made plans to establish a weather watch and emergency unit for this area. Jackie Walker was elected president, Clark Brown, vice

president, and Mrs. Bobby Daniel, secretary-treasurer. In an effort to provide

residents with ample warning when a tornado is approaching, the group assigned men to go to certain areas and watch for tornadoes during turbulent weather. Jon Lee Black was assigned the Foard City area. his home was named the No. 1 base station. In case lightning should knock out this station, Walter Ramsey's unit at his home was named the No. 2 base station, with H. L. Ayers' station.

During turbulent weather, CB operators can tune in channel 11 for latest storm information, and the fire siren will be sounded in Crowell if a tornado is sighted approaching the town. The inability of the part of town was discussed, and a group assigned to meet with the commissioners court to discuss getting another

siren for that area. In addition to working during storm periods, the group will also be an emergency unit to assist the sheriff's department at drownings, accidents, fires, and other mishaps.

The newly-organized club will be meeting the first Monday of each month at 8 p.m. New members and visitors are invited to the meetings.

## Miss Swan Honored in Washington

#### SENIOR SCENE

The band program Friday night proved to be very enjoyable. Everyone who attended was delighted at the various events of the show. The band will sponsor a pancake supper the night of open house March 7.

The English IV class is working on its 20-page research paper. The note cards are due March 14. The Texas history class is studying the organization of the Texas Rangers and the problems with the Indians. A test was given last Friday. The Home Ec III class and the consumer education class have been cooking. Each class was divided into four groups with each group preparing a meal.

The FFA-4H livestock show will be Friday and Saturday. Students with an animal will leave school at 12 Friday to take their animals to the VA barn.

The senior class would like to express sympathy to Rita Washburn on the death of her grandmother.

#### JUNIOR JIVE

#### 8TH GRADE NEWS

This weekend is a very busy weekend. Some people are in the stock show and some are in UIL contests in Wichita Falls for solos and ensembles. Also this Thursday the 8th graders have a 50's party planned at 7 in the new community center. Everyone has been making posters, signs and things in science for open house. The pancake supper is also Friday at 5. Everyone be sure to go to the open house and pancake supper.

The Bullions' Western played several numbers and the CHS band played several songs. Arthur Cerda, CHS drum major, helped direct the band. The "streak" was also a big success. Adrian Martinez was the action reporter and Dwain Crosby was Ethel's husband. The streaker was Jamie Martin and Ethel was Bobby Joe Cerda. The MC's for the show were Adrian Martinez and Dwain Crosby. All these people worked very hard to make the show and the entire band appreciates their efforts.

#### SPANISH CLUB

The Spanish club had a big blast Thursday night. Almost 30 people were out at Ricky Hammonds house, where we ate Spanish food (tacos, enchiladas, juacamole salad, taco salad, etc.) and played some games. After cleaning up, we took off for the bowling alley in Vernon. It turned out that the Spanish Class contains several bowling champs, and several who can't bowl at all. Mr. Gafford helped several of those who can't bowl by teaching them the correct bowling form. Fooze ball and pool games were also played. Everyone would like to thank the Hammonds family for putting up with us and letting us have our party in their home.

OIL ALLOWABLE SET Texas Railroad Commission once more set the statewide oil production allowable at 100 per cent for March.

For three years, the Commission has been directing all-out production, and at the same time imported oil is continuing to flow in.

Commission Chairman Ben Ramsey said 4,023,000 barrels were imported the first week of February, a considerable increase over January. Buyers asked for 4,055,124 barrels of Texas oil daily, for acquiring a dove habitat. which represents a 8,946 barrel decrease from February.

#### HOPE FOR LIVESTOCK INDUSTRY

An increase in cattle slaughter, lower grain prices, reduced interest rates, and a decrease in meat imports should boost the livestock industry, according to a livestock marketing specialist for the Texas Agricultural Extension Service. The increase in slaughtering is especially important since an oversupply of cattle is the main cause for present low prices.

