Gov. Moody May Save Howard From Chair

(By Associated Press)
AUSTIN, Nov. 7.—The chances that Governor Moody would commute the death sentence of P. W. Howard, whose latest execution date has been set for early Saturday morning, were good today as the chief executive studied the record of the case.

The governor said he had been advised that the former wife of Howard, who testified against him in his trial, had retracted much of her testimony.

Lubbock Slayer is Given Postponement

(By Associated Press)
LUBBOCK, Nov. 7.—Motion for a continuance in the trial of Clay Lester, charged with the slaying of his wife, was granted today by Judge Clark Mullican. The case was reset for December 2. The motion was filed by the defense because of the absence of important witnesses. Several days ago Judge Mullican refused to grant a change of venue.

CRUDE OIL MAY YIELD TIRES, LARD, LEATHER

(By Associated Press)
WASHINGTON, Nov. 7.—The bureau of mines is conducting experiments in the belief that by-products of crude oil may yield substitutes for butter, lard, leather, and rubber.

Fatty acids in the oil, the bureau believes, will be the source of butter and lard substitutes, while aromatic hydrocarbons may furnish artificial leather.

Those are only a few of the infinite variety of everyday necessities that the bureau holds to be a part of crude oil. In the fatty acids there may be soaps and edible fats, while the aromatic hydrocarbons may produce in the future, picric acid, dye-stuffs, drugs, motor fuels, explosives, perfumes, antiseptics, saccharin, and xylol.

Eventually, too, the scientists may develop artificial rubber tires, druggists' supplies, waterproof clothing, electrical insulation, and cements, not to mention the possibility that substitutes for varnish and linseed oils may be hidden in the elements that make up crude petroleum.

Paving on Highway 30 Started This Morning

The first shovel of cement was poured on High No. 30 west of Ballinger Thursday morning exactly at 9:30 o'clock. A large crowd was present to see the paving begun. The work was commenced at the A. & S. Ry. tracks just east of the Colorado River bridge. L. E. Whittham, contractor, stated that unless it rained he expected to complete the first 800 feet some time Friday. This is to the first corner west of the bridge where travel will be detoured after the bridge is opened. For this stretch an extra amount of cement is being used in the mixture, and the road will be opened as quick as it is dry enough to permit travel. G. M. Garrett, state highway department engineer, stated that he could not say just how many days this would require and refused to state whether it would be possible to open this lap by next Monday, Armistice Day.

Everything was in readiness to start the work Thursday morning. A force of men was on the scene with a long string of trucks lined up hauling cement, sand and gravel from the company's plant five miles west of Ballinger. A giant Rex paver was in place and when a signal was given by Mr. Whittham, the machine began grinding at full capacity. The big mixer was dumping a shovel containing approximately 4,400 pounds of mixture every minute and twenty seconds.

The proportion plant is on the Santa Fe tracks five miles west of the city and is said to be modern in every respect. Material is being shipped from the plant owned by the company at San Angelo to this place. Gravel and sand is washed and screened at San Angelo. Great dumps at the

Snow Covers Big Area of Mid-West

(By Associated Press)
KANSAS CITY, Nov. 7.—A blanket of snow was spread over a wide area of the West today. Wheat lands in Northwest Kansas were covered with two and one half feet of snow. The storm extending over Wyoming, Montana and the Dakotas, the weather bureau reported.

White Gets 1 Year On Liquor Charge

Eugene White, charged with a liquor law violation, was found guilty and sentenced to one year in the penitentiary Wednesday afternoon. The entire day was required to try this case in the district court.

The jury in the manslaughter case of the State vs. John Elkins was chosen today just before noon and after their acceptance district court was adjourned until afternoon. At the beginning of the afternoon session the witnesses were sworn and taking of testimony began. About twenty witnesses were prepared to testify in the case.

Elkins is being tried for the slaying of his nephew, Norman Weaver, in the district court room of the Coleman county court house on January 2, 1922. At a previous trial the jury returned a verdict of guilty and after a reversal of the case by the Court of Criminal Appeals it was transferred from Coleman to Runnels county.

HINKLE & HOWELL BUY FARLEY MEAT MARKET

Jim Hinkle and Weldon Howell have purchased the Ed Farley meat market it was announced Wednesday. The new owners took charge of the market on the first of this month and will operate the place under the name of Hinkle & Howell.

Mr. Howell is an experienced butcher, having been with the Piggly Wiggly market for the past two years.

Robbers Loot Every Store in One Town

Russians Inspect Local Oil Mill

Two Russian Soviet officials, A. N. Sokolov and B. E. Volkman, have been in Ballinger this week inspecting the local cotton oil mill and the machinery manufactured here by the Creasy Rotary Filer Company. The Russians are directors of the oil mill, soap works and refineries of the chief cotton committee of the U. S. S. R. In their visit to the Ballinger Cotton Oil Mill plant they were accorded full courtesies by Manager H. W. Lynn, and the same was done at the rotary filer plant by R. B. Creasy.

