City To Aid Center Here

A group of senior citizens appeared before Tahoka City Council at the official public hearing on next year's budget Monday night and

came away with a promise of some matching funds to help in construction of an addition to the senior citizens center here.

Councilmen, after hearing the presentation from the visitors, agreed that the project to expand the center and provide on-site meals for needy elderly persons was worthwhile, and diverted some of next year's revenue sharing money to the project.

A thousand dollars which had been tentatively budgeted for improvements in the landfill area was earmarked for the senior citizens project to be granted when the group raises some funds of their own.

No other persons appeared to discuss the proposed budget, which totals about \$47,000 more in general fund expenditures than the current year, and which councilmen agreed would have to be financed by increased taxes.

In addition to the general fund budget, budgets were presented for the revenue sharing funds, the water and sewer department, and the sanitation department.

Not counting the revenue sharing, which is all paid by the federal government, the total anticipated expendi-

tures of the city in all the other areas paid for the citizens is \$507,445.37, with anticipated total income of \$510,884, provided that property taxes raise \$120,000.

The budget will be adopted at the April meeting of the council.

The city has \$28,000 of federal revenue sharing money to spend, and the major items in that budget are a new patrol car and operation of the cemetery.

Councilmen Monday night also voted to increase the deposit for water and sewer service from the present \$15 to \$25, and to increase the charge for reconnecting water and sewer service from the present \$5 to \$15, with both increases scheduled to take effect April 1.

The city has been having some problems in collecting for water and sewer service and officials hope the increased reconnection charge will discourage non-payment of bills. The charge is made for reconnection after service has been discontinued.

Outstanding High School Athletes Paid Tribute

Tahoka High School athletes were recognized for outstanding achievement as teams and individuals during the current school year as the youngsters were honored by the all-sports banquet in the school cafeteria Monday night.

The coveted "Fighting Heart" award to the football player who best exhibited determination and all-out effort at all times went to senior Alan Curry, son of Mr. and Mrs. John Curry.

Three other gridders on last year's outstanding Bulldog team were recipients of the "Rocky Awards". They are Doug Barham, Rance House and Johnny Wayne McKibben.

Special recognition also was made at the event to Mr. and Mrs. Leighton Knox Jr. for their support of athletics in the school, and awards also were presented to High School Principal Jim Marcus and Supt. Jim Coulston.

Don Todd, assistant football coach at the University of Houston and brother of Tahoka Asst. Coach Budd Todd, was principal speaker. He emphasized the importance of dedication, determin-

ation and sportsmanship in his talk to the athletes, parents, coaches and friends. Clint Walker was master of ceremonies.

WOODWORK

by dalton

THURSDAY the weather forecasters in the area got their wind velocities all tangled up in their temperatures. They had said on the 26th night that the wind would blow about 20 and the high for the day would be around 70. Eventually, before the day was over, they were off to right, but early Thursday morning it was more like 70 mph winds and 15-20 temperatures.

It never ceases to astonish residents of this area by the weather bureau manages to miss the forecast so often. As one man said last week, if they'd just flip a coin the law of averages says they'd be right about half the time.

The few meteorologists I have talked to over the years all say this is a very difficult part of the country to predict, weatherwise.

Usually they bring their averages up at this time of the year by predicting blowing dust almost every day, and of course they mostly are right. But a week or so ago they even missed that. On two days that blowing dust was predicted, the dust didn't blow and the wind was mild. Then when they said things would be okay, the dirt blew like crazy.

Anyway, the government is wasting some more money by keeping all those highly-trained people and sophisticated equipment at the weather bureau in Lubbock. Anybody with rheumatism in his left knee can do just as good a job of forecasting as they can do with all their high-powered doodads.

SOME GUY told me he sure wanted to make the travel party out at our house tomorrow night (Friday) because he heard I was going to pass around some French postcards. I will have some scenes of the countries we're going to visit in June, but the French ones just show things like the Sacre Cour church, so he's likely to be disappointed.

Anyway, I hope he'll be there, along with everybody else. You're all invited.

