Mike Manard Wins Trip to Washington, D. C.

Judging was completed April 21 in the Southwest Rural Electric Association's Essay Contest, and the following winners have been announced by J. M. Maddox, manager of the cooperative.

Texas—first, Mike Manard of Crowell; first runner-up, Ann Parker, Northside School.

Oklahoma—first, Kelly Shaffer, Southside School; first runner-up, Mac Martin, Martha.

Prizes awarded to Mike and Kelly, first place winners from Texas and Oklahoma, were eleven-day all-expense-paid trips to Washington, D. C.

Mike, son of Mrs. Earl Manard, is an honor student and attends Crowell High School. He is vice president of the drama club and played the leading role in a 3-act play which was presented earlier this year.

He is historian for the Future Teachers of America, and is a member of the Spanish Club. He is also on the school annual staff, and the Wildcat staff.

Mike is an accomplished student of music and plays the piano for the Methodist Youth Fellowship and is assistant organist for the local Methodist Church.

Mike's mother is English teacher in Crowell High School.

Mike will join other young people from all over Oklahoma who will participate in the second annual Oklahoma Electric Cooperative Youth Tour to the nation's capitol city June 3-14. There will also be cooperative-sponsored youth groups from several other states in Washington at that time.

Foard County has had a winner in the contest both years that it has been conducted. Last year, Miss Gayle Smith, daughter of Mr. and Mrs. Tom Smith, won the trip to Washington.

On Honor Roll

Betty Ann Welch's name was accidentally omitted from the high school honor roll printed in last week's issue.

Over \$300,000 in Social Security Received in County

More than 450 residents of Foard County are now receiving a monthly social security benefit, according to figures furnished by Francis J. Stevens, social security representative for Foard County.

As of the end of 1964, the number of beneficiaries listed totaled 458. This is an increase of 16 over the number at the beginning of the year. The dollar benefit amounts total more than \$311,844 yearly.

Retired workers and their dependents and those who receive survivor benefits are the largest group of beneficiaries. There are 430 in this group who receive a total monthly benefit of \$24,460. Disabled workers and their dependents number 28 and receive \$1,527 monthly.

In releasing these figures, Mr. Stevens pointed out that social security benefits are of great importance to the community as well as to the people who receive them.

"It is an established fact," he said, "that this money stimulates local business within the county; most of it is spent for food, clothing and shelter. There is no doubt that social security benefits are helping to stabilize the income and spending power of many residents in Foard County."

As of the beginning of 1965 almost 10 per cent of the population of the United States were receiving social security benefits. As of that same time, January, 1965, 16.4 per cent of Foard County residents received benefits.

Mr. Stevens visits Crowell on a regularly scheduled basis to assist all residents of the county in social security matters.

Air Force Colonel Gives Praise to Crowell Residents

Elsewhere in this issue is a story about the hospitality of Crowell residents to a stranger from New Mexico who was stranded here when his automobile broke down. Tuesday morning, the News received the following letter from Jack Robinson Jr., Lt. Col., USAF, who lives at 3702 Royce Drive, Rt. 29, Alexandria, La., 71301. The letter follows:

"I recently had an experience in your county which I want to relate to you. As a complete stranger I had a series of contacts with citizens of Crowell which were very helpful to me and confirmed again that Texans are the friendliest in the world.

On Sunday night, April 11th, I had engine trouble five miles east of Crowell while en route from Louisiana to visit my parents in Paducah. Mr. Ken Ferguson stopped and picked me and my 9-year-old daughter up and stayed with us until he knew we had a ride to Paducah. He dropped us off at the El Mesquite Motel to wait for our ride.

I had to awaken Mr. and Mrs. L. N. Higginbottom, who operate the motel so that we could have a place out of the cold night air and to wait on our ride to come from Paducah. Mr. and Mrs. Higginbottom not only stayed up but were excellent conversationalists. I asked them if they knew someone I could get to tow in my car and they recommended Mr. Joe Ray Setliff. I called Mr. Setliff and he seemed pleased to be able to help. He dressed and picked up his truck and we went after the car. Mr. and Mrs. Higginbottom took care of Susan. By the time we arrived back in town with the car, our ride to Paducah had arrived.

