New Proration Plan is Started in East Texas

(By Associated Press)
LONGVIEW, Tex., June 20.—The Cranfill voluntary proration plan, allowing taking of 300 barrels of oil daily for each twenty acres in the East Texas fields, took effect at 10 a. m. today.

Some of the operators started on the new quota yesterday, but a few are expected to wait until Monday.

Hubert M. Harrison, general manager of the East Texas Chamber of Commerce announced today that the directors had approved the Cranfill plan by referendum.

The proration plan would make the daily production of the fields in this vicinity about 220,000 barrels instead of 339,000.

VAN HORN MAN POSSESSES INDIAN RELIC COLLECTION

(By Associated Press)
SAN ANGELO, June 20.—Joe Daugherty of the Figure 2 ranch near Van Horn, west of San Angelo, has a collection of trophies from the last Indian fight in the Apache region of the Davis mountains. Included in this collection are a number of Indian scalps which he picked up after the battle at Cottonwood Springs.

Daugherty was a young man when he first came to that section in 1879, establishing an 800,000-acre ranch. This was the year in which a large body of land was given the Texas & Pacific railway as a bonus for construction. Daugherty established one of the first ranches, built a fence and rode it with a rifle to prevent its being cut. A neighbor also put up a fence, but shortly afterwards the neighbor's fence was found cut between every post.

Now an old man, Daugherty now resides at his ranch home near Van Horn and has given away many of his Indian scalps as souvenirs. Once, so the story goes, he had them stuffed in a pillow, the rumor arising that he slept on a pillow made of Indian scalps.

The Figure 2 ranch is located in one of the greatest cattle raising regions of the country, which has not yet been invaded by the farmers.

VALLEY SHIPPERS PLAN BATTLE IN RATE HEARING

HARLINGEN, Tex., June 20.—The plan of procedure for lower Rio Grande Valley shippers in two rate hearings to be had before the Southwest freight bureau in St. Louis on July 7 will be laid out by the shippers in a conference there the day prior to the hearing.

Mercedes, Weslaco, Harlingen, San Benito and perhaps other points will be represented. The hearings will be on proposed changes in icing regulations and clip top rates on carrots and similar vegetables.

Crowds of 6,000 to 8,000 at intercollegiate baseball games between Stanford and California are hailed as indicating a revival of the sport's popularity in colleges.

Lions Club Elects Officers; Will Do Work at City Park

Robert Bruce was elected Friday as president of the Ballinger Lions Club for the ensuing year and will take office July 3. The entire meeting Friday was taken up with business, which included election of directors and officers. Other officers elected were: Clarence Preston, vice-president; Tommie Hall, secretary-treasurer; J. D. Motley, lion tamer; and George Holman, tall twister. Directors for the coming year are: F. D. McCoy, Frank C. Bickey, George Holman and C. R. Stone. Mr. Stone has been president of the organization for the past year and automatically becomes a member of the board for the next year. He will leave office on the last meeting in June after a very successful year as head of the local club.

The meeting Friday was well attended and the members enter the new year with a great deal of enthusiasm. The club has sponsored many worthwhile moves during the past twelve months and worked in practically every

Forger Makes His Escape from Train

(By Associated Press)
GAINESVILLE, Tex., June 20.—J. H. Conly, under a three-year penitentiary sentence for forgery, today leaped from a train south of Denton and escaped while being taken to Karnes county for another trial for forgery.

High School Boy Injured by Dive

(By Associated Press)
CONROE, Tex., June 20.—Thomas Beyette, of Magnolia, Texas, son of T. J. Beyette, is in a critical condition in a local hospital today. He hurt his lungs while diving into a shallow pool yesterday.

DO-X Seaplane at Brazilian Capital

(By Associated Press)
RIO DE JANEIRO, June 20.—The great German flying boat DO-X arrived here today from Altenrhein, Switzerland. The giant plane began its flight last November 5. Bad weather and minor accidents caused many delays.

COLLEGE CAMPUS TO BE MADE BIRD SANCTUARY

(By Associated Press)
NACOGDOCHES, June 20.—Plans are under way here to have the large, heavily wooded campus of Stephen F. Austin State Teachers college which is in the midst of the yellow pine section, turned into a local bird sanctuary, where birds may be protected and given proper care and attention.

Courthouse Bonds Paid

FARWELL, Tex., June 20.—(AP)—The last of Farmer county's courthouse bonds has been paid, 22 years before it was due. Bonds to the amount of \$50,000 were issued April 13, 1913, one bond to be paid each year for 40 years, and paying the bonds in 18 years. County Treasurer Walter Lander said the county had saved \$8,600 in interest. He said that 10 cents of the county tax had been going into the sinking fund, and that a reduction in county taxes should result from the payment of the bonds.

Miss Edith Miller is here from Chicago visiting with her mother Mrs. C. S. Miller and other relatives. She plans to spend a good portion of the summer here before returning to Chicago where she teaches voice.

As an extra inducement to fair fans, the Oklahoma City Western league club has two ladies' days a week and on other days charges them only 25 cents.

Baer, Uzcudun 20-Round Reno Bout Brings Back "Rickard" Days to West

The Fourth of July 20-round bout between Max Baer and Paulino Uzcudun at Reno, Nev., will bring back the "color" of the old "Tex Rickard" days in this section. At least, Jack Dempsey, who is promoting the affair, hopes so. Pictures show the rival battlers, and the arena, built to hold 20,000 customers.

(By Associated Press)
RENO, Nev., June 20.—Jack Dempsey's personally promoted heavy-weight fight here July 4 may not affect the championship situation, but it has been ballyhooed to the proportions of the old time battles which marked Tex Rickard hereabouts.