Messrs. Sokolov and Volkman were accompanied by their interpreter, J. Geneson, as neither of the officials can speak English.

The party spent several days in Abilene and came on to Ballinger to spend one day. From Ballinger the Russians went to San Angelo.

The officials are checking up on the efficiency of their factories as compared with the same kind of plants in America. They stated that they used some American machinery in their plants and desired to know how factories of this kind are managed and operated in the United States.

The Soviet owns and operates such institutions in Russia, and when more are needed, builds them. It is understood that their factories are far behind the modern mills of this country. We are informed that cottonseed in most cases are taken to presses in sacks instead of being handled constantly by machinery as practiced here.

The Russians manifested great interest in the machinery and methods they were shown here.

LOST CONTINENT OF MU TRACED IN OLD STONES

(By Associated Press)
PAPEETE, Tahiti, Nov. 7.—Legends of the lost continent of Mu, which oriental tradition says disappeared in fire and flood leaving islands of the Southern Pacific, have been revived by finding evidence of a race that populated these islands before the ancient coming of the Polynesians.

Recent explorations by anthropologists upon mountainous plateaus have shown stone structures of a quite different character than those erected by Polynesians. Remote burial caves have given up skulls not Polynesian.

The fable is that Mu once comprised land filling a vast region of the southern Pacific. It sank, leaving only the tops of volcanic mountains above water.

FARMER'S HAY INVENTION CHOPS, BLOWS AND LOADS

(By Associated Press)
CALPATRIA, Cal., Nov. 7.—Hay-making has been put on a mechanical basis with a home-made device of Ira D. Aten, Jr.

It is a portable hay chopper, blower and loading machine which he uses on his 1,240 acres of land.

The hay is cut, raked into windrows, cured, elevated by a loader to the chopper and blown into large wagons traveling alongside. It is hauled to feed racks where the hay is again blown into weather resistant stacks.

Aten believes that by working a separator in conjunction with a dust collector, it will be possible to snick the leaf and blossom meal immediately.

HOUSTON CHIEF MAY GET NEW WEAPONS FOR MEN

(By Associated Press)
HOUSTON, Nov. 7.—If a storm of shotgun slugs come out of the mouth of a "fountain pen" in the hands of a Houston policeman some day soon, it won't be so strange.

Chief of Police C. W. McPhail has revealed his intention of buying such lethal pens, along with hand grenades, gas bombs and billies convertible, via split second, to gas guns. The police arsenal, he believes, needs strengthening. Only the approval of the city business manager is needed to complete the transaction.

The chief proposes also to equip his men with satchels equipped to release tear gas when dropped and with other "billies" firing a 12-gauge shotgun shell.

Two Escape Jail; One Recaptured

(By Associated Press)
NACOGDOCHES, Nov. 7.—Two persons escaped from the Nacogdoches county jail last night. One was recaptured by Ranger Carl Butler.

Van Zandt County Oil Boom Begins

(By Associated Press)
TYLER, Nov. 7.—Van Zandt County's oil boom received new impetus today with the news of a second well that had been spudded late yesterday. The drillers of the well said that they were going down for oil, if necessary, they would drill five thousand feet. Three other wells are also ready to spud in.

Age of Defendant To be Trial Issue

(By Associated Press)
EASTLAND, Nov. 7.—The age of Clyde Thompson, accused of slaying Lucian and Leon Shook, oil field workers, appeared to be the main issue in his murder trial here today.

The defense has indicated it would seek to show that Thompson was not seventeen years old when the crime was committed last year and should be dealt with leniently.

NEGRO HIGHWAY LABORER IS SERIOUSLY INJURED

Will Wheeler, a negro employee of a construction gang on highway 30 was rushed to the Ballinger Sanitarium about 2 o'clock Thursday afternoon. The man was caught under the gravel bed of a truck when the bed was going back into place after unloading at the mixer near the east end of the Colorado River bridge.

An examination at the sanitarium showed the negro had a fracture and wound in his left elbow, a punctured wound and fracture in his left hand and probably internal injuries in his left chest where he was mashed.

After the accident Wheeler walked a few steps after he was released from the truck and then fell to the ground. He was placed in a car and rushed to the hospital where his wounds were dressed and X-ray pictures made for internal injuries.

TEXAN IS HONORED

(By Associated Press)
NEW YORK, Nov. 7.—A Texas, Nahtan Adams of Dallas, is a member of the Economic Policy commission of the American Bankers' Association.

Special significance is attached to the commission because it was instructed specifically by general convention resolutions at the association's recent San Francisco meeting to watch and report developments under the proposal of Comptroller of the Currency John W. Pole for an extension of branch banking in the national banking system.

Mr. Adams is president of the American Exchange National Bank at Dallas.

SURROUND LONDON WITH RING OF POLICE PHONES

LONDON, Nov. 7.—A police ring of 1,000 monster telephone cabinets around London is the latest step in the intense warfare now being waged by Scotland Yard against automobile thieves.

