## 17,082 Pay to See Baseball This Year

Ballinger has enjoyed a good season of professional baseball, and to give the fans some idea of the problems which the management faced below are listed a number of the expense and receipts items that should be of interest.

The final balance for the year has not yet been made as there is some money coming to the local association from the sale of players and as soon as this is received a complete statement will be made up by the officials. Fred Kiechle, secretary-treasurer, stated Saturday that every item would be taken care of that was approved by the management and the club would own its franchise and equipment. This will be held until next spring when it will be decided if there will be a West Texas League and what cities will comprise the circuit.

During the four-month season here there were 17,082 persons who paid admissions to Fair Park. In addition to this there were 23 "ladies" days, when approximately 5,000 ladies saw games free.

The total gate receipts for the 60 games played at home amounted to \$9,835.45.

Of the subscription list made up at the beginning of the year amounting to \$3,100, a total of \$2,500 was collected.

Another receipt that the directors figure is above the average was the sale of approximately \$5,500 worth of players.

Expenses ran pretty high and many items that could not be figured at the beginning of the season came in later.

Training expenses before the opening of the season amounted to \$723.90.

Preparing the diamond and labor on the grounds through the year cost \$491.15.

It cost \$2,710.36 for the team to travel on the road during the season.

The expenses of visiting clubs paid by the local management totalled \$4,500.

The expense of baseballs for the season was \$659.74. That amount of balls was used in addition to fifteen dozen free balls given to the club at the beginning of the year.

Fees paid to the league office amounted to \$895.74.

The miscellaneous expense account was \$1,148.92. The largest item on this column was for transportation of players to Ballinger after signing them on contracts. Other items include telephone and telegraph, medical attention, lumber, lime, coal, bus upkeep and other small items.

In addition to these figures of expense were the buying of the bus, players' salaries, uniforms, bases, catchers' equipment, etc.

The management feels very gratified that it has been able to put the big proposition over and finish the season without a large deficit. Expenses were slashed wherever possible, and the playing managers operating the team very economically.

## Rain Here Does Grass Much Good

ABILENE, Sept. 7.—Mason last night and this morning welcomed an exceptional downpour of rain, amounting to four and one-half inches according to a dispatch report of the West Texas Utilities Company. Mason and the territory extending on north through San Angelo, Ballinger, Winters, Merkel, and Anson, report heavy rains with precipitation still falling at 9 o'clock this morning.

Some twenty counties extending from Jones on the north to Tom Green and Mason on the south, were visited by these invaluable rains last night and early this morning according to the Companies report.

McCamey on the west reported no rain, as did Cisco, Stamford, Roby, Munday, and Quanah on the north.

Rain continued to fall here this morning after having stopped for some time Friday afternoon. The rain came during the night and a slow downpour continued until 9: a. m. and after stopping for some time continued about noon.

The precipitation here within the past few days has reached over an inch and has greatly helped and grass in the en-

## Victory Fair Meet Is Big Success

The first of a series of community meetings was held at Victory school house Friday night. The meeting was well attended. The program was interesting and much interest was manifested by Victory citizens in the objects of the gathering.

Inspirational speeches were made by J. D. Motley, of the Ballinger Chamber of Commerce, and S. W. Cooper, of the Winters Chamber of Commerce. The value of community advertising through the medium of fair exhibits was stressed in both talks, as well as the value derived by competition with other communities.

C. W. Lehmburg, county agent, and Mrs. Lura Hollingsworth, home demonstration agent explained the use of the fair score card. Points used in judging booths were taken up and given in detail.

After the speeches four committees were appointed to push fair work and see that booths were made for the exhibits. The committees appointed were: agriculture, arrangements, boys' and girls' clubs, and exhibits.

Victory will have two booths at the Runnels County Fair, one a general community booth, and the other to display home demonstration activities. Besides the community booths individuals of both sexes will take part in the open contests and will enter exhibits in these phases of farm and home life.

