Local Rotarians At Abilene Meet

Ballinger Rotarians were well represented at the inter-city meeting held at Abilene Friday evening and a wonderful program of entertainment was reported by all those attending.

With nearly 300 in attendance, the meeting was called to order in the crystal ball-room of the Hilton Hotel. Doyle T. Brooks of the Abilene club was toastmaster. Towns represented at the gathering were: Abilene, Ballinger, Hamlin, Cisco, Stamford and Sweetwater.

The meeting opened with a sing song. Judge James Stinson gave the welcome address, and H. C. Lyon, of Ballinger, responded.

Following a solo by Dr. Frank Estes, of Hamlin, 15-minute talks centering around Rotary duties and purposes were given.

Addresses were delivered by Henry Littleton, of Hamlin; H. S. Holland, of Stamford; Ed Nienaste, of Sweetwater; T. T. Roberts, of Cisco; H. W. Lynn, of Ballinger; Andy Anderson, of Ranger; Ollie Webb, of New Orleans; and concluding the program was an amusing talk by Clifford ("Happy") Goldsmith, of New York.

Those attending from Ballinger were: Messrs. and Mmes. H. C. Lyon, Sam Behringer, H. W. Lynn, Willie Stephens, R. T. Williams, L. R. Tigner, Wix Currie, Joe Neff, E. Shepperd, Joe Simmons, Walter Holt, and C. W. Lehmborg, Roy Reeder and Marvin Atkins.

FIVE EUROPEAN BISON NOW IN HANOVER PARK

(By International News Service)
HANOVER, Oct. 27.—Five of the surviving specimens of the great aurochs, or European bison, have just been liberated in the Saupark near Hanover.

The animals, a bull, three cows and a calf, can be observed from the street, but it is forbidden to enter their part of the park or to feed them.

Only a few of these animals are still in existence, the rest having been exterminated, like the American bison.

Several hundred animals had been preserved in the forests about Bialystok through the efforts of the International Society for the protection of the Aurochs, but they were shot off during the World War.

GRAF STILL ON GROUND

(By International News Service)
NEW YORK, Oct. 27.—The latest weather reports from Washington today beleaguered the Graf Zeppelin in her Lakehurst hangar until Monday night or Tuesday morning.

The quickest way to keep abreast with the times is to read the ads.

Seventy Students On Wrecked Train

(By International News Service)
CHICAGO, Oct. 27.—Seventy University of Wisconsin students had their lives endangered today when their special train crashed into the rear end of a freight train on a siding at Helmer, Ind. Their train had been slowed down and this fact alone, it is thought, saved many lives. The students were en route to Ann Arbor, Mich., to witness the Wisconsin-Michigan football game this afternoon when the crash occurred.

Alleged Slayer In Abilene Jail

ABILENE, Oct. 27.—Bill Fritz, who has been sought in connection with the slaying of D. W. Hamilton and son, Earl, at Rochester, which occurred several days ago, is today in custody of officers here. He surrendered to Marshal Flournoy late Friday afternoon. He denies any connection with the slaying and asserted that he visited his Hamilton home with three other men whose names he refused to disclose.

ABILENE, Oct. 27.—The accused slayer of Dudley W. Hamilton, prominent Haskell county farmer and his young son, Earl, was in the county jail here last night under heavy guard. The prisoner, Bill Fritz, well known character in Haskell county, surrendered to an officer shortly after noon, yesterday. He was hurried to Abilene, concealed in the rumble seat of an automobile.

Fearing possible mob violence in the sections where the crimes were committed and where yesterday nearly 2000 joined in paying final respects to the Hamiltons, Fritz was brought to Abilene for safekeeping.

His blue eyes bloodshot, and haggard of face, the prisoner arrived here Friday afternoon in the custody of John Epley, Haskell county farmer, who was a bondsman in one of Fritz's recent liquor cases and George Flournoy, Haskell county officer. He was delivered to W. H. Britton and Felix Raines, Abilene officers and placed in a cell.

Fritz, after spending two days and nights in hiding two miles southwest of Judd, Haskell county, slept Thursday night in an unoccupied farm house. Early Friday morning he appeared at the home of Epley saying he was ready to surrender. He chose Flournoy as the officer to whom he wished to give up. Without disarming Fritz, he was placed in the car. The machine passed a number of officers and possemen who were still searching for the fugitive.

Haskell county authorities kept the whereabouts of Fritz secret Friday afternoon. They announced only that he had been captured.

Another Chicago Gang Chief Shot

(By International News Service)
CHICAGO, Oct. 27.—Peter Rizzito was killed here by gangsters today in front of his home. Two men complicated in the case threw down their shotguns and escaped down the alley. Police believe the slaying a sequel to the slaying of Tony Lombardo, chief of Scarface Al Capone.

TECH PLANS EXPANSION

LUBBOCK, Oct. 27.—The board of regents of Texas Technological College in a called meeting in Lubbock launched plans for general expansion during the coming year following the record enrollment of more than 1800 students already this term. Plans were also made for an enlarged summer school.

Clifford B. Jones of Spur, chairman of the board, presided. Other members present were John W. Carpenter of Dallas; Frank E. Clarity, of Fort Worth; C. G. Comegys of McKinney, and H. T. Kimbro, of Lubbock. Mrs. F. N. Drane of Corsicana and R. A. Underwood of Plainview were absent.

Federal Intervention is Asked in Hidalgo County

Collections are Reported Brisk

A banker, commenting on the movement of the cotton crop also reported that his bank had not made better collections in any year so early and so promptly from the farmers as this year. We take this to mean that the farmers generally are in excellent financial shape and that the payment of their debts at the banks will enable them to procure money with which to make another crop next year.

