To Young and Middle-Aged Men.
A SURE CURE.

The awful effect of early vice, which brings organic weakness, destroying both mind and body, with its dire ills,

PERMANENTLY CURED.

Palpitation of the heart, timidity, trembling, nervous discharges, so much to be feared, forgetfulness, lack of ideas, sadness of spirits, ugly imaginings, dislike to social life, and brooding melancholy.

Married Men, or those entering on that happy life, aware of physical debility, excitability of the nerves, organic diminution, or other irregularities, quickly assisted.

No Minerals Used.—Young people losing their health and spending time with those unskilled and unqualified, causing fatal disorders so the head, throat, nose, liver and lungs, stomach and bowels, speedily cured.

Let not false modesty deter you from calling at once on

DR. WASSERZUG,

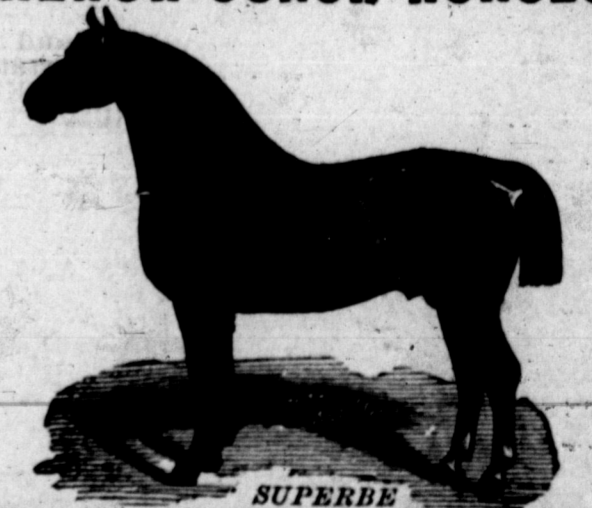

Consulting Rooms 734 Elm St., Dallas, Tex

Office hours from 8 a. m. to 9 p. m.

All Private Matters Cured.

Prompt attention is given to all correspondence. State symptoms and medicine will be sent C. O. D. everywhere. Dr. Wasserzug is a regular graduate of 15 years' practice. Diploma in office. Two years residence in Dallas.

MONEY TO LOAN

On Farm and Ranch Property

in sums to suit, by the

Equitable Mortgage Co.

Capital \$2,000,000,

Corner Austin and Commerce sts.,

DALLAS TEXAS.

We make a specialty of large Ranch Loans.

SHORTHORNS & HAMBLETONIANS

Hambletonian stallion colts from New York mares, sired by Dictator Jr. He by Dictator sire Jay-Eye-See and Phallas. These colts are one to three years old and raised in Parker county.

High-grade ones, twos and three year-old Shorthorn bulls, Texas raised from Registered sires and selected dams. Prices reasonable. J. B. BOWNE, Weatherford, Tex.

MY FINE STOCK FARM FOR SALE.

2400 acres in a solid body, about four miles west of Fort Worth; 100 acres in cultivation, 1500 suitable for cultivation, balance of the tract fine grass land. Improvements good: 3 houses, 3 wells, wind mill, fences, barns, corrals, etc. Water plentiful. For sale on easy terms and cheap. Write to or see TOBE JOHNSON, Fort Worth, Texas.

CHEAP LANDS FOR SALE.

Situated in Clay, Archer, Jack and Young counties, in tracts from 320 to 5000 acres, suitable for farming and grazing purposes. Small cash payment, balance on LONG TIME and LOW RATE OF INTEREST.

Address, C. E. WELLESLEY, Dallas, Texas, or J. J. CHITWOOD, Antelope, Jack County, Texas, Who will show the land.

REGISTERED JERSEY BULLS FOR SALE.

They are splendid specimens of the most famous families in the Herd Books. Will be sold on time for well-secured paper. WINDERMERE STOCK FARM, JOHN G. JAMES, proprietor, Wichita Falls, Texas.

Saddle Horses, Mares and Stock Horses.

We have been appointed agents of the well-known Northwest Texas Horse company's horses, and have for sale: 4000 to 5000 stock horses, 1500 to 2000 mares, 400 to 700 saddle horses, 200 to 250 broke saddle horses. This stock of horses have been located in Northwest Texas for from 10 to 15 years, and they are all natives of this section. There are no better horses raised in Texas, as they are free from Mexican or Spanish blood and combine all the qualities to be found in a stock that has been bred up for years. J. N. Simpson of Dallas, W. R. Moore, G. T. Reynolds and R. E. McNulty of Albany, as well as many others, have purchased from this stock, and they know their superior quality. Those desirous of buying can see this stock by coming to Albany, Texas, when we will be pleased to show them. We offer them at rock-bottom prices. Write or call on WEBB, CAMPBELL & HILL, Albany, Texas.

FOR SALE.

Angora goats, pure-breds and high-grades, from the best importations. Address, C. B. WALKER, Millsap, Texas.

WANTED—5000 STEERS TO PASTURE.

Ranch in Donley and Armstrong counties, Texas, watered by Salt Fork of Red river. Allen, Record, Rawhide and other creeks and lakes. Grass unsurpassed. Address KOOGLE & CO., Clarendon, Donley County, Texas. Southern cattle not wanted.

ONE OF THE BEST FARMS IN TARRANT COUNTY.

I offer for sale my farm, 7 miles south of Fort Worth, on reasonable terms and at low price. Solid body of 700 acres, all splendid agricultural land; 250 acres in wheat and oats. Good improvements, plenty living water on the place. The land lies level and in good shape to cultivate, and is one of the best farms in Tarrant county. Address or call on TOBE JOHNSON, Fort Worth, Texas.

FOR SALE OR EXCHANGE.

THREE PASTURES FOR LEASE.

Three pastures, known as the Adams & Wickes, containing respectively 2800, 800 and 4000 acres, situated on the Leon and Medina, in Bexar county, from 7 to 10 miles southwest of San Antonio, well fenced, watered and good grass, leased by the year. Good pens in each pasture for cutting and sorting stock. For terms apply to HENRY LAAGER, Adams & Wickes Building, Alamo Plaza, San Antonio, Texas.

DIAMONDS.

Raymond Gregg, Diamond Broker, Equitable building, 6th and Locust streets, St. Louis, Mo., also makes a specialty of

FINE WATCHES,

Rubies, Emeralds, Sapphires and Pearls; also repairs fine American and foreign watches. Will be pleased to communicate with stockmen and their ladies.

J. R. JETER,

Land, Loan and Investment Agt.,

Fort Worth, Texas, has for sale: No. 1. 45,000 acres solid body in Wheeler county, Texas, within 12 miles of Kansas Southern railroad, and near where the Frisco line will enter the Panhandle. This is a fine body of land and can be had on easy terms. Price \$2.50 per acre. No. 2. 10,000 acres in Clay county, on line of Fort Worth & Denver railroad. Well sell in bulk or divide it to suit purchaser. Price in bulk, \$3.50 per acre. Terms to suit. No. 3. 17,654 acres from 1/2 to 10 miles north of Henrietta, in several tracts. Watered by Little Wichita. Turkey creek and five tanks. One of the best ranches in the county; all under fence and cross fences; some timber. \$3.85 per acre. Sold in one body, \$10,000 cash, balance on long time. About 3000 acres fine bottom land that can be sold in small bodies. No. 4. 531,360 acres of fine ranch land in the state of Coahuila, Mexico, fronting about 70 miles on the Rio Grande and within 20 miles of the Southern Pacific railroad. Perfect title. Price 25 cents per acre. No. 5. 21,000 acres timbered land in Walker, San Jacinto and Montgomery counties. Price \$1.50 per acre. Also, a large quantity of other farm, ranch and timbered lands.

A Word to Investors.

We take pleasure in stating that we have been very successful in securing control of extensive lines of both business and residence property in Fort Worth, as well as some of the most eligible suburban and acreage property in the immediate vicinity of the city.

We control large bodies of grazing and agricultural lands in different sections of the state, especially the Panhandle, which is now coming into active demand.

We have an extensive list of choice ranch properties, ranging in value from \$10,000 to \$100,000, which we can sell at bed-rock prices and on easy terms.

We have for sale immense tracts of Mexican Lands, ranging in price from 12 1/2 to 50 cents per acre, which will be worth double the money within a year.

Our list of improved farms in Tarrant and adjoining counties is very large, and we can please you in both price and terms.

We make a specialty of exchanging real estate or merchandise, and have some really good trades of that character to offer.

If you desire to invest in or exchange any class of real estate or merchandise, we invite you to call on or correspond with us. We believe it will pay you to do so.

MORPHY & HICKEY,

CITATION BY PUBLICATION.

THE STATE OF TEXAS

To the Sheriff or any Constable of Tarrant County Greeting:

Whereas, oath has this day been made before me by D. T. Copher, that F. F. Montrose is absent from this state, so that the ordinary process of law cannot be served upon him, you are hereby commanded that you, by making publication of this writ in some newspaper published in Tarrant county, at least one day in each week for four successive weeks before the return day hereof, summon the said F. F. Montrose to be and appear before me at a regular term of the justice court for precinct No. 1, in said county, held at my office in the city of Fort Worth, in the county aforesaid, on the 10th day of October, 1887, to answer the complaint of the said D. T. Copher, for the sum of Sixty-Eight dollars and Thirty-Two cents, due upon a verified account for goods sold and delivered to the said Montrose by the said Copher, at the special instance and request of the defendant.

Herein fail not, and of this writ make due return as the law directs.

Given under my hand this the 16th day of August A. D. 1887. F. H. SMITH, Justice of the Peace, Precinct No. 1, Tarrant County, Texas.

Special to the Live Stock Journal.