The genial ex-champion will present Paulino Uzcudun and Max Baer—a pair of stalwarts who balance a lack of knowledge of the finer points of the sport with a willingness to walk in and throw punches. It is scheduled as a 20-round bout.

Dempsey expects some 15,000 or more fans to flock to the Nevada metropolis, termed by its citizens "the biggest little city in the world." Not since Jack Johnson crushed the "come-back" aspirations of Jim Jeffries here in 1910

has Reno held a spot in the pugilistic picture. Uzcudun, grinning, gold-toothed Basque, is the central figure in Dempsey's plans and hopes to bring the fight crowd to Reno. Many thousands of Spaniards live in California, while Utah and Nevada have their share of the countrymen of Paulino. When Uzcudun fought George Godfrey in Los Angeles two years ago, fully a third of the attendance was made up of persons of Spanish descent, all there to cheer for their countryman.

Baer, Livermore, Cal. youngster, who attained fleeting ring prominence within the last year, has a strong following in the San Francisco bay section despite three defeats in eastern fights. Win or lose, he gives the customers a thrill.

Varied added attractions offered by Reno are expected to weigh heavily in making the city a meeting ground for a huge crowd over the Fourth. Games of chance operate under the law while the visitors also will find a horse race meet under way.

The fight arena, seating around 20,000, is constructed in the middle of the race track at the Silver State Jockey Club and one admission price will cover both events.

Scenes familiar to Dempsey and the fight-going public will be re-enacted at Reno. Because of a housing shortage the railroad companies will have every available sleeping car "spotted" on side tracks there. The same condition prevailed in Shelby, Montana, eight years ago when Dempsey fought Tom Gibbons.

Texas Oil Town is Swept by Blaze

(By Associated Press)
TYLER, Tex., June 20.—Fire swept the oil boom town of Arp today, destroying thirteen business buildings with the loss estimated at \$75,000.

The conflagration started when a gasoline stove exploded in a domino hall. It was stopped six hours later with only four business places left standing in the block. Lack of water hampered the firemen who came from Troup.

Most of the buildings were built during the oil boom.

Sterling and Friends Off For Fishing Trip

(By Associated Press)
CORPUS CHRISTI, June 20.—Former Governor Dan Moody and Carl Estes, Tyler publisher, are expected to join Governor Ross S. Sterling's fishing party at Port Aransas today.

OLD BINDERS BROUGHT OUT TO BALE WHEAT FOR HAY

(By Associated Press)
QUANAH, June 20.—For the first time in many years farmers in some sections of Hardeman county are cutting their wheat and baling it for hay. Where grain yields would not be sufficient to warrant threshing, owners are getting what they can out of the crop.

A check of hardware dealers in this area reveals that many binders which have been unused for years are being repaired for this season's grain crop. Threshing is expected to be underway by June 10.

Carl Carr of San Angelo, was in Ballinger Friday attending to business in this city.

No Bodies Found In Ship's Salons

(By Associated Press)
ST. NAZAIRE, France, June 20.—Divers found no bodies today in the first class salons of the sunken steamer St. Philibert, which went down last Sunday with great loss of life. It was announced that the search will continue.

Llano to be Host To Legionnaires

The 17th district convention of the American Legion will be held at Llano on July 4 and 5. This is the last district meeting before the state convention and attendance is expected to be the best of the year. Many interesting items of business will come up at this meeting, including a campaign for the election of Earl Earp, district committeeman, for state commander, and probably the naming of his successor in this district.

This is the first convention ever to be held in the territory near Llano and a strong invitation is being sent every post to have representation. Entertainment provided by the Llano post will keep the visitors on the jump for the two days and a new hotel in that city offers adequate housing facilities for all attending.

Entertainment will include a big barbecue, wild west rodeo and Fourth of July dance, all free to delegates who register. Llano is called the fisherman's paradise and visitors are being urged to come prepared to stay a few days after the convention and enjoy an outing on one of the most beautiful streams in Texas.

The Pal Williams Post, Ballinger, has not elected delegates to the convention and if this is not done anyone going from the local organization is asked to notify local officials and receive credentials entitling him to be seated as a regular delegate from this post.

The district Auxiliary meeting will be held in connection with that of the Legion, and all members of the first named organization are cordially invited to Llano.

Curt Walker, outfielder with Indianapolis in the American association, is an undertaker at Beeville, Tex., during the winter.

Pro Raids Cause Arrests of Eight

(By Associated Press)
FT. WORTH, June 20.—Five men and three women faced federal prohibition charges after raids on a hundred establishments here yesterday. The officers found little liquor, the raids evidently being expected.

German Stocks Go Up When Aid is Probable

Prominent Lawyer Is Killed in Wreck

(By Associated Press)
SAN ANTONIO, June 20.—T. E. McMillan, prominent attorney of Corpus Christi, was seriously injured today when his automobile overturned on a road near San Antonio.

McMillan's son, wife and mother were not hurt in the crash. The McMillans were taking their boy to Austin for treatment at the Pasteur Institute after he had been bitten by a supposedly rabid dog.

No Action Taken Against Preacher

(By Associated Press)
DALLAS, June 20.—No action is expected to be taken against B. P. Brown, supply pastor, who confessed last night he tied himself in the North Dallas Baptist Church with a rope around his neck.

Brown first claimed that he was abducted and assaulted by several ruffians.

