## Bicentennial Ceremonies Friday, August 22, 1975

Tahoka will receive its flag and certificates of endorsement as an official Bicentennial Community in ceremonies at 10:00 a.m. August 22, at the Tahoka High School Football stadium.

The presentations will be made by Anne Simmons, a commissioner with the American Revolution Bicentennial Commission of Texas. Receiving the flag and state and national certificates will be Mayor Melton Leslie.

The Tahoka High School Band will play for the occasion and Girl Scout Troop no. 396 will present the colors. A special presentation will be made to the school. The winner of the Tahoka Bicentennial Emblem contest sponsored by the Lynn County Art Association will also be announced.

Every one of the more than 300 Texas Bicentennial Communities had to meet several rigid guidelines to receive the endorsements. Goals are divided into three thematic areas including: Heritage '76, Festival U.S.A. and Horizons '76. The Horizons project is permanent in nature so that Tahoka will have some lasting value left at the end of 1976. Tahoka's goal for Horizons '76 is the mini-park. Heritage projects are tied into American, Texas and Tahoka history and Festival projects are the

celebrations of our country's anniversary.

Only those communities that pledge to observe and celebrate the Bicentennial are eligible to fly the flag.

Tahoka is one of 300 Texas communities and 5,000 in the U. S. to be eligible.

The public is invited to attend this special ceremony.

## Lion's International Youth Exchange

A "get-together" for 20 Japanese and 2 Canadian youth was held in Tahoka Saturday beginning with registration at 3:00 p.m. The registration totaled 77 from area towns including Tahoka, Knox City, Lamesa, Anton, Sundown, Olton, Lubbock, Littlefield, and Brownfield.

Following registration the group enjoyed a refreshing swim in the Tahoka pool from 4:00 to 6:00. A spaghetti supper was served at 7:00 at the fellowship hall of the First United Methodist Church in Tahoka. Four teams of softball players then formed at the Tahoka Softball Park and played from 8:30 to 10:30 p.m. Lions District 2-T2 Governor James R. Johnson and his

wife Charla from Lubbock attended. From Tahoka, the following were on hand for the affair: Belinda Williams (Tahoka Lions Club Sweetheart), Roddy Williams, Scott Morrow, Norma Redwine, Christi Redwine, Gale Hartman (Lions Zone Chairman), Kerran Hartman, David Hartman, Darin Hartman, D'Layna Hartman, Mike Bragg, Ed Redwine, (President, Tahoka Lions Club) Donna Redwine, Randy Redwine, Wendall Patterson (District 2-T2 Youth Exchange Chairman), Joyce Patterson, and Kent Patterson. The three Japanese young people being hosted for 6 weeks in Tahoka attending the meeting were Yoko Kawai, Junko Wakano, and Keiko Oi.

## Band Boosters Met Monday

The Tahoka School Band Boosters met Thursday and elected officers and met the new band director, James Maclasky.

Mr. and Mrs. C. E. Boles were elected president and vice-president. Mary Beth McKibben and Mrs. Carol Lawson were elected secretary and treasurer.

## Sharon McNeely Capped Monday

Sharon E. McNeely, daughter of Mr. and Mrs. Argyle McNeely was one of 73 Nursing students capped from Level I to Level II, Monday night, August 18, at 7:30 p.m.

The capping took place at the Psychiatric Pavilion, Northwest Texas Hospital School of Nursing in Amarillo.

Attending from Tahoka were Mr. and Mrs. Argyle McNeely and Amber and Mrs. Ann Hill and Jimmy Hill.

## H. C. Hodges' Completes School

The Conklin Company, Inc. of Minneapolis, Minnesota, proudly announces that Mr. and Mrs. H. C. Hodges of Rt. 4, Tahoka, Texas have just completed the Conklin Leadership Preparation School here in Minneapolis at the Sheraton Ritz Hotel. They have been appointed Distributors in the Conklin organization.

## Kent Payne In Illinois

James Kent Payne of the Texas Alpha Chapter of Sigma Alpha Epsilon and a sophomore at Texas Tech University, is taking an active part in the fraternity's 41st National Leadership School at the Levere Memorial Temple in Evanston, Illinois.

He is the son of Mr. and Mrs. Wilton J. Payne of Tahoka. Kent is an honor pledge who is being initiated during ceremonies at Leadership School. He is majoring in accounting and in on the Deans Honor Roll.

Some 400 undergraduates from every section of the U. S. are attending the 1975 school. Faculty members, also drawn from all parts of the country, provide a broad background of experience and know-how. Under the direction of Thomas R. Kessler, Director of Leadership Training, the SAE Leadership School offers a four-day session of intensive training in all phases of sound chapter operation.

## Soil Erosion Rotary Subject

Eual Davis, conservationist with the Lynn County Soil and Water Conservation District, brought the program at last Thursday's Rotary Club meeting, emphasizing the importance of the work in the economy of this area.

He said SCS has helped in building of 10 million linear feet of parallel terraces in Lynn County to hold the rain water on farm land where it falls.

He also placed emphasis on importance of the Great Plains Program, which includes Northwest Texas counties.

A soil erosion service was authorized by Congress back in 1933, changed to SCS in 1935, and county districts authorized in 1939. Texas Legislature approved the district plan in 1942, and Lynn County Soil Conservation District was established with five farmer directors. Today, there are 194 such districts in Texas.

The soil survey of this and other counties has been a big help to SCS and farmers in evaluating lands. If and when land use legislation is enacted, he said, these soil surveys will be the basis for land use planning and establishment of a tax base according to productive ability of the land.

Copies of the soil survey are available to anyone interested at the local SCS office.

Monte Dodson introduced the speaker. Prior to the program, Mrs. Leah Short Taylor, new teacher here of Junior and Senior High School English, asked business men to help the school annual staff by placing advertising in the yearbook.

## Four Accidents In Lynn County

The Texas Highway Patrol investigated four accidents on rural highways in Lynn County during the month of July, 1975, according to Sergeant H. E. Pirtle, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and two persons injured.

The rural traffic accident summary for this county during the first seven months of 1975, shows a total of 32 accidents resulting in no persons killed and 17 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for July, 1975, shows a total of 568 accidents resulting in 22 persons killed and 398 persons injured as compared to July, 1974, with 485 accidents resulting in 18 persons killed and 280 persons injured. This was 83 more accidents, four more killed, and 118 more injured in 1975 at the same period of time.

The 22 traffic deaths for the month of July, 1975, occurred in the following counties: two each in Clay, Haskell, Randall, Jack, and Sherman; and one each in Floyd, Garza, Hale, Hockley, Lubbock, Montague, Carson, Collingsworth, Moore, Parmer and Wheeler.

## Nurses Clinic Thursday At CA

A nurses Clinic on family planning will be held thurs. Aug. 28 from 11 a.m. to 3 p.m. at the Lynn County Community Action. Patients may receive pap test and any birth control method and doctors and RN's will be present for examinations. Everyone is invited to attend.

# NEW HOME NEWS

FLORENCE DAVIES

Happy to report that Matt McAnelly of Texas has made a recovery from splenitis. The 3 month old Lynda and Phil and grandson of Mrs. Loyd Nunnallicker by the dread July 11th, and was ill for two weeks in Santa Rosa Hospital in San Mrs. Nunnally went to be with her fasted three weeks. She came down on Sunday and her car when

Matt was able to travel they all came here. Phil had to return home last week to get ready for school where he is agriculture teacher. Loyd and Thelma drove Lynda, Matt, and 4 1/2 year old Lance to meet Phil in San Angelo Sunday.

Congratulations to Mr. and Mrs. Ricky Zant of Paris Texas on the birth of a daughter, Amy Bess who was born at 5 p.m. Wed. Aug. 13th. She weighed 6 lbs. Grand parents are, Mr. and Mrs. L.C. Denton and Mr. and Mrs. Dudley Zant all

of Paris.

Mr. and Mrs. Thurl Swinson were in Paris, Tex. last week where they visited the Dudley Zants, Lynn Dentons, and Lynda and Ricky Zant.

They enjoyed a fish fry at Lynda and Rickys home Sat. night. The Dentons sent greetings to all their friends here.

Brenda Parker is home with her parents, Mr. and Mrs. Bob Parker. She will reenter South Plains Jr. College in Levelland for the fall semester.

