Twice a Week

Tuesday and Friday

VOLUME NO. 51.

BALLINGER, TEXAS, TUESDAY, JUNE 21, 1932.

NUMBER 79.

Seven Candidates File For Office on Last Day

Seven people filed for places on the Democratic primary election ballot Saturday, the last day for making application, according to E. Shepperd, county chairman.

Four of the seven filed for the same office, that of constable, precinct No. 1. Most of these were handed to the county chairman late Saturday afternoon.

Two announcements were turned in for the office of county treasurer Saturday, Mrs. W. A. Francis and U. S. Daniel are new candidates for the office.

Joe Spoons, Mitchell Moore, Henry Winchester and E. J. Handley filed applications for the office of constable of precinct No. 1, the first announcements for this office.

Following is the complete list for district and county officers filed with the county chairman: For State Representative, 92nd District:

H. O. Jones
G. Y. Lee
A. O. Strother
For District Attorney, 119th District:
Eugene Mathis
W. A. Stromman
For County Judge:
Paul Trimmer
J. N. Key
Victor Miller
For Sheriff:
W. A. Holt
W. S. (Bill) Byers
For County Attorney:
Roy Hill
For Tax Collector:
W. A. Forgy
For Tax Assessor:
Mike C. Boyd
Jesse Smith
For County Clerk:
Mrs. Linnie Harris
S. H. Daugherty
A. J. (Dick) Thorp
W. W. (Bill) Chastain
Tom Caudle
J. M. Callan
For District Clerk:
Miss Georgia Singletary
John Thomasson
For County Treasurer:
Mrs. Jennie Kirk
Mrs. W. A. Francis
U. S. Daniel
For Justice of the Peace, Precinct No. 1:
Carl Wilson
B. W. Pilcher
For County Commissioner, Precinct No. 1:
Clyde Chapman
T. J. Parrish
L. C. Tomlinson
M. B. Wardlaw
George Little
For Public Weigher, Precinct No. 1:
Pat Tillery
T. M. Marsh
Joe Thomas
For County Commissioner, Precinct No. 2:
Joe Mapes
Lee White
For County Commissioner, Precinct No. 3:
J. D. Smith
H. B. Poe
For County Commissioner, Precinct No. 4:
R. A. Perry
Henry Goetz
For Constable, Precinct No. 1:
Joe Spoons
Mitchell Moore
Henry Winchester
E. J. Handley

FORD STOLEN SATURDAY NEAR COURT HOUSE LAWN

A new V-8 Ford was stolen here Saturday afternoon from its parking place on Seventh Street near the court house lawn. Thos. Patterson drove the car there after returning from a trip and parked it while he went to his office to attend to some business. He passed from his office to the court house three or four times and noticed the car parked where he left it.

Late in the afternoon when he was ready to go home the car was missing. Officers were notified and started a search but no trace was found of the missing automobile. Officers in other cities were notified.

The car belonged to Drew Patterson, of Brownsville, but was being used by his brother, Thos. Patterson, owner of the Guaranty Title Company.

Mrs. C. P. Jones is visiting in Mineral Wells.

Many Present at Herring Meeting

A large number of people from Runnels and Coleman counties gathered at Herring Friday evening for the rally staged by the club members of that community. The Ballingerites reported that an excellent program was presented. All refreshments were sold out by the women, girls and boys in charge of the stands. The proceeds will be used to send delegates to the A. & M. College short course.

A feature of the program was a group of harmony musical numbers rendered by a Coleman male quartet. The quartet sang a number of negro spirituals which drew considerable applause from the large audience.

C. W. Lehmburg, county agent, talked on the short course, partly outlining the proposed program. He announced the general theme this year would be "Self Reliant Agriculture," and around this would be arranged one of the finest programs ever presented. Besides the regular course many special entertainment features are being planned and College Station officials will endeavor to make this part of the program different from that of previous years. Picture shows will be operated each evening for the boys and girls and later for the men and women. Mr. Lehmburg said interest was never better over the entire county and he was anxious to know how many would be able to go. As soon as the number is known the matter of transportation will be determined.

J. D. Motley, secretary of the Ballinger Chamber of Commerce, acted as master of ceremonies and introduced the candidates from Runnels and Coleman counties.

The next community meeting in the county will be held at Marie next Tuesday evening with an invitation extended everyone to attend.

Mr. Lehmburg will visit all the boys' 4-H clubs during the next two weeks to see if possible how many will attend the short course this summer.

SAFETY STORE NOT DAMAGED BY FIRE

A fire alarm was turned in about 5:30 Tuesday morning for the local Safeway Store and the department responded promptly. Chief M. C. Atkins and O. C. Casteel, manager of the store, entered the smoke filled building to find that a motor in the electrical refrigeration plant had stuck and became overheated.

An inspection showed no damage was incurred and the store was open for business at the usual hour.

4 Prisoners Escape From Runnels Jail

No trace had been picked up Tuesday morning of four prisoners who escaped the Runnels county jail late Monday evening, but officers were still searching for them. The prisoners made their get-away about 6 p. m. Within a few minutes a posse numbering about 100 men was searching the business district and along the Colorado River for the fugitives.

The missing men are Ike Musil, Neil Byers, Derwood Pogue and Ernest Price. Roy King, who left the jail with the quartet, gave himself up downtown a few minutes after the break.

About 6 o'clock Monday afternoon Deputy Sheriff Carl Henson, who acts in the capacity of jailer, started to place in their cells two prisoners who had been working on the court house lawn during the afternoon. Mr. Henson had been ill and confined to his bed during the day but got up to take the men upstairs. When he unlocked the door to the "run-around" Musil held a carved wooden pistol on him and other prisoners grabbed and tied him in the cell. The prisoners took the keys from the jailer and made their way downstairs where they

(Continued on page 4)

Running Mates Again

President Hoover and Vice-President Curtis are shown here as they appeared in 1928, in the early days of the campaign which carried both of them into office. They will be running mates in the November election.

