harmonize with her new color scheme. I have seen them in the most gorgeous yellows and greens and reds and blues, as well as gray and white which will look well with any color.

New Toaster

I want a toaster like Mrs. Foster's. It's the only one I ever saw that will toast four slices of bread *simultaneously* over one burner of an oil or gas stove. It has a tray that catches all the crumbs.

Butterscotch Tarts

1 cup brown sugar
Lump of butter size of an egg
Yolks of 2 eggs
1/2 cup sweet cream
2 tablespoons flour
Teaspoon of vanilla
Cook all ingredients together until mixture thickens. Line muffin tins with pie crust. Bake crusts separately. Fill with butterscotch mixture, top with meringue made with whites of two eggs and three tablespoons of sugar. Brown meringue in slow oven.

Iced and Frosted Coffee

Martha served us the tarts with iced coffee which she made with a half-cup of coffee, a half-cup of milk and a half-cup of cream to each glass. Whipped cream on top. Frosted coffee is made in almost the same way, but has only half the amount of coffee and twice the milk with a tablespoon of ice cream beaten up in it before serving.

CUTS HIS INITIALS ON GIRL

NEW YORK, Oct. 19.—Marcellus Hawkins, otherwise "Chief Hawk" of the Seneca Indians, admitted in court that he carved his initials upon the chest of his sweetheart because she lied to him. He explained that this was a tribal custom and declared "I had no idea that I was violating any law."

If you want to buy something, ask for it through the classified column of The Daily Ledger.

TEXTILE MILLS SET IMPROVED SAFETY RECORD

(By International News Service)
NEW YORK, Oct. 19.—Safety in cotton mills has reached the point where records of operating without a single lost time accident during a month or periods of three months are not unusual declared Secretary Russell T. Fisher of the National Association of Cotton Manufacturers at the National Safety Council Congress.

"Eighteen months without a lost time accident is the mark set by New England Southern Mills at Lowell, which has 400 employees," he told the Textile Section of the congress at its meeting in the Hotel Pennsylvania.

"The Luther Manufacturing Co., Fall River, with 500 employees," he continued, "has had but one lost time accident in 810 days. The plant operated 450 days without a lost time accident, then had one and now has completed another year without a lost time accident."

Other Records

During the past several months three mills of B. B. and R. Knight, Inc., Rhode Island, have gone five months without a lost time accident, a group of five mills of the same corporation have gone three months without a lost time accident.

The Kilburn Mills with 1300 employees, at New Bedford, went three months without a lost time accident when the plant was operating previous to the strike in that city. A number of New England cotton mills average two accidents per 100 employees per year.

"An analysis of accident records of about 375,000 employees shows .0418 accidents per employee per year or 41.8 accidents per 1,000 employees per year. The severity of the accidents figured from the same source of information, that is, leading accident insurance companies, shows that the days lost per employee was .385 and the days lost per accident 21.1.

Insurance Cheaper
"An indication of the trend of accidents in the industry can be obtained from a study of the basis rates established by the State Insurance boards. In Massachusetts, for example, since the first Working Men's Compensation act was passed in 1912, the benefits provided

ed by law have been more than doubled. If there had been no decrease in the number of accidents it would be reasonable to assume that with the benefits practically doubled since the inception of the law, the rates would be doubled.

"Actually the rate today is slightly less than the rate first provided in 1912. A reasonable explanation of this fact is that accidents have decreased at such a rate that the additional cost has been more than offset by the decrease in the number and severity of the accidents."

SHELL BROS. TRAINED WILD ANIMAL CIRCUS CARRIES VARIED REPERTOIRE

Schell Bros' Trained Wild Animal Shows will exhibit in Ballinger on Saturday, October 27 rain or shine.

There is a fascination about a tented show that appeals to everybody. In our childhood days the blare of the band, the gaudily painted wagons, the animals, the funny clowns—all left an impression on the mind that has remained there since and will continue to do so as long as life lasts.

Where old age comes and a circus is billed, tottering steps are directed to the parade, or to the circus lot. There is not the delight there that came in the days of youth but there are the memories that come that count so much.

Young or old, rich or poor—all welcome the big circus. It is an American institution that is popular. The lemonade and the peanuts never taste so good as they do on the show lot. Other pleasures may become monotonous but the glamour of the tented arena never fades.