On Monday, I returned to Crowell to evaluate the extent of the trouble and I contacted Mr. Clyde James, who had been recommended as a fine mechanic. It did not take him long to determine that my car engine had extensive internal damage. He said that he would like to do the maintenance on my car, but he felt that under the circumstances of my warranty it would be better if I had my car towed to a Pontiac service shop. This proved to be excellent advice, although I feel certain Mr. James could have performed the maintenance in an expert manner. I sure recommend him as an honest and trustworthy mechanic.

I am pleased to have known Mr. Ken Ferguson, Mr. and Mrs. L. N. Higginbottom, Mr. Joe Ray Setliff, and Mr. Clyde James. They all helped me through a very frustrating period and I will not soon forget them.

You might be interested to know that my car required a new engine and having taken it to the Pontiac dealer in Vernon was a visit to the rock garden of Mrs. Myrtle Murphy.

Mrs. Virginia Iseng, H. D. Agent, says that each one going on the tour will bring their own sack lunch.

Sincerely yours,
Jack Robinson Jr.,
Lt. Col., USAF.

Mrs. M. A. Oliver, Ex-Thalia Resident, Died in Hobbs

Mrs. M. A. Oliver, 91, former resident of Foard County, died Monday, April 19, in a Hobbs, N. M., rest home. She had made her home in Carlsbad, N. M., for a number of years.

Oliver of Orange, Calif.; seven daughters, Mrs. F. J. Pennington of Brady, Mrs. G. W. Scales of Vernon, Mrs. Joe Spivey of Liberty Hill, Mrs. O. D. Childs and Mrs. J. C. Horne of Carlsbad, N. M., Mrs. Ted Bednarz of Cicero, Ill., and Mrs. George Vernon of Albuquerque, N. M.; 37 grandchildren and 39 great grandchildren.

Mrs. Oliver, a member of the First Baptist Church in Carlsbad, was preceded in death by her husband and three children.

HEAVY HAIL STRIKES RIVERSIDE, RAYLAND

Heavy hail destroyed crops in the Riverside and Rayland area in a storm last Saturday afternoon.

Rainfall accompanied the hail, with Rayland receiving a heavy downpour along with the hen-egg-size hail which beat off screens and broke windows during a 20-

minute pounding.

Roy Ayers of Riverside reported heavy damage to his wheat with only about .1 inch of rain accompanying the hail.

Only a very light rain fell in Crowell, and the hail storm was confined principally to the Margaret-Riverside-Rayland area.

During Saturday afternoon's hail storm, a rain amounting to .2 inch fell at Crowell. Another cloud came across this area early Sunday night and .12 inch of rain fell, while shortly after noon on Monday, .2 of an inch fell.

According to records kept by Merl Kincaid, ten different rains have been recorded in Crowell since the first of the year, with the total rainfall for the ten being 3.11 inches. During none of the ten rains has as much as one-half inch fallen.

Home, Garden and Yard Tour to Be Held April 29

The Education, Exhibit and Expansion Committee of the Foard County Home Demonstration Clubs met and planned the annual Home, Garden and Yard Tour. The tour will be Thursday, April 29. Anyone interested in going on the tour should meet on the north side of the court house at 9 o'clock.

The group will leave from there to go to the home of Mrs. Duane Johnson. The next stop on the tour will be the home of Mrs. Clyde King, and from there the group will go to Mrs. Luther Tamplen's home, after which the group will stop at the youth center in Crowell for lunch.

After lunch, the first home to be visited will be Mrs. Allen Shultz's in Thalia, followed by a visit to the rock garden of Mrs. Myrtle Murphy.

Mrs. Virginia Iseng, H. D. Agent, says that each one going on the tour will bring their own sack lunch.

LITTLE LEAGUERS NOW IN SPRING TRAINING

Practice fields are buzzing nowadays with 1965 Little Leaguers, according to league president, Marion Crowell. Each team, with a nucleus of holdovers from last season, now has a complete roster since the annual player auction

by player-agent Glen Goodwin. Defending champion Crowell State Bank, managed by Bill Bell and Floyd Thomas, is now working out—in addition to holdovers—Paul Rex Driver, David Fish, and (upon his recovery from an appendectomy) Daryl Halecack.

V. F. W., directed by Baylor Weathered and Charles Branch, purchased six new men: Ernest Barrera, Jackie Daniels, David Stapp, Bob Gillespie, Alan Spooemore and Felix Castaneda.