Mr. and Mrs. E. A. Zurcher, of Houston, who had been here visiting Mrs. Zurcher's parents, Mr. and Mrs. J. H. Wilke, left for Los Angeles, California, where they will spend the summer.

Dr. J. G. Douglass has returned from Cleburne, where he visited for the past week.

Read today's news in The Ledger today.

(By Associated Press)
WASHINGTON, June 20.—President Hoover today conferred with congressmen and state and treasury department officials on the European financial crisis. Further conferences are planned for next week.

Meanwhile stocks rose on the Berlin exchange with the news of probable American aid. Much interest is being shown in European capitals, a reparations holiday for a year or two being discussed.

WASHINGTON, June 20.—Early announcement of the proposal to suspend all war debts and reparations payments for a year is expected from the White House as leaders of both major political parties have assured President Hoover of support for the plan.

G. W. Dunlap returned home Friday after being in a San Angelo hospital for the past several weeks. Mr. Dunlap is greatly improved and although still weak his general condition is considered much better.

Rev. and Mrs. T. E. Bowman, Mrs. Vernon Webb and Misses Hazel Simmons, Evelyn Brewer, and Ruth Forgy will leave Monday morning for Southwestern University, Georgetown, to attend the weeks program at the young people's assembly.

Be wise and advertise.

One landlord here was showing a check for his part of an oat crop raised on six acres. After the six acres were cut and threshed, and expenses paid, the landlord received a check for \$2.23 for his part of the crop. The low price of oats is causing many to hold the crop and wait for a better market or use it later for feed.

The Baptist revival will close here Sunday night and the last day is expected to be the biggest of the campaign. The series of services has been very successful and a large number of professions have been made and a good number brought into the membership of the church. Rev. R. E. Day and his son Morris have labored hard with the Ballinger people and have made friends here who will hate to see them leave.

Juneteenth was a quiet day in Ballinger although the colored folks here celebrated the holiday in fitting style. The entire population of the section of town known as the "flat," was out in a body Friday to take part in a program arranged for emancipation day and it was declared a success in every way. Local officers complimented the negroes for their perfect behavior and stated that such is always the case of the negroes who live here and are Ballinger citizens.

The state highway commission at the present term will likely forever settle the designation of a highway out of Sweetwater. At present Bronte, Robert Lee, Winters and Ballinger are vitally interested in the routing of this road and have the claims before the commission for the designation. Under the Ferguson administration the highway from here to Bronte was designated but later was lost when state maintenance was withdrawn and the road turned back to the county commissioners for upkeep.

COLEMAN COUNTY OAT CROP BEST IN YEARS

(By Associated Press) COLEMAN, June 20.—Coleman county farmers are busy harvesting one of the best, if not the best, oat crops ever grown. Reports indicate the yield will be 50 to 100 bushels an acre.

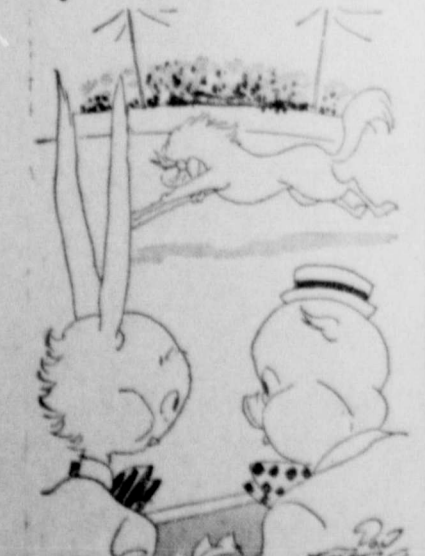

A farmer at Santa Anna harvested 700 bushels from ten acres and Josh Vanderford, near here, made better than 85 bushels. Oats have brought from 17 to 19 cents sacked.

Barley is quoted at 23 cents. The barley yield is heavy but there is not as much wheat and barley as oats.

Little wheat has been threshed and grain men have no quotation on it. Many farmers lack sufficient storage space and will sell regardless of price.

Atmospheric Blanket WASHINGTON, June 20.—(AP)—If the earth had no atmosphere, the average temperature at sea level would be about six degrees below zero Fahrenheit, E. O. Hulbert, of the naval research laboratory, reports to the National Academy of Sciences.

PUFFY

"I found I've made an error in arithmetic," says Bun. "I've counted ten white horses when there's really only one. You see, I stamped it every time it cantered 'round the ring." "I think," says Puff, "that you are just too dumb for anything."

SUNDOWN STORIES

DUCKING

By Mary Graham Bonner "Quack, quack, quack, quack," came the sounds. "We're going to visit the ducks!" said Peggy.

"Are you glad?" the Little Black Clock asked. "Oh, yes," Peggy answered. "I adore all animals." "Well, maybe you wouldn't speak of the ducks as animals, but we won't bother about that now. They're waiting for us. And I have turned the time 'way, way back."

They walked along until they came to an old-fashioned barnyard where a number of ducks were swimming around.

They kept splashing one another, and then they began diving under the water and coming up again looking so very happy.

"Quack, quack," said one, "there is nothing that is any nicer than diving under the water."

"Let's give it a name," said another duck.

"What shall we call it?" asked still another.

"Let's call it ducking."

So all the ducks began quack-quacking that that would be a fine name, and they kept diving their heads under the water.

"We're ducks, and we're ducking our heads under the water," they said.

"You see," said the Clock, "this is the first time the world has been used, so when you go swimming next time and duck you can think of the ducks who found it so pleasant in the first place that they had to give it a name."

John and Peggy laughed, and the next time they went in swimming they thought of the ducks every time they said, "Let's do some ducking."

