SERVICES SUNDAY

City Authorizes And Fence Signs Banquet Monday; A Ladies Lounge For Use At Park

The city commission was in new business.

One of the most important actions taken Tuesday was to use the old rock girl scout building at the city park and turn it into a ladies lounge. The commission authorized the work which is to be started soon and completed before the heavy use of the park facilities this summer. Included in the work will be a new roof, wiring for electric lights, installing additional furniture there for the use of adies at the park in the future.

Another feature at the park will be the installing of a 697 feet. modern drinking fountain for use this summer. Authority was also given to

GET ALL THE BUILT INTO 1957 CARS

If you've bought or are planning to buy one of the handsome new '57 models, then you should know about Chevron Supreme's exclusive Skypower formula, and why it's important to your engine's performance.

As you drive, combustion deposits form on spark plugs, valves and piston heads. Within a few thousand miles, these frequently cause knock and power loss in new cars, sluggishness in older models.

Skypower (ethylene dibromide, from aviation fuel) vaporizes these deposits before they cause trouble...

keeps new cars at peak performance, adds new life to any car. Chevron Supreme has carburetor-cleaning "Detergent-Action," too, for smooth idling, long

Whether you buy a new car or stay with your present one, Chevron Supreme will help you keep that "new car" feeling. If you don't need Supreme, you'll get peak power with Chevron Gasoline. Buy the grade that's right for you - and for added convenience, use a Chevron National Credit Card.

Far into the Night

NIGHT AND DAY throughout the year, scientists are working in research laboratories in the interest of public health. During the last two decades many diseases have been conquered. There is reason to believe that more and more progress will be made, that many afflictions now fatal will gradually yield to medical research. Your doctor, and he alone, is well informed on these new discoveries. He includes new medicinal agents in his practice as soon as their therapeutic value has been established. Depend on your doctor. Depend on us to fill his prescriptions,

Follow Neglect

Did you ever see an attractive person with irritated "GUMS"? Druggists refund money if first PEARCE-BAILEY DRUG

You'll learn on a turn. It's low for MORE than looks

s you can plainly see, the gorgeous new 1957 A Buicks are low-low to match the sleek silhouette of their modern sports-car styling -

alone

Lower than any Buick in history-by as much as nearly four inches - and, mind you, with more interior room and without sacrificing an inch in road clearance.

But you'll soon learn that this sleek new lowness does more than add beauty to the Buick look. It brings new great-

ness to the Buick ride.

it snugs the car to the road. How it cuts down the sidesway. How it gives you the safe-and-surefooted steadiness of four wheels always on the

That's because these sweet-handling, sweetriding beauties give you the lowest center of gravity in Buick annals - born of a brilliantly engineered new chassis that "nests" your ride low and steady as you go.

But the core of this new Buick's story is the action you get.

You get action that stems from the instant response of an advanced new Variable Pitch Dynaflow* so able and obedient and full-range in "Drive,"

even without a switch of the pitch, that the need for "Low" is virtually eliminated.

V8 engine of 364-cubic-inch capacity, of recordhigh horsepower and compression, and of almost complete freedom from vibration.

Modern cars, especially the 1957 models, have engines with very high compression ratios (9 to 1,

and higher!). These engines require a gasoline that's better than the best of "premium" gasolines, better than the

The one gasoline - the only one - that permits every high compression engine to deliver its full power output is Humble's Golden Esso Extra.

It is the world's finest automotive fuel . . . with the highest octane rating of any gasoline.

Protect the value of your automobile investment use the gasoline that gives you added value from full performance. Fill up at the golden pump under your neighbor's Humble sign.

If you answer yes to any one of these questions, you should try Golden Esso Extra world's finest gasoline.

Does your car knock on "premium" gasoline?

Is your car air-conditioned? (On an average the engine pulls a 3-ton air conditioner.)

Does the engine have a compression ratio of 9 to 1, or

Does your car have more than one carburetor or a "Power-Pack?"

Is the engine rated at 200 horsepower or higher?

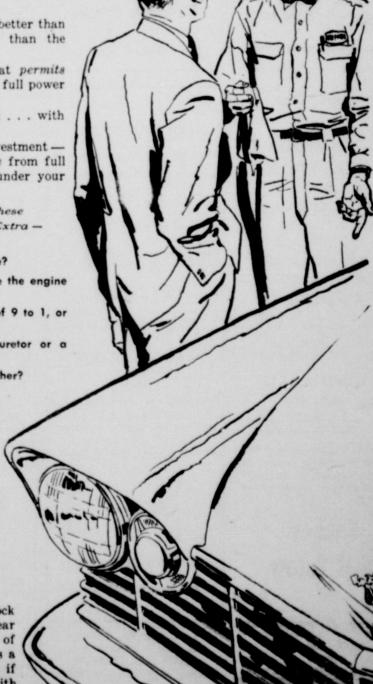

(These points become even more important as you add miles to a new car. Anti-knock requirements increase when you pass the break-in period.)

Don't let a "knock you can't hear" rob your car of power!

Engineers call it "trace knock," a knock so faint that only a trained technician can hear it. But like all knocks, it robs your engine of power, forecasts engine damage. If yours is a modern car in any price class - especially if it's a 1957 model - prevent "trace knock" with Golden Esso Extra, the gasoline with the highest octane rating ever.
