Thursday,

The Crowell Wildcats will host the Electra Tigers at Dick Todd Field here Friday night in the second home game of the year for the Wildcats.

The Tigers have a good sound ball club for 1973, but have yet to get in the "win" column this season. They have lost to Bowie. Holliday and Muenster. Coach ceeds will be used for Printiss Gidney said Monday that he expects his Wildcats will have their hands full with this AA opponent.

The Wildcats will be trying to bounce back from their first loss of the season last Friday night against Memphis. However, the Cats will be playing without the services of regular quarterback Steve Graves, who suffered a kidney injury at Memphis and will be out of the lineup for at least three weeks. Coach Gidney said Monday that it is doubtful whether Rocky Glassfor those traveling to Bowie for cock will play Friday night as he suffered a leg injury in the Memphis game.

Starting time for the Crowell-Electra game is 8 o'clock.

Died at Kermit

Decker R. Magee, 81, resident of Foard County for many years before moving to Kermit 11/2 years ago, died Sunday, Sept. 23, at Kermit after a long illness.

Funeral services were held at 10:30 a. m. Tuesday, Sept. 25, at the First United Methodist Church in Crowell conducted by the pastor, Rev. W. O. Rucker, Jr. Interment was in the Crowell **Cemetery with Womack Funeral** Home in charge. Masonic graveside rites were under the direction of Crowell Lodge No. 840, AF&AM.

Music was provided by a quartet composed of Cecil Driver, W. L. Posey, Marion Crowell and W. L. Johnson. Mrs. Thelma Lemons was pianist.

Henry Black, Robert Kincaid, Ray Shirley, Cecil Carroll and Mike Bird.

Decker Reeves Magee was born December 12, 1891, in **Ouanah.** He moved to Crowell with his parents when he was a child. On December 25, 1923, he was married to Mildred Lenora Tharp at Hermaleigh, Texas. He was a veteran of World War I and a member of the Crowell Methodist Church and Crowell Masonic Lodge. He was very active in the Masonic Lodge work for many years.

For many years, Mr. Magee operated the Magee Toggery in Crowell, and retired as a tailor in Crowell a number of years ago

WISHING A SPEEDY RECOVERY

The student body of CHS want to wish a very speedy recovery to Steve Graves who was injured in the Memphis-Crowell football game Friday night. Steve is presently in Wichita General Hospital. Hurry back, Steve! We miss you

BELIEVE IT OR NOT

CHS has been known for many things during its history, but the facts that you are about to read are not among the more commonly published ones.

Believe it or not, 1,135 caps were placed on the keys of the school's typewriters-754 of which have mysteriously disappeared in the last six weeks. Did you know that only 1/8 of

the cars parked at CHS every day belong to the faculty? Or that business is transacted in at least 10 of the school's 18

organizational accounts every day? Would you believe that the school cafeteria uses 275 pounds of flour a week, and that between 700 and 800 rolls are turned out by the cafeteria in a

single day? How about the fact that approximately 200 soft drinks are consumed a day at CHS!

Are you aware that CHS turns out about 50 budding artists every year-at least in evidence Sandy Whitfield of the desks they have drawn

twirlers. Here is a really shocking fact. Jill Myers An average of 8 tests are given a Typist day at C.H.S. and the average Mrs. Jean Halbert student faces one about 3 times a week.!

AUSTIN, Tex .-- "The way a man comes across on television says absolutely nothing about his qualifications to govern," explains Bob Hardesty, Press Secretary to Governor Dolph Briscoe and former speech writer for President Lyndon B. Johnson.

Hardesty, speaking before the Austin Advertising Club, said "On television, the way a person comes across all too often has little to do with what he is really like. What's of paramount importance is what he appears to be like. We are faced with a basic conflict -- the conflict of illusion versus reality.

Hardesty defended LBJ's "illusion that he was devious and secretive." stating that "it was under his (LBJ's) personal orders that there was no press censorship in Vietnam -- for the first time in the history of American warfare.