Plans for 46th Birthday Party About Completed

Committees in charge of the program for Ballinger's 46th birthday celebration are working hard to get every feature ready for the great throngs expected here June 29. Indications are that it will be one of the largest gatherings of "old timers" ever assembled here since the town lot sale in 1886.

Managers of business houses will be asked to close their doors from 10 a. m. until noon, while the parade is staged and during the speaking and presentation of the pioneers. This will be held on the court house lawn under the shade of trees planted several decades ago.

W. A. Holt, in charge of the pistol shooting contest, reported Monday that teams would be here from San Angelo and Paint Rock, the motorcycle boys from Abilene, and a team from Brady headed by Sheriff Love Kimbrough. Captains will be appointed to head the teams of old timers who will open the shoot.

The evening program will present a number of the best old time fiddlers in the state and square dancers are coming from seven or eight counties in this section.

The steering committee requests that all merchants place flags on the sidewalk for this occasion. No other decoration will be used. This committee will also call a meeting this week of all special committees to check up on the work and see that every phase is attended to.

Every citizen of Ballinger is appointed on the reception committee and is expected to be downtown at 10 a. m. on the day of the anniversary to extend a hearty welcome to the visitors.

Negro Boy Drowns While Taking Swim

George Phillips, 20-year-old negro, was drowned in Elm Creek Saturday morning between 11 and 12 o'clock. A crowd of negro youths were swimming in the creek near its mouth in water from four to sixteen feet deep. Something apparently happened to Phillips while he was in the water and a number tried to rescue him but failed to reach him.

Aid was called from town and by noon more than 100 people had gathered on the banks of the stream and a large number began diving, dragging and searching otherwise for the body. About 1 p. m. two men feeling under a bank felt the body and brought it out.

The boy had been afflicted for several years. Those who knew him best believe he became irrational, rendering him unable to swim.

Funeral services were held here Sunday afternoon and interment made in the colored cemetery.

WEEKS TO REPRESENT BOARD AT CONVENTION

John A. Weeks was appointed by the state board of pharmacy in meeting at Marlin last week to represent the Texas board at the national-international meeting at Toronto, Canada, in August. Mr. Weeks expects to make the trip, the appointment carrying all expenses paid.

Mr. and Mrs. J. C. Richards returned Saturday from Clifton, where they visited relatives last week.

Charles Coombes, J. A. Schnable and Robert Bruce attended a meeting of the Menard Lions Club Friday evening. They report a fine program and large attendance. The Lions Club of that city has a membership of about 70.

Reeder Dry Goods Co. is Badly Damaged by Fire

Executive Committee Bank Withdrawals In Session Monday Receipts Tax Free

The Runnels county Democratic executive committee was in session here Monday afternoon, attending to business relative to the holding of the Democratic primaries in July and August.

The committee voted to hold a second primary and arranged the budget to take care of expenses of both elections. It was voted that election judges and clerks be paid \$3 a day for a 10-hour day and 30 cents an hour overtime for holding the elections, and \$2 be allowed all precinct election managers except those of Ballinger Nos. 1 and 24 for making returns for their respective precincts after the elections.

Offices were assessed for expenses of holding the elections according to the salary each paid last year. A committee was appointed to make up a list of the assessments and the list was reported to the general body.

The following assessments were approved:

| Office | Assessment | Candidate |
|-------------------|------------|-----------|
| County Judge | \$237.14 | \$ 79.05 |
| County Clerk | 251.51 | 41.91 |
| Tax Collector | 129.35 | 129.35 |
| Tax Assessor | 111.38 | 55.69 |
| Sheriff | 86.23 | 43.12 |
| County Treasurer | 143.72 | 47.90 |
| District Attorney | 53.90 | 53.90 |
| District Clerk | 53.90 | 26.95 |
| Commissioner 1 | 129.35 | 25.87 |
| Commissioner 2 | 64.68 | 32.34 |
| Commissioner 3 | 129.35 | 32.34 |
| Commissioner 4 | 129.35 | 32.34 |
| Public Weigher 1 | 129.35 | 43.12 |
| Public Weigher 5 | 64.68 | 64.68 |
| Public Weigher 6 | 25.15 | 25.15 |
| Public Weigher 7 | 25.15 | 12.58 |
| Jus. of P. No. 1 | 21.56 | 10.78 |
| Jus. of P. No. 5 | 5.00 | 5.00 |
| Jus. of P. No. 6 | 5.00 | 5.00 |
| Constable No. 1 | 20.00 | 5.00 |
| Co. Surveyor | 5.00 | 5.00 |

The county chairman's salary was set at \$150 a year, to be paid after the last election has been held, out of which he is to pay for all postage, stationery, etc. Each committeeman will be paid \$2.50 for each day's service in attending meetings of the executive committee.

Nicknames will not be allowed on the ballot inside of parenthesis marks. The initials and nickname or diminutive of a candidate will be printed on the ballot as one name.

Names of candidate were placed in a hat and drawn to determine places on the ticket. This list will be published Friday.

Club Boys Ready For Encampment

The site selected for the 4-H Boys' Club encampment of Runnels and Tom Green counties on the W. R. Hunton farm south of Miles is ready for the gathering there of some 200 youths Thursday of this week. C. W. Lehmburg, county agent, stated that busy times on the farm, clearing crops, and harvesting of grain might keep some members from the encampment this week-end but that he expected about 100 boys from each county.

Preliminary arrangements have been made for the daily program which has been announced and a strict schedule will be carried out every day, beginning at 6 a. m. and continuing until 9 p. m.

All the day will not be work for the clubbers; swimming in the Concho River, special stunts after supper each evening, and a baseball game between the Runnels and Tom Green lads furnishing some of the amusement.

Agricultural agents from Runnels, Tom Green, Concho, Coke and Coleman counties will direct the boys in their play and work.