Foard County Mill, managed by Richard Blackburn and Larry Hughston, will develop the baseball prowess of Jackie Blackburn, Rocky Bachman, Don Marriott and Don Santos.

The new recruits are expected to strengthen each team considerably into a well-balanced league. First games are to be played on May 11, with Foard County Mill battling V. F. W. in the six o'clock season's opener, and with Farmers Elevator contesting Crowell State Bank in the 8 o'clock nightcap.

"Play Day" Planned at Thalia on Sunday, May 2

The public is invited and urged to attend this event on Sunday, May 2.

What Are Your Plans for the Summer?

Now that there are only a few more weeks left in this school term, it is time for all, especially the seniors, to think seriously about plans for the summer.

What each chooses to do this summer may be stepping stones to his future. For some, the summer may provide a taste of summer school; for others, a period of relaxation before the rush of

preparation to enter the fall semester at college. Some will perhaps enter a trade school; others will get a job. Some will stay in Crowell; others will leave, never again to make this their home. For some, the summer will bring a change in plans for the future; for all, it will bring new experiences, new responsibilities, new ideas.

Now is the time to make plans for a profitable summer.

Gay 90's Revue to Be Presented Friday

Those "good ole days" that you've heard about were the "happy-go-lucky" days of the Gay 90's. Filling the exciting days were gay parties, lively dances, lovely songs, spiced by an occasional hanging.

All these—including a triple program at the Crowell High hanging—will be depicted in a School auditorium on Friday night, April 30, at 7:30 p. m. (Note the change in date; the program had previously been announced to be on Thursday). Tickets are \$1.00 for adults; 50¢ for students. Don't miss this performance under the auspices of the Drama Club, assisted by the CHS Chorus.

Mike Manard Wins Trip to Washington

CHS has another winner of the Southwest Rural Electric Association's essay contest. Each year, this cooperative, which is located at Tipton, Okla., chooses a winner from its Texas area. This year's Texas winner is Mike Manard, son of Mrs. Vera Manard. Mike's 2,500 word essay was on "History, Growth and Development of Rural Electrification." Mike, his mother, Gayle Smith, last year's winner, and her parents, Mr. and Mrs. Tom Smith, were guests at an REA banquet at Tipton on April 21.

Before announcing the two winners from the ten finalists, the judges quizzed each contestant to test the extent of his knowledge of the subject matter. Each contestant was given a transistor radio.

Mike will leave from Oklahoma City with some 30 Oklahoma win-

ners on June 3 for an eleven-day, expense paid, fun-filled, educational trip to Washington, D. C. Congratulations, Mike!

Halbert to Represent Crowell at State Meet

Congratulations are in order for Seth Halbert, named the winner in the Region II extemporaneous speech contest held at Denton Friday of last week. Mrs. Bursey, local speech teacher, stated, "I'm proud of Seth. He had some real competition, but he came out on top." He will enter the state meet on May 7.

Others who represented CHS in the regional contests were Elaine Crowell, the first place winner in ready writing in our district, and Karen Shirley, the second place winner in typing in district.

These students, accompanied by Mrs. Bursey, went to Denton on Thursday afternoon and returned after the contests on Friday.

CHS is always proud of students who represent its school in literary events.

On Wednesday, April 21, the volleyball team, comprised of Scherry Goodwin, Evelyn Faskie, Suella Smith, Linda Whitley, Gail Russell, Merida Taylor, Janis Whitley, Cindy Erwin, Kay Looney, and Mary Sue Carpenter, entered the district 11-A volleyball tournament held at Archer City. They were defeated by Paducah 15-7 and 15-10. The Holiday girls were the final victors. The girls were accompanied by their coach, L. H. Wall Jr.

Dan Mike Bird entered the Region 11-A track meet held last Saturday at Denton. Dan Mike ran the 100-yard dash in 10.4, but he failed to place in the finals. He was accompanied by his track coach, Thayne Amonett.

These events brought a close to competitive sports this year. Many students have gained valuable experience as well as physical benefits from their participating in these sports.

Supt., Board Members Attend Workshop

On April 22, Supt. Henry Black and five school board members—Merl Kincaid, Elton Carroll, R. J. Owens, Floyd Carl (Buster) Borchardt and Mike Bird—attended the regional school board workshop at Midwestern University in Wichita Falls.

