HOMEOWNER?? or HOBO??

What you do about insur ance protection within the ne 24 hours might very well det mine whether you remain homeowner or wind up "9 the cold" like the go Building costs have doubled.

Would you be able to replace your home if it is destroyed tomorrow? Not if it is insured by 1946 standards.

Be sure your insurance protection is up-to-date. Our free protection check costs you nothing, and may save you thousands of dollars.

CALL

Hear ye! Hear ye! Holiday good times are coming up

with guests a-plenty and parties galore. And what's

wanted in the refreshment line? Why, plenty of ice-

cold Coke, of course. The sparkling pleasure, the

bright little lift of Coca-Cola, makes everyone enjoy

the party more. The best-loved sparkling drink in

all the world . . . that's Coke!

SIGN OF GOOD TASTE

serve your ice-cold bottles of Coke

Just tie a perky little red bow around

the neck of each bottle and stick a

tiny button chrysanthemum or a bit

of holly through the bow . . . then

let guests help themselves to the good

taste of Coca-Cola.

Death's Night Before Christmas

Twas the night before Christmas when all through the room

Not a creature was stirring-not even a bloom. The caskets were lined by the fireplace with care,

And the fragrance of flowers covered the air.

Loved ones were gathered with tears in their eyes While the silence was torn by heartbroken cries.

When up with the dawn we had jumped in the car To visit with Grandma-a distance quite far.

Away through the country we'd sped like a flash, Tore down the highway-a death-dealing crash!

Gave a silent reminder for those passing by

He was dressed all in black from his foot to his head

And I screamed when I saw him, in spite of myself.

And he whistled and shouted, and called us by name:

Now, Speeder! now, Careless! now Honker! and Creepy!

Now, dash away, dash away, show you got nerve!"

The tingling, spine-chilling, most awesome of sights

When we met with another to mount to the sky.

And the smoke, it encircled my head for a wreath.

Through the windshield and dash came the grinding of steel

On Passer! on, Weaver! on, Drinker and Sleepy!

And his clothes were all tarnished with blood from the dead;

That out in the darkness of a cold winter's night Stood a grim, cloaked figure, ready to smite.

A long curved scythe he had flung on his back,

And he looked like a devil about to attack.

He was skinny and gaunt, a right vicious old elf.

Soon gave me to know I had plenty to dread:

spoke not a word but went straight to his work

Adding us to his roll of nitwits and jerks.

More rapid than autos his coursers they came,

To the top of the hill, to the end of the curve!

As I drew in my head, and was turning the wheel

As dry leaves, that night, the wild auto did fly,

The stump of my pipe, it broke off in my teeth,

So hear as I speak from death's darkened sill: Slow down, my friend, pass not on that hill.

For he waits there ahead, omnipotent and cold

this time are:

For the drivers, lax, in his arms to enfold.

Escape him you can't, if you must take the chance;

Death is the penalty-you know in advance.

For I heard him exclaim ere my eyes dimmed of sight,

"Careless driving to all and to all a good fright."

And then in a twinkling, I saw in my lights

A blink of his eye, and a twist of my head,

Our blood on the crest of the hilltop so high

Dressed in the gifts of our children so sweet.

Were Mamma and I in eternity's sleep.

Far into the Night

NIGHT AND DAY throughout the year, scientists are working in research laboratories in the interest of public health. During the last two decades many diseases have been conquered. There is reason to believe that more and more progress will be made, that many afflictions now fatal will gradually yield to medical research. Your doctor, and he alone, is well informed on these new discoveries. He includes new medicinal agents in his practice as soon as their therapeutic value has been established. Depend on your loctor. Depend on us to fill his prescriptions.

THE BEAUTIFUL WAY TO BE THRIFTY...'58 CHEVROLET!

CHEVROLET

Economy never looked like this or performed like this before. But now look what the '58 Chevrolet offers youeven in the lowest priced Delray Series you see illustrated here.

Look what the beautiful new Delray models do for your dollars! They're the lowest priced of all the low-priced Chevrolets. But they're long, low and loaded just the same. A full nine inches longer, dramatically lower, and

loaded with new things that make driving happier and riding smoother.

Just try one! Power ranges from the budgetminded 145-h.p. Blue-Flame 6 to Chevy's radical 280-h.p. Super Turbo-Thrust V8.* Delrays, like other models, have a new Full Coil suspension-a softer, road-leveling ride. You can have a real air ride* to make the going even smoother-and Overdrive* to make it even thriftier. See all that's new at your Chevrolet dealer's. *Optional at extra cost

Proof Machine

This bank is constantly purchasing new equipment to expedite the ever increasing volume. Modern bank machinery is necessary if accuracy and speed is to be maintained. We have now installed a 'proof machine" which contains a series of adding machines with a master tape; checks, deposits and other items are distributed in twenty pockets, with an adding machine for each, then at the close of any day's business the total of each pocket may be had by pressing a button and a total of all these separate pockets is given on a master tape. With this machine we can tell at a glance just how much money each teller should have in each of the windows we operate and if mistakes are made the machine will so inform the operator by locking and refusing to operate. It would be difficult to define all the advantages of a proof machine in a bank; the public is invited to see at first hand the operation of this machine. We will be glad to show this equipment-come in any time.

n the library club room.

Mrs. Boelsche gave a brief survey of what the federated clubs in Texas are accomplishing and spoke of Who's Who in Federation. Mrs. John Miller showed a film on the Federated Club House at Austin.

Mrs. Miller, president, was in charge of the business.

The next meeting will be a Christmas Music program which will be presented at the First Baptist Church at 7:30 p. m. on December 5. Mrs. Curtis Stacey will be the program leader. The public is invited to attend.

Mrs. Earl Cope To Present Music Club Program

Mrs. Earl Cope will present the program for the Ballinger Music Club when it meets on Tuesday, December 3, at 7:30 p. m. in the home of Mrs. Arthur Giesecke on Broadway. The study of the Orchestra will be continued and Mrs. Cope will discuss the trumpet, cornet and trombone. Fanny Pearce, piano student of Miss Olga Schawe, will give a group of Robert Schumann's pieces.

Mrs. Robert Bruce, president, will be in charge of the business. .