ST. LOUIS, Sept. 2.—The run of Texas and Indians to-day was very small, which found prompt disposition at strong prices. An advance of 10 to 15 cents per 100 lbs. Fair to good range cattle are wanted. Sales were at \$3.30 for Texas steers; \$2.75@3.75 for Indians, and Texas mixed brought from \$2.20 to \$2.65; cows, \$1.90@2.25; bulls, \$1.60@2.

Texas sheep are scarce and wanted. Sales, 637 head of 83 lbs av. at \$3 per 100 lbs.

KANSAS CITY.

Special to the Live Stock Journal.

KANSAS CITY, Sept. 2.—Run first three days of week 1275 head short of same time last week. The market on choice meaty grass Texas and Indians holds firm while common and thin stuff are weak and hard to sell at a decline of 10@15c from last week.

Receipts to-day light. Strictly choice, steady. Others dull and 10c lower. Cows hard to sell.

NEW ORLEANS.

Special to the Live Stock Journal.

NEW ORLEANS, Sept. 2.—The market exhibited a better feeling, and trading was more active, good fat stock selling readily. The demand runs entirely on the better grades, and prices are advancing. The supply continues mostly of fair to common beefs, cows, and fair to common calves and yearlings.

Hog market supplied and quiet. Prices nominal.

Sheep market continues heavily supplied. Prices low and unreliable.

GALVESTON.

[Reported by Z. T. Winfree & Co.]

CATTLE—Choice 2@2 1/2c; common and inferior, 1 1/2@1 3/4c; calves, 2@2 1/2c; common and inferior \$2.50@4 per head.

SHEEP—Choice 2 1/2@3c; common and inferior 2@2 1/2c.

Hogs—No demand, not quotable.

Stock in pens Tuesday, Aug. 22, '87: Cows and heaves 154; calves and yearlings 143; sheep 446.

Stock have been coming in freely within the last four days, and the gain in prices obtained under light receipts last week have tumbled back to the same old notch, of which butchers "generously" availed themselves by buying nearly eleven car-loads yesterday. Calves and sheep are badly overstocked, and shippers of such stock will probably swear when they get returns. Some fine 900 to 1000-lb beefs are on the market, and very dull sale at 2c, as butchers prefer lighter and cheaper stock.

SAN ANTONIO.

There has been little or no change in the local beef market, and none can be expected until prices up North advance sufficiently to induce shipments. A few small shipments were made during the week, but not enough to affect the market.

CATTLE—Steers, shippers, \$1.90@2.00; butchers, \$14@17.50 per head; cows, fat, from \$10@14; thin, at \$8@11. Yearlings, \$5@6.50. Calves, \$3@4.50. SHEEP—Muttons, \$1.80@2.00.

DALLAS.

J. A. CARTER & SON'S YARDS. CATTLE—Choice fat cows 2c; choice butcher cattle 2@2 1/2c; bulls 1c; yearlings \$6@9; calves according to weight milch cows in good demand at \$25@30. Hogs—Fair at 4@4 1/2c. SHEEP—Ready sale at \$2.50@3. GOATS—At \$1@1.50.

FORT WORTH.

CATTLE—Steers, 2 cents for good fat steers; cows 1 1/2c; calves sell at \$4@6 each. Hogs—3/4 to 4c per lb.; not much demand. SHEEP—From 2@2 1/2c according to quality.

FISH & KECK CO.

Fish & Keck Co. sent out the following circular to their customers Sept. 1, it giving rangemen an excellent idea of the market as it really is. We copy it for the benefit of our readers:—

FISH & KECK CO., LIVE STOCK COMMISSION MERCHANTS, KANSAS CITY, KAS., Sept. 1, 1887.

Dear Sir.—Since our circular of Aug. 6 all classes of range cattle are selling 10 to 20c higher, and best corn-fed natives about 50c higher. Good fat to choice heavy corn-fed natives are bringing \$4.40 to \$4.65. Natives are coming in in limited numbers, consequently best grass steers are in better demand to take their place. Cannors, stockers and feeders are slow sale at quotations. We see nothing ahead to warrant much if any better prices on these classes. The outlook is more favorable for grass steers fat enough for dressed beef men. Rains have been general throughout the West, insuring an abundance of fall grass. Reports all agree as to an exceptionally short corn crop, and the number of cattle fed will be small compared with last year.

We quote, best Texas and half-breed steers, av. 1000 to 1175 lbs, \$3@3.25; good Texas and Indian steers, av. 900 to 1050 lbs, \$2.65@2.90; Texas and Indian canners, av. 800 to 1000 lbs, \$2.00@2.40; choice Texas cows, av. 900 to 1000 lbs, \$2.25@2.40; good Texas cows, av. 850 to 950 lbs, \$1.80@2.20; common Texas cows, \$1.50@1.85; Texas bulls, \$1.25@1.50; Western feeders, \$2.40@2.60; Western stockers, \$2@2.25.

Below we give our sales of range cattle during the past ten days.

176 Purcell, Ind. Ty. steers	1039	3.00
42 same, cows	820	1.70
35 same, cows	706	1.80

STOCKMEN AND FARMERS! The "TEXAS" All-Iron Pumping Outfit for \$125.

The lightest running, most complete and compact outfit made. The patent all-iron jack has extension crank, giving any stroke, from 9 to 24 inches; has heavy fly-wheel and strong gearing. The horse-power has a heavy 56-inch master-wheel, with large cogs and a compensation spring lever, making it work easy on horses. The outfit will also run our **Prickly Pear Cutter**, corn-sheller, feed cutter, or other similar belt machine.

Well tools made and repaired; also general machinery repairing.

The Alamo Iron Works
San Antonio, Tex.

just now, and every fellow says it is not him, but the other fellow. It is very easy to settle this question by observing who is spending the money or accumulating property. From this point of view, which is the true one, you will find that the ranchman, unfortunately for himself, can prove a clear alibi, and the suspicion rests very heavily upon the dressed beef men and the railroads. But what are we going to do about it?

MANY intelligent and observing ranchmen hold that imported stock only take the acclimation or Texas fever when put on grass over which native cattle have run, and not while held in pens, even if just previously occupied by Texans. This point well settled would be of great value to the stock-raising interests of Texas, and the STOCK JOURNAL offers its columns for a free discussion of the subject, hoping thereby to obtain at least a clew to the medical mystery known as Texas fever. Let us hear from importers from every section of the state.

Quarantine Authority.

The STOCK JOURNAL has repeatedly asserted that all quarantine measures against other states and territories by state or territorial authorities were unconstitutional, and therefore null and void. The following clauses of the federal constitution are the basis on which the claim is made: Paragraph 3, section 8, of article IV, defining the authority of the federal congress, declares that it shall have the exclusive right "to regulate commerce with foreign nations and among the several states, and with the Indian tribes."

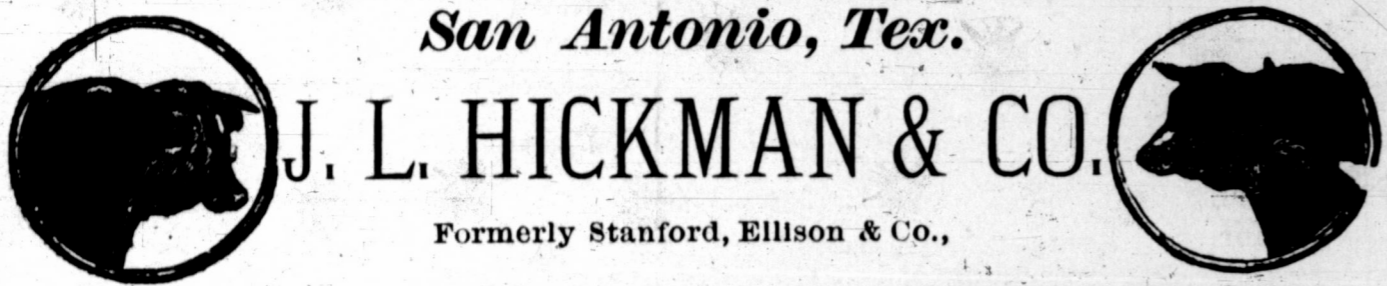

Here will be clearly found the authority or power of congress in interstate commercial matters, and under which clause the powerful interstate commerce law, as relating to railroads, is now in force, and also the possible denial of that authority. The enactment and enforcement of said law fully defines the interpretation placed upon the clauses above quoted by the highest authorities of the land. If congress has the power to say to railroads running from one state to another just how to treat their patrons as relating one to another, it certainly clearly has the right to say how one state or territory should commercially treat another.

That quarantine does seriously affect a very important article of commerce, no one can deny, and therefore it comes within the province of interstate commercial matters, and entirely and only under the authority of the federal government. The question may be sprung that it is a disease-protective measure. No doubt such is its ostensible purpose, but its are too plain that in many cases it has been used more as a trade protection than a disease protection, for who for an instant can claim it as a Texas fever protection by New Mexican authorities against stock from about Fort Davis, Texa! And yet only recently a herd from that district in Texas was turned back by the New Mexican authorities.

The fact that while the right of quarantine is allowed to state and territories, such abuse of power is possible, to the great detriment of other states and territories. To properly protect

SAN ANTONIO.

THE Houston refrigerator is a foregone conclusion. Ike Pryor has harnessed himself up single, and for work between the shafts he is a Jim Dandy.

IF HORSE raising is to continue in Southwest Texas, grading up on draft breeds can't be carried on too fast. A half bred draft colt is worth \$25 at one year of age.

IT is but a week or two since the Houston refrigerator meeting in San Antonio, but from all the interest you can find in it, you would conclude that it was a century.

NOW that a general bonus fund is being raised by the San Antonio booming committee an effort should be made to induce the establishment of a woolen and cotton mill and a tannery.