All boys are required to bring everything needed for camping out in the open, including food, utensils, etc. The road from Miles to the camp grounds will be plainly marked so that late arrivals in Miles will have no trouble in finding the way.

Parents and friends interested in club activities are invited to

Fire damaged the Reeder Dry Goods Company store Sunday afternoon about 2 o'clock approximately \$15,000. The part of the building which fronts Eighth Street became ignited in the ceiling of the second floor and fanned by a brisk wind created one of the hardest fires to combat in the history of the city.

Fire Chief M. C. Atkins stated Monday morning that 165,000 gallons of water were used in combating the flames before they were finally extinguished. The department used all of its equipment to prevent damage, including salvage covers, gas masks, etc. Salvage covers were used on the ground floor to good advantage and twice as many as the local company possesses could have been used to save merchandise from the tons of water pouring through the ceiling.

Roy Reeder, manager of the store, could not account for the origin of the fire. An electric meter which connects wires in the ceiling where the fire originated had been taken out and all wires were dead. An alteration plant formerly operated in the second story had been moved and no one had been in the annex recently.

The building, belonging to the Noyes estate, was considerable damaged and until a contractor inspects it the loss will be undetermined. Part of the roof is completely burned away as well as the ceiling on the second floor. One wall is out of line. Floors were not burned but water damaged them to some extent.

The largest damage in the store probably was in the men's department, which fronts on Eighth Street. Water poured through the ceiling into this section and ran out entrance doors on Eighth Street and Hutchings Avenue. The exact damage cannot be announced until after a check-up by an insurance adjuster which is expected this week.

Damage in the women's section was caused by water and smoke.

Water damage was light in the J. Y. Pearce drug store adjoining. All the damage was in the rear of the store. Frank Pierce, manager, stated Monday that little merchandise was injured but walls and ceiling were damaged by water which ran through from the Reeder store.

The firemen fought for about two hours before placing the blaze under control. The large fire pumper averaged 1,100 gallons per minute for the first 42 minutes, playing five streams of water at one time.

HOMESTEADERS INCREASE ON MICHIGAN FARM LAND

(By Associated Press)
LANSING, Mich., June 20.—Homesteaders in Michigan increased from an average of 20 to 89 last year.

Although the state has 1,250,000 acres classified as homestead land and 2,000 applicants for farms last year, only 89 were granted because most of the land is unfit for farming. Only abandoned farms, with improvements, were turned over to homesteaders.

Closing of factories caused many to seek homesteads, on which families are able to raise enough to eat and go tax free for five years. But the government expects most of the farms back on its hands as soon as factory whistles begin to blow for most of the land is poor.

J. D. Motley and C. R. Stone went to San Angelo Thursday night to attend a meeting of boosters interested in the routing of federal highway 67. The caravan was en route to Presidio.

H. T. Forson and Stanley Gray left Saturday for the mouth of the Pecos River to fish for several days.

Hot weather seems to warming up politics and speakers are touring the country, telling how conditions can be improved and outlining a platform for democracy for the next two years.

The primary election this year will require one of the longest tickets in the history of politics in this county. Approximately 125 names will be included on the ballot for state, district and county offices.

Telling fish yarns has become so common that they hardly attract a hearing. Fishing in all streams in this section has been so good this year that all who have visited the rivers with hooks and lines have come back with good luck tales.

Conditions, worries and politics will be temporarily forgotten here on June 29 when old timers of this section gather to swap yarns and talk over the early days of civilization in West Texas. Local citizens are requested to be on hand to pay tribute to those who came here in the early 80s and smoothed the trail for the present generation.

Ballinger will soon be fifty years old but there are few of the original citizens left to celebrate the event. Old timers are passing on rapidly and those who are left should receive every honor. Their stories of the early days are interesting and should be sacred to those who claim West Texas as their home.

A new car was stolen from the business district here this week when at the same time there were many old ones with keys left in them just welcoming a thief. Somehow when a car is in its fourth or fifth year and more insurance allowed on it than would be allowed in a trade-in, no robber will give it a look. They are after the new machine that takes them places.

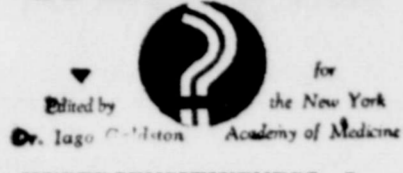

CAN YOU AFFORD IT?
 Look before you leap! Check over the following figures and instead of offering more for less, you might consider it wise to offer less for more.
 On a 25 per cent margin of profit, a cut of 5 per cent requires 18 2-3 per cent more volume to produce an equal profit. A 10 per cent cut requires 50 per cent volume and 15 per cent requires 112 1-2 per cent additional volume.
 Cut your prices and increase your volume! Easy, but a vicious boomerang.
 Price reductions in proportion to cost reductions cannot be condemned. But price-cutting, in the face of mounting selling cost, is merely folly and the surest shortcut to bankruptcy. Look before you leap! It may be your last.—Printing Industry.

R. B. Hood, candidate for congressman-at-large, place No. 1, was in Ballinger Saturday afternoon, meeting the voters. Mr. Hood, who lives in Weatherford, has a number of personal friends in Ballinger. He is making an active campaign, having driven 1,400 miles last week to deliver nine addresses.

R. P. Taylor, of Norton, transacted business in Ballinger Monday.

HOW'S your HEALTH

HYPERSENSITIVENESS—I

Hypersensitiveness is at the root of many, if not all, cases of asthma, hay fever, urticaria (hives) and certain types of eczema.

As long ago as 1839, Magendie, the famous French scientist, observed, during the process of his experiments, what is today recognized as the phenomenon of hypersensitiveness.

Magendie reported that certain dogs he experimented with died suddenly when repeatedly injected with egg albumen. Egg albumen ordinarily is not injurious to dogs.

In 1894 Flexner observed the same phenomenon and reported that "animals that had withstood one dose of dog serum would succumb to a second dose after a lapse of some days or weeks."