SPS, Cities Compromise On Rate Hike

Bert Ballengee, executive vice president of Southwestern Public Service Company, announced last week that Southwestern Public Service Company and the Steering Committee representing South Plains and Panhandle cities have reached an agreement on the Committee's recommendation of its member cities concerning SPS's 1980 rate case. The Steering Committee recommended the following: municipalities in the SPS Texas service area set the revenue deficiency at \$31,923,000; rates to correct this deficiency should become effective with the May billing cycle; there will not be any differential in the summer-winter rates and the Public Utility Commission should eliminate the requirement to show the fuel cost adjustment as a separate item on the bills.

Ballengee said that SPS accepted this proposal for three reasons. "We have settled because of SPS's need for immediate relief in order to maintain its current construction program and the quality of service our customers require. "Our original request was projected for two years; however, present economic uncertainties on the national scene make it very difficult to project exactly what will happen in the future. By accepting less, we may have to ask for additional rate relief sooner than previously anticipated. By implementing the rates in May, we will hopefully be able to save our financial bond ratings which are vital to our customers' long range benefit," Ballengee concluded.

Burglary, Theft Listed

The home of Amador Vasquez, near Southland, was reported burglarized Sunday, with a television set, stereo and little girls' dresses stolen, the sheriff's office was told. Deputies also investigated a report of a stolen 8-foot Rhino blade from the J.E. Nance farm three miles north on U.S. 87 Tuesday.

MORE DONATIONS BOOST FIRE DEPT.

Tahoka Fire Dept. this week again expressed appreciation for recent donations, including one received from Louder Gin during the last week. Chief J.T. Miller said that the name of Danny Lockaby, an earlier donor, was inadvertently left off the first list of donors.

Softball Meet Set

There will be a meeting at 7 p.m. Tuesday at Chancy's Exxon station to organize the 1980 men's softball league in Tahoka. Plans are to have four teams again in the city league. All men interested in playing are invited to attend.

Stock Show Meeting Set

The annual meeting of the Lynn County Stock Show Assn. will be on Monday, March 31, 7:30 p.m. in the Lyntegar Meeting Room.

Items of business to be discussed are reviewing the 1980 show; set dates for the 1981 show; discuss any needed changes, etc; improvements at county barn; and election of directors.

The following directors terms are expiring: Edward Bartley, Tahoka; Lanny Brewer, O'Donnell; Donald Klaus, Wilson; and Bob Ballard, New Home.

This meeting will provide an opportunity for anyone to express his views, both good and bad.

This association is open to anyone in Lynn County.

European Trip Meeting Set Friday

Anyone interested in learning more details of the upcoming "Heart of Europe" tour sponsored by the Lynn County News is invited to a travel party at the home of Dalton and Lenda Wood, 2106 N. 8th St. at 7:30 p.m. Friday.

The Woods, who have escorted two other trips to Europe in the last five years, will answer any questions anyone has about the 15-day trip scheduled to leave Lubbock for Paris, France, Thursday, June 12, and return on June 26.

Price of the trip is \$2113 per person, including all air and bus transportation, luggage handling and tips for porters, two meals a day except in Paris, sightseeing, several side trips, a competent tour guide who speaks all the languages, and lodging in first class hotels.

Trip arrangements are by Hester International Tours of Dallas.

Also at Friday night's informal meeting in the Wood home, pictures will be made free for anyone who needs a passport photo. Passport applications also will be available.

Wood said that those who have already decided to make the trip should be prepared Friday night to make a deposit of \$100 per person to assure a spot on the tour. But he emphasized that persons attending the

Lynn Library Supporters Asked To Meet Tonight

Persons interested in helping the library in Tahoka are asked to come to a meeting at 7 p.m. Thursday (today) in the First National Bank meeting room to discuss ways to help encourage use of the facility.

Mrs. Glo Hays, member of the library board, said a "Friends of the Library" organization will be formed at Thursday night's meeting. "We're trying to organize a group which will promote the library and encourage people to use it, and perhaps volunteer help at the library

on occasion," she said. Library board members have been trying to get people to use the facility more, pointing out that there are new volumes available to Lynn County residents through the library, since the facility has become affiliated with the West Texas Library System, which means anything available at the other member libraries in the area can be brought here and used by library patrons.

In addition to trying to form the Friends group, the library board is seeking donations from individuals, clubs and businesses to help pay for the normal expenses of expanded operations. Individuals are being asked to contribute either in a lump sum or by way of bank drafts of a few dollars per month, and all such donations are tax deductible.

