Water Curb Announced For All Irrigation Here

City officials announced Tuesday that additional water curbs would be necessary here during the summer peak.

Starting at once houses with 1/2 inch numbers will irrigate on Monday, Wednesday and Friday of each week. Those with even numbers will irrigate on Tuesday, Thursday and Saturday.

All water users are urged to abide by this arrangement and plan their irrigation so that they can take care of their yards on the three day schedule.

The use of water here has been hitting a high peak each day and is more than the pumping facilities can handle. Each afternoon the pressure has been so low that some sections of town have been without water

for several hours. The storage has been drained so low that the facilities cannot catch up before all lines are opened again.

City officials feel that the above arrangements will take care of the situation and make it possible for the water department to provide ample water in the lines at all hours of the day.

A check will be made by patrol cars and any persons who are found using water on the off days will be asked to cooperate.

Local consumption of water has been running more than 1,500,000 gallons per day. Pumps have been operating on a 24 hour schedule and still falling behind with the consumption.

Potter Is Named Lone Star Head; Replaces Hulcy

D. A. Hulcy

Lester T. Potter was elected president of Lone Star Gas Company at a meeting of directors in the company's Dallas headquarters July 10. A native of Dallas, he succeeds D. A. Hulcy, who served as Lone Star president more than 17 years.

At the request of the directors, Mr. Hulcy will continue with the company as chairman of the board "even beyond his normal retirement date of December 1, 1957," under the company's retirement program. He was elected board chairman in 1952.

Mr. Potter, fourth president of the 48-year-old company, began his new duties immediately. At 51, he is one of the youngest of Lone Star's officials. He has served with the company for more than 29 years, coming to Lone Star in 1928, the day after receiving a degree in mechanical engineering from Texas A & M College. He had been executive vice president of the company since 1954.

Texas-born Mr. Hulcy began his career with Lone Star in 1929 as a clerk in the accounting department. Twenty years later he was elected president to succeed the late L. B. Denning.

Under Mr. Hulcy's leadership, Lone Star has experienced its greatest growth. When he became president, company assets amounted to approximately \$100 million; on May 31, 1957, they exceeded \$411 million. Capitalization has grown from some \$65 million in 1940 to more than \$275 million in 1957. Lone Star's property account at December 31, 1956, amounted to some \$340 million, a gain of approximately \$234 million in 12 years.

Lone Star is presently serving more than 785,000 residential, commercial and industrial customers through company-owned and operated distribution systems in Ballinger and 454 other cities and towns in Texas and Oklahoma.

During his entire Lone Star career, Mr. Hulcy has been active in the business, social, civic, welfare and church affairs of his city, state and nation. He served as president of the Dallas Chamber of Commerce for three consecutive years, was drive chairman and president of the Dallas Community Chest and president of the Dallas Citizens Council. City officials stated that a number of complaints have been filed of local people burning trash which is causing fire hazards. Some have raked piles and burned them in alleys without a container and dry weeds in the area have been ignited.

City officials ask that the utmost care be used when trash is to be burned and if at all possible to have the trash hauled instead of starting fires in alleys.

Promise Is Given To Survey County Water Pollution

Ray Fuqua, C. C. McKnight, Audra L. Mitchell and Earl Barr, directors of the Runnels County Water Improvement District, and R. E. Bruce were in Austin the first of the week attending hearings before the Board of Water Engineers. The Runnels County men, all interested in the development of water conservation in this county, were listening to the Hubbard Creek project which was being reviewed before the state board.

While in Austin, Mr. McKnight discussed the water pollution problems in Runnels County with the Board of Water Engineers and with Olin Culberson, a member of the Texas Railroad Commission. He gave the board members locations of salt water pollution in water wells, surface tanks and streams and pinpointed them on maps of the county. Members of the board promised Mr. McKnight that they would send an engineer into Runnels County within the near future and asked that anyone with salt water problems file their information with Mr. McKnight or County Judge W. H. Rumpy.

Much work has already been done in regard to this project and the staff in the office of the county farm agent has a large number of complaints on file in several sections of the county.

The attraction is "The Brave One," produced by the King Brothers for RKO. A 10-year-old boy, Michel Ray, is introduced as the star and the film was made in Mexico on actual sites described in the story by Robert Rich.