When, at the beginning of the present century the use of diphtheria antitoxin became widespread, these isolated observations assumed special importance.

Diphtheria antitoxin is derived from horses' blood. In the treatment of diphtheria it is injected into human beings.

Since the diphtheria antitoxin is a foreign substance, and since it is injected into the human body, it is likely to create within that body a state of hypersensitiveness.

Should, at some future date, the occasion arise requiring the use of horse serum, the sensitized individual might suffer serious consequences, and under rare circumstances die of anaphylactic shock, that is, shock due to hypersensitiveness.

Let this historical analysis lead to undue alarm and frighten the reader on the use of diphtheria antitoxin, we can reassure him that the present day diphtheria antitoxin has been purified so that practically all but the absolutely essential foreign substances are removed, and that physicians who administer antitoxin do so in a manner which tends to obviate any kind of shock.
 Furthermore, even where a patient is found to be hypersensitive to horse serum, he can be desensitized, and guarded against shock.

WASHINGTON PARTY IS POSTPONED INDEFINITELY

Dr. W. B. Halley stated Monday that the George Washington entertainment which was announced to be held in the old Ballinger Club rooms Tuesday evening, sponsored by the study club of the Masonic Lodge, has been postponed.

Marcus Weathered, of Coleman, principal speaker, was called to Washington, D. C., on business and could not attend. The entertainment will be held later when it is convenient for him to come to Ballinger.

Mr. and Mrs. Theo Goss, of Shreveport, are visiting relatives here this week.

CATTLE AT SAN SABA MAKE OWN WHOOPEE

SAN SABA, June 20.—A peculiar disease affecting cattle has been attributed to a plant known as the "sneeze weed" by Dr. L. Lewis, veterinarian of the state livestock and sanitary commission, called here by Judge R. E. Gray.

Soon after eating the weed, while it is blooming, the cows reel and fall. The weed seems to have a narcotic effect.

Cattle after once getting a taste of the plant will seek it again, apparently for its stimulation.

A recent overflow in the Colorado River is thought to have spread the plant. Dr. Lewis said cattle would eventually die from the disease, if the plant bloomed all the year. Since it has only a few days of the blooming season, the cattle only lose weight during the period of intoxication.

U. S. LEADS IN RADIO SETS, WORLD SURVEY REVEALS

(By Associated Press)
 GENEVA, June 20.—A survey of radio sets in the world by the Union Internationale de Radiofusion places the United States in the forefront with 16,679,253 receivers.

The United States, with 133.1 radios per 1,000 persons, ranks second, however, in apparent popularity of receiving sets to Denmark, which had 133.9 sets per 1,000 inhabitants.

The union estimated that the total radio audience in the world numbered 128,000,000 persons and that there are more than 32,000,000 sets in use.

J. M. Callan Candidate For County Clerk

To the voters of Runnels county: In announcing my candidacy for county clerk of Runnels county, subject to the action of the Democratic primary, July 23, 1932, I frankly admit that I am seeking my first elective office. Being born of a newspaper family, I have followed the Fourth Estate during the major portion of my life and until recently published the Santa Anna News.

However, I have called Runnels county home for the past decade and a half, having moved to Winters from Menard approximately fourteen years ago.

I was born in Coleman county in 1898. I am married and have two children. For your information and by way of introduction, my father was the late L. G. Callan of Menard and my grandfather was the late J. J. Callan, a well known pioneer of Coleman and Menard counties.

I am a Democrat and a staunch believer in the principles of Jeffersonian Democracy. While the office of county clerk does not embody the power of legislation, I am a believer in the supreme need of reduced costs of government wherever possible and I pledge my support to every movement that will tend to diminish rather than increase the already huge tax burdens of the people of this and every other county in Texas as well as America.

With no intention of arousing political animosities, I pledge courtesy and service to the entire citizenship of Runnels county if I am elected county clerk. I count all of you my friends and while I have not met everyone personally, I hope to do so before many days.

Entirely efficient to discharge

the duties of the office thoroughly and surely, permit me to reiterate my pledge of economy, efficiency and service.

Your support during the few weeks yet remaining prior to the primary and your vote will be sincerely appreciated.

J. M. CALLAN

Mrs. W. A. Francis Enters Race for County Treasurer's Office

To the voters of Runnels county: After careful consideration I have decided to announce for the office of treasurer of Runnels county, subject to the action of the Democratic primary on July 23.

My main reason for entering a political race at this time is because I need the office and know that I am capable of looking after the duties of it. I must have employment of some kind, and being particularly qualified for this type of work, I am asking for a term in an office which has been held by my opponent for many years. I believe the people who elect the county officers expect to make changes ever so often and I appeal to the voters at this time to name me their county treasurer.

If elected to the office, the people will find me on the job all the time, endeavoring to render the kind of service needed in all our public offices today. My deceased husband and myself lived in Runnels county practically all our lives, and since his death, it is my desire to continue residence here.

During the remaining time before the primary election, I will visit as many voters as possible, but in this announcement I solicit your vote and influence. To those who feel friendly towards my campaign, I ask your help with those who are strangers to me. There is nothing greater than

friendship and in this race I feel the need and support of my personal friends. I will appreciate any word spoken in my behalf and if rewarded by the people of Runnels county with this office, I pledge them my best efforts.

Sincerely,
 Mrs. W. A. Francis

WOMAN'S TRAPSHOOT MARK RESULT OF STEADY WORK

(By Associated Press)
 ATLANTA, Ga., June 20.—Mrs. Walter P. Andrews, of Atlanta, whose trapshooting mark at the Kentucky-Tennessee championship match set a new world record, has long been one of the outstanding shots of this country.

She has been a regular competitor at Vandavia in the Grand American handicap and allied championships each year. She won the women's championship of North America in doubles five years ago and has shown great form at singles and handicap ranges several times.

Her previous record on 200 consecutive targets was 192 or 96 per cent. The new mark of 195 out of 200 at Hopkinsville, Ky., or 97 1/2 per cent is regarded by experts as an unusual mark for a masculine rifle.

