Presidential Race Holds Top Interest In County

BETWEEN CUTUPS--Tahoka High School Juniors Jeff Jennings and Tammy Owen do a Halloween clowning for the photographer. Tammy is the daughter of Mr. and Mrs. Owen and actually has a good head on her shoulders. Jeff, son of Mr. and Mrs. Phil Owen, plays a lot of guard and linebacker for the Bulldogs. Last year he wasn't quite tough for the varsity, but since then he's gruesome. (LYNN COUNTY NEWS PHOTO)

Lynn County voters will join others throughout the nation Tuesday in casting ballots in the general election, with the race for President of the United States holding the most interest here as elsewhere.

On the county and district level, several candidates who won Democratic nominations have no opponents in the general election, so will be elected Tuesday.

These include Joe Smith for district attorney, Jimmy Wright for county attorney, Stanley Krause for sheriff, George McCracken for tax assessor-collector, Eldon Gattis for commissioner of Precinct 1, and Bart Anderson for commissioner of Precinct 3.

Nine proposed constitutional amendments also are on the ballot.

May Be Close
For President, traditionally Democratic Lynn County will choose between the Carter-Mondale re-election ticket or the Reagan-Bush Republican challenge, and many expect

this one to be close in the county as well as in the state. Candidates for two other parties also are on the ballot for the top jobs.

There are several opposed races at the state level. U.S. Rep. Charles Stenholm, a

Democrat, who has Lynn County in his 17th district, is not opposed by a Republican.

State Rep. Jim Rudd of Brownfield, whose 77th district also includes Lynn County, is opposed on the ballot by Republican E.L.

Hicks. Neither has done much campaigning in Lynn County.

Sample Ballot
A sample ballot on page 4 of this issue of the News is a Precinct 1 ballot; a precinct 3 ballot would carry the name

of Anderson for county commissioner and ballots for the other two county precincts would not list a candidate for commissioner.

Polls will be open from 7 a.m. to 7 p.m. and polling places for the 11 county voting boxes are listed below. County Clerk C.W. Roberts emphasized that all persons will vote where they have in the past, even if they have been moved to a new precinct by the recent revision of precinct boundary lines. This means that ballots for more than one precinct will be available at some voting places. One change is that persons who formerly voted at Poka-Lambro building for box 6, North Tahoka, will vote at the Production Credit Assn. building on Lockwood.

Roberts said that more than 90 absentee ballots had been returned by this week, with absentee balloting to end Friday. The absentee total is considered heavy for the county.

Voting boxes and where they vote:

- 1 (South Tahoka)--Community center.
- 2 (Wilson)--Wilson High School.
- 3 (O'Donnell)--O'Donnell High School.
- 4 (New Home)--New Home High School.
- 5 (Draw)--Paymaster Gin.
- 6 (N. Tahoka)--Production Credit Bldg.
- 7 (Grassland)--Grassland Community Center.
- 8 (Gordon)--Gordon Gin office.
- 9 (W. Tahoka)--Tahoka High School.
- 10 (New Moore)--New Moore Community Center.
- 11 (Lakeview)--Lakeview Baptist Church.

White Scores 7 Times As Dogs Kill Frenship

BY DALTON WOOD

Tahoka running back Tracy White put on what was probably the greatest one-man scoring and running show ever seen in Kelley Stadium last Friday night, scoring seven touchdowns and rushing for 329 yards as the aroused Bulldogs flattened Frenship 60-0.

Winning their sixth straight game since a loss in the opener, the Bulldogs reacted in obvious anger to the statement of a Lubbock Avalanche-Journal sports-writer that Slaton appeared likely to win District 4-3A and "Tahoka hasn't looked impressive."

The blocking which cleared the way for White on many of his runs was fierce, as was the defense. The score was 34-0 at the half, and reserves played much of the last half.

White averaged 12.5 yards per carry (26 times) and scored on runs of 40, 12, 36, 5, 9 and 95 yards. He also caught a 35-yard touchdown

pass from Quarterback Mark Hudlin.

Elmore Kicks

Hudlin scored once from a yard out and James Wells ran 5 for the other Tahoka scores. And Guard Kevin Elmore kicked 6 extra points. In the first period line-backer Jacky Jolly blocked a punt and Daniel Garcia fell on it for Tahoka. But the Dogs fumbled it back and so the first score was not until 1:50 was left in the first period, as White went around end 40 for the TD.

Freddy Garcia recovered a Tiger fumble seconds later at the 31 and just before the quarter ended White ran 12 for a score.

Early in the second, White made his most impressive run, going 36 yards to score by virtue of some astonishing downfield moves after being sprung past the line of scrimmage.

Hudlin hit White in the end zone from 35 yards out and White scored again from the

5 just before the half, after halfback Charles Bryson intercepted a Frenship pass.