Tom Ewell, who co-stars with Jayne Mansfield and Edmond O'Brien in Twentieth Century-Fox's rock 'n' roll comedy, "The Girl Can't Help It" has come to the defense of the purveyors of this rhythmic type music. Contribution For All-Faith Chapel By Local Chapter

Officers and executive directors of the Runnels County Tuberculosis Association met at the TB office at the courthouse annex Thursday afternoon for a very important meeting, at which Dr. John E. Green, president, presided.

A discussion on the association contributing \$100 toward erecting an All-Faith Chapel at McKnight St. a Tuberculosis Hospital at Sanatorium, was held.

Since Runnels County is one of the 148 counties, and there are only 50 organized TB associations in counties served by McKnight, the hospital All-Faith Chapel committee, headed by M. D. Bryant, is asking each of these associations for \$100 contributions.

The "kick-off" of the campaign for funds to build the chapel was held in San Angelo in May. Much planning has gone into the preparation, and such able people are members of the campaign committee, that West Texans say that the "Funds are in the Bag." They expect to break ground for the building in August. It will be the first built on grounds of any state hospital.

The first donation to the \$75,000 chapel was the elevation and floor plan by architect Lee Hunter of Fort Stockton. The chapel location will be on the right as the visitor enters the 26-acre ground, and will seat 200 people; a Blessed Sacrament room, a Catholic chaplain's study, a Protestant chaplain's study, rest rooms. Currently there are no Jewish patients at McKnight, but the building is planned so that it is suitable for Jewish services.

Because many of the patients at McKnight are bed patients, a program distribution system throughout the hospital is included in the chapel-plans. This will allow those in bed to attend church services via radio.

The system is especially designed for hospitals. It provides 650 pillow speakers, one to every bed.

A motion was made by Rev. E. R. Gordon for the local association to give the \$100 donation, and was seconded by Dr. L. L. Downing. The motion was unanimously carried.

Other discussions were on the type of educational programs that would be the most beneficial to be used at the quarterly meetings.

Others attending the meeting were the executive secretary, Mrs. Willard Renfro, Mr. J. D. Reineau, Mrs. Sim Cottle, Mr. and Mrs. W. I. Dixon and Homer Hudgins from Winters; Ernest Caskey, Rev. Felix Keys, John Purifoy and Judge W. H. Rampy.

SPORTS

The Westerners have been having their troubles with injuries on the recent road trip. Sunday afternoon on their return home three pitchers were playing regular positions in the lineup and five of the six pitchers saw action in the game.

Stubby Greer, veteran shortstop, was injured at Hobbs last week when he was hit in the face with a pitched ball. The lick left him with cut lips, a few loose teeth and he will be out until the latter part of this week.

Joe Vick, who has been filling in as an outfielder, is attending national guard camp and will rejoin the team Sunday after the completion of two weeks training at North Fort Hood.

Ron Kiser was hit on the arm.

by a pitched ball Sunday afternoon and had to leave the game. He was back in the game Monday night with only a bruise left from the hit.

The Westerners placed five men on the all-star team in Midland Wednesday night. In selection of the east team, there were five unanimous choices and four of these were Ballinger players. Jim Moore, Kenny Jones, Bob Leach and Eugene Lippold were the unanimous choices and Ed Maier was the other selection from Ballinger. Tony York was named manager of the east team.

Better attendance is the big thing needed here. The Westerners are giving Ballinger the best baseball ever played here. They are leading the league by a safe margin and are deserving of more fans in the stands. Local fans will cooperate with some special nights in the near future which are expected to help the Ballinger gate receipts.

The Westerners will be away from home the remainder of the week and will be back Sunday to start six games at home. Sunday, Monday and Tuesday Carlsbad will move into town and they will be followed by Hobbs on July 24, 25 and 26.

Ballinger and Bethel 4-H Club girls presented a program for the Ballinger home demonstration club which met Thursday afternoon in the home of Mrs. Edwin Vogelsang.

CONVINCED the small-car field is your limit?

