WILDCATS WIN OVER CHILICOTHE FRIDAY

Wildcats found the offense at Chillicothe Friday night, and at the end of the game they had won District 11-A game thus far as they stunned the Cats with a 33-7 victory that has been traditionally theirs. Chillicothe had beaten the Wildcats in the first game of the season, but the Cats were behind 8-7 at half-time. The Cats came out after the game over completely dominated the game that they only allowed 7 first downs and 170 yards in the game. The Cats took the opening drive and marched down to the 47-yard line where the Cats

played some real defense to prevent a score. The Eagle quarterback Bivens and their fine half-back Norice did most of the ball carrying on this drive. Here, the Wildcats turned loose their one-two punch of Jim Tom (Frog) Smith and George Eavenson. Gradually the Wildcats moved up field and finally a 53-yard punt by Gary Eddy netted a 35-yard gain for Crowell in the exchange. Then with 3:33 left in the second quarter, Smith scored from 3 yards out. He also kicked the point-after. The Eagles came right back following the Crowell score, and a savage passing attack carried in for the Eagle TD. Norice rammed across for the 2 extra points to put the Eagles ahead 8 to 7 with 3:08 left in the half. Before the half, a Wildcat drive got to the Eagle 15 before time ran out. The Wildcats opened the third period by taking the ball on their own 23 and moved 77 yards in a drive that featured the quick-openers, the cut-backs and slants of Smith and Eavenson. But it took a fourth down pass on the Eagle 7 to score. Gary Cates dropped back and threw to Ken Sellers who ran a down-and-out pattern. The try for two points failed. Chillicothe took the kickoff, ran three plays and punted. This time the Cats started on their 38 and a consistent ground attack shortly put Eavenson into the end zone for another Wildcat TD. Smith kicked the point-after. The remainder of the game was still all Crowell, although the Cats didn't score again. Crowell was on the 1-inch line of Chillicothe when the game ended. Chillicothe made only one first down the last half. The Cats amassed 478 yards in this game, and completed 4 of 11 passes. Smith racked up 203 yards rushing and Eavenson picked up 137. Coach L. H. Wall cited the entire Wildcat team for their play in the Chillicothe contest. Some fine blocking was displayed by the Wildcat line composed of Douglas Chowning, Buz Rasberry, Danny Naylor, Rocky Bachman, Mike Matus and Barry Branch. Gary Eddy also did yeoman duty on defense.

Approval of an ordinance by the Crowell City Council at the regular meeting in August will permit General Telephone Company of the Southwest to provide, in town, only one-party or straight line telephone service to business customers, and only one or two-party service to residential customers.

1-Party, Straight Line Telephone Service Coming

Harlan Jones, division manager for General Telephone, said, "It is an industry trend to provide this upgraded telephone service for all customers. It is General Telephone's objective to eventually eliminate all two-party business service and all four-party residential service."

Effective with the new telephone directory in January 1970, 170 residential customers having four-party service will be upgraded to either one or two-party service, depending upon their preference. At the same time, eight business customers now on two-party lines will be provided one-party service.

"Reducing the number of parties on a line not only makes the line more valuable to the customer, but results in fewer 'busy' signals for individuals trying to phone in," Jones stated.

Mr. and Mrs. Tom Crowell and Son Now With Indian Tribe in Brazil

Mr. and Mrs. Tom Crowell and son, Jon, are now with an Indian tribe in Brazil. Mr. and Mrs. Crowell are with the Wycliffe Bible Translators and are working with the Brazilian Indians where they are scheduled to be for the next five years. Mr. and Mrs. Crowell write a newsletter each month to send back to the States. Their October newsletter follows: "We are in the tribe! A truck came out to the Indian post near us last night, bringing lots of mail. So please don't stop writing to us. The mail is better than Christmas out here."

To catch you up with us — someone in Brazil agreed to take over the direction of the Portuguese course in our place. So we were freed to come immediately to the Bororo tribe. On August 31, we flew from Brazil to Curitiba in the state of Mato Grosso. By Sept. 15, all three of us were here together in the tribe.

The truck which brought us mail is leaving tomorrow morning, so we are forced to respond to some of your questions in this letter, rather than personally, or else we will miss the truck! During our first two weeks in Curitiba we had to do a lot of shop-

ping in order to get ready for our first trip into the tribe. It seemed like we were spending more than was in our account. Then, today, we received our financial statement for August. Many of you gave more right at this particular time. Some of you who have never given before, sent us some money. And many of you continue to send back to the States. We are in the tribe! A truck came out to the Indian post near us last night, bringing lots of mail. So please don't stop writing to us. The mail is better than Christmas out here.

