Foard ASCS Executive Director...
JOE SABBE

Joe Sabbe New Executive Director of Foard County ASCS

For the first time since 1930, 1973, Foard County ASCS has an executive director. Joe Sabbe is the executive director of the

local ASCS office and he took over his new duties on June 22. Mrs. Jean L. Reeder retired from the position on

June 30, 1973, and since that time, Mrs. Thelma Borchardt had been serving as acting executive director. Mrs. Borchardt and Mrs. LaRue Russell, another ASCS employee, are continuing their duties in the local office.

Mr. Sabbe is a native of Wheeler and graduated from Wheeler High School and West Texas State University in Canyon. He received an agriculture degree in 1971. Mr. Sabbe trained at the Donley County ASCS office in Clarendon for eleven months before assigned to the Foard County position.

He and his wife, Carolyn, have one daughter, Kelli, age 5. The family resides in the Henry Johnson farm home a few miles south of Crowell. They are members of the Methodist Church.

Commemorative Coin Delivery Is Delayed

Delay in the delivery of commemorative medals being experienced in Foard County. The mint had promised a 20 delivery however, it is policy to send a lead of the coin for approval or disapproval.

1942 tornado was perfect; however, the reverse side which bears the likeness of Cynthia Ann Parker was rejected because she bore no resemblance of the features which had been submitted by the local artist, Mrs. Otis Gafford.

"In all fairness to those who will own the coins, it is felt that the unavoidable delay is necessary," Mrs. Virgil Johnson, chairman of the Foard County Historical Survey Committee, said last week.

She added that late last week the second striking of Cynthia Ann Parker was received and it was satisfactory. The coins should be arriving here in about three weeks, Mrs. Johnson concluded.

BAKE SALE

The youth of the Bethel Church will be sponsoring a bake sale Saturday, July 19, at Theford Pharmacy on the north side of the square. Everyone in the community is invited to buy their baked goods from these young people.

Debts Mount

All farm debt in the U.S. doubled twice in the last years. By early 1975, it is estimated that American farmers owe more than \$100

EDA Meeting Set Here on August 6

L. W. Curfman, economic development representative with the Economic Development Administration with offices in Lubbock, has set August 6 at 10 a.m. as the time he will be in Crowell to discuss with the local project supervisors some of the programs which may be

available here. County Judge Seth Halbert said Monday that possibilities are good that many of the projects of improvement planned in the county can be obtained on a 75 percent federal funding—25 per cent local funding, basis.

Meeting Set on Delinquent Taxes

There are many lots in the city limits of Crowell which are desirable locations for residences, but a great number of them have unknown owners and

delinquent taxes due for many years.

County Judge Seth Halbert said Monday that he has set up a meeting in his office in the court house Thursday morning at 10 o'clock at which time county, city and school officials will hear a law firm representative explain how these titles can be cleared up to make the lots available to sell to interested purchasers.

Halbert said this law firm specializes in clearing up lots such as are located in Crowell, and does the work on a percentage basis. So, he said, the delinquent taxes collected will pay the law firm, with the remainder of the taxes collected going to the taxing agencies involved. This would clear up titles on lots and make them available for construction.

Mrs. Mapp Died

Mrs. Stella Mapp, 80-year-old life-long resident of Foard County, died Sunday night in the Foard County Hospital after a brief illness. Funeral services were held at 3 p.m. Tuesday, July 15, in the First Baptist Church conducted by Rev. M. L. Crosby, pastor of Free Will Baptist Church, and Rev. Joe Ainsworth, pastor.

Interment was in the Crowell Cemetery with Womack Funeral Home in charge. Bearers were G. T. Knox, Billy Ray Dunn, M. M. Welch, Travis Vecera, Jeff Bell and Walter Ramsey.

The former Stella Cates was born in Foard County Nov. 23, 1894, daughter of the late Mr. and Mrs. I. M. Cates. She and George E. Mapp were married May 12, 1912, in Henrietta. Mr. Mapp died July 10, 1965. Mrs. Mapp was a member of the Free Will Baptist Church.

Surviving are one son, Jack Mapp of Crowell; one daughter, Mrs. Bill King of Crowell; three sisters, Mrs.

DANGEROUS ROOMS

Most dangerous rooms in the house—when it comes to fire—are the living room, den and family room. That's where a third of all fatal home fires get their start, most often from a forgotten cigarette or dropped hot ashes and matches. A fourth of all deadly home fires begin in the basement, 16 per cent in the kitchen, and 12 percent in the bedroom—where smoking in bed is the most frequent cause.

Ruby Mitchell of Ellenwood, Ga., Mrs. Bertha Shultz of Abilene and Mrs. Jim Cook of Crowell; 4 grandchildren and 7 great grandchildren.

Man Injured in One-Vehicle Mishap

A Paducah man received lacerations in a one-vehicle accident on U.S. 70 five miles west of Crowell early Saturday morning.

Sheriff E. E. Howard said the man's 1972 Chevrolet pickup left the road and struck a sign along the roadway. Howard said damage was about \$600 or \$700 to the vehicle.

School Board Hires Bus Drivers for Coming Year

The Crowell school board at its July meeting Monday night employed six bus drivers for the coming school year which gets underway on Wednesday, August 13. The six drivers are Daniel Navarro, Ray Quintero, Willie Rodriguez, Robert Foster, Lupe de los Santos and Charles Nelson. The drivers received a 10 per cent increase in salary.

Last year the district had these six drivers plus two additional ones: Pat McDaniel and M. L. Crosby. Mr. McDaniel retired after many years employment by the

MOVE INTO NEW HOME

County Judge and Mrs. Seth Halbert and small son, Konrad, last week moved into their new 3-bedroom brick home on North Fifth Street.

The new home, located one block north of US 70, was built by Foard County Lumber Co. with Jim Henry and his crew doing the carpenter work.

TWO NEW VEHICLES

Two new vehicles were registered here last week, as follows: July 8, Richard E. Blackburn, 1975 Chevrolet coupe; July 11, Howard Ferguson, 1975 Chevrolet 2-door.

Refinancing of Greenbelt Water Authority Announced

The announcement of approval of a \$750,000 Farmers Home Administration (FmHA) grant, and the transferring of all storage capacity of Greenbelt Lake to the Greenbelt Water Authority, highlighted a special luncheon Friday at the Clarendon Country Club.

Crowell was represented at the meeting by Henry Black, local representative on the Greenbelt board and Mayor Robert Kincaid.

"The FmHA grant will complete the matching funds of the Water Development Board for various improvements in the overall system," Black said following the meeting. The \$10 million refinancing

program for the Greenbelt Water Authority became official during the meeting.

The refinanced bond issue of \$10,500,000 will pay for the state ownership of a portion of Greenbelt water at the reservoir near Clarendon.

A check was transferred from the Water Development Board to the Greenbelt Water Authority, and there is now only one bond out and it extends over a 40 year period.

Six priorities were listed as improvements within the Authority. They are (1) a reservoir and pump station at Quannah; (2) an elevated tank at Medicine Mounds; (3) a pump station at Crowell; (4)

a reservoir at Childress; (5) a raw water pump station; and (6) repairs on the treatment plant.

The basic issue constituted an exchange of \$8,090,000 of the Authority's outstanding bonded indebtedness.

\$750,000 as the new money for the improvements, and \$1,310,000 to purchase water from the state.

The meeting to make the transfers followed approval by the five member cities of the Greenbelt Water Authority: Childress, Crowell, Clarendon, Hedley and Quannah.

Buck Tinsley, a member of the Water Development Board, was present to speak for the Board during the meeting. "We are very pleased that we were able to assist all of the member cities in the project," Tinsley said.

The refinancing plan was instigated by Danny Burer, a financial advisor for the Water Development Board.

"This is a very unique plan Danny came up with, and the plan will be recommended to other water authorities," Tinsley said.

