MARINES ROCKED BY ENEMY MORTAR FIRE . . You may think all the noise and fuss coming out of Korea come from the armistice tents at Panmunjom, but things are still a bit warm on the front, although not as hot as formerly, as this scene testifies. Somewhere on the Korcan front the explosion of an enemy 82MM mortar shell rocks the ground with a shattering "whoomp!" and sends the marines deeper into their trenches to escape the hard concussion and the flying shrapnel. Despite this missile of enmity, the word from Korea is that the Reds are in a mood to grant concessions for the sake of peace if they can

It Will Be in Demand When It's IO Years Old!

Take a new Cadillac home with you-use it with common prudence and give it reasonable care-

-and ten years from today, there should be many, many people anxious to drive it and call it their own

The soundness of this prediction is attested on used car lots throughout America. Every day, buyers are taking possession of Cadillacs built before the war -and are doing so with pride and anticipation.

There are many and vital reasons for this enduring value of a Cadillac car. First, of course, is quality. Cadillacs are built to the highest standard it is practical to enforce in the

production of a motor car. The watchword and the goal of those who design and build for Cadillac are one and the samehow good and how enduring can this car be made? Year in and year out, the search for improvement

goes relentlessly ahead. Small wonder that the car keeps its youth and its performance-far, far beyond the normal span.

And then there is its sound and enduring beauty. Cadillac styling is a development-with continuous improvement and refinement. Older Cadillacs, of course, are not to be mistaken for the current ones; but, regardless of age, they are still Cadillacs-and are distinguished and dignified in their own rights.

And then, of course, there is the wonderful Cadillac name-which never loses its significance, no matter how old the car which bears it. Year for year and age for age, a Cadillac is always aside and apart from

It is not unusual for a Cadillac to pass through four or five or even six different families - each one owning it with pride and driving it with pleasure.

Think of this when you buy your next car. If you get a Cadillac—there can be no doubt that others will be eager to own it when it has served you the

Why not come in-and see and drive this wonderful car? We'd be happy to welcome you any time.

A Tribute to . . .

Our Nurses!

The spirit of Fiorence Nightingale lives on today in countless homes and hospitals throughout this community. Working long hours, faithful and efficient, the nurse exemplifies the finest qualities of modern womanhood. What a blessed comfort it is to know that she, in her immaculate, starched uniform and cap, is instantly at your bedside at the touch of a button. Her happy smile and air of authority bring renewed confidence and hope to the most discouraged of patients. She is a practitioner of love and indispensable to the medical fraternity.

Thank You!

The entire membership of the Ballinger Rotary Club wishes to express appreciation to each person who attended our Pancake Supper and to those who helped in so many, many ways to make the party such a huge success.

The manner in which our entire town supported us in this undertaking is very gratifying to us. We assure you that it has been a joy and pleasure to sponsor this improvement, and we trust that you and yours will enjoy many hours in this beauty spot in the days to come.

Would you like for this to be one of Rotary's annual projects?

Again we say thank you from the bottom of our hearts.

A fool for a patient

It has been said that he who treats his own illness has a fool for a patient. The wisdom is obvious. What may seem to be an insignificant ailment actually may be a warning of serious illness, especially if symptoms persist or recur. Only a physician has the ability and knowledge required to diagnose and prescribe medical treatment. Seek his attention at the first warning signal. A prolonged and serious illness may be thwarted. If medication is needed, bring your prescription to us.

It makes each dr p of gas say uncle

ACCORDING to combustion experts, there's as much energy locked in a drop of gasoline as there is in a drop of nitroglycerine. But the problem is to put that energy to work.

So Buick engineers aren't content just to mix that drop with air and touch it off. They've designed an engine that brings it catapulting into a cylinder head where it strikes a turbotop piston-gets whipped into a churning, swirling ball of tight-packed energy.

Then it's fired. And when that happens, a drop of gasoline certainly lets loose power.

the future." It happens in a Buick Fireball 8 Engine today. It's a high-compression engine. It's a valve-in-

This isn't something that happens in a "car of

head engine. But it's also a Fireball in performance as well as name.

And it puts extra power under the hood-and extra miles in the fuel back in the gas tank.

Now, power is great, but what goes with it?

Mister, that's something you ought to find out -and soon.

What goes with it is an automobile as sweethandling, eager and willing as anything that ever made your pulse leap to a faster beat.

It's a car that seems to know what you want it to do - true and sure in its course on a straightaway - beautifully balanced on curves.