Outward things we've noticed about the Indians: All but the very oldest ones wear clothes. The women wear what we would consider a "normal" housedress; the men, trousers and shirts. Only a few wear shoes. The person who carries water for us wears a necklace of jaguar teeth. Their houses are arranged in a large circle with a "men's house" in the center. The houses are made of posts, ridgepoles, etc., and very beau-

Barley Diversion Will Be 20 Per Cent

Minimum diversion for barley in the 1970 feed grain program will be 20 per cent of the farm's barley base acreage. R. J. Owens, chairman of the Foard County Agricultural Stabilization and Conservation Committee reported Monday. This is the same minimum diversion that was required in the 1969 program.

Participants in the 1970 program who substitute wheat for oats-rye will also be required to divert 20 per cent of their oats-rye base. In 1969, the diversion requirement was 15 per cent, Mr. Owens said. Other provisions of the 1970 feed grain program—relating to corn, grain, sorghum, and barley—will be announced later by the ASCS office.

Mr. Black said it would be advisable for anyone wishing to take the G. E. D. test to enroll. If the demand should warrant, classes will be offered in typewriting. Anyone interested should contact the superintendent's office at 684-2711.

 Saturday: Junior class party.

Chili for Sale

The Junior Class is sponsoring a one-day chili sale. It is Saturday, Nov. 1, at Crowell Super Save. Price for the chili, per pound, is 75c.

Senior Class

Thursday, the seniors took an armed service aptitude test, given by Sgt. Barnard of Fort Worth and Sgt. Fairchild of Wichita Falls. We all enjoyed getting out of morning classes—even if we were taking a test. The girls especially enjoyed the portion of the test on auto mechanics.

Congratulations are extended to Jo Ann Williams, who was elected FFA Sweetheart.

Seniors received their pictures last Friday and everyone seemed to be pleased.

We would like to express our appreciation to our class 'poppas' who helped to make our hayride a success. They are Ray Allen Brown, Jesse Whitfield, Beverly Gray and J. T. Hughston.

Correction: Last week Janis Bell's and Mary Jo Glover's names were left off the list of Home-making III girls.

ARE YOU RIPLING!

Junior Class

The juniors were kept busy throughout the week as usual. On Tuesday morning, about 13 juniors took the preliminary student achievement test. The test was given to prepare the students for next year's college entrance test. Mrs. Manard supervised the test. I guess it was the first time we

actually ever paid to take a test.

The Drama Club had its second monthly meeting on Tuesday at 3:30. The juniors in the club are Pat Cates, Rita Coffey, Mieke Owens, Kristi McLain, Peggy Welch, Jerry Martin, Marvin Machac, Shayne Garrett, Niki Woods, Sherry Prince, Peggy Rasberry, Kay Shirley and Kathy Denton. Many of these are also members of the Thespian Society.

Pictures of organizations were made Friday. One of the junior boys, Kenneth Sellers, gave an inspiring pep speech at the pep rally Friday afternoon. The mighty Wildcats led us to a 20 to 8 victory over the Eagles Friday night.

Juniors are looking forward to a big party Saturday night at the Thalia gym. Halloween night, the Cats will be on the prowl in Paducah to "spook the Dragons!"

P. S.: The junior class will be selling delicious chili Saturday, Nov. 1, at Martin Jones' Grocery. Price for the chili is 75c per lb.

Sophomore News

Rain, rain, rain! That is all it has done all week, so the sophomores had to postpone their hayride. We will have it at another "drier" date.

This is the third week and three weeks tests are coming up. Since it is raining, everyone will have a good chance to study. In world history, some sophomores have been giving some special reports. We took our test last Thursday and Friday.

We again travel out of town this Friday for the last out-of-town football game. We play Paducah. Sophomores say "all the way."

Freshman News

Everyone had fun at the freshman hayride Saturday night. Due to bad weather, we went to the Thalia gym instead of the river. We would like to thank the mothers who helped and our sponsor, Marvin Myers, for making the party a success.