From the financial point of view, the water is now all Greenbelt's. "We have been emancipated, so to speak, as we don't have to go to the Water Development Board any more for refinancing," Tinsley said.

The major purposes of the new contract, in addition to improvements of the services rendered by Greenbelt Water Authority, are to increase the water supply to the Red River Water Authority and to the existing contracting cities, and to smooth out debt payments.

The bond issue was for \$10,500,000 and the new proposed contract is the same as the old contract except that it is a "more modern edition" to better handle debt payments.

Under the new contract, the Red River Authority is considered a "member city," but it will not have voting power within the Authority.

The Water Development Board made a loan to the authority on a 50-year basis at 3.72 interest rate on the total loan.

Under stipulations in the new contract, customers will pay at least the amount member cities pay, with the condition that more can be charged to them for the water.

Greenbelt Water Authority will make improvements as the water usage increases because increased usage is putting a strain on the treatment plant at Clarendon.

Commissioners Study Redistricting

The Foard County commissioners court at its Monday morning session continued the discussion of

redistricting of the four precincts in the county.

County Judge Seth Halbert said a tentative plan has been approved; however, considerable study still is to be made to determine the exact locations of the precinct lines to adjust populations as nearly equal as possible.

Two Families Move to Oklahoma

Mr. and Mrs. James Callan and Mr. and Mrs. Larry Ellis and daughter all moved to Weatherford, Ok., to make their homes.

Mr. Callan has been parts manager for McLain Farm Equipment here for the past 1 1/2 years and he will be the parts manager and assistant bookkeeper for Christensen Enterprises, Case dealer at Custer, Ok. Mr. Ellis, mechanic at McLain's for several years, will be shop foreman for the same dealer in Custer. Custer is located only a short distance from Weatherford.

New parts manager at McLain's is Joe Mike Fish, while Henry Aranda has begun his work as a mechanic at McLain's.

Wilson Holman Improving

Wilson Holman, critically injured in a bus-truck crash near Fayetteville, Ark., last week has been moved out of the intensive care unit of a hospital there, according to information received by his mother, Mrs. W. W. Holman of Childress.

Surgery has been performed on his face and he was scheduled for leg surgery Monday.

Holman, 25, was a passenger in a bus which was carrying youths to an Arkansas Methodist Church camp when the accident occurred. A total of 20 were hurt.

Among those passengers on the bus who were not injured was Miss Pam Whatley, daughter of Mr. and Mrs. Vernon Whatley of Crowell.

PICTURES ARRIVE HERE

The color pictures of the Little League baseball teams of Crowell which were ordered by individuals have arrived and can be picked up at the News office.

CROWELL LITTLE LEAGUE ALL-STARS — Pictured here are players and managers of the Crowell Little League All-Stars who played in the tournament at Seymour Monday night, losing 8-1 to Munday. Front row, from the left, are Tommy Russell, Scott Reed, Joe Lee Brown, David Dunn

and Robert Newman. Standing are Dan Klepper, Guy Todd III, Carl Field, John Henry McGee, Jeff Christopher, John Haisell and Howard Sparkman. Also pictured are manager Bill Bell and coach Randall Ryan.

SENIOR CITIZENS GO TO PALO DURO CANYON—This group of senior citizens from Crowell and their guests are pictured Monday morning just before the group left

for Palo Duro Canyon where on Monday night they attended the performance of "Texas." The group returned to Crowell Tuesday.

AERIAL SPRAYING

According to David Seitz of SCS, chemical brush control is now being done on many farms and ranches in Foard County. Seitz stated that in many cases the most economical brush control is aerial application of herbicide. Mesquite should be sprayed when leaves have become fully extended and the plant is in full foliage. This is usually 40 to 90 days after initiation of spring growth. Spraying before mesquite

leaves have fully developed usually results in poor plant kill. Insect damage to mesquite is extensive throughout Foard County. Spraying herbicide on mesquite that has been defoliated usually results in a poor kill. Some of the trees that were defoliated earlier this spring are putting on new leaves. These leaves should be allowed to mature before the plants are sprayed. Because of the abundance of weeds on grassland this year, chemicals which kill both weeds and mesquite are recommended. The picture shows aerial spraying being done on the Virgil Johnson Ranch. According to David Seitz of SCS, Kleingrass Selection 75, (an introduced grass from South Africa) was planted on the farms of Don Welch, Eldon Whitman, Leslie Thomas, and Doris Gentry. Kleingrass has been used as an improved pastureland grass in this part of Texas for about eight years and has proved very hardy and productive. Seitz stated, although the seed is very expensive, this year \$7.50 per pound and higher, it only takes two pounds per acre so it is comparable to the other grass seedings in price. Various uses are made of the grass, primarily forage for livestock and seed production. The grass is a warm season perennial bunchgrass. It is normally easy to establish, but poses some difficulty in the seeding operation. The seeds are very small and the seeding rate is hard to set when seeding. Quality and quantity are both above average. The standing forage is of good quality for winter grazing. Livestock are attracted to the grass's high degree of palatability. Kleingrass has also proved to make good quality hay.

3,000 Herds In Brucellosis Quarantines

AUSTIN--More than 3,000 cattle herds were quarantined for brucellosis as of June 1. Dr. H.Q. Sibley of the Texas Animal Health Commission has reported. The infection rate among the 3,042 herds was 2.3 percent. Of the 268,711 cattle tested in May, 6,213 were found to be reactors. Number of herds pending tests and other investigations totaled 2,301. Sibley said the highest percentage of infected herds is in the heavy rainfall areas of East Texas where cattle density is high. Agriculture Commissioner John C. White pointed out that the extent of the spread of brucellosis could seriously affect the reputation of Texas cattle in domestic and foreign markets. Around 200 farms in Texas produce livestock. Most of the state - about 90 percent of the 254 counties - has not been certified brucellosis-free.

Various uses are made of the grass, primarily forage for livestock and seed production. The grass is a warm season perennial bunchgrass. It is normally easy to establish, but poses some difficulty in the seeding operation. The seeds are very small and the seeding rate is hard to set when seeding. Quality and quantity are both above average. The standing forage is of good quality for winter grazing. Livestock are attracted to the grass's high degree of palatability. Kleingrass has also proved to make good quality hay.

'74 Vegetable Stats In TDA Publication

AUSTIN--The "1974 Texas Vegetable Statistics," compiled by the Texas Crop and Livestock Reporting Service, contains information on all major vegetables grown in Texas including monthly and seasonal average prices and vegetable production by areas. For free copies of the booklet write Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Tex. 78711.

DARKER SIDE

The probability of being born without prenatal care (visits to a doctor during pregnancy) in Texas is 3 1/2 times greater for illegitimate babies than for other infants. The probability of low birth weight (under 5 1/2 pounds) is 1 1/2 times greater for illegitimate babies. Source: "The Darker Side of Childhood," published in 1974 by the Texas Department of Community Affairs, Office of Early Childhood Development.

A Weekly Report Of Agri-Business News

Compiled From Sources Of The Texas Department of Agriculture
John C. White, Commissioner

More Questions... Keep Those Samples Coming... Deadline Nearing... Good Eating.

It's crop questionnaire time again from the Texas Crop and Livestock Reporting Service.

A total of 24,700 farmers in Texas have received a questionnaire relating primarily to small grain acres. If you are one of those who have received it, you are requested to fill it out as accurately as possible and return it promptly.

Interest continues to increase in all areas of agricultural production in the state and throughout the nation. During the era of the so-called "burdensome surpluses" there was very little interest evoked when a crop survey was made. But now the questionnaire becomes important.

Another form Texas agricultural producers need to note is the census. Although the majority of the census forms have been returned, the Census Bureau says it still needs those not yet returned.

You need to fill out only those questions applicable to your operation. And the Census Bureau says you can be assured no one will see your answers except the census enumerator.

Figures will be compiled into county, state and national totals.

