Check All Equipment Now

The USDA predicts the nation will need all crops raised in 1952, and that farm income will be about 15 billion-which should make this a very profitable year. More food will be needed for the armed forces, for export, and for our increasing civilian population.

This is a good time to inspect all equipment to prepare for a busy season. Check supplies and repairs, for later there may be serious shortages. If new implements are needed, an order placed new may insure delivery without troublesome delay. These are days to plan ahead.

A good banking connection is a part of the needed equipment for success-and a profitable year. We invite new

Did you ever see a lawyer's

"We did it Again!"

That's the jubilant news that comes from Flint to every Buick dealer-and here we pass the thrilling story on to you. It sure is true for '52 that better automobiles are being built-and Buick is building them. Read the good word and you'll agree.

TET's pare this down to plain statements L of fact and let them speak for themselves:

The dynamic darling pictured here is the 1952 ROADMASTER.

history. It has the biggest brakes of any postwar

It has the mightiest engine in Buick

It is the quietest car that Buick ever built.

It has the richest fabrics and smartest tailoring that ever graced a Buick's

It has the greatest trunk space since spare tires moved off the front fenders. It has the most superb ride in Buick

It has the finest carburetor that Buick

research has ever devised. And with all its new power, it delivers more miles per gallon.

But that is not all.

For those who wish it, there is a brandnew version of power steering that works like a helping hand-gives you the same sure feel of control you have always known in straightaway driving -takes less than one-fifth the effort needed to turn the ordinary wheel standing at curbside.

Sure, we're putting our best foot forward when we talk about ROADMASTER.

But you'll find a host of notable features in Supers and Specials too-plenty to make them, as always, the standout buys in their fields-for ride, for comfort, for style, for room, and for power.

Come in-look this triumphant trio over - and you'll know why every Buick dealer from coast to coast is going around with a smile on his face.

Another major milestone in hauling progress

GMG PRESENT THE FIRST 2/2-TON DESEL

At last — Diesel economy and hill-leveling performance come to thousands of truckers who have never had any choice but gasoline power in the past!

TODAY America's foremost builder of Diesel I trucks smashes the size-weight barrier that up to now has denied the many economies of Diesel power to haulers of medium-weight

Today GMC offers users of equipment in the 19,500 GVW-35,000 GCW range a sensational new Diesel truck-tractor.

It is powered by the first welterweight Diesel truck engine-a smaller, more compact model of the famous General Motors 2-cycle engine that has made GMC America's first-choice Diesel truck.

More Miles per Gallon

Because it is Diesel-powered, this new GMC Model D450-37 will cost you far less to run per mile, far less to maintain per year than any other 21/2-tonner you've ever owned. All Diesel experience proves that.

Because it is a 2-cycle Diesel, it is a fast-starting, quick-accelerating, highly responsive truck with plenty of snap in traffic-a truck that will maintain a steady "on time" schedule even on

Fuel economy is automatic thanks to GMC's famous Fuel Modulator. Regardless of throttle pressure this engine never gets more fuel than it needs and makes the most of what it gets. Smooth driving is assured by "easy-turn" recirculating ball-bearing steering-even electric shifting on two-speed axle models.

Nationwide Service

Equally important to the thousands of truckers who can now enjoy the benefits of Diesel power for the first time, this new GMC D450-37 is backed by the nation's largest network of Diesel service stations.

Before you buy another truck, you owe it to yourself to investigate these new GMC welterweight Diesels if you want to cut costs! We will be glad to give you facts and figures that will open your eyes. Why not come in today?

Get a <u>real</u> truck!

... WITH THE FINEST PERFORMANCE OF ALL TIME

Featuring of Cadillac's Greatest Engineering Achievements!

THE NEW 190 H. P. CADILLAC ENGINE

Here is the most powerful, the most durable, and the most efficient automotive engine ever offered in a Cadillac car. Its power increase alone is almost 20%-and its new four-throated carburetor, larger exhaust valves, wider exhaust ports and new dual exhaust system make Wais engine one of the most dynamic performers of all time.

Fifty years ago, the first Cadillac car made its bow to the public. Today, as a fitting climax to those fifty years of progress, we are presenting in our showrooms the Golden Anniversary Cadillac—by far the finest car ever to bear this distinguished name. . . . It is easily the most beautiful of all Cadillacs. Numerous changes have sharpened and smartened the exterior design—while the wholly-new interiors are a revelation in comfort and luxury. . . . Performance is the finest of all time. The great Cadillac engine has a power increase of almost twenty per cent-and is even smoother and quieter in its operation. . . . There's a new Hydra-Matic Drive that gives the proper power application for every need. At a flick of the finger, you can have extra power and acceleration for city traffic and mountain driving-or wonderfully smooth, quiet, gas-saving performance for the open road.
... And there's a new "power steering" mechanism, optional at extra cost, which reduces normal steering effort by as much as seventy-five per cent! . . . If ever it could be said of a car's performance that it is 'out of this world," it can be said of the performance of the new Cadillac. The Golden Anniversary Cadillac is available in three series the "Sixty-Two," the "Sixty Special" and the "Seventy-Five." . . . These new creations are now on display in our showrooms-and we invite you to see and inspect them at your earliest convenience.