We are proud of the freshmen on the honor roll. They are Babs Streit, Rhonda Vecera, Darla Bell, Trudy Bird, Sharon Brown, Karen Gray, Daryl Halenack, Irma Quintero and Ruth Brown. The freshmen are represented on the annual staff by Veda Lynn Everson, Margaret Foster and Ruth Brown.

Along with the others, freshmen have been working hard in the band and will leave for the UIL marching contest Tuesday, Nov. 4. Good luck, band!

Sports

The Wildcats took a "muddy" 20-8 district 11-A victory over the Chillicothe Eagles Friday to spoil their hopes of a homecom-

ing victory.

The running of Frog Smith and George Evenson and the passing of Gary Cates proved to be the downfall of the Eagles. Smith ran for 209 yards and Evenson added 137 more on the ground. On defense, it was Buz Rasberry, Doug Chowning, Terry Farrar and Kenneth Sellers making the big plays.

Smith scored the first TD for the Wildcats from 4 yards out. He also kicked the PAT. The Eagles came back in two plays to take the lead 8-7 at half on a 24-yard pass completion from Carlos Adams to Johnny Richardson. Lester Norice ran for two.

Cates directed the Cats to their first second half score with Sellers taking an eight-yard pass. PAT failed. The final score came with Evenson going over from the 2 after a 68-yard drive. Smith kicked the extra point.

The Wildcats travel to Paducah next Friday for the last out-of-town game of the season. Let's ALL turn out to see another victory!!

Know Your Departments

The first department to be viewed in a series of articles is the Speech Department. The CHS Speech Department is headed by Mrs. Jean Halbert. Mrs. Halbert graduated as valedictorian of the Crosbyton High School in 1942.

She received her B. S. from Texas Tech in 1946; since then, she has attended North Texas State, Austin College and Texas Woman's University and has received 15 hours credit beyond her college degree. She has taught in Crosbyton, Knox City and Crowell. Presently, she sponsors the Junior Class, Library Club, Drama Club, school newspaper, and is librarian of the high school. She attends the First Baptist Church of Crowell; she has been an adult 4-H leader. She and Mr. Halbert have two children, Seth and Harriet.

Mrs. Halbert's speech classes are currently involved in a study of drama. They are now studying stage technology and theatre terminology in preparation for plays to be presented later this semester. Students have made a trip to the auditorium so that they may become acquainted with the stage and its facilities. If you don't know the difference between a proscenium and a batten, ask a member of a speech class; they should be able to tell you.

The speech department also sends representatives to speech tournaments in the area. Some members have already begun their preparation for speaking events, prose and poetry interpretation, and other dramatic arts.

Mrs. Halbert strives to give her students a well-rounded course of

Austin, Tex. A new 50-member governor's committee has launched an historic effort to improve relations among Texas ethnic and racial groups.

Gov. Preston Smith called on Governor's Committee on Human Relations at its initial meeting last week to document the problem of discrimination "warts and all" and recommend a solution.

Secretary of State Martin Dies Jr. of Lufkin is chairman of widely-representative panel, which includes white, blacks and Mexican-Americans and a diverse economic cross-section. Former Secretary of State Roy Barrera of San Antonio was named vice chairman and Mrs. M. J. Anderson of Austin, secretary.

"Racial blindness and intolerance in state government, local government, private industry and business and in every other place in which people come in contact with people must be overcome," Smith told the committee. "Human relations problems do exist in Texas. That is why this committee is necessary."

Smith pledged "any reasonable step" to help bring about "real and measurable improvements," and he called on all state agencies to "re-examine their employment practices, with a view to this worthy end."

Governor identified as obvious problem areas education, housing, employment, administration of justice, public facilities and services and consumer protection. Special sub-committees will be set up in most of these categories to begin study and investigation soon.

NEW STATE PARK AUTHORIZED—A sales contract was signed last week for a scenic new 4,775-acre state park in Blanco County.

Parks and Wildlife Commission agreed to pay \$200 an acre — \$955,000—for land it once was offered free by Mr. and Mrs. C. A. Wheatley of San Antonio. Legislation in 1963 did not provide \$250,000, which the Wheatleys specified should be spent for development of the beautiful area, and state lost title to land.

Money for development now will come from the \$75 million parks bond issue and federal aid. Park is the second financed under the bond program. First was Dinosaur Valley in Somervell County. New area probably won't be open for a year, PWC indicated.

AG OPINIONS—In giving notice of meetings of school boards and all other public agencies as required under the open sessions law passed by the 61st Legislature, commissioners courts should itemize agenda topics, Atty. Gen. Crawford Martin has held.

