Full Integration Plan Proposed

Dr. Marvin Baker, president of South Plains Junior College, Levelland, will be speaker at Wednesday's noon meeting of the Lions club, it was announced Saturday. Ray Martin is in charge of the program. Dr. Baker will discuss the functions of a junior college, and while here will meet with the junior college committee of the Muleshoe Chamber of Commerce.

Mr. and Mrs. E. O. Baker, Mrs. Ernest Kerr and Pam attended J. Frank Busby's services in Lockney Monday afternoon. Busby was the brother of Mrs. E. O. Baker and the uncle of Mrs. Kerr. Busby was a resident of Lamesa and a former resident of Lockney.

Muleshoe Jaycees will stage their second "Destruction Derby" of the season this afternoon. Entry fee for participants is \$10. Gate fee for spectators is \$1. A \$100 prize and a trophy will go to the winner of the event, second for this season.

Last weekend's rains cost Melvin Malone three horses, valued at \$500. They were killed when lightning struck a fence in a pasture near Lazbuddie. Three other horses, standing farther back from the fence, were unharmed.

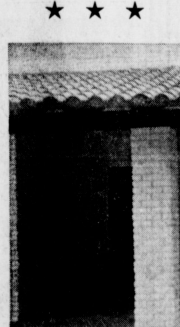

Bids are being accepted by local banks for the school depository for the next biennium, starting Sept. 1. Bids will be opened by the board at their meeting June 7.

Office Shuffle Puts Collector On First Floor

Workmen have started the task of remodeling offices formerly occupied by the district attorney on the first floor of the courthouse. The county collector's offices will be moved to the first-floor quarters.

A counter has been built and the partition is being removed which formerly separated the district attorney's private office from the office of his secretary. See OFFICE, Page Eight.

Redistricting Faces Commissioners Here

While no mention of the matter has been made in county commissioners' sessions here, Bailey county, along with many other West Texas counties, faces redistricting.

Thus efforts to redistrict nearby counties is being followed with much interest here. This county is faced with the same situation as prevails in Lubbock county, observers pointed out Saturday.

Bailey county now has an estimated population of 10,132 and more than half of those persons live in one commissioner's precinct. This is a parallel to Lubbock county's situation; if the county is re-districted to provide a more equitable distribution of population, then "majority of the commissioners will be from the City of Lubbock," it was pointed out.

Lubbock commissioners this past week tabled a motion to redistrict on a population basis after a lengthy discussion.

Parmer county, on the other hand, is not faced with a top-heavy concentration of population, observers said. Farwell.

Dog Roundup Puts Pooches In City Pound

Muleshoe's dog pound is bulging with pooches these days as city officers cracked down on free-roaming, unlicensed, unvaccinated canines. Sixty dogs already have been picked up this month, which is a third more than last month's entire record.

The crackdown came after city council passed a strict pet ordinance early this month which requires that stray dogs and cats be picked up and taken to the pound. They are held at the pound, east of Muleshoe, for three days and if not called for, are disposed of.

The ordinance also requires that even licensed and vaccinated dogs must be kept under control at all times, and cannot be permitted to roam the streets. The ordinance says the pooches "must be in control of a competent person at all times."

Last Tuesday's "bargain" tag - and - vaccination session at city hall was highly successful. More than 150 persons took their pets to the city hall for the mass vaccination and tag day. Fees for that one afternoon were reduced from \$4 to \$3 - \$1 going for license, tags and \$2 for rabies vaccination. Normally the vaccination fee alone is \$3.

Bovina and Friona are the three principal towns, and no one has an outstanding population majority over the others. Thus the issue in that county has been quiet.

The situation which Bailey county faces, however, is typical of many counties in West Texas. Castro county, Cochran county, Swisher county and Deaf Smith county, for example, are typical of such counties. County seat towns have the bulk of the population. To a lesser degree, the same thing is true of Lamb county.

One observer, commenting on the situation in this county, made this statement: "We know that sooner or later — probably sooner than we realize — we are going to have to face this redistricting on a population basis. Areas that have that greatest population are entitled to the lion's share of representation. At least that is the trend throughout the United States. We will have to re-district, too, if this trend continues. See Redistricting, Page Eight."