More Scores

White ran 9 in the third, and then Wells scored from the 5 after linebacker Jeff Jennings recovered a Tiger fumble at the 30. Hudlin scored before the end of the third to make it 53-0.

Frenship finally put on a good drive including four first downs in a row late in the third and early in the fourth, getting a first and goal at the 7. But Tahoka held on downs at the 5, and then White broke loose on the next play to go 95 yards.

Tahoka had a total of 461 yards offense, to Frenship's 182. On defense for the Dogs, good work was turned in by Jolly, Wells, Luchion Thompson, Freddy Garcia, Jennings and Johnny Alvarado.

Mad Dogs On Loose Friday

BY FRANK N. STEIN

The Cooper Pirates don't figure to have a ghost of a chance this Friday night as the Tahoka Bulldogs bring lots of spirit to Cooper heavily favored to dig the Pirates' grave a little deeper than it already is in a not-so-good season.

Cooper has yet to win a game and this Halloween night should prove no different as Tahoka has plenty of fast, rugged backs who are used to goblin up the yardage and crossing the ghoul line often.

Tahoka's defense, on the other hand, brings chills to most opposition running backs, who frequently find so many monstrous defenders around them they don't know which way to go.

Head Wizard A.D. Shaver warns, however, that footballs sometimes take some horrifying bounces, and that anything is possible. Also, the Bulldogs have had problems with penalties. If the referee, head linesman and vampire, uh, umpire, will keep their flags put away, the Tahoka attack should produce.

It is hoped that a good group of fans will go to Cooper and make enough racket to raise the dead, said Dwain Lusk, spookman for the Booster Club.

November Tax Discount Hiked

Because of the delay in the rates, Lynn County will offer a 3 per cent discount to those who pay their taxes in

November, it was decided Monday.

County commissioners voted to allow a 3 per cent discount in November and a 1 per cent discount if paid in December, on the recommendation of tax assessor-collector George D. McCracken.

It was noted that in the past the county has allowed 3 per cent for October payment, 2 per cent in November and 1 per cent in December. Since the tax notices have not yet been mailed out, nobody can pay his taxes in October this year. McCracken said the notices should reach taxpayers about the middle of November, giving them a couple of weeks to take advantage of the maximum discount.

On behalf of the Livestock Show Committee, represented at the meeting by Lyndell Wood, the commissioners accepted the low bid of Earl McCuiston for putting a concrete floor in the show barn. There were two other bids higher than the \$21,843 bid accepted. Funds for the project are being donated. With all commissioners present, the group also voted to seek bids on a new car for

the sheriff's department.

Concerned over the possibility of not getting any revenue sharing funds this year, the county group passed a resolution to be sent to federal officials urging that the revenue sharing program which expired in September be reinstated during the session of Congress beginning Nov. 12.

The resolution, to be sent to Rep. Charles Stenholm, Sen. Lloyd Bentsen, Sen. John Tower, President Carter and others, states that if revenue sharing funds are not available, "Lynn County will be short of funds for fire fighting, solid waste disposal, library services, law enforcement and ambulance service."

No School Friday

All classes will be dismissed at Tahoka Friday for teacher in-service training. Teachers from 65 South Plains schools will gather in Lubbock at the Civic Center for meetings. Classes will resume Monday at the regular time.

Discussion-Action Group Aims Cited

About 40 persons attended the official organizational meeting of the new Lynn County Discussion and Action Group at First National Bank meeting room Monday night, and were reassured by Chairman Steve Greer that the objectives of the citizen group are to give help to local county, city and school governing boards.

"We're not trying to tear anything down," Greer said. "We are basically trying to provide some input into these governing groups, perhaps supplying some information which they might not otherwise have access to."

He said the new group is interested in learning more about how each board operates, and what they can and cannot do within the rules under which they must operate--particularly where certain actions and practices are mandated by the state and federal governments.

He indicated the group would like to know in advance whenever possible about what items will be

considered by the city council, county commission and Tahoka school board so they can offer views on some matters. Representatives of all except the school board were present and assured those present that agendas will be made available as soon as they are prepared, and that any of the board meetings are open to the public. High School Principal Jim Marcus, representing the school, also confirmed that school board meetings are open to visitors anytime except during executive sessions at which no official action may be taken on any matter.

Most of the meeting Monday was low-key and in harmony until the question was asked of High School Coach A.D. Shaver if pressure has been exerted on teachers to give athletes passing grades they do not qualify for.

Marcus and Shaver both strongly denied the allegation.

It was indicated that the DAG would meet monthly. Vice Chairman is B.L. Miller.