After the business session had been concluded the ladies of the community served ice cream and cake. Enough was prepared to serve the proverbial five thousand, and Ballingerites who attended said it was of excellent quality.

Other meetings of this type will be held every night next week in the interest of the fair.

## Teacher Elected: Enrollment is 853

Supt. H. C. Lyon announced Saturday the election of a first grade teacher to fill the one vacancy in the Ballinger school faculty. Miss Gladys Jones of Conroe, Texas, has accepted the place and will report for duty Monday at noon. Miss Jones is an experienced teacher and will be able to take up the work Monday with her room.

Enrollment in the Junior Class totalled 74 and the Senior Class 60 which brings the total enrollment in the school for the first week to 653.

719 enrolled in the classes on the opening day and with the Junior and Senior enrollment, brings the number up to the present total. There has been others however, who entered the school after the first day who are not counted in this number. A good number is expected to enroll on next Monday, the beginning of the second week of school and within a short time the enrollment will be running as high as it will likely reach before Christmas.

Supt. Lyon also announced the opening date of the sale of season football tickets and the committee to look after the sale. The committee is composed of Fred Kiechle, Chairman, H. S. Strain, Ross Marchison, Tom Caudle and J. R. Lusk. Season tickets will sell for \$2.00 for adults and \$1.00 for students. The tickets will be good for five games at home and will be a saving to those who purchase them. The sale will start on Monday, September 16th and anyone who is not solicited by someone of the committee will be able to buy a ticket at one of the drug stores. The sale of student tickets will be handled in the school. Mr. Lyon hopes to sell 300 season tickets which will be slightly more than was sold last year, but such an amount will insure the team against financial loss. The prospects for a winning team and with more interest in football, this number should be an easy goal.

Miss Eleanor Kirk will arrive in Ballinger tonight from Los Angeles, California. This is Miss Kirk's first visit to the old home town in over two years.

## Young Bandit is Shot at Dallas

(By International News Service) DALLAS, Sept. 7.—A youthful unidentified bandit was shot to death here today while attempting to rob the cash register in a suburban filling station.

Lining up Jack Stallings, night manager of the station, and several customers at the point of a gun, the bandit proceeded to rifle the cash drawer. Stallings shot twice with a pistol concealed in his clothes.

The bandit died in an ambulance while en route to a hospital.

## Salvation Army Drive is Set for Monday Morning

W. B. Pedigo, of Dallas, is in Ballinger this week preparing to open the annual Salvation Army drive in this county. After a conference with the local board it was decided to commence the drive in Ballinger Monday morning at 9 o'clock.

The drive will be conducted similar to that of last year. The city will be divided into four districts and four teams of two men each will call and give the citizens an opportunity to contribute to this cause.

The county quota has been set this year at \$750, which is less than last year's quota.

The local executive board for the Salvation Army is composed of R. W. Earnshaw, president; J. D. Motley secretary; Joe Simmons, treasurer; W. C. McCarver, Troy Simpson and E. E. King.

In addition to the drive in Ballinger, Miles and Rowena will be asked to raise their quotas of \$100 each. These towns raised their assessments last year in about an hour and no trouble is anticipated there this year. Winters last year did not go into their part of the county quota as other matters were before the town at the time the campaign was made in the county. Another board will have charge of the Winters section drive this year, it is understood.

The Salvation Army sprang into prominence during the World War. Activities of the organization on the front with the American armies made them friends of the public and their heroic work has never been forgotten.

In Texas the Salvation Army has been doing a great work for a number of years. Over 250 girls and women were cared for with their infants at the woman's home and maternity hospital at San Antonio. Eighty-five per cent of these cases were from small towns and villages in this state. No effort has been spared to make the institution homelike and comfortable. No restriction is placed on any patient and regardless of whence they come, religious affiliation, or whether a contributor to the S. A., they are welcome at this home.

The Salvation Army is international in scope, maintaining divisions in 85 countries and colonies of the civilized world, and its "soldiers" speak 59 languages. Eighty-five per cent of the money collected for the body goes to those to whom it was intended and only 15 per cent is used for maintenance.