The Lynn County Library now is open all day Monday and Wednesday (8-noon and 1-5 p.m.) and on Friday from 1 to 5 p.m. Mrs. Mildred Sherrill is librarian.

The library also has a new telephone. The number is 998-4050.

Hospital Board Election Set

Lynn County residents will vote April 5 on electing three persons to the county hospital board.

Terms are to expire for Larry Hagood of Tahoka, Roy Lynn Kahlich of Wilson and Julian Pirtle of O'Donnell.

Other candidates for the three spots are Rodger Doss of O'Donnell and Roy L. Simmons and Jack Scott of Tahoka. Scott was the last candidate to file. A lifetime resident of the county, he is a farmer who lives four miles east of Tahoka. He is a 1975 graduate of Tahoka High School.

Commission Eyes Issues

Lynn County Commissioners discussed several items at a meeting Monday morning, but no action was taken on any of the matters. Among items discussed were a hospitalization plan for county employees, a possible sick leave policy, and a possible contract with a firm to make applications for federal grants for the county.

Present were commissioners Ed Stone and J.C. Gandy and County Judge Melvin Burks. Absent were commissioners Bart Anderson and E.R. Blakney.

MONEY FOR LIBRARY--First National Bank of Tahoka presented the Lynn County Library a check for \$1,000 this week to help the library meet its budgetary requirements for membership in an area library system. "We hope this donation will be the kickoff for other donations from people here to help the library," said bank President Frank Barrow, shown here with library board member Glo Hays. Barrow said he was convinced of the importance of the library to the whole Lynn County community. (LYNN COUNTY NEWS PHOTO)

New Home City Election

The city of New Home will hold election April 5 at the school library to elect 2 councilmen.

Those filing for election are J. A. Evans, Gayland James, John Edward and Harold Nettles.

Better Business Bureau Report

South Plains residents should be on the lookout for itinerant home improvement contractors that may offer great prices for doing people's roofs, paneling, drive ways, etc. Your Bureau has already received calls indicating that the itinerant home improvement companies are starting up their annual operations.

These unethical peddlers prey especially on the elderly and the low income person. Their work is usually poor and when something goes wrong after the job, the contractors have fled the South Plains.

Consumers are advised that if they are considering having home improvements done to their property that they deal with local contractors that can be found if something goes wrong. Also, get estimates and check out contractors with references from the company and finally, check the reliability of the company through your Better Business Bureau.

Some favorite sales tactics of these itinerant groups are offering to do a job below cost if the home can be used as a show home for advertising purposes.

The old pitch that the contractor had just completed another job and will do a project for the consumer at cost rather than having to carry the excess materials from the first job back to his warehouse in whatever city.

Coming to your home uninvited.

Approaches are varied and caution should be used when dealing with those you don't know.

Two Major Improvement Projects Set To Begin

Tahoka's paving project and the water-sewer system improvement and extension program are about ready to start, City Administrator Carl Reynolds and Councilman Jim Solomon told Rotarians at last Thursday's meeting.

Contract on the paving project made possible by a half-million dollar Community Development Grant from the Federal government was won by Don Zahn and Ronnie Zahn, a joint venture, on a low bid of \$437,215.00.

The grant limits use of the funds on the project to the south, southeast and northeast sections of the city. Plans call for about 25 blocks on new paving and 38 blocks of streets to receive caliche.

A little over a year ago, Tahoka voters approved a \$250,000 revenue bond issue for water and sewer improvements and extension, principally in North Tahoka. Plains Utility Co. of Lubbock was awarded the contract on a low bid of \$147,388.42. Start of the project has been delayed because of a back injury sustained by the firm's owner.

Included in the work will be replacing of some water lines at least fifty years old that have corroded and rusted out, replacing small mains with larger ones, extending new mains to recent residence additions, replacing some sewer mains and extending others, and installation of an additional sewer lift station in West Tahoka.

A contract remains to be awarded for repair of the two city overhead tanks.

President Solomon inducted a new member into Rotary, Jim Lummus, recent appointed postmaster for Tahoka.

While eggs are sold by the dozen, if you realize that a dozen Large eggs weigh 1-1/2 pounds; Medium eggs, 1-1/8 pounds and Small sizes, 11/8 pounds, according to the U.S. Department of Agriculture (USDA). By comparing these weights against price per dozen, Large eggs at 60 cents a dozen would cost only 40 cents a pound, say economists with USDA's Food Safety and Quality Service. That's very reasonable for a pound of high protein food.