School officials, coaches and their families in Ft. Worth for the coaches school were; Supt. and Mrs. Russell Howle and Kim, Melvin and Susie Reynolds, Mr. and Mrs. Mike Wallace and Christie and Lynn Johnson. The men attended the coaches school in the Amon Carter down town coliseum. They all attended the North South football and basketball games in the Amon Carter Stadium. The Wallace's visited his parents, Mr. and Mrs. H. E. Wallace in Dallas.

Mr. and Mrs. Willie Nieman spent the weekend in Dallas. Rod returned home with them to attend the New Home school.

Mrs. C. G. Kieth entered the Osteopathic Hospital in Lubbock Mon. and will have foot surgery Tues.

While working on his house last week, Oscar Romans slipped and fell from a ladder, and cut a gash in his head, which required 12 stitches to close. He also received a cracked bone in his left wrist. Oscar is New Home School Custodian. The Romans have new white siding and a new roof on their home.

Mrs. Dale Zant's mother, Mrs. Hattie Gill of Velmore, is in Methodist hospital for test and possible surgery.

Lance Kieth returned home Friday after spending some time with his aunt, Mrs. Howard Madison and family in Carlsbad New Mex.

They made a trip to Iowa to visit Mr. Madisons family, and spent a week at Vermillion Bay, Canada, sight-seeing and fishing.

Jimmie Taylor has been visiting his father, Rev. Robert Taylor, who has enrolled in Texas Tech for the fall semester. He will be majoring in architect. Mark will be a junior in a San Antonio School.

A group from New Home vacationed at Lake L. B. J. Aug. 11th - 15th. They were Mr. and Mrs. Sam Pridmore Sammie and Paige; Mr. and Mrs. Kenneth Smith, Kendall, Michele and Kim of Lubbock; Mr. and Mrs. Gayland James, Kyle and Coby; Wayland Lee James of Lubbock and Mr. and Mrs. Freddie Kleth, Lana and LeShea.

Mr. and Mrs. Jerry Garner and Jaci returned to their home in Tulsa, Okla. Wed. Mrs. Lupe Garcia and children, 12 year old Joe, Beatrice, age 10 and James age 6 are new residents here coming from Brawley, Calif.

Joyce Davies and Delores Price of Lubbock were out Monday getting their class rooms ready. Delores will teach 5th grade and Joyce 3rd.

We welcome to our community Mr. and Mrs. Grover Parsons and children, Julie 14, Jack 13, Judie 7, and Jennie 4. Coming from Lubbock, Grover will be teaching math in the New Home School and Kay will continue working in Lubbock as an insurance rater with Insurance Associates.

Mrs. Leon (Mary Emily) Blackmon, will enter St. Marys Hospital Tues., and have major surgery Wed.

5 year old Clay Forbes, son of Mr. and Mrs. Ronnie Forbes is reported in Methodist Hospital following eye surgery Tues., Aug. 12. He is in room 524. He will be a kindergarten pupil in the New Home School.

Monroe Parker was taken to Methodist Hospital in Lubbock Thur. after he became ill at the New Home Coop gin where he is employed.

Mr. and Mrs. A. C. Fillingim Jr. visited in San Angelo Thurs. with Jimmie, Virginia and Jerry.

Mr. and Mrs. Larry Durham of Lubbock spent the weekend here with her parents and Bro. John, Mary Bess and John D. Edwards. Visiting with the families Sat. were; Mr. and Mrs. Don Layman and boys of Denver City, and Sunday visitors were, Mr. and Mrs. Decon Jones of Rosevelt.

Sunday dinner guest in the Gene Eades home were; Mr. and Mrs. C. G. Eades, Mr. and Mrs. John Edwards and John Dudley, Mr. and Mrs. James Tull and children of Wichita Falls. Mr. and Mrs. Larry Durham of Lubbock. James was in service with Gene and other boys from here and lived with the Eades for while in 1955.

Mrs. Bob Blacker was able to return home from Methodist Hospital Sat. The children have been with their grandparents, Mr. and Mrs. A. C. Fillingim Sr. Mrs. Nan Wilson of Big Springs A. C. Fillingim Sr.

Mrs. Nan Wilson of Big Springs remains in poor condition in room 471 Methodist Hospital.

Mrs. Effie Lee Hemeline is doing very well in the

Jewels hospitality house in Lubbock.

Mr. and Mrs. Harley McCasland and children, Lisa age 11, John age 9 and 4 month old Matthew who recently moved here from Shallowater, visited 10 days in Plainview with his mother Mrs. George A. McCasland, and with her parents, Mr. and Mrs. Woody Allen.

Mr. and Mrs. R. A. McBrayer of Mesquite and Mr. and Mrs. Paul Ogle of Ormond Beach, Florida came Monday to visit the Don McBrayer's. Mr. McBrayer is Dons father and Norma is his aunt. They left for home Wednesday morning. This was their first trip to the South Plains and were deeply impressed.

Mr. and Mrs. Brodie Caudie and children of Eden were here Wed. and Thur. with his grandmother Mr. John Armstrong, who is convalescing in the home of Joe and Faye. Brodie is a state game warden in Concho and surrounding counties.

Inez and Tracy Smith spent a month in California with Roy, Eunice and Gary. Roy is stationed at the naval base near Monterey. While in California the five made trips to Los Angeles, visiting Disney Land, Knox Berry Farm, The Wax Museum and many other points of interest. They also spent some time in San Francisco. One of the most interesting trips was a tour of the Alcatraz Island. Since returning from California, Inez and Tracy visited relatives in Snyder and with Virginia, Jimmie and Jerry in San Angelo. Virginia and Jimmie are attending Angelo State University.

Mr. and Mrs. Donnie Morris recently visited his brother, Gene Morris and family in Duncan, Arizona.

Mr. and Mrs. Glen Cobb of Lake Stamford, and his sister from Victoria, Texas spent Wed. night here with Mr. and Mrs. C. G. Eades.

Mr. and Mrs. Gene Eades Andrea and Allen went to Oklahoma City Thur. Aug. 7th for a CB Radio convention. They also visited in Ft. Worth with her sister Landa Branan and went to Six Flags. Gene also visited with Derrell Fletcher in Dallas. They returned home Tuesday.

Mr. and Mrs. Otis Mayfield of Kingsland will be honored at a 50th wedding anniversary reception in the Methodist Encampment in Ceta Canyon, Sunday August 24th. Their son and daughter in-law, Harold and Nancy Mayfield of Amarillo will host the affair. A catered lunch will be served at noon. All friends of the couple are invited.

Randy Unfred, son of Mr. and Mrs. L. C. Unfred is home visiting with relatives and friends. Randy is Area Administrator for Reading and Bates Exploration Company, and has been overseas for the past year. He spent several months in London, a short time in Congo, Africa as well as other European Countries, and is now based on the Mediterranean Island of Malta. He will return to Malta next week.

Why suffer the agony of ingrown toenail pain when Outgro can give you fast, temporary relief? Outgro toughens irritated skin, eases inflammation, reduces swelling without affecting the shape, growth or position of the nail. Outgro gives you fast pain relief, and makes it easier to cut out the nail - cut out the pain caused by ingrown toenail. Stop ingrown nail pain fast with Outgro.

MRS. MITCHELL THURMAN

...nee Annie Mae Brink

# Brink-Thurman Married August 16

Miss Annie Mae Brink and Leslie Mitchell Thurman were united in marriage at 7:00 p.m. Saturday, August 16, 1975 in the home of the bride's parents.

The double ring ceremony was performed by Rev. J.D. Walker, associate Minister of First Baptist Church of Lubbock.

Soloist was Charlie Brink, brother of the bride. Parents of the couple are Mr. and Mrs. Charlie A. Brink, 2404-65th St. Lubbock and Mr. and Mrs. Argyle A. McNeely of Rt. 5, Tahoka.

Miss Barbara Brink, sister of the bride, was maid of honor, and Mrs. Gordon Bales was matron of honor.

Mr. Jim Hill, uncle of the groom was best man and Steve Kieth was groomsman.

Miss Amber McNeely, sister of the groom registered the guests. A reception followed in the home. The bride's table was laid with a white lace

tablecloth over yellow. The 3 tiered cake was white trimmed with yellow, the brides chosen colors. Sharon McNeely, sister of the groom and Tonya Robinson presided over the reception.

The couple honeymooned in Ruidosa and Juarez. They will be at home at 1940-73rd. St. in Lubbock.

The groom and bride both are employed by Furr's Super Markets.

