WINNERS AND LOSERS

WHAT'S THE DIFFERENCE?
A winner says, "Let's find out." A loser says, "Nobody knows."

When a winner makes a mistake, he says, "I was wrong." When a loser makes a mistake he says, "It wasn't my fault."

A winner isn't nearly as afraid of losing as a loser is secretly afraid of winning.

A winner works harder than a loser and has more time. A loser is always too busy to do what is necessary.

A winner goes through a problem. A loser goes around it and never gets past it.

A winner makes commitments. A loser makes promises.

A winner shows he is sorry by making up for it. A loser says "I'm sorry," but does the same thing again.

A winner says "I'm good but not good enough." A loser says "I'm not as bad as a lot of other people."

A winner listens. A loser just waits until it is his turn to talk.

A winner appreciates constructive criticism. A loser gets mad when others criticize him.

A winner says, "I'll do it." A loser says "Let somebody else do it."

Which are you?

STATE CAPITAL
Highlights
AND Sidelights
by Bill Boykin
TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Statewide political candidates are on the campaign trail in earnest, and plenty of action is expected.

The AFL-CIO Committee on Political Education met here this week to choose up sides in the major statewide races.

Both Gov. Dolph Briscoe and Mrs. Frances "Sissy" Farenthold began their travels, with Mrs. Farenthold challenging quality of the Governor's leadership and his "accessibility."

Republicans lost a candidate, when former State Sen. Henry Grover of Houston in a surprise move withdrew from the governor's race. He said he could not raise money for a campaign, and "GOP high-ups" don't want to win

anyway."

Main action below the governor's race is expected in the three-way Democratic contest for comptroller.

Bob Bullock of Austin and Hugh Edburg, a former top aide in the comptroller's office, are logging most of the action. Buddy F. Kirk of Houston, another former comptroller's staff member, is also waging an active campaign to succeed retiring Comptroller Robert S. Calvert.

Treasurer Jesse James has young Houston lawyer Donald B. Ya brought for a Democratic opponent.

Agriculture Commissioner John C. White is opposed by Herbert A. (Peanut) Schroeder in the Democratic primary. Railroad Commissioner

Mack Wallace has opposition from C.A. Kelly of San Antonio.

Atty. Gen. John Hill, Lt. Gov. Bill Hobby, Land Commissioner Bob Armstrong

and Railroad Commissioner Jim Langdon have no Democratic opponents, but they're doing some campaigning, anyway, in case their Republican challengers get tough in the fall.

FINANCES REVEALED — New required financial reports by state candidates provided some of the more-interesting conversational tidbits at the state capital during the last week.

Governor Briscoe, for example, reported he owns about 332,000 acres of South Texas ranch and farm lands and has vast banking and investment interests, although he did not place a dollar value on his holdings.

Mrs. Farenthold placed her family net worth at \$314,684 assets (including \$200,000 worth of jewels) at \$495,771.

Lt. Gov. Bill Hobby listed assets of \$3.9 million, and a net worth of \$599,483.

Atty. Gen. John Hill reported assets of \$3.1 million and a net worth in excess of \$2.9 million.

CONVENTION LIVENS — After a dreary, extended wrangle over educational provisions, the Constitutional Convention finally agreed on the school-college article and went on to pound out promptly voter qualifications and elections provisions.

Delegates agreed to restore voting privileges automatically to ex-prisoners. They voted to leave it up to the legislature whether to scrap the ancient requirement of signing paper ballot stubs.

Another controversial provision passed would require voters in bond elections affecting property taxes to be property owners.

MORE GAS ON WAY — Texas will get 119.7 million gallons more gasoline in March than in February.

The Federal Energy Office said Texas' March supply will be 657.8 million gallons.

Federal Energy Administrator William Simon announced adjustments.

AG OPINIONS — Attorney General Hill held a state employee cannot be fired merely because she is pregnant.

In other recent opinions, Hill concluded:

The Department of Public Welfare may refuse a client's request for a copy of his complete file only where information is excepted from the open records law and has not been used concurrently in determination of the person's rights.

Whether or not tips are part of the sales price of taxable food and drink depends on whether the employer derives a benefit from their collection.

The Water Development Board need not get a permit from the Antiquities Committee before archeological resources on public lands can be tampered with. But the Board has responsibility to assist the Committee in locating, protecting and preserving such resources. Its funds can be used to study antiquities to be affected by a reservoir, but it may not engage in salvaging operations.