In many cases farmers are independent in that they no longer have to borrow money, always having on hand a sufficient amount to finance another crop as well as to pay the family expenses and provide themselves with a nice car for the making of trips to town and elsewhere.

With the addition of chicken money, turkey money, cream money and that procured from other sources it is now not hard for a family who live on the farm to keep out of debt if they are anything like good managers.

We know of many cases where farmers are supporting automobiles, radios, lighting systems for the farm, electric washing machines, and all other conveniences enjoyed by their city neighbors.

Collections are reported brisk with the mercantile establishments also, while of course there are those cases where some people can never manage to pay up their obligations. But the farmer as a rule is a good manager and generally keeps his finances in pretty good shape.

The Ledger is feeling the effects of the fall season by the payment of subscriptions by its readers as we have heavier collections from this source at this season.

AUSTRIA PLANS HISTORY OF NATION'S PART IN WAR

(By International News Service)
VIENNA, Oct. 27.—The Austrian Foreign Office has decided to issue an official history in six volumes under the title "Austria-Hungary's Last War."

As the melancholy title suggests, this work will present to the world an Austrian account of the World War, which as the list of contributors suggests, will be seen through the eyes of former Austro-Hungarian officers.

The first volume will be ready by Christmas, and the complete work will have been issued by 1934 at the rate of one volume a year.

SMILING NOT STYLISH IS THE LATEST EDICT OF SOCIETY PHOTOGRAPHER

(By International News Service)
Smiling isn't done any more. The society photographer says so. Photography has now taken the old masters for models, and efforts are being made to bring out sincere characteristics, instead of merely portraying the artificial smile of other days.

"The smiling portrait has died out because people have discovered how tired they can get of perpetual smile," a society photographer said. "The only smile we do not tire of is that of the child, and that is the only smile which is entirely natural."

(By International News Service)
McALLEN, Oct. 27.—More than two thousand telegrams requesting federal investigation of political conditions in Hidalgo county have been forwarded to President Coolidge today, following a monster meeting in Edinburg last night protesting the action of the regular county Republican organization in barring names of candidates of the Citizens Republican ticket from the ballot.

High priced service at nominal cost—Ledger classified ads.

Textbook Board Meet Postponed

(By International News Service)
AUSTIN, Oct. 27.—The Textbook Commission held a brief session today and adjourned until Monday. The reason given was that Governor Moody, chairman of the commission, having of necessity to go to Dallas tonight to deliver a speech. The commission is said to have reached an agreement on a number of awards but the announcements will not be made until Monday.

SOVIET SHOPS SELL TOILET SOAP WITH PICTURE OF MURDERED CZAR ON IT

(By International News Service)
RIGA, Oct. 27.—The appearance of quantities of toilet soap in Moscow State shops bearing the portrait of the Czar Nicholas II, has caused a great scandal.

Investigations have revealed that the soap was made at a co-operative factory in Leningrad. The makers stated that an old stamp had been found and used without its significance being realized.

Coolidge asks republicans to back policies through Hoover vote.

M. A. Traylor Hijack Victim

CHICAGO, Oct. 26.—Hold-up men robbed Melvin A. Traylor, president of the United States Golf Association and the First National Bank of Chicago, and John F. Hagey, the bank's first vice-president, and their wives Thursday night.

Four armed men accosted the party as they drove up to the Hagey home. A diamond ring valued at \$1,500 was taken from Mrs. Hagey, while Mr. Hagey lost \$40 in cash and Mr. Traylor \$25. "This is a polite hold-up folks," one of the robbers said. "Keep cool and don't make a disturbance. You needn't even raise your hands—there's no use advertising this as a hold-up."

Melvin A. Traylor above referred to was connected with the First National Bank of Ballinger, as cashier, and later as president of the institution, from 1907 to 1911, and he with his wife, have a host of friends in Ballinger, who will be interested in anything that concerns them.

Since leaving Ballinger Mr. Traylor has become a banker of national repute and is considered one of the country's best financiers.

Murder Charges Expected Today

(By International News Service)
TYLER, Oct. 27.—Murder charges are expected to be filed at Athens against R. B. Greer, 19-year-old youth, who is held in jail here in connection with the shooting of R. R. Shifflet, which occurred eighteen miles northwest of this city Monday. Greer, his brother and a woman were arrested yesterday.

The latter is understood to have made a statement to the effect that Shifflet insulted her. Greer is said to have admitted the shooting and also stated that he would make a statement relative to same today.

Waldeman Babes' Deaths Accidental

(By International News Service)
NEW YORK, Oct. 27.—Mrs. Milton S. Waldeman, Guggenheim heiress and mother of two babies who plunged to their death from the roof of the 16-story Surrey Hotel, today is reported in a state of complete collapse at Park West Hospital. In view of her condition, authorities are reluctant to press their investigations of the tragedy. Mrs. Waldeman became worse after a visit from Chief Medical Examiner Norris, who obtained a statement from her. Norris said as far as he was concerned the case was closed and that it resulted from an accident.

EOLA, FAST GROWING TOWN, TO HAVE PAPER

Eola, located in Western Concho county, is now boasting about 35 live business firms, a light plant, cold storage, ice plant, and is soon to have a paper published weekly. W. H. Tyler, of Miles, is to be the publisher, while Mrs. C. K. Coor, of Eola, will do the editing.

30,000 to 35,000 Bales are Ginned

Cotton is now coming on the market rapidly and if favorable weather prevails for another week or two the bulk of the crop will probably have been marketed or ginned by that time.