White, president of MU; the address, "New Development in Improving Instruction" by Dr. Lee Wilborn, assistant commissioner for instruction of the Texas Education Agency; and a report, "Texas Educational Legislation," by Dr. Joe B. McNeil, superintendent of Wichita Falls public schools. Topics for group meetings were "Schools Boardmanship," "Federal Programs in School," "Evaluating School Problems," "Lower School Problems."

At the dinner meeting, greetings from the Texas Association of School Boards were extended by Mrs. Laura Doing. The address, entitled "Meeting the Challenges," was made by Loyd T. Turner.

The workshop provided local board members an opportunity to understand more fully the pressing problems facing the schools of today.

Exchange Student Speaks to Students

Marjan de Kort from the Netherlands spoke to the student body in an assembly Thursday. Miss de Kort has been attending Vernon High School as a senior since September of this year and has been living with a Vernon family.

She gave an interesting talk to the student body about her school, her customs, and her country. She said that she was surprised to find in America that more boys participate in sports than do girls. In her country, the girls participate in many kinds of active sports. She also told the student body that there is much more dating in the United States than in her country. Her schools offer courses such as English,

ASC Office Presents Kennedy Picture

Mrs. Ted Reeder of the local ASC office gave a picture of the late President John F. Kennedy to Mr. Black, and Mr. Black, in turn, gave the picture to the library. Last year the library had set aside a special section for President Kennedy's books as a memorial to him. The librarians have now backed this section with the picture. They wish to thank both Mrs. Reeder and Mr. Black for the contribution to the Kennedy section of the library.

Library News

The CHS Library Club met in the homemaking cottage Tuesday, April 13. Delores Eubanks brought a reading on Easter and Mary Ann Ramsey gave the devotional. The program was the installation of officers for the coming year: president, Kathy Eubank; vice

president, Marilyn Cates; treasurer, Linda Whitley; and reporter, Paula Vecera. Each of the outgoing officers presented the new officer with a corsage and told her of her duties. The club also gave Mrs. King a corsage. Betty Ann Welch, this year's president, was congratulated and thanked for her work with the club.

Vicki Spikes, Scherry Goodwin and Joylyn Haynie then served delicious refreshments which carried out the Easter theme.

Senior Personalities: Eubanks and Wehba

This week your personality editor would like to focus attention on a senior who has been with this senior class intermittently through the twelve years. Although she is not in CHS at the present, she will graduate with this year's seniors in Crowell. This student is Evelyn Eubanks, daughter of Ellis Eubanks. Evelyn now lives in Odessa.

Among Evelyn's favorites are the color, blue; food, shrimp; sports, skiing and horseback riding; pastime, reading. The one thing that Evelyn dislikes is a two-faced person.

Throughout her school years, Evelyn has been active in various school activities including FHA and girls track and volleyball teams. This 18-year-old senior is the granddaughter of Mrs. Tom Eubanks and the cousin of Delores Eubanks, also a senior. Evelyn plans to attend Kirk's Beauty College in Odessa after graduation. Good luck, Evelyn!

Probably one of the best known seniors is Freddy Wehba, 18-year-old son of Mr. and Mrs. Fred Weh-

ba. Because his father is a groceryman, Freddy is in contact with the public often. His popularity has earned him the title of being band president, boy of the month in choir and leader, member of student council and its past treasurer, past member of the football and basketball teams, past member of FFA, and now a member of slide rule drama clubs.

Freddy's mother has a famous reputation for her cooking. Freddy explained that he would never understand, but his favorite food is bulgarian salad. His other favorites include actor, Gregory Peck; actress, Audrey Hepburn; color, blue.

Being the happy-go-lucky person he is, Freddy has no pet peeve. He enjoys everyone and is a social of people. For this reason Freddy is certain to be a success as he enters North Texas State University to major either in pre-med or business. Good luck, Freddy!

Lagging Registration Under Draft Law Prompts Warning
 Lagging registration under the draft law in Wilbarer, Foard and Hardeman counties this week prompted James F. Gregory, board chairman of the tri-county area to warn every 18-year-old male that the law requires him to register within five days after his 18th birthday.
 Failure to register, like failure to comply with other provisions of the law, may subject men to prosecution or induction into the Army out of turn and ahead of other men, Mr. Gregory said.
 Maximum penalty for failure to comply with any provision of the law, upon prosecution and conviction, is five years in prison, fine of \$10,000, or both.
 Young men may register at the board office on the second floor of the court house in Vernon or with Henry Ward Black, superintendent of Crowell High School, who is a newly appointed registrar.
 After a young man registers, he is required to keep the local board informed of any change in his address or personal situation which might affect ability or requirement for military service.