Mrs. Andrews plans to enter the Grand American in August.

Mrs. A. McGregor and children returned Sunday afternoon from Rotan where they had been visiting for the past two weeks with Mrs. McGregor's mother, Mrs. J. R. Lusk. Mr. McGregor met his family in Abilene and accompanied them home.

Refrigerators at About Half—
 of regular prices. Some good deal less than half.

New Refrigerators

| | |
|----------------------|---------|
| 30-lbs. Top Icers | \$6.49 |
| 60-lbs. Top Icers | \$12.39 |

PAINS QUIT COMING
 "When I was a girl, I suffered periodically with terrible pains in my back and sides. Often I would bend almost double with the intense pain. This would last for hours and I could get no relief.
 "I tried almost everything that was recommended to me, but found nothing that would help until I began taking Cardui. My mother thought it would be good for me, so she got a bottle of Cardui and started me taking it. I soon improved. The bad spells quit coming. I was soon in normal health."

Newspaper Writer Puts Front Page Face into Drama

Packed with everything that makes film entertainment, from laughter to tears, "Consolation Marriage" comes to the Palace Theatre Wednesday for a two-day run.

The highly dramatic, realistic story of the lives of folk who make "second-choice" marriages is an RKO-Radio Pictures production, interestingly staged and enacted by a splendid cast. Heading the cast roster are Irene Dunne of "Cimarron" fame, Pat O'Brien, John Halliday, Matt Moore, Lester Vail and Myrna Loy.

Bill Cunningham, author of the story, says:

"Probably no one element of human life drama enters into the experience of so many adults as consolation marriage, or at least temptation to make consolation marriages or that gnawing doubt as to whether, after all, one's own marriage wasn't purely of the consolation variety.

"You love somebody. You are disappointed. You need somebody else. They, too, may have been disappointed. Or perhaps your love is first love to him, vital romantic love. Either way, what a field for dramatic happenings, for fine human deeds, and for dark ones too—for intrigue and sportsmanship, for dealing with all the qualities that make life fascinating."

Cunningham, a successful newspaper man, took advantage of every possibility.

Arlen Mixes Love With Adventure in "Sky Bride"

"Sky Bride," a modern story of aviation motivated by a gripping theme of love and adventure, in which Richard Arlen, Virginia Bruce, Jack Oakie, Charles Starrett and Robert Coogan play the leading roles, will be the feature attraction at the Palace Theatre Friday and Saturday.

The story of "Sky Bride" has a rich melodramatic flavor. Arlen, as a stunt flyer for an air circus, goes stale after a crack-up that killed his partner. He is taunted by another flyer as being "yellow." This stings him into a desperate effort in which he saves the life of Robert Coogan and also wins the admiration and love of his sweetheart, Virginia Bruce.

Director Stephen Roberts is a former army aviator and did stunt and air circus flying after the war. Since 1922 he has been a scenario writer and director of short subjects.

Card of Thanks

We desire to extend sincere thanks and appreciation to the friends who were so kind to us during the sorrow through which we have just passed, in the illness and death of our loved one, Mrs. Ross Lee. Your thoughtful acts of kindness help us to bear our sorrow and we will never forget those who grieved with us.

BURKETT FORECASTS PECAN CROP EQUAL THAT OF LAST YEAR

AUSTIN, June 20.—Present conditions indicate that this year's pecan crop will equal that of last year when 32,000,000 pounds were produced in Texas, according to J. H. Burkett, chief of the pecan division of the department of Agriculture, who has just returned from an inspection trip over the West Texas pecan producing section.

"Prospects are bright for a large crop next season," he said. "Climatic conditions have been good and in those sections that did not produce any pecans last year, the chief enemy of pecans—the case nut borer—has been eliminated to a large extent.