Ballinger, Winters and Miles had total ginnings running over 22,000 bales up to Saturday noon, and with all other sections it is thought the total would run well above 30,000 bales. With this fact accepted it would appear that the crop was about three-fourths gathered in Runnels county.

Winters reports having ginned 11,442 bales up to Thursday morning. Miles had 4,000 bales up to Friday, and Ballinger 6,471 bales up to Saturday morning. It is believed that with the additional runs since these reports and the ginnings from other points in the county that the total would easily show 30,000 or 35,000 bales.

At Miles some of the farmers are reporting half a bale to the acre, while at Winters a good yield is also indicated. The Rowena country also reports a better yield than was first anticipated.

PRIESTS EXECUTED

(By International News Service)
MEXICO CITY, Oct. 27.—Two priests who were captured by federal troops in Jalisco yesterday, were executed by firing squads today, according to Guadalajara dispatches today. Fighting is reported from various parts of western southern Jalisco.

Why should a railroad be built from San Angelo by way of Brady and on to the Gulf, when the A. & S. was originally intended to serve that exact route?

WALTER WOODWARD AS A PROPHET

Senator Walter Woodward, of Coleman, senator from this district, predicts the 41st legislature will go down in history as the busiest legislature within the last 25 years. He lets it be known that taxation is always a major subject but that one of the most important measures will be the matter of financing a highway department and legislation concerning the building of highways. He predicts that Governor Moody will have the support of the 41st legislature, as the senate "is composed of men who will look with favor upon his administration and I anticipate no friction whatever between the governor and the senate. Honest, fearless, and competent, Dan Moody will steer the ship of state safely into the harbor."

As the West Texas senator sees it, the water control issue is certain to bob up. This is his viewpoint:

"Control of the flood waters of the flowing rivers in Texas and the rights of the people in respect thereto, will, in my judgment become a major subject upon which the 41st legislature will have to act. The people must be protected in their right in the use of flood waters for domestic and irrigation purposes. The power companies must not be permitted to control the flood waters of the rivers of Texas."

Control of the flood waters of the rivers of America is an acute issue under the big dome at Austin in the winter of 1929.—San Angelo Standard.

NOTRE DAME GETS VERY BAD GRID START IN EVERYTHING BUT GATE

By Copeland C. Burg
(International News Service Staff Correspondent)

CHICAGO, Oct. 27.—Notre Dame University's football team got a bad start this fall in losing to Coach Thistlewaite's Wisconsin eleven but in the matter of a financial success the records of the Irish at the end of the season will be far from gloomy.

Judging from the harvest of cold cash reaped by the Irish at the Notre Dame-Navy game played at Chicago, the total receipts of Coach Knute Rockne's rambling grid warriors will come close to the astounding figure of more than half a million dollars.

Notre Dame received about \$120,000 as its share of the Notre Dame-Navy game receipts.

From the Army-Notre Dame game to be played in New York the Irish should get about \$50,000 or more, while the Notre Dame-Southern California clash at Los Angeles December 1 should net the Rockne eleven more than \$75,000.

The Penn State and Georgia

Tech games will net big sums to the traveling football stars with small profits recorded from the Drake contest. The Wisconsin and Loyola of New Orleans games, played early in the season, netted small profits.

The Navy-Irish game, played in Soldier Field, Chicago, where Jack Dempsey fell for the second time before Gene Tunney, was watched by more than 120,000 persons. This is said to be a record for football attendance. The total receipts of the afternoon were about \$350,000. The two elevens divided about \$320,000.

The paid admissions at the Navy game were approximately \$50,000 more than those for the University of Southern California Note Dame contest played in Chicago at Soldier Field last year.

TEAS COTTON COMMITTEE TO HEAR VARIOUS REPORTS

AUSTIN, Oct. 27.—Reports from various committees will occupy the members of the Texas Cotton Committee when it meets Wednesday, October 31, at College Station, according to Dr. A. B. Cox, director of the Bureau of Business Research at the University of Texas and chairman of the committee.

Dr. Cox announces the following program for the meeting: L. P. Gabbard, chief of the farm and ranch division of the Texas Agricultural Experiment Division, will report on "One Variety Community Cotton"; Homer C. McNamara, superintendent of the United States Breeding Station at Greenville, will discuss the "Causes for the Decline in the Yield in Texas Cotton"; W. J. Neale of Waco, representing the Texas Cotton Association, will speak on "The Preparation and Ginning of Cotton"; and John D. Rodgers, president of the Texas Cotton Seed Breeders' Association, will report on "Cotton Seed Supply and Distribution."

Bearcats Losers To Sweetwater

The Ballinger Bearcats had an uphill fight at Sweetwater Friday and had it not been for costly fumbles in the first quarter they would doubtless have won the game.

Two notable things happened in the game, one the fact that Ballinger scored on Sweetwater for the first time—the first time Sweetwater had been scored on this year—and the other was that Ballinger got seven touchdowns to Sweetwater's two.

The game does not count in Ballinger's interscholastic league standing, and for that reason it is immaterial if it was a loss, so far as the league is concerned.

While Ballinger was losing to Sweetwater, the Winters Blizzards were losing to San Angelo, and this game too does not count in league standing.

A summary of the Ballinger-Sweetwater game follows:

During the first quarter, the Bearcats' fumbles probably cost them two touchdowns and in the second quarter the Mustangs scored two on passes, the first, Taylor to Wilkins for about 20 yards and over, the second was Taylor to Freeze, over the goal line for about 17 yards.

The Bearcats held the Mustangs to one first down and scoreless during the latter half. The Bearcat score came in the fourth quarter with Coker going over after he and Parrish, Bearcat full and half, respectively, plunged through the Mustang line and passes from Shuhmann to Middleton and to Parrish. An extra point came from interfering with receiver when a Mustang player dumped a Bearcat back.