Schell Bros. Trained Wild Animal Shows is an old institution, that has pleased millions of people for many years. This year it comes to us, bigger, grander than ever. Bringing with it a galaxy of beautifully costumed male and female performers, wild and domestic animals of all species, gathered from the four corners of the world. The clowns—those merry fun-makers which we enjoyed so immensely when we were kids—yes, Schell Bros. have twenty of them headed by the premier of them all—Ole Larson.

Aerial bar, ground and novelty acts are interspersed among the many animal features that can be

seen only with Schell Bros. Trained Wild Animal Shows. Among the many European novelty acts, none surpass the wonderful performance of the marvelous Japanese Artists, and the French troupe of wire-walking artists.

MOVIES

Tom Mix Appears At Best In Late Western

Fighting a lone hand against tremendous odds, Tom Mix, in "Horseman of the Plains," which opened at the Palace Theatre this afternoon for a two-day run, gives one of the finest performances of his career.

His presence in Trigger town for the derby is the signal for the combined efforts of his enemies to rid the town of their only real competitor. The Trigger town Derby is a race in which every means of conveyance known to the West is used.

A decoy message brings Tom to an old deserted farmhouse, where he is securely trussed. A member of the gang masquerades as Tom and enters the race under his name, with the intention of throwing it at the first opportunity.

The big moment arrives. The horses are at the post. Tom takes advantage of a moment's relaxation of his guards and makes a successful break for freedom, arriving in time to enter the race.

One of the most thrilling shots in the picture is Tom's race atop a huge wagon-load of hay, which nearly catapults as he rounds each turn.

Aside from the beautiful scenery "Horseman of the Plains" is one of the most gripping Westerns ever shown on the screen. The cast is one of the finest ever assembled. Sally Blane plays opposite the star. The others include Charles Byers, Heinie Conklin, Lew Harvey, Grace Marvin and William Ryno. Benjamin Stoloff directed the picture for Fox Films.

I KILLED, 300 ARE HURT WEEKLY IN WASHINGTON'S INDUSTRIAL ACCIDENTS

(By International News Service)
WASHINGTON, Oct. 19.—The nation's capital is not an industrial center but on an average of one person loses his life and 300 suffer injuries weekly in industrial mishaps, records show.

During the two-months' enforcement of the workmen's compensation law nine persons have been killed and 2,428 injured.

the injured in addition to payment of medical or hospital care.

FLIES UPSIDE DOWN 18 MINUTES

CASSEL, Germany, Oct. 19.—Pilot Clardon, young Swiss flyer, was taken from his machine more dead than alive after setting a world's record by flying 18 minutes and 56 seconds upside down. He said that the blood pressure in his head became so severe and his legs became so cramped that only a last desperate effort enabled him to right his machine.

PSYCHOLOGY IN ATHLETICS NEW SPORT PROBLEM

By Coleman R. Griffith
 Director of Psychological Research in Athletics, University of Illinois, CHAMPAIGN-URBANA, Ill., Oct. 19.—Every athletic coach like anyone else who must handle men and train them, has to be more or less of a psychologist. The most successful coaches are probably the best psychologists. That is, they know best how to handle men and how to get the most out of them. This is an art which is wholly distinct from their skill as tacticians in the sport they coach. A man may be ever so good as tactician but wholly fail to know men, and hence fail as a coach. On the other hand, a man may know men, be a mediocre tactician, and still be a good coach.

In view of these facts the Athletic Association of the University of Illinois, at the suggestion of George Huff, director of physical welfare, undertook, three years ago, to establish a laboratory for the study of psychological problems in athletics.

Complete Study

It is one of the purposes of this laboratory to make a complete study of the men who come out for the different athletic teams at the University, to study the coaches and their methods, and thus help the students who enroll in the four-year course in athletic coaching to understand the psychological side of the coaching profession. Studies are made on the mental and physical alertness, the memory and learning ability, the nervousness and steadiness, the vision, and hearing, and the thinking power of all members of the various athletic teams with a view to making use of the best material in the squads.

The laboratory is also making a number of other studies on the psychological side of athletics. One of these concerns the way in which athletes sleep before and after games and other heavy exercise. Underneath the beds of some of the members of the teams are placed recorders which make a record on paper of every movement of the athlete during the night. These records show whether or not the athletes are rested by a night's sleep and whether or not they are getting too much heavy work.

Batting Experiments

Last spring the members of the baseball team used, during practice, a special bat with electric connections built into it so that a measure of the time that elapses between the moment the ball hits the bat and the moment the bat

reaches first base could be taken. This experiment on batting showed that many batters spend as much time getting out of the batter's box as they do in getting to first base. It was also shown that such men could learn to get away faster and so stand a better chance of turning some of their blows into hits.