These miniature police offices each contain a cell, writing desk, direct telephone to police headquarters, and telephones for public use.

The next move will be the establishment of a similar circuit at about a fifty mile radius from London. This outer cordon is to be equipped with mechanical means for stopping escaping automobiles.

College Heads to Ask Aid of Moody

(By Associated Press)
AUSTIN, Nov. 7.—Presidents and representatives of the University of Texas and other state colleges have petitioned Governor Dan Moody to submit an emergency appropriation for their institutions to a special session of the legislature to be called for January. The governor requested each college to give him a statement of their claimed imperative needs and promised to study them.

Run Runners Kill Officer in Fight

(By Associated Press)
TOLEDO, Ohio, Nov. 7.—Ralph Zahnie, 33, deputy marshal, died in a hospital here today of bullet wounds received when he was fired upon by a gang of rum runners. The car carrying guards of the rum truck suddenly turned in the path of the car of Zahnie and another marshal. The guards shot down the marshal before he was able to use his gun.

TREES PROMISE WET YEARS FOR ARIZONA

PHENIX, Nov. 7.—The trees tell Arizona that her drought troubles are over for a few years. Rains of the past summer relieved acute conditions on the cattle ranges and the watersheds of several big irrigation projects and Dr. A. E. Douglass of the University of Arizona, creator of the science of tree ring weather records, announced that the state was to expect its wet cycle now.

Dr. Douglass found that trees grew thick rings in wet years and thin ones when it is dry. By studying tree rings for 400 years back, he found there was a fairly definite 11-year cycle of wet and dry periods.

TRACES FOUND OF MAN 1,250,000 YEARS AGO

(By Associated Press)
NEW YORK, Nov. 7.—Traces of prehistoric men in England believed to date back 1,250,000 years are described by Dr. Henry Fairfield Osborn, director of the American Museum of Natural History.

They are found in Red Crag beds of East Anglia near Foxhall, a hamlet on the east coast, not far from Norwich. They are stone implements, roughly shaped, including pieces of flint fashioned apparently for scraping.

Dr. Osborn says the tools are positively of human origin and that they indicate men of sufficient intelligence to use fire.

Be wise and advertise.

Jury Returns Verdict in Hamilton Case; Acquittal

Run Runners Kill Officer in Fight

(By Associated Press)
WEATHERFORD, Nov. 7.—Judge R. H. Hamilton, former member of the State Supreme Court's commission of appeals, was a free man today, a jury having decided that he acted in self defense when his son-in-law, Tom Walton, Jr., bridegroom in secret marriage, was shot and killed in Hamilton's Amarillo law office last May. The jury required only an hour and forty-six minutes and three ballots to acquit the defendant.

SCHOOL BOYS TO FEED BABY BEEF CALVES

(By Associated Press)
COLORADO, Tex., Nov. 7.—More than thirty baby beef calves will be fed here this winter by members of the Colorado high school vocational agriculture class under the direction of Doyle Williams, instructor.

All the boys are required to take some kind of a project in connection with their class work and a large number of them will feed calves while others will take poultry, dairy or crop projects.

This is the first year for vocational agriculture here and more than forty boys are taking the work.

WEATHER FORECAST

(By Associated Press)
West Texas—Fair tonight and Friday except unsettled in the Panhandle with rain or snow probable.

East Texas—Cloudy tonight and Friday, probably rains in the east and north portions.

Worth More than Fortune to this Man

Abilene Carpenter Claims He Now Feels 20 Years Younger Since Taking Orgatone.

"I have gained one hundred per cent since taking Orgatone and I consider the good I have received worth more than a fortune to me," said W. W. Wilson, a well known carpenter in Abilene for the past twenty-eight years and who resides in the Overs Addition, Abilene, Texas.

"I feel it my duty," continued Mr. Wilson, "as well as a privilege to tell everybody what Orgatone did for me, for it may be that my statement will help others who are in the condition I was, before I took it."

"My health had been giving way for the last two years and of course I took all kinds of medicines but kept getting worse. I had stomach and nervous troubles that bothered me something terrible. I was in an awful shape and finally got so weak I could hardly walk around, much less do any work."

"The lightest of things to eat would hurt my stomach and cause me great misery. Finally it seemed as if everyone was talking about Orgatone and the good work it was doing, so I got a bottle and after taking a few doses I told my friends I had surely found the right medicine at last. I soon felt strong enough to go back to work and I just completed a job last week and it didn't bother me in the least. I am gaining strength all the time and feel one hundred per cent better than I did before I started on this treatment. If anyone wishes to know more about how Orgatone has benefited me will come to see me or write me. I will gladly help them all I can. I praise Orgatone above all other medicines I know of and recommend it to all who are suffering from troubles like I had."

Genuine Orgatone may be obtained in Ballinger at the Weeks Drug Store.