Generally speaking, if there is less than a seven cent price spread per dozen eggs between one size and the next smaller size in the same grade, you will get more for your money by buying the larger size.

Egg size has nothing to do with quality. Shell color does not affect quality, nutritive value, flavor or cooking performance but is determined by the breed of hen.

Quality refers to interior condition and appearance of the shell, say FSQS egg graders. In U.S. Grade AA (or Fresh Fancy) eggs, the yolk covers a small area; the white is thick and stands high; the yolk is firm and high. Variations in temperature while the eggs are stored cause egg whites to become thin.

In U.S. Grade A eggs, the yolk covers a moderate area; the white is reasonably thick and stands fairly high; they yolk is firm and high. U.S. Grade B eggs are good for general cooking and baking; the white spreads out more in these eggs.

When you boil them for Easter decorating, cook at low to moderate temperatures so eggs will not be "tough".

One should always cook eggs correctly. If you cook shelled eggs in an aluminum pan, the color of the eggs will darken; this is not harmful however. Glass, porcelain, enamel, stainless steel or any cookware with a non-stick finish are all suitable for preparing eggs. If eggs are boiled or cooked too long, the yolks become hard and turn a greenish-gray color.

It is best to buy eggs for hard-cooking several days ahead, since storage allows the air space at the large end of the egg to expand and makes peeling easier. One can puncture the egg with a pin at the center of the large end, penetrating only the shell; this will let air escape and will help prevent shell from cracking during cooking.

How To Cook:
Place eggs in a saucepan

wide enough to accommodate them without crowding and deep enough so that at least one inch of water will cover tops of eggs. Over high heat, heat water and egg just to a full boil. Immediately remove saucepan from heat and cover tightly. Let eggs stand in hot water, covered, 15 min. for hard-cooked eggs, one minute for medium soft-cooked eggs. After time limit, pour off hot water and run cold water over eggs to stop them from cooking and also make peeling easier.

Shell by cracking entire surface of shell and placing

egg under cold running water. Peel by starting at large end of egg.

How To Dye Eggs:
One can purchase dye or one can place cold water in bowl, add drops of food

coloring to water (amount would depend on intensity of color), and place hard-cooked eggs, while warm, in colored water. Remove from water and place on paper towel until dry.

The 1980 Monte Carlo. One beautiful car.

For 1980 Monte Carlo has newly refined, elegant styling. Its sculpted body has a bold new grille and new dual rectangular headlights.

Take a look at these additional impressive standard features for 1980:

- Automatic transmission
- Power steering
- Power front disc brakes
- Steel-belted radial ply tires.

Monte Carlo now offers a new turbocharged V6 engine. This engine is available on all models and provides up to 32% more power on demand.

There's a standard 3.8 Liter V6 engine with an EPA estimated 19 MPG; 26 MPG estimated highway mileage.

Remember: Compare the EPA estimated MPG to the estimated MPG of other cars. You may get different mileage depending on speed, trip length and weather. Actual highway mileage will probably be less than highway estimate.

Chevrolets are equipped with GM-built engines produced by various divisions. Ask a salesperson for details on this and on Chevrolet's new three-year limited warranty against perforation (rust-through) due to corrosion.

The 1980 Monte Carlo combines comfort, quietness and value in a personal luxury car.

BIBLE Answers for BIBLE Questions:
By DOUG CARTER

Question: How are we saved?

Answer: (Part 2) As we stated last week, we are saved by the Grace of God through obedience to His Word. Prompted by His love and mercy God sent Jesus Christ into the world to die for the sins of mankind (Isa. 53; Rom. 5:8). His grace is offered to every person, but we must accept it. Our acceptance begins by having Faith in God and His Son, Christ Jesus (Rom. 10:17; Heb. 11:6). When we have Faith, of believing and trusting Christ, we will be moved to do the things commanded by God. It was by faith that the walls of Jericho fell down - after the Israelites had marched around them for 7 days, as commanded by God (Heb. 11:30). This is the type of faith you must have to have salvation. The faith that is obedient. But what does God tell us to do?