FIND A LONG DRY STICK

Violent thunderstorms and tornadoes are as inevitable as the sunrise at this season of the year. Should disaster strike your area, we urge that you consider all downed wires as "hot." Your natural instinct is to report it—whether it be to your electric cooperative or to a local utility company. This is good! But, in a dire emergency, if you need to move a hot wire, FIND A LONG DRY STICK.

Recent emergencies have proved that electric cooperatives can have disaster crews and the finest equipment on the job in minutes. Disasters only delay our effort of trying to keep abreast of the never-ending demand for more and more electric power.

Editorial in New Mexico Paper Praises Crowell

(The following editorial boosting Crowell was taken from the Friday, April 23, issue of the Roswell, N. M., Daily Record.)

Les Dumond, editor of the Nora Cooperative News of Chama, tells us in a graphic story how a community can win friends and influence people.

He says that a person's fun in living comes from how congenial contacts are with our people.

He says, "And whether or not such contacts are friendly or unfriendly depends to a great extent on how we act."

"We had this proved to us a month ago when we were stalled for a night in a little West Texas town. We are not particularly fond of Texas towns, but this one was out of the ordinary."

"Before we could get a water pump replaced, we were forced to spend the night in the town until parts could be shipped in and installed."

"Since we were stalled for 15 hours, we toured the town. We visited drug stores, coffee shops, repair shops and we walked the streets."

"We were complete strangers. But we noticed immediately that we were not treated as strangers. Every 'stranger' on the street greeted us with a friendly 'good afternoon' or 'hello' or 'howdy' or 'good evening.'"

"We hadn't been in town more than two hours before we felt that the local people loved us and hoped we would continue to live with them."

"We walked into a coffee shop. Five out of eight people in the shop greeted us. We couldn't have expected a bigger percentage if we had lived in Crowell all our lives."

"We were standing around a gas stove in the repair shop of one of the dealerships in the town. A man walked up and said 'I believe I have known you folks in the past. Haven't you been here before?' He had never seen us before and he believed that he knew it, but that he thought that this gave him a good opening to start a conversation."

"But, to make a long story short, after spending 15 hours in the town while the shop received and installed parts, we were treated so cordially by every one with whom we came in contact that we decided that Crowell was 'tops' in friendliness."

"We were impressed with the fact that what outsiders think of a town depends not so much upon the activities of the Chamber of Commerce as upon the actions and the evident feeling of the people themselves."

"We know that a percentage of residents feel that we do not need anyone from the outside. That the fewer people who come in from the outside, the better off we are."

"This is a short sighted view. . . It is time we let our inside warmth show through. It is time to forget our natural reticence and show our friendly side to newcomers as well as to old friends. It is time to act naturally. For all newcomers, it is time to make use of that long time western greeting: 'Howdy, stranger! Get down, tie up your horse, and come in!'"

"We will find this rewarding, not only to visitors who want to be friends, but to ourselves as well."

Northern New Mexico is thinking in the same terms as southern New Mexico. We too have much to offer a visitor.

Every citizen should be a salesman—a sincere one.

(The above clipping was sent to Mr. and Mrs. C. M. Carroll by his aunt, Mrs. Ora Patterson of Roswell, N. M.)

"Silent Killer"

The Portland, Oregon, Traffic Safety Commission says the "silent killer," carbon monoxide, is with you every time you drive your car but does not become dangerous until you close yourself in the car without fresh air circulation. The sure way to avoid carbon monoxide poisoning is to always drive with at least one window partially open. The Commission warns that you cannot see, feel nor taste carbon monoxide and if you wait till you feel its effects—it's too late.

Who Said It?

"There is a rank due the United States among nations which will be lost by the reputation for weakness. If we desire peace, it must be known at all times that we are ready for war." The same man also counseled: "Avoid the accumulation of debt, not only by shunning occasions of expense, but by vigorous exercise in the time of peace to discharge debts which wars have occasioned. If that sounds like the voice of a latter-day conservative on Capitol Hill, guess again. George Washington said it 175 years ago in his farewell address: 'The nation's first President.'—Columbia, Miss., Columbian-Progress.