HOW'S your HEALTH

Edited by Dr. Lago, Goldston Academy of Medicine

MAN'S MONEY VALUE

The value of an individual human life cannot be measured in terms of money. What mother, for example, could say how much her child is worth to her, except in the endearing terms of "millions and millions."

And yet in society as a whole each individual has a monetary value. It costs money to bring a child into the world, to feed, clothe, house and educate it.

These costs can be estimated, if not for specific individuals, at least for groups of individuals.

It is of value to know these costs, for they can serve as an intelligent basis on which to determine compensation for personal injury and indirecting and stimulating trends in public health work.

It is also a help in certain circumstances to be able to conceive of one's self and associates in terms of business investments, for no community and no civilization can long survive if its essential affairs are conducted contrary to good business.

Drs. Dublin and Lotka have written a book on "The Money Value of Man." In it they calculate the average cost of being born at \$250. The average cost to the parents of bringing up a child to the age of 18 is \$7,425.

To the community, however, the costs are substantially higher, for out of every 100,000 children born only 87,182 will reach the 18th year. Due to premature death, 12,818 will have dropped out of the running.

As an economic investment children represent fortunes which good business sense would urge one to safeguard with all the means available.

In society someone has to pay the bill for premature death, for sickness and for all impaired lives. Ultimately these costs are assessed upon all living and pro-

ductive persons, adding to their economic burdens. This realization is devoid of sentiment, but it is wholesome and deserves to be dwelt upon.

MOVIES

"Dance Fools, Dance" Drama with a Punch; Stars Joan Crawford

"Dance Fools, Dance," which opens tomorrow afternoon at the Palace Theatre for three days' engagement, is Metro-Goldwyn-Mayer's latest talking picture starring Joan Crawford.

This is the most glamorous of Miss Crawford's recent roles, reflecting both the glitter of "Our Blushing Brides" and the tragic drama of "Paid," her last two screen offerings.

The story, with a Chicago locale, principally concerns the underworld and newspaper life of the

JOAN CRAWFORD and LESTER VAIL in "DANCE FOOLS DANCE"

metropolis. It is an original by Aurania Rouverol with screen continuity by Richard Schayer.

Harry Beaumont, who brought Miss Crawford to stardom in "Our Dancing Daughters," and recently added to this triumph with "Our Blushing Brides," again directed.

Lester Vail, a newcomer to the screen who recently made his debut in "Beau Ideal," is Miss Crawford's leading man in her new picture, and the supporting cast includes such film favorites

as Cliff Edwards, William Bakewell, William Holden, Clark Gable, Earl Foxe, Purnell B. Pratt, Hale Hamilton, Natalie Moorhead, Joan Marsh and Russell Hopton.

Perhaps outstanding in the spectacular episodes in a nocturnal swimming party staged during a gay yachting cruise in the opening scenes. In this, scores of dazzling damsels are seen in the water frolic. Another glittering scene is the night club dance number intriguingly executed by Miss Crawford, costumed in a clinging silver creation.

The story, despite lavish touches, is an intensely dramatic one, the plot motivated by murder on a wholesale scale. It is a daring theme from the society angle and a still more daring one from the viewpoint of exposing crime and racketeering. There is a wealth of newspaper atmosphere, realistically supplied.

Miss Crawford plays the part of a society girl, reduced to poverty, who turns to newspaper work for a livelihood. In her hunt for the gangster killers of another reporter, she discovers her own brother to have been involved in the brutal crime. The climax comes when she decides to give her brother up.

of the bamboo hut occupied by All the old native tiger-hunter.

Schoedsack and his cameraman, Alfred Williams, were able to work but three to four hours each sunlit day during their eight months' stay in the Achin jungle country. This comparatively short opportunity for camera-work each day is caused by the peculiar quality of the sun's rays in the tropics. The sunlight at the equator is brilliant only during the mid-day hours; it falls into heavy shadows of yellowish cast in the mornings and afternoons.

"Rango" closes its run at the Palace Theatre tonight.

RUNNELS 4-H CLUB

The Runnels Boys' 4-H Club met June 10, 1931. The Blanton club met with us. Four of our members were absent.

Mr. Lehmborg gave us a lesson in judging dairy cows which was very interesting.

At our next meeting we will have our second lesson in terracing.

SYNOPSIS: Although **Harriet** had left money for his wife education, **Pierre** was not a miser. **Bruce** wants the boy to inherit it in a mine. About this situation, **Tony** Lottour, **Harriet's** old sweetheart writes a play, in **Bruce's** home, where he has been living, for dramatic school. Because **Bruce** must take a business trip, he wishes a final effort to secure the money. But **Ann Bevis**, **Bruce's** wife, urges **Pierre** to reject his proposition. **Bruce** over-hears their tele-tele sniping the worst construction on it and later tells **Ann** that **Harriet** left her if she doesn't persuade **Pierre**. He tells **Ann** that, unknown to the boy, **Pierre's** father is the promoter. **Ann** is in tears when **Pierre** enters.

Chapter 18

WRECKED PLANS

POINTEDLY ignoring the embarrassing situation into which he had entered, **Pierre** approached **Bruce**. "Here's a little good-bye present for you, old man," he said, extending his hand with a box.

Bruce silently took the box and, opening it, found a scarf pin. "Thanks, **Pierre**," he said.

"Thought you'd like it," returned **Pierre** joyously. "Had to give it to you now, 'cause I'll be leaving in the morning before you get back from **Camden**."

Ann said hurriedly, with an effort to control her voice, "That reminds me, I must go and pack **Bruce's** bag." Still crying she left the room.