4-door, 6-passenger Special. White sidewalls optional at extra cost.

It's a car with Dynaflow Drive* to feed power with infinite smoothness-and a road-hugging levelness of ride that took a million in cold cash to perfect.

And it is, with all this, a very tidy bargain. Why not price it, drive it, know it for yourself? We'll be glad to arrange a demonstration.

Equipment, accessories, trim and models are subject to change without notice. Wheel Crests standard on Roadmaster, optional at extra cost on other Series. *Standard on Roadmaster, optional at extra cost on other Series.

Sure is true for '52 When better automobiles are built will build them

For a BETTER COTTON CROP

Progressive registered and certified cotton planting seed breeders are changing to the slurry method of Ceresan treating all the seed they sell

The slurry is the newest method of treating and requires a different machine from the dust method. It is the result of years of technical development and testing.

The machine referred to as the slurry treater synchronizes the flow of the seed and the disinfectant so that every bushel of seed receives the same accurate dosage of chemical.

The slurry method combines most of the long-sought features for a new material, a better method and a more foolproof machine for treating seed. It is rapid, dust-free, accurate and thorough.

beauty of the U.S. Olympic ski squad, and husband Paul Wegeman was made in Oslo shortly after they disclosed their secret marriage. They married in February, 1951, in Raton, N.M., to culminate a high school romance. The marriage was kept secret because Wegeman is a naval cadet at Pensacola, Fla. At the same time the couple denied any romance between Miss Rodolph and Stein Eriksen, Norwegian skiing ace

 SOUTH BALLINGER HOME DEMONSTRATION CLUB .

home demonstration agent, discussed outdoor living rooms when 16 members and four visitors were entertained in the rural home of Mrs. Austin Williams Tuesday afternoon. Mrs. Calton Smith directed

the business session and heard a council report given by Mrs. Neuman Smith. A training meeting for home improvement leaders will be held in the agent's office Friday afternoon. In presenting her topic, Miss Chenoweth showed slides of utdoor living rooms, and urged nembers in making these rooms to keep in mind the two essential things, one, to make the room livable and private, Al Smith's middle name was but not a great distance from the home, and the other, to Romany is the language of use shrubs and vines in order to make it attractive.

The next regular meeting will be held in the home of Mrs. Jack Fry. The program will be on "Garden Insects," and a report on the district meeting which was held last nonth in Colorado City will be

Birthday" as Mrs. Williams was celebrating her birthday, when cake and frosted coca colas were served.

Visitors were Mmes. Paul and lyde Williams, Bob Farley, and

Talbott, 22-year-old brunette from Washington, D.C., who has been named "International Motor Sports Show Queen for 1952," for the greater glory of motor sports and the prosperity of press agentry. According to the dope sheet we received, here are the vital and pleasant statistics: height, five feet and seven inches; weight, 122; bust, 36 inches; waist, 24 inches, and hips, 34 inches. Telephone number unknown. All kinds of

Numerous Traffic Tickets in April; Meters Pay \$849

City police in charge of park- Ballinger post office. ing meters issued a total of 1,537 tickets during April, one of the highest numbers for any month since the meters were -cent pieces were remitted in the courtesy envelopes, the cost of issuing that many red tags and envelopes is considerable. Fifty-five tickets were not eturned and 22 notices have been sent out where \$1 fines have been assessed.

meter receipts totalled \$849.94. arrests, one driving while intoxicated case being transferred to the county court. Of No. 241, by excluding certain the eight arrested four paid lands from permit area described fines in full and a total of \$81.80 was assessed. The complaints were 3 for drunkenness, methods, both the lands 2 for driving without a license excluded and the lands to be and 3 for reckless driving.

During April there were three fires with a total loss of \$2,670. During the same period six accidents were listed with damage to motor vehicles of \$925. No injuries resulted from the State of Texas, in the the accidents.

Testing Laboratory Seal on the new automatic gas ranges. Only gas ranges have the AGA Seal.

you will find the American Gas Association

Because of rigid tests which gas appliances must pass to earn the AGA Seal, gas appliances are the safest fixed appliances you can put in your home. Report of National Fire Protection Association shows that they are safest Not only are they safest,

but new automatic gas ranges give you these important advantages:

1. Speed, flexibility and cooking efficiency approached by no other method.

2. America's easiest cooking appliance to keep clean.

3. Everything automatic. Complete meals cook while you are away. 4. Savings of \$15 to \$35 a year. Gas is cheaper to use 4 to 1.