Coker was the outstanding star of the game.

Ballinger made seven first downs to Sweetwater's three. The Mustangs suffered numer-

ous injuries of several stellar players while the Bearcats did not make a substitution during the entire game.

Starting line-ups: Sweetwater; ends, Lindsey and Cox; tackles, Bonner and Browning; guards, Guthrie and Bickerstaff; center, Henry; quarter, Ely; halves, Lynn and Taylor (c); full, Wilkes.

Ballinger—Ends, Wilson and Lusk; tackles, Smith and Robinson; guards, Chastain and Jones, center, Allison; quarter, Middleton (c); halves, Parrish and Schuhmann; fullback, Coker.

THE FIRST NATIONAL BANK OF BALLINGER

Capital \$100,000.00

Ballinger, Texas.

To Our Friends and Customers—

It is with a great deal of pleasure and with some degree of pride that we are soon to return to the banking quarters in our own building.

In re-modeling our building inside and out, we have been prompted by four desires:

1. The desire to add to the business district of Ballinger a building pleasing in design and worthy of our town's future hopes.
2. The desire to have a banking room sufficiently complete and commodious to enable us to adequately serve our pressing present needs with room for anticipated expansion.
3. The desire to provide a maximum of safety both for banking funds and for customer's safety deposit boxes, this having been achieved by reconstruction of our vault of steel and concrete and the installation of burglar proof doors on both vaults.
4. Lastly, the desire to express in our building efforts our belief in the continued and growing prosperity of our territory, and to express in this increased effort to serve you, our appreciation of the favors and loyalty shown us by the good citizens of Runnels County these forty-two years of our bank's existence.

We have felt ourselves very fortunate in having the use of the well equipped Doose building during the absence from our own quarters, though we realize that the change has in many ways worked hardships upon our customers. We want to extend at this time an expression of our appreciation of the friendly spirit of co-operation shown us as we have endeavored to serve you under existing handicaps.

It is our intention to later announce a day when our new banking quarters will be open to the public for inspection.

NEW OAKLAND ON DISPLAY HERE TODAY

Completely new and original in appearance, with a host of advanced engineering features, the latest Oakland All-American Six went on display here today at the showrooms of the Ballinger Auto Co., local Oakland and Pontiac dealers.

Smarter, comier than a year ago, with bodies of distinctive design, and a chassis said to be the last word in mechanical refinement, the latest All-American model bears only a passing resemblance to its famous predecessor—the first All-American Six brought out by the Oakland Motor Car Company a year ago.

Briefly, the new line offers a bigger, faster, more powerful engine; new Oakland type internal expanding 4-wheel brakes; masterful body creations by Fisher; new Duco color combinations; higher, larger cross-flow radiator with grill-front; adjustable driver's seat; chrome plated lamps of new design; sturdy ten-spoke wheels; Lovejoy shock absorbers and spring covers as standard equipment; new steering gear; sturdier frame, and a host of other improvements that are destined to make the car a distinguished addition to the aristocratic motor car family of America.

Many months have been spent in developing the car to a point where it offers everything that a discriminating public has learned to expect in the way of style and performance. Every detail has been subjected to exhaustive tests that the car might represent the crowning achievement of 22 years of successful automobile building by the Oakland Motor Car Company.

Into the perfection of power plant and body lines have gone the pooled resources of Oakland and General Motors engineers, General Motors Research Laboratories, General Motors Proving Ground, and craftsmen of the Fisher Body organization. Many months have been spent developing and proving every detailed change to bring the finished product up to the rigid standards called for on the specification charts.

Already a million miles have been piled up by test cars on the General Motors proving ground. Although brand new to the public, it is a thoroughly seasoned product with the equivalent of many years of owner service already to its credit.

Seven passenger types comprise the line: sport roadster, sport phaeton, coupe, 2-door sedan, 4-door sedan, and a new landaulet sedan and convertible cabriolet.

Artisans of the Fisher organization with Oakland engineers have achieved a new grace of body lines and symmetry and proportion exclusive in the Oakland field. The new landaulet sedan, with its fabric covered rear quarter section which may be quickly raised or lowered, has an air of custom-built distinction.

The rear seats of all five passenger models are two inches wider this year to provide in-

creased elbow room and to add to the comfort of passengers. This change has been effected without increasing the tread.

Closed bodies all have adjustable driver's seats, reveals around side windows set off by a narrow bead, single belt moulding starting at radiator and completely encircling the body, smart side cowl ventilators, new type military sun visors, and hardware designed exclusively for Oakland. On individual body types are walnut finished door panels, Axminster carpet in tonneau, embossed leather smoking sets, package space, luggage room in rear deck and many other popular features adding to the luxury of the interiors.

A new instrument panel finished in black imparts a dignified touch to the front interior. Instruments are individually mounted on the dash and directly illuminated by two soft shielded lights. On the dash are an 80-mile speedometer, gasoline gauge, oil gauge and ammeter mounted on a raised panel in the center of the board. On either side are the ignition lock and lighting switch button, and the choke and throttle control buttons. The windshield wiper control and light switch buttons are below the speedometer. All instrument dials are black with white figures.

A strikingly new outside appearance is provided by the head-on view of the car. The chrome plated radiator has been raised so that the line from the base of the cowl to the new flat radiator cap appears practically level.

Stenos Cry for More of It
We have a fresh shipment of that famous Carnation Carbon Paper, which bears the reputation of being the only paper on the market once used by stenographers that "they cry for more." Five cents the sheet in any amount and well worth double the price.