Boards of regents cannot meet in closed sessions to consider granting honorary degrees, unless the honoree is also being considered for appointment or employment.

If a person sells a mobile home that does not meet new code requirements, the Bureau of Labor Statistics can get an injunction and fine the seller. (A variety of other questions on mobile home regulations were answered by Hill).

The comptroller of public accounts has authority to prescribe forms to be used by the Department of Mental Health and Mental Retardation in obtaining reimbursement for costs of services and supplies furnished by its central services facilities.

SPEEDERS BEWARE — Department of Public Safety troopers have been instructed to intensify enforcement of speed laws.

DPS Chief Wilson E. Speir ordered the effort after receiving many complaints drivers are refusing to obey the 55 miles per hour speed limit.

Speir said drivers are frightened by speeders and "tail-gaters." He noted excessive speed is involved in most fatal accidents.

APPOINTMENTS — Governor Briscoe reappointed Tom Gordon of Abilene to the Texas Alcoholic Beverage Commission.

He also announced these appointments: L. G. Moore of Deer Park to the Texas Amusement Machine Commission; Houston Mayor Fred Hoffenz to the Advisory Council on Community Affairs; Doyle Harrell of Fort Worth to the State Board of Pharmacy and J. Kenneth S. Arthur of Dallas to the Texas State Board of Public Accountability.

House Speaker Price Daniel Jr. is the Texas delegate member of the Council of State Governments Governing Board. Lt. Gov. William P. Hobby will take over the position after Daniel's term expires in January, 1975.

Col. Delmer Nichols of Taylor, Col. George Harper of Houston and Col. B. J. Flores of San Antonio were commissioned brigadier generals in the Texas National Guard.

Billy R. Cowan of Austin was selected chairman of the 35,000-member Texas Joint Railway Labor Legislative Board.

SHORT SNORTS

The Fifth U.S. Circuit Court of Appeals plans April hearings on the Texas transportation control plan and allotment of water pollution control funds which have been impounded.

Texas Employment Commission Chairman Harold K. Dudley urged establishment of a state employee benefits commission to make recommendations on classified workers' salaries.

Texas State Teachers Association is holding its 95th annual convention March 14-16 in the Tarrant County Convention Center.

Amendments Urged for OSHA Act

The West Texas Chamber of Commerce has recommended to the West Texas Congressional Delegation that they work for necessary amendments to the Occupational Safety and Health Act (OSHA) of 1970 that would produce changes to make the provisions of the act workable and make it possible for the average business to comply with the provisions.

WTCC believes that changes should be made in some of the provisions to produce changes in standard settings, compliance inspections, citations, review and appeal procedures, and on-site consultation that will result in a fair and workable act

for all concerned.

Joe Collins of San Antonio, Chairman of WTCC's Affairs Committee, said "the administering agency's their zealously have overstepped the bounds of reasonableness in standards, or implementation and other procedures. The very real problems faced by employers complying with this highly complex law are largely ignored by the responsible for the administration of OSHA. There is a critical need to find a safe and reasonable corrective measures without sacrificing safety."

College Lobby's Treasury Raid

The following editorial was taken from the Thursday, March 7, issue of The Austin American Statesman and was sent to the News by Rep. W. S. Heatly.

Those naked students racing across campus in the latest and dizziest collegiate fad called "streaking" could be a symbol of the Texas taxpayer of the future if the college lobbyists manage to nail down an open-ended, unaudited raid on the state's assets as they apparently are on the verge of doing in the constitutional revision effort.

Already, Texans are putting up \$500 million a year for higher education, not counting the millions additional in state bond issues to build more, costlier facilities for the institutions.

Unless somebody applies brakes and steering wheel to education spending, Texas is heading for an income tax even faster than anybody had thought.

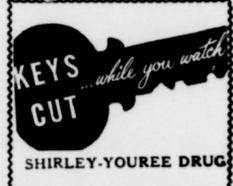

When this prospect sinks in, the chances of a constitutional revision with all the sugar and plums stuck into it by the college and university money-

grabbers should go down the drain.

The brawling over this sugar plum tree during the last two weeks in the Constitutional Revision Convention was notable for a lack of discussion about the sources for all this extra money.

It would be a tragedy if the over-reaching greed of the institutions produced public revulsion against higher education. But that is exactly what is in danger of happening unless reason, prudence and strict management of public funds can be to the rescue.