We know there must be faith. Then, Jesus tells us to repent or we will perish (Luke 13:3; Acts 8:22). The sinner must turn away from his old life, and turn to Christ. Matthew 10:32 shows us that a person must confess Jesus as Lord. Then throughout the Bible, those who have completed these things are told to be baptized for the remission of their sins (Acts 2:38; Acts 22:16). I can hear someone say, "but this is a work, because baptism is an outward sign of an inward grace." What would you call faith? Jesus said, "This is the work of God, that ye believe on Him whom He hath sent" (Jn. 6:28). Yes, you might say it is a work of a sense - but it is a work of faith - knowing when you do these things that you are in a covenant relationship with God (1 Jn. 3:24). Before you can get water to come out from your faucet in the kitchen you must turn it on - and you will not receive God's Grace until you have done the things commanded by His word.

I think you will agree that there is no salvation outside of Christ. (2 Tim. 2:10) and Galatians 3:26,27 tells us that because of our faith we have obeyed God and have been baptized into (or have put-on) Christ Jesus. Don't you think it is not worthy that the Ethiopian eunuch did not argue with Philip? He saw the water and wanted to be baptized (Acts 8:36). Philip told him that he could only if he had complete trust in Jesus as the Messiah and that he brought salvation. And then the eunuch confessed the Lord and was baptized for the remission of his sins.

Please do not let some pre-conceived idea stop you from obeying God as the Bible says we must do. I would count it a privilege if you would allow me to study God's Word with you.

Dear Mr. Wood:

Tribute to the Fire Dept. and the Law Officers of Tahoka and Lynn County

On March 21, 1980, I was called to the overpass 2 miles north of Tahoka of a death in a wreck.

Upon arrival, the officers and fire department were on the job and had everything under control.

The officers had the traffic under the best of control and the fire dept. had the wreck watered down and although gasoline was running out of the car very fast there was no fire.

I was very proud of each unit that was helping and I personally think Tahoka and Lynn County should be very proud of each and everyone that had a part.

We all appreciate you very much.

Scanning Social Security

By JIM LATIMER

There is a new toll-free telephone number for Lynn County residents to call when they have social security questions, according to Laura Peacock, Social Security Manager, Lubbock.

Residents of Lynn County may simply dial direct 1-800-392-1603 and reach personnel who are specially trained to accept reports and answer social security questions by telephone.

Jim Latimer, social security representative from the Lubbock office, will continue to visit Tahoka monthly. Area residents may contact him at the Senior citizens

Dear Mr. Wood:

There are a lot of young people in Tahoka with nothing for entertainment. If someone would put in a bowling alley, a skating rink or a theatre, it would keep a lot of them off the streets; also the parents would save gas.

It's a shame that Tahoka, its size, has nothing her to entertain the young people. So parents, why not get together and come up with something for your kids before some of them are crippled or killed on the streets or the highway.

Census Forms In Mail Friday

Your household, and all others in the area, will receive something in the mail this Friday -- a questionnaire from the U.S. Bureau of the Census for the 1980 Census of Population and Housing.

District Manager of the census here, urges that you watch for the large white envelope with blue lettering. The census questionnaire for your household will be delivered by address, not on the basis of name. Below the address will be a telephone number to call if help is needed in answering any questions. With the questionnaire will be a yellow instruction guide that gives examples on how to fill it out, and a brown, pre-addressed, postage-paid envelope for mailing it back.

The 1980 census symbol -- a pencil inscribed "April 1" filling in the zero of "Census '80" -- appears on the envelope with this message: "This envelope contains your official census form. Please fill it out and mail it back on Tuesday, April 1."

The manager asks that you pay particular attention to this message, because April 1 is Census Day, the day of the official count of the U.S. population. That is why it is essential that every questionnaire list all persons in the household on that day, and does not list anyone who moved away or died a day or so before, but does include anyone who just moved in, or a baby born on that day. The mother and baby are to be listed even if they are in the hospital.

The manager suggests that filling out the census form be made a family project, with everyone supplying the correct information about themselves. And be sure to mark you answers with a black lead pencil, so if you make a mistake, you can erase it.

Unmarked Cars Used By DPS

"Warning! If you are a driver who is violating the 55 MPH speed law, you may be caught and required to appear in court," stated Major C.W. Bell, Commanding Officer of Region 5 of the Texas Department of Public Safety.

Major Bell announced today that an active enforcement program is being directed at the deliberate and determined law violator who seeks to defeat the enforcement efforts of the 55 MPH speed law employing police scanners, radar detectors and CB radios.