# Santa Fe **CROP REPORT**

WINTER WHEAT: Condition of the 1975 winter wheat crop in the states of Kansas, Oklahoma, Texas, Colorado and New Mexico would appear to have changed very little during the last month with much of the eastern part of the area still receiving above normal moisture while much of the acreage in Eastern Colorado, Western Kansas and to a lesser extent, portions of the Oklahoma and Texas Panhandles, as well as Eastern New Mexico is showing the effect of lack of moisture. Some damage has been caused by high winds in fields without adequate vegetative cover and/or where the top soil has been loosened by alternating freezing and thawing, followed by high winds. Whether damage by dry weather and high winds will be more than usual will depend on the amount and timing of moisture received in the next couple of months and the extent and severity of high winds in the area. In the Eastern portion of the five states, clear, open weather is needed to allow the wheat plants to develop normally.

Top dressing of fertilizers, as supplies are available and weather is favorable, as well as spraying for outbreaks of greenbugs in isolated areas is under way over much of the five state area.

Present assessment of the 1975 hard winter wheat crop in the five states would seem to indicate (slightly more than 21/2 months before the start of harvest in the Low Rolling Plains of Texas and adjacent areas of Oklahoma), assuming normal weather from

TREASURERS TO REVIEW FISCAL MATTERS

County treasurers from throughout Texas will meet cans. If they develop it, they at the Aggieland Inn in College Station March 26-27 for the third annual County Treasurers Seminar. Discussions will center around fiscal matters in county government and will highlight such issues as working relationships between local banks and county government, relationships between county auditors and treasurers, use of the financial statement in accounting practice, preparing a quarterly report, and a look at legislative action. Also featured will be a talk on "buying gold."

#### FARMERS MUST BE "FUEL CONSCIOUS"

Farmers and ranchers must be "fuel conscious" and stay abreast of the changing fuel situation if they expect to operate as efficiently as possible ir 1975, points out an economist for the Texas Agricultural Extension Service. Agricultural producers are mainly concerned with shortages of natural gas and LP gas. Low prices of both of these fuels have encouraged consumption while depressing supplies. Producers are advised to keep in contact with a reliable supplier, keep on-farm storage filled, keep the supplier advised of future fuel needs and changes, and schedule machine work to avoid rush seasons.

FERTILIZER FOR CROPS

With the present world food crisis and fertilizer shortages, some people are questioning the use of fertilizer for other than crop production. However, a turf specialist for the Texas Agricultural Extension contends that fertilizer is important for maintaining grasses in lawns, parks and golf courses and that these areas make significant contributions to the environment as well as having aesthetic and recreational values. Grasses release oxygen to the environment while filtering many harmful pollutants. They also reduce soil erosion and water runoff and reduce temperatures, glare, dust and noise in environments.

Wheat Prospects . . . Planting Plans . . . Orange Harvest Underway . . . Remember March 17.

A record wheat harvest for 1975? No one knows yet, but the stage is set for what could be the third consecutive record wheat harvest. Winter wheat producers have expanded plantings by six per cent. In Texas, wheat on the High and Low Plains has made little growth due to cold

Slow growth caused short grazing conditions. However, gains during the first 60 days of the grazing period have been good. Green bug problems are developing.

Nationwide, the 1975 wheat crop could reach more than two billion bushels. Wheat harvest will begin in Texas in

In order to give Texas wheat producers more information, the Texas Crop and Livestock Reporting Service will issue a Texas winter wheat forecast on April 9.

Only estimated production for Texas will be published at that time. The early Texas wheat estimate will be included in the April Texas Crop Report. If you want a copy of it, write to the Texas Crop and Livestock Reporting Service, Box 70, Austin, Texas 78767.

WHILE some farmers are still making 1975 cropping plans, other producers in Texas are busy with planting chores. And while cotton harvesting operations are winding up on the High Plains, farmers in the Rio Grande Valley are

Primarily because of weather, only a small per cent of the cotton crop has been planted to date in the Valley. Estimates are that less than five per cent of the 1975 crop has been put in the ground. Projections that at least a 50 per cent reduction in cotton acres in that area continues to

Meanwhile, South Texas farmers are planting sorghum and producers in Central Texas are "chomping at the bit" to get started, too. Many areas of the state are still too wet to work for spring crops.