Ever hear this one . . . "Aw, it's just a bullhead . . . throw it back" . . . This rough fish, the famous mud cat, can be fun to catch, and even a gourmet can't tell the difference between a channel cat or mud cat, when it's prepared right, and caught from the right waters. Bullheads from muddy water have a poor taste, but a mud cat taken from flowing streams or clear lakes are tasty. Bullheads can be caught on about anything . . . liver, blood bait, worms, minnows, dough bait, or even another bullhead that has been cut up in smaller pieces. One look at the bullhead and you know where he got his name. His head is large, and his mouth twice the size of a comparable channel cat. Watch those spines in the dorsal and pectoral fins. They can dish out a painful puncture.

Compliments of J. C. ROBERTS PKG. STORE FM 1585 & U.S. 87 Lubbock, Texas

# AROUND TOWN

BY LEONA WALDRIP  
Call 998-4496

Mrs. Estelle McCord and Mrs. Claude Thomas recently made a trip to Hillsboro to pick up a new car for McCord Motor Co. They spent the night in Graham with a sister, Mrs. Tom Matt before making the return trip.

Mrs. Nannie Norwood returned last Tuesday after a week stay with relatives in Seymour, on the Sunday before she attended the annual Norwood Reunion held in Seymour Park. On the return trip she was accompanied by Leta Hill and her 2 daughters and Stella Parramore all of Dallas, who visited here with Mrs. Norwood before going on to New Mexico for a weeks visit with Mrs. Hill's son, Tues. of this week they stopped by

for a few minutes on the return trip.

Visiting this past weekend in the Thelma Dewbre home were Professor and Mrs. Kenneth McCord (Joyce) of Commerce, Texas. Prof. McCord is head of the accounting Dept. at East Texas State University. Mrs. McCord has been a librarian at A and M College for the past year and the couple only recently got settled in their new home at Commerce. They were married in March.

Mrs. Mary Cunningham, who is a live-in companion to Mrs. J. W. Jordan, spent a few days at Anson last week where she has a home, with her daughter Mrs. Emma Little. Mr. and Mrs. Harvey Jordan of Sagerton came

over and stayed with his mother the days Mary was away.

Visiting here for several days last week with Mrs. Claude Thomas, were Mr. and Mrs. Herbert Martin and Mr. and Mrs. Earl Sisco and Ginger all of Denver City. Ginger is a student at San Marcos College.

Leaving here on Friday Aug. 8th I spent the night with my sister Leta Brown in Lubbock, where we were joined by her daughter Betty Tow of Amarillo and son Scott. Saturday a.m. we drove to Ruff Okla. for a visit with our Aunt Ruth Koch. That night Betty gave a slide presentation of her trip to France last Nov. with the World Evangelism Foundation, in the Ruff First United Methodist Church. The arrangements for this had been made with the pastor there on a previous trip and as Betty is a teacher in Amarillo High School the date had to be set at a time when school was not in session. She was one of 40 members of Paramount Baptist Church in the Mission trip. The pastor at Ruff had publicised

the event in the local paper and put out hand-bills and other churches were invited. Altho she has given the presentation in several other places this was the furthest she had traveled to present it. On Sunday a.m. we attended church services at the Methodist Church, then on Sunday night visited at the Ruff Baptist Church. It's a small world! The Baptist pastor was formerly pastor at Second Baptist Church in Amarillo where Charley Jones is now pastor. Charley is a former Tahoka boy and son of Mr. and Mrs. H. P. Jones. We made the return trip home on Tues.

Dist. Deputy Pres. Pauline Taylor of Brownfield will make her official visit to Tahoka Rebekah Lodge on Tues. night Aug. 26. All members are urged to be present and bring a salad. Be sure to wear formalis. Meeting time is 8:00 p.m.

## Garden Club Family Party

The Tahoka Garden Club will entertain their families with a garden party at the home of Mr. and Mrs. H. R. Tankersley Thursday Aug. 28 at 8:00 p.m.

After a good picnic style supper our speaker will be Mrs. Jim Wells.

## Wesley Boone Completes Class

James Wesley Boone of 1629 North 7th, Tahoka was one of 15 participants who just completed the Basic Electricity DC - AC Class taught at Muleshoe by the Telephone Technician Training School of the Texas Engineering Extension Service, part of the Texas AandM University System.

This course emphasized the fundamentals of electricity, including the study of the atom and electromagnetism. Components used in DC circuits, such as resistor relays, forms of magnets and electromagnets also were included, with a special section devoted to meters and their use. Actual telephone application examples were used throughout the course.

## Warren-Franklin Married August 16

Believing it to be in God's Will, Nora Suzanne Warren and Bruce Lynn Franklin celebrated their covenant of marriage at 8:00 Sat. evening, Aug. 16th, in the First Baptist Church.

Doctor Royce Calhoun, Associate pastor of First Baptist Church of San Antonio, officiated the double ring, candlelight ceremony.

The bride is the daughter of Mr. and Mrs. Robert L. Warren. Mr. and Mrs. Harold Gene Franklin are the parents of the bridegroom.

Attending the couple were Mrs. John Huffaker of Amarillo, sister of the bride, as Matron of Honor; Mrs. Jill Warren, sister-in-law of the bride and Miss Becky Franklin, sister of the groom, as bridesmaids.

Mr. Charlie McAuley, of Lubbock, served as Best Man and Mr. Jerry Dee Franklin, uncle of the groom, and Mr. Johnny Brandon were groomsmen.

Miss Kim Andrews and Mr. Kyle Andrews of Lorenzo, lighted the night branch candelabrum.

Miss Rochell Reid and Miss Sandy Renfro, young friends of the bride, were flowergirls and Mr. Kris Andrews of Lorenzo was the ring bearer.

Three vocal selections, "Wedding Song", "Sunrise Sunset", and "Whether Thou Goest, I Will Go" were rendered by Mrs. Royce Calhoun of San Antonio, accompanied by Mrs. Clay Bennett at the organ.

Wedding guest were registered at the church and reception by Miss Becky Cardwell of Lubbock then seated by ushers, Martin Warren and Weldon Warren, brothers of the bride, Greg Skinner of Dallas and Brad Vaughn of Lamesa.

Centering the bride's altar was a candle tree holding white pillar candles and mixed greens. Flanking the candle tree were two arched candelabrum; on either side were two arrangements of ferns flanked by two night branch candelabrum.

Centering the bride's aisle was a large flemish arrangement of white villa donna, koolon daisies, agapanthus and gypsophylla. Marking the bride's aisle were hurricane candles, white pew bows entwined with greenery.

The register table was graced with the bride's book covered with ivory bridal lace by the mother of the bride, and an arrangement of rice rose buds, made at the bridal luncheon, mixed with soyna roses, gypsophylla and leather-leaf fern.

The bride wore a colonial designed Wedding Gown of the Dolly Madison era, of ivory silk organzia with battenberg and pure lace accents. The high rise bodice feathered a Sabrina neckline edged in double ruffles enriched in battenberg lace. Short puffed sleeves accented the moulded bodice and was cuffed in double ruffles edged in the battenberg lace. The waist was encircled in pink and ivory satin-grogaine ribbon with a soft silk rose at the cen-

ter. From the moulded bodice fell the full bell shaped skirt with cascades caught in ribbon bows at the front. The gathered bell skirt swept to a Chaper train and was encircled in battenberg lace. The bride wore a Dolly Madison Bonnet of matching fabric with enrichments of the battenberg lace edging. A deep ruffle formed the back of the bonnet. Pink and Ivory ribbon-matching the trim of the dress-formed accents across the frame of the bonnet and was tied to one side.

The bride's attendants wore colonial garden gowns of ivory voile over peach super siri. The gowns feathered a scoop neckline accented with a deep ruffle of cluney lace of ivory. The baby-doll puff sleeves peeked from beneath the ruffle of the neckline. The gowns had moulded bodices encircled in narrow cluney lace at the waistline. From the crescent waist fell the gathered bell shaped skirts. A lovely deep ruffle encircled the hemline and was enriched with accents of cluney lace trim. They wore matching bonnets of the Dolly Madison era with edging of cluney lace and ribbon ties with nose gays of soyna roses and gypsophylla at on side. The bridesmaids carried chamber candles with rings of gypsophylla and soyna roses, with streamers entwined with the same flowers.

The groom was dressed in a formal coat of ivory brocade and brown trousers. The groomsmen wore Brown tuxedos with peach colored shirts. The groom's boutonniere was lily of the valley and stephanolis.