SCREWORM CASES continue to be reported in parts of Texas, and screwworm eradication officials urge livestock producers to adhere to its four-point program for eradication:

Check your livestock regularly, treat wounds on livestock with approved screwworm-control remedies, delay surgery on livestock as long as possible and submit suspected screwworm samples to the fly lab at Mission. Your county agent has vials which you can use to send the samples.

AUG. 15 may seem to be a long way off since this is still mid-July. But it will be here shortly, and the main thing to remember about Aug. 15 is that it is the deadline date for submitting your entry to the Family Land Heritage Program.

That Program honors those farm families and their descendants in Texas who have owned and continuously farmed the same piece of land for 100 years or more. If you believe you can qualify for this award, you can get an application from your county judge or by writing to the Texas Department of Agriculture, Austin, Texas 78711.

Last year, more than 560 farm families in the state were so honored. The Program, recognized to be of great historical significance, is sponsored by the Texas Department of Agriculture to honor agriculture and agricultural producers.

IF YOU LIKE ICE CREAM (and who doesn't) you'll be happy to know that ice cream production increased in 1974. Perhaps the same trend is continuing this year.

In Texas during 1974, there was enough ice cream produced to provide every person in the state just under three gallons each. If you like mellorine, and apparently most Texans do, Texas is the number one state in production of that dessert.

All this related to the fact that manufactured dairy products utilized 22 per cent of the 1974 Texas milk production.

Local Softball Team Now 17-5

The Crowell Rangers softball team has compiled a 17 won, 5 lost record for this season. The Rangers, with Carl Brock as manager and Jim Christopher as coach, split a double header Saturday night at Munday. Crowell led the first game nearly all the way, with Munday finally winning 10-9

in the last inning. In the second game, Crowell won, this time also a close one, by a 14-13 score. Both games went seven full innings and Christopher did all the pitching for the Rangers. Others seeing action for Crowell Saturday were Gary Hobson, Dale Henry, Randall Ryan, Roy Whitley, Domingo Martinez, Gary Cates, John Urquiza, David McAmis, Ray Santos, Christopher and Brock. Crowell returns to Munday Thursday night and then travels to Seymour on Friday night. Beginning next Monday night, the Rangers will be participating in a tournament at Paducah and plans are for next weekend to be playing in a tourney at Wellington.

The Guynn Hickman guests this week were Mrs. Kay Gray of Vernon and Nancy Looney from Texas Tech. Thursday Mrs. Hickman was in

News from... Truscott Gilliland Jim Cumley

Monday, Bill Benson of the Resources and Development Commission in Lockett gave an interesting program on community improvement. He presented slides and handed out pamphlets to all present. Many ideas were brought forth to help beautify Truscott for the contest next year. Herman Colliers, the Knox County agent, presented us with a check for \$75 for winning 2nd prize in the contest last year. Let's all do our share and win first prize next time.

Thursday, Emory Boring, the area entomologist, and Dr. Robert Barry, the area plant pathologist gave a program on lawn care, plant diseases and insects.

A bridal shower honoring Mrs. Fred Palacio, the former Miss Lupe Barrientez of Foard City, was held in the Truscott community center Saturday afternoon. There were 11 hostesses and the center was very nicely decorated. Mrs. Palacio is the daughter of Mr. and Mrs. Roy Barrientez of Foard City and Mr. and Mrs. Pete Palacio of Truscott. The couple are presently residing in Truscott.

A shower for Miss Charlotte Horne, bride-elect of Dennis Welch of Gilliland, was held in the home of Mr. and Mrs. O. R. Miller. The hostesses were Mmes. D. E. Burgess, Arnold Navratil, Emil Navratil, Adolph Byers, Jim Cash, and O. R. Miller. Miss Horne is the daughter of Mr. and Mrs. Jackie Horne of Wichita Falls and Dennis is the son of Mr. and Mrs. E. D. Welch of Gilliland. They will marry August 9.

The Gilliland Baptist Church will have a revival July 20-27 at 8 p.m.

Around Town Visiting Mr. and Mrs. W. T. Cook this weekend were John Thompson of Vernon and J. G. Cunningham of Falfurrias.

Guests of Mrs. Vivian Brown this week were Mr. Don Brown and son, John, of New York. Thursday, Mrs. Brown visited Mrs. C. H. Harwell in Vernon.

Billy Brown is visiting the Jerry Lee family in Farmington, N.M., this week.

Mr. and Mrs. Newt Bryant of Abilene visited Mr. and Mrs. W. O. Corder here last weekend. Mr. and Mrs. Corder will be going to California to visit their daughter for summer vacation.

Mrs. E. J. Jones visited Mrs. Irene Gerrold in Quannah Wednesday. Thursday, she went to Tipton, Ok., and brought back Ruby Melotte, who will be staying the week.

Visiting Mrs. C. A. Meek Tuesday were Mr. and Mrs. W. K. Dowdle and daughter, LeeAnn of Azle. LeeAnn will stay with Mrs. Meek awhile.

Guests in the Paul Bullion home from Monday to Thursday were Mr. and Mrs. Douglas Summers, who also visited Hattie McEwen and Pearl Summers. Guests Friday were Mrs. A. T. Iseng of Dallas and Mr. and Mrs. R. T. Capps of Groesbeck.

The Guynn Hickman guests this week were Mrs. Kay Gray of Vernon and Nancy Looney from Texas Tech. Thursday Mrs. Hickman was in

Page 2 Foard County News Crowell, Tex., July 17, 1975

Farmers Valley visiting Mrs. Rachel Taylor.

Visiting Mr. and Mrs. Charles Burton last weekend was Leslie Cobb of Midland. Mrs. Lottie Whitaker visited Mr. and Mrs. Manford Elliott in Seymour, Thursday.

Mr. and Mrs. Harvey Jones of Crowell visited Mr. and Mrs. W. R. Owens here Saturday.

Mr. and Mrs. L. D. Welch went to Jacksboro this week visiting Mr. and Mrs. T. H. Allen and Mr. and Mrs. Abernathy.

Mrs. Sydney Alexander visited in Baird and Abilene, where she attended a party of the Coillion Bells.

Visiting the weekend with Mr. and Mrs. Clyde Bullion were Myrtle White and Kamay Biggs of Eastland, and Mrs. Allie Moorhouse of Benjamin.

Guests in the Ralph Caram home this weekend were Mr. and Mrs. Alfred Acosta and daughter of Haltom City, Albert Caram and son of Arlington, and Mr. and Mrs. Freddy Caram and girls of Munday. Erma Garcia of Denton is here for summer vacation.

Martha and Wesley Cash visited Mr. and Mrs. Jerry Martin in Wichita Falls this weekend.

Mr. and Mrs. Claude Myers and daughters of Amarillo visited in the C. C. Myers home this weekend.

Mr. and Mrs. Ray Glascock traveled through Graham Sunday visiting Mrs. Evelyn Roberts, Mr. Glascock's sister, and Mr. and Mrs. Bill Ray, who are former residents of Truscott. They then went on to Archer City and visited Mrs. Glascock's parents, Mr. and Mrs. M. G. Williams. Mr. Glascock and Gene Chapman went to Wichita Falls, Saturday.

Mr. and Mrs. Harold Barry attended the Seymour rodeo Saturday night.

Guests of Mr. and Mrs. O. W. Welch this weekend were Mrs. E. R. Cash of Crosbyton, and Mrs. J. C. West of Artesia, Ca.

Mrs. Arnold Navratil visited Mr. and Mrs. Bryce Meers in Vernon, Saturday, Tuesday and Wednesday. Mrs. Arnold Navratil and Mrs. Emil Navratil were in Breckenridge visiting Lynn Navratil.

Mr. and Mrs. Curtis Casey visited Rev. and Mrs. Claude Harris in Eastland, Thursday.

Bill Myers and Miss Roxanne Purdue of Lubbock took Jill and Carl Myers to Six Flags Saturday. Harold Myers has started summer school at Texas Tech.