Pierre and **Bruce** stood looking after her. Slowly **Pierre** turned to **Bruce**. "What's the trouble, **Bruce**—what's **Ann** crying about?"

Bruce did not answer, but moved about uneasily. **Pierre** grew more and more disturbed. "What's the matter with you and **Ann**, **Bruce**?"

Bruce paused before **Pierre** and regarded him doubtfully. "I'm not so sure that I ought to tell you."

"Why not? Is **Ann** crying because of anything I've said or done?"

Bruce answered reluctantly: "In a way—yes. If you must know, **Ann** is feeling badly over my proposition to invest your money for you."

"But, **Bruce**, I told **Ann** not a half hour ago that I wouldn't let you nor any one else have that money to invest in anything. That's all settled."

"I know it is, **Pierre**, but **Ann's** been mighty good to you since you have been making your home with us, hasn't she?"

"She's been wonderful, **Bruce**. I have often wished I could make you both understand how grateful I am."

"Yeah? Well, it would mean a lot to **Ann** if I could get a start toward making some real money."

"Yes, of course."

"**Pierre**, if I have been too keen urging you to help me get in right in a really big thing and at the same time more than double your money for you, it's been on **Ann's** account. I don't mind for myself, pinching along like we have to on my measly bank-clerk salary, but it hurts to see **Ann** slaving without even a woman to wash and iron for her. I don't want **Ann** to work herself to death like so many of these **Orchard Hill** women do. If she didn't love beautiful things like she does or if she wasn't the kind who could really appreciate such things it wouldn't matter so much—but you know how fine **Ann** is. I'd like for **Ann** to have the home she dreams about and all that a woman like her deserves. And—well—she's counted too much, I guess, on what this Nevada gold mine was going to do for her. We can't blame her if she is a bit upset over her disappointment."

"But, **Bruce**," cried **Pierre** desperately, "Ann has been urging me all along not to let you have my money. She wants me to go to school to prepare myself to be an actor, as I have always planned—as mother planned for me before she died."

"Sure, I know. That's **Ann**. She would make any sacrifice for you, **Pierre**. But just the same she feels it. I know I oughtn't to have told you, but she's crying because after all she's done for you and all she's been to you you haven't seen your way to help me get the start in life that would mean so much to her. She thought you cared more for her—for us—that's all."

"Good Lord! **Bruce**, I never thought of it that way!"

"That's what I've tried to tell **Ann**, **Pierre**. I told her you didn't realize what it would mean to her."

"That's right. I haven't realized what it would mean to **Ann**."

"I know you haven't, and she knows it, too, but it hurts just the same."

"But I'm all packed to go in the morning!"

"You haven't bought your ticket yet."

"That's so. I suppose I could have my old soda fountain back."

"And you would go right on making your home with **Ann** and me. It isn't as if you were giving up your plans to go on the stage, **Pierre**. It's only putting it off a few months."

"Sure, I know. A year wouldn't make so much difference. Are you certain, **Bruce**, that this gold mining investment is all you say it is and that you won't need my money longer than a year?"

"If I wasn't sure do you think for a minute I would propose letting me invest your money in it?"

"But I haven't very much money, **Bruce**. I figure that there's barely enough for me to scrape through school and live until I can land some sort of a part in some play."

"I know what you have, **Pierre**. I looked up your account in our bank. You drew it all out this afternoon too."

As if in a dream **Pierre** slowly drew a package of bills from his pocket and gave it to **Bruce**. "I never realized about **Ann**," he said.

Bruce, as he put the money in his pocket, said, "She would give me the devil if she knew I'd told you. You'll never regret this, **Pierre**; it will make us all rich."

"Yeah," returned **Pierre**, "I'm awfully glad I can do something for **Ann**."

Before they could say anything more **Martin Bevis** entered with hat and cane. "That **Camden** train goes at 7:30, doesn't it, **Bruce**?"

"Seven-forty," answered **Bruce**.

"Oh! Well, we can walk as far as the bank together. I've got to find that blasted 39 cents yet tonight."

Ann, coming in with the bag she had packed for **Bruce**, asked, "What time is it now, **Pa**?"

As **Martin** drew his watch from his pocket a massive old-fashioned Masonic charm came loose from the guard and fell to the floor.

Martin cried: "I've dropped my Masonic charm, and began hunting for it. **Ann** and **Pierre** went to **Martin's** assistance. **Bruce** moved to the desk at the farther end of the room and began hurriedly to write a letter.

"Here it is," cried **Ann**, recovering the charm and giving it to her father.

The old bookkeeper handed the emblem fondly. "I wouldn't take a fortune for that," he said proudly. "I handed it to **Pierre**."

Pierre, examining the charm, "Presented to **Martin Bevis** by his brother **Masons** in token of his services as Worshipful Master of **Orchard Hill Lodge**, number 34, November 30, 1893." "Fine!" said **Pierre**. "I don't wonder you think a lot of it."

Martin received the charm from **Pierre's** hand and regarded it with fond attention. Then he remarked: "I've sprung in this blamed snap-awak. That's how it comes loose."

"Hadn't you better leave it at home, **Pa**, until you have it fixed?" asked **Ann**.

"No," **Martin** returned impatiently, as he fixed the snap. "I have never been without this sacred emblem a minute. I'll just bend this spring a bit and it will hold all right until I get a new one. I never would find that 39 cents to balance my books tonight if I was to leave my lucky charm at home."

He called to **Bruce**, "Come on, **Ernie**, it's time we were going if you expect to catch that train to **Camden** tonight."