There was the "illusion that he was a southern racist, yet he was responsible for passage of every civil rights act since reconstruction," his former speech writer added.

Governor Briscoe "lives with myths that he is a businessman's governor, but he vetoed a bill which would have raised interest rates -- and the myth that he is a remote, inaccessible governor, but he is the man who is probably more accessible to members of the legislature than any Governor in recent history.

"My remarks are not directed against the television industry and the fine people who work in it; this is something out of their control and is a fact of life.

elect our public officials to run round him every day. our government honestly, effectively and compassionatley -- reporters something to think not to entertain us. We have our about when he said Bell

stressed. 'Therein lies the tyranny of television. The more we as a people become used to the

suave, polished entertainers and newscasters, the more we expect public servants to be like them. In this day of pre-packaged candidates and edited TV compaign spots, it takes a long, long time to see through a 'snow job'. The day we judge all our political candidates on style, rather than merit, we will all be the losers,'

he concluded. LBJ WAS 'TRICKED' INTO QUITTING? -- In a UPI interview last week Sam Houston Johnson, brother of LBJ, said 'If anybody tells you that he didn't intend to run for a second term, they're very badly mistaken.

'He was tricked. He was led to believe if he withdrew he'd save thousands of lives. It had the opposite effect of what he thought is would," he added. Sam Johnson is revising and

updating the book, "My Brother Lyndon." He will tell in his book that LBJ "gave up politics for peace." The choice, he thinks shortened his brother's life.

Politics was his life. He gave up living when he gave it up. If he'd stayed on in the White tricts for all lawmakers, a new House there's no telling how long he'd have lived."

NO MORE TELEPHONES ... 'Bend a key and bend a mind," says Uri Geller, Israeli psychic, who made an appearance before a skeptical Capital press corps last week.

'There are other dimensions to life than what we can see. feel, and hear." Geller pointed out -- as he bent keys for reporters and explained other 'My point is obvious. We phenomena which occurs a-

Geller gave the political Johnny Carsons for that," he Telephone laboratory scientists

were "slightly shook" when he performed some of his experiments in laboratory conditions for them.

'Perhaps they are afraid mental telepathy will put them out of business," he said jokingly.

He successfully conducted telepathy experiments in other news rooms in Austin, but didn't succeed with the skeptical capitol reporters. Some term is unusual feats as

'paracommunications'' -- which may very well be used in some means by the news media within a few years. Geller practices psychokine-

sis, telekinesis, teleporation and other unexplained uses of energy forces. Astronaut Edgar Mitchell

heard about the young man in Tel Aviv, and has helped conduct the Stanford Research Institute experiments in the lab conditions

Explaining that some people vill never be convinced that he has unusual gifts, Geller said, 'There are people in the world who do not think the United States has landed men on the moon. They believe what they saw on television was filmed in Texas or Arizona.

IMPROVEMENTS GIVEN FOR HOUSE--Eighty-one recommendations to improve legislative efficiency were revealed following a three-months' study and House Speaker Price Daniel Jr. promised early implementation of some.

The Citizens on State Legislatures completed the study and handed in its report, which included such proposals as annual legislative sessions, single-member dis-

rulebook, home district offices and \$15,000 annual pay. Daniel applauded the recom-

mendations and announced immediate plans to begin a review of them with key House committee chairmen. Actually, the study applied only to the House, as the Senate refused to go along with the request for CCSL evaluation.

Larry Margolis, CCSL executive director, said implementing all the recommendations may cost as much as twice the present rate of legislative expenditures. However, he maintained, the legislature spends only two-tenths of one per cent of the state budget on its own operations, and proposed changes would lead to overall economies in other areas

> **CITY COUNCIL** City of Crowell, Texas Robert Kincaid, Mayor

Speaker Daniel and Briscoe las week.