Budgets Are Set For Activities

Muleshoe school board has approved budgets for band, choir and athletics for the 1965-66 school term, it was announced this past week.

High school band budget was set at \$6000, the junior high budget at \$1000 and high school choir at \$761. The junior high budget was approved at \$239. The athletic budget was set at \$13,435, and Superintendent Neal Dillman explained that this includes all athletics for both boys and girls from grades seven through 12.

Rains Again Boost Farm Outlook Here

Rains that looked more productive than they actually were, hop-skipped across Bailey county this week, and in areas did a pretty good job of wetting down the already well-watered soil.

However, here in Muleshoe, the total for Sunday through Thursday added up to only .64 inch officially.

Both north and south of Muleshoe, however, the fall was considerably greater, farmers' rain gauges measuring up to as much as 1.5 inches. Muleshoe was squarely between two "alerts" that were posted for West Texas Thursday after-

Commissioners Turn Deaf Ear To Library's Plea For \$678

County commissioners listened impassively to a plea by the president of the board of trustees of the Muleshoe Area library for a \$678 annual increase in library funds, but they took no action one way or the other.

The request, made last week again by the Rev. J. Frank Peery, went unheeded by the commissioners; no motions were made, either that the request be granted or denied.

Mr. Peery said he appeared before the commissioners "several times during the last six weeks" and that they had promised him they would "act upon the request and let you know." They did, however, agree to tour the library, and this was done recently.

"They displayed little or no interest in the request which I made," he summed up.

Meanwhile, the city council, which had delayed action on a

Recreation Expert Due In Muleshoe

To discuss recreation possibilities with folk in this area, Robert E. Shipp will be in Muleshoe this week. He is district representative of the National Recreation Association for the states of Arkansas, Louisiana, New Mexico, Oklahoma and Texas.

The announcement was made by Roy Davis, Chamber of commerce manager.

Shipp will speak at four meetings this week, kicking off with a public session at 8 o'clock tomorrow night in the American Legion hall.

Tuesday is to be a busy day for Shipp, Davis said. He will meet at 9:30 that morning with the United Fund board of directors and the budget and admissions committee in the Bailey County Electric assembly room.

Then that afternoon he will discuss recreation with the chamber's directors and the chamber park committee at 5 o'clock.

At 7:30, Shipp will meet with the city council in the city hall and at 8:30 that evening with the area youth center adult and youth center adult and youth boards in the First National Bank community room.

Shipp, whose home is in Irving, is recognized as one of the top authorities in recreation in Texas. See EXPERT, Page Five.

End To Separate School Due In '67

Muleshoe board of education has submitted a new integration plan to the Texas Education Agency and the United State Office of Education which sets the policies for public schools under the Civil Rights act of 1964.

Under its terms, the school will be completely integrated - pupils and teachers alike - by Sept. 1, 1967.

"Whether the plan is acceptable to the government remains to be seen," Superintendent Neal Dillman said Saturday.

Briefly, the program would be as follows:

1. Integrate the first grade, the lowest grade in junior high (6th grade next year) and the lowest and highest grades (9th and 12th) in senior high by Sept. 1 of this year. (Already integrated are grades 8, 9, 10, 11 and 12, the first in 1964 and the other grades Sept. 1, 1963.)
2. All grades, plus faculty and staff, must be desegregated by the autumn of 1967.
3. Steps shall be taken during the 1965-66 school year for the de-segregation of the faculty, at least including such actions as joint faculty and in-service training.
4. All bus routes, lunchrooms, curricular activities and extra-curricular activities must be de-segregated by Sept. 1, 1967.
5. All de-segregation plans shall contain specific information as to the actions that will be taken to prepare pupils, teachers, staff personnel and the community for the changes which will be involved in desegregating the school system.

Under this plan, grades 2, 3, 4 and 5 would continue to operate as a separate system for next school year.

Grades 6 and 7 would be integrated at the start of next school year, and the second grade at the start of the 1966 term. Then the final three grades - 3rd, 4th and 5th - will be integrated Sept. 1, 1967, which would bring complete desegregation to the Muleshoe schools, Negro teachers would be absorbed into the system by Sept. 1, 1967.