For the reception, at the bride's home, the bride's table featured a flemish arrangement of white delphinium, apricot daisies, miniature carnations and snapdragons. Another rice rose bud arrangement similar to the one on the register table was used in the home along with Spic and Span gladiola arrangement in a firsde basket. The bride threw her bouquet, which was made from a lace fan brought to her from Paris especially for this occasion, covered with cymbidium orchids, stephanotis, gypsophylla and lily of the valley, from the stair case lined with fern.

The grooms table arrangement was made from an old fashioned bread basket featuring a variety of breads mixed with bronze pom pom muns and apricot carnations.

Carrying out the bride's chosen colors, the mother's corsages were made of soyna roses and gypsophylla. The houseparty wore corsages made of apricot french-carnations and gypsophylla.

The bride's cake was decorated with confectionery azaleas, stephanotis blossoms and roses in shades of apricot, peach and green leaves on a off-white background. The groom's cake was a coffee angle food with whipped cream icing. Both the bride and groom's table were completed with silver appointments for coffee and white grapes and olive cheese balls.

Assisting at the tables were Mrs. Doug Taylor, Mrs. Jerry Dee Franklin, Mrs. Stanley Renfro, Miss Debbie White of Lubbock, and Mrs. Alan Ralley of Lubbock who also helped direct the wedding.

After a honeymoon in various parts of Colorado, the couple will be at home near Tahoka where Mr. Franklin is engaged in farming.

George F. Shumaker, 92, pioneer Lynn County boy and Seagraves landowner, died recently in Yucalpa, Calif., of a brief illness.

Funeral services were held Saturday at 1 p.m. in Seagraves landowner, minister, officiating. Burial followed in O'Donnell Cemetery.

Born near Waxahatchee, Feb. 17, 1883, he came to Odessa with his parents in 1891, later moved to Spring, where his father, Jerry Shumaker, was a bootmaker in that city.

As a youth of 14, he spent the rest of his life as a cowboy on large ranches, and worked on his own ranch as a cowboy just a few months ago.

In the early days, he worked for the Slaughter, S. Jess Evans T.J.F. and sent O'Donnell, the Denton, T-Bar, and the D.A., one of New Mexico's best spreaders.

While working near Odessa, he married a teacher, Carrie daughter of the late Mrs. J. B. Miles, who settled east of Odessa. Mrs. Shumaker died in 1958. The couple had seven children.

His wife was a daughter of Mrs. "Bud" Milliken, Gladys Stokes, Mrs. Eakin, Miss Attie Baggett, all of Tahoka, a number of relatives in the O'Donnell area.

Survivors include sons, George Jr., graves, Frank of the Calif., and Wilbur of mesa, Calif.; one daughter, Mrs. Veda White of Arizona; one sister, Mamie Taylor; 13 grandchildren, 44 great-grandchildren and four great-great-grandchildren.

# HOW'S THE ELECTRIC COMPANY DOING?

Let's ask Jim Atchison, one of our town managers

"These compression connectors, such as I'm using in reconnecting this service loop, and of which we have to use many, jumped in cost 57% since 1965. Another size increased 61%. Everything costs us more these days so these higher costs are reflected in what you pay for electricity. Yet, if we are all to have dependable electric service, it's a price we have to pay."

The Future IS Electric!

# Sherry Etheredge Says . . .

The day comes to nearly every dress when, with all its hem out, it is still not long enough. If it nevertheless has a lot going for it, it is time to pull some new tricks.

Bands made of rib knit with lots of stretch and strong recovery are sold by the yard. Used at midrifts, it makes a too-short dress long enough and new looking as well. It's a good idea to repeat the ribbing elsewhere, perhaps finishing the sleeve ends, or on a round neck.

**RUFFLING**  
When there's no more hem to be had, ruffling can save

a dress in a most delightful way. Use a purchased lace or novelty ruffling or cut your own in a matching or contrasting color in a fabric no heavier than the dress. If you use it in a hem, put it somewhere else too - at the neck, sleeve or armhole edges. If it is a wrap dress, you can sew a continuous ruffle to trim neck front and lower edges.

**BORDERS**  
There's always the possibility of adding a border of

contrasting fabric. Sometimes it's better to add two different materials. You can almost simulate a border fabric this way. It's still a good idea to use the contrast fabric somewhere else as well, maybe as a belt, a binding or covered buttons. Or make a really bold move, like taking out the old sleeves in the contrast fabric. Wide belting ribbon is a good choice for this detail.

### HEM MARKS

Suppose you've let out the hem and the length is OK, but you can't press out the old hem mark. Cover it with rickrack, eyelet, lace or braid and use the same trim somewhere else in the dress to pull it all together. The best way is to use a double row of stitching that looks like a detail; you can use buttonhole twist for a more definite line.

### DECORATIVE ELASTIC BANDING ON GATHERED SKIRTS

There's always the gathered skirt on a waistband that has become too tight. Take off the offending waistband and replace it with a piece of the new, wide decorative elastic which is available in many colorful patterns.

### ZUCCHINI BREAD

Beat 3 eggs  
Add 2 cups sugar slowly  
Add 1 cup oil  
3 tsp. vanilla  
Beat well.  
Add 2 cups grated Zucchini (peel and cut in large chunks to grate, discard seed part.)

### SIFT TOGETHER:

3 cups flour  
2 tsp. cinnamon  
1 tsp. soda  
1 tsp. salt

### Mix with liquid:

1 c. chopped nuts

Pour into greased loaf pan  
Bake at 350 degrees at 45 min. or until tooth pick inserted in center comes out dry. (makes 2 or 3 small loaves.)

## COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Contracts have been let and aerial insecticide applicators are expected to take the air about August 25 in the twelfth year of the High Plains Boll Weevil Control Program. Mass spraying of weevil infested cotton along the eastern edge of the High Plains to protect the vast cotton fields to the west has been carried out annually since 1964. The program, initiated and coordinated by Lubbock-based Plains Cotton Growers, Inc., has been widely cited as one of the most successful of all large-scale insect control efforts.

Entomologists at Texas A&M calculate that the program has saved control costs, yield and quality losses over the 11-year span amounting to at least \$400 million. Cost of the program for the 11 years has been less than \$12 million, giving a benefit-cost ratio of well over 300 to 1.

Infested acreage is sprayed from one to seven times each year, as determined necessary by extensive insect surveys, with ultra low volume Malathion. The base "control zone" in 1975 is expected to encompass some 250,000 acres, with the aggregate acreage requiring treatment projected at 680,000.

Cost of the program is borne jointly by the High Plains cotton producers who benefit from it, the U.S. and Texas Departments of Agriculture. USDA matches dollar for dollar the contributions of producers and the TDA. Producer contributions, collected on a voluntary, per bale basis as a part of compress receiving charges, have ranged from 50 cents per bale in 1964 down to the 25 cents per bale set for 1975.

Total cost of the program in 1975 should come to about \$1.65 per acre treated, according to PCG Field Service Director Ed Dean. "meaning we'll probably spend between \$1.2 and \$1.3 million this year, about half of which will come from producer funds and half from Federal funds."

In 1974 it was possible to complete insect surveys, trap cropping, spraying and other phases of the operation for about \$1.38 per acre, Dean notes, "but the cost of Malathion in 1975 is up from \$5.84 per gallon to \$9.02, and other costs have increased along with general inflation, including application costs this year of \$3.04 per gallon as compared to \$2.08 per gallon last year."

Extreme care will be taken in 1975, Dean notes, to conduct weevil spraying activity on a schedule that will not aggravate this year's unusually high incidence of boll worm infestations.

"There is a danger that early spraying for weevils in some instances would kill off boll worm predators and open the door to more economic damage from worms than would be expected from weevils," he said, "so in fields where data gathered by survey teams indicate that this is a probability, spraying for weevils will be delayed until that possibility no longer exists."

Low-bid contracts for spraying were awarded August 12 by PCG and USDA to D&D Aero, Inc., of Rantoul, Kansas; Euding Flying Service of Vincennes, Indiana; and Kimmel Aviation, Inc., of Houston, Mississippi.

## California Leads Texas In Cotton Production In '74

AUSTIN—Texas cotton growers slipped to second place in national production totals for 1974, Agriculture Commissioner John C. White has reported.

California led with 2,595,000 bales, producing over 100,000 more bales than Texas' 2,462,000.

Short moisture conditions, which reached drought proportions by April and May, delayed planting in many areas of the Texas High and Low Plains, according to White.