"What we are trying to do is relieve the local taxpayers and shift the burden to the state," said Rep. Dan Kubiak of Rockdale, committee chairman. 'The local districts are at about their (taxing) limit.'

Kubiak said overhauling the school finance formulas can be accomplished without any immediate new taxes, because \$109 million in unexpended funds rests in the state treasury. Recommendations included a reduction in the teacher-pulpit ration: limiting ad valorem taxes for other than capital facilities, equipment and debt service to 75 cents per \$100 of market value; local leeway funds of from \$100 to \$200 per pupil in two-step form; increasing the transportation allocation by 50 per cent; increasing the operation and maintenance cost to \$85 per average daily membership and a new teacher pay raise.

APPOINTMENTS--Governor Briscoe named Robert C. Flowers of Austin to succeed Mack Wallace of Athens as executive director of the Texas Criminal Justice Council. Wallace was appointed to the State Railroad Commission.

Bruce Hughes succeeded William O. Bowers III as assistant secretary of state. At the same time, Secretary of State Mark W. White Jr. named Bob Lemens as chief of his elections division, succeeding Paul Wehrle; Bill Didlake counsel to the secretary, replacing Donald Ray who resigned and Bill Zimmerman as head of the Uniform Commercial Code Division. Robert F. Spreen is state

executive director of the Agricultural Stabiliataion and **Conservation Service of College** Station. DISASTER LOANS -- Emergency

disaster loans were approved for San Patricio County residents as a result of flood losses, and Briscoe asked Cameron County be declared a disaster area following heavy summer rainfall there. **TEXTBOOKS QUESTIONED**... School textbook hearing heated up again this year with complaints of women that proposed books portray girls in sterotyped "passive" roles.

month ago

Nationwide, in the seven major cattle feeding states, cattle on feed are up one per cent from a month ago and six per cent more than a year ago.

Texas continues to be the number one cattle feeding state in the nation. The Sept. 1 total for Texas is almost 750,000 higher than second-ranking lowa.

PECAN prospects for Texas appear poor. The Sept. 1 forecast from the Texas Crop and Livestock Reporting Service is 23,000,000 pounds. This would be only 31 per cent of the record crop of 75,000,000 pounds produced last year

The Texas crop will account for only nine per cent of the total U.S. estimated production this year compared to 41 per cent for the 1972 totals.

Pecan set is extremely poor in most areas of the state. A late freeze in April along with extensive insect damage in the larger pecan producing areas has created a dismal crop prospect for 1973. Only in the Trans-Pecos area and in counties in North Texas along the Red River has a good crop potential developed.

Nationwide, the 1973 pecan crop is forecast at 263,000,000 pounds. This is 43 per cent more than last year's short crop and six per cent above 1971. Prospects are above average in all states except Florida and Texas.

COTTON crop in Texas this season is expected to be the best since 1962. Production in the state is now estimated at 4,650,000 bales. This compares with 4,246,000 bales produced in 1972.

Yield based on Sept. 1 conditions is expected to average 406 pounds per acre compared with 408 pounds in 1972.

Harvest for the state has reached about 10 per cent completion. Cotton on the High Plains and Low Plains is making excellent progress. Crop potential on the Plains is above average.

Rains have hampered harvesting in southern sections and cotton root rot is a problem in the Blacklands.

BASED on Sept. 1 conditions, a record grain sorghum crop is forecast for Texas at 421,600,000 bushels. This would be more than 100,000,000 bushels above the 1972 crop

Peanut production is now estimated at a record high in lexas of 502,400,000 pounds compared with 480,455,000 pounds in 1972. Yield is expected to average 1,600 pounds per acre. Acres estimated for harvest total 314,000 which is 7,000 more acres than the 1972 crop.

Soybean production for Texas is also estimated now to set a new record of 11,475,000 bushels. This would be more than twice the 1972 soybean production. Acreage this year is double that of the previous year. Average per acre vield is estimated at 27 bushels per acre.