Bruce finished the letter he was writing, placed it in an envelope, which he sealed and put in his pocket.

"Goodby, **Ann**," he kissed her hurriedly.

"Goodby, dear; you'll be sure to come home on the morning train, won't you?"

He laughed nervously and, turning hastily, offered his hand to **Pierre**. "Well, goodby, old scout!"

Pierre, shocked at **Bruce's** manner and the indifference of his farewell, shook hands silently.

Bruce, with a laugh, caught up his bag and rushed after **Martin**.

Suddenly **Pierre** grasped the full import of the situation—**Bruce** was going away with his school money—his own plans to leave for **New York** in the morning were wrecked. Starting as if to run after **Bruce**, he called with quick excitement: "Bruce, oh, **Bruce**—wait a minute, I—"

(Copyright, 1910, by D. Appleton and Co.)

The tape measure that **Pierre** uses Monday cannot gauge the significance of the discovery to which it leads.

American Derby, "Comeback" Classic, Draws Nation's Fastest 3-Year-Olds

Well on the road in its "comeback" to the position as one of the greatest turf classics of the country, the American derby today at Washington Park, Chicago, this year offers a purse of \$50,000. Two of the favored nominees are shown above.

SEEKING TO HAVE BAN LIFTED ON TEXAS SPUDS

(By Associated Press)

AUSTIN, June 20.—Efforts to have western states lift their bans against importation of Texas agricultural products, especially Irish and sweet potatoes, are being made by the state department of agriculture. Negotiations are being directed by J. M. Del Curto, chief Texas entomologist, who is attending the meeting of the western plant quarantine board at Cheyenne, Wyo., this month.

Del Curto said before leaving for the meeting that prospects for having the quarantine lifted were bright.

Several of the western states maintain quarantines against potatoes from any part of Texas although only crops in certain areas are affected. Efforts to have

the ban removed on Texas crops shipped from certified pest free areas will be made, Del Curto said.

Lifting of the quarantine would be especially helpful to Texas farmers at this time, Del Curto said, because of the increased acreage planted in potatoes. The sweet potato acreage in Texas has trebled in the past two years with plans being made for further increased acreage, according to Del Curto.

Del Curto will deliver an address to the plant quarantine board on "The Legal Status of State Quarantines." It will deal with attempts of Texas to enforce its quarantines against the shipment of citrus nursery stock from Florida.

Texas is the only state that belongs to two plant quarantine boards, the western and the

southern. Del Curto is vice president of the southern board.

TOMATO SHIPMENTS START

TROUP, Tex., June 20.—The East Texas tomato shipping season has begun.

Five cars moved from Troup in the first allotment; Palestine got the movement under way at about the same time.

The product is of better quality than last year, according to growers.

Slugfest Here is Won by Bearcats

The Ballinger Bearcats won a slugfest from the Winters nine here Friday afternoon by a score of 13 to 11. Although the score was large the game had plenty of interest and with the heavy end of the tally reversed several times made it look like anybody's contest. Both teams fielded well, the Bearcats staging three double plays to bring yells of delight from the stands.

Erwin Winters catcher, on his first visit to the plate hit a line drive into right center which rolled under a hole in the fence and went for a home-run. This gave the Blizzards the edge until Ballinger's time to hit and after Schnable doubled and Corbett walked, Earnshaw connected with one over the right field wall for three runs and a good lead.

Rube Virdin started for the locals and worked well until the fourth frame when the visitors got to him and everybody hit safe in a row until six runs were taken off his delivery in that inning. Earnie rushed to the hill and worked the remainder of the game with good success. His curve and slow ball puzzled the Winters sluggers and although four runs were made off the new candidate for hilltop honors, two were of the fluke variety that fast fielding would have stopped.

E. Brooks Winters, was the hardest hitter of the day, getting four hits out of five trips to the platter and the only time he failed he drove a terrific line drive to Bob McMillan at short that should have been good for a couple of bases had it been a few feet to either side.

This Bob McMillan, playing his first game with the Bearcats, was the best all-round bet of the day. He handled eight assists and two put-outs without error. He featured in a fast double play and got three beautiful hits and two runs out of five trips to the plate.

Both teams are plenty strong to

make hard going in amateur baseball. Winters has now played eight games and won six, while Ballinger has played six and won five of them.

Following is the box-score:

WINTERS	AB	R	H	P	O	A	E
Ledbetter, 2b	4	1	1	2	4	0

SUMMARY: Earned runs, Winters 7, Ballinger 10. Two base hits, Schnable, Wood, McMillan, McMillan B, Brooks E. Three base hits, Wetzel. Home runs, Earnshaw and Erwin. Double plays: Marsh to Wood, Marsh to Virdin, Earnshaw to B. McMillan to Wood. Bases on balls, off Virdin 1, off Scott 5, off Earnshaw 3. Struck out: Earnshaw 2, Scott 2. Left on bases, Winters 4, Ballinger 5. Time of game, 1:52. Umpire, Penn.

AGED TEACHER RETIRES

(By Associated Press)

HOUSTON, June 20.—James B. Wolfe, 74, Houston school teacher, will say a farewell to classes forever, at the same time his pupils run shouting from the school-room on the last day of the current term.

Wolfe, 58 years a teacher and 29 of those years here, will retire to his old home in the Shenandoah valley of Virginia and there on a little fruit farm he plans to spend the rest of his days.

He has seen, during his career, revolutionary changes in pedagogy.

TRAINS IN VALLEY ARE STOPPED BY INSECTS

(By Associated Press)

BROWNSVILLE, June 20.—Train in the Rio Grande Valley are stopping for bugs.