THE projectors of the Houston refrigerator say that it is not the big subscriptions that they want to make up the required amount as much as the many small ones, so as to interest as many persons in its welfare as possible.

IT is said that Japan clover does well on every variety of soil except black waxy land. This is unfortunate for Texas, if that grass is what its friends claim, as the black waxy soils compose a good portion of Texas arable lands.

IT is reported that new stock yards of even greater capacity than the Union stock yards are to be established in Chicago. Competition is said to be the life of trade, and will not new yards reduce some of the expenses now borne by shippers to that market? and if it should bring up the price a little no one will feel bad down this way.

THE National Stockman announces that the "days of ranching are over" because the man with the hoe is grubbing up the land. No doubt that said industrious and aggressive individual will grub up much land that has been thought unfit for his uses, but that does not end ranching. There are yet millions and millions of acres that he will not grub badly until long after the National Stockman's editor, and all other living editors, sleep the sleep of the just.

WHO is raking in the pile in the beef industry? is the agitating question

against disease, and at the same time protect alike the interests of all parties, the officers having in charge the enforcement of such measures should be competent and entirely free from local influence or interest. This could only be fully and perfectly accomplished through the federal authorities.

The attention of all Texas representatives is especially called to this matter, that is of so great importance to one of our largest interests, and also those of Illinois, that has of late had a touch of the effect of sweeping and senseless quarantine proclamations.

HORNS AND HOOF.

Horse buyers are the only men who seem to create any stir in San Antonio. They come in and are welcomed by a host of commission men, and in the aggregate leave a goodly sum of money, that goes a long way these hard times.

Col. F. J. Malone is back from Colorado, where he sold some young steer stock. He coincides with Rachal in the opinion that no more steers will be driven to the upper country for the general trade.

Everybody's face wears a smile. It has rained enough to insure grass.

E. C. Sugg, Indian Territory, has just made a purchase of some 2500 head of cattle about Beeville, and is now receiving them.

Chas. F. Griff bought a third interest in the Negley ranch in Maverick county, including both sheep and cattle. Price is not known. Mr. Griff has recently been on the Pacheco & Cheesman ranch in Mexico, and is a thorough-going, enterprising man.

Attention is called to the advertisement of pastures for rent, in the For Sale or Exchange department of this issue. They are situated on the Medina and Leon rivers and are just far enough from town to not be broken into, and near enough for all practical purposes. They are especially adapted to holding horse-stock on the market.

Alonzo Millett of Millett Bros., extensive ranchmen in LaSalle county, Texas, and Ellsworth, Kansas, came down Tuesday from Kansas, and went to the pasture in LaSalle county. It has been the custom to ship beef steers from the Texas to the Kansas pasture for fattening on corn raised there, but owing to the total failure of that crop on their Northern ranch, none will be sent this fall, but will be held here for fat grass beeves, and if the grass does not hold out they will probably be fed on cottonseed meal and prickly pear. Mr. Millett says that Texas is away on top of the pile among the range stock countries this year.

The shipments from Victoria, for the week ending Aug. 27, were 223 horse-stock, and 593 cows, calves and beeves.

Victoria Advocate:—Mr. Free Green shipped to Chicago yesterday 40 head of the largest steers that have left this market in some time. Several of them weighed over 1300 pounds, and none less than 1100.

The genial face of B. F. Darlington of Taylor appeared on the streets on Tuesday, and in answer to the question as to what he was after he said, "nothing," but the knowing ones are satisfied that he may want some horse-stock.

Col. Frank Byler is back again after an absence of over a year, which he spent in Dallas and west on the T. & P. Mr. Byler is one of the old landmarks as a Texas ranchman.

J. G. Moody, the horse importer, sold 300 head of Mexican horses on Monday. He imports and sells more horse-stock in this market than any other three men.

A yearling filly sold on the plaza the other day for \$75, without pedigree, only that she was big and fat, and still some say is does not pay to improve their horse-stock, but continue to raise and sell \$15 three and four-year scrub mares.

O. H. Rominger of Shelbyville, Ill., is here for some horse-stock. Mr. Rominger is now one of the most extensive horse shippers on this market. He began a couple years ago by trading some Illinois stallions for Texas mares.

The Pearsall News reports considerable stock shipments from that town, both horses and cattle.

The Cotulla Ledger booms the Houston refrigerator in good shape. Brother Bowen is one of the few Texas country editors who recognize the needs of their communities, and seek to remedy them.

Scoby of Tennessee shipped from Beeville some 50 head of mares and mule colts, which he paid \$35 per head for mares with colts. Scoby also bought 100 head of mule colts at \$15 per head.

Col. E. R. Lane is in the city for a few days and reports grass fine in his pasture in La Salle county.

B. Weller, one of the pioneer stock commission men of this town and who sold and left for New Mexice some two years ago, is back to stay.

T. Y. & W. A. Pettus spent several days in town this week and the latter reports a sale of a car-load of three-year-old steers in the New Orleans market that netted him over \$25 per head. But they were not straight Texans, nor poor.

Rothe Bros. of Medina county shipped three cars of cattle to St. Louis on Wednesday.

T. L. Richardson and Miss Theresa Foster were married in this city on Thursday, Aug. 25. Mr. Richardson is a stockman from McMullen county, and known as a straight, upright man, but notwithstanding all this, while he was up here only recently he was arrested as one of the Flatonia train robbers, but immediately proved an alibi.

H. Nelson is back from the drouth-stricken Northwest for another bunch of Texas scrubs, and says they are just the thing for that country, as they are used to living on nothing and doing a big day's work.

Mr. Woods of Rockport shipped three car-loads of calves and one of cows from Sinton to New Orleans, via the Wallis branch of the S. A. & A. P.

T. P. McCampbell of Aransas county was up last week and says he has a considerable block of the dry spot on his ranch, but has an abundance of water. He is one of the pioneer fine stock importers of the Southwest, first dealing in Short-horns, but transferred his love to the whitefaces and says that he expects to die in that faith.

Fort Davis News:—E. L. Gage sold his Paisano pasture to M. W. Dubois for \$10,000. Also 2500 acres near the mouth of Musquis canyon to Robart Bros. at \$2.50 per acre.

Jesse H. Pressnal is back from a visit to his ranch at Ft. Stockton. He reports rains as "spotted" in that section, as it is in many others in this state this year, but generally stock is doing well with good prospects for wintering. While away he sold 114 head of stock horses to Jack McCrowin of New Mexico for \$14.50 per head.

Beeville Bee:—Since the sale has been perfected and the cattle delivered, and ere this is published, are rollicking in the tall grass of the Territory, the Bee is at liberty to report the sale of 4000 twos to E. C. Suggs of the Indian Territory, by Messrs. Clare, Pettus and Lott. The latter furnished 2000 heifers and 250 steers and Mr. J. I. Clare,

assisted by several ranchmen, 1500 heifers and 250 steers. The price paid was \$8 for heifers and \$9 for steers. Mr. Clare is a rustler and always keeps his eyes skinned for a cattle trade. This is the largest transfer of cattle made in Bee county for three years, the last being made by Mr. Clare.

Stock of all kinds is reported in fine condition in the mountain country between the Pecos and El Paso, with flattering prospects for the coming winter.

THE WOOL SACK.

Albert Urbahn of the Callaghan ranch, Encinal county, bought some 400 head of fine bucks of D. H. Ainsworth of Dimmitt county, who raised them himself. Those are the items the STOCK JOURNAL likes to publish, as it shows the true economy of home supply.

Henry Burns has received 220 Vermont merino rams. Mr. Burns selected them himself, and they are as fine as ever came to this market.

Murphyville correspondence in Fort Davis News:—Rumor reached us Tuesday, originating from very reliable authority, that Capt. A. E. Shepard of Marathon had sold his sheep ranch in Buchell county to J. C. Cook, representative of a large Chicago syndicate, which paid him \$185,000. It is understood that the captain will continue as manager of the ranch.

Marfa New Era:—John Thompson, the efficient major-domo of Humphris & Co.'s sheep ranch, left last night for Haymond to bring 100 fine Ramboulett rams recently purchased from L. Piaget, which will be placed on the ranch.

Some small clips of wool are beginning to come in, but they are usually lambs' wool, and the season will not yet open for several weeks.

The ram trade has been quite satisfactory so far this season. Henry Burns, well known to a majority of the wool-growers of the Southwest as an extensive mutton-buyer, is the most prominent of importers this year, and has already sold over 400 head, Messrs. Lytle, Tompson & Co., Maverick county; Asher Richardson, Dimmitt county; P. O'Neill, Atascosa county; Aimes & Snyder, Kendall county, and V. F. Inskeep, Gillespie county, being buyers. He will have fully 500 more, with flattering prospects of selling them all out on short order.

Chas. Montague of Bandera came down and got 6 head of Henry Burns' \$35 bucks. It is like old times when bucks can be sold at \$35 to \$40 a head. They are worth it, but sheepmen for some time back did not have the \$35.

Tim Conlan, Chas. Sullivan and J. McGinnis of LaSalle county are in town to buy some rams.

Sheepmen were not so plenty in town this week as last. Are they all supplied with high-bred rams?

Although wool is beginning to come in, buyers are not yet expected for at least a month.

San Antonio Horse Market.

The market keeps up remarkably well, considering the season is much better than a year ago, but is slowly falling off in demand, owing to the change from the Northern summer to the Southern winter trade. The supply is more and more exceeding the demand and prices have decreased some 10 per cent. during the past month. Mares are not now the only stock that is wanted, and as remarked some weeks ago, geldings, especially if gentle, find a more ready sale than formerly. Mules are coming into demand, and several good transactions of young-mules took place recently at fair figures.