Ballinger has never fallen down on a Salvation Army drive. Every quota assessed against the city has been raised. The local board expects to make one canvass of the town and receive sufficient money to go over the top this year.

Teams selected for the annual drive and their wards are as follows:

Team No. 1—Scott Mack and Earl Morley, working from the Santa Fe Railway on Eighth Street to the Ballinger Lumber Co. on Hutchings Avenue.

Team No. 2—R. T. Williams and Harry Lynn, working from the Santa Fe on Eighth Street to the Ballinger Cotton Oil Mill.

Team No. 3—Henry Jones and Fred Kiechle, from the fair grounds on Eighth Street to the Colorado River on Hutchings Avenue.

Team No. 4—E. E. King and Tommie Hall, working the east side of Eighth Street on the remaining block to the court house.

R. W. Earnshaw returned Friday night from Abilene after spending the past week there with the Weeks Drug Store.

## Sleeping Boy Falls From Truck; Hurt

Donald Griggs, 8-year-old son of J. C. Griggs, of Norton, was painfully injured Thursday night when he fell from a moving truck onto the pavement, a few miles from Winters. The boy was rushed to the Halley & Love Sanitarium here, where he was given surgical treatment and was reported to be resting well Saturday.

Mr. and Mrs. Griggs were returning from Fort Worth in a truck owned by A. T. Chapman of Norton, and when the children became sleepy they were placed in the rear of the truck. After going a few miles it was noticed that Donald was missing. The truck was stopped and a search instituted. The lad was found about two or three miles back the road, with a fractured skull. He was brought to Ballinger in an unconscious condition, but responded to emergency treatment.

Mr. Griggs is an employe of Mr. Chapman, and resides at Norton. At the time of the accident he had just passed through a hard rain west of Abilene. The truck is a large one with trailer attached.

## British Have Key To Arab Trouble

(By International News Service) JERUSALEM, Sept. 7.—Hopes that the worst stages of the conflict between the Arabs and Jews in Palestine have passed, were expressed today as a result of a peaceful passing of the Moslem Sabbath. It was on this occasion at a religious celebration two weeks ago that the first clash broke out, and at each subsequent gathering of the Moslems in the famous Mosque of Omar the population has been fearful lest new uprisings follow.

However, with British machine gun posts established at the gate of Jaffa and the gate of Damascus, through which the Arab worshippers from the outlying villages are forced to pass en route to their temple the day of worship passed without incident. Railway and telephone communications are now being restored throughout Palestine. The British authorities claim to have the key positions well in hand.

## Examination Shows Impure River Water

During the water shortage which has been threatening Ballinger, City Health Officer, E. R. Walker, sent a specimen of the Colorado River water to the Health Department at Austin for analysis. A report of this was received by him Saturday and it was very unfavorable.

The examination revealed that the river water was impure, having germs causing intestinal trouble and possible typhoid germs.

He said in an interview Saturday at noon that he wished to take this means of warning the people who were using this water of its impurity, and cautioning them in the future.

"The water will be alright if it is boiled before using," he said, "and anyone using it is asked to take this precaution before using it for household purposes."

The water in the creek after passing through the purifying stages is pure, and can be used without any danger he stated, and since the rains the supply has increased to insure another three months supply.

## Extend Search for Missing Aeroplane

(By International News Service) KINGMAN, Ariz., Sept. 7.—Arizona and Utah districts, far to the north of the Winslow center, today became new fields of search for a hundred scout planes seeking the lost air liner "The City of San Francisco."

John Collins, general operating superintendent of the Transcontinental Air Transport Line, from his field base at Winslow wiped the slate clean of all of yesterday's rumors and suddenly ordered the concentration of nearly a hundred ships on the north rim of the Grand Canyon. The basis of the order to swing the search northward was unannounced.