Visiting Mr. and Mrs. A. R. Bayers this week were Ola Barker of Seymour, L. J. Barker of Pampa, Paul Whitley of Seymour, and Mrs. Ada Bartos of Burkburnett.

Rocky Glascock returned from harvest in Dumas Friday night. He will leave again Tuesday for Sabinal.

Guests of Mr. and Mrs. Jim Cash this week were Mr. and Mrs. Bill Erwin of Vernon and Mr. and Mrs. Fred Cash and children of Grandfield, Ok.

Bud Myers of Andrews visited Mr. and Mrs. C. E. Myers here this week.

Parasite Takes Annual Trip

AUSTIN--Screwworms, parasites which eat the flesh of live, warm-blooded animals, took advantage of moist warm weather to extend their annual northward migration into 26 additional Texas counties during May.

The 398 laboratory-confirmed Texas cases in May compared to 590 during the same period last year, according to a representative of the U.S. Department of

Agriculture (U.S. Department of Agriculture) Screwworm Eradication Program.

The state's 580 during the first five months of the year were 62 percent of the 872 tallied in January and May.

Agriculture Commissioner John C. White has urged livestock owners, veterinarians and inspectors to submit samples of suspected larvae to a USDA laboratory in

Little Leaguers Drop Game with Munday at Seymour

The Crowell Little League All-Stars played in the district tournament at Seymour Monday night and lost 8-1 to a strong Munday team. The game was extremely

close the first three innings with Munday leading the end of three. A big inning for the Munday boys runs across the plate account for the final score.

Dan Klepper went 2-1 in the first two innings on the mound for Crowell. He allowed one run and struck out six Munday batters. He also pitched Crowell's lone run to McGee, shortstop.

Crowell, catcher Carl Newland, first baseman Newman, Klepper, second baseman Russell all hit safely for Crowell.

Other Crowell boys saw action were Sparkman, Jeff Christy, Scott Reed, Guy Todd, David Dunn, Joe Lee, and John Halsell.

Munday and Seymour who defeated Crowell Monday night met in a championship game Tuesday night at Seymour field.

Crowell Pee Wees Host Vernon Team

The Crowell Pee Wee All-Stars, managed by Larry Wright, hosted the Stein Hall Cowboys of Vernon at the local field last Thursday night. The local boys lost the exciting contest by a 25-16 score. Larry Wright was manager of the Crowell team and Emory Hopkins was manager of the Vernon team. The Vernon team was champions of that city's midget league.

Jesse Urquiza pitched for Crowell with Jeff Wright also seeing action on the mound. Brad Parkhill, Wright and Willie Joe Green were

Crowell's leading hitters. Brian Kelly was the winning pitcher with Darren Hopkins and Chad Brints also seeing mound duty.

Other members of the Crowell squad were Stacy Henry, David Noseff, Darin Criss and Taylor Fox.

As of June 30, 1975, a total of \$239 billion will have been spent by the Federal Government on programs for veterans of all wars.

Naylor Attending Seminar

Richard Naylor, son of Mr. and Mrs. Duane Naylor of Crowell, is attending the 13th annual Texas Farm Bureau High School Citizenship Seminar July 14-18 on the campus of Baylor University in Waco.

Purpose of the four-day school is to provide training in the fundamentals of the free enterprise system, how communistic systems work, and basic responsibilities of good citizenship, according to H. L. Ayers, Jr., president of the Foard County Farm Bureau which is sponsoring Naylor's trip to the seminar.

Some 450 junior and senior high school students from all across Texas are attending the school. Training is provided by outstanding lecturers, films and a panel of young inmates from the Huntsville unit of the Texas penal system.

CARD OF THANKS

Thank you for all the concern, care and love I received while in the hospital.

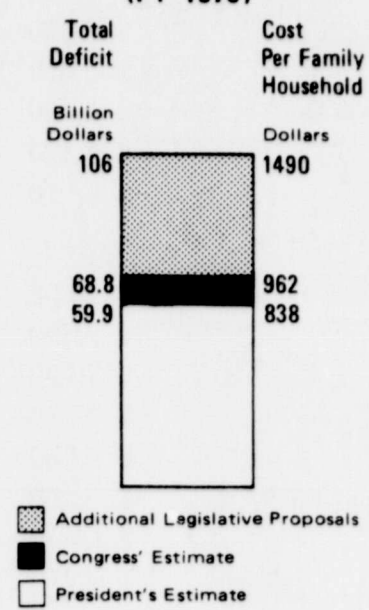

Mrs. Baylor Weatherford.

More than three million veterans and military service personnel have trained at college level during nine years of the current GI Bill, compared with 2.2 million under 12 years of the World War II GI Bill.

U.S. Chamber Will Monitor Federal Spending Bills Over '76 Budget Limits

To help ensure success for Congress' new budget-control process, the Chamber of Commerce of the United States will monitor Congressional spending to see if it is in line with budget targets or guidelines. The Chamber will report periodically on changes in size of the estimated \$68.8 billion deficit agreed upon by Congress, in terms of the cost per each of the U. S.'s 71.5 million households. In chart at right, the white area indicates the size of deficit and cost per household based on the President's first proposal, Feb. 3, 1975; the black area indicates additional deficit spending agreed upon by Congress, May 14, in a concurrent resolution; the screen area portends even further deficit spending, as indicated by bills currently under consideration by Congress. In table below, cost per household figures are used to illustrate differences in various budget proposals, including revenues and outlays.

FEDERAL BUDGET DEFICIT (FY 1976)

BUDGET PROPOSALS AND COST PER U. S. HOUSEHOLD

	Revenues (Billions)	Cost/Household (Dollars)	Outlays (Billions)	Cost/Household (Dollars)	Deficit (Billions)	Cost/Household (Dollars)
Original Budget	\$297.5	\$4,161	\$349.4	\$4,887	\$51.9	\$726
President's Mid-Year Revision	\$299.0	\$4,182	\$358.9	\$5,020	\$59.9	\$838
Congress' Budget (Target)	\$298.2	\$4,171	\$367.0	\$5,133	\$68.8	\$962

News from... THALIA Maggie Capps

Mr. and Mrs. T. R. Cates took their granddaughters Lisa and Mandy Messick to meet their parents and return home after several days visit with Mr. and Mrs. Cates and other relatives.

Cecil Driver of Lubbock was guest speaker at the Thalia Church of Christ Sunday and Sunday evening in the absence of the regular minister, Joe Laird of Iowa Park. Relatives of Mr. Driver who also attended the morning service were his mother, Mrs. E. P. Driver of Quanah and his aunt, Mrs. Jack Howard of Quanah, his daughter and grandson, Mrs. Carla Todd and Guy Todd III and his son, Rex Driver of Crowell.

Those attending funeral services for Rev. C. C. Lamb of White City included Mrs. Ed Huskey, Mrs. H. W. Gray, Mrs. Knoxie Brown, Mrs. Hester Hammonds, Mr. and Mrs. Muri Moore and family, Mrs. Fay Whitman, Mrs. Warren Smith and Mrs. Maggie Capps. Rev. Lamb was pastor of the Thalia and Margaret Methodist Churches for several years and lived in the parsonage here.

Mrs. Russell Fryman of Wheelingburg, Ohio, is visiting her parents, Mr. and Mrs. Bill Cates and grandmother, Mrs. Georgia Johnson.

Mr. and Mrs. Billie Dean Brown and three daughters spent Sunday with his mother, Mrs. Knoxie Brown en route home from a vacation trip in Colorado.

Mrs. Jim Moore returned home Friday after a few days visit with Mrs. Pauline Jimison of Spur.

Mrs. Flora Short, Mr. and Mrs. Billie Short and Mrs. Ruth Ellen McBeath and children visited relatives, Mr. and Mrs. Bennie Short and family in Kinsley, Kansas, a few days last week.