College Youths in Colleen Moore Picture, "Her Wild Oat"

Sturat Knox, of Yale, and Richard Clendenin, of the University of California, college boys who were brought to Hollywood by First National Pictures in a quest for new screen material, fill small roles in Colleen Moore's latest picture, "Her Wild Oat" which comes to the Palace Theatre next week.

Although school had begun by the time the picture was made, both Knox and Clendenin at least temporarily forsook education for the movies. Both are undecided as to their future. Knox has several more years of a medical course to complete and Clendenin has another year before graduation from a straight college course.

"Her Wild Oat" was directed by Marshall Neilan and produced for First National Pictures by John McCormick. The supporting cast

includes Larry Kent, Hallam Cooley, Gwen Lee and others.

Teddy's Rough Riders Live Again in Vivid Drama

From the rolling plains of Texas—from the sage brush of Arizona and New Mexico—they came—riders all, hard shooting, hard riding men who lived their days in the saddle and their nights under the stars.

From the cities of the East they came, from the blue grass of Kentucky; from New York and Chicago, club men and polo players—men of culture and breeding but men.

At San Antonio, Texas, they met—the call to arms sounded by Leonard Wood and Theodore Roosevelt, when these two organized the First Volunteer Cavalry at the outbreak of the Spanish-American War.

And there West met East—and were amalgamated into one of the most famous fighting units the world has ever known.

The story of that amalgamation

was reenacted at San Antonio by Paramount in filming "The Rough Riders." There, on the original site upon which the training camp of that historic regiment was established, the days of '98 were made to live again.

"The Rough Riders" will be shown next Monday and Tuesday at the Palace Theatre.

Chaplin's "The Circus" Is Original Story for Screen

Charlie Chaplin, author, star, director and producer of "The Circus," the new low-brow comedy for high-brows, which comes to the Palace Theatre soon, has once again filmed an original story. Charlie thinks that not any book can be filmed, that a moving picture made from a book necessarily must be a reincarnation, and that the movie should be judged distinctly from the book.

"I am wild about Thomas Burke's writing," says Charlie, who has known the English writer intimately for many years. "I loved 'Limehouse Nights' and 'The Wind

and the Rain,' yet I would not think of trying to express the emotion of either book in films. He writes his pictures in with words, gives the emotion and the feeling with words, and I do it in my own way. I am too much of an egotist to put a book into films, anyway. I would not feel it was my own creation, my own baby. I like to make up my own things.

You know, I wrote and directed 'The Circus' myself."

Giles Garner, champion wheat raiser who lives near Snyder, has received two ounces of drought resisting wheat, namely Nongaar, Newawa, and Gwiyas Earl wheat from the Experimental Farm in Perth, Australia, for propagation purposes.

SAN ANGELO—Highway No. 99 will be improved in areas traversing oil fields west of here.

"I asked her to kiss me without avail."
"I don't like kissing through things, either."—Kansas Sour Owl.

A Profitable Connection for all Customers of Oklahoma Natural Gas Corporation

FOR THE past 20 years this company and its predecessors have been actively engaged in the distribution of gas service to meet the growing demands of 61 prosperous communities located in Oklahoma, Texas and Kansas.

The growth of the Company over this period has been the same splendid progress of the Great Southwest and today more than 100,000 families living within a radius of 700 miles, are depending upon the Oklahoma Natural Gas Corporation for fuel with which to cook their meals and heat to warm their homes.

This Is a Vital Service-- A Service Created by and for the People

FOR 12 DAYS BEGINNING NOVEMBER 1ST

We are sponsoring, as a general policy, the idea of inviting our employees and customers into a closer and profitable relationship with our business, through the medium of a Partnership with Customers Plan, which is called Customer Ownership.

If every customer of this Company owned a share in it, we would have ideal municipal ownership. The Utility owned and controlled by the public it serves, yet free from the possibility of increased local taxes and political manipulation.

Safety and constant dividends are a feature of this investment, for if you pause to consider, the very motive that prompts this offer is your protection, for the good will and friendship of its customers is the most valued asset of any Company who depends upon the public for its very existence.

Until November 12th, we will set aside a limited amount of our Preferred Shares for public and employee subscriptions and you as a customer or as an employee, are invited to share in an investment that we recommend as safe, sound and constant in the payment of dividends.

For detailed information concerning this investment call any employee of the
OKLAHOMA NATURAL GAS CORPORATION

6 1/2% Preferred Shares OKLAHOMA NATURAL GAS CORPORATION

May be subscribed for under two plans, as follows:

CASH PLAN

Price \$100 per share, dividends four times each year.

Under this plan the full amount of the purchase price must accompany the subscription.

On receipt of your subscription, accompanied by check for amount desired, your Preferred Share Certificate will be mailed to any address specified.

Your dividend checks will then be mailed to you regularly on the dividend days of February 1, May 1, August 1 and November 1.

SAVINGS PLAN

This plan was created for those who would save regularly and consistently from wages, salary or other forms of income.

The price is just the same—\$100 per share—but payable \$10 per share with subscriptions and nine monthly payments of \$10 per share until fully paid.

Every \$10 payment earns 6% interest, which is credited to your account upon the completion of payments.

Certificates will then be issued in your favor and mailed to your address. Thereafter you will receive the regular 6 1/2% dividend mailed out quarterly, as under the cash plan.

Grand Jury Reports; Returns 22 True Bills

After examining 40 witnesses and returning 22 true bills of indictment the October grand jury has handed its report to the 35th district court. Twenty of the cases were felony charges and two misdemeanors. The inquisitorial body also pointed out other evils and makes certain charges relative to the passing of forged and "hot" checks.