NEW BEETLES FOUND

WASHINGTON, Nov. 7.—(AP)—Eleven new species of beetles, collected in Costa Rica by Ferdinand Nevermann of San Jose, have been identified by W. S. Fisher, of the bureau of entomology. One species was named agrilus nevermanni, in honor of the finder. Many of the beetles have brilliant metallic colors, varying from bronze and copper to sharp oranges and purples.

Mr. and Mrs. J. M. Skinner returned Thursday at noon from Austin and Mason where they had been visiting their daughters.

NO MORE MARRIAGES FREE IN THIS TOWN

(By Associated Press) COLEFORD, Eng., Nov. 5.—For 50 years one of the best things in life—marriage—has been free in this Gloucestershire town.

But it's all over now. The vicar of St. John's church henceforth will be authorized to accept a fee from any couple he marries.

Half a century ago the Rev. T. Holbrow, then vicar of St. John's decided to encourage marriage among the younger members of his flock by performing the ceremony free.

The precedent he set has been followed by his successors, but after reviewing the half-century experiment in free matrimony, the church council has decided that people value things more when they have to pay for them.

Notice of Trustee's Sale

THE STATE OF TEXAS, County of Runnels:

Whereas, by virtue of authority vested in me, as trustee, named and appointed in a certain Deed of Trust, recorded in Volume 28, page 139, Records of Real Estate Mortgages of Runnels County, Texas, executed and delivered to me on the 23rd day of December, A. D. 1927, by L. R. Wilkerson and wife, Dora Wilkerson, of Crews, Runnels County, Texas for better securing the payment of one certain promissory note of Six Hundred Sixty and No-100 Dollars, more fully described in said Deed of Trust, executed by the said L. R. Wilkerson and wife, Dora Wilkerson, payable to the order of the Ballinger State Bank of Ballinger, Texas, at the office of the Ballinger State Bank

at Ballinger, Runnels County, Texas, due on the 23rd day of October, A. D. 1928, bearing 10 per cent interest per annum from date until paid, interest due and payable annually as it accrues, providing failure to pay said note or any installment of interest thereon, when due, shall at the option of the holder of said note, mature the same, and in such event the holder hereof may proceed to collect the same in the same manner as if the full time provided in said note had expired, and also providing for the payment of 10 per cent additional on the amount of principal and interest then due as attorney's fee, if placed in the hands of an attorney for collection, or if suit is brought thereon or if collected through the probate court; said note has, indorsed on the back thereof, the following credit: "3-15-1928, Paid \$70.30"

The said The Ballinger State Bank, of Ballinger, a banking corporation with its domicile in Ballinger, Runnels County, Texas, is the holder and owner of said note, and the said L. R. Wilkerson and wife, Dora Wilkerson, have made default in the payment of said Six Hundred Sixty and No-100 note, above described, except the credit indorsed thereon, due on the 23rd day of October, A. D. 1928, and the same is now past due and unpaid, principal, interest and attorney's fees, by reason thereof and as provided for in said note and in said deed of trust; the said, The Ballinger State Bank has declared said note due and in fact said note is long past due and mature, and has therefore so notified the said L. R. Wilkerson and wife, Dora Wilkerson, in writing; and

whereas, said note is now past due and unpaid, now aggregating, principal, interest and attorney's fees, of about Seven Hundred Eighty-Two (\$782.82) and 82-100 Dollars; and, whereas, I have been requested by the said The Ballinger State Bank, by and through its president, E. D. Walker, to enforce said trust, I will offer for sale, between the legal hours thereof, to-wit: Between the hours of 10 o'clock a. m. and 4 o'clock p. m., at public auction, to the highest bidder, on the first Tuesday in December, A. D. 1929, the same being the 3rd day of said month, at the court house door in the town of Ballinger, Runnels County, Texas, the following described property, to-wit:

All that certain lot or parcel of land lying and being situated in the town of Crews, Runnels County, Texas, being a part of the Juama Hasanmigui Survey No. 72, Certificate No. 21 1-2, and patented to T. A. Maverick on September 8th, 1876, by Letters Patent No. 7, Volume 22, and is better described as Blank Lot in Block D. In upon and according to the Front addition to the town of Crews as recorded in said plot in the Deed Records of Runnels County, Texas, in Volume 30, Page 100, said townsite being conveyed to M. M. Wallas, by W. S. Morehead and wife on December 24, 1900, and to W. H. Trout by M. M. Wallas and wife on December 25, 1900, and conveyed to T. O. Maynard, by W. H. Trout and wife, on May 8th, 1905, all of which reference is hereby made; and is further described by metes and bounds as follows: Beginning in the S. B. line of Main Street to the N. E. corner

of a lot formerly sold to W. T. Miller; thence south 120 feet to corner; thence west 30 feet to corner; thence north 120 feet to S. B. line of Main Street to corner; thence east with said S. B. line, 30 feet to place of beginning.

with all the rights, members and appurtenances thereto in anywise belonging.

Witness my hand this 6th day of November, A. D. 1929.