Mr. and Mrs. Larry Bursey are temporarily residing at Harrold where Larry is employed.

After weeks of too much rain, the farmers are busy plowing their fields, some are having to plow around low places which are still too wet.

Tractor Pull Set Aug. 8-9

The agriculture committee of the Vernon Chamber of Commerce has signed a contract with the Southwest Tractor Pullers of Fort Worth to provide the equipment and supervision for a two-night tractor pull. This event will take place Friday, August 8, and Saturday, August 9. Members of the Red River Tractor Pullers Club from Gainesville will work with local track supervisors on safety and overall pull operations. The Red River club will bring several tractors to Vernon to enter the open and super stock classes. The same equipment and technical personnel as is used each March at the Southwest Championship Pull in Fort Worth will be used in Vernon.

Dick Yeager, chairman of the event, stated that a special class for 9,000, 12,000 and 15,000 lb. tractors for local farmers will be held. He urges tractor operators from the area surrounding Vernon to obtain an entry blank from their local implement dealer so that they may be part of this exciting two-night event.

LAWN TIPS FOR MID-SUMMER

Drouth, leaf spot diseases, chinch bugs and white grubs present major turf problems for home lawns in Texas for the next several months, says a turfgrass specialist for the extension service. Increasing the mowing height one-half inch will increase the depth of the turf and provide more insulation against high temperatures. Regular watering to moisten the soil to a depth of four to six inches is important. Fungicides may be needed to control disease problems while insecticides will control chinch bugs and white grubs.

Number Of U.S. Farms Seems To Be Stabilizing

The number of farms in the United States appears to be stabilizing.

A recent USDA estimate shows 2,819,000 farms will be operated in the nation this year. That's down only four-tenths of one percent from 1974.

Total land in farms is pegged at 1,086 billion acres, only slightly below the last two years. Average farm size is 385 acres, up one acre from 1974's figure.

The report also shows that the number of farms will increase in New York, Pennsylvania, and West Virginia, while holding firm in all six New England states.

MEMBERS GO TO PALO DURO CANYON—These two pictures taken by County Extension Agent Sally Sowell were made last week on the 4-H outing to Palo Duro Canyon where the group attended a performance of "Texas." The group left Thursday and returned home Friday afternoon.

SEEDS FROM THE SOWER

By Michael A. Guido, Metter, Georgia

It would be a fine world if we showed as much patience waiting for our Father to bless as he while waiting for a fish who did said in Psalm "I wait for the Lord, and in hope do I hope."

Waiting on the Lord is the way of empowerment. Not to wait on the Lord is the way of exhaustion. The Lord is adequate for every need, be it sickness, loneliness, poorness, or death. Waiting on Him puts His wisdom and wealth, His mercy and might at your disposal.

Take some time every morning to read the Bible and pray. Then listen - give the Lord an opportunity to speak to you and to strengthen you. No time is wasted waiting on the Lord.

Take some time every morning to read the Bible and pray. Then listen - give the Lord an opportunity to speak to you and to strengthen you. No time is wasted waiting on the Lord.

STUDENT APPEARANCE:

The Howell Board of Trustees recognizes that a variety of dress is desired and trusts the judgment of the students and parents as to what is suitable and within Board policy. Board policy is:

As related to all students:

1. All students must wear shoes.
2. Students are not to wear clothing with suggestive words.

As related to secondary students:

Males - Males are to have clean shaven faces and acceptable haircuts. Hair should not extend over the eye brows, ears, or collar.

Females - Dresses are not to exceed six inches above the knees. Shorts are prohibited, regardless of type or length of blouse or top.

The Principal is responsible for the students of his school and may from time to time deem it necessary to judge a student's appearance as distracting and an interference to the academic atmosphere of his school even though the exact improper appearance may not be listed above.

MEN'S PRAYER GROUP

meets Tuesdays at 6:30 a.m. at the new community center, Philipians 4:6. You are welcome. 47-4tp

LETTER TO EDITOR

Dear Sir:
Enclosed is check for Foard County News another year. Every issue of the paper is just like a letter from home. Keep up the good news.
Mrs. Glenn M. Roberts,
Vernon, Tex.

Weeds Take Toll

A recent study in Arkansas showed that weeds are costing farmers in one county about \$10 million a year, and this loss is just in the soybean crop.

Cattle Eat Less Grain

Three-fourths of the feed being used to produce beef in this country is grass, forage, and by-products. Cattle experts say the trend is toward still less grain.

New Copper Breaks Dam Is Accepted

Upon completion of a final inspection tour, the Texas Parks and Wildlife Department accepted the new dam at Copper Breaks State Park from general contractor Cooper and Woodruff Inc. of Amarillo, Wednesday.

On hand to mark the turnover of the new area recreational facility were Charles Schmidt, Sr., Charles Schmidt, Jr., Robert Strebeck and Harold Strebeck, representing Cooper and Woodruff.

The engineering firm of Albert Half Associates was represented by Joe Nova while Texas Parks and Wildlife Regional Director (for Park Operations) Leonard Winstead accepted the completed dam along with Park Superintendent Bob Martin and engineering division representatives Kenneth Cline, Frank Rackley and Dick O'Donnell.

The new dam will eventually cover 60 surface acres, but at present is about half full, said Martin.

Martin also said that all recreational equipment, such as boat launching facilities,

were in place, but the lake level would have to rise before they could be used.

Martin said the completed dam, while not suitable for boating at this point, nor fishing, would eventually significantly raise the recreational capabilities of the area.

LETTER TO EDITOR

Dear Bill,
We had a good time—those of us who gathered for the Reunion Saturday. In fact, we had so much fun that there is talk of trying to get all the classes of the 'Forties together next year. We'll see.

Crowell is fortunate to have a place like the Community Center for meetings like this and all sort of gatherings. Our thanks to those responsible for making it available and keeping it up.

Also, I want to say a public word of thanks to Mrs. Audie Blackburn and the ladies who helped her. The food was delicious, and all of them were most gracious and helpful.

Thanks again for your help with the publicity, and to all who helped make it possible. Sincerely yours,
Bob Cooper

Quanah Parker's Last Surviving Son Died Last Week

Funeral services were held Friday for Thomas Titah Parker, last surviving child of famed Comanche Chief Quanah Parker.

Parker died Wednesday of last week at Anadarko after a

long illness. He was 81 years of age.

Services were held at the Mother of Sorrows Catholic Church in Apache, with burial in Cache Creek Comanche Cemetery.

Parker was born Oct. 15, 1889, near Cache. He was married to Helen Fisher April 7, 1919, in Oklahoma City. In 1949, he moved to the Apache area where he farmed for several years.

Cheerleader Clinic Set

A cheerleader clinic for young girls of Crowell will be held here Thursday and Friday, July 17 and 18 conducted by the CHS cheerleaders. The clinic will be held from 9 a.m. to 11:30

both mornings and will be held at the gym.

New cheers and pom routines will be taught each day, and refreshments will be provided.

Scratch pads, assorted sizes and colors, 15c per pkg.—News office.

Supplies of home canning lids are being allocated only to those retail outlets that have normally carried home canning supplies in the past. Lids are being distributed to areas as crops come in. Frances Reasonover with the extension service says.

Couple Recite Vows

Miss Rebecca Rodriguez, daughter of Mr. and Mrs. Willie Rodriguez of Crowell, and Larry Glenn Smith were united in marriage at the home of Mrs. Opal Hazelwood in Crowell Monday evening. Mrs. Hazelwood, Justice of the Peace, performed the ceremony.

Attending were members of the bride's family. The couple will reside in Abilene.

Honored at Shower

Miss Susan Autry, bride-elect of Joe Haynie, was honored with a lingerie shower in the home of Mrs. Travis Vecera, Saturday, July 12.