READ THIS STARTLING FACT

5 out of 10 Smaller Cars wear a Pontiac Price Tag -yet none gives you Any of Pontiac's Advantages

YOUR MONEY ACTUALLY BUYS UP TO 8.9% MORE SOLID CAR PER DOLLAR IN A PONTIAC!

The so-called "low-price" cars fall far short of Pontiac in actual, measurable car—and your Pontiac dealer has official specification comparisons to prove it! No smaller car comes even close to Pontiac's rock-solid construction . . . from its rugged X-member frame through every inch of its heavy-duty running gear Pontiac is muscle all the way! This extra heft means Pontiac holds the road like no smaller car you've ever driven . . . gives you a ride remarkably free of bounce, shake and noise! Put all the facts and figures to your own personal road test. Call your own shots and see how Pontiac's Precision-Touch Controls let you relax to steering, braking and parking ease out of reach of the small jobs!

WITH 4 TO 7 EXTRA INCHES OF WHEELBASE, PONTIAC OUTCLASSES THE SMALLER CARS IN RIDE AND ROADABILITY!

Pontiac's length is built in—not hung on! Smaller cars extend bumpers and fenders to look big, but Pontiac doesn't need camouflage . . . it is big! Its man-sized 122-inch wheelbase strides over the bumps instead of riding on them. This extra length, plus a carload of new suspension ideas, results in Pontiac's exclusive Level-Line Ride that no car at any price can surpass! Sample a few miles—and you'll never re-enlist in the small-car army again!

NO CAR AT ANY PRICE PERFORMS LIKE A PONTIAC . . . SMALLER CARS AREN'T EVEN IN THE RUNNING!

If it's proof you want, your Pontiac dealer is loaded with it—point-by-point engineering comparisons and on-the-record facts and figures. No smaller car is designed or built to come close to Pontiac's eye-opening response . . . its smooth, effortless mastery of every driving demand. Put the facts on America's Number One Road Car to a test and you'll leave the little league for good!

PONTIAC HAS ALWAYS COMMANDED A HIGH TRADE-IN DOLLAR!

When you put your money in a Pontiac you know your investment will be riding high for a long time to come! In fact, over the years, no car has a better reputation for being a top-demand used car. So before you sign on the dotted line for a smaller job at Pontiac's price—get the dollar-stretching good news your Pontiac dealer has waiting for you. Here in the easiest move of your life are the car and the value that will get you out of the small-car class for keeps!

NOTE! If you want the ultimate in both economy and extraordinary performance, now Tri-Power Carburetion is available at extra cost on even the lowest priced Pontiac model! It's America's newest power advance and exclusively Pontiac's at so low a cost!

Dixie Wilbanks, club president, gave the highlights on the district 4-H club meeting. Jimbeth Flynt directed two clever recreation stunts at which all participated. The program was concluded with the club prayer in unison.

Mrs. Alvin Spreen, Ballinger Club president, conducted the business. Each club member gave her family's favorite recreation as they were introduced. Mrs. Bill Witter gave the "Thought for the Day." The president thanked the 4-H Club girls for the program which they furnished and the club presented the 4-H club a donation to help carry on their work.

Refreshments were served to the visiting girls and to Meses L. C. Hill, W. A. Nance, Rufus Allen, Witter, Felix H. E. L. Williamson, Herbert Tickle and Spreen.

FRIENDLY NEIGHBORS HOME DEMONSTRATION CLUB

Mrs. J. Wessels conducted a round-table discussion on "Ways of Solving Personal Problems" at the regular meeting of the Friendly Neighbors home demonstration club which was held in the home of Mrs. C. T. Moonen last Wednesday afternoon. At the recreation period a quiz on "The Care of an Automobile" was held.

Mrs. Roy Tyree, president, was in charge of the business and roll call was answered by naming "What I Would Serve 10 People in an Emergency." Mrs. H. O. Vogelsang read "The Club Women's Aims." Mrs. Ralph Russell reported in the progress of the plans for the upholstery school which will be conducted on July 16, 17 and 18 at Hagan-Barnett by Miss Ollie Chenoweth. The club set August 6 for its Family Night pot luck supper which will be held at the City Park. Each member was requested to invite a family as added guests.