Farmers--as well as city dwellers--are also making big plans for home gardens this year throughout the state.

HARVEST of oranges in the Rio Grande Valley is approaching the final stages. Based on Feb. 1 conditions, the 1974-75 Texas citrus crop is forecast at 12.9 million boxes; this is down 25 per cent from the previous season. Overall, grapefruit harvest is down 27 per cent from last

And while citrus harvest is nearing its end, cotton planting is in progress in the Valley. Indications there still point to a 50 per cent reduction in acreage compared to last year. One of the reasons for this is that about two-thirds of the 1974 cotton crop in Texas is still unsold.

BE ON THE lookout for the March 17 planting intentions report. It will be issued on or about that date and will give producers a better insight into what the nation's farmers are planning in the way of planting projections for major crops.

Also included in the report will be Texas farmers' planting plans for 1975.

# SOUTHWEST **FARM SHOW OPENS**

Just as surely as March follows February, the Southwest Farm Show opens on Friday morning, March 7, and continues through Sunday night,

March 9. New and interesting farm tractors and equipment, shown for the first time in the Southwest, will be on display for the over 50,000 farmoriented people expected at the Tarrant County Convention Center in downtown Fort Worth.

County agents and key farmers from throughout the state will begin arriving at the Convention Center Friday morning for the "New World of Agriculture" Forum. Speakers with world knowledge of related subjects, will discuss the farmer's role in the crucial years ahead. The Forum will conclude with a luncheon with the principle speaker being Congressman Jerry Litton from Missouri. The Forum is co-sponsored by Texas Agricultural Extension Service. Tickets are required.

The Farm Show does include plans for the women. A cooking school will be held on Friday morning and a fashion show on Saturday afternoon. Homemakers with a talent for sewing will model their garments made from natural fibers to interested fashionminded people. The show begins at 4 p.m. The winners will be announced at the tractor pull 29c at the News office. Saturday night.

F.F.A. teams from the ten Texas districts will show their skill as farm tractor mechanics at 6 p.m. on Saturday. This contest has become a feature event of the rapidly growing, nationally recognized Southwest Farm Show.

Each night thousands of sports fans will enter the big indoor arena to watch the fire-belching tractors roar down the dirt track dragging a weighted sled. Drivers throughout the from United States will be pulling for their share of over \$18,000 in purse money. Added to the excitement this year will be the mini-tractors garden tractors with 350 plus horsepower engines. Tickets to the tractor pulls each night may be purchased at the ticket office at the Farm Show. March could come into

Texas like a lamb, but it should begin to roar like a lion in Fort Worth the week-end of March 7-9.

# New Food Stamps Now Being Issued

Effective March 1, food stamp recipients will be using new coupons, according to the U. S. Department of Agriculture (USDA).

The coupons will be of \$1, \$5, and \$10 denominations. The 50 cent and \$2 coupons

will be discontinued. USDA's Food and Nutrition Service said the larger denominations were prompted by the volume of coupons needed to meet increased food stamp allotments, paper shortages and increased production and shipping

The new food stamps brown (\$1), purple (\$5), and blue-green (\$10) -- use a more sophisticated design to deter counterfeiting.

FNS said that food stamp users must spend their current food stamps by June 30 of this year since retailers will not accept any old coupons after that date.

Authorized food stamp stores will use the \$1 coupon for making change instead of the current 50 cent coupon and credit slips of 99 cents or less for change under \$1. Books will be signed by the food stamp customer on the inside front cover, instead of on the back of the book.

The ivory-colored coupon books are in amounts of \$2, \$7, \$40, \$50 and \$65.

FNS advised retailers to redeem the current food coupons as soon as possible. Banks will continue to accept them for redemption until August of this year.