Production of corn in the state this year is estimated at 60,800,000 bushels, an increase of 54 per cent over last

Wheat seeding for the state is now above 10 per cent, and is on schedule with last year. Farmers are preparing fields or have them prepared throughout the state.

RANGE and non-irrigated pasture conditions as of Sept. 1 averaged 76 per cent of normal and compared with 77 per cent last year and 86 per cent last month,

over-drying. Concentrate on the following areas to prevent lint problems: 1. Check lint filters. Clean

after each wash and dry load.

LINTY LAUNDRY

2. Examine sorting procedures. Separate lint "givers" (towels, flannel pajamas) from lint "attractors" (linens, corduroys, dark cottons, man-made fabrics and durable press.) Laundry heavy linters, such as chenille bedspreads, alone. 3. Use proper amount of detergent. It increases the wet-

ting of fabric surfaces. If too little is used, lint sticks more easily. Proportion detergent to type of machine, water hardness, load size, and degree of soil.

4. Don't overload. Too many clothes in a washer stops free movement of clothes, which normally flushes lint from fabric

Avoid overdrying. It causes man-made fabrics to draw lint due to static buildup. Correct timing and use of fabric softener help eliminate this problem.

Certain durable press and synthetic fibers, such as polyesters and acrylics, tend to pill." Changes in Farm Machinery Cited by Rotary Speaker

Rotarian Bud McLain compared farm machinery changes during the past number of years in a talk at the Wednesday, Sept. 19, meeting of the Rotary Club of Crowell.

He compared changes in farm machinery in three general categories: size-of machinery.

Junior Varsity Wins

The Crowell Junior Varsity football team, coached by Russell McGough, took a 14 to 6 win over the Childress JV at Dick Todd Field in Crowell last Thursday night.

William Bachman, Crowell fullback, scored both the locals' scores and Audey Dunham kicked the two extra points.

Junior High Football **Teams Split Games at** Childress Last Week

The Crowell junior high footoall teams traveled to Childress last Thursday night for games with teams from that city

The local seventh graders were blanked 6-0 by Childress. Fumbles hurt the local boys' efforts in this one.

The eighth graders did better and beat the Childress 8th graders 12 to 0. A pass play from halfback Kim Daniel to end Marvin Coleman clicked well in this game, and accounted for both the Crowell scores.

Jerry Don Anderson coaches both these teams.

social security manager in Vernon. The beneficiary will be entitled to both the hospital and medical insurance part of Medicare. He should cut out the the card and put it in a safe place, Chustz said.

When a beneficiary reaches 65 or receives disability payments for 2 years, he is automatically entitled to the hospital part of Medicare. Under a recent change in the law, this individual is now also automatically enrolled in the medical insurance program. This is the part that helps with payment of doctors bills among other medical services.

There is at present a \$6.30 monthly premium for the medical insurance coverage. The beneficiary still may refuse this part of Medicare. In this event, he should complete the back of the card and drop the entire form in the mail. Another card will be sent showing hospital insurance only.

She hadn't even noticed the name of the author. Taking the book down from the shelf again, she began reading. As she read page after page, she asked herself: "Why

did I think this book was dry? Sav. this is some book! I had no idea that he could write-and so well!" And thus, avidly, she continued reading far into the night

Yes, it makes a great deal of difference if you know the author-and especially if you love him! How many believers in Christ there are whose most precious hours are spent in reading and studying the Bible-a book which once seemed dull and uninteresting to them! The reason? They have

come to know the Author! Our Lord said: "This is life eternal, that they might know Thee, the only true God, and Jesus Christ, whom Thou hast sent" (John 17:3). But how do we obtain the "life eternal" with which this knowledge is bound up? Our Lord said: "He that believeth on Me hath everlasting life" (John 6:47.) Salvation is, after all, a love story to be believed, and by which we come to know Him who "loved us and gave Himself for us.