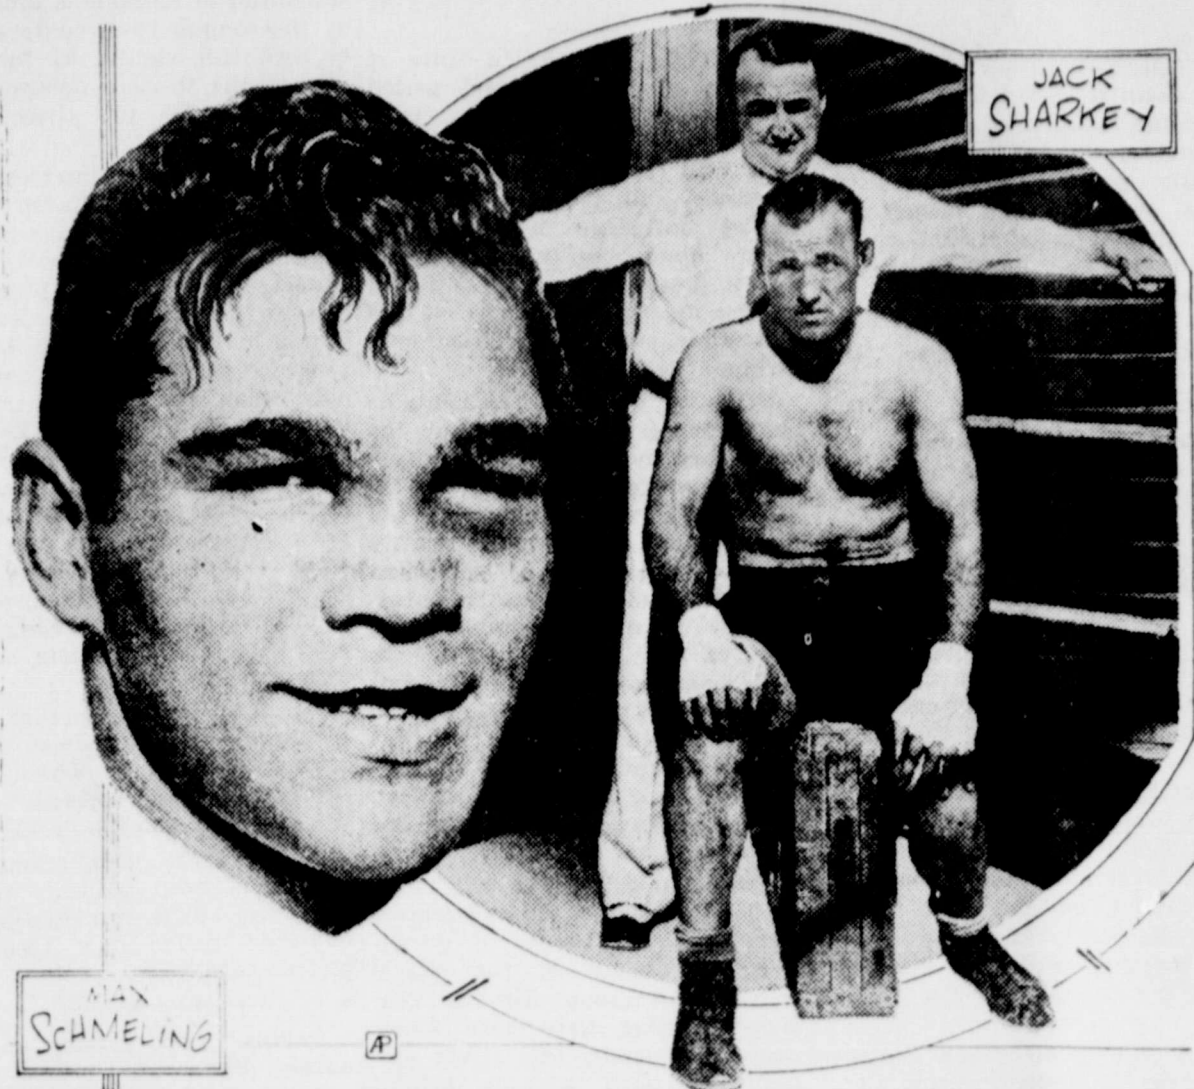

"The late freeze last season about ruined the crop from Brownwood northwest, which had the effect of thinning out the case nut borer. This season there should be but a few of these pests in that section to damage the crop. The surplus underground moisture this season, along with other ideal weather conditions, has been very favorable to a large production."

While predicting a large crop, Burkett also pointed out that production may be materially curtailed in localities by storms and accompanying hail and winds, which destroy the nuts.

An increase in the quantity of nuts of improved varieties is also forecast by Burkett. Last year Texas produced 32,000,000 pounds of the 75,000,000-pound pecan crop of the United States, but only 100,000 pounds of the bumper crop was of improved varieties. Production of high quality nuts through budding native trees with commercial varieties is steadily increasing, he said.

Buy from the merchant who advertises—it pays.

Sharkey Favored Over Max in Coming Bout

Memories of a vicious pounding absorbed two years ago, the effect of which are shown in photo at left, figure to prove tremendous mental hazard to Max Schmeling in his return engagement with Jack Sharkey, June 21, in New York for the heavyweight title. Sharkey, still sulking over the foul that cost him the championship, is shown right as he will appear to Maxie. Hardley a reassuring sight. Manager Johnny Buckley is in the background.

West Texas News Notes

Paint Rock Baptists will start at once on the construction of a new \$10,000 brick church. The money has already been pledged and workmen are wrecking the old building and preparing the lots for erection of the new edifice. During the summer while the church is being built services will be held in an old skating rink. Rev. J. W. Sailors is pastor of the church. The Baptist church at Paint Rock was organized in 1886 and the congregation has grown until the new building is sorely needed.

June 23 is the date set for the all-day celebration at Miles and a program that will attract thousands has been arranged by the Miles Amusement Club. Candidates from Runnels, Tom Green, Concho and Coke counties have been invited. A parade will open the program at 11 a. m., at noon 5,000 pounds of barbecue will be served, and during the afternoon speaking, baseball games, rodeo events and other amusements are slated. An invitation is extended to all West Texans to shake hands with Miles friends on this date.

Delbert Vestal, of Robert Lee, received a bad shock and some

serious burns last week when he was struck by lightning. He was standing in the doorway of his house when the bolt struck a wire near the building, knocking him down and rendering him unconscious. Vestal is regaining his health although he still suffers pain in the head and about the eyes as a result of the experience.

Two new road jobs will start in Concho county within the near future, both on highway No. 4 south of Eden. One contract is for the grading of the approximately 10 miles and the other is for the bridges and small drainage structures on the same route. The two projects will cost over \$50,000.

Erection of a new bridge across the San Saba River in McCulloch county will begin at once with all home labor employed and those with dependents given preference. The county also is active in promoting work on highways 16 and 9. The commissioners' court has just taken action which will assure the building of permanent highways in McCulloch county.

Coleman leaders are reviving in a city park and the grounds are being put in shape by that city.

Coleman has a natural site for an ideal park and playground. When the Coleman County Fair was organized buildings were constructed but the park will again be known as the Lions and Kiwanis Park and will be beautified for the benefit of all the citizens.

Ranchmen near Sonora shipped 25 carloads of lambs last week to Fort Worth and Oklahoma City markets. An estimated total of 8,000 sheep were shipped from that city during the past week. The lambs brought a little more than \$2 per head, the animals averaging over 60 pounds. Sixty thousand pounds of wool were consigned during the week, leaving only about five or six carloads yet to be shipped. Most Sutton county wool has already been disposed of.

RHEUMATISM CALLED DISEASE OF THE SKIN

(By Associated Press)

LONDON, June 20.—That rheumatism is primarily a disorder of the skin and not of the joints, heart and muscles, is the remarkable new theory propounded by Dr. L. J. Llewellyn and Dr. A. Bassett.