Numerous farmers dry planted, but mid-June rains came too late for most of the crop. Planting on the Texas Plains was substantially below normal, and many stands were eventually abandoned.

Growth and development of the late maturing crop

were delayed by cool weather and rains, and harvest ran behind schedule through October and

November. In addition, cool, wet weather in January delayed completion of harvest until February.

Texas farmers averaged 35 cents per pound, bringing the total value of the 1974 crop to \$413,688,000. More than one million tons of cottonseed were also produced, adding another \$123 million to that total, White stated.

Complete statistics for Texas cotton have been published in the "1974 Texas Cotton Statistics." Copies may be obtained by writing John C. White, Commissioner, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas, 78711.

## A SHORT REPORT

By Representative E. L. Short

Each County Judge of the 77th Legislative District has received from Representative E. L. Short's Austin Office copies of the proposed Constitution to be voted on in November. The copies will be in each County Library and will be available on a check-out basis as other books.

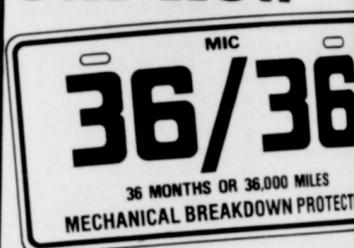

Representative Short said, "At this time, there are very few of these publications available to our State officials but, in about two weeks, all qualified voters will be receiving a summary from the Secretary of State's office." "Many of the changes in the new Constitution will affect our citizens and our lifestyle in various ways especially concerning local government and taxation." Short further stated, "I would especially

encourage each qualified voter in the 77th Legislative District to study the proposed Constitution and to vote on it. The articles separately."

### T-BAR BRIDGE

With six tables in duplicate last week at T-Bar try Club were: Mrs. Hancock and Mrs. Leslie, first; Mrs. Caraway and Mrs. Skudday, both of Brown second; Mrs. L.C. Hays and Mrs. Gene McKee, Mrs. Bobby Stone and Frank Hill, fourth; Mrs. Olen Reutro and Auda Norman, fifth.

**TEXAS TALK**  
By Fred Myers

Cattlemen are being outdone by prune producers. At least as far as product promotion is concerned. Paul Horn, writing in one of this summer's issues of THE CATTLEMAN, cites the fact that the prune growers association of California spends more total dollars pushing prunes than the entire cattle industry does in promoting beef. This latest wrinkle comes as a part of the continuing push for the Beef Development Plan which could provide as much as 40 million dollars a year for the promotion and development of beef markets. Hold up on the operation still involves composition of the 68 member "Beef Board" and the mechanics of operating the "beef check-off" system which would provide financing for the promotion by collecting three-tenths of one percent of the sales price of slaughter cattle. If the still lingering problems are ironed out, collections could begin as early as next year.

# FACTS FOR YOU

from Texas Farm Bureau

**LIBERALS**  
 Wall Street Journal August 6, 1975 reported that the number of leading liberal members of the House of Representatives is increasing. The original appointments are to include one commissioner for a two-year term, one commissioner for a four-year term and one commissioner for a six-year term. After the original appointments have expired, each appointment will be for a regular six-year term. The commissioners after appointment will elect from their group a chairman.

To be eligible for appointment to the Public Utility Commission of Texas a person must be: (1) a qualified voter not less than 30 years of age, (2) a citizen of the United States, (3) a resident of the State of Texas, and, (4) free from any connections with any utility company. The commissioners will be allowed to own stocks and bonds in utilities if the value is no more than \$10,000.

The law authorizes the following top administrators: (1) a director of public utilities who has wide experience in utility regulations and rate determinations, (2) a chief engineer who is a registered engineer and an expert in public utility engineering and rate matters, (3) a chief accountant who is a certified public accountant experienced in public utility accounting, (4) a director of research who is experienced in the conduct of analysis of the industry, economics, energy, fuel, and other related matters that the Commission may want to undertake, and, (5) a general counsel.

The salaries for the commissioners were established by the State Legislature at \$40,500 for the fiscal year beginning on September 1, 1975, and \$41,300 for the fiscal year beginning on September 1, 1976. The State Legislature appropriated a total of \$1,244,000 for all Commission activities during the fiscal year beginning on September 1, 1975 and \$1,257,200 for the year beginning on September 1, 1976.

## DISTRIBUTION CONSTITUTIONAL AMENDMENTS

The Texas Secretary of State has announced that his office will distribute to residential postal patrons an information booklet with regard to the eight propositions to be presented to voters on November 4, 1975 designed to provide a new Constitution for Texas. This information is supposed to be distributed after September 1, 1975.

All of the information in the information booklet which is the material distributed by Farm Bureau was prepared by the Office of Constitutional Research under the direction of Steve Dickerstaff. The Office of Constitutional Research is a division of Texas Legislative Council a state agency designed to do research for the State Legislature.

The State Legislature appropriated a total of \$1,821,676 for the Council's use during the fiscal year beginning on September 1, 1975 and \$1,969,962 during the fiscal year beginning on September 1, 1976.

The work of the Texas Legislative Council is divided into two primary parts, legislative research and a program designed to produce uniform state laws. Out of the total appropriation mentioned above, \$16,900 is designated as a contribution by Texas to the National Conference of Commissioners on Uniform State Laws and \$3,000 for printing the Commission's report and for travel expenses of members of the Texas Commission to attend the National Conference. The Commission employs approximately 70 persons.

### CONSTITUTION AMENDMENT-ORGANIZATION

There are two constitutional amendment campaign organizations chartered with the Secretary of State: (a) Citizens For the Texas Constitution, and, (b) Committee to Preserve the Present Constitution.

The Citizens For the Texas Constitution's organized purpose is to work for the passage of all eight propositions to be presented to the voters on November 4, 1975. The chairman and campaign manager is Judge Robert Calvert. This organization will campaign to pass all of the proposed eight amendments. The finances for the organization will be through contributions. No information has been released at the present time, but a packet of information is expected to be distributed some time after Labor Day. The address for Citizens For the Texas Constitution is 501-02 Commodore Perry Building, Austin, Texas 78701, telephone number 512-477-2240.

The opposing organization is the Committee to Preserve the Present Constitution and is designed to oppose the passage of the proposed constitutional amendments and support the maintaining of the present constitution. The campaign manager is Judy Guthrie of Searcy Braswell Law Firm. This arrangement is subject to change since Guthrie only performed a legal service for the organizers of the organization in its chartering activities. Some time after September 1, 1975 there is to be a new chairman and campaign manager named and a headquarters established. Judy Guthrie's address is Braswell Law Firm, American Towers, Austin, Texas, telephone number 512-472-7800. Financing of the organization is to be by contributions. This organization also plans a distribution of material to the voting public.

### U. S. BUDGET DEFICIT

The federal government has rung up the largest budget deficit in 30 years during the fiscal year ending on June 30, 1975. \$44.2 billion. Budget Director, James Lynn, has warned that the federal deficit in each of the next two fiscal years (1976 and 1977) may well exceed \$80 billion unless Congress rejects spending legislation currently being considered and cuts current spending. (The Wall Street Journal, July 29, 1975.)

### STOCKS OF GRAIN

Stocks of the four feed grains (corn, oats, barley and sorghum) total 35.9 million metric tons (a metric ton equals 2204.623 pounds), 24 per cent below July 1, 1974. Decreases from a year earlier for individual feed grains range from 21 per cent for corn to 47 per cent for grain sorghum. Old crop carry-over of all wheat on July 1, 1975 totalled 319 million bushels, 29 per cent above a year earlier, but 27 per cent less than two years ago. Except for last year, this is the smallest July 1 holding since 1952.

Disappearance from all storage positions during the period April through June is indicated at 329 million bushels, compared to 300 million bushels during the same period in 1974.

Grain sorghum stocks in all positions on July 1, 1975 total 95 million bushels, down sharply from the July 1, 1974 level of 178 million bushels and 52 per cent below the same date of 1973. Total disappearance during the April-June 1975 quarter was 114 million bushels, compared to 202 million bushels during the same period last year.