GOOD BLOCK--An unidentified Bulldog puts a good block on Frenship's John Ream (11) and another Tiger, Keith Hitt (66) tries to grab Tracy White at far right. White was not grabbed too often as he gained an astounding 329 yards rushing in the game won by Tahoka 60-0. At left Freddy Garcia (60) looks for someone to hit. (LYNN COUNTY NEWS PHOTO)

Ston Brookshire

Services for Preston Brookshire, 66, of Brookshire, were held at 2 p.m. in the First United Methodist Church here with the Rev. Lloyd Starnes, and the Rev. Loyd McConner, retired Methodist minister, officiating. He was in Grassland under direction of the Funeral Home of

at 2 a.m. Monday in County Hospital. He had lived in Lynn County Memorial Home here for the

past five years. Born in Shelby County, May 5, 1914, he moved to Lynn County in 1923 from Center. He attended school at Grassland and was a member of First United Methodist Church here.

He had farmed until his retirement.

Survivors include his father, W.G. Brookshire of Post; and four brothers, Melvin of Conroe, Benny of Irving, and Charles and James, both of Tahoka.

Pallbearers were H.B. McCord, Davis Bishop, G.W. Grogan, Bishop Mathis, Glenn Mathis and Jimmy Williams.

Ann Wharton House

Mrs. Beyerly Ann (Wharton) House, 42, daughter of Winston Wharton of Tahoka, died in her sleep at her home in Waco early Tuesday. Services were scheduled in El Paso, with other arrangements pending.

Mrs. House, wife of attorney James C. House, was born Nov. 17, 1937 in Abilene. The Whartons moved to Tahoka from Olney and their daughter was married in the Wharton home here on Sept. 14, 1963. She was a member of the Methodist Church. She was a partner in the former Wharton Motor Co., Inc.

Other survivors include her husband and their three children, Elizabeth Ann, James Stuart and Carolyn Louise.

Her mother, Louise Wharton, died April 16, 1979.

Faith Circle Meeting

On Oct. 27 Faith Circle of United Methodist Women met in the home of Lady Stewart with Naomi Bell as co-hostess.

A Silver Tea Offering was taken. Mrs. Dortha Weaver, treasurer, explained how the circle money is spent, one item being the support of an orphan in the Philippines.

After the business meeting Loucille Stewart gave a devotional on fear, based on Psalms 34:4.

This was the second session of the bible study "Biblical Understanding of Mission" directed by Lois White.

The meeting closed with the circle benediction after which refreshments were served.

Thefts Are Reported

Tahoka Police this week were investigating the theft of a ring valued at \$450 and deputies were checking on three reports of thefts from rural areas in the county.

Mike Reid, 2414 N. 2nd, told police that a Texas Tech ring, yellow gold with inlaid rubies, had been stolen from his home recently.

Tireza Garcia of Tahoka told police Monday someone took a rabbit from a cage and also killed two other rabbits.

Police issued one ticket for careless driving and arrested three persons for drunkenness during the week.

At county jail, there were three held for public intoxication, two for DWI, and one each for disorderly conduct, theft and attempted auto theft during the week. All were out of jail by midweek.

Cliff Thomas reported last Thursday that some batteries and a radio had been stolen off a John Deere tractor three miles southeast of Petty.

On Sunday, L.H. King reported tools and a battery valued at a total of \$522 stolen from a farm 1.5 miles west of Southland. And on Tuesday Jerry D. Franklin reported an air compressor valued at \$356 stolen from a barn 10 miles south and 11 west of Tahoka.

Son-Shine Singers To Hold Concert

The SonShine Singers from First Baptist Church of Tahoka will present a Gospel concert Wednesday night Oct. 29, at First Baptist Church in O'Donnell at 7:30 p.m. The group, now numbering twenty-two, was

GOVERNOR'S REPORT

by William F. Clements Jr.

A bill to provide for tightly-restricted electronic surveillance—wiretapping—in felony narcotics cases will be a fundamental part of the complete law enforcement package that I will submit to the Legislature next January.

I respect and fully support the right of individual privacy, and the legislation I will offer will protect that basic right of law-abiding citizens.

An effective wiretap law is essential to the success of state and law enforcement officers, however, in detecting, apprehending and prosecuting the criminals who mastermind and finance the narcotics traffic.

Texas, with 644 miles of coastline and 1200 miles of border with Mexico, is a major trans-shipment state in the drug traffic. Drug use in the United States generates \$50 billion to \$60 billion a year, and drug operations in

Texas alone constitute a \$3 billion annual business.

Two thirds of the heroin which comes into the United States moves through Texas. Drugs generate a major amount of other crime, and take a terrible toll in human lives. We are long overdue in providing our law enforcement officers with tools to stop this traffic.

The U.S. Supreme Court has upheld constitutionality of the federal wiretap law which was passed by Congress 12 years ago. Twenty-four states and the District of Columbia have adopted wiretap legislation since 1968, and none have repealed them.

I propose a state law patterned after the federal act but with even more stringent limitations. Under my proposal, wiretaps would be permitted only in felony narcotics cases. These safeguards against invasion of privacy would be written into the act:

—The Texas Department of Public Safety alone could install, operate and monitor wiretaps.