Major Bell said, "Our troopers are going to be aggressive and will work radar in unmarked vehicles as well as black and white."

He stated that all legal means available will be used to make the use of the radar unit more effective.

He stated that there are several reasons for this special effort. One reason he gave was the 4,000 plus deaths which occurred on Texas streets and highways last year. He said, "The thought of over 20,000 accidents and over 1,000

deaths involving speeding over the limit last year should be cause for every Texas motorist to slow down and observe the speed limit."

He added, "Another reason, in addition to saving the lives of many Texans, is that many disabling injuries can be prevented. Also, achieving a greater compliance will have a beneficial effect on gasoline conservation."

The Federal Surface Transportation Act of 1978 established national levels of compliance that each state

Revival At Sweet Street

The Sweet Street Baptist Church will have a revival beginning April 3 and continuing through April 6 with Dr. Gene Thomas of Oklahoma City as evangelist.

Dr. Thomas was Seminary Extension teacher in the Oklahoma City Center from 1970 to 1975. He has a B.A. degree from Oklahoma Baptist University, B.D. from Southwestern Baptist Theological Seminary; Doctor of Ministry, Phillips University; Pastorates in Oklahoma and Missouri and assistant recording secretary, Baptist General Convention of Oklahoma.

Song leader for the revival will be C.E. McCollum of Lamesa.

Evening services will begin at 7:30 and a nursery will be provided.

The public is invited to attend.

must meet or face sanctions. For instance, had we not met 30 percent compliance with the 55 MPH speed limit by September of 1979 Texas could have lost 8 million dollars. By September of 1980, 40 percent of Texas drivers must be in compliance or we will be subject to similar sanctions.

Major Bell said, "We hope that by providing this special effort we can save precious lives, conserve fuel and comply with the 40 percent mandate."

OSHA Dust Rule To Supreme Court: The American Textile Manufacturers Institute has asked the U.S. Supreme Court to overturn a federal appeals court decision upholding the legality of OSHA's cotton dust standard. The National Cotton Council will file its petition with the Supreme Court prior to the April 11 deadline.

Meanwhile, with the standard due to take effect March 27 in textile mills, warehouses, and merchants' classing rooms, the Council is preparing an audio-visual presentation on employee education and training to enable these segments to meet the June 27 compliance deadline for this requirement. The presentation for each of the three sectors will be available by April 15.

Dust Research Is Top Goal: A newly reorganized Industrywide Cotton Dust Committee--headed by National Cotton Council Board Chairman Hoke Leggett--met this week in Atlanta and re-emphasized funding of a \$9 million cotton dust research plan as its top priority. The expanded committee is made up of the highest officers of the Council, the American Textile Manufacturers Institute, Cotton Incorporated, and the Cotton Board. USDA staff members serve on a

One-Act Play To Be Presented

The Silver Whistle, will be presented by Tahoka High School's one act play cast in two performances today. They will be the entertainment at Rotary and will give a performance at 8 p.m. for the public.

Competition will be on March 31 at Frenship High School. Tahoka is set to present their play at approximately 2 p.m.

The play is set in a garden positioned between a home for the aged and a church. The story is about how one man came into the garden and made the old people "young again".

The cast includes Ricky Huckabey, Pam Krause, Denise Ehlers, Colette Williams, Jerry Nutt, Karen Stewart, Perry Dunlap, Bryan Simpson, Mark Smith, Roddy Williams, Ronald Webster, Donald Webster, Marcy Raindl and Tracy Draper.

The play is directed by Mrs. Leah Taylor and Craig Garner.

asked for the reading of the minutes. Alla V. Jones then gave the devotional which was on the Twenty-Third Psalm. Concern for human beings is clearly shown in the psalms.

Following the devotional, Lois White continued with the study of the parables. Today the parables showed the New Age as a reversal of conventional notions and taught that a response is required.

After the benediction, Mrs. Short and Mrs. Jones served refreshments to the eighteen members present.

Cancer Drive Set In April

Helen Autry of Wilson, county cancer fund campaign chairperson, said this week that the Lynn County Cancer Crusade will kickoff April 15, and urged county residents to welcome volunteers when they come to the door in house-to-house canvass.

"Everyone wants an end to cancer," she said, "so we urge everyone to give what he can to the American Cancer Society during its annual educational and fund-raising crusade in April."

