GRATEFUL PATIENT

"It's about time I told you, Pete, that I'm one of your grateful patients, even though I'm the doctor and not you. Yes, 10 years ago you asked me to join the Chamber of Commerce. I did so and I've been grateful ever since.

"It was just about the time I was beginning to feel solidly established in town. I had begun to realize that because of my profession, people looked up to me. 'If they're going to do that,' I said to myself, 'the least I can do is try to set them a good example of civic responsibility."

"Then it also dawned on me that the Chamber of Commerce could be my jumping off place from which to attack disease on a community-wide basis. And that's the way it worked out. Our Committee of the C. of C. has helped reorganize the Health Department, expanded hospital facilities, and set up an inspection procedure for the town's eating places-not to mention the Chamber's work in eliminating substandard dwellings."

"You're right, Doc. You and your Committee have done wonders. And don't forget, most of the Chamber of Commerce work you professional men do helps you too, in the long run. It's a whole lot more satisfying to be a physician or lawyer in a prosperous, healthy community than in the other kind. I'm glad you had a good time doing it. And keep it up, Doc, for all our sakes."