WAYNOKA, Okla., Sept. 7.—A cabin plane, believed to be carrying Colonel and Mrs. Charles A. Lindbergh flying westward from New York to aid in the search for the missing plane "The City of San Francisco," passed over the Transcontinental Air Transport airport here today.

The machine was flying at a high rate of speed in a westerly direction.

## Man is Rescued From Deep Well

(By International News Service) OTUMWA, Iowa, Sept. 7.—Forty-two hours of agony beneath tons of rock and quicksand ended early this morning when rescue crews working frantically throughout the night rescued William Priest, 55, from the bottom of a thirty-five foot well, where he was trapped Thursday by a cave-in.

Nearly frozen from the cold in his narrow prison, Priest was wrapped in rubber blankets and rushed to a hospital.

## British Ace Killed In Plane Crash

(By International News Service) LONDON, Sept. 7.—A E. Woodbridge, famous British war ace, who shot down Baron Manfred von Richtofen, Germany's premier war flier during the World War, was among three persons who were killed today when an Imperial Airways mail plane en route from London to India, crashed at Jaak, Persia, according to Exchange Telegraph Company dispatches from Karachi.

## 150 Persons Drown When Steamer Sinks

(By International News Service) LONDON, Sept. 7.—More than 150 persons, including many school children, were drowned when the steamship Kuru sank off Tammersfors harbor on Lake Naesi Jaervi, it was reported by the Exchange Telegraph Company from Helsingfors, Finland, today. The vessel was lost in addition to the passengers it was said. Only fifty persons were rescued.

## Texans Launch New Fighting Cruiser

(By International News Service) NEWPORT NEWS, Va., Sept. 7.—While 200 Texans headed by Governor Dan Moody cheered lustily the light cruiser "Houston" slid down the ways of the Newport News Ship Dry Dock Corporation today after Miss Elizabeth Holcombe of Houston broke a bottle of water taken from the Houston ship channel against the steel bow of this nation's latest fighting ship.

Miss Mary Ellen Bute, of Houston, was maid of honor for the occasion, and Miss Charlotte Williams, granddaughter of General Sam Houston, was also present.

Be wise and advertise.

## Sets New Flight Record in Races

(By International News Service) RYDE, Isle of Wight, England, Sept. 7.—Flying Officer H. R. D. Waghorn, of England, beat all flying records this afternoon when he completed the Schneider Cup course at an average speed of 328.36 miles per hour. The old record for the course was 281.49 miles per hour. The seaplane record for the straight-away course was 318.82 miles per hour.

Rains have visited practically all of this territory and in most places will do some good. Local observers estimate that the Runnels county cotton crop will be greatly aided in case of a late frost, and estimates of from 10,000 to 15,000 bales have been added to the total production. There are some who still claim that the rains will be of no benefit at all.

The Concho County Fair at Eden has been entirely rained out. This association recently built a race track, new grandstand, and enclosed the entire plot of ground. The dirt track became so muddy that the races were called off after the first day and the fair organization will be hit hard. It is understood that rain insurance was provided but it is hard to cover all expenses with insurance.

**WHY NOT RACES?**

Each passing year here sees a stronger agitation for the construction of a race track at the Runnels County Fair. If the association could take in the old tourist park, tear down the old dairy barn and build another grandstand on the track at the longest lap, there is no reason why races could not be held here in 1930. Grandstand acts are good but it is difficult to entertain the public for five days and nights with the same thing. For the fair to be a success it means that those who attend must go several times and this will never be done to the fullest extent until the program contains more to draw them. Few people want to see the same program more than once. With grandstand acts, football games, horse racing, and one big feature night with a pageant or style show, the same people would pay at least four or five admissions to the fair. The Runnels County Fair has grown rapidly and now has much more invested than its capital stock, but there is still a necessity for further growth. This growth in

the future, however, should be taken care easily by increased attendance. It is possible that the fence on the east side of the athletic field will be moved back this year and all of that end of Eighth Street closed. By doing this the football field can be arranged in front of the grandstand and bleachers and the spectators will not have to fight for standing room on the sidelines. This street is already closed just one block below where the athletic field begins and to move the fence back would not interfere with anything.