SAM BAKER, Trustee
d-7-14-21

It will be unfortunate if rains swell the Colorado River while the bridge is closed to the public. As long as there is no high water travel routed over the crossing at the lower end of Seventh Street will have no trouble but in case of high water it will be impossible for cars to get through. The bridge, however, will only be closed a short time and all possible speed will be made until the road is opened across the bridge to the first place where a detour can be made.

With pavement being put down on the A. & S. Railway to the river bridge on Hutchings Avenue it is going to make more necessary the paving of the remainder of Hutchings. It would be fine if this street could have connected paving from Tenth Street to the bridge, either paving the full street or a wide strip.

One phase of development that never ceases is erection of filling stations. The increasing number of automobiles creates a bigger demand for gasoline and these stations spring up in every city continually.

The majority of automobile accidents result from traffic violations. Collisions recorded in Ballinger have in most cases been due to motorists failing to heed traffic signs. When regulations are violated it makes the danger much greater than if there were no laws. The driver who is obeying the signs expects the other driver to do the same thing and when he fails to do so there is danger if not a wreck.

Women Buyers Plentiful
WASHINGTON, Nov. 7.—(AP)—American women, according to Dr. Julius Klein, assistant secretary of commerce, do 85 per cent of the retail buying in the United States.

Florida produced 82,000,000 bulbs this season, nearly 43 per cent of the total production of the United States.

Youth Has Found The Way!
AN ANCIENT PREJUDICE HAS BEEN REMOVED

AMERICAN INTELLIGENCE has cultivated the fertile field of opportunity and invites everyone to roam in search of desired pursuits. Nothing remains of that ancient prejudice which bound the apprentice, without choice, to his career.

"toasting did it" —

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

"It's toasted"
No Throat Irritation—No Cough.

"It's Toasted"—the phrase that describes the extra "toasting" process applied in the manufacture of Lucky Strike Cigarettes. The finest tobaccos—the Cream of the Crop—are scientifically subjected to penetrating heat at minimum, 260°—maximum, 300°, Fahrenheit. The exact, expert regulation of such high temperatures removes impurities. More than a slogan. "It's Toasted" is recognized by millions as the most modern step in cigarette manufacture.

Completes Milk Supply Inspection

(By Associated Press)
AUSTIN, Nov. 7.—Milton M. Miller, milk specialist of the United States Public Health Service, has completed a sanitary survey of milk supplies in 59 Texas cities which are operating under the standard milk grading ordinance. He spent five months in the state working in co-operation with the State Department of Health.

With a perfect score 100 per cent, general ratings of the retail raw milk supplies were given as follows:

Arlene, 97; Amarillo, 94; Aransas Pass, 93; Austin, 94; Beaumont, 85; Belton, 88; Borger, 81; Brockenridge, 93; Brownsville, 91; Bryan, 95; Cleburne, 84; Corpus Christi, 92; Crystal City, 91; Cuero, 92; Corsicana, 96; Donna, 76; Del Rio, 62; Eastland, 97; Edinburg, 81; Ft. Worth, 94; Fredericksburg, 100; Galveston, 93; Graham, 78; Greenville, 77; Harlingen, 89; Houston, 96; Jacksonville, 93; Jefferson, 96; Kerrville, 83; Laredo, 62; Lubbock, 98; Lufkin, 82; La Feria, 95; Longview, 97; McLean, 63; Mineral Wells, 90; Mercedes, 91; McAllen, 73; Marshall, 95; Marlin, 81; Mexia, 95; Nacogdoches, 86; Port Arthur, 98; Pampa, 98; Pharr, 98; Paris, 79; Ranger, 97; San Antonio, 97; Sweetwater, 98; San Benito, 91; San Juan, 69; Sinton, 93; Tyler, 88; Texarkana, 98; Uvalde, 79; Waco, 91; Wichita Falls, 85; Weslaco, 95.

Thirty-six cities scored above ninety, which Miller said was a "very creditable record, considering that the standard milk has been promoted in Texas over a period of only four years, and previous to 1924 there were very few Grade A dairies in the state."

This was the second official rating given the Texas towns by the United States Public Health Service, and in some cities the improvement was remarkable, Miller said.

BETHEL NEWS

Rev. Ezell, the new Methodist pastor, filled his appointment Sunday. Rev. Ezell comes from Ft. Stockton to this circuit.

We are sorry to report Mrs. H. G. Hays as being on the sick list.

The entertainment given by the P-T. A. last Friday evening was well attended and a nice little sum of money was made and put into the treasury for future use.

Mr. and Mrs. Bob Richardson were guests of Mr. and Mrs. Gene Richardson, of Ballinger, Sunday.

Mrs. John Adams and baby of Paint Rock, spent Friday and Saturday with Mrs. Adams' parents, while Mr. Adams was attending the teachers' institute at Brady.

Mrs. Smith of Maverick visited in the home of Mrs. W. M. Davenport Sunday.

Mr. and Mrs. W. W. Killam of Ballinger attended church at Bethel Sunday morning.