The retail market is reported very fair and prices firm for broken stock. The best sale for some time was a 15-

months filly, unpedigreed, for \$75. She was very large for her age, but not of draft breed, her only recommendation being size and fat condition.

The shipments aggregated 1042 head, a falling off of 254 head from that of last week.

Quotations are as follows:
 Scrub and poor mares, 12 to 13 1/2 hands, \$10@12
 Scrub fair conditioned, 12 to 13 1/2 hands, \$12@ 16
 Medium mares, 13 to 14 hands, fat, 20@ 28
 Medium mares, 13 to 14 hands, thin, 13@ 18
 Texas improved mares, 14 to 15 hands, 30@ 40
 American carriage horses, 15 1/2 to 16 1/2, 75@200
 Saddle horses, good, 13 to 14 1/2 hands, 20@ 28
 Saddle horses, poor, 13 to 14 1/2 hands, 15@ 22
 Unbroke horses, 13 to 14 1/2 hands, 16@ 25
 Mules, Mexican, 12 to 13 1/2 hands, 22@ 35
 Mules improved, 13 1/2 to 14 hands, 40@ 60
 Yearling mule colts, improved, 25@ 30
 Two-year mule colts, improved, 30@ 40
 Yearling mule colts, Mexican, 15@ 20
 Two-year mule colts, Mexican, 20@ 30

Good Wages Ahead.

GEORGE STINSON & Co., Portland, Maine, can give you work that you can do and live at home, making great pay. You are started free. Capital not needed. Both sexes. All ages. Cut this out and write at once; no harm will be done if you conclude not to go to work, after you learn all. All particulars free. Best paying work in this world.

New Mexico Wants More "Protection."

OFFICE OF EXECUTIVE COMMITTEE, SOUTHWESTERN STOCK ASSOCIATION, DEMING, N. M., Aug. 22, 1887.
 To the Executive Committees of the Respective Stock Associations of the Counties of Dona Ana, Sierra and Grant in the Territory of New Mexico.

Gentlemen:—Information has been received that large herds of cattle in the state of Texas, and especially from below what is commonly called the "dead line" under the quarantine law, are now being moved towards New Mexico with the intention of arriving at the boundary line by the 1st of November, when the provisions of the quarantine law will not be in operation as to Texas fever, and then crossing the line and spreading over the ranges in New Mexico, that are already occupied and fully stocked, without any arrangement as to where they will be located or as to where they are to obtain range and water.

And it having been urged upon me to call a meeting of your respective bodies at an early day for consultation and to devise some means of mutual protection and concert of action against illegal encroachments of said incoming herds, therefore I respectfully request that you meet at Deming on Tuesday, the 30th of August, 1887, at two of the clock in the afternoon for the purpose above specified. WARREN BRISTOL, Chairman executive committee Southwestern Stock association.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low-test, short-weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall St., N. Y.

DALLAS.

A Texas Cowman in Dakota.

E. W. Miller is just in from a drive to Dakota, where he went with the Keystone Cattle company to deliver 2300 head of cattle. They left Dickens county, Texas, the 25th of May, and landed near Buffalo Gap, Black Hills, in about 90 days. The trip was a successful one, the losses being trivial. The gentleman says he saw plenty of fine grass and water, and the largest and fattest cattle he ever saw—Texas cattle that had been in Dakota a year or two. He says they are substantially spaying all the cows there; that, in fact, they say they don't want any calves at all. He thus describes the spaying: "Twas an expert at the business from the East; a small, sharp-eyed, dudish-like fellow, but he never seemed to make a mistake. The knife was always applied to the right place. There were four or five windlasses in a group, and the animal lariat would be raised on the one nearest. Six or seven hands operated, and the small man with the sharp eye kept right up with them, and in this way he operated on 350 in one day while I was there. It didn't seem to take him a minute to do the job. The fellow held the knife in his mouth all the time when not using it—didn't mind the blood. He cut into the side every time. I saw more money in a week there than I have in the last ten years in Texas. Texas ones are worth there from \$10 to \$12, and twos from \$14 to \$16. There's an abundance of range, and very little probability of it being overstocked."

DALLAS DOTS.

C. W. Gano, one of our leading ranchmen, is receiving the congratulations of his many friends. It is a fine girl, and the mother is doing well.

There have been about 80 bales of cotton received at the Dallas yards to date—new crop, of course. Price paid, 8.10@8.25. From the testimony of the farmers, the crop will not show favorably with last year's yield.

Several favorite mileh cows, Jerseys, of the city have been in the hands of veterinarians the past ten days. Dr. S. Lee had one suffering from Southern fever, and Chas. Moses had one down with redwater. No deaths to date.

A man passed through Dallas riding a bull, which was packed with a gun and a camping outfit. He was leading a horse which had bed-clothing strapped on its back, and four dogs (hounds) trotted along beside.

Well, the rains have come, and the wires say they are very general. It will have its good results. The farmer will speak and figure upon the probabilities of the "top-crop," and the cowman is reminded that plenty of grass and water and fat cattle are in store. And here, too, the Trinity river is severely upon her ear and threatens to invade the bottoms.

Pure Ingredients.

The widespread popularity of Silver Loaf baking powder is due to the strength and purity of the ingredients that enter into its composition, and repeated chemical tests place it side by side with the most popular brands in the market and show it the peer of any powder yet offered the public. The manufacturer asks only a trial with other brands, and is willing to abide the result.

Good Agents Wanted.

Ladies and gentlemen to canvass for 2500 different newspapers and magazines. Good pay. Send for 100-page catalogue. Address John R. Reed, box 83, Canton, Ohio.

Largest stock of tin plate, metals, sheet iron, iron roofing and siding in Western Texas, Piper & Schulthess, San Antonio, Texas. We sell at factory prices, only freight added.

CHICAGO MARKET LETTER.

Fancy Native Cattle Selling at \$5.25 to \$5.50—Prices Going Higher—Texas Cattle and Sheep Selling Well.

U. S. YARDS, }
CHICAGO, ILL., Aug. 29, '87. }

Regular Correspondence Texas Live Stock Journal.

The receipts of cattle were to-day 12,000 head. Chicago is getting so she can handle that many cattle in a day without going to pieces. Some Polled-Angus 2-year-old cattle, 1550 lbs, sold to-day at \$5.50, the highest price of the season, and prices seem to be steadily climbing on good cattle. Several lots have lately sold at \$5.25@5.35.

As long as the foreign demand continues as good as it is now we shall have a market for good cattle.

It will be noticed that Northern wintered Texans (or natives either) have yet sold as high as through Texas steers, \$3.95.

Prices for common Texans were lower to-day but the supply was heavy.

Greer, Mills & Co. sold for the Keystone Cattle company 259 thin 713-lb steers, at \$2.45; 35 av. 806 lbs, at \$2.40; 19 av. 724 lbs, at \$2.40. The same firm sold 45 head of 1003-lb steers at \$3.10, with 66 head av. 1010 lbs, at \$3.15.

Paxson, Shattuck & Co. sold 23 thin 740-lb steers at \$2.50; 2 1095-lb bulls, at \$1.90, and for D. Waggoner & Son 203 steers 1034 lbs, at \$3.20.

J. H. Campbell & Co. sold for H. Creston 332 steers 1030 lbs, at \$3.12; for the Pitchfork Cattle company 225 av. 940 lbs, at \$3; for Bugbee 340 steers 979 lbs, at \$2.90; 10 bulls 1064 lbs, at \$1.85; 13 mixed 936 lbs, at \$2.20.

Lee & Dunham sold for Towers 238 head of 880-lb Texas-canning steers, at \$2.75.

Gregory, Cooley & Co. sold for Gardner & Co. 24 steers 981 lbs, at \$2.85; 24 834 lbs, at \$2.75; for B. Gatewood 105 steers 957 lbs, at \$3.10, also 108 av. 915 lbs, at \$3.

W. W. McIlhany & Co. sold 64 head of 910-lb Texans at \$3.12; for C. C. Williams 259 sheep, av. 79 lbs, at \$3.35; for Merritt 105 sheep 72 lbs, at \$3.40.

Hunter, Evans & Co. sold for Hutton 80 1112-lb Indians, at \$3.25; 22 av. 966 lbs, at \$2.85; for a St. Louis scalper 70 mixed 567 lbs, at \$2.05; 26 cows 784 lbs, at \$1.95; for Cragin 219 head av. 953 lbs, at \$3.25.

Scaling & Tamblyn sold for W. J. Skinner of Erskine 298 sheep 75 lbs, at \$3.05 and 145 av. 73 lbs, at \$3.12.

The following were among the recent sheep sales: 266 av. 71 lbs, at \$3.2; 252 av. 80 lbs, at \$3.50. T. J. Prima of Waco marketed 475 head of 81-lb sheep at \$3.35.

The tide has turned in the cattle market.

The city papers are beginning to be sensational by talking about a beef famine. There is no immediate danger of a beef famine—not with Chicago getting 235,000 cattle per month and all the other markets full, but the market is steadily getting better, there is a let-up to the run of drouth cattle and the demand for beef was never better. Hold on to the cattle, they are worth it.

A. C. HALLIWELL.

Agents Wanted.

We call attention to the advertisement of S. B. Kirby, agent for the new Wilson sewing machine, 212 West Markham street, Little Rock, Ark. Mr. Kirby wants local agents in every town in Texas and elsewhere to sell the new Wilson, and offers extra inducements. Write him for particulars.

Dairymen Make no Money.

Texas dairymen, farmers and butter-makers complain that they are not making money. The reason is because

they do not use the best dairy appliances. Farmers of Missouri and Illinois do make money from dairy products and receive only half the prices Texas dairymen obtain. The nearest firm to Texas carrying all the latest improved dairy goods in large stock is H. McK. Wilson & Co. of 112 N. Second street, St. Louis. This firm will send catalogue and make prices on anything in the dairy-goods line.