—Only nine judges in Texas—one in each of the nine administrative judicial districts named by the presiding judge of the Court of Criminal Appeals—could authorize the taps on finding they are necessary to get information in cases where there is probable cause to suspect felony narcotics involvement.

—Just 30 days of surveillance would be permitted by initial court orders, with additional 30-day extensions possible after judges review progress reports on the taps.

—Those whose communications were interrupted

would have to be notified within 90 days after surveillance is terminated. Notifications also would be required where a wiretap is denied.

—Information obtained from an illegal wiretap would not be admissible in court.

—Illegal wiretapping would be punishable by two to 10 years imprisonment and fines up to \$5,000. Civil damages could be recovered in event of illegal taps.

I am convinced that this legislation would give law officers an important new weapon which could be used after other investigative techniques have been tried unsuccessfully.

There is plenty of support for such a measure. Polls indicate more than two-thirds of Texans favor this added enforcement tool to combat the drug traffic. Eighty-one per cent of Republican primary voters this year endorsed it. My proposal also has backing of the Texas District and County Attorneys Association, the Sheriffs' Association of Texas, Texas Police Association, Texas Chiefs of Police Association, Texas Association of Police Attorneys, Organized Crime Prevention Council, Texas Federation of Women's Clubs, Ross Perot's War on Drugs Committee, and the Mayors' Advisory Committee of Texas Municipal League. Some of our outstanding newspapers also have endorsed a Texas wiretap bill.

I cannot argue that wiretapping will solve the drug problem. But without it, our efforts to detect and prosecute the top financiers and traffickers of narcotics will continue to be hampered.

TOTAL SOYBEAN PRODUCTION throughout the country is down sharply due to widespread drought conditions, reports the U.S. Department of Agriculture in its latest crop report. Dry weather extending through early August is cited for a predicted 19% production decline from last year, the first two weeks of that month are expected to decrease—due to a comparatively small crop of 1.83 billion bushels—soybean production expected to rise during coming months. That accompanies a predicted trend of higher farm prices this fall. Already this year, total U.S. farm prices rose 2.2% in the largest monthly increase since 1973. And total U.S. farm prices in August were above a year ago. USDA attributes these gains largely to the reduced soybean crop. A 16% predicted decline in corn production, a 20% expected decrease in the cotton and a 33% predicted decline in grain sorghum output. USDA reports that only one among major crops, appears to have escaped the drought.

Around Town

By Leona Waldrip

Gladys Holden of Big Spring left Thursday after a 2 weeks stay in the home of her sister Ava Lichey.

Mrs. Mable Morgan spent the weekend in Midland with her son, Travis and family.

About 150 persons were on hand Sunday at the Grassland reunion held at the community center. Among those going from Tahoka were Mrs. Etta Burk, Bernice Shepherd, Willie Thomas, Lena Short, Rosebud Watson and Ruth Milton. Mr. and Mrs. Ferman Chapman of Brownfield also attended. Mrs. Stella Mae Mayor of Weatherford, who once attended Grassland school, was there and came home with Willie Thomas for a few days visit with old friends.

Mrs. Carpenter and Mrs. Schneider were hostesses when Wilson Sewing Club met on Monday afternoon. The group has set Dec. 8 as the date for their Christmas Party. Mrs. Charlie Lichey and Mrs. Elmer Rice attended from Tahoka.

About thirty persons attended the Pot Luck Supper and game party at Senior Center on Monday night. Skip-Bo, "42" and dominoes were played.

Mrs. Rutha Tilley and Sherry attended the wedding of a granddaughter and niece in Lubbock on Friday night.

A large crowd attended the Appreciation Luncheon on Monday at noon held at Lyntegar meeting room and sponsored by Lynn County Council of Extension Homemakers Clubs. Judge Melvin Burks and the commissioners were special guests along with several other business people. Two 50 year awards were presented and several door prizes were awarded. These were furnished by the several Homemakers Clubs in the county. Sherry Etheredge, agent, was also presented a gift. The luncheon menu, prepared by club members, consisted of barbeque beef, beans, salads and cobbler.

To Lynn County Voters:

Do we need Ex-Democrat Governors and politicians who have lost the peoples confidence to now tell us they are in truth and fact Republicans, and we should vote for a Republican President.

True, there are some things that we don't like, but they were in a mess when President Carter took over from the Republicans. He has honestly and sincerely tried but has been blocked by the politicians on every corner.

We wonder if the BEST BRAINS in the United States, which Mr. Reagan says he will consult on all matters, will have the same Republican philosophy of old. We, doubt they will know that there is such a place as Lynn County, and such a thing as a Lynn County farmer.

It would be a shame to saddle Democrat Congressmen Hance and Stenholm with a Republican President.