On the basis of the last two weeks in Austin, the rescue probability seems dim if not out of the question.

Mrs. Eva Sloan Is Speaker at WSL

"Japan and West Germany are very progressive countries," Mrs. Eva Sloan noted in highlighting her seven-week tour of Europe last summer to members of the Women's Service League, Thursday. It was apparent that workers in both countries were proud of their skills and eager to compete with the world. Representatives of the two nations were found throughout the 23,000 mile tour making further business connections.

Mrs. Sloan said that Paris had the poorest driving record with the highest fatalities in the world. The French can not understand why the Americans build speedy, powerful vehicles and then have a speed limit. The people there drive small cars with the accelerator usually to the floor and park any place they can find including the sidewalks.

The American dollar was certainly deflated at the time the guest speaker was making her tour. Some countries were more liberal than others but the exchanged rate was something like \$7.00-8.00 to the U.S. \$10. Visiting East Germany via bus, Mrs. Sloan learned that the residents weren't allowed to come out until they were 65 while the West Germans could, one month a year. No phone calls were permitted across the

wall which bore many crosses where persons had tried to escape and had been killed.

Denmark was the favorite country of the speaker. She emphasized that citizens enjoyed equal taxation and social security from cradle to the grave. She found Belgium to be a spotless country.

Older European women never wear pants and only some of the younger ones do. Their guide encouraged the tourists to dress for dinner. The meals—usually served by men—had many courses and were ordinarily delicious.

Mrs. Sloan found that the U.S.S.R. rated first in world power with the United States second. The U.S. manufactures 33% of the automobiles. The recent European visitor displayed a number of her purchases while abroad.

R. H. Nichols to Speak at Eastern Star meeting

R. H. Nichols, editor of the Vernon Record News and author of a recent book, will be guest speaker at the Crowell Chapter No. 916, Order of the Eastern Star, dinner and friendship program at 7 p.m. Tuesday in the Masonic Hall.

The local chapter will furnish baked ham for the dinner and members are asked to bring a covered dish for their family and guests who are expected from the surrounding area.

KING AND QUEEN—Keith Nichols was crowned king and Miss Jan Brown was crowned queen at the recent sweetheart banquet of the First Baptist Church. Pictured standing behind the king and queen are Randall Russell and Connie Werley, attendants. (Photo by Mrs. Warren Haynie.)

TO OBSERVE ANNIVERSARY—Mr. and Mrs. John Henry McGee, pictured above will observe their 25th wedding anniversary March 18. The McGees, parents of six children, have lived in Foard County all their married life. They also have eight grandchildren.

Sweetheart Banquet Is Held

The annual Sweetheart banquet was held at the First Baptist Church on Saturday evening, February 16. Claude Wilson, youth director of the First Baptist Church in Vernon, was the guest speaker and entertainer.

The banquet was held in the fellowship hall of the church and the room was decorated with musical notes and flying doves in keeping with the theme, "I'd Like to Teach the World to Sing".

About 58 young people attended the banquet with Joe Haynie serving as master of ceremonies.

Each year, the selection of King and Queen is based on Sunday school attendance for the previous year. This year's king was Keith Nichols, the queen was Jan Brown and runners-up were Randall Russell and Connie Werley.

HOW THE INCOME TAX GOT STARTED

"Ever wonder how the income tax got started? The 16th amendment to the U. S. Constitution, legalizing federal income taxes, was adopted in 1913. It began as an amendment to a bill in Congress lowering the tariff on imports. The idea was that the small deficit from reduced tariff receipts could be taken care of by a tiny tax on prosperous incomes. On incomes from \$4,000 to \$20,000, the bite was one per cent. On \$100,000 it was four per cent. On \$500,000 six per cent. Few made more than \$4,000. Few people opposed the idea of the tax. It didn't seem important at the time. There must be a lesson there."—Osage City, Kansas, Journal-Free Press.

RABIES THREAT
Although fewer dogs are infected with rabies each year, the dreaded disease is still a major threat to humans due to wildlife, says a veterinarian for the Texas Agricultural Extension Service. Skunks are most frequently infected with the disease, but bats, foxes, racoons, ringtails and coyotes also account for a number of cases. Rabies is most prevalent in hot, summer weather. Infected wild animals often become tame and approach people and their environment. Children should be taught to be especially cautious of such animals.

Smith remains an avid booster of the Jack County Livestock Show and other 4-H related activities. He was recently recognized with a special award from the District Four 4-H Council.