In related opinion, Martin said county clerks may charge "a reasonable fee" to school districts for posting the required notices of their meetings.

In other recent opinions, Martin held that:

School districts cannot legally pay more to a teacher who is head of a household than to an identically-qualified teacher who is not.

State's basic law against speeding is constitutional.

District Attorney Hollis Garmon of Greenville is out of a job as d. a. because his home county (Hunt) was removed by the Legislature from the 8th Judicial District and placed in the 196th.

A judge lacks the power to probate or suspend the automatic suspension of a driver's license following a conviction for driving-while-intoxicated unless the entire judgment of conviction and sentence are probated.

Resolutions of a junior college district board of trustees must be adopted by affirmative vote of a majority of all members.

State may pay premiums for property damage insurance coverage for Texas Highway Department employees within the limits of the new tort claims act.

A county-wide day school program cannot be paid for by the state during fiscal 1969-70.

Magazine Has Article on Doctoring Cattle at Johnson-Ekern Feedlot

The North Texas Alfalfa Mill cattle feeding operation northeast of Vernon is the subject of an article in "The Western Horseman" magazine for November, Orlin Brewer, editor of the Vernon Daily Record, reported last Friday. The magazine went on sale at news stands Saturday.

The feature, which includes seven photographs and about 500 words of text, is entitled "Cowboy Doctoring."

It tells of efforts of Bert Ekern, who heads the cattle feeding operation, and those who work with him in keeping the animals in the 17,000-capacity facility healthy.

A sample excerpt: "Larry Everson and George Townson, Jr., work daily as cowboy doctors. Since it is not feasible to drive 200 head of cattle to doctor a few, Everson and Townson team rope each animal they doctor . . . They ease into the herd and soft loop any animal that re-

quires medical attention. The animal is roped, the operator traps the heels and eases to the ground. The animal much better with this type doctoring than if it were cut the herd and driven to the ing chutes. . .

"All the newly-arrived are doctored in the main before they are driven to pens. The small lots hold 100 head of cattle and 200 or more are in the larger pens. Everson and Townson and doctor the cattle daily job starts at daylight and doctor cattle until noon or—

—or as late as their services required."

Everson is the son of M. Mrs. Dayton Everson of C.

governor and the industrial commission are giving special attention to seeking prosperity for small towns, and lending expert assistance. The program can be beneficial.

Preserving the human values of rural and small-town America may prove to be its future salvation.

A large city can be exciting and a good place to make money for some people. But any person who never lived in a wider open space has missed a great deal.

(Editor's note: This article was written by Richard M. Morehead of the Austin Bureau of The Dallas Morning News, and appeared in the Sunday, October 26, edition of that newspaper.)

Texas' Effort to Assist Small Towns Is Encouraging

Austin—Plans announced by state officials to help Texas small towns stay alive and grow are among the week's more encouraging developments.

Both Gov. Preston Smith and the Texas Industrial Commission spoke to the point, and it is good news.

Less happy information is the opinion of this Austin resident is a prediction by the city's industrial developers that Austin may double its size in 10 years.

Better When Smaller
 Austin (pop. 275,000) was a better city to live in when it was smaller.

In recent years Austin has been growing at the rate of about 1,800 persons per month. While this may elevate the prices of housing, land, retail sales and bank deposits, it is giving this once-charming university community all the ills of a big city—big crime, big traffic congestion, big pollution and doubtless a big crop of ulcers and hypertension.

Austin is still one of the nicest places to live that we know about, and we have no intention of leaving. But we would like to tell prospective settlers that if the U.

ly competent, senior, fully experienced tax man that knows how to get additional professional and technical support from the specialists such as engineers and the counsel.

Of course, the man working your case could make a mistake and could be wrong, but it is safe to say he sure should know what he is talking about.

Does That I. R. S. Employee Know What He's Talking About?

"Does that Internal Revenue employee know what he's talking about?" is a common question that taxpayers ask of their accountant, attorney, or friend. The best insight into how much the tax man would know would come from a look at the (1) kind of education required, (2) type of training received after they are employed in Internal Revenue, and (3) experience required.