Editor:
I have seen a letter in your issue last week rating President Reagan as a low rating President. I feel led to present a letter about Reagan. Mr. Reagan promises to cut the number of workers from the balance budget, to fight inflation, build up forces and a lot of other things.

\$4.6 billion to \$10.2 billion in eight years. Sales tax revenue increased from \$1.1 billion to \$2.7 billion. Personal income tax fed by his higher rates tripled from \$626 million to \$1.83 billion. Bank and corporation rose from \$453 million to \$1.05 billion. Cigarette tax increased from \$78 million to \$259 million. He brags about how much tax he returned to the people. The people saw very little of this money. He reduced the business inventory tax by \$261.5 million annually. He signed a bill returning \$29 million to transportation companies. He created a Home owners tax relief program that grew to \$668 million. This

benefited the rich. The average tax was \$225.00, so you see the large expensive home got back the most by far.

He says he will kill the Energy Commission Carter created. He created an Energy Commission in Calif. in 1974 which has in six years become a \$54 million bureaucracy with 570 employees, which has a reputation of being more restrictive than the Federal Energy Commission.

The number of state employees was 158,404 when Reagan took office in 1967 or one employee for every 120 residents. When he left office there was one employee for every 103 residents or a 28% increase in eight years during which the state population rose 10%.

The Calif. taxpayer association says in the last four years he created 73 new state government councils, commissions, advisory boards costing tax payers \$12 million annually by 1974.

So you see, Mr. Reagan has based his whole campaign on lies and no one can do this and win.

Incidentally farm prices which were at an all time post-inflation low under Ford are now at an all-time high under Carter.

Yours for truth in government.
Herbert S. Watson
Route 4, Tahoka, Texas

Dear Editor:

Texans should be aware of any promises Jimmy Carter makes in the last weeks before the election. I hope we learned our lesson from 1976 when he made a rash of promises prior to election day. One such promise was his pledge to Governor Briscoe that he would support the immediate deregulation of oil and gas prices. No sooner was the election over, when Jimmy

Carter went back on his word and started fighting immediate deregulation.

It looks like Jimmy Carter's trying to pull another fast one on Texans, and we must not let him get away with another lie. I read with interest Mr. Carter's latest claims that he now intends to support an exemption from his Windfall Profits Tax for small royalty owners.

The fact of the matter is that Jimmy Carter has consistently opposed the exemption for small royalty owners. I vividly remember the fight he put up in Congress last summer against the exemption, and then just a month later in August, he successfully fought to keep this exemption out of the Democratic Party platform.

On the other hand, the Republican Platform calls for the repeal of Jimmy Carter's Windfall Profits Tax as it applies to small royalty owners. Texans support this exemption, but we are not going to depend on Jimmy Carter's hollow promises again to see that the exemption takes effect. That's why Ronald Reagan has won the support of the small royalty owners and that's why he's going to carry Texas.

Sincerely,
Julian Pirtle

Vote for Greater Banking Convenience

Passage of Proposition 1 on the November 4th ballot will open the door to even greater banking convenience. This simple change in the law will allow Texas banks to place unmanned teller machines at convenient locations for faster service, night or day. These teller machines are becoming a convenient option for handling routine banking business.

"Round-the-clock banking at unmanned tellers is convenient, safe and a positive step toward avoiding unnecessary credit card use. . . moreover, it is an energy saver — instead of traveling across town to a bank, an unmanned teller can be built in your neighborhood."
— San Angelo Standard-Times

Proposition 1 "will make life easier for bank customers. . . (it) will eliminate many, if not all, of the tortuous lines seen clogging drive-in bank lanes."
— Houston Chronicle

Proposition 1 "has gained widespread support as the amendment faces voters Nov. 4."
— Orange Leader

"Off-premises unmanned teller machines should be approved by Texas voters."
— San Antonio Light

People in forty other states already have this convenient banking choice. It's time Texans did, too.

Your Comments Needed
Public comments are requested about the 1981 Cotton Program. Your comments should be mailed by December 2 to be considered. Items you should comment on are:
1. Should a farm be required to plant within the farm's Normal Crop Acreage (NCA) to be eligible for program benefits?
2. Should there be a Voluntary Paid Diversion, if so, how much?
3. Should there be a Voluntary Paid Diversion, if so, how much and what pay rate?
4. Should Seed Cotton Loan continue (ricks and modules) The address is: Director, Production Adjustment Division, Room 3630 South Building, Agriculture Stabilization and Conservation Service, United States Dept. of Agriculture, P.O. Box 2415, Washington, D.C. 20013.

NCA notices are being mailed Oct. 27, 1980. All operators should review the notice for each farm. Appeals for increased NCA must be filed by Nov. 12, 1980. A farming practice that has changed or will change is reason to appeal. Example: A change from livestock to cotton farming or breaking out of non-cropland. Crop yields are not on the notice because they have not been figured. They will be mailed at a later date.