Small field bugs are causing flat sides on wheels of some of the refrigerator cars here, it was learned recently when officials announced they would start spraying the cars and the brakes to kill the insects.

The bugs get in the air brake lock the wheels on the cars.

Mr. and Mrs. W. J. Coulson, of Coleman, spent the night here is here for a visit with his brother, Thursday with Mr. and Mrs. John Weeks and family.

Mexican Policy Change Protects Large Landowner

(By Associated Press)

MEXICO CITY, June 20.—The 20-year-old agrarian issue, mainstay of all successful political and social upheavals since the dictatorship of Diaz, at last is meeting with a changing governmental attitude.

President Ortiz Rubio told congress that something would have to be done toward giving agricultural interests guarantees against land seizures.

A few years ago such a proposal might have caused the peasants to rise in arms.

Proof of the fact that Mexico has calmed down is to be found in congress' rapid approval of a corrective measure presented by the president.

The measure exempted most remaining large agricultural properties from seizure and division.

Thus those landowners can be sure that if they plant crops the land, crops and all will not be turned over to their farmhands.

Gonzalo Bautista, a member of congress, opened the public eye to the country's decrease in crops when he presented to the chamber of deputies official figures showing that the output of corn and beans, the country's prime necessities, had dropped in 1929 and 1930 to not much over one-fourth of the output in 1910.

Decreased production was attributed to two principal results of the agrarian law: that large landowners hesitated to plant in view of the possibility of losing their land before the crops could be harvested, and that peasants, to whom land has been distributed in small parcels, either could not finance crops or lacked initiative to work the lands efficiently.

L. E. H. Barnett was in Ballinger Friday and extended the time of his Banner-Ledger. Mr. Barnett is operating part of his farm in truck this year and reported that it was doing nicely.

Robert McMillan, of Bonham, Coleman, spent the night here is here for a visit with his brother, George McMillan and other relatives.

EXPECT RAIL CONGESTION IN MOVING GRAIN CROP

(By Associated Press)

AMARILLO, June 20.—Congestion may arise in handling the 1931 Texas wheat crop if any appreciable amount of the Oklahoma crop is directed through Texas, according to J. Perry Burris of Dallas, who is building a 2,100,000 bushel elevator in Amarillo to help store the Panhandle yield.

Storage in Texas will be ample for handling the state's production, and railway cars are available for transporting the crop to market and storage, but trouble may arise if the Oklahoma crop is to be reckoned with, Burris said.

The trouble this year will not

be in loading the crop but in unloading it," he said. "There are 10,000,000 bushels of the old crop now in storage, but elevator capacity has been increased about the same amount, making the storage capacity about the same as last year."

THREE MORE SERVICES OF BAPTIST REVIVAL

There are only three more services of the Baptist revival. The Saturday morning service was left off so as to rest up for the three final services. Let us put forth every effort possible to make those services what they ought to be. All the Sunday school officers and teachers, also B. E. P. U. workers, should be working diligently to make Sunday the greatest day of the meeting. Come and bring someone with you.

Friday was a great day. There were five conversions and three additions to the church. The house cleaning service at the morning hour was an hour of spiritual uplifting. It is thought that many resolved down in their hearts to put all out of their hearts and lives that would keep them from being a good Christian. Rev. Day preached a wonderful sermon from the 12th chapter of Romans. He said that it was the greatest chapter in the Bible for giving advice on how one should treat his fellowman in regard to God. He read the chapter and preached on it as he read. When he got through, it was very plain that it was a great chapter to pattern our lives after. After the sermon, he asked that everyone get a flower, from the many that the women had brought, and give it to someone who had been a blessing to the giver. Many of the older people got a great number of flowers. Is it not wonderful to live such a life that when we get old that many people will say that we have been a blessing to them. He also asked that if anyone was at odds with someone else to get a flower and give it to them and ask their forgiveness. He asked all that had a lost person in the audience for whom they were praying to give them a flower and tell them that they wanted them to be a Christian. Practically all the flowers were used and it was a great service.

Friday night he read from the 11th chapter of Hebrews and preached about the choice that Moses made, and applied it to decisions that we as young people face and have to make. Shall we do as Moses, choose the right even though it seems hard at times, or shall we drift with the crowd? He refused to enjoy the pleasures of sin for a season. Rev. Day said that the pleasure of sin only lasts for a season, and that a very short season, and the life that indulges in the pleasures of sin does not last long. He urged that young people choose the right.

Morris Day's wife came Thursday night. He and his wife sang a duet Friday morning. They sang beautifully together. Morris will not be with us any longer. He is going to leave today for another meeting down close to Houston. He has done some good work here and it is greatly appreciated, and we wish him the best of success as he goes.

Rev. R. E. Day plans to stay through Sunday. Let us help him make these next few services the greatest of the meeting. We will have our baptismal service Sunday night at the close of the service.

Local Stores Will Close For July 4th

Ballinger merchants signed a petition to close their stores all day on Saturday, July 4th and there is no longer any doubt as to whether or not local people will be able to attend West Texas events or not. It has been the custom here in former years to close on July 4th without any petition being circulated but this year as the 4th fell on Saturday some were not in favor of closing at first until they learned of the majority of local firms.

Those who circulated the request for closing stated that everyone was highly in favor of taking the day off and of getting notices to all people in the country that there would be no business here on that day. With the day being declared as a holiday local business heads feel that no business will be lost and that rural people in need of supplies will come to town Friday to secure their needs and no one will be inconvenienced in any way.

