# THANKS, FELLOWS

The News would like to express the appreciation of this newspaper and everyone else in this area who regularly attends, or has ever attended a meeting in the community center, to the members of the Crowell Volunteer Fire Department and others who helped in extinguishing the fire at the center last Friday afternoon.

The Community Center here has been used even more than was anticipated at the time it was developed. It is an integral part of this community's life and is a valuable asset to the area.

Without the efforts of the Fire Department, it would be only a shell of a building today, rather than one which can be repaired within a few weeks.

Thanks also to the Quanah Fire Department for sending a truck to assist.

BUKETS, the tonic-diureti crease and regulate passage days or your 39c back at any counter. Today at Fergeson

Nov., 3 tc.; Feb. 3t

JOLD ... represented by Prosperity, Growth, Wealth ... abounds in the larger cities today. But it's a sort of non-portable, one-way type of gold-people living in the smaller communities like ours can't just go up into the stone and glass hills and canyons with our. burros and bring loads of it home.

there's GOLD in them that hill

As a matter of cold, hard economic fact - this gold this wealth - in our neighboring metropolises is not for us to enjoy ... unless we're ready to move there and live with it. Yet, our Trade, our money ... carried to them on our shopping pilgrimages ... has importantly helped in their enrichment.

The same money ... kept in the trade channels of our own community ... will put more gold where we can enjoy it ourselves - the gold of Prosperity and Growth.