Due Process of Law—Not Defiance

"Our American way is due process of law—not defiance, not demagoguery, not violence. Continuing strife and violence in Selma, Ala., add emphasis to the fact that breakdowns in law and order do not aid the cause of justice or resolve differences. Neither side in the turmoil in Selma is to be praised . . . The nation now has a strong Civil Rights Act. That law should be given an opportunity to work. Those who seek the protection of the law should respect and support law and order."—Bedford, Ind., Times-Mail.

Band Booster Club Gives Barbecue Last Tuesday Evening

Officers for the coming year were elected. Glenn Chambers was elected president; T. H. Franklin, vice president; Ruth Stapp, secretary and treasurer; and Marietta Carroll, reporter.

The club expresses its thanks to the outgoing president, Cecil Carroll, the barbecue cooks, Glen Shook and Rusty Russell, and to Bert Ekern for donating the meat. There were 125 band members, parents and guests at the barbecue. Care and Storage of Electric Blankets

It's time to think about storing electric blankets, reminds Mrs. Virginia Iseng, CHDA.

In recent testing conducted by Consumers' Research Inc., the non-profit testing organization in Washington, N. J., results showed that electric blankets should never be dry cleaned or machine washed—no matter what claims the manufacturer might make to the contrary.

Study results pointed out that dry cleaning fluids might attack the insulation that covers the wiring, and the tumbling action of a washing machine can cause a break in the wiring that runs through the blanket.

Damage also could result from any excessive twisting or squeezing, which led the researchers and engineers to conclude that electric blankets should be washed only when absolutely necessary—and then only by hand.

In hand washing, the researchers caution against any wringing action and recommend that excess water be removed by gently squeezing the fabric in the direction that the wires run.

If the blanket is not too badly soiled, it may be aired by gently placing it across parallel lines on a still day. After airing, it should be folded gently and stored in a box, the specialist says.

"If it is just placed on a shelf, other blankets may put too much weight on the wires and cause the insulation to break," Mrs. Iseng warns.

4-H Club Meets

The Sixth Grade 4-H Club had its last meeting of this year on April 21. The president, Debbie Chambers, called the meeting to order. The secretary, Elaine Jackson, called the roll and read the minutes. The song leaders, Kristi McLain and Peggy Welch, led the songs, "America the Beautiful" and "My Gal's a Corker."

Mrs. Iseng had the program. She explained about the favorite foods show.

Remember this date, for you'll not want to miss this musical performance!

The seniors are excited about their forthcoming six-day trip to New Orleans. This trip calls for much preparation and many carefully laid plans. This accounts, in part, for the seniors' being in a whirl these days.

LITTLE LEAGUE NEWS

by Marion Crowell

Here we go with 1965! With the starting date only a little over two weeks away, ambitious new Little Leaguers have their work cut out for them to round into shape for this year's season. Cold weather has necessitated a rather late start on spring training, but each of the four teams is now making up for lost time with its training programs.

One of the highlights of each year is the player auction, that time wherein new players are "sold" and the various managers match wits (and points) in an effort to come up with the better talent. Information relative to how many points a player brought is supposed to be strictly secret, so, naturally, this auction just cannot be made public. Someone made the remark that if we could sell tickets to this event, we could help our finance drive for the season! An especially interesting thing this season was the option clause, where a manager has the option of buying his own son either at an appraised amount or of refusing him at that amount and then taking his chances on purchasing him through regular bidding.

For instance, this season, Richard Blackburn, manager of Foard County Mill, had his own son, Jackie, graduate into Little League. Each manager put down on a piece of paper his personal idea of Jackie's worth. Player agent Glen Goodwin then added the four figures and secured an average amount. He was then offered to Richard for that amount, or, if he thought the figure too high, he could have thrown him into regular bidding procedure.

There's no secret here: Richard paid the option figure, and Jackie will play 1965 ball for his dad!

It's quite possible this season that—at the end of official play sometime in July—we'll have a two-team tournament here in Crowell. You remember that last year we went to Knox City on just such a deal, and our district representative, Dud Rowntree, promised us that we would have it here this year.

A complication has come up, however, in the fact that Mr. Rowntree is no longer the district representative. Arch Hughes, a former holder of the office (and than whom there is no better!) probably will set the thing up the same way unless some other plan comes up that he just can't help us on.