At the social hour, Mrs. Moonen served ice cream and cookies to members and a guest, Carol Sue Stubblefield.

The next regular meeting will be held on Wednesday, September 11, in the home of Mrs. Leon Russell.

Tea In Davis Home Honors Betty Louise Berryhill

A gift tea honoring Miss Betty Louise Berryhill, bride-elect of John Walter Duke, was hosted in the home of Mrs. Allen Davis last Saturday afternoon.

Vows will be exchanged by the couple July 27 in the First Methodist Church.

Assisting Mrs. Davis with hostess duties were Meses Bill Bell, Charles Miller, Marion Hays, Cal Adair, D. W. Turner, J. C. Beddo and Herman Herring.

Mrs. Adair greeted guests and presented them to Mrs. Davis and Mrs. Ramon Berryhill, mother of the bride-elect, the honoree, and Mrs. Walter Duke, mother of the prospective bridegroom, and his sister, Mrs. Bob Bartlett, Mrs. Bobby Gray and Mrs. Connie Rountree, sisters of the bride-elect and bridegroom elect.

The bridal colors of pink and white were used in decorating entertaining rooms. Pink carnations and white pom-poms in a crystal bowl centered the tea table and white candles burned in single crystal holders. The table cover was a pink rose gandy cloth appliqued with a deeper shade of rose gandy. Alternating in serving were Patricia Davis, Martha Kay Northington, Susa Herring and

Glenda Beddo.

Mrs. Buster Berryhill registered guests, and other hostesses dispensed hospitalities throughout the calling hours when some 160 friends of the honoree called.

Rebecca Davis presented piano selections during the tea hours.

Sally Parker Honoree At Birthday Party

Sally Parker, daughter of Mr. and Mrs. Lee Parker of Talpa, who was celebrating her seventh birthday anniversary last Friday, July 12, was complimented at a Western Round-up party in her home at Talpa.

Mrs. Parker was hostess to members of the Sunbeam Band of the Baptist Church who came dressed in Western attire as the invitations specified. Games of Barrel Roll and Round-up were played.

The refreshment table had an autographed picture of Billy Diamond mounted on Fury, inside a corral, at one end, and the large decorated cake at the other end. Ice cream, individual birthday cakes and punch were served. Favors were sheriff badges, masks, and other Western motifs.

Guests were Evanet and Janie Browning, Shirley Turk, Charlotte Faubion, Marsha Gould, Carol Brookshire, Melanie Big-

years the department's field workers will be required by law to determine the resources of relatives of persons who apply for aid.

The "permanency" and "totality" of the disability will be determined by a state reviewing physician after study of a complete physical or mental examination by the person's own private physician. Complete helplessness from a medical standpoint, rather than inability to work, is the criteria. The state will pay the private physician for his examination.

Funds for assistance payments will not be available until September 1, 1957, but applications will be taken after July 15. While the helpless individual will not be able to leave home, the persons responsible for his care may come to the local office and acquaint the department with his situation. A field worker will then call, as soon as possible, at the home to take the application.

Farmers Offered Gas Tax Refund Guide Booklet

A. E. Fogle Jr., Administrative Officer of the Abilene Internal Revenue office, announced today that a revised Farmer's Gas Tax Refund guide booklet is now available to assist farmers in submitting Federal gas tax refund claims for the year ending June 30, 1957.

The publication, No. 308, together with claim form 224 and instructions for submission of claims are available on request at the Abilene Internal Revenue office. Forms and instructions may also be obtained at county agricultural agents' offices.

Claims should be filed on Form 2240 on or after July 1, but no later than September 30, 1957.

Last year a million and quarter farmers filed claims for refund of the Federal tax on gasoline used for farming purposes, and refunds averaged \$20. It is estimated that the number of claims for refund filed this year will be close to 2,500,000, and the total refund is expected to increase correspondingly. These expected increases are due to an increase in the Federal gas tax rate from two to three cents a gallon this year.

The Farmer's Gas Tax Refund guide explains in plain language the rules and procedures to be followed in filing a claim for refund of the Federal gasoline tax. It also explains conditions under which the farmers may purchase diesel fuel and other special motor fuels, to be used for farm purposes, without payment of the Federal tax thereon.