Harvest Continues To Expand

Favorable weather all week allowed High Plains cotton harvest to continue expanding. Sample receipts per day averaged about 13,000 this week against around 6,000 per day last week, according to Mack Bennett, Area Director at USDA's Marketing Services Office in Lubbock. Field stored seed cotton in modules appeared in north eastern counties just after the rains last week, Bennett said.
Lubbock's office classed 37,900 samples during the week ended Oct. 23 as the classing staff increased to 24 from 17 a week earlier. This brought total samples graded for the season to 55,300. About 3150 samples had been classed by the same date one year ago.
Predominant grades during the week were grade 42 and 48 percent, grade 52 - 29 percent and grade 51 - five percent. About six percent of the samples were reduced one grade because of bark, according to USDA's Agricultural Marketing Service.
Staple 31 was predominant at 37 percent. Staple 30 was 26 percent followed by staple 32 at 19 percent. Average staple for the week was 31.1, up from 30.7 a week earlier.
Micronaire readings of 35-49 accounted for 86 percent. Three percent miked higher while 11 percent were lower. Average mike for the week was 41, down from 42 one week earlier.
Average breaking strength was 89,000 pounds per square inch against 91,000 PSI the week before.
Growers sold small mixed lots of mostly grades 42, 52, and 43; staples 30 and 31; mike 35 - 49 at around 74,00 cents per pound.
Gins paid growers \$100 to \$125 per ton for cottonseed, mostly \$110 to \$115.

must have had at least 40% loss in grazing and be purchasing and feeding above normal.
1980 Crops
If you complete harvesting a crop and have a low yield, you should file for low yield within 15 days of completing harvest on each farm. Acres not harvested should be reported before they are destroyed.

Opportunities Await 4-H Volunteers
If volunteer programs are your "Thing," then the Texas 4-H and youth program offers unlimited opportunities to help young people learn and develop.
4-H is the youth development program of the Texas Agricultural Extension Service, and focuses on the needs, interests and concerns of boys and girls 9 to 19 years of age. Its aim is to help young people develop through practical learning experiences such as preparing a nutritious meal, building bookshelves or growing a vegetable garden, says Drennan, county 4-H program coordinator with the Extension Service.
Since young people do not develop their skills and attitudes overnight, they need and seek guidance from the 4-H volunteer who helps them probe the "why" behind the "how to do it."
Helping youth develop, however, requires different kinds of leadership. For those who prefer to work primarily with youth, 4-H offers leadership roles related to the organization, project or activity aspects of a 4-H group, the "project and activity leaders" help boys and girls learn by involving them in a specific project, such as clothing, auto repair and bicycle safety, and related activities, such as safety clinics, exhibits and local tours. These leaders may, in turn, be assisted by junior and teen leaders who work closely with an adult or teen advisor.
Volunteers who prefer to work primarily with adults also have a wide range of choices. A 4-H project or activity chairman helps other leaders with a specific project or activity. A 4-H recruiter seeks out youth and adults interested in be-

coming 4-H members or leaders, then allows the 4-H organizer to help the new group get started. Volunteers are also assisted by the 4-H trainer who helps train other leaders in the area and by the 4-H resource person who secures special materials or people from the community.
If you are interested in young people, want to share your talents and hobbies, and enjoy meeting other adults with your same interests, consider being a 4-H volunteer, suggests Drennan. Contact the county Extension office for personal assistance to help you find a volunteer role that's right for you.

Dinner Help Still Needed
Donations of food, money or work for the annual Thanksgiving Dinner Nov. 16 are still needed, according to Nadine Dunlap, president of the sponsoring Tahoka Chamberettes.
The Chamberettes will serve the dinner at the school cafeteria that Sunday starting around noon, and proceeds will go to show barn improvements.
Anyone wishing to help in any way is asked to contact Mrs. Dunlap or any Chamberette member.

COTTON TODAY

A NATIONAL COTTON COUNCIL SERVICE

NCA Requirement Urged: National Cotton Council President Herman Propst has expressed strong opposition to the U.S. Dept. of Agriculture's proposed Normal Crop Acreage (NCA) requirement. Under the proposal, cotton producers will have to remain within their NCA to be eligible for loans and target price protection and disaster payments.
In a wire to President Carter and Agriculture Secretary Bergland, Propst called for an immediate modification of the 1981 farm program by deleting the NCA requirement. As a less desirable alternative, Propst added, if NCA restriction on wheat is considered essential, cross-compliance requirements now in effect under the 1981 wheat program should be waived so that cotton producers who also plant wheat and who exceed their NCA will remain eligible for loans, target price protection, and disaster payments on cotton. Propst said strong cotton market and tight supply indicate no need for NCA compliance in cotton program.
The practical effect of the NCA requirement is to limit producers to their 1977 total farm acreage planted to any one or combination of 14 crops designated by the Secretary.
The impact is especially acute in the Cotton Belt states. Based on USDA figures, farmers as a whole in the Cotton Belt would have to reduce their 1981 total plantings of basic crops as follows: Alabama, 22%; Arkansas, 15%; Arizona, 26%; California, 14%; Georgia, 19%; Louisiana, 12%; Mississippi, 8%; North Carolina, 15%; South Carolina, 12%; and Tennessee, 24%.
Cotton Use Shows Increase: The seasonably adjusted annual rate of cotton consumption by U.S. mills rose to 6.3 million bales in Sept., up from recession-impacted level of 5.97 million in August. Cotton's market share of September mill consumption of all fibers declined 1.5 percentage points from the August rate but was still ahead of the January level. Concurrently,