The honoree was presented with a corsage. The refreshment table was laid with pink satin streamers extending from a white basket floral arrangement to carry out the bride-elect's colors. Pink bells in a floral arrangement adorned the table also, and crystal appointments were used.

Hostesses were Mrs. Vecera, and daughters, Mrs. Ronny Naylor, Anita, Hedi and Donna.

Eligibility expires Aug. 1, 1975 for 2.7 million veterans discharged between April 3, 1970, and Aug. 1, 1974, to apply for low-cost Veterans Group Life Insurance through the Veterans Administration.

CROWELL STATE BANK

Member F. D. I. C.

is now paying the following interest rates on Certificates of Deposit:

Single and Multiple Maturity Time Deposits of less than \$100,000.00:

30 to 89 Days **5.00%**

90 DAYS TO LESS THAN 1 YEAR **5.50%**

1 YEAR TO LESS THAN 2 1/2 YEARS **6.00%**

2 1/2 Years **6.50%**

The above rates are All Existing Certificates of Deposit in force with this bank.

Federal law and regulation prohibit the payment of a time deposit prior to maturity unless three months of the interest thereon is forfeited and interest on the amount withdrawn is reduced to the passbook rate.

Helen Gribble Is WSL Speaker

"Microwave is 50-70 per cent less expensive than regular cooking," Mrs. Helen Gribble, West Texas Utilities home economist, stated at last Thursday's luncheon of the Women's Service League. She was introduced by Mrs. Effie Johnson, program leader.

She cooked bacon, a potato and an apple. Membrane should always be pricked, she pointed out, before cooking. No metal or foil should be used in the microwave oven. A brown-in and broiling dish, regular dishes or paper are the desirable utensils. This also saves on dishwashing. The oven also features a defrost setting for food that might be cooked by the regular method.

Mrs. Gribble emphasized that "there is absolutely no harm in microwave". She also noted it has existed some 20 years but has become popular in the area in the past six to eight years.

CARD OF THANKS

I wish to take this means of thanking Dr. Stapp, his assistants, the nurses and entire hospital staff for the excellent care I received during my recent surgery. Also I want to thank my neighbors and friends for the food prepared for my family, all the ones who sent flowers, cards, gifts, visits and prayers. God bless each of you.

Mrs. Marie Owens. 3-1tp

STATE CAPITAL Highlights AND Sidelights

AUSTIN — Texas may run out of money for new highways, according to State Highway Commission Chairman Reagan Houston.

Houston said the financing picture for road building is critical.

"Costs are rising and available financing is not adequate," the Chairman told Texas Good Roads and Transportation Association.

The time may come, he warned, when the state can afford outlays only for maintenance and operation of its highways.

A new study, Houston said, will examine "the widening gap between needed construction and available revenue... the desire for higher levels of transportation service, as well as the need to demonstrate to the public benefits of proposed projects."

New legislation signed by Gov. Dolph Briscoe merged the Highway Department and Mass Transportation Commission into the State Department of Highways and Public Transportation.

Park Enlarged

The state completed purchase of land, nearly tripling size of Lyndon B. Johnson State Park near Stonewall.

A couple accepted \$336,339 for the 133.9 acres of land across the Pedernales River from the late President's ranch. Cost of enlarging the park from its original 269 acres to 717.8 acres will total more than \$1 million.

Allowable Set

For the 40th straight month, the Texas Railroad Commission extended the wide-open, 100 per cent oil allowable for July.

However, the East Texas field was again restricted to an 86 per cent allowable. Nominations of major purchasers decreased 2,821 barrels—to 4,018, 347 barrels daily.

Pool Organized

A risk-sharing pool, authorized by the legislature, was organized last week to help provide a temporary solution to the medical malpractice insurance crisis.

The pool will not begin issuing policies until a plan of operation is approved by the State Insurance Board.

The Joint Underwriting Association was instructed to have the operating plan ready by July 7. August 3 is the target date assigned by Insurance Board Chairman Joe Christie to place the pool in full operation. The new law directs that it actually be provided insurance

to doctors and hospitals by September 1.

Courts Speak

Asking the State Supreme Court to restore an injunction prohibiting a Bell Telephone Texas long distance rate increase, Atty. Gen. John Hill said the company openly claims "unlimited power" to set any rate it wants on such calls.

Third Court of Civil Appeals struck down a district court order that Oak Cliff Savings and Loan Association cannot change its name to First Texas Savings Association.

A Dallas man, through an appeal to the Court of Criminal Appeals, received a new trial on charges of burning a two-year-old child.

Another Dallas case — for murder — was reversed, on grounds evidence which resulted in a man's life sentence was too weak.

AG Opinions

Interest from funds transferred to Angelo State University on dissolution of Tom Green County Junior College District may not be used to supplement the president's salary, Attorney General Hill held.

In other recent opinions, Hill concluded: A district judge would be

prohibited from appointing his grandnephew to represent an indigent defendant if compensation is paid from public funds. Also, a district judge should not appoint the district probation officer to represent a defendant in a criminal case.

A two-mile spacing rule for beeyards is valid if necessary to control spread of honeybee diseases.

Unemployment compensation records are, in general, available under the open records act to employers and claimants.

Appointments

Governor Briscoe appointed Pedro A. Mendoza of McAllen to the Commission on Fire Protection Personnel Standards and Education.

Mrs. Peggy D. Gutierrez of Laredo was named by the Governor to the Texas Cosmetology Commission.

James M. Bailey of Fort Worth will serve as chairman of the 1975 State Textbook Committee.

Sen. D. Roy Harrington of Port Arthur will serve as chairman of a special artificial reefs committee of the Coastal and Marine Council to develop artificial reef programs for Texas bays and inshore Gulf areas.

Short Snorts

Agriculture Commissioner John C. White is the new president of the Southern Association of State Departments of Agriculture.

Seventeen new industries located in Texas during May and will pump an additional \$40 million into the state's economy. They will also create 1,500 new jobs and generate \$250 in taxes.

Tyler, Devine, Fort Worth, Eagle Pass, Cameron and Mount Vernon received community achievement awards from the Beautify Texas Council.

Other council awards went to San Marcos, Smithville, the Nacogdoches Federation of Women's Clubs, Gray County and the Christian Reinhardt Society of Longview for Bicentennial programs.

United Business and Industry Inc. opened headquarters here to promote conservation and the free enterprise system before the legislature.

Hospital Admissions, Dismissals

Patients Admitted: Georgia Russell, Fred Youree, Ruth Kenner, Dora Hernandez, Ace Whitley

Patients Dismissed: Marie Owens, Gracie Lawson, Joe Brown, Anita Hinkle, Juanita Vessel, Henrietta Weimers, Tom Russell, Naida Winters, Risa Winters, Lona Dodson, Vernon

Mr. and Mrs. Grover Moore have returned home from a week's vacation in New Mexico. They were accompanied by their two children and families: Mr. and Mrs. Arlos Moore, Bart and Arletta, of Victoria and Mr. and Mrs. Don Hunter, Brett and Russell, of Brownwood.

Bart Moore has returned to his home in Victoria after spending six weeks visiting his grandparents, Mr. and Mrs. Grover Moore.

To prevent discoloration of hard-cooked egg yolks, Texas Department of Agriculture home economists recommend plunging the eggs into cold water immediately after cooking.

Hints for Homemaker

SALLY SOWELL
Assistant County Extension Agent

Don't underestimate child play.

Play helps children in different ways. It helps them learn and develop their bodies, shows them individuality, gives them ability to get along with others and teaches them interest, which in turn helps them grow into inventive adults.

Rev. C. C. Lamb Died

Rev. C. C. Lamb, 72, a retired Methodist preacher who was injured in a tractor accident on his farm June 30 in the Northside community of Wilbarger County, died last Wednesday morning in a Wichita Falls hospital. Rev. Lamb was a former pastor of the Thalia Methodist Church.

He was born June 13, 1903, in Clay County, and married the former Ruby Francis White June 29, 1924.