To the Afflicted.

We call the attention of our readers to the advertisement of Dr. J. R. Pollock in this issue of the JOURNAL. To those who are afflicted with rectal troubles we can recommend the doctor as a specialist in that particular; he having effected some remarkable cures in cases which had become chronic. Dr. Pollock successfully treats consumption, bronchitis, catarrh, dyspepsia and all other chronic diseases with oxygen and electricity. Correspond with the doctor if you need the services of a reliable physician who can give the best of references.

For Rent.

Fenced pasture of 45,000 acres in Wichita county, Texas. Good grass, splendid winter protection, 6 miles of front on both sides of Big Wichita river. Will rent for one or two years. Possession given at once. Ranch house, horse pasture, etc.

R. E. HUFF,
Wichita Falls, Texas

Mares Wanted.

Will invest \$5000 cash in good brood mares under eight years old, to weigh 1000 pounds; also, large, pedigreed jack and draft stallion. Quote price f. o. b. cars or at Burnet, Texas, and state if mares are broke. Address,

E. W. FOGG,
400 W. Eighth St., Austin, Texas.

Use Silver Loaf Baking Powder.

J. R. POLLOCK, M. D.

401 Main Street,

FORT WORTH, TEXAS.

Chronic Diseases a Specialty

Piles, Fistula, Fissure and all disease of the rectum successfully treated.

Oxygen and Electricity

for the treatment of catarrh, bronchitis, consumption, dyspepsia, constipation, and all diseases of the nervous system. Best of city references given upon application. Correspondence solicited.

Hill's Business College

Is recognized throughout the land as an open door to success. Young men and ladies are invited to march in. Its faculty, equipment and course of study are unequalled in the South. The great success it has attained is unprecedented in the history of Business Colleges. College Journal free. Address R. H. HILL, President, Waco, Tex.

600 ACRES. 13 GREENHOUSES. TREES AND PLANTS

We offer for the Fall trade a large and fine stock of every description of FRUIT and Ornamental TREES, Shrubs, Roses, Vines, SMALL FRUITS, Hedge Plants, Fruit Tree Seedlings and Forest Tree Seedlings. Priced Catalogue, Fall of 1887, mailed free. Established 1862. BLOOMINGTON (PHENIX) NURSERY SIDNEY TUTTLE & CO. Proprietors, BLOOMINGTON, ILL.

WEAK, UNDEVELOPED PARTS

THE CLIP.

The rate from Texas to St. Louis on double-deck sheep was \$100. The through rate to Chicago was \$134. The Chicago & Alton reduced the rate to \$25.50 between St. Louis and Chicago, and finally the through rate is reduced so that double-deck rates from Texas to Chicago are now \$125.50. The sheep raisers can thank the Chicago & Alton for the reduction.

The most successful sheep ranch owner in Presidio county, Captain A. E. Shepard of Marathon, sold out to a Chicago company last week.

U. S. Economist:—As we have previously stated, one of the principal causes which affects the manufacturing and wool interests is the unloading of the surplus of British and European made goods, which are sent here to sell at whatever they will command, and are passed through our custom-houses under rulings which accord more with politics or obnoxious laws rather than with sound mercantile dealings, for otherwise we would not witness effect without cause, and no one can assign a good cause why the wool and woolen interests of our country should be suffering through the reasons we have assigned.

By the quotations it will be seen that sheep are selling higher than cattle. The markets can dispose of more fat sheep, but the feeding demand is not very strong.

The wool dealers of Texas are beginning to claim that the commission dealers eastward are being bulldozed and unable to take advantage of the market.

The wool trade, like the beef trade, requires a famine to make values rise a half cent.

J. J. Cass of Allison, (N. W.) Kansas, writes the JOURNAL that he will exchange 100 full-blood and registered Merino ewes for mules, mares, etc.

They Stand Alone.

The firm of George P. Rowell & Co. is the only advertising agency in this or any other country that pays all bills on the day of receipt. In this way there is no accumulation of indebtedness. On every day every bill in the office is paid if it is correct. It takes a good deal of money to do business in this way, but it gives the agency a financial standing and reputation which make their orders eagerly sought by all newspaper publishers, and it is more than likely that George P. Rowell & Co. on this account can place business to better advantage than their competitors.

LEPROSY IN EL PASO.

EL PASO, Aug. 31.—There is a case of genuine Asiatic leprosy in this city. The victim is a Chinaman, who lives in the adobe on the northwest corner of San Antonio and Utah streets, and has lain there under cover for nobody knows how long, while the dread disease was developing. A few days ago he ventured out upon the streets where his horrible condition attracted attention. Tall, gaunt and tottering, with uncertain footsteps, he seemed each instant about to swoon. His face was dreadfully emaciated, and the eyes so sunken as to be almost invisible. The cheeks in falling in had drawn the fleshless lips away from the teeth and he looked more like a corpse arisen from the grave than an animate creature.

On his neck was the fatal sign of leprosy in the stage of a cancerous sore surrounded by dry scales and indurated flesh. The whole neck at that side looked as hard as bone, and it was evident from the man's attitude that he could not move his head. A mere horrible sight would be difficult to conceive. The loathsome disease had reached that stage where the flesh

loses vitality, scales and sloughs off. The fact that the disintegrating process had commenced on the neck assured the early death of the victim, which will be, all things considered, a blessing to him.

Piper & Schulthess are headquarters for all kinds of fence wire, 249 Market street, San Antonio, Texas.

Tackabery, Shaw & Co. of Fort Worth own the cowboy lightning girth fastener.

FITS—All fits stopped free by Dr. Kilne's Great Nerve Restorer. No fits after first day's use. Marvelous cures. Treatise and \$2 trial bottle free to fit cases. Send to Dr. Kilne, 981 Arch street, Philadelphia, Pa.

SUBSCRIPTION.

Weekly Edition,.....\$1.50 a Year
Monthly Edition,.....75 cents a Year

Office of publication and business, 210
West Second Street, next door to the
Daily Gazette, Fort Worth, Texas.

Entered at the postoffice, Fort Worth
Texas, as second-class mail matter.

UPON the suggestion of a correspondent that the stockmen of the range country owed the late Col. S. P. Cunningham a debt of gratitude for his long service in their behalf, which could be best discharged by the erection of a simple shaft to his memory, the STOCK JOURNAL proposed that a fund be raised by subscription for that purpose. Several of the cattlemen of this state and elsewhere have responded with subscriptions, and though the work has gone along slowly, there is a good advance already made. It is a worthy object, and the STOCK JOURNAL again calls upon its readers to lend their assistance to honoring the memory of the man who was, in his lifetime, a hard worker for them. Subscriptions sent to this paper will be promptly acknowledged. So far we have the following:

Texas Live Stock Journal\$5.00
A. W. Hilliard, Pecos5.00
T. T. D. Andrews, Fort Worth5.00
C. Loving, Jacksboro5.00
A. M. Britton, Fort Worth5.00
H. M. Taylor, Las Vegas, N. M.5.00
W. S. Ikard, Henrietta5.00
E. C. Sugg, Fort Worth5.00
Norman J. Colman, Washington, D. C.5.00
R. D. Hunter, St. Louis, Mo.5.00
H. H. Campbell, Teepee City, Texas5.00
D. E. Salmon, Washington, D. C.5.00
Reynolds Bros, Albany, Texas5.00
E. F. Ikard, Fort Worth5.00
G. W. Thompson, Trinidad, Colo.5.00
H. H. Metcalf, Denver, Colo.5.00
Stock Grower, Las Vegas, N. M.5.00
Northwestern Live Stock Jour., Cheyenne5.00
Range Journal, Denver, Colo.5.00
B. F. Buzard5.00

AMONG the transfers of thoroughbred stock by the American Berkshire association we find the following entry: "Leinster Chief 17,475, N. H. Gentry, Sedalia, Mo., to B. C. Moore, Climax Springs, Tex." The STOCK JOURNAL would be glad to publish such items more frequently.

THE article published elsewhere, a call of the executive committee of the New Mexico Stock association to devise some means of excluding Texas cattle

from that state after the quarantine expires, is a compulsory confession that the quarantine is not to exclude Texas fever, but Texas cattle.

It is suggested that the Consolidated Cattle Growers' association meet the next time at Kansas City. The suggestion is a good one, provided the great live stock interests of Kansas City will let it be known in unmistakable terms that the representative association of cattle raisers is invited to meet there. Texas is now so closely bound to Kansas City that this state will send a full delegation and some extra visitors. The association has been called together at St. Louis and Chicago and if it is moveable the turn belongs to the second great market in the United States.

THE PANHANDLE.

A Special Edition of the Stock Journal.

The thirty-two page Monthly Edition of the TEXAS LIVE STOCK JOURNAL will be issued between September 25th and October 1st and will be devoted to the resources of the

PANHANDLE OF TEXAS.

The issue will contain a new map of the Panhandle district, showing the Fort Worth & Denver road and connections, and will also contain a description of the country, character of the soil, rainfall, products, etc., together with the land laws of the state and other important laws affecting the settlement of the country. It will be a text-book of the Panhandle and of Northwest Texas.

The Panhandle Construction company, together with the Fort Worth & Denver railroad, takes several thousand copies of the paper, and the entire edition will exceed

FIFTY THOUSAND COPIES.

Land owners and merchants who are interested in the development of the country on the line of the Fort Worth & Denver railroad and in the Panhandle should take this opportunity to advertise their properties and to purchase a number of the papers to send to their connections at a distance. Such an investment will pay large dividends to land owners in the development of the country in which they have an interest.

An Invitation.