The reason we can't have a regulation tournament of five teams or so is our sub-standard lights. We have a nice field and fair lights, but Little League says anything less than 72 lights is sub-standard. For the number of

lights we have, we get an amazing amount of light, but we are far below the required 72 lights. But that's neither here nor there right now, for right now the big thing is, Let's go with it! Let's have our greatest season here in 1965!

Largest "May Day" in History of Vernon Planned for May 1

Vernon is all set for the largest "May Day" in the history of the city, according to officials of the Vernon Chamber of Commerce.

Registration will begin at 9:30 a. m. that day in Watt's Grove, a few miles from the old Doan's store, and old timers will get ready for the annual picnic and queen coronation. Following the coronation at 12:30 p. m. will be the regular basket luncheon and also barbecue for those who wish to buy a meal. Sen. Jack Hightower will address the group of old timers at 1:30 p. m. The annual picnic has been going on since 1882 for a period of 82 years, and Mrs. Bertha Ross and other members of the Doan's family were present at the first one.

At 6:30 p. m. the Red River Valley Museum, featuring the Mr. and Mrs. J. Henry Ray Indian artifact collection will open officially in the Wilbarger auditorium.

To climax the day will be the second annual Panorama of the Red River Valley, Episode No. 2, "Doan's Crossing." The two hour musical will feature historical scenes of the early days at Doan's Crossing.

Joe Meador, manager of the Vernon Chamber of Commerce, will again write and direct the production which will have a cast of about 100 people.

Opening of the panorama will be at 7:30 p. m.

Bill Alderman, editor of the Texas Parade magazine, will be in Vernon to crown the winner

of the Miss Wilbarger contest also scheduled that day. Tickets to the hometown festival will be \$1 for adults and for children with all proceeds from the panorama going to the motion of the new museum.

Hubert Brown, Geo. D. Self and Eli Smith of Crowell served as judges for the floats in the annual "Acquaintance Week" parade at Vernon last Thursday evening.

Foard County relief headquarters were moved this week from the second story of the Ringgold building to the space on the first floor formerly occupied by a domino parlor.

A total of nine-tenths of an inch of rain was recorded at Crowell during the past week.

The increased violence of the sand and dust storms sweeping the plains of Wyoming, Colorado, Kansas, Oklahoma and Texas and affecting all mid-western states, brings succeeding stories of the great damage done to farms and agricultural lands.

Lora Whatley and Ruth Burns won second and third places respectively in the home economics contest at Canyon.

Irrigation systems are now being operated on a number of farms in the Rayland community. Those who are operating irrigation systems are H. T. Faughn, A. T. Beazley and McLarty Farm Products Co.

An appropriation of \$3,200 was granted the Vivian school district by the Texas Legislature as a result of the loss of the school by fire March 28.

Three programs, the first of which will take place tomorrow night, will be held at the Margaret school auditorium in connection with the close of the 1934-35 school term.

All Baptists and their families of Crowell and the surrounding community are urged to attend the church social that will take place in the basement of the local Baptist Church Monday night.

Normal traffic over the old Pease River bridge between Crowell and Quanah will likely be resumed today following damage resulting last Thursday night from heavy rains west of here that sent the river to its highest level in many years.

Mr. and Mrs. Fred Traweck, cell and Quanah will likely be re-week, entertained the fourth and fifth grades of the Foard City School with a party Saturday night at their home. Dainty refreshments were served to a large crowd.

Misses Alyn Lanier and Elvira Marr, who are attending Oklahoma College for Women at Chickasha, spent the Easter holidays with relatives here.

Archie Campbell, Rudell Russell and Francis Todd, students in the teachers college at Canyon, spent the Easter holidays here.

Two Minutes With the Bible

The Triumphal Entry:
Past or Future?

Did our Lord actually ride in triumph into Jerusalem to become King of the Church? Or is His true triumph still to come?

True, the townspeople cried: "Hosanna, Blessed is the King of Israel that cometh in the name of the Lord" (John 12:12,13). But Jesus responded by entering the city, riding "an ass' colt" (vers. 14,15). Surely this was not a very regal sight! Once before, when He knew that they "would come and take Him by force to make Him a King, He departed... into a mountain Himself alone" (John 6:15).