Superintendent Neal Dillman pointed out that "penalties" will be applied against the school if the de-segregation program is not carried out.

"If the 1964 Civil Rights Act is not complied with, the schools will lose all federal funds. This would affect such

Retiring at end of this school year is Mabel Laughlin, a mathematics teacher in the junior high, and Mrs. Janis Phillips, a second-grade teacher at DeShazo, also has tendered her resignation.

All four resignations have been accepted by the board.

Norma Jo Prather has been employed as a second-grade teacher at DeShazo, succeeding Mrs. Phillips. Mrs. Prather has taught six years previously in the Muleshoe system.

The board also has named Mary Evelyn Mardis as an elementary teacher at Richland Hills. She has taught for four years in the Clovis system and holds a degree from West Texas State University. Mr. Mar-

Four Teachers Resign; Three Named To Staff

Four Muleshoe teachers have tendered their resignations, effective with the next school year, it was announced Saturday.

At the same time, the school administration office announced that the board has elected three teachers to the system, one to head the distributive education department.

Joe Beth Robertson, a home-making teacher in the high school, has resigned since she is moving out of town.

Beatrice Blackburn, Latin teacher in the high school and a long-time member of the staff, also has resigned. The school annual which she has directed for several years, has won many prizes.

Markets, With Texas Carrots, Interest Texans In London

Editor's Note: This is the second in a series of articles prepared by Muleshoe folk, Mr. and Mrs. Ed Little and Mr. and Mrs. Jack Schuster, who recently toured Europe as part of a Farm Bureau market-seeking group. This story deals with London and Germany.

Monday, April 5. After an early breakfast the Texas tour group left Rotterdam Airport on a K. L. M. flight to London. The bus met them at the airport and carried them to the Europa Hotel near Hyde Park.

Mr. and Mrs. Little spent their free noon hour walking several blocks down one of the busy shopping streets. They were amazed at the masses of people as the side-walks were so crowded they could hardly move. They asked a woman at lunch if this was a special shopping day. She said, "No, Monday is an off day as some of the stores were closed, and Thursday is our busy day."

Texas Texans, being used to "Wide Open Spaces" began to feel lonesome for Muleshoe.

The afternoon was devoted to a tour of the city. Points of interest included St. Paul's Ca-

thedral, the Tower of London & the Crown Jewels, Piccadilly Circus, London Bridge and several other places famous in history and literature.

At the dinner that evening the

Tuesday the Texans visited two of the World's most famous markets. Covent Garden is 27 acres devoted to the marketing of fruits, vegetable, and flowers. Jack and Cara Dunn Schuster were so taken in by this vast operation and were so busy talking to different people running the stalls, that they were almost left behind. They were able to find some Texas carrots, which was a good sign that some of our products are finding markets in Europe.

We then toured the Smithfield Meat Market. Here was found building after building with meat hanging from hooks with no refrigeration. The meat was brought fresh into the market every Thursday or Friday and there, it hangs all week or until it sells. That day at noon the Little's ate at an Italian restaurant and was surprised when the owner came over and introduced himself and told them that he had noticed them at the meat market earlier and wanted to know the purpose of

Mrs. John Farley Speaks On Iran

Muleshoe Study Club met in the Muleshoe State Bank Community Room Thursday afternoon at 4:30 p.m., with director, Mrs. Rufus Gilbreath reading the scripture from Ecclesiastes 11:6 after which she led the group in the Lord's Prayer.

Mrs. Gilbreath turned the program to Mrs. John Farley who gave an interesting talk on Iran. She told of the Iran people, crops, factories, oil, religions, schools, colleges and showed pictures as she talked of things in Iran. Mrs. Farley also told that Iran is famous for their skill in Persian carpet weaving and design.

Clubs held Tuesday and Wednesday in Fort Worth, to return soon.