Mr. and Mrs. Hedrick Shelburne and Mrs. W. F. McShan visited Mr. and Mrs. Raif McShan of Ballinger, Sunday.

Mr. Woods and family have moved into the house recently vacated by John Whidden.

Shelburne Greenhill has returned from San Antonio. "REPORTER"

BILIOUS, DIZZY

Lady Says She Suffered Much Discomfort Until She Tried Black-Draught; Found It Brought Relief.

Townville, S. C.—"I had a bilious spell. I would get very dizzy and have such a bad taste in my mouth," says Mrs. Bertha Whitfield, of this place.

"When I would stoop over, I felt like I was going over on my head. When I would get up mornings, I felt as tired as when I went to bed. A friend told me how she had been helped by taking Black-Draught, and how she kept it in her home. So I thought I would try it, any way, which I did, and from then on I have used Black-Draught when I feel bad, get up tired, or feel that I need anything. Now I recommend it to my friends.

"If I get tired and sluggish, feeling like I must sit around when I have lots to do, I take Black-Draught. A few doses seem to be what it takes to cleanse my system of impurities that may cause this trouble."

Black-Draught is made from finely powdered herbs and roots carefully combined, weighed and packed by automatic machinery. Easy to take—no disagreeable after-effects.

Sold in 25-cent and \$1.00 packages at all drugstores. Try it. AC-219

BLACK-DRAUGHT
The Constipation Indigestion Remedy

SPORTS

For the past three years Brady and Ballinger have been playing football on Armistice Day and to date Ballinger has won two games and Brady one. Brady has a slight edge on the scoring however, with 44 points to Ballinger's 43. The following is the scoring for the past three years.

1926 Ballinger 7, Brady 32.
1927 Ballinger 12, Brady 6.
1928 Ballinger 24, Brady 6.

Our Guess:

1929 Ballinger 20, Brady 0.

If Ballinger can keep Brady from scoring this year it will be the first time they have ever shut them out. Brady each year has a hard fighting machine that is hard to keep from crossing the opposition's goal line.

The Bearcats and Bulldogs will break into motion pictures here Monday. A camera man will be here from San Antonio to take shots of the game and the film will be shown at a later date at the Palace Theatre.

Chastain, Coker, Lusk, Dankworth and Bailey were not suited up Wednesday and were giving their injuries time to heal a little. The men will be out to practice Thursday and by Monday they will be ready to go.

Brady has a slogan which is being posted everywhere, as follows: "Beat Ballinger Bearcats Badly, Brady Bulldogs." The alliteration will work both ways and when the game is over we predict that a proper heading for the news story will be something like this: "Big Ballinger Bearcats Beat Brady Bulldogs Badly."

Amusements

"She Goes to War!" Closes Run at the Palace

New in theme and decidedly so in its telling, "She Goes to War!" which story holds the screen at the Palace Theatre for the last showing tonight, reveals many startling qualities in a motion picture.

It glorifies the women of the world who gave their all during the gigantic conflict and chronicles their experiences in a most compelling manner.

Eleanor Boardman, heroine of this Rupert Hughes story is revealed in an entirely new characterization. As the pet of society in a small community, she is first quite unlikeable, but when her regeneration takes place, she finds her way into the hearts of everyone.

Director Henry King has his characters decidedly human—there is not one exaggerated note in the entire production. He has graced it with charm, numerous comedy touches and dramatic highlights which lift it far and above the average war story and the average screen story.

John Holland, a find of King's, brings to the screen that type of

player we all love—the typical American leading man. His performance is without blemish. Edmund Burns, who had heretofore featured juvenile characterizations turns from the beaten path and reveals a new self in a character that holds one's interest throughout the film.

At St. John—Ho! What a surprise is in store for this chap's admirers. He shoulders the entire humorous highlights and then comes thru with a remarkable performance as a dramatic player.

Glen Walters, new to the screen is the reason for many interesting moments. Margaret Seddon, Eulalie Jensen, Edward Chandler and others contribute fine performances.

"Come Across," With Basquette, in Last Showing at Queen

"Come Across," Universal picture now at the Queen Theatre for final showing tonight, is far more than an underworld picture. It has live people in exciting situations, with a surprise ending thrown in.

Prominent in the cast of "Come Across" are Lina Basquette, the leading lady, Reed Howes, Flora Finch, Craufurd Kent, Gustave von Seyffertitz and Charissa Selwynne. The film was directed by Ray Taylor.

HEALTH PROGRAM AT HIGH SCHOOL FRIDAY

The Runnels County Public Health Committee will offer a program in observance of Health and Safety Day of American Education Week, at the Ballinger high school auditorium, Friday evening, November 15th at 7:30, to which the entire county is invited. Dr. J. C. Anderson, state health officer, of Austin, will be the principal speaker of the day.

The meeting will be especially interesting to the general public since its theme will be the prevention of disease rather than its cure. All physicians, and local health authorities are also especially invited to attend.

Dr. Anderson is a splendid speaker and one that will not tire you. He intersperses humor and pathos in his talks with skill.