Corn in all storage positions on July 1, 1975 totalled 1,146 million bushels, 21 per cent less than a year earlier and 41 per cent less than July 1, 1973. This is the smallest quantity in storage on July 1 since 1952. Indicated disappearance from all positions during April-June was 1,062 million bushels down 25 per cent from the 1,418 million bushels of the same period of 1974. This disappearance is the lowest since 1971. (Texas Stocks of Grain, July 1, 1975)

### CLOTHING STAMPS?

The GIN WHISTLE, a publication of the Texas Independent Ginners Association, reported the following: "The \$6 billion price tag on the food stamp program would be matched under a proposal being studied by Representative Charles Rangel (D-NY) to provide 'clothing stamps' to food stamp recipients. Representative Rangel has ordered the staff of the House Ways and Means Committee to analyze such a proposal.

Although proponents of the measure argue an enormous psychological lift for the ill-clothed, the additional cost of the program to clothe the 38.6 million people eligible for food stamps is estimated at 6 billion a year."

### \$13 BILLION STATE APPROPRIATION

The 64th Legislature appropriated more than \$13 billion during the course of its recent session. The so-called "general" appropriations act for the 1976-77 biennium calls for an expenditure of \$12.09 billion, after allowance for \$27 million in gubernatorial vetoes. In addition, the legislature passed special appropriation acts applicable to the next biennium (September 1, 1975 through August 31, 1977) totaling nearly \$0.69 billion. Together these raise the authorized spending for 1976-1977 to \$12.78 billion. To that should be added another \$0.34 billion in emergency appropriations spendable in the current biennium for a total of \$13.12 billion.

Outlay programs for the 1976-1977 biennium represents a 47 per cent increase over estimated 1974-1975 spending from appropriations made by the 63rd Legislature. (Texas Research League Bulletin, August 4, 1975)

### TRANSFER PAYMENTS

The U. S. News and World Report of August 4, 1975 estimated that transfer payments will reach \$177 billion or 14 cents of each dollar of personal income in 1975. Transfer payments are government payments made to individuals out of the federal treasury such as social security, welfare, unemployment, medical benefits, etc. In 1945 these payments were only \$5.7 billion or 3 cents of each dollar of personal income.

As late as 1965 the payments were only \$37.2 billion or 7 cents of each one dollar of personal income.

The publication summarized the meaning as follows: "More and more the Tax system is being used to shift income from middle and upper income classes to the poor. In the past three decades: Government payments that transfer money from one group to another - mostly to families with low income - have increased 30-fold and now generates \$1 out of every \$7 of personal income in the U.S. 'That's why transfer payments are regarded by many economists as the 'big equalizer'." The source of these figures as reported in the publication are as follows: through 1965 U.S. Department of Commerce, 1975 estimates by U. S. News and World Report Economic Unit.

### SOVIET GRAIN PURCHASES

During the period July 21-29, Canada announced the sale of 1.0 million metric tons (MT) of Durum wheat to the USSR, for November 1975-August 1976 shipment. This brings Canada's announced wheat sales to the USSR for 1975-76 shipment to 3.0 million MT. Announced Soviet grain purchases from the U. S. as of July 29 now total 4.2 million MT of wheat for July 1975-September 1976 shipment (including 3 million MT optional origin), 4.5 million MT of corn for October 1975-August 1976 shipment (all optional origin), and 1.1 million MT of barley (all optional origin). It is considered likely that 500,000 tons of the barley purchased will be shipped from France or Canada and U. S. corn substituted for the balance of

600,000 MT. Together with the previously announced purchase of 750,000 MT of wheat from Australia, and 200,000 MT of wheat for 1975-76 shipment and 200,000 MT of corn for October 1975-September 1976 shipment from the U. S. carried over from 1974-75, Soviet grain purchases for shipment by September 1976 now total 13.95 million MT. Total 1975-76 Soviet grain consumption of about 210 million MT is expected to exceed its total grain production of 185 million MT by approximately 25 million MT. The 11 million MT gap not yet covered by foreign purchases must be met by increased livestock slaughter to reduce the use of grain in feed, a draw-down of stocks, further import purchases, or a combination of these options. It is considered likely that the USSR will use all three. (USDA U.S. Export Sales, July 31, 1975)

### BENDING WORDS

The Constitution of the Union of Soviet Socialist Republics guarantee in words some of the basic freedoms which are not available and never have been to Russian citizens.

### ARTICLE 125

In conformity with the interests of the working people, and in order to strengthen the socialist system, the citizens of the USSR are guaranteed by law:

- a) freedom of speech
- b) freedom of the press
- c) freedom of assembly, including the holding of mass meetings;
- d) freedom of street processions and demonstrations.

These civil rights are ensured by placing at the disposal of the working people

and their organization, printing presses, stocks of paper, public buildings, the streets, communications facilities and other material requisites for the exercise of these rights.

(Constitution (Fundamental Law) of the Union of Soviet Socialist Republics As amended by the Fifth Session of the Sixth Supreme Soviet of the USSR.

### Self-propelled stripping saves harvest dollars...

INTERNATIONAL HARVESTER

### ...today's top performer is the International 95 Self-propelled Cotton Harvester

Self-propel your way to bigger cotton profits with the extra savings you can get with this proved 2-row performer. You'll like the comfort of its all-weather cab... the convenience of its smooth-running hydrostatic drive... and its big-capacity clean stripping performance.

**Advantages over tractor-mounted machines**

- You're always ready to go. Nothing to mount, and you don't have to tie up a tractor.

- Saves time and labor cost for mounting and dismounting—up to \$200
- Easier to service. Design makes service points more easily accessible.
- Brush roll or finger header flexibility to harvest the way you prefer.
- Less annual depreciation. Retains a much higher percentage of its original value from year to year.

See us now for details. Easy finance plans available.

# Sherry Etheredge Says . . .

The day comes to nearly every dress when, with all its hem out, it is still not long enough. If it nevertheless has a lot going for it, it is time to pull some new tricks.

Bands made of rib knit with lots of stretch and strong recovery are sold by the yard. Used at midrifts, it makes a too-short dress long enough and new looking as well. It's a good idea to repeat the ribbing elsewhere, perhaps finishing the sleeve ends, or on a round neck.

**RUFFLING**  
When there's no more hem to be had, ruffling can save a dress in a most delightful way. Use a purchased lace or novelty ruffling or cut your own in a matching or contrasting color in a fabric no heavier than the dress. If you use it in a hem, put it somewhere else too - at the neck, sleeve or armhole edges. If it is a wrap dress, you can sew a continuous ruffle to trim neck front and lower edges.

**BORDERS**  
There's always the possibility of adding a border of contrasting fabric. Sometimes it's better to add two different materials. You can almost simulate a border fabric this way. It's still a good idea to use the contrast fabric somewhere else as well, maybe as a belt, a binding or covered buttons. Or make a really bold move, like taking out the old sleeves in the contrast fabric. Wide belting ribbon is a good choice for this detail.

### HEM MARKS

Suppose you've let out the hem and the length is OK, but you can't press out the old hem mark. Cover it with rickrack, eyelet, lace or braid and use the same trim somewhere else in the dress to pull it all together. The best way is to use a double row of stitching that looks like a detail; you can use buttonhole twist for a more definite line.

### DECORATIVE ELASTIC BANDING ON GATHERED SKIRTS

There's always the gathered skirt on a waistband that has become too tight. Take off the offending waistband and replace it with a piece of the new, wide decorative elastic which is available in many colorful patterns.

### ZUCCHINI BREAD

Beat 3 eggs  
Add 2 cups sugar slowly  
Add 1 cup oil  
3 tsp. vanilla

Beat well.  
Add 2 cups grated Zucchini (peel and cut in large chunks to grate, discard seed part.)  
Sift together:  
3 cups flour  
2 tsp. cinnamon  
1 tsp. soda  
1 tsp. salt

Mix with liquid:  
1 c. chopped nuts  
Pour into greased loaf pan  
Bake at 350 degrees at 45 min. or until tooth pick inserted in center comes out dry. (makes 2 or 3 small loaves.)

## COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Contracts have been let and aerial insecticide applicators are expected to take the air about August 25 in the twelfth year of the High Plains Boll Weevil Control Program.

Mass spraying of weevil infested cotton along the eastern edge of the High Plains to protect the vast cotton fields to the west has been carried out annually since 1964. The program, initiated and coordinated by Lubbock-based Plains Cotton Growers, Inc., has been widely cited as one of the most successful of all large-scale insect control efforts.

Entomologists at Texas A&M calculate that the program has saved control costs, yield and quality losses over the 11-year span amounting to at least \$400 million. Cost of the program for the 11 years has been less than \$12 million, giving a benefit-cost ratio of well over 300 to 1.