(1) Ordinarily Internal Revenue agents, revenue officers and all of the professional and technical employees in Internal Revenue Service are required to have a college degree or the equivalent of a degree in experience at a professional level. (2) When Internal Revenue recruits the young accounting graduates upon finishing college they are required to go to school for 13 weeks before they audit any cases. Then the young man or woman received additional on-the-job training for another 13 weeks. Most Internal Revenue agents are required to take additional advanced tax training of three to six weeks every few years. Constant on the job study is necessary since each case report prepared by an agent must be supported by law, regulation, court decisions, or other applicable rulings. Internal Revenue has one of the better training programs for their professional and technical employees out of all the public and private training programs for comparable large organizations. (3) Finally, in looking at the experience of the Internal Revenue employee, each employee works only cases for which he is fully qualified. The new college graduate would not be assigned to audit a billion dollar conglomerate. This type of case would be worked by a high-

ly competent, senior, fully experienced tax man that knows how to get additional professional and technical support from the specialists such as engineers and the counsel.

Of course, the man working your case could make a mistake and could be wrong, but it is safe to say he sure should know what he is talking about.

BUTTERFLIES AND CLEAN AIR—Governor Preston Smith displays a butterfly perched on his finger to two curious young friends, Karen Lynn Cole, (center) and Charles Herring. The butterfly has been chosen as a symbol of clean air, and Gov. Smith brought the importance of clean air to the attention of all Texans by proclaiming Clean Air Week October 19-25. Grandfathers of

Karen Lynn and Carren are Senators Criss Cole of Houston and Charles Herring of Austin, who led in legislative efforts against air pollution. Clean Air Week in Texas is jointly sponsored by the Texas Tuberculosis and Respiratory Disease Association, the Texas Medical Association, the Texas Air Control Board and the Air Pollution Control Association.

Granddaughter of Crowell Couple Wed in Midland Saturday

Miss Judy Kathleen Roper of Midland became the bride of James Bertram Williams, Jr., of Pleasanton, Texas, on Friday evening, October 24, at the bride's home at 3619 Imperial in Midland.

Officiating at the double ring ceremony was Dan M. Whitaker,

Minister of the Golf Course Church of Christ in Midland.

The bride is the daughter of Mr. and Mrs. Joe G. Roper of Midland and is a granddaughter of Mr. and Mrs. Henry Johnson of Crowell. The groom's parents are Mr. and Mrs. Elmer Eddy of Pleasanton.

The home was decorated with an archway entwined with greenery and white mums. Candelabra were placed on either side of the archway and were decorated with greenery and white satin bows.

The bride, given in marriage by her father, was attired in a gown of delustered satin with Venice lace overlaying the empire bodice and stand-up neckline, continued on Victorian sleeves cuffed and making long sleeves. The straight skirt held the detachable chapel train which was touched with the same lace. A petaloed and bowed satin hat held the full length illusion veil.

The bride carried a cascade bouquet of white butterfly roses and gardenias, with white satin streamers tied in love knots.

Pianist for the ceremony was Tom Johnson, uncle of the bride. Rolanda Thompson of Midland and a student at West Texas State University at Canyon, was maid of honor. Miss Jeanie Roper, sister of the bride, of Midland, was flower girl and Miss Patricia Roper of Midland, also a sister of the bride, was candle lighter.

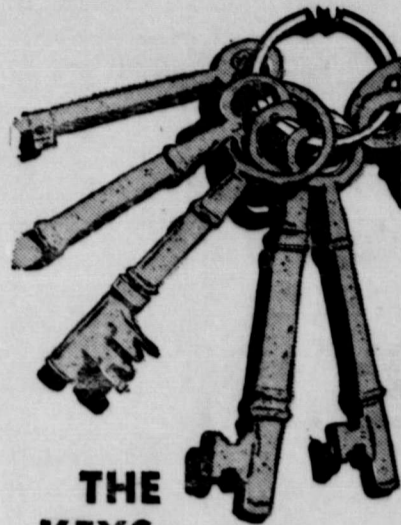

The maid of honor's dress was ice pink crepe, empire design with A-line skirt. The bodice was fashioned with a scoop neckline and short ruffled sleeves of bright pink and green. Her headdress was of small pink rosebuds and leaves. She carried a colonial bouquet.

Keith Kainer of Abilene served the groom as best man. Ushers were Mark Roper, brother of the bride, of Midland; and John Williams, brother of the groom, of Pleasanton.