Come early and enjoy a splendid program.
R. E. WHITE, Chairman.

Farmer's Life Rests 3 Hours, Daily Average

(By Associated Press)

MANHATTAN, Kans., Nov. 7.—If day-by-day records of Kansas farm-women are typical, the American housewife may judge herself by this data gathered at the Kansas State Agricultural college:

Women on large farms have more leisure time than those on small farms.

Women in "modern" homes average 3.14 hours of leisure daily; in "semi-modern" homes, 2.92 hours, and 2.3 hours in homes without modern improvements.

Mothers with children under 6 years of age have more

leisure than those whose children are older.

Women between 30 and 40 have more leisure than those between 20 and 30, or more than 40.

Farm women, if their homes include conveniences of the city, have as much leisure as their city sisters.

Those conclusions were reached from a survey of 50 Kansas farm women, who kept records of how their time was spent for a month. A homemaker on a farm of 640 acres had more leisure time, about eight hours a day, than any other woman included in the project. Another, a more average case had 117 leisure hours during the month including 58.3 hours spent outside the home.

Frank Rodrick, farmer living near New Albany, Ind., is 102 years old and has never called a doctor. He admits only one illness.

TO MAKE MOVIE OF GAME HERE ARMISTICE DAY

W. D. Scales, manager of the Palace Theatre, has made arrangements with a motion picture company in San Antonio to have a cameraman here Monday and take a play-by-play picture of the football game between Ballinger and Brady. The negative will be sent to San Antonio for development and will be shown at the Palace some time in the near future.

Mr. Scales stated that he had had many requests for such a picture and made the arrangements for the benefit of his patrons. The picture will also be

shown in Brady and perhaps in other nearby towns.

TRAINED NIGHTGOWNS NEW LINGERIE PHASE

PARIS, Nov. 7.—Nightgowns, like evening gowns, trail in back and clear the ankles in front in their most recent form.

Many of the silk and lace lingerie creations shown here have circular skirts attached to semi-snug bodices at a normal waistline defined by inset lace.

Sunburn lace on peach colored crepe de chine and satin is still the leading color combination.

Poppies Will Sell On Streets Saturday

Arrangements have been completed by the Ballinger unit of the American Legion Auxiliary to place a memorial poppy on every lapel in Ballinger on November 9th when the unit will conduct its annual poppy sale. A large shipment of the little red flowers has been received from the Legion Hospital, Legon, Texas, one of the poppy making centers where disabled veterans of the World War have been working through the summer and fall making the paper replicas of the flowers of Flanders Fields. After the poppies are made, they are not touched by the patients. The poppies are thoroughly sterilized by being given 300 degrees of heat Fahrenheit, for thirty minutes, then they are packed, sealed, and shipped by the aides.

Eleven years after the close of the war there are nearly 30,000 veterans still under treatment in government hospitals. Many of these men receive no compensation and their families at home are facing a desperate struggle to exist without the father's support. Thousands of other veterans, not in hospitals, are fighting an uphill battle to re-establish themselves in life against the handicap of their war disabilities. It is for these men, their families and the families of those who have died that the poppy money is spent.

The Auxiliary will have committees on the streets of Ballinger all day Saturday, November 9th, and every man, woman and child will be solicited to wear a poppy. The small poppies to be worn will sell for ten cents each. The Auxiliaries sold the large poppies Thursday and report that the quota was completed in a few hours. Each firm solicited taking its share the several teams soon disposed of all the large flowers sent them from Legon.

Society

Senior Christian Endeavor Has Halloween Party

The Senior Christian Endeavor Society of the Eighth Street Presbyterian Church gave a Halloween party in the home of Rev. and Mrs. J. Edwin Kerr on Eighth Street, Thursday night.

The rooms were cleverly decorated in the Halloween colors, ghosts, black cats, bats and Halloween lanterns.

After playing several real lively games delicious refreshments consisting of sandwiches, potato chips, olives and hot chocolate were served to the following:

Misses Lillian Russell, Lanette Spreen, Lillian McMillan, Belle Russell, Nora Tefs, Zeldia Spreen, Cleo Russell, Maggie Lilly, Kelly Bowden, Messrs Oscar Prusser, Joe Denham, Weldon Bailey, Rev. and Mrs. J. Edwin Kerr, Mr. and Mrs. Philip Stroud, and Mr. and Mrs. Finous Collins.

Gay Party for Juniors

The Junior Christian Endeavor of the Eighth Street Presbyterian Church were delightfully entertained in the manse Friday night.

The entire house was decorated to carry out the Halloween spirit. The black and yellow color scheme was carried out in garlands, cats, bats and Jack-o'-lanterns.

The children were dressed in

fancy costumes that added much merriment to the affair.

After playing several games that were planned to carry out the Halloween spirit refreshments, consisting of soda water and candy wrapped in black and yellow paper, were served to the members of the society and their young friends.