They contend that the skin lacks, in this disease, certain substances which pass into the blood to adjust precisely those ductless glands regulating our temperature. This explains, in their opinion, why rheumatics are so much affected by changes in the weather. When ultra-violet light acts on the skin the missing substances are formed and appear in the blood.

If the views of these doctors are proved correct a new field for treatment of rheumatism will be opened up. The most generally accepted cause of rheumatism is that it is due to the streptococcus germ which damages especially the joints and muscles of the heart.

Aims at 200 Bushels

ADA, Ohio, June 20.—(AP)—Ira C. Marshall, Ohio's "corn king" who has grown 176 bushels of corn on an acre of ground, is aiming at a higher record. He wants to raise a crop yielding 200 bushels to the acre.

"Safety First" Take that Clunk off the Road

YOU

May Be Your Own VICTIM

No man (professional murderers excepted) wants to take a human life, much less his own and yet every man who drives an unsafe car lays himself open to such a calamity.

Bank not too much on your skill as a driver; on the right of way; on your luck. Remember there are slippery pavements; heedless children, tottering old folks; all threatening the driver of a car with brakes that will not hold; steering gear that is unreliable; tires on the verge of collapse; poor lights... all of these are accessories to motor accidents in which there were more than 33,000 lives lost in this country in 1931.

Why should you lay yourself open to manslaughter, to heavy damage suits, to the risk of your own life? It is not only recklessness; it's heedlessness and heartlessness.

The Following Concerns are Sponsoring and Contributing to the Cost of this Safety Campaign:

- WICKS RUBBER CO. Star Tires
- CHAMBER OF COMMERCE Community Builders
- HARWELL MOTOR CO. Ford Dealers

Deaths

Mary Irene Fannin

Mary Irene Fannin, age 8 months, died at the family home on Sixteenth Street, Wednesday at 5:30 p. m. She was the daughter of Mr. and Mrs. L. V. Fannin who have resided in Ballinger only a short while. The baby had been in bad health for some time, becoming dangerously ill several days before death.

Funeral services were held at the family residence Thursday afternoon, Rev. E. W. McLaurin officiating. Interment was made in Evergreen Cemetery.

Higginbotham Funeral Home undertakers were in charge of arrangements.

4 Prisoners

(Continued from page 1)

encountered Mrs. Henson, her young daughter, and her mother, Mrs. Otto Vogelsang. Musil drew his "gun" on Mrs. Henson and told her he did not want to hurt her but would do so if she offered resistance.

The prisoners ran from the back door, throwing the keys and the "pistol" on the jail floor. An alarm was given at once by telephone. One of the prisoners who had been despatched to disconnect the phone failed to accomplish the task.

Musil, apparent leader of the gang, had been released a few months previously from the state penitentiary, where he had served a sentence on a prohibition violation charge. He recently was arrested on another liquor charge following a raid on his house by the sheriff's department and was in jail awaiting action of the grand jury. Pogue and Price had been incarcerated about two months after failure to make bonds of \$1,000 each on a burglary charge. Byers was in jail on a felony theft charge and had failed to make bond of \$1,000.

Sheriff W. A. Holt was in Winters at the time of the jail break but hurried home to take charge of the man hunt.

FOURTH EDISON MEMORIAL PLANNED AT MILAN, OHIO

(By Associated Press)

MILAN, Ohio, June 20.—A fourth memorial to Thomas A. Edison at his birthplace, Milan, Ohio, is being planned.

Edison's estate has taken over the birthplace, a small cottage, for memorial purposes. The state highway department has designated part of the Edison highway that is to cross the state. Seeds from the cherry tree on the estate have been scattered throughout the nation by Boy Scouts and the United States department of agriculture.

Now a 2,000-foot bridge across the Huron River to be crossed by the Edison highway, known in his boyhood as the "wheat road," is being planned.

Mrs. Phil Gates and children, of Stanton, and Mrs. W. B. Eppler, of Gorman, have been here for a visit with Mrs. F. V. Gates and family.

Club Shareholders Hold Annual Meet

Stockholders of the Ballinger Country Club held their annual meeting Monday evening at the club house. Reports of standing committees for the past year were heard and approved with considerable favorable comment on the financial report made by M. C. Atkins, secretary-treasurer.

No new business came before the assembly for discussion other than the election of five directors to serve on the board for the ensuing year. Four directors were slated to be elected this year and there was one resignation. M. C. Atkins and Frank Cameron are holdovers. The new directors are: Chas. F. Bailey, J. G. Douglass, Arthur Giesecke, Fred Kiechle and Robert Bruce.

The new board will hold a meeting this week at which time officers will be elected, committees named and other business transacted.

ALFONSO INTRODUCES NEW GAME TO ENGLISH ARMY

(By Associated Press)

LONDON, June 20.—Add to light occupations the game "alfonso," sponsored by no less a person than the former king of Spain himself!

Alfonso showed "alfonso" to the sixteenth Lancers, of which he is colonel-in-chief, recently, and since then it has been the rage in parlor-military circles.

Officers, other than those selected as victims, stand in two lines facing either other, and with their hands joined, forming a kind of bridge.

Each victim then takes a run and throws himself onto the arms of the first pair, who fling him to the next pair, and so on to the last pair who toss him onto a sofa which has been placed to break his fall but which he rarely lands upon.

The first pair, throwing their man high, shout "Al!" The second pair "Fon!" and the third "So!"

J. G. Fitzhugh, of Galveston, was in Ballinger Friday looking after railroad business and greeting Ballinger friends. Mr. Fitzhugh resided here several years at one time.

Estonia Barbers Butter

REVAL, Estonia, June 20.—(AP)—This country is bartering butter for fertilizer, having placed in Belgium large orders for super-phosphates hitherto given to Sweden, because Belgium agreed to take 10,000 tons of Estonian butter.

Joe Kirkwood, noted trick shot golfer, has played on nearly 2,000 courses in more than 30 countries.