total fiber consumption by U.S. mills last month increased 12.2% from the previous month on an annualized basis.
According to National Cotton Council analysts, cotton's market-share drop stems partially from improved activity in carpeting and other man-made fiber markets which were affected more severely by the recession.

The Time Is Now . . .

DEMOCRATS, INDEPENDENTS AND REPUBLICANS:

Ronald Reagan and George Bush will provide the necessary change our country so desperately needs. The time is now for our country to once again be

the powerful nation it deserves to be. Please join us on Nov. 4th in changing the destiny of our country by electing Ronald Reagan and George Bush.

Under Carter

Inflation up 4% to 18% a year
Interest rates highest since Civil War.
Largest peace-time taxes in history.
Farm income down 40% in last year alone.
Nation's security at low ebb.
We have lost friendship of other nations.

Reagan Proposes

Program to make farming profitable again.
Less government—back to free enterprise system.
To oppose Federal Land Use Planning.
To promote expansion on farm product exports.
Reduction of Federal Debt (now nearing one trillion dollars).
To promote peace through strength.

After generations of struggle to build America's Superstate, Texans shouldn't have to fight to be independent of Washington's control.

But with Jimmy Carter in the White House, we've had to do just that.

This may be the most important decision of our lifetime.

Comment Sought On 1981 Upland Cotton Program

Washington— Public comment is requested by Dec. 2 on provisions of the 1981 cotton program. Ray Fitzgerald, administrator of the U.S. Department of Agriculture's Agricultural Stab-

ilization and Conservation Service, said these provisions include whether there should be a set-aside or acreage diversion for 1981, the appropriate level for the target price and the national

program acreage. Fitzgerald said those favoring a set-aside or acreage diversion program should state the amount they recommend.

He also asked for comment on these program items:

--If a set aside is in effect, should there be a limitation on upland cotton planted acreage and, if so, the extent of the limitation;

--The voluntary reduction from 1980 upland cotton acreage required in order to guarantee target price protection on total 1981 planted acreage;

A Visit With Your County Agent

By Stanley Young

Frost will be hitting Lynn County before long, and this could lead to prussic acid poisoning in livestock grazing certain pasture grasses and forages.

Although many plants contain the toxic material that causes poisoning, those causing the highest mortality in livestock when grazed

acres and program allocation factor for upland cotton.

The national program acreage is the number of harvested acres USDA estimates is needed to meet domestic and export requirements during the 1981-82 marketing year which begins Aug. 1, 1981. The minimum national program acreage required by law is 10 million acres.

The allocation factor is determined by dividing the NPA for the 1981 crop by the estimated harvested acreage for the crop.

--Whether compliance with the farm normal crop acreage should be required as a condition of eligibility for loans and payments.

The proposals will be published in the Oct. 3 Federal Register. Comments should be sent to director, production adjustment division, Room 3630 South Building, ASCS, U.S. Department of Agriculture, P.O. Box 2415, Washington, D.C., 20013.

after they have frozen and wilted are Johnson and Sudan grasses and sorghum or hybrids of these.

The most dangerous time as far as the grazing of these plants is concerned is following frost when the plant material begins to wilt. Livestock should not be allowed access to the wilted material until it has dried completely. This usually takes three or four days of good sunlight. New plant growth usually becomes nontoxic and can be grazed within 10 days to two weeks following a rain.

As far as prussic acid poisoning is concerned, the poison acts rapidly and can kill animals within minutes. In most acute cases, animals become affected within 10-15 minutes after eating toxic material and die in two to three minutes. Symptoms may include a brief period of stimulation followed by depression and paralysis. Signs of colic may be present. Stupor (loss of sensibility), difficult breathing and frequent convulsions may result. Death is caused by suffocation since oxygen remains in the blood and is not exchanged to the tissues. This also causes the blood to appear bright red.

To prevent prussic acid poisoning in livestock, Young outlines these steps:

1. Allow plant material affected by frost to dry thoroughly before grazing. This may require a week or more of good sunlight.

2. Feed animals hay or a supplement before turning them in on plants that may contain prussic acid. Animals that are not hungry will not be affected as seriously by toxic material since their intake will be limited.