He knew that it was not yet time for Him to reign. First must come the cross, then the throne. Zechariah had prophesied of this entry into Jerusalem, saying "Behold thy King!" Look at Him! And then he describes His entrance: "lowly, riding upon an ass; even upon a colt, the foal of an ass" (Zech. 9:9).

At this entry, "When He was come near, He beheld the city and wept over it" (Luke 19:41). At this entry He entered into the temple, looked about and went out again (Mark 11:11). It was His Father's house, but He could not worship there. It had become a den of thieves. No, this was no triumphal entry. Look at Him, meek, lowly, riding on an ass' colt, and then see Him coming again as Rev. 19:11-16 describes it. How different the symbolism!

Once meek, lowly and "having salvation." Now "in righteousness doth He judge and make war." Once, riding "an ass' colt." Now, "Behold, a white horse." And those eyes, once filled with tears are now "as a flame of fire." Our Lord's true triumphal entry is still future. According to prophecy He will come again, put down all rebellion against Himself and reign in glory and power. Thank God He has not yet done so! In love He still points to Calvary, where He died for our sins and offers us the riches of His grace. "Believe on the Lord Jesus Christ and thou shalt be saved" (Acts 16:31).

Quiz Kids Ask About V-Pattern of Birds

Caught in the magic whirl of space age curiosity, two Killeen school children futilely probed the mysteries of migrating bird life and then appealed to the Parks and Wildlife Department as to why wild geese fly in V-formation.

And they got a detailed reply, minus aerodynamics gobbledegook, that spelled out, slipstream wise, some of the fascinating maneuvers associated with the current seasonal activities.

"The wing tips of flying birds create vortices, or whirling air currents, which continue in motion for a short time after the bird passes," wrote T. D. Carroll, coordinator for information and education, a specialist in explaining wildlife facts to youngsters. "These vortices are similar to the eddies left behind in the wake of a moving boat."

"Birds fly in a V or line formation to take advantage of these whirling wakes. The inner wing of each bird in a line or V-formation gains support from the rising side of the vortex created by the outer wing of the bird flying ahead."

"Some of the energy expended by the bird making the vortex, or whirl, is utilized by the bird directly behind it in the formation. When airplanes fly in similar formation, the leading plane actually uses more fuel than the others in the formation in supplying some of the energy which the trailing planes are able to utilize."

"Normally, leaders of the V or line formation of birds are one of the stronger members of the group."

"Often pelicans and other large birds will soar in formation. The shape of the wing is similar to that of an airplane wing and 'lift' is created when this wing moves through the air. This lift, which actually is an upward movement of air, helps to support the wings of the bird in formation behind the leader. This action is

similar to the vortex action created by moving wings of flying birds.

Carroll qualified his observations by concluding that "these are possible answers," stating that "there are other factors involved" and by inviting little Miss Cathy Hopson and Master David Beauchamp to look for "more detailed answers in your encyclopedia."

Cattle Population in Eastern Texas Rapidly Increasing

Despite the popular "Cow Country" image of West Texas, the state's cattle population is now greater in the eastern counties than in those west of Fort Worth and San Antonio.

Although Texas remains the No. 1 cattle producing state, furnishing about 10 per cent of the nation's beef, the increased production necessary to retain this rating has been primarily in East Texas, says Edward Uvacek, assistant professor and Extension livestock marketing specialist at Texas A&M University.

This is not because of an actual shift in production, but the result of a heavy increase in cattle numbers in East Texas counties. At the same time, West Texas production has remained relatively stable, said Uvacek.

This increased production stems largely from the conversion of crop land to cattle pasture in the land where cotton once was king. Fertilizers and irrigation, along with new grasses such as Coastal Bermuda, have increased the cattle carrying capacity of the land to a much higher level than the drier West Texas ranchland.

This trend, says Uvacek, will probably continue in the future because of the greater amount of potential available pasture land in East Texas.

Medical Care

"The opinion pollsters discovered that a high percentage of those favoring medical care were not aware that the proposed legislation would not cover doctor costs, that benefits are limited to short periods, that there are no provisions for the major catastrophic long-term illness and high cost surgical bills. There is going to be a lot of unhappiness with the limited benefits. But there will be elation among those who can afford to pay all their illness costs. They will benefit in equal measure with those who have limited or no means to meet the bills of illness."—La Grange, Ill., Citizen.