Especially recommending that the public report to the officers any cases where parties are driving cars while intoxicated the body says too many accidents have occurred in Runnels county due to this practice.

Placing its okeh on the peace officers, the district judge, prosecuting attorney, county attorney the court house grounds, the jail and other county properties, and thanking all concerned for the co-operation afforded, the body adjourned.

The official report follows:
"To the Hon. J. O. Woodward, Judge 35th district,

"We, your grand jury, empaneled on October 22, 1928, for the fall term of the above court, here with submit to you our report. We have been in session five days, examined 40 witnesses. We have faithfully inquired into all violations and infractions of the law called to our attention. We have found 22 true bills, 20 being felony cases, and 2 misdemeanor cases. Nine indictments were presented to the court on October 25th, and we hand you balance of the indictments herewith.

"It is our pleasure to report that we find that the sheriff of Runnels county and his deputies are rendering the public most faithful

and efficient service and are bringing law-violators to justice in practically all cases which come to their attention; recognizing that an absolute enforcement of the law is impossible, we find that the peace-officers of Runnels county are keeping their faith in a commendable manner with the public.

"It is our pleasure to report that we have received the most efficient and helpful aid in the discharge of our duties from the district attorney and the county attorney. Their work that has come to our attention justifies us in saying that Runnels county is exceedingly fortunate in having the benefit of their fine training and unwavering loyalty in the administration of justice.

"We count it a high honor to have had the privilege of serving as grand jurors under the Honorable J. O. Woodward. We consider our presiding district judge as being one of the fairest, most honorable and highly trained jurists in Texas. We commend him most highly for the great service that he has rendered to the people of Runnels county, as well as the entire state of Texas.

"We regret to report that we find that some of the merchants of Runnels county are selling extract to persons to be used for purposes that render such sales violations of the law. We further find that most of the violations of the law that have been brought to our attention involve young persons and are the direct result of excessive use of liquor in some form. We recommend that the citizenship of Runnels county co-operate in suppressing of these

two general conditions upon which these findings are based.

"We find that a great number of checks have been forged and hot checks have been given in Runnels county, and recommend that the merchants and the banking institutions report cases that come to their attention promptly to the officers as a means of stopping what we term a general practice.

"We further recommend that all cases of driving automobiles while intoxicated be reported and prosecuted promptly. Too many accidents have occurred in Runnels county as a result of the law violation in that respect.

"We have examined the auditor's report of the records of the different officers, and are pleased to report that the records of each office are entirely satisfactory, and all departments well kept.

"We have inspected the Runnels county jail, and investigated as to the maintenance and keeping of the prisoners. It is our pleasure that we find conditions entirely satisfactory. We have further inspected the county court house and park surrounding and find everything most satisfactory.

"Permit us to express to you, your honored sir, to the honorable district attorney, the honorable county attorney, our faithful and efficient bailiffs and other county court officials, our appreciation of the assistance they have rendered us.

"October 26, 1928.

"Respectfully submitted,

"FRED KIECHLE,"

"Foreman."

The fifth annual meeting of the Texas State Teachers Association will meet in San Antonio on November 30, with a heavy bill of well known and interesting speakers on the program, including Dr. Rollo G. Reynolds of Teachers College, Columbia University.

SOVIET BALLET SCHOOL GETS HOUSECLEANING TO STOP BOURGEOIS FAVORS

(By International News Service)

MOSCOW, Oct. 27.—The famous ballet school of the grand opera is going through a housecleaning because not enough daughters of factory workers were getting a chance to be ballerinas. Alexander M. Gavrillov, renowned ballet master, was ousted as director of the school because of his alleged "bourgeois" sympathies and tastes. He has been replaced by an instructor of social history in the First Moscow University.

Gavrillov was accused by Communist party leaders of favoring daughters and sons of private merchants and the intelligentsia in choosing his understudies.

"Gavrillov believed that silk stockings symbolized talent," said one party leader. "Girls wearing cotton socks were immediately disregarded as dumbbells."

Of the 300 pupils in the school only 20, it was alleged, were children of communists. The fathers of almost 20 per cent of the pupils were lingering in exile in Narim, Siberia or Solovetzkij island.

Hereafter children of workers and peasants will be given preference regardless of whether they possess as much talent as others.

Parties marketing pecans here Saturday stated that the crop was panning out much better than was at first anticipated, and the returns from this source would be entirely gratifying both to the landowners as well as the purchasers of the crop.

Mr. and Mrs. C. P. Shepherd and Mr. and Mrs. Troy Simpson motored over to Abilene Saturday to witness the football game between Daniel Baker College and Simmons University.

John Carter, of the Ledger mechanical force, was in San Angelo on business Saturday.

Admission 30c and 40c

and Now OAKLAND presents A NEW All-American Six

An entirely new conception of the modern motor car. So original in design . . . so brilliantly executed . . . you'll hardly believe your eyes. Magnificent successor to a justly famous name . . . a New All-American Six.

Daring in style . . . exemplifying Fisher genius in the creation of new designs. Brilliant in beauty . . . revealing new harmonies of colors and lines. Triumphantly new. Appealingly different. Finer in every way. From its chrome-plated front bumper back to its chrome-plated tail-light . . . as new as this morning's dawn.

A new chrome-plated radiator . . . surmounted by a large flat chrome-plated cap. Craced by a new front

louvre effect in an exclusive chevron design. Flanked by new seamless full-crown fenders . . . flaring fenders with a 71-inch spread.

And then the bodies! Seven new and superbly beautiful types . . . Closed types with adjustable drivers' seats. Two convertible closed cars . . . the Convertible Cabriolet and the Landaulet Sedan.

