next Tuesday and Ballinger drivers are asked to slow down and be careful when students are using the streets to get to and from school. For many years there has not been a traffic death in Ballinger and each year the city police department is given a plaque for that record. To maintain such a record the police must have the full cooperation of all the drivers of the town. In recent weeks the local law enforcement officers have issued a large number of tickets for various types of violations. They have been making a war on noisy mufflers, speeders, driving without a license and other charges. They plan to double their efforts with the start of school, especially with those who drive too fast.