The club picnic to be held on the Johnson farm near Winters will provide entertainment for many rural people and the annual affair at the Ballinger Country Club, in case it is staged, will be the big local attraction. Others not included in these two events will likely visit other cities where programs will be in progress, spend the day fishing or camping or visit with friends or relatives elsewhere.

The list of those closing is given below. The committee tried to call upon everyone and in case anyone has been overlooked that would like to have their names included in the list they are asked to phone J. D. Motley at the chamber of commerce office and notice will be given of their closing.

Happy Marriage Best Career, Actress Declares After Failure

By SUE McNAMARA

WASHINGTON, June 20.—Marriage—that is, a happy marriage—is the ideal existence for a woman, in the opinion of Blanche Sweet, slim, serious, blue-eyed blond "veteran" of the screen.

Though in the Hollywood atmosphere nearly 20 years—she entered pictures when she was 13 and now gives her age as 32—the girl who brought Anna Christie to the screen has had only one marriage.

But the years when she was Mrs. Marshall Nedlan, wife of a motion picture director, mentored to her, she candidly admits, than her career on either stage or screen.

In a playlet which lasts 20 minutes she is having her first taste of facing an audience in person instead of through the camera.

Her 71-year-old grandmother, Mrs. Blanche Alexander, is traveling with her and apparently enjoying the novelty.

In the dressing room of the theater the little blond veteran talked seriously:

"Marriage with the right person still is the happiest existence for a woman in spite of all the career opportunities now open to her," she said.

"But people change so even after they are married. Each develops new tastes, new interests. I tried to make a success of my marriage—we both did—but it

revival let everyone be in his place. Let us climax with the largest attendance we have ever had and the greatest faith. At the close of the evening service we will have our baptism.

A welcome to all.
J. H. McCLAIN, Pastor.

BLANCHE SWEET

But other marriages fail, even when the life is not having a career," she said.

"I guess marriage ought to be taken more seriously—just made the one big ultimate thing that people don't contract until they are very, very sure of themselves and each other."

As for the screen, Miss Sweet believes that girls who do not have too pronounced personalities, which limit them to certain types of plays, have the best chance of success.

Television really was the theme of the show, despite the fact that there was no official cognizance taken of it outside of a statement by Bond P. Geddes, executive vice-president of the Radio Manufacturers' Association, who said "television will be in the 'crystal detector' stage by fall or winter as far as the industry is concerned."

The radio picture development situation was talked in all of the off the record gatherings, with a couple of demonstrations outside the show in which actual transmissions were carried on.

In one of these U. A. Sanabria, young Chicago engineer, gave a visual indication of the excellent detail he is able to get, at least in the laboratory, even when the

SECOND AIRLINE TO BE ESTABLISHED AT McALLEN
(By Associated Press)
McALLEN, Tex., June 20.—McAllen has been promised its second airline within the past month, according to an announcement made public here today by a C. A. T. company official. The lines now operate on a regular schedule from Brownsville to Mexico City and the company contemplates making a stop at either McAllen or Reynosa, just across the border.

Johnny Plummer, Iowa farmer unsuccessfully sought wrestling bouts until he billed himself as boots until he billed himself as

By C. E. Butterfield
(Associated Press Radio Editor)

CHICAGO, June 20.—Another trade show has passed without anything revolutionary in the world of radio sets.

To say there wasn't a thing new is not entirely correct, but most of the new things in radio sets that were on display have been talked about for the last six months or a year.

The really interesting thing was the price per set quoted for some of the receivers, particularly the new midgets, now dubbed "widgeets" because their size has shrunk considerably from last year's models.

New Tubes

Shortly before the show closed the word was passed around that at least one of these tiny models would retail for \$15. Although it contains only three tubes, its designer claimed it was a "pretty good outfit."

Outside of the great concentration on the midget, now in its second year, the show demonstrated nine new tubes, including the pentode and the new screen grid, all previously announced, as well as the American model of the steno radiostat, brought to this country from England.

Tininess seemed to be the keynote, both in the matter of price and design. Even the consoles, of which there were not so many as in past years, have decreased in size, with somewhat of a concentration on plainness.

Television really was the theme of the show, despite the fact that there was no official cognizance taken of it outside of a statement by Bond P. Geddes, executive vice-president of the Radio Manufacturers' Association, who said "television will be in the 'crystal detector' stage by fall or winter as far as the industry is concerned."

The radio picture development situation was talked in all of the off the record gatherings, with a couple of demonstrations outside the show in which actual transmissions were carried on.

BILIOUS

"I have used Black-Draught . . . and have not found anything that could take its place. I take Black-Draught for biliousness. When I get bilious, I have a nervous headache and a nervous, trembling feeling that unfits me for my work. After I take a few doses of Black-Draught, I get all right. When I begin to get bilious, I feel tired and run-down, and then the headache and trembling. But Black-Draught relieves all this."—H. O. Hendrix, Homerville, Ga.

For indigestion, constipation, biliousness, take

Whoever who need a tonic should take Camot. Used over 50 years.

picture is enlarged to six feet square. This showing was made with transmitter and receiver in the same room, connected together with wire.

At another remonstrance, radio editors saw W9XAP, the television transmitter of WMAQ, Chicago, in operation and then looked in at some received pictures.

In the show itself, there were five displays of television receivers, showing the refinements that have been put into them within the last year.

Otherwise the industry went back home feeling rather optimistic as to prospective business conditions, particularly after hearing Dr. Julius Klein, assistant secretary of commerce, declare

that the depression had ended. Hopper's Cafe—Open all night. 8-26d