These and a score of other problems are being studied by the laboratory in the gymnasium and the results are discussed in a very unique course for students in coaching called "psychology and athletics." When this course was first started it was the only one of its kind but other schools have seen the advantage of such a course and the idea has now spread to other parts of the country.

SPANISH KING ENJOYS HIMSELF IN MOVIES; HAS PICTURES RE-RUN

(By International News Service)
 MADRID, Oct. 19.—Alfonso XIII, of Spain, takes childish delight in seeing himself in the movies. His Majesty, just returned from a European tour, immediately ordered a private showing of the news reel film covering his voyage. To this showing he invited the queen and members of his family and entourage. At the King's request many reels were re-run during the showing, in order that he should get a good look at himself.

Wherever he goes, King Alfonso makes chums out of the cameramen. During his recent tour, he took particular pains to pose at length for each and every one. "Be sure to send me a copy to Madrid, won't you?" he said. "How to address it? Oh well, just write Duke of Miranda on the package. That's my 'private' name, you know."

KEEP YOUR SKIN LOOKING YOUNG

Protect your beauty in all kinds of weather with this new face powder—Mello-Glo. Does not give the skin a dry feeling; does not clog the pores; is not affected so much by perspiration. Stays on longer. So pure and fine, Mello-Glo is made by a new French Process. It's truly wonderful. J. Y. Pearce Drug Co.

Americanism: Offering to pay the great man's railroad fare if he will sacrifice five hundred dollars' worth of his time to address your luncheon club.—Buffalo Evening News.

Atlantic Phone Now Promising To Pay Profit

By Charles A. Smith
 (International News Service Staff Correspondent)

LONDON, Oct. 19.—The transatlantic radio-telephone which long looked like becoming a white elephant, is now showing signs of turning out to be a paying commercial proposition.

Figures issued here by the British Post Office reveal that since the first of March this year, when the rate for a three-minute call was reduced from \$75 to \$45, the demand for the use of this means of communication between Europe and the United States has increased enormously. Should the increase continue, experts prophesy that within a few years the Atlantic telephone will be as busy as a main exchange.

Indicating the growth of the new service, it is stated that during the three months from February to April last there were 634 outgoing calls, a total of 1,362; an average of 15 a day. Since then the number of conversations a month has increased by between 300 and 400 per cent.

Traffic Varies

The volume of traffic varies from day to day, but the average is in the neighborhood of 50 calls a day. On many days the number of conversations exceeds that considerably.

The Atlantic telephone line has now grown far beyond the stage of a single line between London and New York, with which the service was inaugurated. It is now possible to talk to almost any part of North America from almost any point in Europe. Many parts of Germany and Switzerland, and the cities of Paris, Brussels, Stockholm, Gothenburg, and Copenhagen, now use the circuit through Britain to telephone to the United States, and shortly the facility will be extended to many other parts of the European continent. Except for the small villages every part of Great Britain is in communication with New York through the radio-telephone, and Britain provides the main bulk of the traffic from the European side of the Atlantic.

Figures in the possession of the British postal authorities show that it is during the summer tourist season that the telephone is most in demand.

Tourists Use Phone
 Globe-trotting Americans in

London for a brief spell telephone their business associates and relatives in various parts of America, and in turn receive messages from the United States.

Many of the initial difficulties such as abrupt fading and atmospheric have been diminished or overcome, and now speaking across the 3,000 miles of the Atlantic is very little different from talking to a place a mile distant.

The majority of conversations are limited to three or four minutes and the record call is held by F. B. Odium, an American staying in London, who on the 17th of September began speaking to a business associate in New York at 9:30 p. m. and finished at 11:05. It cost him \$125.

VICE ADMIRAL RAEDER CHIEF OF GERMAN NAVY AS ADMIRAL ZENKER QUILTS

(By International News Service)
 BERLIN, Oct. 19.—Vice Admiral Dr. Raeder has been appointed by President Hindenburg as chief of the German navy. He succeeds Admiral Zenker who retires at the end of this month.

Raeder has become known all over Germany because as chief of the Baltic fleet he issued an order forbidding the wives of the officers of his fleet to bob their hair.

Now the wives of the officers of the whole German navy are trembling in their slippers lest a like order be issued for them.