And such glorious performance as you've never known before. Soaring top speed . . . seventy miles an hour and more! Sixty-eight brake horse-power at 3000 r.p.m. A flashing pick-up . . . from 10 to 25 miles per hour in six seconds flat.

Such balance . . . such smoothness . . . such silence . . . such poise.

Resulting from its great new 228-cubic inch engine with exclusive patented rubber-cushioned mountings . . . 81-lb. crankshaft . . . harmonic balancer . . . larger, more highly perfected carburetor . . . the G-M-R cylinder head. Such marvelous control. Steering ease from a new improved mechanism. Braking ease from its new internal expanding four-wheel brakes . . . individually adjusted . . . requiring minimum pressure for a sure, silent, velvet-smooth stop.

Only the highlights have been mentioned. Only a hint regarding its pulse-stirring performance and style. To get the whole picture . . . to appreciate what its price will buy . . . come in. Have your highest expectations realized!

Prices \$1145 to \$1375 at factory. Lovejoy Hydraulic Shock Absorbers and spring covers included in list prices. Bumpers and rear fender guards extra. Check Oakland delivered prices—they include lowest handling charges. General Motors Time Payment Plan available at minimum rate.

NERVOUS HEADACHE

Kentuckian Tells How Taking Black-Draught Relieved His Pains and How Well He Feels Now.

Waynesburg, Ky.—How a few doses of Theoford's Black-Draught brought relief to a man who had been suffering from frequent spells of severe headache, is told below in the statement of Mr. Charles F. Todd, of Estesburg, near this place.
"I was suffering with nervous headaches. About once a week I would have these headaches, and have to quit work, and go to bed for about twenty-four hours. I would have pains in my neck, and right behind my right ear.

"A merchant at Estesburg saw me one day when I was suffering, and told me to try taking Black-Draught, which I did.

"I took a package home that night, and took a few doses. It relieved me. From that time on, I would take Black-Draught as soon as I felt like I was going to have one of those headaches—and they wouldn't come on.

"Every few weeks, I take three or four doses of Black-Draught, and I feel so well, and do my work, and don't lose any more time with headache.

"I haven't had a headache in six months."

Costs only one cent a dose.

Get a package today. NC-189

White Rats in Marathon Race For Scientists

By H. R. Hill
(International News Service Staff Correspondent)

BERKELEY, Calif., Oct. 27.—Sixteen white rats are running a marathon in little wire cages at the University of California to permit scientists to increase the world's knowledge of the effect of the ductless glands and of vitamins upon energy output or activity.

Dr. Joseph Yoshioka, research associate in psychology and anatomy working under Dr. Herbert Evans, discoverer of vitamins E and F, is conducting the experiments, one phase of which had its beginning back in 1916.

At that time Dr. T. B. Robertson, in the department of biochemistry, isolated "tethelin" from the anterior lobe of the pituitary gland which was claimed to hasten the

healing of wounds.
Dr. F. E. Smith, working under Dr. Evans, a few months later failed to substantiate this result but found that the anterior lobe of this ductless gland influences metabolism, growth and visual development.

Since that time slaughter houses in every part of the San Francisco bay region have contributed the pituitaries of freshly killed cattle.

Pituitarian, the drug which is made from the posterior lobe of the same gland, has an entirely different action from that made from the anterior lobe.

Science has discovered that this former vital substance has an important effect in hastening the birth of a child.

Hyper-pituitarism, an abnormal function of the pituitary lobe is a cause of one type of gigantism. Hypo-pituitarism, or subnormal function of the pituitary, leads to one type of infantilism, the true dwarf.

But much remains to be learned, according to the scientists.

The quickest way to keep abreast with the times is to read the ads.

BRITISH CHURCHES PLAN CAMPAIGN OF GAMBLING DRINK AND DOG RACES

LONDON, Oct. 27.—Free Church Ministers are to conduct a strenuous 4-point campaign at the general election next year. Their main points of attack will be directed against: legalized cash

betting; dog racing; extended drinking hours; Sabbath non-observance.

Already many thousands of voters, members of the respective churches have pledged themselves to the National Council of Christian Churches to give their votes to candidates who will support this platform.

Curious Facts About Your Car and Its "Gas"

By ALAN P. INGALLS

It is estimated that fifty million people will sail forth in automobiles bent on vacation of one kind or another during the coming summer months.

A highway curve for which automobiles do not slacken speed but take the bend at forty or forty-five miles an hour has been constructed at Vermilion, S. D. It is scientifically banked like a race track. The work was done under the direction of H. B. Newcomb, professor of civil engineering at the University of South Dakota.

The New York Herald Tribune, in commenting on the budget introduced by Winston Churchill, Chancellor of the Exchequer, covering the coming year, says that British opinion is divided on the proposed gasoline tax plan to aid industry and that motorists are incensed by the Government's proposal to put on a four pence a gallon levy.

How to cross the continent in thirty days by easy stages including week-end stops, side trips for sight seeing, is related by the Bureau of Public Roads, U. S. Department of Agriculture, in its description of U. S. route 40, extending from Atlantic City to San Francisco. The United States Government has contributed nearly eighteen million dollars to the improvement of this transcontinental highway.

If a pound to the engine is regular and continuous, it is likely to be from lost motion in the bearings. If it is irregular and occasional, it is more likely to be due to pre-ignition caused by incandescent carbon or imperfect connections. If the pounding is accompanied by occasional missing, especially if the missing is more frequent when the car is running than when the engine is off, it is more apt to be due to imperfect electrical connections.