A reception was held at the home immediately following the ceremony. Members of the house party were Mmes. Frank Swinehart and James Hogue, both of

Two Minutes With the Bible

The Christian's Prospect

Those of us who trust in Christ for salvation have a glorious prospect. For the present, until we go to be with Him, "we have redemption, through His blood, the forgiveness of sins, according to the riches of His grace" (Eph. 1:7). In infinite love God has made us to be "accepted in the Beloved" (Eph. 1:6) and has pronounced us "complete in Him" (Col. 2:10).

Our position is now a blessed and exalted one, for God has "made us sit together in heavenly places in Christ Jesus" (Eph. 2:6) and has "blessed us with all spiritual blessings in heavenly places in Christ" (Eph. 1:3).

But this is only the beginning, for, referring to the Christian's death, Philippians 1:23 tells us that "to depart, and to be with Christ . . . is far better;" far better not only than earth's sorrows and troubles, but than earth's greatest joys and dearest treasures!

But even this is not all, for the time will come when, the Church, "the Body of Christ," having been completed, the Lord will come to receive all of its members, living and dead, to Himself. Referring to the resurrection of the deceased believer's body, I Cor. 15 declares that "It is raised in incorruptibility" (ver. 42), "it is raised in glory" (ver. 43), "it is raised in power" (ver. 43), "it is raised a spiritual body" (ver. 44), "for as we have borne the image of the earthy, so shall we also bear the image of the heavenly" (ver. 49). And as to those believers who will be alive at His coming, he says: "We shall all be changed" (ver. 51).

"For . . . we look for the Savior, the Lord Jesus Christ, who shall change this body of our humiliation, that it may be fashioned like unto the body of His glory . . ." (Phil. 3:20,21).

W. S. L. Meeting

Melvin Thorne, chief of social service and coordinator of community service at the Vernon Mental Health Center, was guest speaker at last week's meeting of the Women's Service League. Thorne stated that the facility has some 630 beds to service a 15-county area. Patients are requiring shorter periods in institutions due to the use of new medicine. An alcoholism program is underway with out-patient service slated to begin November 1 for those persons who can best be treated in this way. Community clinics are planned for the future.

Mrs. Howard Ferguson, vice president, directed the short business session. Members adopted a resolution supporting a state park near the brine dam project. Ora Mae Fox, program chairman, introduced Mr. Thorne.

Robert Kincaid will display and discuss coins at this week's luncheon. New members and visitors are always welcome.

tifully woven, water-proof mats made by the Indians. They are kind to their dogs.

We brought a lot of food in so that Jan wouldn't have to spend all day cooking. We brought enough canned goods to use approximately one can of something every other day (meat, fruit). We also brought some staples and a few potatoes and onions. I'd give anything if it were all invisible. Almost every Indian is very polite and doesn't beg us for things once we've said "no." But wouldn't you feel uncomfortable eating a boiled potato or a piece of cheese in front of someone who had never tasted anything but manioc, fish and bananas her whole life? Please pray for us in this difficult matter of "things." If we gave or sold all we had we'd have to leave. But for us what did Christ mean, exactly, when He said, "Give to the man who asks anything from you, and don't turn away from the man who wants to borrow?" (Matt. 5).

The Indians are easy to live with. They have been open and friendly to us, and have visited us, but don't simply stay all day to gawk. They have sold us fish and eggs already, for which we are very thankful. We have both had good help from the Indians in regards to language learning. Jan especially has an excellent teacher, Natividade, the wife of one of the chiefs. We are thankful for this because the wife-linguist can't spend as many hours studying as the husband.

We live in a rustic 5-room house with a concrete floor, constructed by a former missionary to the Bororos. It is reminiscent of a hunting cabin. Tom has already had a little shack built so he can "go to work" each day and do language work. When he is in the house, the three of us so easily migrate to the same room which makes study impossible.

Pray for Jan. He has several inflamed insect bites which make him rather irritable.

Thank you for your love, prayers and continuing interest in us. We are, I think, more conscious now of you and your feeling for us than ever before.

Tom and Jan Crowell.

Worthy Project
"Between four and five thousand young people in the State of Texas are 'hooked'—not on drugs or tobacco—but on a project they have instituted, manned and run," notes "Electric Times," published by West Texas Utilities Company. "It is called TARS (Teens Aid the Retarded), and its success has been so great that it has already been replicated in many other states in the union."

Glen Brock, president of the Gulf, Mobile and Ohio Railroad, noted, "No transportation agency on the face of the earth can match the American railroads in moving vast quantities of goods over great distances at the lowest possible cost."