"Some 200,000 Americans are alive and well and considered cured of cancer, but there are more lives to save. This is the goal of the ACS, and your giving can help."

Conference Set In April

Texas Tech University's second annual conference on Current Issues in Gerontology will be presented at the University Center April 9-11.

The program, "Quality of Life," addresses issues of life for the elderly in America. Speakers and topics have been selected to promote awareness, assist service providers and improve overall quality of life.

The conference is sponsored by the Texas Tech Center for Studies on Aging, Division of Continuing Education, the university and the Health Sciences Center Office of Continuing Medical Education. All are working with the South Plains Office on Aging, an area agency, in conducting the conference.

Speakers and panelists will deal with nursing education needs, inheritance and financial counseling, drug use and abuse, aging advocacy groups, abuse of elders, emotional self help, common disorders of the elderly, nutrition controversies, alcoholism, and unique needs and resources of the aging.

Registration before April 4 is \$30, after April 4, \$35, and \$20 for senior citizens.

African Swine Fever Alert
African swine fever (ASF) is once again threatening the United States.

The alert comes in the wake of a reported outbreak of this contagious, often fatal viral disease of swine in Cuba's Guantanamo Province. ASF

affects only swine; it does not affect people.

With ASF only 90 miles from the Florida keys, every American swine producer should be concerned and should keep a close check on his herd.

USDA inspection activities

at ports of entry have been stepped up since 1978 as a result of ASF outbreaks in Brazil, the Cominican Republic and Haiti. Imports of live hogs, fresh pork and uncooked pork products from ASF-affected countries are prohibited.

An earlier Cuban outbreak of ASF in 1971 was eradicated by the drastic but effective measure of destroying all swine affected and adjacent areas. According to recent reports, the same depopulation procedure combined with stiff quarantine actions is being followed today.

Although ASF affects no animals other than swine, it can be transmitted via food waste when uncooked pork scraps from infected animals are fed to swine.

Some of the signs of ASF are abortions, high fever, reduced appetite for food and water, tendency to lie down, depression, labored breathing, coughing and discolorations—blotchy or diffused redness—on ears, snout and abdomen of white or light-colored hogs.

U.S. swine producers who remember hog cholera—a disease eradicated here in 1978—will note that ASF and hog cholera signs are similar. Any unusual disease in pigs should be reported promptly to state or federal animal health officials.

On-farm tests proved it...

Lockett 77

\$42 more
made per acre.

In 56 comparisons over the last three years, certified Lockett 77 from Pioneer produced an average gross income of \$309* per acre... giving it a \$42 per acre advantage over competitive varieties.

Why such an advantage? Outstanding seedling vigor with excellent cold tolerance and seedling disease escape help Lockett 77 make a good stand. Added to that are multiple disease tolerance, hardy plant characteristics, and early maturity... a combination that helps Lockett 77 deliver outstanding performance.

Farmers who've grown certified Lockett 77 are well pleased with results. Jack and Paul Hopper at Knott recorded a lint yield of 1,553 lbs./planted acre in 1979. Ben Roming at Lariat got 830 lbs./A. And over the last four years at Tell, Texas, Clinton Halford averaged 975 lbs. of lint per acre with certified Lockett 77.

Ask your ginner or Pioneer dealer to show you performance data for Lockett 77 from your area. Then order your share for 1980 planting.

"Producer Power," the theme chosen for the annual meeting of Plains Cotton Growers, Inc., Lubbock, to be held from 1:30 to 5:00 p.m. April 2 in Lubbock Civic Center, is a "natural," thinks PCG President Joe D. Unfred of New Home.

"The idea behind all group efforts," he says, "is to help members of that group to have more power in the control of their own destinies, and that certainly is PCG's overall objective."

In this particular instance, Unfred explains, PCG is giving over a large portion of its annual meeting program to the pursuit of producer power through the work of Cotton Incorporated (CI). CI, financed by per-bale producer contributions, conducts national and international market development, promotion and research activities.

"PCG was an active force in the writing and passage of the Cotton Research and Promotion Act of 1966 that brought CI into existence," Unfred proclaims, "and our various boards of directors since that time have never faltered in the belief that CI is the most effective weapon producers have ever had in the battle for fiber markets."