Surviving are his wife of Northside; two sons, Claude Lawrence Lamb of Saginaw and Don Lamb of Vernon; one daughter, Mrs. Maxine Loran of Lubbock; a brother, Jess Lamb of DeSoto; and a step-brother, Hugh Lamb of Texarkana; two sisters, Mrs. Eva Connors and Mrs. Etta Jones of Bowie, and six grandchildren.

Home sewing accounts for a \$3 billion business, reports Marlene Odle, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Producing More Rice

U.S. rice growers have increased acreage yields nearly 70 percent since 1960. Big factors behind the increase are improved weed control and higher-yielding, more disease-resistant plants.

NEW RULES FOR TRACTORS

Roll-over protective structures for farm tractors are on the way, and will introduce a new set of regulations in October, 1976.

Joe L. Smetana, Texas Safety Association vice president for farm and ranch safety, reminds Texas farmers and ranchers, however, that some safety provisions became effective June 1, 1975.

Current safety rules cover nine employee operating instructions:

1. Securely fasten your seat belt if the tractor does have a roll-over protection structure.
2. Where possible, avoid operating tractor near ditches, embankments and holes.
3. Reduce speed when turning, crossing slopes, and on rough, slick, or muddy surfaces.
4. Stay off slopes too steep for safe operations.
5. Watch where you are going; especially at row ends, on roads, and around trees.
6. Do not permit others to

CHINESE HIBISCUS FOR SUMMER BEAUTY

Chinese hibiscus can provide plenty of summer color in the home landscape and can be grown as an annual or container specimen, says a landscape horticulturist for the Texas Agricultural Extension Service. The plants have glossy green foliage with colorful flowers ranging from four to eight inches in diameter. The flowers may be single or double and are popular for decorations. Hibiscus prefer a sunny location and well-drained, fertile soil. A mulch around the plant may prevent severe winter injury.

A way to save up to \$1500 of your taxable income

It's your choice. You can go ahead and pay income tax on your earnings. Or you can create your own Individual Retirement Account (IRA), and pay little, or no current income tax on the amount you save... up to \$1500 a year under the new Pension Reform Act, if you do not participate in a pension plan where you work, you can establish your own individual retirement plan with tax deductible contributions. That could mean up to \$15,000 in deductible savings the next ten years.

This is important and valuable enough to be worth a little of your time... so Kansas City Life, The Lioness, would introduce you to one of our people who can help. Our people have an IRA Planning Kit which provides you with a way to make your plans. So just give one of our people a call or drop us a line, and we'll make sure you get a copy.

 The News**

News items below were taken from the Thursday, July 5, 1945, issue of The Foard County News:

Cpl. Douglas E. Adkins wired his parents, Mr. and Mrs. Cap Adkins of Thalia Monday morning that he had landed at Camp Patrick, Va., and they expect him to arrive at home the last of the week. Cpl. Adkins was one of the first Foard County men to become a prisoner of the Germans. After being liberated he accepted a 7-day furlough to visit London and other places of interest in England.

Cattle feeders in Foard County can now apply to the county AAA office for beef cattle production payments under the government's new program to increase the production of meat.

J. L. Klepper, 82, who lived in what is now Foard County from 1877 until 1907, died in Los Angeles, Ca., July 2.

Mrs. Nelson Oliphant has received word that her husband has recently been promoted to the rank of sergeant. He is now located in Czechoslovakia.

Housed in the beautiful new Lanier building on the west side of the square, Irving Fisch has established one of the prettiest, most attractive and complete dry goods stores to be found in any small town in West Texas.

The Rotary Club barbecue which was to have been held at the Spring Lake Country Club last Thursday evening was served under the awnings at the Crowell State Bank on account of the rain which fell late in the afternoon.

Pvt. Joe A. Minyard arrived at home last Thursday from Fort Sam Houston on a 60-day furlough to visit his parents, Mr. and Mrs. Bud Minyard. Pvt. Minyard was captured by the Germans in Belgium Jan. 5, 1945, and was detained in 11-B Stalag, about 40 miles east of Berlin, until he was liberated by the British Army April 16, 1945.

J. L. "Bit" Adams of Crowell is chief helmsman and quartermaster on the USS Allen, the oldest destroyer in the U.S. Navy. The USS Allen is a veteran of two world wars, and a 20-year lay-up in "Red lead row" between wars.

Sgt. Frank Priest has been awarded the Bronze Star Medal for meritorious service with the 448th Ordnance Heavy Automotive Maintenance Company in the Continental Advance Section. It was the first base section to cross the Rhine and had been in direct support of the American and the First French Armies since the invasion of Southern France last August.

Miss Betty Johnson, who has been employed in the office of the Panhandle & Santa Fe Railroad for some time, has received a promotion and transferred to the Santa Fe station at Shallowater.

Hunter Lanier and his three grandchildren, Bobby, Jolene and Sidney Lanier, attended the Stamford 4th of July Cowboy Reunion Wednesday.

Ray Tamplen of California and Cadet Nurse Mary Tamplen of Lubbock are visiting their parents in the Margaret community.

Harold Fish, F2C of the Merchant Marines, is visiting his parents in Paducah and relatives in the Vivian community.

CARD OF THANKS
 We wish to express our appreciation to everyone who has been so thoughtful during Mother's illness and at her passing. Your love and concern have helped us to bear the sorrow. May the Lord richly bless each of you.
 The children of
 Mrs. Jesse Rutherford

The Foard County Agent Says...

Garland Wiemers
Extension Service
Estate Planning
Thirty (30) Foard County residents attended the estate planning meeting held recently in Crowell at the Community Center. Norman Brins and Eugene McElyea, specialists with the Texas Agriculture Extension

Program, presented the program. A number of items in estate planning were covered. These include wills, gift tax, inheritance, and estate taxes, and many laws and regulations associated with estate planning. valuable information was covered on how to reduce taxes in transferring an estate.

Cabbage Loopers—Big Garden Pests
Wherever home vegetable gardens are growing, at least one insect pest can usually be found—the cabbage looper.
Although its name indicates that it feeds on cabbage, this insect is also a major pest of cauliflower, broccoli, lettuce, beans and tomatoes as well as numerous other crops.
The worms are light green in color and have thin, white stripes running the length of their bodies. The tail end of the pest is larger than the head portion.
Full-grown loopers are about one-and-a-half inches long. They move with a looping action, hence the name "loopers."
Cabbage loopers are foliage feeders and give leaves a buckshot appearance where they are active. Heavy numbers can completely strip plants of their leaves.
Several insecticides will effectively control cabbage loopers if control measures are taken when the small worms are first detected. Control of large loopers becomes more difficult.
Among recommended insecticides are Bacillus thuringiensis, carbaryl (Sevin), dibrom (Naled) and endosulfan (Thiodan). Read the label on all products and follow directions closely. Particular attention should be given to restrictions on dosages and days from last application to harvest.

Farm and Ranch Safety Week Set

County Judge Seth Halbert has proclaimed the week of July 25-31, 1975 as Farm and Ranch Safety Week in Foard County at the request of Foard County Farm Bureau. The local farm organization is coordinating activities within the county for the special farm safety campaign.
Using the combined reports of statewide and Farm Bureau member accidental deaths, Judge Halbert said "records show that at least 285 Texas farm and ranch people died during 1974 at the following rate: traffic, 97; tractors, 34; drownings, 34; firearms, 24;

fires and burns, 21; falls, 18; machinery, 15; animals, 13; electric current, 10; and miscellaneous, 19."
Foard County Farm Bureau President H. L. Ayers said, "our farmers and ranchers have become increasingly concerned with the various agricultural safety regulations issued by the Occupational Safety and Health Administration (OSHA) and the Environmental Protection Agency (EPA)." He said that the latest of the regulations call for the certification or licensing of farmers and ranchers to use restricted pesticides. Ayers says that another regulation commonly referred to as "ROPS"—Roll-Over Protective Structures for farm tractors won't apply until those come off the assembly line after Oct. 25, 1976; however, there are some provisions that became effective June 1, 1975. The current rules mainly apply to nine employee operating instructions: (1) Securely fasten your seat belt if the tractor has a ROPS. (2) Where possible, avoid operating the tractor near ditches; embankments, and holes.
(3) Reduce speed when turning, crossing slopes, and on rough, slick, or muddy surfaces.
(4) Stay off slopes too steep for safe operations.
(5) Watch where you are going; especially at row ends, on roads, and around trees.
(6) Do not permit others to ride.
(7) Hitch only to the drawbar and hitch points recommended by tractor manufacturers.
(8) Operate the tractor smoothly—no jerky turns, starts, or stops.
(9) When tractor is stopped, set brakes securely and use park lock if available.