QUEEN OF SWEDEN GETS LAKE CONSTANCE ISLAND UNDER BROTHER'S WILL

(By International News Service)
 CARSHUHE, Oct. 19.—Under the will of the last Duke of Baden, who died recently, his sister, who is Queen Victoria of Sweden, becomes the owner of the Island of Mainau, in Lake Constance. This island is noted for its semi-tropical temperature. Palms and even banana trees flourish on it. It has been the private property of the grand ducal family since 1853, and Queen Victoria has spent her summers there for many years.

Whistling lobsters are reported from Bermuda. They are new to that region, heretofore only having been found in American off-shores.—The Seattle Daily News.

THE COUNT FARM AGENT

The County Agent is that guy
That we see gaily driving by
With every air of being busy
Joy-riding daily in his Lizzie.
His duties, too, are rather light;
He holds a meeting ev'ry night
But never talks so very much—
He's simply there to keep in touch
And after just a few remarks,
Upon a nice front seat he parks
And listens to the others speak.
He does this stunt six nights a
week

Then hies him home through
darkness deep,
With naught to do except to sleep,
Until another day rolls 'round,
And then most likely he'll be found
at 5 a. m. beside the 'phone
Endeavoring to make it known
What medicine it is relieves
A horse that's got a case of heaves,
Or giving some good advice
On treating chicks for mites and
lice.

Between these calls there's time,
almost,

To grab some coffee and some toast
Before he rustles to his post
To scan the pile of mail that lies
Awaiting him to make replies.
I rather envy him his task
Of answering questions people ask.
For all he has to do is look
And find the answer in a book,
And if he's stumped for some reply,
Stenographers are standing by
To hunt the file for information
And help relieve the situation.
He only has to know what's known
And tell it o'er the telephone
Or jump into his car and hurry
To ease some distant farmer's
worry

Who's called him to come out quick
And diagnose some ailing chick.
He goes and says: "That seems
to be
A case of this white diarrhea,
And should the symptoms still
persist
I'll send and get a specialist."
And saying that, he jumps aboard
His ever-ready, waiting Ford—
And, by the way, that car supplies
Whate'er he lacks in exercise.
Our President, you know, of course,
Is jogged by an electric horse,
But county agents, as a class,
Get jogging that's supplied by gas.
This daily jouncing in their fliv-

C. W. Lehmborg

vers
Acts as a tonic on their livers,
For ev'ry one I ever knew
Had appetite enough for two.
No county agent can exist
If he is but a specialist;
He must know horses, pigs and
cows;
And tractors, harrows, trucks and
plows;
Must know each farmer's wants
and needs;
Identify all fruits and weeds;
Know all varieties by heart;
Must show beginners how to start;
Must know the symptoms of disease,
And what to use to drive off fleas;
Must tell the members where to
buy,
And also keep a good supply
Of information that will tell
The people when and where to
sell;
He must know how and when to
spray
To keep disease and bugs away,
And act, too, as a good adviser
On various kinds of fertilizer;
And satisfy those who demand
The latest styles in clearing land.
If he can do this and enthruse
In editing the bureau news
And can select the laying hen
And has some good commit-
men,
Who do their duties as they

should,
He stands a chance of making
good.

GERMAN POLICE ORDER REQUIRES ALL OFFICIALS TO SHOW POLITENESS

(By International News Service)
BERLIN, Oct. 19.—Police Pres-
ident Zoergiebel, of Berlin, has is-
sued a new decree ordering all
policemen and police officials to be
polite to the population.

Berlin already prides itself that
it has the politest police in the
world.

Zoergiebel's personal tests re-
vealed, however, that certain police
officials answering telephone calls
did not reply with the proper de-
gree of polite interest and the new
decree is to eliminate this last
beauty spot.

EX-GERMAN OFFICIAL IS SUICIDE IN LAKE AFTER PUBLIC HORSE WHIPPING

(By International News Service)
BERLIN, Oct. 19.—Dr. Brueck-
ner, former minister of justice of
the little German state of Meck-
lenburg shot and drowned himself
in the "Lazy Lake" at Schwerin
because he had been publicly
horsewhipped by his nephew.
The tragedy was a result of a
romance between Dr. Brueckner
and his 23-year-old niece who had
committed suicide before him.

Her brother held his uncle re-
sponsible and grabbed the whip.
Brueckner's brother, the father
of the dead girl, wrote to his son:
"I admire your deed."

Gov. Smith Says---

I pledge to the
farmers and to the
people of this
country that no
stone will be left
unturned to give
immediate and
adequate farm re-
lief.

He (Hoover)
wants to drive
enough farmers
out of business to
pull down the
surplus crop.