Unable to attend were Mr. and Mrs. J. S. Teague of Lamesa.

LETTER TO THE EDITOR Dear Mr. Klepper:

One of your admiring readers has sent me a copy of your editorial for January 23, with your kind remarks about my newspaper and for reprinting my remarks about the great testimony given by the Baylor team at the Cotton Bowl game. They certainly gave a tremendous example to the rest of the nation and that, perhaps is more important than winning a game, although that would have been nice too.

I appreciate your kindness in reprinting my remarks. Best wishes. Very sincerely,

William Loeb, President Union Leader Corporation, Manchester, N.H.

# Couple Recite Vows

Miss Faretta Elizabeth Gatewood became the bride of Freddy Mac Wilson in a double ring ceremony solemnized at 7:30 p.m., Saturday, March 1, in the Wilbarger Street Church of Christ. T. Larry Marshall, minister of the church. officiated for the wedding

The bride is the daughter of Mr. and Mrs. Farris Gatewood of Thalia, and parents of the bridegroom are Mr. and Mrs. Joe Wilson of Vernon

The couple pledged the nuptial vows before an arch formed by cathedral candelabra holding white tapers. Palms of emerald greenery banked the setting, and votive candles nested in greenery with white satin bows and streamers marked

Nuptial music was provided by a tape of the Abilene Christian College A Cappella Choir and included "Oh Promise Me," "Because," 'Whither Thou Goest.' "We've Only Just Begun' and "Sunrise, Sunset, Presented in marriage by

## Named Outstanding Teen-Agers

Miss Kimberly Norman, daughter of Mr. and Mrs. Jim Paul Norman, and Miss Jacquelyn Brown, daughter of Mr. and Mrs. Jack Brown, have been selected as Outstanding Teenagers of America for 1975.

The Outstanding Teenagers, who are nominated by their school principals, are chosen for excellence in academic achievement and community service. These students will now vie for the Outstanding Teenager of the Year Trophies to be presented in May 1975. Similar trophies will be presented to the state winners. The state winners are selected by the Outstanding Teenagers Awards Selection Committee, in cooperation with the Board of Advisors.

The 51 state winners will be eligible for awards totaling \$7,000.00. One boy and one girl will be chosen for national scholarships of \$1,000.00 to the college or university of their choice. Also the ten regional winners will be selected from the remaining state winners to receive \$500.00 regional scholarships.

Under the guidance of the Board of Advisors, the Outstanding Teenagers of America program was created to encourage young people to take full advantage of the opportunities in our country. The awards are presented each Spring and the biographies of all those honored are recorded in the annual volume, Outstanding Teenagers Of America. which is published by Fuller

# 30 Years Ago in The News

News items below were taken from the Thursday, March 1, 1945, issue of The Foard County News:

Following a warm spring day last Sunday, a norther blew up about night with a sudden drop in the temperature. Considerable sleet fell during the night and Monday, and it is estimated that 4 to 6 inches of snow fell Monday night. Highways in many places over the state were blocked.

As a member of the famed 11th Heavy Bombardment Group of the 7th AAF, 2nd Lt. James A. Welch, son of Mr. and Mrs. John Welch of Crowell, has been commended by Major General Robert W. Douglass Jr., commander of the 7th AAF, for his part "in the campaigns which have taken large sections of the Pacific from the enemy's hands. Lt. Welch joined the Army May 29, 1942, and has been with the 7th AAF in the Pacific since April 1944.

A telegram from the War Department to O. R. Boman, received here Friday, verified the fact that Mrs. Boman, who had been a prisoner of the Japanese and interned at Santa Tomas, Manila, has been released and was well. The telegram to Mr. Boman came exactly three years from the date of the last communication from his wife.

Mr. and Mrs. J. E. Harwell of Lawton, Okla., received a message from the government Wednesday afternoon stating that their son, Pfc. Harry Harwell, who was reported as missing in action since Dec. 21, was a prisoner of the Germans.