**TO USE MICROSCOPE IN CRIME DETECTING**

(By International News Service)  
CHICAGO, Sept. 7.—Gangsters, racketeers and other undesirable citizens are going to have their lives made miserable in Chicago next winter by a high-powered microscope.  
Major Calvin H. Goddard, ballistics expert, who was pressed into service by Coroner Herman N. Sundesen, and who will head the scientific crime detection laboratory which was created following the St. Valentine's Day massacre of seven men, will sail for Europe this coming week to study methods of microscopic crime detection in Paris, Berlin, Vienna, Rome, and Scotland Yard.

Chicago and other American cities are far behind Europe in the scientific inquiry of clues," said Maj. Goddard. "It is for this reason that I will spend the following months there, gathering what data and knowledge is available to put in practice here."  
Murders have been solved by continental detectives through the running down of bacteria found on dead men's clothing and through other detections equally as subtle. While the European police have not progressed as much as we in the science of projectiles, they have much to give us in other fields, such as blood analysis, the study of handwriting, of footprints and the like.

**PENNSYLVANIA YOUTH YOUNGEST AIR PILOT**

(By International News Service)  
EAST ST. LOUIS, Sept. 7.—Louis D. Strickler, 18, of Latrobe, Pa., recently graduated from Park Air College here, is said to be the youngest licensed pilot in the United States.  
Strickler, it was learned, intends to purchase an airplane and give flying instructions to his younger brother, who is eleven years old.  
According to Strickler's instructors at Park Air College, he was a particularly apt pupil both in flying and ground subjects.

**FIRE COMPANY GETS CHECK FROM DAY**

The fire company received a check of \$25 from Edwin Day in appreciation of the work done Wednesday night when a small fire threatened the entire Day Gin. Due to the quick work of the company the blaze was held in check until the bulls which caused the fire were extinguished. The fire did no damage, and no loss was sustained by the gin company.

**VITAL STATISTICS LAW IS CHANGED**

A change has been made in the law for recording births and deaths. The previous law was so construed that deaths and births were recorded in their precinct only, but a change which became effective August 20th makes it necessary that a copy of the record be sent to the county clerk who also records the certificate and keeps it on record in that office.  
Only cities which are incorporated now record the notices without sending them to the county clerk. This law was in force until 1928 when it was changed to precinct recordings only, but was again changed in August.

**NEW HAMPSHIRE STUDIES AGRICULTURAL PROBLEMS**

(By International News Service)  
CONCORD, Sept. 7.—A New Hampshire conference to consider the state's industrial, agricultural and rural problems will be held here in October, according to tentative plans made by the New Hampshire division of the New England Council.  
Ex-Governor John G. Winant will head the committee on arrangements for the two day meeting.

**DEATHS**

**Willie Jackson McDaniel**

Willie Jackson McDaniel, was born February 24, 1853 in Milam county near Rockdale, and died suddenly at his home from a stroke of paralysis at 7 o'clock Friday morning near Paint Rock. He came to Concho county in the fall of 1908, and lived with his parents on the Sims Ranch, three miles west of Paint Rock for several years.  
He was married to Miss Beulah Trigg at Paint Rock, December 14, 1913. To this union three children were born, one girl and two boys: Doris, age 13, John Henry, age 9, and Harold, 19 months.

Mr. McDaniel was converted early in life and joined the Methodist church and was a consistent member of the White Point church at the time of his death.  
Surviving are his widow, the three children, his parents, Mr. and Mrs. J. H. McDaniel of Paint Rock; the following are brothers and sisters: Oscar McDaniel and Mrs. Victoria Leonard, Paint Rock; Mrs. Vera Cotton, Bethel; Mrs. Maggie Cotton, Drason; Mrs. Oree Cotton, Floyd and Harold McDaniel of Paint Rock; One sister and one brother have preceded him in early life.