HOUSTON ADDS FIRE FIGHTING MATERIAL

(By Associated Press)
HOUSTON, Nov. 7.—Sealing ladders and nets are to be added to the city's \$221,000 fire training tower. Fire Commissioner H. A. Delery has announced. The tower erected a year ago in the rear of the central fire station, has not been used due to lack of equipment.

Cat's meat, sold to fond owners of household pets over a period of many years, has made a fortune for one London man.

EAGLE BRANCH NEWS

P. T. A. Organized

The Civic Club of Eagle Branch, with the aid of Miss Boone's pupils gave quite an entertaining short program for a number of the school patrons.

Immediately after recess in the afternoon club was opened by Jake Presley, president, and with Cleo Campbell, acting as secretary; Zack Presley acting as vice-president, the program was conducted in due form. After the school club adjourned the teachers took charge.

After some discussion of the "hows" and "whys" of a P. T. A. a motion was made and carried, that we organize one. To the great delight of both teachers and patrons a very lively P. T. A. was organized with Mrs. Frank Boothe, president; Mrs. B. Campbell, vice-president; Miss Grace Moore, secretary. The program committee is: Mrs. J. C. Cooper, Mrs. H. G. Bradley and Miss Fannie Lou Presley; membership committee is: Mrs. Presley, Miss Frankie Pierce and Miss Sallie Mae Presley.

Charter members are: Mr. and Mrs. J. D. Presley, Mrs. Frank Boothe, Mrs. B. Campbell, Misses Fannie Lou and Sallie Mae Presley, Mildred Boone, Gracie Moore, and Frankie Pierce; Mrs. J. C. Cooper, Mrs. H. G. Bradley and Mrs. J. H. Kurtz. The P. T. A. meets every two weeks. Our next meeting is November 16. We have not affiliated with the state yet

but we hope to soon. We also expect to double our present enrollment.

Watch for the Honor Roll from the school next week. All pupils making a "B" average with only one "C" are entitled to a place on the Honor Roll.

H. H. Carter and family spent the past week-end in Coleman and Brownwood visiting friends and relatives.

Miss Boone spent Sunday in

Coleman with her brother, who is employed in a garage there.

Miss Pierce spent the week-end in the community. "REPORTER"

Mrs. Delbert Vancil was operated upon at the Ballinger Sanitarium Thursday morning. Reports from her bedside in the afternoon stated that she was resting well.

OLD ASTOR DINING ROOM TO BE PUT IN NEW HOTEL

(By Associated Press)
NEW YORK, Nov. 7.—To preserve a quaint tradition, the old dining room of John Jacob Astor will be preserved in the new Waldorf-Astoria Hotel.

When William Waldorf Astor moved to England in the early '90s and became a baronet, he decided to wreck the home of his forebears at Thirty-third Street and Fifth Avenue, rather than let it fall in unknown hands. He erected the Waldorf-Astoria on the site, and stipulated that the historic family dining room be taken from the house and set up in the hotel.

Now it is to be transported to the new hotel, there to be used for small social occasions. The wood-work is black walnut, carved in somber early Victorian elegance, bearing the carved initials of the house of Astor.

NEGRO RUNS AMUCK; SHOOT UP HOUSE

Sheriff R. E. McWilliams received a call to come to negro town Wednesday night about 1:00 o'clock to get a negro who was drunk, had a gun and was "shooting up the joint." The negro was arrested, the gun taken from him and he was lodged in jail.

Be wise and advertise.

REMAINS OF MAMMOTH UNEARTHED AT ROCKETT

WAXAHACHIE, Nov. 7.—A mammoth believed to have roamed over this country between 100,000 and 350,000 years ago has been excavated at Rockett, near here, and is now in the possession of Trinity University.

Remains of the prehistoric animal found include portions of the upper skull with both tusks and two upper molar teeth, and a portion of the zygomatic arches and occipital condyle—if you know what that is—university officials said.

Professor of biology Dr. R. Chester Hughes, said that he could not tell the exact age at which the mammoth lived but it was in the Pleistocene age which would make the remains probably at least 100,000 years old.

The geographic range of the mammoth was very extensive. Its remains have been found in alluvial gravels in many parts of the United States, England, Ireland, Scotland and in Central Europe.

Needless Pain!

Some folks take pain for granted. They let a cold "run its course." They wait for their headaches to "wear off." If suffering from neuralgia or from neuritis, they rely on feeling better in the morning. Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Bayer Aspirin always offers immediate relief from various aches and pains we once had to endure. If pain persists, consult your doctor as to its cause.

Save yourself a lot of pain and discomfort through the many uses of Bayer Aspirin. Protect yourself by buying the genuine. Bayer is safe. Always the same. All drugstores.

BAYER ASPIRIN

Would You Lose, Although Insured?

People sometimes forget that properties increase in value that added furniture, furnishings and household equipment swell the total of their holdings.

Insurance placed ten or even five years ago very often does not cover present day values.

Unprotected losses sometimes wipe out a family's resources. Let us make sure your insurance is up to the present time.