THE NEW HYDRA-MATIC DRIVE

By introducing an entirely new performance range, Cadillac's Hydra-Matic provides the proper power for every need . . . estra acceleration and responsiveness for city and mountain driving: smooth, quiet, gas-saving performance for the open road. Optional at extra cost on Series 75. Sundard equipment on all other models.

THE NEW CADILLAC POWER STEERING

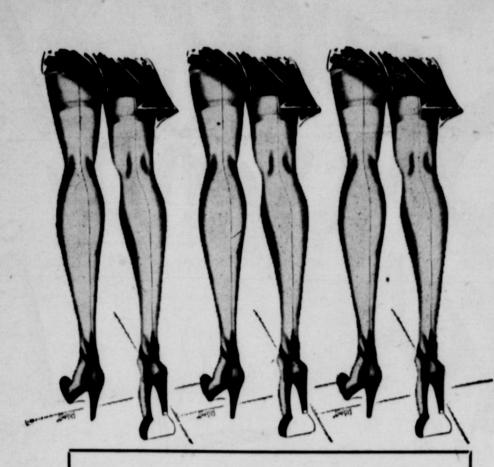

This "power steering" mechanism eliminates as much as seventy-five per cent of all normal steering effort. It provides incredible hanlling ease, and yet does not interfere in any way with the, driver's "road feel" or direc-tional control. Available as an option at extra cost.

"Back," by Henry Green, at the introduced the reviewed who regular meeting held Thursday has appeared on numerous Girl Scout Troop No. 9 Meets afternoon by the Ballinger programs in the city, and is

written by this author. Henry Green is the pen name of a prominent Birmingham manufacturer. It is a story dominated by the color that contained all that was left of a man's happiness. It is also the finest book of this era to describe a man's return from war "to find everything the same-and at the same time different." Mr. Green pursues with joy the whim of a man's character and the mysteries of his happiness.

Guests were: Mmes. W. Lange, J. B. Dankworth, O. R. O'Neill, Alex McGregor, Troy Simpson, George Holman, W. B. Woody, E. C. Baskin, Charles Hambrick, R. R. Mizell, Joe Flynt, James Wear, C. A. Watson. Other club members were: Mmes. Estes Lynn, F. M. Pearce, E. E. King, Sim Cottelle, B. C. Kirk, T. J. McCaughan, Ray Graham, Chester Cherry, Alvin O. Rue, R. O. Bobo, Loyd Herrng, and Max McCrary, Jr.,

all other American

Cars...

In the Grinding Tests that Won it the Motor Trend Magazine Award, Chrysler proved itself the Best Engineered Car in America

CHRYSLER SURPASSED ALL OTHERS WHEN MOTOR TREND TESTED FOR:

- * Average Braking Distance in Feet
- ★ Ton Miles per Gallon
- * Average Acceleration in Seconds * Acceleration Over Standing 1/4 Mile in Seconds
- * Average Top Speed in M.P.H. * Maximum Road Horsepower
- * Pounds per Road Horsepower
- * Maximum Torque in Lbs.-Ft.
- * Maximum Brake Mean Effective Pressure
- * First in Tota | Points

15 different American stock automobiles - equipped as you buy them-were driven by Motor Trend Magazine as hard as steel and rubber can be driven. In these actual road tests of efficiency and performance, measured by the most accurate instruments obtainable, Chrysler proved itself superior to all others. In 13 tests Chrysler was first in 7-tied in 2, making a total of 9 out of 13 . . . and first in total points!

Only by taking an engine to the limit of its potential, only by turning the corners at high speeds, applying brakes for emergency stops, torturing body, springs and shock absorbers, can you learn just what performance you can expect from the make of car you drive. The results of the Motor Trend tests were conclusive . . . as Chrysler, again, proved itself the one best car in America.

The Motor Trend Award, like numerous other honors today's Chrysler has won, is both a proof of and a tribute to Chrysler's magnificent Fire-Power engine and master engineering. Each demonstrates why, among men and women who know

the cathartic habit

Too MANY PEOPLE are influenced by stories concerning "intestinal cleanliness" or "stimulating the flow of bile." Many cases of simple constipation do not require a laxative at all, but only a minor change in diet and habit.

The habitual use of cathartics is dangerous. Such misuse is often followed by chronic ill health. Strong laxatives are particularly dangerous when taken to relieve abdominal distress. The source of the pain should always be accurately determined by your physician. The safe procedure is to consult him. If a laxative is needed, he will prescribe a safe preparation with proper instructions for dosage. Then bring your prescription to us for expert compounding.