We solicit subscription to the TEXAS LIVE STOCK JOURNAL at \$1.50 per annum. If this item is marked please consider it an invitation to examine the paper. If you consider it worth the money please send a postal note and address the STOCK JOURNAL, Fort Worth, Texas.

A General Rain.

Fifteen days before it was due, and just at the right time for the very best results and in quantity sufficient for any and all purposes, to suit grangers and ranchmen, Texas has been blessed with a grand and generous rain.

The benefit of such a rain at this time can hardly be estimated in dol-

lars and cents. The country of the ranch district was becoming a little too dry. On some ranches cattle were grazing too close to water where grass was short; the fattening process was stopped; to move cattle was to shake off the flesh. Cattle were being shipped because they were near railroad points and better cattle at a distance could not be driven. The cattle on the ranges are in good flesh and no damage was done up to date. The occasional showers had relieved some ranches from drouth. Without rain the prospect was bad, with a good rain the prospects is remarkably good. Such a rain as we have had gives a moisture that will remain in the ground for a very long time. There is time for grass to grow, and to cure before possible frost, cattle that have been moved have time to fatten, and the beef movement can be done any way and at any time that suits. The rain covered the West and Northwest. The outer territory beyond telegraph communication is not heard from but every point heard from reports rain.

The Price of Beef.

The JOURNAL has often enumerated the many causes bringing down the price of beef cattle, and as often mentioned the changes that become slowly apparent to surely advance those prices again. Having gone so far as to predict a strengthening of the markets, rather than the decline such as usually takes place in the fall, by reason of heavy runs of grass cattle, and predicting beyond the fall a scarcity of cattle, it is gratifying to perceive that even sooner than was expected a decided stiffness and upward tendency in the markets has commenced.

The Chicago Tribune is the first of the leading daily papers to investigate the subject and to arrive at our conclusion, by the same reasoning and investigations. Stockmen are commencing to see that there is not a hopeless future before them. The confidence of the cattle-raiser is being restored, and slowly the world is beginning to see that the production is not in excess of consumption, and that excessive marketing of stock is due to causes forcing sacrifices at times when men would rather not sell.

If stockmen could only act in concert they could control the market. Let the word be passed for only actually fat beef to go on the market for thirty days, all others to be held regardless of consequences, and we should see the market spring so strongly that no amount of receipts would again force the conclusion that the country is full of cattle.

One good sign is evident: The consumption is visibly increasing. Acting as stockmen have acted, and we may say acting as stockmen were forced to act, the market has been found to be equal to the emergency. The demand has increased so rapidly that during excessive runs the decline was only gradual, when of right demoralization should result. The outlook now is hopeful, and it is not out of the bounds of possibility that the cattle business shall hustle up into the front rank once more. It may appear soon that a foreign outlet is not necessary to the stability of the meat-producing interests of the United States.

PANHANDLE LETTER.

Commissioner Hall and Land Matters—Cattle Situation—Railroads, etc.

MOBEETIE, Aug. 19.

Much interest was felt here in the visit of Land Commissioner Hall, last week, to the Panhandle. So many alarming rumors as to the land policy of the state have been in circulation since the law into effect, that the people had become thoroughly alarmed. It was popularly believed that under the new regime some of the best portions of the Panhandle were to be made subject to absolute lease, and this impression had so roused popular indignation that protests were going up from every quarter of the Panhandle, both from press and people. Mr. Hall's visit has resulted in allaying these fears to a large extent. He expressed himself as most favorably impressed with the Panhandle—its resources, climate, etc. The commissioner seemed much astonished at the quality and variety of agricultural products and vegetables produced in this section, specimens of which were shown him. He intimated that a large proportion of the lands would be classified as agricultural and that, save in exceptional cases, the lands would be sold at the minimum prices of two dollars for dry land and three dollars for an acre for watered lands. The report that the Greer county school lands were to be placed upon the market he characterized as a mistake, and said that there was no authority under the law to sell them. Mr. Hall left here last Friday for Mangum, the county seat of Greer, where he has called a meeting of citizens which will be held to-day, for the purpose of consulting with them about the complicated state of affairs in Greer.

The situation of the cattle industry in the Panhandle has undergone a radical change by the coming of railroads. It is recognized and fully conceded to-day by most of the big cattlemen that the old ranch system cannot exist in competition with the system of stock farming which the new era will introduce, and that the million-acre ranch will soon have to submit to the dissecting knife. It is doubtful whether any policy that might be adopted by the state would result in the perpetuation of the big pastures, for the simple reason that, with but few exceptions, the cattlemen themselves are averse to the continuation of a system which has been attended with so many disasters. The old methods will be abandoned because they have not proved successful, and the ability to lease at four cents offers no inducement to continue them, when with a free range they were unprofitable. No candid man engaged in the cattle business will deny that the concentration of individual interests was a mistaken because it was accomplished at the cost of individual efforts and activity, which are so necessary to success in this business. The industry is fast reverting to individual hands, which are preparing to accommodate themselves to the inevitable smaller herds and better breeds. When the stock-farming plan is generally adopted this will be the greatest stock-producing country in the world.

It is generally understood that many of the leases of Panhandle lands which have already been consummated are intended to subserve a temporary purpose, and the lessees do not contemplate holding them for any great length of time. It is no secret that some of the great corporations which are still solvent are getting ready to dispose of their properties. They will lease their ranges until an opportunity

is presented to make a satisfactory exit. Some few small stockmen are leasing because of the erroneous idea which seems to have gotten a wide circulation that the new law is equivalent to a herd law. It is safe to predict that about all the leases have been made, and that the future will be more prolific of forfeitures of leases than of new applications to lease.

Mr. F. W. Bond, who will remain for several months in Mobeetie as resident engineer of the St. Louis & San Francisco road, arrived late Friday and has taken possession of the office which the road has fitted up here. The three surveying corps which are working eastward are progressing at the rate of about five miles a day. They will probably connect with the party locating the line westward from Fort Reno by the first of October. The Mobeetie office is headquarters for the entire line from Sepulpa to Carson county, and reports from each of the surveying corps in field are sent here weekly.

Hon. J. N. Browning, who is just back from a trip to Weatherford, states that it is believed there that the Cleburne-Weatherford extension of the Santa Fe is to be continued from Weatherford to a connection with the Southern Kansas (a branch of the Santa Fe system) in the Panhandle. There are sound reasons for giving credence to the report. It is evident that the Santa Fe intends to make a vigorous effort to control the commerce of the Panhandle.

Messrs. J. F. Glidden, John Warner and H. B. Sanborn, barb wire manufacturers and owners of the Frypan ranch in Potter and Randall counties, have been inspecting their Panhandle possessions.

Mr. A. J. Shaw, district land agent of the Iron Mountain and Texas & Pacific railways at Galesburg, Illinois, is doing the Panhandle. He says that a heavy immigration to the Panhandle from the East will follow the completion of the Southern Kansas and Fort Worth & Denver roads. The crops of this section, he states, are much better this season than those around Galesburg. Tenants there pay five dollars per acre rental, and when they fully appreciate the fact that they can buy as good or better lands for two dollars an acre, they will not be slow in coming here. Mr. Shaw has made several visits to the Panhandle and declares that both as to season and soil this is equal if not superior to Illinois as a farming country.

The Southern Kansas railroad has arranged to run three excursions into the Panhandle, starting from Kansas City. They will arrive at Canadian Aug. 31st, September 21st and October 12th. The bridge over the Canadian river has been completed and cars are now running to the town of Canadian.

There is in the office of Street & French of this place a bunch of millet comprising six heads, weighing in the aggregate seven and one-half ounces. These are fair specimens this season on the farm of Mr. Street.

The temperature dropped to fifty-four last Wednesday evening and on Wednesday night a steady soaking rain fell all over this section of the Panhandle. The weather is still cool and bracing.

Watermelons weighing from twenty to fifty pounds are plentiful on the street and are sold at from ten to fifty cents.

A camp meeting was recently held on the Washita river by Revs. W. L. Harris and J. C. Turner of the Southern Methodist church, at which there were forty conversions and thirty accessions to the church. This was probably the most remarkable religious revival ever held in the West. Nearly

all the adult members of the Washita settlement joined the church. Subscriptions are now being raised for a church, which will be immediately built and will also be used for a school to be conducted through the winter.

Five Hundred Dollars

is the sum Dr. Pierce offers for the detection of any calomel or other mineral poison or injurious drug in his justly celebrated "Pleasant Purgative Pellets." They are about the size of a mustard seed, therefore easily taken, while their operation is unattended by any griping pain. Biliousness, sick-headache, bad taste in the mouth, and jaundice, yield at once before these "little giants." Of your druggist.

RAINS have been very widely distributed over the state this week, and have done a world of good to the cotton crop and the cattle industry. The late cotton will make many thousands of bales more than it would have made but for these rains, and cattle will go into winter strong and warm with fat, and able to endure the telling blasts of the northers.

ESTIMATES made from receipts of the assessors indicate an increase in state valuations of from \$7,000,000 to \$10,000,000. There was a much larger increase in those parts of the state unaffected by the drouth, but the counties of the West that have suffered so greatly lost so largely in assessable wealth that the gross increase is small indeed.

FACE HUMORS.

Seven Years of Physical and Mental Suffering Ended by Cuticura.