Another Record Pike

AUSTIN—Greenbelt Lake near Clarendon is fast getting a reputation as the place to go for trophy northern pike.
It was only in May that a 17-pound five-ounce pike was taken from the lake to set a new Texas State Fish Record.
But on June 11, Buster Dorough of Kress, Texas, landed a 18-pound two-ounce northern pike to break the month-old mark.
Dorough's fish measured 41 1/4 inches in length and 17 inches in girth and was taken by trolling an artificial lure on 20-pound-test line.

Veterinarians Vie For Schools

It's hard enough to get into medical schools these days, but students seeking admission to veterinary colleges have an even harder row to hoe.
Latest statistics show that 1 in every 2.7 students applying are now accepted by the nation's medical schools. Veterinary colleges, on the other hand, have room for only 1 in every 7.4 applicants.
The crunch is so bad at Kansas State University, says one official, that some of the state's students have sought admission to a veterinary college which KSU helped organize recently in Nigeria.
Average enrollment in the nation's 19 veterinary colleges is now about 325. And concern is being expressed over the fact that only about 1,300 new veterinarians are being added annually to the 28,300 now practicing in the United States.
Agriculturists point out that the nation's food losses due to animal diseases amount to \$2.7 billion annually. Sufficient veterinary manpower could significantly reduce this figure, they say.

Texas citrus products are nationally and internationally known, says Agriculture Commissioner John C. White. The Texas Ruby Red grapefruit is particularly well recognized by people around the world for its sweet juicy flavor and pink color.

REDUCE ATTIC TEMPERATURES

High attic temperatures may be increasing the work-load of your home air conditioning unit by as much as 10 per cent, says an agricultural engineer with the extension service. Adding five extra inches of insulation in the attic can help overcome this problem.
Also, attic temperatures can be reduced by providing proper ventilation. The most effective vent system is one that combines a continuous ridge vent with a continuous soffit vent. As far as the effects of either action on winter heating, the extra insulation offers the most benefit.

Texas Talk

by Bud McLain

Officials are predicting a decrease of no more than 20 per cent in domestic purchase of feed grains during the current marketing year. Others are saying that an improved livestock market will cut the decrease to even less. USDA projections are for the production of about 220 million short tons of feed grains with about 165 million tons sold in the United States and another 42 million tons exported to foreign countries. According to the figures released by the Department of Agriculture, total carryover of feed grains by the end of the marketing year should not exceed 30 million tons. Although that's a lot of grain, records show it to be only about 60 percent as much as the carryover at the end of 1971. Officials citing these figures are predicting relatively stable prices for grain sorghum. Major factors which could produce a change in the situation include the extent of recovery of the cattle market and, as always, the most variable of all, the weather.

Hog Cholera Found in Texas Panhandle

An outbreak of hog cholera—the first in the United States in more than a year—has been confirmed in the Texas panhandle, the U.S. Department of Agriculture (USDA) reported July 4.
USDA Animal Health officials warned hog farmers throughout the nation—but particularly in the southwest—to remain alert for signs of this costly and often fatal virus disease, which has the potential for rapid spread. Hog cholera is a disease of swine only; it does not affect other animals or humans.
Hog cholera has been the object of a highly successful state-federal eradication campaign that began in late 1962. The last previous cases of the disease were reported in Puerto Rico on May 4, 1974, and in Mississippi on February 7, 1974. Prior to the start of the eradication program, the disease affected an estimated 5,000 to 6,000 swine herd annually and cost hog producers around \$50 million a year.
The current outbreak was found in a herd of about 170 hogs owned by Louis Woodford and located near Hereford, Tex., in Deaf Smith county, according to officials of USDA's Animal and Plant Health Inspection Service (APHIS).

The veteran population includes 13.59 million veterans of World War II, 7.5 million of the Vietnam era, 5.9 million of the Korean Conflict, 999,000 from World War I and 900 of the Spanish-American War.

4-Hers Make Trip to Palo Duro Park

Fifteen 4-H members, six adult leaders, and the agent traveled to Palo Duro State Scenic Park for a summer 4-H trip on Thursday, July 10. After setting up their campsite the group toured the canyon and participated in the recreational activities of the park. Thursday evening the group viewed the musical drama, "Texas," at the pioneer amphitheatre. This musical drama reaches back into the past to reveal the pioneer spirit of the early settlers in the Texas Panhandle. On Friday the group toured the Panhandle Plains Historical Museum in Canyon. The museum features archaeological, ecological, and geological displays, Old West exhibits, and southwestern art collections.
The 4-H members participating were Sandra Bachman, William Bachman, Jill Bell, Audrey Dunham, Gail Fish, Jana Glover, Janet Hord, Jo Anna Hord, John Klepper, Vicki Paris, Jan Reeder, Sulema Santos, Rhonda Westbrook, April Werley, and Paul Whitley. The adult leaders that participated were Mr. and Mrs. Otto Bachman, Jr., Mr. and Mrs. Jeff Bell, Mr. and Mrs. Larry Hord, and Sally Sowell, county extension agent.

Ton of Catfish Nets Fine

Texarkana—Most anglers call it a good day if they bring home a few pounds of channel catfish.
But during the spring, two Texarkana men could not be satisfied with less than one ton of the tasty fish.
And for their efforts, Texas Parks and Wildlife Department game wardens Lynn Clanton and Lawton Peacock brought them to justice where they paid \$4,110 in fines for illegally trapping and netting fish.
According to P&W Law Enforcement Director Henry Burkett, this is one of the largest fines recently paid for such illegal activity.

Clanton and Peacock had been informed that illegal netting was going on in the area of Redwater in far Northeast Texas. During one of Clanton's stakeouts he heard equipment being loaded into a pickup.
After a short chase, the warden pulled over the truck and its occupants. Beneath a tarp he found that the entire pickup bed was filled with three-pound catfish. Clanton radioed to Peacock for assistance.
The still-live fish were returned to the water and the fishermen taken before a local justice of the peace.

Crop-Bearing House Plants?

Green-thumb apartment dwellers may soon be able to eat their ornamental plants and enjoy them.
A new cherry-type tomato that can be hung like a vine from a flower basket has been developed by horticulturists at South Dakota's Agricultural Experiment station after eight years' research.
Plant developers say the new variety can provide apartment dwellers with fresh tomatoes almost every month of the year.
While the new plant is not yet on the market, it is expected to be tested in homes this year.
So far, it has only been grown in greenhouses although horticulturists say it is not a true greenhouse variety, it doesn't need stimulation or vibration to pollinate.
It also has a shallow root system which makes it suitable for pot-growing. And sunlight from a nearby window will be enough to keep the plant healthy.

FOR SALE—A Ford Kresau disc plow and tandem. Good and general purpose. McLain Farm Equip. 49-tfc

FOR SALE—Good replacement discs tandem or offset way.—McLain Farm Equip. 49-tfc

FOR SALE—See Vee type subsoilers spacing. Pulls easy depth it plows. Hold rain where it falls.—Farm Equip. 49-tfc