Willis Young of Durango, Colo., who spent the early part of his life in Crowell, was signally honored Monday evening when he was the honor guest at an informal smoker given by his cousin, J. H. Cope of Lubbock, at the DeLuxe Cafe in Crowell, at which time a turkey dinner was served to a large number of old-time friends of the honoree. This visit to Texas is the first to be made by Mr. Young since he left here in July, 1909. He is a brother of Mrs. N. J. Roberts of Crowell.

Mr. and Mrs. Wiley Cook of Truscott have received official information that their son, Pvt. Arthur Cook, was killed in action on Luzon on January 31. Pvt. Cook was the only son of Mr. and Mrs. Cook.

The Holliday Eagles became the champions of district 9-A in basketball last Saturday night when they defeated the Crowell Wildcats 41 to 30 at Wichita Falls in the third and deciding game between the two schools. Playing for Crowell were McBeath, Joy, Bell, Mason, Brock and Wharton.

Mr. and Mrs. Hubert Brown have been in Fort Sumner, N. M., for the past several days with their daughter and son-in-law, Capt. and Mrs. Thomas

Closed fishing season in Texas has been abolished by the legislature and Texas can now legally fish the year around.

A meeting will be held in Foard City Wednesday evening, March 7, to discuss the advisability of selling the school building, it was announced last week by J. M. Barker, president of the school board.

CARD OF THANKS I would like to thank Dr. Stapp, the wonderful nurses and other members of the hospital staff for such good care while I was in the hospital. I would also like to thank my friends and relatives for the visits, telephone calls, food, flowers and cards. May God bless each one.

# The Foard County Agent Says...

Garland R. Wiemers **County Extension Agent** 

Several Foard County residents were present last Wednesday for the gardening program presented by two Extension Specialists. One of the topics covered was fertilizer.

The numbers on a bag of fertilizer tell the buyer how many pounds of a particular nutrient are in the fertilizer. A 50-pound bag of 10-10-10 contains five pounds each of three plant nutrients  $(50 \times .10=5)$ . These three numbers represent the percent nitrogen, phosphorus, and potassium, respectively.

A lack of nitrogen in the soil causes yellowing of lower leaves, stunted growth and reduced flowering. It generally needs to be applied more frequently than the other nutrients because it

Plants lacking phosphorous have abnormal bluishgreen to reddish-purple lower leaves and tender growth. When applied phorphorous should be mixed thoroughly into the soil. For this reason phosphorous should be applied prior to planting.

The last major plant nutrient is potassium. Lack of potassium will result in mottling and browning along the edges of older leaves. Most soils in Foard County have an adequate supply of potassium for the home garden. Deficiencies will usually first appear in the sandy soils.

Two minor nutrients, iron and zinc are sometimes deficient in our alkaline soils.

when, how and why of decision-making." And the 4-H meeting is a key part of the decision-making process.

By involving young people in the planning and evaluation stages of 4-H meetings. they learn to become better decision-makers.

Discussions and programs are planned by officers and volunteers before the meeting begins. Materials such as films, speakers, brochures, reports, panel discussions and trips are also planned before the meetings.

The 4-H meeting is a good example of democracy on a small scale. Business is handled through parliamentary procedure and decisions are made by the group. Each member of the club

should have a part in program planning. And special attention should be given for different age interests within a club. Recreation is also a vital

part of 4-H activities. It provides a physical outlet and helps promote a team

The decision-making skills acquired in 4-H can carry over into school, work and play

An area cotton production meeting sponsored by the Rolling Plains Cotton Growers, Inc., and the Rolling Plains Economic Program is scheduled for Friday, March 14. The meeting will begin at 10:00 a.m. and take place at the Country Club Building, in Stamford, Texas.

Some of the main speakers and topics for the program will be Norman Brints, area Economist-Management, 'How to Survive in '75";

Herman Propst, Rolling Plains Cotton Growers, "Cotton Situation and Outlook"; Hany Campbell, Dickens County Extension Agent, "Narrow Row Cotton in Dickens County"; and Emory Boring, Area Entomologist, "Rolling Plains Cotton Pest Management Plan"

The noon meal will consist of a free barbecue lunch followed by the annual meeting of the Rolling Plains Cotton Growers.