ABOUT seven years ago I had a humor break out upon my face. It started in a small blotch, and looked like the sting of a bee; then it spread and looked like a ringworm, and became very painful. I at once went to one of the best doctors in the city and he could do me no good. No less than twelve of the best doctors have had a trial at my face and all of them failed. I will not give you a list of their names, but will say that they were from Boston, New York and Maine, also from England, France and Canada. I have been a hotel cook and steward for years. In the summer I cook at watering places; that is why I have had an opportunity of being among good doctors. They could not cure my face, and I had given up all hopes of ever being any better. Last June I went to Moosehead Lake, Maine, to cook for the season. My face was so bad I did not like to be seen. At the lake I met a gentleman from England. He told me to use your CUTICURA REMEDIES and they would cure me at once. I did so. The result was in three weeks the sores on my face were healed up. I used it all the season. My face is all well and no scar to be seen. I have recommended it to a number, and in every case it has cured them. It would take a great deal of money to put me back where I was one year ago, providing I did not know what your CUTICURA would do. I shall recommend it as long as I live, and shall ever remain,
H. STEVENS,
East Jackson, Me.

A Most Wonderful Skin Cure.

Have just used your CUTICURA REMEDIES on one of my girls, and found it to be just what it is recommended to be. My daughter was all broken out on her head and body, and the hair commenced to come out. Now she is as smooth as ever she was, and she has only taken one box of CUTICURA, one cake of CUTICURA SOAP and one bottle of CUTICURA RESOLVENT. I doctored with quite a number of doctors, but to no avail. I am willing to make affidavit to the truth of the statement.
GEORGE EAST,
Macon, Mich.

CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally, and CUTICURA RESOLVENT, the new Blood Purifier, internally, are a positive cure for every form of Skin and Blood disease, from Pimples to Scrofula.

Sold everywhere Price, CUTICURA, 50 cts.; SOAP, 25 cts.; RESOLVENT, \$1. Prepared by the POTTER DRUG AND CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases."

SKIN Blemishes, Pimples, Blackheads and Baby Humors, use CUTICURA SOAP.

IT STOPS THE PAIN.

LITTLEJOHN & MARTIN,

Insurance, Loan and Real Estate Agents,

513 Main Street, Fort Worth, Texas.

Buy and sell (on commission only) lands in all parts of Texas and City real estate. Property rendered and taxes paid on same. Lands examined and divided. Patents obtained, titles examined and perfected. A specialty made of business with the different state departments at Austin. A general land business transacted. Commissions reasonable. A. S. NICHOLSON is interested with us in handling Fort Worth and Tarrant county property.

R. E. MADDOX & CO.,

Successors to MADDOX & POWELL,

Importers, Breeders, Feeders and Dealers

IN FINE HORSES AND JACKS, CATTLE AND HOGS.

We are well prepared to feed or pasture your stock at very reasonable rates. We can furnish anything that you may desire in the way of Stallions, Jacks, Jennets, Mules, Saddle, Harness or Work Horses, Milch Cows or Hogs. STOCK YARDS and BARN centrally located Corner Rusk and Fourth Streets, Office at Yards. FORT WORTH, TEXAS

JNO. S. ANDREWS & CO.

DEALERS IN REAL ESTATE AND LIVE STOCK,
610 Main St. Fort Worth, Texas.

We have on our books 1,000,000 acres of fine grazing land located in Northern Texas. We have a desirable list of ranch properties stocked with cattle, horses or sheep, which we offer on reasonable terms and low prices. We keep on hand Hereford and Durham grade and thoroughbred bulls. We make a specialty of contracting for future delivery stock cattle and yearling or two-year-old steers and heifers.

S. A. HATCHER.

J. P. WOODS.

HATCHER & WOODS,

Dealers in Ranches, Cattle and Lands,
FORT WORTH, TEXAS.

We can furnish any number of ones, twos or stock cattle on short notice; also, horses or mares. We have several fine ranches and a vast amount of wild lands for sale; 35,000 acres in Hockley county, price \$1.60 per acre; also, 2300-acre pasture in Erath county, price \$3.50 per acre. Parties having stock or lands for sale will do well to place them with us. We have 20 years' experience in stock business, and guarantee satisfaction.

Polk Stock Yards.

Situated between Missouri Pacific Santa Fe and Fort Worth & New Orleans railroads, with side tracks from each. We make a specialty of feeding all classes of stock for shippers and traders. Blooded cattle can be loaded, and unloaded in our yards without coming in contact with others. Besides box and stalls, we have pens 24x40 feet, all under roof, with water in each. We keep constantly on hand for sale singly or by the car load, Herefords, Polled Angus, Galloway, Short Horn, Jersey, Holstein Cattle, Saddle and Harness Horses, Stallions, Brood Mares, Mules and Jacks.

POLK BROTHERS.

Fort Worth,

Texas

DULANY, WILSON & MAUPIN,

FORT WORTH, TEXAS,

Dealers in Live Stock

Cow ponies, work and saddle horses, stallions, jacks, jennets, thoroughbred and grade bulls can be had at our yards, corner Rusk and Eighth streets. Contracts for any class of live stock for future delivery solicited.

We have purchased Andrews Bros. & Co.'s Stock Yard.

Directors—A. M. Britton, S. W. Lomax, C. B. Daggett, W. G. Turner and Chas. Scheuber.

FORT WORTH NOTES.

Mr. W. A. Sansom of Alvarado wants 200 heavy steers in good fix for feeding between now and October 1, and will pay 2 cents per pound, delivered. He will want 1000 steers for roughing later on.

Mr. J. F. Wares of the Chicago firm of Greer, Mills & Co. arrived in Fort Worth early in the week. He had some experience in Texas during a drouthy season, but this time managed to strike a general rain, and one of the largest kind. Hereafter when anyone doubts that it rains in Texas Mr. Wares will be put on the stand.

Amongst the recent sales in the Panhandle can be mentioned 2000 two and three-year-old steers at \$12 to \$16 by Mr. T. F. Smith of Crockett county. The steers were moved to Henderson during the spring and after resting were driven to the pasture of the Clarendon company.

Although there is no money in cattle, men are now selling four-year-old steers at \$24 to \$26 at Chicago that cost \$12 two years ago.

Fort Worth and vicinity have had many of the spot rains falling at different times of late, but the rain commencing on Monday evening and continuing all night with a steady down-pour was a regular "old timer" and the heaviest fall rain for several years.

Mr. W. G. Rogers of Vineyard, Jack county, came to town last Monday and reported Jack county as soaking.

Mr. E. Briant of Limestone county, who is holding cattle in Greer, was in town on Monday and visited the JOURNAL. He is shipping a few more cattle to Quanah for the Greer county range.

Any man who can find good range to hold them can make a bushel of money buying two-year-old steers.

Mr. John Hensley of Jack county has traded off his horse stock to Perryman & Marshall for cattle, receiving at the rate of 250 head of cattle for each 100 horses. This stock of horses was started about 1875 with a lot of captured Indian ponies and a few fairly good stallions. The ponies cost about \$6 per head at Fort Sill, being sold at auction by the troops.

Mr. Johnson of Strawn, Palo Pinto county, purchased of Polk Bros., Fort Worth, two choice cows and calves at \$250 per cow and calf. Messrs. Polk Bros. have a good selection of Jerseys on hand and can furnish anything in the Jersey line from calves up.

Mr. Abram Nave of the Nave-McCord Cattle company arrived in town from the North.

Winfield Scott of Colorado City was in Fort Worth on Tuesday last.

A report was circulated during the week that Mr. B. H. Campbell, late superintendent of the Capitol Syndicate ranch, had been arrested in Chicago for embezzlement. The next day, by telegraph from Chicago, the report was denied, upon authority of Mr. Farwell. Mr. A. L. Matlock, a prominent attorney and late state senator, is now superintendent of this great property.

Every live cowboy has on his saddle the lightning girth fastener.

Silver Loaf.

Is properly named. Bread made with this baking powder is as light and nutritious as it is possible to be made. It never fails when the directions are followed, hence there is never a word of complaint heard against it. The inexperienced cook is able to make as good bread with it as the professional baker, simply because its ingredients are so compounded as to make failure impossible when the directions are followed; a trial is all that is necessary to make it indispensable to all well regulated households. J. H. Brown guarantees this.

The lightning girth fastener can be had of Tackbery, Shaw & Co.

THE STARS ECLIPSED.

Something of Interest All Ranch-Owners.

The following is an extract from a letter that has appeared as an advertisement in several papers of the state:

"FORT WORTH, TEX., July 13, 1887.

The Capitol Syndicate Co. have just placed an order with the Flint & Walling Manufacturing Co. for three car-loads of Star wind-mills and fixtures.

"This is a result after testing and trying our goods by the side of another mill, and is sufficient answer to our competitors. While they are talking we are getting the orders," etc., etc.

Now, as the Eclipse wind-mill is the one beside which the Star mill was tested and tried, and as we are the competitors whom they say are doing the talking while they are getting the orders, we state a few facts and leave ranchmen to judge who it is that offers them wind and who furnishes wind-mills.

There were 22 Eclipse and 3 Star mills on the ranch last winter; 2 out of the 3 Stars were wrecked—not an Eclipse was injured. Read the following letter:

YELLOWHOUSE, August 9, 1887.

Jones & Marshall, Colorado, Texas:

Gents—Yours of the 4th at hand, inquiring as to the facts regarding Flint & Walling Manufacturing Co. furnishing 3 car-loads of wind-mills and fixtures to the syndicate. Will say, I am in charge of the wind-mill department of the southern division (all south of the Canadian river) of said company's lands, and there never has been an order given for but 3 Star wind-mills from this end up to date. Would further say, we have 51 Eclipse wind-mills on the southern division, and 3 Star wind-mills. Would further say that last winter one of the Star mills (a 14-foot) blew down and the tower was left standing. There were 8 Eclipse mills all around it, and not one was injured. All came through running in good shape. If you think the advertisement of the Star company is calculated to mislead people you may publish this.

[Signed] B. F. WILLIAMS, Superintendent Wind-mills and Pumps, XIT Ranch.

