COMMUNITY INDEPENDENCE

The farmers of this section, and every other section of the South, are fighting the old, old fight for agricultural independence

In the long run, the most important thing in any man's life is to do the best with what he has at his command, and to get the most from the opportunities that are his.

Regardless of market conditions or the price of staple crops, the farmer who raises an abundant living at home has an opportunity to prosper, and no cause to worry over the future. By providing for his family and building up his flocks and herds, he is creating a heritage for his children; enhancing the value of his land; increasing community wealth, and in doing this he is hewing the road to permanent independence and prosperity.

How Tax Bill Affects Mr. and Mrs. American Family

The chart above shows the semi-luxuries from which Uncle Sam hopes to get about \$275,000,000 to help balance the next federal buget. The amounts spent represent, in general, what the average family with an income around \$3,000 uses for these items. The family, of course, does not need to buy an auto, a refrigerator or a radio, but the remaining items ordinarily take about the amounts listed. Depending on the purchases, the family earning \$3,000 would pay from \$20 to \$50 in new taxes in a year.

THE woman who gives her organs the right stimulant The woman who gives her organs the right stimulant need not worry about growing old. Her system doesn't stagnate; her face doesn't age. She has the health and "pep" that come from a lively lives and strengt active hereits. liver and strong, active bowels.

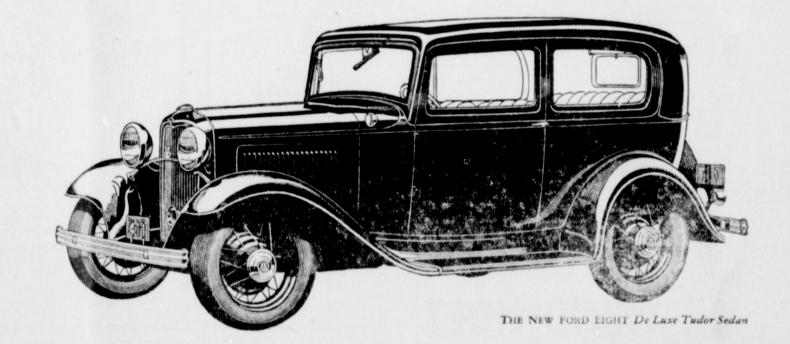

When you're sluggish and the system needs help, don't take a lot of "patent medicines." There's a famous doctor's prescription for just such cases, and every druggist keeps this standard preparation. It is made from fresh laxative herbs, active senna, and pure pepsin. Just ask for Dr. Caldwell's syrup pepsin. Take a little every day or so, until every organ in your body feels the big improvement.

The next time you have a bilious headache, or feel all bound-up, take this delicious syrup instead of the

usual cathartic. You'll be rid of all that poisonous waste, and you haven't weakened the bowels. You'll have a better appetite, and feel better in every way. The constant use of cathartics is often the cause of a sallow complexion and lines in the face. And so unnecessary!

Would you like to break yourself of the cathartic habit? At the same time building health and vigor that protects you from frequent sick spells, headaches, and colds? Get a big bottle of Dr. Caldwell's syrup pepsin today. Use often enough to avoid those attacks of constipation. When you feel weak and run-down or a coated tongue or bad breath warns you the bowels need to be stimulated. Give it to children instead of strong laxatives that sap their strength. It isn't expensive.