The first two speakers on the PCG program after the President's report to the membership are expected to address the controversial and divisive issues that have surfaced around certain phases of CI operations, explaining what has been done and is being done to bring and keep the company above all suspicion of impropriety. One of the speakers is Murray Williams, Chairman of the Cotton Board, the producer board responsible for CI financial affairs, including collections, refunds, and the approval of CI budgets on a project by project basis.

The U.S. Department of Agriculture is also required to approve CI budgets along with its obligation to assure that the Cotton Board fulfills its responsibilities and that the entire program is carried out in accord with the intent of the law. Representing the Department on PCG's program will be P.R. "Bobby" Smith, Assistant USDA Secretary for Marketing and Transportation, under whose jurisdiction CI falls.

The trio of speakers on CI affairs will be rounded out by Nick Hahn, Vice President for CI's Sales and Marketing Division. Hahn's department directs a highly complex marketing program aimed at getting more cotton into everyday products such as apparel and home furnishings.

Unfred hopes and believes that those in the audience, expected to number about 500, "will go away from the meeting with a better understanding of CI and more confident than ever that producer dollars are in fact building a base of power over cotton's fortunes."

Child Welfare Board Plans Benefit

The Lynn County Child Welfare Board is sponsoring a benefit volleyball tournament to raise money for Christmas and birthday gifts for the foster children from

this county on March 29 at the Wilson Gymnasium beginning at 9 a.m. Lynn County has seven foster children at this time. There are no state or county funds available for special events. We believe that every child deserves to be remembered at Christmas and on birthdays.

Please help make this

possible for the fortunate children would like to see a concession booth at food, please call Soloman at 998-5277, Gill at 924-7376, Ann Russ at 327-5277.

The Seed Of Faith

The Seed of Faith

While reading some recent articles on the end of time, I noticed the word generation mentioned in one of them in a number of ways.

It made me go back to look again in Genesis Chapter 17 where God appeared to Abraham and told him to walk perfect before him and he would make him a father of many nations and that he would establish his Covenant with Isaac who was the son of promise and Abraham believed God and it was counted to him for righteousness. Then God said that this Covenant was to Abraham and to all his seed.

I am also reminded of Psalms 22:30-31, where the psalmist David spake concerning Jesus and said a seed shall serve him and it shall be accounted to him the Lord for a generation. Please read all of Chapter 22.

Then I was reminded of Isaiah 53:8, where speaking of Jesus it says He was taken from prison and from judgment: And Who shall declare his generation? For he was cut off out of the land of the living: For the transgression of my people was he stricken. (Verse 10) When thou shalt make his soul an offering for sin. He shall see his seed. Then Romans 4 tells us that the promise is through faith in God's Word that the promise might be sure to all the seed. Read all of this 4th Chapter. Also Romans 9:6-8, tells us again that the children of the promise are counted for the seed.

Now also read the 3rd Chapter of Galatians: The 7th verse tells us that "know ye therefore that they which are of faith. The same are the children of Abraham." The 29th verse tells us that "if ye be Christ's then are ye Abraham's seed and heirs according to the promise." Look at verse 28 of the 4th Chapter of Galatians. It tells us that we are the children of

promise.

Now let us go to 1 Peter 2:9 which says "But ye are a chosen generation, a royal Priesthood, a holy nation, a peculiar people; That ye should show forth the praises of him Who hath called you out of darkness into his marvelous light." Now if we are called out of darkness and are showing the praises of him then we might look at Matthew which explains this whole period of grace in the 24th Chapter and in verses 33 and 34 says "when ye see All these things come to pass, know that the day of the Lord is near. 34th - this generation shall not pass or leave this earth till all these things be fulfilled.

Luke 21 and Mark 13 gives the same truth. So if we are serving him as Christians should, does this not answer some of the questions as to where we will be and what we should be doing through all of these evil times that he speaks of? We have not seen the stars fall from heaven, the sun turn into darkness and moon into blood yet, so we can see that all these things have not come to pass yet.

He said in Matthew 24:29 that immediately after the tribulation of those days that this would happen. This to me would seem to be a shorter time than the term shortly that was used in Revelation 1:1

I am not trying to defend any church tradition but only trying to point out some truth in the scripture and if these scriptures that we have made mention of in this article are out of context then we do need to write a new Bible, as some are saying we need to do.

We love you in Christ Jesus our Lord and Savior.