Racketeers in Cities Add to Crime Problem

By Jack A. Bradbury
(International News Service Staff Correspondent)

KANSAS CITY, Mo., Oct. 27.—The recent development of organized "gangs," supported by the wealthy groups, which are making their appearances in many cities of the United States is constituting one of the most serious crime problems in the country. This was the assertion made by Arthur V. Lashly, criminal survey expert, in a recent statement to the American Prison Association.

"Underworld business enterprises known as 'rackets,' are operated in large cities, in flagrant violation of the law," Lashly declared. He characterized the growth of racketeering power and financial success as "the most pronounced phenomenon of American urban life in recent years."

Real Criminals
The bootlegger, the rum runner, the hijacker and the public gamblers are the real money criminals. Kidnaping for ransom, intimidation of voters at the polls by underworld hoodlums, extortion by bombing and other methods of terrorists are linked definitely with the gambling and liquor rackets, in many places through the same individuals and the same leadership.

The police and other officials were censured by Lashly for their failure to apprehend and punish the dangerous professional criminals.

"The ignorant, the occasional offenders, the criminal morons, those who commit crime in the heat of passion, the indigent persons driven to crime by necessity and those who lack influence are usually caught and vigorously prosecuted," said Lashly.

Professionals Go Free
The professionals who have the means of quick escapes, and those who have financial backing and political sponsors go free.

Mr. Lashly pointed out that surveys had shown that in Kansas City 95 per cent of the major felons escaped arrest. In St. Louis 93 per cent and in Chicago 80.61 per cent. Of those arrested in Kansas City, 1.25 per cent are punished. In St. Louis 2.75 per cent are punished and in Chicago 5.51 per cent.

Mr. Lashly cited practices of prosecutors in four large cities, New York, Chicago, St. Louis and Cleveland, as evidence of what he termed the "easy, unconcerned, apathetic and often sporting attitude of prosecutors toward criminals."

CONVICTS ESCAPE

EDWARDSVILLE, Ill., Oct. 27.—Freddie Wooten and Mike Durant, two desperate criminals, one of whom was sentenced to death, and the other a former member of Birger's notorious southern Illinois gang, escaped from the Madison county jail today.

College Boys Earn Way by Playing Jazz Tunes

HAL KEMP

They say the "laff" is the work of any small group. They say the "laff" is the work of any small group. They say the "laff" is the work of any small group.

Saxophone Supplants Dish Washing as Chief Aid

New York City.—Restaurant managers near college centers who are puzzled and regretful at the decided shortage of earnest-faced youths eager for dishwashing jobs to help pay their way through college, may as well give up hope now of ever again finding the old supply on hand. Thousands of college boys making it on their own, who once relied on dishwashing jobs or waiting table or peddling magazine subscriptions from door to door, now sail through college in affluence by playing in jazz bands.

Band Paid Way
Hal Kemp, of the University of South Carolina, says so, and he ought to know, for he paid his way through the University by starting a band which now demands one of the largest salaries paid in the music world.
"Over sixty per cent of the boys paying their own way through college today are earning the wherewithal by playing in the college band, and for school dances and for affairs off the campus," he asserts. "This wholly new part-time occupation for musically inclined students has grown up within the last ten years, and has made a college education possible for thousands of American boys. Medical students especially, whose long hours of laboratory work, leave very little time for earning money, have seized upon this new opportunity."

Remuneration High

"The great demand for snappy college bands makes the remuneration certain and high, and the job interferes less with class and study time than any other part-time occupation."
"The demand for college orchestras has made the demand for college tunes. And the 'prom-hoppers,' that army of flappers, who troop from one university prom to another, are responsible for creating many of the song hits of the country."
"This year the 'prom-hoppers' went touting 'Yale Blues' which one of them brought from England. The flapper army were so enthusiastic about this new song and dance that they were singing it and dancing it before it could be bought in this country."

CARD OF THANKS

We wish to express our heartfelt thanks to our many neighbors and friends for their help and sympathy during the last illness and the death of our beloved husband and father, T. W. Whiddon. Especially do we thank you for the beautiful floral offering.

We also wish to express our thanks to Pat Wood, Charlie Ashton, Altus Stokes, Paul Pullin, Milton Gibson, Lawrence Pape, Tom Moreland, Lee Moreland, Kimball Wood, Wesley Wood, Clarence Routh, Herman Stokes, Cecil Lander, Frank Smith, Henry Stubblefield, Jack Hamilton, Charles Burger, J. W. Maxy and W. A. Archie, who on October 4 volunteered their service and picked 3600 pounds of cotton.
May God's richest blessings rest upon you all.

We Call For and Deliver

NOVEMBER THE MONTH OF THANKS

Try trading with J. M. Jones' Grocery and Market. In the month of November we all, or should all extend thanks to our Provider that we have been privileged to live and enjoy this life. We should be thankful for all the blessings bestowed upon us.

YOU'LL BE THANKFUL

for the privilege of eating our foods, which are the best to be had at all times. And here we have a little secret that we want to let you in on—Our Vegetables are kept Ice Cold all the time, therefore they are fresh and crisp every minute of the day—they are just like they were the morning they were gathered from the garden. Our variety consists of Celery, Lettuce, Peppers, Turnips, Green Mustard, Spinach and Carrots. The refrigerator system is the only perfect system of keeping fresh vegetables fresh.

OUR MEATS, FRESH AND CURED

Right along with our vegetables you will find our Meats to be the most tasty, the very choicest of cuts being available at all times. And you don't have to come to town and carry what we sell you—we serve you with prompt delivery and are glad of the opportunity of making new friends.

This Says Keep Out

A broken plate glass window may seriously decrease your sales—unless it is replaced immediately.
Avoid patched-up windows. Insure your Plate Glass. It's cheap and it's necessary.
May we give you an appraisal of what this protection will cost you