Mr. McDaniel was a very quiet, energetic young man, loved by everyone. He had many friends and no enemies. He was a kind and loving father, a devoted husband and a useful citizen in his

community. The friends can tell you about his life which has been very useful.  
Higginbotham Funeral Home were in charge of the funeral.

**Garling Green Howell**

Garling Green Howell, age 12 years, 8 months, 18 days died at his home six miles northeast of Ballinger at 8:10 Friday from an attack of diphtheria.  
Garling Green had only complained of being sick of some throat Thursday noon. He came to lunch from the field stating that he had a real sore throat. Friday it developed into Diphtheria. Everything was done that could be about his recovery.  
He leaves to mourn his going

besides his parents, Mr. and Mrs. C. L. Howell, two sisters, and three brothers; Ruby and Winona; Clifford, Calvert and Lee.

A private funeral was held from the family residence Saturday afternoon at 4 o'clock with Rev. R. B. Hooper in charge. Interment was made in the Evergreen Cemetery with Higginbotham

Funeral Home in charge at the grave.

P. T. A. Party Friday Night is Big Success

The party given by the Parent Teachers Association at the Country Club Friday night was a huge success. All the faculty members were present at the party and all the trustees but one. Many patrons of the school other than P. T. A. workers, faculty members, and trustees were also present.

The party was divided into forty-two games and fifteen tables of this was kept going during the entire evening. Besides these there were about fifteen or twenty who did not take part in the games.

Refreshments were served during the evening consisting of cold soda water and later cold soda and sandwiches were served to the guests.

After the full evening had been enjoyed by the assembled guests all the faculty members were asked to stand and the patrons were introduced to each personally. All say that it was an enjoyable evening.

## BLANTON CLUB BOYS

The 4-H Club Boys of Blanton met Thursday, September 5th at 3 p. m. at the C. F. Toungat farm for the purpose of judging milo maize.

Six visitors, six members and Mr. Lehmburg were present. Just as we were finishing our judging we were blessed with a good rain.

Age No Bar to Love Says Stone, Featured in "Wonder of Women"

Is romance in middle age as convincing on the screen as the romance of youth?

This what screen fans wondered when they heard that Lewis Stone was to play the romantic lover, opposite Peggy Wood, New York stage star, in "Wonder of Women," Clarence Brown's filmization of Hermann Sudermann's marriage problem romance, "The Wife of Stephen Tromholt."

Stone, as the middle-aged German composer in the new drama, which comes to the Palace Theatre Monday and Tuesday of next week, with sound and dialogue, loves more ardently but perhaps less impetuously than a younger "romantic" hero. And he says it's perfectly logical.

"Middle age," says Stone, "is as capable of a great love as any other age. The only difference between youth and middle age is that they look at life through different spectacles. The older generation has deeper capacity for love—a better understanding born of years of experience with life."

"Portraying the love of middle age on the screen, as in the present Metro-Goldwyn-Mayer drama, is, of course, technically very different from portraying the impetuous love of youth, but one the other hand, the element of love runs far deeper in such a characterization."

Ernest Nance left Saturday for Brownwood where he will enter Howard Payne College Monday.

## BILIOUS, DIZZY

Lady Says She Suffered Much Discomfort Until She Tried Black-Draught; Found It Brought Relief.

Townville, S. C.—"I had a bilious spell. I would get very dizzy and have such a bad taste in my mouth," says Mrs. Bertha Whitfield, of this place.

"When I would stoop over, I felt like I was going over on my head. When I would get up mornings, I felt as tired as when I went to bed."

"A friend told me how she had been helped by taking Black-Draught, and how she kept it in her home. So I thought I would try it, any way, which I did, and from then on I have used Black-Draught when I feel bad, get up tired, or feel that I need anything. Now I recommend it to my friends."

"If I get tired and sluggish, feeling like I must sit around when I have lots to do, I take Black-Draught. A few doses seem to be what it takes to cleanse my system of impurities that may cause this trouble."