Infested acreage is sprayed from one to seven times each year, as determined necessary by extensive insect surveys, with ultra low volume Malathion. The base "control zone" in 1975 is expected to encompass some 250,000 acres, with the aggregate acreage requiring treatment projected at 680,000.

Cost of the program is borne jointly by the High Plains cotton producers who benefit from it, the U.S. and Texas Departments of Agriculture. USDA matches dollar for dollar the contributions of producers and the TDA. Producer contributions, collected on a voluntary, per bale basis as a part of compress receiving charges, have ranged from 50 cents per bale in 1964 down to the 25 cents per bale set for 1975.

Total cost of the program in 1975 should come to about \$1.65 per acre treated, according to PCG Field Service Director Ed Dean, "meaning we'll probably spend between \$1.2 and \$1.3 million this year, about half of which will come from producer funds and half from Federal funds."

In 1974 it was possible to complete insect surveys, trap cropping, spraying and other phases of the operation for about \$1.38 per acre, Dean notes, "but the cost of Malathion in 1975 is up from \$5.84 per gallon to \$9.02, and other costs have increased along with general inflation, including application costs this year of \$3.04 per gallon as compared to \$2.08 per gallon last year."

Extreme care will be taken in 1975, Dean notes, to conduct weevil spraying activity on a schedule that will not aggravate this year's unusually high incidence of boll worm infestations. "There is a danger that early spraying for weevils in some instances would kill off boll worm predators and open the door to more economic damage from worms than would be expected from weevils," he said, "so in fields where data gathered by survey teams indicate that this is a probability, spraying for weevils will be delayed until that possibility no longer exists."

Low-bid contracts for spraying were awarded August 12 by PCG and USDA to D&D Aero, Inc., of Rantoul, Kansas; Euding Flying Service of Vincennes, Indiana; and Kimmel Aviation, Inc., of Houston, Mississippi.

## California Leads Texas In Cotton Production In '74

AUSTIN—Texas cotton growers slipped to second place in national production totals for 1974, Agriculture Commissioner John C. White has reported.

California led with 2,595,000 bales, producing over 100,000 more bales than Texas' 2,462,000.

Short moisture conditions, which reached drought proportions by April and May, delayed planting in many areas of the Texas High and Low Plains, according to White.

Numerous farmers dry planted, but mid-June rains came too late for most of the crop. Planting on the Texas Plains was substantially below normal, and many stands were eventually abandoned.

Growth and development of the late maturing crop were delayed by cool weather and rains, and harvest ran behind schedule through October and

November. In addition, cool, wet weather in January delayed completion of harvest until February.

Texas farmers averaged 35 cents per pound, bringing the total value of the 1974 crop to \$413,688,000. More than one million tons of cottonseed were also produced, adding another \$123 million to that total, White stated.

Complete statistics for Texas cotton have been published in the "1974 Texas Cotton Statistics." Copies may be obtained by writing John C. White, Commissioner, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas, 78711.

## A SHORT REPORT

By Representative E. L. Short

Each County Judge of the 77th Legislative District has received from Representative E. L. Short's Austin Office copies of the proposed Constitution to be voted on in November. The copies will be in each County Library and will be available on a check-out basis as other books.

Representative Short said, "At this time, there are very few of these publications available to our State officials but, in about two weeks, all qualified voters will be receiving a summary from the Secretary of State's office." "Many of the changes in the new Constitution will affect our citizens and our lifestyle in various ways especially concerning local government and taxation," Short further stated, "I would especially

encourage each qualified voter in the 77th Legislative District to study the Constitution to be voted on, and to have the opportunity to vote on the articles separately."

### T-BAR BRIDGE

With six tables in winners in duplicate last week at T-Barry Club were: Mrs. Hancock and Mrs. Leslie, first; Mrs. Caraway and Mrs. Skudday, both of Brown second; Mrs. L.C. Har Mrs. Gene McKee, Mrs. Bobby Stone and Frank Hill, fourth; Mrs. Olen Rendo and Auda Norman, fifth.

### TEXAS TALK

By Fred Myers

Cattlemen are being outdone by prune producers. At least as far as product promotion is concerned, Paul Horn, writing in one of this summer's issues of THE CATTLEMAN, cites the fact that the prune growers association of California spends more total dollars pushing prunes than the entire cattle industry does in promoting beef. This latest wrinkle comes as a part of the continuing push for the Beef Development Plan which could provide as much as 40 million dollars a year for the promotion and development of beef markets. Hold up on the operation still involves composition of the 68 member "Beef Board" and the mechanics of operating the "beef check-off" system which would provide financing for the promotion by collecting three-tenths of one percent of the sales price of slaughter cattle. If the still lingering problems are ironed out, collections could begin as early as next year.

DISTRIBUTION CONSTITUTIONAL AMENDMENTS

The Texas Secretary of State has announced that his office will distribute to his residential postal patrons an information booklet with regard to the eight propositions to be presented to voters on

November 4, 1975 designed to provide a new Constitution for Texas. This information is supposed to be distributed after September 1, 1975.

All of the information in the information booklet which is the material distributed by Farm Bureau was prepared by the Office of Constitutional Research under the direction of Steve Dickerstaff. The Office of Constitutional Research is a division of Texas Legislative Council a state agency designed to do research for the State Legislature.

The State Legislature appropriated a total of \$1,821,676 for the Council's use during the fiscal year beginning on September 1, 1975 and \$1,969,962 during the fiscal year beginning on September 1, 1976.

The work of the Texas Legislative Council is divided into two primary parts, legislative research and a program designed to produce uniform state laws. Out of the total appropriation mentioned above, \$16,900 is designated as a contribution by Texas to the National Conference of Commissioners on Uniform State Laws and \$3,000 for printing the Commission's report and for travel expenses of members of the Texas Commission to attend the National Conference. The Commission employs approximately 70 persons.

CONSTITUTION AMENDMENT-ORGANIZATION There are two constitution amendment campaign organizations chartered with the Secretary of State: (a) Citizens For the Texas Constitution, and (b) Committee to Preserve the Present Constitution.

The Citizens For the Texas Constitution's organized purpose is to work for the passage of all eight propositions to be presented to voters on November 4, 1975. The chairman and campaign manager is Judge Robert Calvert. This organization will campaign to pass all of the proposed eight amendments. The finances for the organization will be through contributions. No information has been released at the present time, but a packet of information is expected to be distributed some time after Labor Day. The address for Citizens For the Texas Constitution is 501-02 Commodore Perry Building, Austin, Texas 78701, telephone number 512-477-2240.

The opposing organization is the Committee to Preserve the Present Constitution and is designed to oppose the passage of the proposed constitutional amendments and support the maintaining of the present constitution. The campaign manager is Judy Guthrie of Searcy Braswell Law Firm. This arrangement is subject to change since Guthrie only performed a legal service for the organizers of the organization in its chartering activities. Some time after September 1, 1975 there is to be a new chairman and campaign manager named and a headquarters established. Judy Guthrie's address is Braswell Law Firm, American Towers, Austin, Texas, telephone number 512-472-7800. Financing of the organization is to be by contributions. This organization also plans a distribution of material to the voting public.

U. S. BUDGET DEFICIT The federal government has rung up the largest budget deficit in 30 years during the fiscal year ending on June 30, 1975—\$44.21 billion. Budget Director, James Lynn, has warned that the federal deficit in each of the next two fiscal years (1976 and 1977) may well exceed \$80 billion unless Congress rejects spending legislation currently being considered and cuts current spending. (The Wall Street Journal, July 29, 1975.) STOCKS OF GRAIN Stocks of the four feed grains (corn, oats, barley and sorghum) total 35.9 million metric tons (a metric ton equals 2204.623 pounds), 24 per cent below July 1, 1974. Decreases from a year earlier for individual feed grains range from 21 per cent for corn to 47 per cent for grain sorghum. Old crop carry-over of all wheat on July 1, 1975 totalled 319 million bushels, 29 per cent above a year earlier, but 27 per cent less than two years ago. Except for last year, this is the smallest July 1 holding since 1952.

Disappearance from all storage positions during the period April through June is indicated at 329 million bushels, compared to 300 million bushels during the same period in 1974.

Grain sorghum stocks in all positions on July 1, 1975 total 95 million bushels, down sharply from the July 1, 1974 level of 178 million bushels and 52 per cent below the same date of 1973. Total disappearance during the April-June 1975 quarter was 114 million bushels, compared to 202 million bushels during the same period last year.