For information please contact the Foard County Extension Office.

Also please call the office if you plan to attend so that transportation can be arranged.

Foard County goes along with the old saying that "youth is our greatest asset"-the way it gets behind our FFA-4H Project Show. Don Welch and Garland Wiemers take the reins from retiring Marvin Myers and Joe Burkett. County Extension Agent Sally Sowell and her girls will have delicious cooking and smiles for the boys.

The show itself is sponsored and manned by local Rotarians-with the rolled-up sleeves and pencils behind their ears.

The auction sale is a credit to everybody's effort. The bids come freely from interested firms and individuals, who are willing to put their money where their mouth is. Thanks to the entire area for a cooperative success.

I have to be about the board of directors business of the Southwest Farm Show in Fort Worth-each year at the same date. The buyers committee says it's ok, if I leave my check book with

### Cotton Items May Get Scarce

With the growing demand for the natural fiber look, consumers may have unusually hard times finding cottom items, one clothing specialist reported this week. Marlene Odle, with the

Texas Agricultural Extension Service, The Texas A&M University System, said that the National Cotton Council predicts a one-third cut in cotton acreage planted, which threatens the longrange availability of cotton.

"There are several reasons for this shorter crop. Large mill inventories and lower marketing price in raw cotton have made it less profitable than other crops, such as wheat and feed grains.

"Foreign buyers are concelling their orders for U.S. cotton, which lowers the overall demand."

The specialist said that this means the mills are not giving cotton growers much hope for the future. The U.S. may possibly be faced with an under supply of cotton. 'Consumers may find that

they will have to let their preferences for cotton be known in order to increase the demand and drive up the supply," the specialist said.

DF CONSTITUTIONAL AMENDMENTS

SPECIAL ELECTION APRIL 22, 1975 NUMBER ONE

ON THE BALLOT (S.J.R. No. 3) Repealing Sections 48a,

48b, 51e, and 51f of Article III and Sections 62 and 63 of Article XVI of the Texas Constitution, Article XVI of the Texas Constitution is amended to: Provide for the revision

and consolidation of provisions relating to state and local retirement systems and programs and to provide that all general laws that have established retirement systems and optional retirement programs for public employees and officers in effect at the time of the adoption of this constitutional amendment will remain in effect, subject to the general powers of the Legislature. Provide that the amount

a participating officer or employee contributes to the employee retirement system or the teacher retirement system shall be established by the Legislature but may not be less than 6% of current compensation and providing further that the amount contributed by the state may not be less than 6 nor more than 10% of the aggregate compensa-tion paid to participating persons, except that in an emergency, as determined by the Governor, the Legislature may contribute more

than 10% of the aggregate compensation paid to persons participating in state retirement systems. Provide that the Legislature shall provide for local retirement systems created by any city or county for its officers and employees and shall further provide for a state-wide system of benefits for officers and employees of counties or

other political subdivisions

of the State which may

voluntarily participate, and

to further provide that a state-wide system of benefits shall be provided for officers and employees of

cities which may voluntarily participate. The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment revising and consolidating provisions relating to state and local retirement systems and programs and providing for a maximum state contribution to state systems of 10 percent of the aggregate compensation paid to individuals."

NUMBER TWO ON THE BALLOT (H.J.R. No. 6)

Amending Article III, Section 24 of the Texas Constitution to: Provide an increase in salary for members of the

Legislature from \$400 per month to \$600 per month. Provide an increase in the per diem rate for members of the Legislature from \$12 to \$30 for each

day during each Regular and Special Session of the Legislature. Provide an increase in the transportation allowance for members from \$.10 per mile to the rate prescribed by law for em-ployees of the State of

Texas. The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment setting the salaries of members of the legislature at \$600 per month and setting a per diem of \$30 per day during legislative sessions and a mileage allowance at the same rate provided by law for state em-