Black-Draught is made from finely powdered herbs and roots carefully combined, weighed and packaged by automatic machinery. Easy to take—no disagreeable after-effects.

Sold in 25-cent and \$1.00 packages at all druggists. Try it. NC-279

## Statuary Hall Draws Fire as 'Horror House'

By William S. Neal

(International News Staff Correspondent)

WASHINGTON, Sept. 7.—Fresh criticism of Statuary Hall in the national capital, which is visited by thousands of tourists each year, as an artistic "chamber of horrors" is being launched. A movement has been launched for the erection of a Hall of Fame to house the bronze and marble im-

The proposed new addition to the architecture of the capital city would rival the famed Roman Pantheon, the Versailles Hall of Fame, and the Bavarian Walhalla Hall of Fame.

The movement will get under way when Rep. Tinkham (R) of Massachusetts requests hearings on a resolution creating a commission to consider the erection of a new building near the capitol building.

Criticism of Statuary Hall has come from all parts of the country, but particularly from artists and sculptors who declare that it is a veritable "junk shop" for the exhibition of 58 statues of famous Americans.

The hall in the capitol building at one time was used as a chamber for the House of Representatives. It was a loading and trading place for some time after the House entered its new chamber until an act was passed in 1864 inviting each state to send statues of its two most prominent men to make up the American Hall of Fame.

At the present time there are 58 statues in the hall, with 96 permitted under the 60-year-old law. So crowded is it already that incoming statues are being placed in front of others.

Eight more statues are expected in the near future. California and Mississippi are to supply two each and Tennessee, Maine, Arizona and Montana each will send a statue of a famous resident of those states. One of the chief critics of Statuary Hall is F. W. Ruckstull, of New

York, a noted sculptor, who carved the statue of Gen. Wade Hampton, recently placed in the hall by South Carolina.

"There is not room to properly exhibit the statues," he said. "Lighting is bad and lighting is all important in the exhibition of statues."

"It is a shame that the nation's Hall of Fame must be located in such cramped quarters. There are many fine statues in the hall. At least a half dozen can be classed as masterpieces and the rest, with few exceptions are full of fine work as one finds at Versailles."

Charles E. Farnas, art curator of the capitol, is also anxious to have Statuary Hall moved.

"Under the law creating it Congress requested each State to supply two statues of their most noted citizens," he said. "The room itself is one of the most beautiful in the capitol, but it cannot house so many statues."

Among the famous men whose statues are found in the hall of fame are Gen. Stonewall Jackson, Father Marquette, Senator Robert M. La Follette, Gen. Robert E. Lee, George Washington, James A. Garfield, Robert Fulton, Roger Williams, Lew Wallace, Henry Clay, Andrew Jackson, Daniel Webster and one woman, Frances Willard, whose statue was given by the state of Illinois.

Mr. and Mrs. L. Afflerbach and son, Chester returned Friday from Amarillo where they had been to attend the wedding of their son, Albert and Miss Olga Zappe.

## Ice Cream Specials

1 pint ..... 20c

These prices are at the plant and will not be delivered. RUNNELS COUNTY CO-OPERATIVE CREAMERY. 5-31d

## TABLE ANNOUNCES MISSIONARY'S DEATH

(By International News Service)

BOSTON, Sept. 7.—A cablegram received here from Durban, South Africa, announced the death of Rev. George B. Cowles, worker in Africa since 1893 under the American Board of Commissioners for Foreign Missions.

Mr. Cowles, who had been ill for the past year, left a wife, Mrs. Amy Bridgman Cowles, and two daughters, Ruth, a trained nurse at Johannesburg, South Africa, and Helen, a Boston librarian, now in Africa. Two sons, Raymond and Frederick are also in the field. Mr. Cowles has been supported in his work by the First Congregational Church of New Britain, Conn.