The way he wants to relieve the
farmer is to destroy him.

Mr. Hoover, as the chief adviser of
the last two administrations, upon the
subject of agriculture, assumed a direct
responsibility for the hostility and in-
action of the Administration, and con-
tinues to assume the responsibility by
his fulsome indorsement of the record
of Coolidge policies.

"Do you believe that liquor is the
great issue of this campaign?" I cer-
tainly do not.

The absolute separation of state and
church is part of the fundamental basis
of our Constitution. I believe in that
separation and in all that it implies.

I can think of no greater disaster
to this country than to have the voters
of it divided upon religious lines.

If there is any citizen of this country
who believes that I can promote its
welfare, that I am capable of steering
the ship of state safely through the
next four years, and then votes against
me because of my religion, he is a
real, pure, genuine American.

Three hundred and thirty-two
bales of cotton had been weighed
in Stamford up to a recent date.
Of this number 270 bales were
handled by Joe R. Jones, cotton
weigher, and 62 bales by the Stam-
ford Compress.

LEGION SHOW WILL GO TO WINGATE TONIGHT

The Legion Players left here Friday afternoon at 4 o'clock for Wingate where they will give a performance of "The Great South-west" tonight at the high school auditorium under the auspices of the Wingate School Board.

This is the first visit the Legion has ever made to Wingate and the players are going there at the invitation of the Wingate people who did not get to see the play at Norton on account of conflict-ing dates. The Legion accepted the date at Wingate and the cast with a few changes, left to present the play to citizens of that commu-nity.

3 Schools to Open Monday

Three of the larger schools in the county will open next Monday, October 22 for work and will en-roll many students.

Maverick, one of the largest schools in the rural school divi-sion, will begin work Monday morning. Prof. Al G. Pyle is the new principal at the Maverick school and one other new teach-er, Mrs. Eula Hayes, will be on the staff.

Content, the new consolidated district, will start Monday and this school expects a big enrollment at the beginning. The Content school has six teachers and the building has two new rooms ready for use. Manual training and domestic science will be taught in the two new rooms which are set apart from the other school build-ing. A new shed also has been built to house the four new school buses which will be used in the district to take the children to and from school this year.

Gruenwald has just finished a new teacherage and will be ready to receive students Monday morn-ing. Henry Leach is principal of the Gruenwald school and is beginning his third year at that place. The school employs three teachers.

E. W. McDaniel and wife arriv-ed from Dallas Thursday night and Mrs. McDaniel will stay here for treatment. Mr. McDaniel has accepted work with the Dent The-atre interests at Ranger and will be located there. He was form-erly associate manager of the Pal-ace and Queen theatres in this city.

R. J. Wheeler is home from a trip to Dallas and other points.

Ranger Planning For Armistice

Local Legionnaires are planning to spend Armistice Day in Ranger where a big celebration will be staged and the 17th District con-vention held on November 10 and 11. The Ranger Airport will also be opened and between 30 and 50 airplanes will be there to stage an air circus at the opening of the new field.

Ranger is planning some elab-orate entertainment and is making plans to take care of one of the largest crowds ever to attend a 17th District meeting.

Important business matters will also swell the attendance and it is expected that every Legion post in the district will be rep-resented.

The majority of the Ballinger delegation will leave early on No-vember 11 and arrive in Ranger in time for the morning meetings and the afternoon business ses-sion.

FIND HISTORIC RELICS IN DEEP EXCAVATION FOR CHICAGO BUILDING

(By International News Service) CHICAGO, Oct. 19.—Relics of historic value are being found nearly every day by the workers digging for the foundations of the Merchandise Mart, which is to be the world's largest business building. The latest to be discov-ered by the caisson diggers today was a United States gold coin of the year 1803—just 125 years old. On one side is a face of "Liberty" with a circle of stars around her head. On the other side is the American eagle, also surrounded by 13 stars. No denomination is discernible on the coin. The word-ing is "United States of America, E. Pluribus Unum—1803." Another old coin—a penny of 1804—was

found a few weeks ago. Several hundred bushels of wheat which had been in an old elevator of Armour & Munger, built on the site of the Merchandise Mart in 1854, were dug up recently and the ruins of one of Chicago's old-est structures—the Armour & Munger grain elevator—were un-earthed. Hand-made, sun-cured bricks, made about 75 years ago, were found as part of the founda-tions of the old elevator, which was razed by fire in 1894.

"Really You'd Think It Was a New Suit"