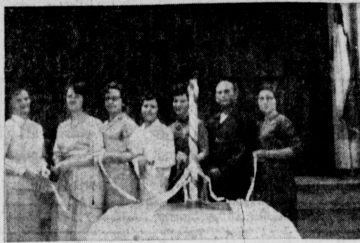

A finance report was given by chairman, Mrs. R. O. Gregory, who said the club still has several more recipe books and favorite recipes of Texas books to sell. For one of these books you may contact any member of the club.

Refreshments of punch, cookies, nuts and mints were served by Mrs. Farley, hostess, to members Mrs. S. L. Benefield, Mrs. J. G. Arm, Mrs. W. H. Elrod, Mrs. G. L. Spiawn, Mrs. W. T. Andrews, Mrs. Rufus Gilbreath, Mrs. Harve Blackburn, Mrs. Mervin Witterding, Mrs. Ray Martin, Mrs. Cecil Cole and Mrs. T. O. Gregory.

The study club selected a worthy high school student for the \$100 scholarship, who's name is to be given at a later date.

"It's the biggest irrigation project ever proposed," Cunningham pointed out, "and already it is receiving widespread support throughout western states."

Specifically "NAWAPA is a major plan concept that proposes taking advantage of the geographical and climatological factors of the North American

Library

(Continued from Page One) typist. This is a pretty close call."

Mr. Peery said the \$678 in additional funds was wanted to provide for a part-time typist for the library.

Payments on the building, amounting to \$85 per month, are made by Friends of the Library, headed by Melvin Evans. Other organizations join the Friends in providing the payment fees. Since the building was purchased only a year ago, the \$85 payments "will continue for many months," officials explained.

Meantime, the state-provided Bookmobile has reached the end of the first year's operation. Under an agreement with the state library service, the Bookmobile will be operated at state expense for approximately 30 months. After that time, it will be necessary for the four counties covered by the Bookmobile to buy the truck and the books and then provide operating expenses. Area in the unit here includes Bailey, Parmer, Lamb and Cochran counties.

(Continued from Page One) our tour. They spent about thirty minutes telling the market about our great Muleshoe County and gave him a rundown on the over-all purpose of the tour. He in turn explained some of his views along the world-marketing problem that was very interesting. That afternoon part of the group visited the U. S. Embassy which is across the square from the Europa Hotel.

Wednesday was set aside for individual contacts with workers. During this time some of the group toured the country side and visited a modern dairy farm at Gilford. Some thirty

niles outside of London. Thursday the group left the hotel and took a tour to Windor Castle. Queen Elizabeth was a residence at the time, as her husband was flying over the Royal apartments of the Castle. They also saw Eton College, Hampton Court, and drove through Runnymede Meadow where Mrs. J. M. Kennedy will attend the dedication of the memorial to the late President, this week end. They left London Airport at dusk for Frankfurt, Germany, where they stayed at the Intercontinental hotel on the banks of the Main River.

Friday morning was spent visiting the U. S. Commissary Headquarters which serves the U. S. Army. The afternoon was devoted touring the U. S. Trade Center in downtown Frankfurt, with talks by the officials of how the center was able to demonstrate our modern machines thus finding a market for them. One of these was a packaging machine which is beginning to catch on in Europe, although most of their food products are still purchased without wrappings or packaging.

Saturday was a full day tour of the country side. Leaving the hotel at seven A. M. they crossed the Rhine by ferry and drove down the Rhine-land countryside. South of Frankfurt visiting an experimental farm at Wintersheim. Going on to Alzey mile after mile of vineyards climbing straight up the mountain side was seen. The villages were from two to six miles apart, all of them centered around a church. Many times as many as five villages could be seen at one time. Had dinner at Alzey with some farmers and farm leaders along with their Agricultural Secretary.

Sunday was a free day. Part of the group flew to Berlin where they were able to cross into East Berlin through Checkpoint Charlie. They reported the contrast between the two sectors was appalling and each was humbled by the experience. The Little's and the Schusters chose to rent a car and driver and drive to a small village of Walschdenburg to visit the places where Ed first saw combat action during W. W. II. He served in this area twenty years ago to the date. The village sat atop a hill with a castle dominating one side of it, with a huge valley on all sides. After shelling the town for three days and nights the Americans moved in and took it with the loss of many due to the Germans having the vantage point.