During his long missionary career, Mr. Cowles served in Adams, Grootville, and Umzimbe, South Africa. His work included the supervision of schools and churches throughout the entire district, necessitating many long trips on horseback into the jungle country. His final breakdown came at the end of such a trip lasting five days.

Rev. Cowles was ordained at the First Congregational Church in New Britain, Conn., in 1894.

## NEW MACHINE HARVESTS INDIANA'S BEAN CROP

(By International News Service)

VALPARISO, Sept. 7.—What is believed to be the only machine

for harvesting green beans in this county is being manufactured by

Urschel Laboratories here. The machine lifts the bushes to pick off the bean pods, then drops the bushes as the beans

are elevated in baskets to a con-

tainer. Bean picking has been one of the last agricultural activities to yield to machinery.

# Save with the PONTIAC BIG SIX

Although Pontiac value has been world-famous ever since the first Pontiac appeared in 1926, it has remained for the Pontiac Big Six to prove the greatest value of them all—to be the first to introduce Big Car Performance, Beauty, Comfort and Reliability.

Prices, \$745 to \$995. *f. o. b. Pontiac, Mich.* plus delivery charges. Bumpers, spring covers and complete shocks, slushers, trailing equipment at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list price when comparing automobile values. Pontiac delivered price includes only reasonable charges for handling and for financing when the Time Payment Plan is used.

**Save in Purchase Price**  
Pontiac is the lowest-priced six in the world combining a 200 cubic inch I-head engine, the Harmonic Balancer—the cross-flow radiator—gasoline pump—two separate braking systems including powerless, dirt-and-weather-proof internal-expanding service brakes—and bodies by Fisher.

**Save in Maintenance**  
According to the records of a large public utility company which operated 96 automobiles of 33 different makes during 1926, Pontiac costs one cent per mile less to own and drive than any other low-priced six.

**Save in Operating Cost**  
Pontiac costs less to drive because its automatic spark control assures highest engine efficiency—because the cross-flow radiator eliminates losses of alcohol in winter because its special non-squeak brake linings frequently serve for more than 30,000 miles without replacement.

**Save in Depreciation**  
Check the offerings of Used Car Dealers and you will find Pontiac resale values uniformly high. Pontiac's impressive record of performance and dependability has built a ready market for used Pontiacs. Never before has there been a buying opportunity such as the Pontiac Big Six affords today. Bring in your car and get our appraisal.

**TERRELL STRESSES SHORT COTTON CROP IN TEXAS**

(By International News Service)  
FORT WORTH, Sept. 7.—The morale of Texas cotton farmers has almost touched bottom as the result of depressing crop conditions this season, according to George P. Terrell, state commissioner of agriculture.

Speaking before the Southwestern Nurserymen's Association, in annual convention here, Terrell said that the state crop may go as low as four million gin run bales this year. Last year's crop was in the neighborhood of five million bales.

There will be a serious cut not only in cotton production, Terrell declared, but there will be a small quantity of inferior feed crops. The conditions which prevail in Texas also hold good in other southwestern states.

The state department of agriculture's last cotton report estimated a yield of 4,356,000 bales for

this year, but continued dry weather may cut into that figure. Corn and grain sorghum have suffered in all sections for lack of rain.

**MARYLAND TO RECEIVE VALUABLE OLD PAPERS**

(By International News Service)  
BALTIMORE, Sept. 7.—A series of forty pieces of Americana relating to the early settlement of Maryland under the first and second Lords of Baltimore have been purchased in London by Dr. Hugh H. Young, of this city. The papers will eventually become the property of the state of Maryland.

**Your Part In Prosperity**

Getting all the money possible is not the individual's full share in prosperity. Each of us shares, also, in the responsibility of maintaining prosperity.

That means liberal buying to help keep stores, factories, farms, and mines busy. It also means sensible saving in order that a reserve may be accumulated to guard against slumps in the future.

This bank is a safe place to cache your extra cash and build up a bulwark of protection of present prosperity.

Use it for your benefit and because of its benefit to the business world from which your income comes.