3. Remove all animals from the pasture if one in the herd shows any signs of poisoning.

4. Call a veterinarian immediately if an animal appears to be poisoned. An antidote to treat affected animals is highly efficient if given early. This product is available from veterinarians.

5. Have suspect plant material checked by the Texas Veterinary Medical Diagnostic Laboratories at College Station or Amarillo. Local veterinarians will be

Publication Features Tahoka Co-Op Manager

David Martin, manager of Tahoka Co-Op Gin, was featured in an article in the October issue of ACG News, the publication of American Cotton Growers.

The article points out that Martin at age 25 is one of the youngest managers of a large co-op gin in the business, noting that "Martin has progressed from a cotton gin flunkie to gin manager in less than a decade."

He became manager of the co-op here in June, chosen by the board over 15 applicants for the job vacated by J.O. Reed, who took a

position in Brownfield. The article about Martin said, in part:

"Instead of sitting back, with propped-up feet reminiscing how he beat out a dozen older and more experienced men for his job, Martin is immersed in the everyday detail of preparing Tahoka Cooperative Gin for the ginning season that is already underway.

"He has all the distinct personalities of the staff to mesh into a smooth, working organization."

"And he has to think about maintaining the confidence of the hundred producers who own the operation."

"A lot of my job is public relations," Martin said, brushing aside the nine years of gin running and servicing he collected since high school days. "I'm taking care of the farmer's money and I have to let them know I'm doing a good job of it. They have a big investment here."

"The business is hardly new to Martin, who all but grew up in the rural cotton

gins beside his father, Dan, now employed at PCCA. The older Martin was a gin manager at age 22 and formerly managed the neighboring co-op gin.

"In addition to the gin experience that began in high school, he also busied himself at Tahoka High with FFA projects and once had the grand champion barrow at the Lynn County Livestock Show.

"We are totally producer-oriented," he continued. "I want my members to know it's worth their while to patronize the gin. We want

Livestock And Crop Reports Needed

From mid-November to early January, thousands of Texas farmers and ranchers will receive a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service or will be personally interviewed by the Service's field staff. The information gathered through the questionnaires and interviews provides the basis for determining the final acreage, yield, and production of crops and end-of-the-year livestock and poultry numbers for the state of Texas and for each county.

All of the estimates published by the Texas Crop and Livestock Reporting Service are based on the data provided by Texas farmers and ranchers, County Extension Agents, ASCS offices, and many others in agriculture. This cooperation provides the necessary data which is, in turn, returned to farmers and ranchers and others in the form of accurate estimates, which are so essential in making the wisest production and marketing decisions. Accurate estimates are also essential to farm organizations and legislators in promotion, planning, and enacting wise legislation and are used in establishing acreages and payment levels to producers under the various commodity programs.

The collection and publication of agricultural status publication of agricultural statistics are a cooperative effort between the Texas Department of Agriculture and USDA. This cooperation avoids duplication of effort, promotes economies, and increases the effectiveness of statistical reports. All individual farm and ranch information is kept confidential, and only state and county summaries become part of the final published estimate.

County estimates for 1979 and January 1, 1980, are available on Livestock, Poultry, Dairy, Field Crops, Small Grains, Cotton, Vegetables, Fruits and Pecans, and Cash Receipts from the Sale of Texas Farm Commodities. Bulletins can be obtained from the Texas Crop and Livestock Reporting Service, P.O. Box 70, Austin, Texas 78767, or by writing Reagan V. Brown, Commissioner of Agriculture, P.O. Box 12847, Capitol Station, Austin, Texas 78711.

Vote to Keep Judge Will Garwood on the Texas Supreme Court

Judge Will Garwood has widespread support from Democrats, Republicans, Independents, three former governors, four former attorneys general, 11 former Supreme Court justices, 15 Texas Bar presidents.

Texas lawyers endorsed Judge Garwood by 82%. He won local judicial preference polls by 86% in Dallas, 86% in Houston and 80% in Fort Worth.

Judge Garwood is the choice of so many because he's fair-minded, non-partisan and better suited to the job through personal qualifications and superior training.

He has over twenty years experience in private civil law practice. He served with the Judge Advocate General's Corps, U.S. Army, and was first in his class every year at The University of Texas School of Law, receiving his LLB with honors.

"The appointment of Will Garwood to the Texas Supreme Court sounds like a chapter of Texas history repeating itself. The Garwoods have a long record in the judiciary. Will Garwood's grandfather, Hiram Garwood, was county judge of Bastrop County in 1888 and at one time president of the Texas Bar Association. W. St. John Garwood, son of the county judge and father of the new associate justice, was the first Houstonian to be named to the Texas Supreme Court in 80 years... This three-generation record of public service is in the finest Texas tradition"

- HOUSTON POST

"Garwood's legal credentials are, to put it modestly, magnificent."