They talked to one old gentleman that had been in the cellar and lost all our federal programs, we still could be forced to comply if a federal court order should so demand."

Dillman has projected possible Negro enrollment for the next two years. The first grade, which would be integrated this year will have an estimated enrollment of 20 pupils; 10 will enroll in the 6th grade; 12 in the 7th, 11 in the 8th grade; eight in the ninth grade, five in the 10th grade and four in the 11th. No Negroes are expected to be enrolled in the 12th grade this next year.

In his report to the TEA, Dillman also pointed out the many ways in which the system already is functioning as an integrated unit. These included such things as operation of the 16 bus routes and integrated faculty and staff meetings.

WHY FUSS WITH WOOD?

NEW Panl-Frame GIVES YOU MORE FOR YOUR MONEY

If you're in the market for a low-cost, "do-it-yourself" farm building structure...

You can draw up some plans, go down to the lumber yard, hide around with siding, rafters, poles — round up a crew — and then pound, cut, trim, hammer and paint until you're blue in the face. And still wind up with just an ordinary wooden building.

Or you can buy a factory-made Butler Panl-Frame from us. An all-metal building that goes up fast and easy, because all the components are pre-cut and pre-punched to exact dimension. For about the same total cost.

Panl-Frame is a brand new kind of metal building, with only a bare minimum of inside supports. How

come? Because the panel is the building — big, strong wall and roof panels that function as both cover and frame. Panl-Frame suits almost any farm need. And you get a fire-safe, weather-safe, practically maintenance-free building to boot — one that won't sag or rot.

If you can put a nut on a bolt, you can build a Panl-Frame. We can build it for you, at a low turn-key price. Or we can do it together.

Why not come in for some free Panl-Frame building plans now? Low-cost financing available.

Dillman says the system now has 120 Negro pupils enrolled in the city, ranging through all the grades. Of course many of these are attending integrated high school and a portion of junior high.

The complete report, a lengthy "booklet" required by the government, is being submitted by the school to TEA. Dillman said "we only hope our plan will be accepted. It's the third such program we have drawn up, and we believe it meets the needs of our people. After all, the first consideration is always the good of the children involved."

He added: "At the same time, we must move forward with all dispatch in order not to lose all our federal programs. Loss of surplus foods used in the lunchroom is merely one example of the 'penalty' which would be imposed if we fail to draw up a program pleasing to the government."

There is still another possibility, the superintendent pointed out: "Even if we refused to integrate completely

After sorghum has emerged, spray Atrazine to control weeds and grasses.

The idea is to spray Atrazine 80W herbicide right after sorghum has emerged, but before weeds are 1 1/2 inches high. This one application, moved to the weed root zone by rainfall, will control most annual broad-leaf weeds and grasses in sorghum for the entire season.

Control of weeds and grasses in sorghum with Atrazine can greatly reduce the need for cultivating. And so your crop goes through the entire season without weed competition for moisture and soil nutrients.

The results of weed control in sorghum are higher yields and lower production costs. And you can now graze or feed forage to livestock from treated sorghum fields 60 days after Atrazine application.

Contact your local supplier now for Atrazine 80W herbicide.

Office

(Continued from Page One)
 Still another room which has been occupied by the county attorney also will be converted in quarters for the collector - assessor.
 The attorney's office will be moved to quarters once occupied by the home demonstration agent. His receptionist will continue to be located at the end of the hall.
 Meantime, District Attorney

Teachers

(Continued from Page One)
 Fred Mardis has been elected distributive education teacher in the high school, succeeding Bill Taylor who is being moved to DeShazo school as principal.
 Mardis, a native of Alabama, has a degree from West Texas State University and has taught for the past two years in the Clovis system.

Redistricting

(Continued from Page One)
 In a sense it's an old American problem: "Taxation without representation." And it will eventually have to be settled on that basis. We know that.
 The speaker asked that his name not be used.

Lora Ann Burris, L. L. Haney, Mary Reyes, Mrs. Willie Wolfe and baby girl, Nelda Reynolds, Joseph King, Mary Lou Lockely, H. A. Barbour.