Corn in all storage positions on July 1, 1975 totalled 1,146 million bushels, 21 per cent less than a year earlier and 41 per cent less than July 1, 1973. This is the smallest quantity in storage on July 1 since 1952. Indicated disappearance from all positions during April-June was 1,062 million bushels down 25 per cent from the 1,418 million bushels of the same period of 1974. This disappearance is the lowest since 1971. (Texas Stocks of Grain, July 1, 1975)

CLOTHING STAMPS? THE GIN WHISTLE, a publication of the Texas Independent Ginners Association, reported the following: "The \$6 billion price tag on the food stamp program would be matched under a proposal being studied by Representative Charles Rangel (D-NY) to provide 'clothing stamps' to food stamp recipients. Representative Rangel has ordered the staff of the House Ways and Means Committee to analyze such a proposal.

Although proponents of the measure argue an enormous psychological lift for the ill-clothed, the additional cost of the program to clothe the 38.6 million people eligible for food stamps is estimated at 6 billion a year."

\$13 BILLION STATE APPROPRIATION

The 64th Legislature appropriated more than \$13 billion during the course of its recent session. The so-called "general" appropriations act for the 1976-77 biennium calls for an expenditure of \$12.09 billion, after allowance for \$27 million in gubernatorial vetoes. In addition, the legislature passed special appropriation acts applicable to the next biennium (September 1, 1975 through August 31, 1977) totaling nearly \$0.69 billion. Together these raise the authorized spending for 1976-1977 to \$12.78 billion. To that should be added another \$0.34 billion in emergency appropriations spendable in the current biennium for a total of \$13.12 billion.

Out lay programs for the 1976-1977 biennium represents a 47 per cent increase over estimated 1974-1975 spending from appropriations made by the 63rd Legislature. (Texas Research League Bulletin, August 4, 1975)

TRANSFER PAYMENTS

The U. S. News and World Report of August 4, 1975 estimated that transfer payments will reach \$177 billion or 14 cents of each dollar of personal income in 1975. Transfer payments are government payments made to individuals out of the federal treasury such as social security, welfare, unemployment, medical benefits, etc. In 1945 these payments were only \$5.7 billion or 3 cents of each dollar of personal income.

As late as 1965 the payments were only \$37.2 billion or 7 cents of each dollar of personal income.

The publication summarized the meaning as follows: "More and more the Tax system is being used to shift income from middle and upper income classes to the poor. In the past three decades: Government payments that transfer money from one group to another—mostly to families with low income—have increased \$1 out of every \$7 of personal income in the U.S. That's why transfer payments are regarded by many economists as the 'big equalizer.'" The source of these figures as reported in the publication are as follows: through 1965 U.S. Department of Commerce, 1975 estimates by U. S. News and World Report Economic Unit.

SOVIET GRAIN PURCHASES

During the period July 21-29, Canada announced the sale of 1.0 million metric tons (MT) of Durum wheat to the USSR, for November 1975-August 1976 shipment. This brings Canada's announced wheat sales to the USSR for 1975-76 shipment to 3.0 million MT. Announced Soviet grain purchases from the U. S. as of July 29 now total 4.2 million MT of wheat for July 1975-September 1976 shipment (including 3 million MT optional origin), 4.5 million MT of corn for October 1975-August 1976 shipment (all optional origin), and 1.1 million MT of barley (all optional origin). It is considered likely that 500,000 tons of the barley purchased will be shipped from France or Canada and U. S. corn substituted for the balance of

600,000 MT.

Together with the previously announced purchase of 750,000 MT of wheat from Australia, and 200,000 MT of wheat for 1975-76 shipment and 200,000 MT of corn for October 1975-September 1976 shipment from the U. S. carried over from 1974-75, Soviet grain purchases for shipment by September 1976 now total 13.95 million MT. Total 1975-76 Soviet grain consumption is expected to exceed its total grain production of 185 million MT by approximately 25 million MT. The 11 million MT gap not yet covered by foreign purchases must be met by increased livestock slaughter to reduce the use of grain in feed, a draw-down of stocks, further import purchases, or a combination of these options. It is considered likely that the USSR will use all three. (USDA U.S. Export Sales, July 31, 1975)

BENDING WORDS

The Constitution of the Union of Soviet Socialist Republics guarantee in words some of the basic freedoms which are not available and never have been to Russian citizens.

ARTICLE 125

In conformity with the interests of the working people, and in order to strengthen the socialist system, the citizens of the USSR are guaranteed by law:

- a) freedom of speech
b) freedom of the press
c) freedom of assembly, including the holding of mass meetings;
d) freedom of street processions and demonstrations.

These civil rights are ensured by placing at the disposal of the working people

and their organization, printing presses, stocks of paper, public buildings, the streets, communications facilities and other material requisites for the exercise of these rights.

(Constitution (Fundamental Law) of the Union of Soviet Socialist Republics As amended by the Fifth Session of the Sixth Supreme Soviet of the USSR.

### Is God The Author Of Confusion?

**Confusion:** Say, isn't it great the way so many denominations have united to work for the success to the coming crusade?

**Simplicity:** I am happy to see so many interested in religion. This crusade does bring questions to my mind though. If these denominations are sincerely interested in unity, who can't they lay aside their differences indefinitely rather than for only thirty days? Do you think the resulting new converts will be united or do you suppose the various denominations plan to divide them up following the campaign?

**Confusion:** Yes, I see what you mean, but how do we go about accomplishing this?

**Simplicity:** The only way possible is to seek out the pattern set forth in the New Testament by Jesus and His apostles (Ephesians 1: 9 - 11, 1 Corinthians 2: 6 - 10, Ephesians 3: 3 - 4). If we use the New Testament pattern, we can reproduce New Testament Christianity. Patterns like seed reproduce their own kind, not denominations. You see, the word denomination means "a division". Denominator in this case is equal to a denominational church and the numerator is comparable to the church for which Christ died. In mathematical language the various denominations are dividing the church of God. Division is carnal and carnality is sin (1 Corinthians 3:3).

**Confusion:** More to follow.

### LADIES T-BAR GOLF TOURNAMENT

The T-Bar Ladies Golf Association met Tuesday for their monthly play day and luncheon - with approximately 30 members and 2 guests attending.

The meeting was called to order by President, Fredda Townes, with a reading of the minutes by Sec. and Treas. Lee Moore. She reported a nice bank balance and no bills outstanding.

Polly Cords was welcomed as the newest member of the Ladies Golf Association. All lady members of the T-Bar Country Club are invited to join the Ladies Golf Association - dues are only \$5.00 per year and many good golfing days are ahead before cold weather.

Plans were made for a September "Invite a Golfing Friend" play day and luncheon. All members of the Ladies Golf Association are urged to invite a golfing friend from another club and plan to come out for a day of golfing, goodies, etc.

Glenda Dunagan gave prizes for play day activities and Lottie Jo Walker was elected Vice-President to fill out the unexpired term of Beth Philfer - who has moved to Dimmitt.

### 4-H'ERS ATTEND COUNTY ELECTRIC WORKSHOP

Eight Lynn County 4-H'ers attended an electric workshop held August 14, at the Lyntegar Room. The purpose of the workshop is to better understand the use of electricity and to make a table lamp that each could use in their home. Leading the workshop was Binie White, Energy Utilization Information Manager and Lois Greathouse, Member Service Advisor of Lyntegar Electric Cooperative.

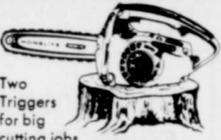

Those in attendance were: (Back row - L. to R.) Karla James, Karen Stegemöller, Sharon Ernst, Travis Mires, Terri Franklin. (Front row - L. to R.) Cara Monk, John Curry, Greg Curry.

Freezone is for corns that hurt. Absolutely painless. No dangerous cutting, no ugly pads or plasters. In days, Freezone eases the hurt... safely helps ease off the corn. Drop on Freezone - take off corns.

### International 2-row tractor mounted 91 Cotton Harvester

Fast, clean stripping action. Tractor-mounted economy. Extra easy operation. You get them all—and more—in this crop-saving, cost-cutting cotton stripper. Stripping speeds up to 7 mph quickly gets big yields, puts cotton in basket with minimum trash.

Big-yield capacity and superior trash removal result from design advantages—roomy row units... extra long brush rolls... automatic height control... big side augers... and unique vertical air separation system.

Mounts quickly, easily, on most current international tractors, including some cab-equipped models.

Come in and get the full story... features that provide superior performance, save you money. Easy to available.