To Develop University of Texas Hard Minerals

AUSTIN, June 20.—Steps leading to the development of hard minerals underlying University of Texas lands in West Texas are being taken by university authorities, represented in that region by H. P. Bybee, geologist and mineralogist for the university at El Paso, and school of mines officials.

Several conferences have been and are to be held with mine operators who are interested in obtaining permits for exploration and development. It is proposed to work out a lease form to apply to mineral development, since the present forms dealing with university land leases govern only oil and gas rights. It is proposed that the legislature shall enact measures at the January session providing for mineral development other than oil and gas, and it is for the purpose of submitting the necessary data to the law-making body that these conferences are being held. At present, under the terms of a resolution adopted by the legislature at its last session, no mineral deposits underlying university lands can be sold, leased or a mineral permit granted until some adequate law is passed governing this development.

It has been proposed by President John G. Berry of the college of mines that the state should collect royalty from minerals, including potash, mined on all lands, even privately owned, and that this revenue should be invested as the university's permanent fund from oil royalties is now invested, with only the interest to be used. Under this plan, he pointed out, Texas would perpetuate the benefits from the development of its mineral resources and would not spend the money as it becomes available, as some western states have done.

Two well-known mineralogists, Dr. J. W. Beede, of Bloomington, Ind., and Bert Haigh, of El Paso, have gone to San Angelo to conduct investigations on university lands. Dr. Beede will spend three months in studying the black shale basin in Irion, Reagan, Crockett and Terrell counties. This basin, which is between the Permian Basin and the Glass Mountains, is believed to underlie the Permian formation. Mr. Haigh will work with E. F. Boehms, who is connected with the university lands organization at San Angelo.

Oil is Recognized As World Industry

AUSTIN, June 20.—In spite of the fact that the present period in the petroleum industry is a transitional one, certain elements that will be of increasing importance and perhaps of dominating influence in the near future appear to be in evidence at the present time, it was stated in the monthly oil report of the University of Texas bureau of business research.

"One of the 'new' elements is the definite recognition that the petroleum industry, like so many other industries of today, is essentially a world industry," the report said. "The high relative rank of the value of petroleum and petroleum products from this country is a significant indication of the 'world' market for such commodities. Another important indication of the world aspects of the petroleum industry is the recent world oil conference in which British, American and Russian leaders of the industry took part in New York.

"Although this conference failed to reach any definite agreement even after four weeks of discussion, spokesmen of the Royal Dutch Shell group and the Russian delegates have both issued statements that the conference had not been without benefit

Oil is Recognized As World Industry

AUSTIN, June 20.—In spite of the fact that the present period in the petroleum industry is a transitional one, certain elements that will be of increasing importance and perhaps of dominating influence in the near future appear to be in evidence at the present time, it was stated in the monthly oil report of the University of Texas bureau of business research.

"One of the 'new' elements is the definite recognition that the petroleum industry, like so many other industries of today, is essentially a world industry," the report said. "The high relative rank of the value of petroleum and petroleum products from this country is a significant indication of the 'world' market for such commodities. Another important indication of the world aspects of the petroleum industry is the recent world oil conference in which British, American and Russian leaders of the industry took part in New York.

"Although this conference failed to reach any definite agreement even after four weeks of discussion, spokesmen of the Royal Dutch Shell group and the Russian delegates have both issued statements that the conference had not been without benefit

even if no agreement had been reached. That other attempts will be made to better plan world oil production with regard to actualities of markets is illustrated by the coming Paris conference to be held this month. At this conference the Russian delegates will be supplanted by those from Roumania.

"Daily average production of crude oil in the United States thus far in 1932 is somewhat less than it was in 1931, whereas in Russia daily average production this year has been greater than it was in 1931. In Venezuela daily average production is considerably below the average for 1931 but that of the Dutch East Indies is considerably higher than it was in 1931. Roumania and Mexico average similar to last year. These figures on the whole seem to indicate a growing power of certain other oil producing countries in their competition with American products in foreign markets.

"In this country another factor is making its influence felt in drilling operations which have shown a steady increase during the first five months of 1932.

"East Texas completions continue and new locations are being made. This remarkable field has now more than 6,000 completed wells."

BLOODHOUNDS COMING BACK TO HELP TEXAS RANGERS

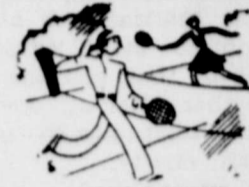

(By Associated Press)

AUSTIN, June 20.—Bloodhounds as a means of tracking down criminals are coming back into style in Texas.

Years ago it was customary for every Texas sheriff to keep a pack of bloodhounds in the jail yard. Then automobiles came into vogue and tracing evil-doers with hounds was not so efficacious.

W. W. Sterling, adjutant general has decided to try bloodhounds again as an aid to his Texas Rangers. He has imported a pack from Huntsville, site of the state penitentiary, where they were kept to track convicts who sought to escape through the farm lands.

It pays to read the ads.

SINCLAIR MINSTRELS...on 35 NBC Stations every Monday evening

Be first in traffic—use "fast steppin' gas" refined especially for big cities

You can ask for "that fast-steppin' gas" at any Sinclair Service Station and they'll know what you mean. For by this time the nickname which the men at the Sinclair refineries have just given Sinclair Regular Gasoline has spread outward over the country. The refiners call it "that fast-steppin' gas" because they're refining it to a formula first developed for quick getaway and flashy pick-up in the congested traffic of great cities.

But don't limit your enjoyment of this fast, light gasoline to the cities. Take it out on the highway and step along with it to your heart's content. Notice the smooth, sweeping flow of power. Enjoy the eager surge of power when you pull out to pass the other fellow. You certainly step along with the best of them when you use this fast-stepping gasoline! Fill up today with Sinclair Regular.

NOTE: For best results, use either Sinclair Opaline Motor Oil or Sinclair Pennsylvania Motor Oil. These oils have been de-waxed, and freed from petroleum jelly at as low as 60° F. below zero.