As to the three cars of Star mills and fixtures, there were in the lot not to exceed ten 12-foot and five 10-foot mills; the rest was made up of lumber for towers, tanks, fences, etc., with a few pumps. Col. Campbell told us that he allowed them to be purchased for use on the shallow wells at north end, and to be shipped from Kansas City, via Trinidad, Colorado. Since that small order was placed we have sold the syndicate six 12-foot Eclipse mills, twenty-one 14-foot Eclipse mills, and nine 16-foot Eclipse mills, besides 11 car-loads tanks, pumps and troughs—13 car-loads in all. We have sold them altogether 76 mills: One 10-foot, thirty-five 12-foot, thirty-two 14-foot, and nine 16-foot Eclipse mills—5 car-loads of mills alone. Have sold them 26 car-loads of fixtures—31 car-loads of wind-mills and fixtures, and not a tower or any fence lumber included.

What an omnibus term the Flint & Walling people have found in the word "fixtures." It may be made to include posts and lumber to build corrals around their windmills.

Do not the sales prove an almost total Eclipse of the Stars, and are they not forced to bring in the term "fixtures" to enable them to shine at all? We request them to give their sales in number, and size of mills, and so enable the public to judge between us.

JONES & MARSHALL, General Agents for Eclipse Windmills for North Texas, Colorado, Texas.

Missouri Pacific Time.

PARSONS, KANS., Aug. 18, 1887.

Mr. L. D. Voak, Live Stock Agent.

DEAR SIR: I give you below statement, showing average of stock trains over the M. K. & T. division north of Denison, during the week ending Aug. 14, 1887.

HANNIBAL SECTION.

Number of trains, 7; distance, 142 miles; average speed per hour, 18.39.

PARSONS SECTION.

Number of trains, 11; distance, 90 miles; average speed per hour, 21.52.

CHEROKEE SECTION.

Number of trains, 23; distance, 93 miles; average speed per hour, 23.08.

DENISON SECTION.

Number of trains, 11; distance, 157 miles; average speed per hour, 19.30. Average speed per hour whole division, 20.60. Yours truly, J. J. FREY,

Superintendent.

THE STARS STILL SHINE.

All Know that an Eclipse is but a Shadow that Soon Passes Away.

The Capitol Syndicate Company recently placed an order for three car-loads of STAR Wind Mills and fixtures, since increased to four car-loads, which is a sufficient answer to our competitors; or do they wish to advertise the management with being foolish enough to give an order like the above if our mill was unsatisfactory?

The former superintendent of wind mills on the south end of the ranch, who was a strong believer in the Halliday mill, reported to the general manager that the "STAR," after testing, he considered did 25 per cent. more work than any other mill on the ranch.

The management on northern end of ranch shows his faith in the "STAR" by placing large orders, which even our competitors admit a part of, and it is a fact they have gone deeper for water on the north end of ranch than on south end.

By the way, has there been any report of large loss of cattle on the north end? Will our competitors deny that one of their mills was not over the well that seventy or eighty steers broke through and died, trying to get water?

Has any one heard of any loss of cattle on D. H. & J. W. Snyder's ranch, adjoining on the east?

We frankly admit that the Syndicate Company, while in the transition of change of management and wishing to partly make up a loss of a number thousand dollars to our competitors on a well contract have placed quite an order, but only on the south end.

As we now have about one-third as many mills on this ranch where eight months ago we only had one twenty-fifth as many as our competitors and where they believed they had all the field to themselves, is certainly no reason for us to mourn.

Gur competitors claim they have more mills of every size in this state than the vendors of any other mill. They have had a general agency for eight, ten or twelve years in San Antonio, and one in Colorado for North Texas for about two years, which should enable them to hold the field.

There was not one of our STAR mills in Texas until three years ago, nor a representative of the STAR until we opened our branch house in Fort Worth about April 1, 1886. Our sales have never been pushed only by reference to those using the "STAR'S." Such has been their report that our sales the past three months have equalled all of last year's. Should our present increase continue six months longer we will gladly compare number of STAR mills with any other mill, no matter how long they have been in Texas.

The half of the wheel still left on the tower on the west side of South Main street is the only specimen of our competitor's mill left in our city as a reminder to our citizens. The one that supplied water to Judge Beckham, E. B. Harrold and J. W. Zook, was exchanged for a "Halliday," and since replaced by a "STAR," which is sold strictly on its merits, and all of our patrons are our references.

Since B. F. Williams, an employe of the Capitol Syndicate Co., has seen proper to write a letter to Jones & Marshall, concerning the relative merits of the Eclipse and Star windmills, which letter was evidently intended for publication, and was inserted in the Colorado Clipper as an advertisement the Eclipse mill to the detriment of the Star mill; and as it was evidently intended by the writer and publishers of that letter to make the impression upon the public that Mr. Williams, though a volunteer witness, was an entirely disinterested and unbiased one and did not wish to have the public misled, we would therefore ask Jones & Marshall and the said Williams for candid and truthful answers to the following questions, that the public may judge whether he

(Williams) is the disinterested and unbiased witness they would have appear, and which of us is trying to mislead the public:

1. Is it not a fact that said Williams was, prior to the time he went to work for the Capitol Syndicate, engaged in the sale or the erection of the Eclipse mills? If he was, does he still have any interest in the sale of said mill? If so, what?

2. Is it not a fact that he went 70 miles, or about that distance, from the headquarters of the ranch, prepared and for the purpose of taking a negative for a photograph of a broken Star mill? If he did do so, did he have any orders from the manager of the ranch or anyone in authority to do so? If not, at whose instance and for what purpose did he go, and did he take the negative or photograph when he did go?

3. If he did take the photograph, did he furnish it or any one of them either to the owners or manager of the ranch or to the Flint & Walling Manufacturing company? Is it not a fact that said Williams did furnish a photograph or negative of said broken mill to Jones & Marshall, agents of the Eclipse windmill? If so, for what purpose?

4. If said Williams did furnish said agents with the photograph of the broken mill, did he do so unsolicited or at their request? Did said Williams receive any pay or compensation from Jones & Marshall or any other person interested in the Eclipse mill, for said photograph? If so, what? Or if not, did he furnish the same for pure love and affection? If neither of these, what induced him to furnish it?

5. How many days was he engaged in going and returning from the place where the photograph was taken? Did Williams claim or draw his wages from the Capitol Syndicate for this time?

6. Who erected this mill? Was any change made in it after erection? If so, by whom and for what reason?

7. Is it not a fact that the management of the ranch knew of this broken mill before giving the order for three car-loads of goods to the manufacturers of the Star windmill, considering that the fault was in the erection of the mill, and not otherwise?

We ask the questions in all candor, and request that the parties interrogated answer them in detail, and believe that at least the answers will show this volunteer witness was not unbiased.

We shall mail the above-named parties copies of these questions and await the reply, that the public may see who is misleading them.

FLINT & WALLING MANUF'G CO., Fort Worth, Manufacturers of STAR Wind Mills.

No saddle is complete without Tackbery, Shaw & Co's. lightning girth fastener.

Use Silver Loaf Baking Powder.

\$200 REWARD.

\$100 for the Horses and \$100 for the Thieves.

The following described horses were stolen from Endee, San Miguel county, New Mexico, on May 25, 1887:

One blue roan mare, 14½ hands high, branded (fish) on left shoulder, 8 (inverted B) on right shoulder

One bay horse, branded JV on left shoulder, has white star on forehead.

One bay horse, branded JV on left shoulder, three white feet, on one fore foot in an old scar from cut of barb wire.

One bay horse, branded VXA on left hip and slit eared.

One roan horse, branded (fish) and (running W) on left shoulder.

One dun horse, branded OK (OK connected) on left hip.

Anyone knowing their whereabouts will please address A. S. C. FORBES, Care Day Bros., Endee, San Miguel Co., N. M.

The Best Food for Dairy Cows.
National Live Stock Journal.

It was once supposed that the material for nourishing the various parts of the animal body and supplying its varied requirements, was elaborated in the body of the animal out of whatever food was consumed; that in feeding animals, for instance, it was only necessary to supply them with such food as they could digest, and the vital functions would mould it into any shape or condition to suit the purposes of life; that the body was a chemical laboratory in which fat or muscle, nerve or bone, could be formed out of any digestible food. This theory was followed by another, that all the material which enters into the composition of the body must be ready formed and in a condition suitable for assimilation before it is eaten, and that all the animal has to do in digesting its food is to separate the several elements of food from the innutritious parts and from each other, and appropriate them; that, in short, the animal is only a machine for separating and depositing the elements of nutrition contained in the food consumed. Neither of these theories is wholly false, nor wholly true. It is true that food must contain certain elements ready formed, or it can not serve the purpose of life, and it is also true, to a limited extent, that one kind may be converted into another and varied in the use.

The supporters of respiration, gum, starch, sugar and fat, may change forms, but all those forms must end in fat or be burned in respiration. They can never form flesh or bone. They contain no nitrogen to make flesh of, and no mineral for bone. The albuminoids, albumen, fibrin, casein, and gluten may change forms under the influence of the vital force, but they alone can build up the flesh and tissues of the body. They are not, however, confined to this purpose. They can, by parting with oxygen, support respiration or furnish fat. The extent to which albuminoids are thus convertible is limited, but that they may serve to build up flesh and support respiration also, is well known.

The farmer's cow, like all other animals, is part chemist and part machine, and in feeding her to derive a revenue, her double capacity should be kept in view. When considered as a chemist, it is important to have her food in a condition to require the least possible change, that time and her vital energy may be economized. As a machine, it is necessary to have her food in a condition such that its nutritious elements may be easily separated and dissolved out of the insoluble and fibrous matter with which it is always connected.

When the chopper is preparing fuel in the forest, if his timber cuts and splits easily, he prepares a large amount in a day; if it cuts hard and splits toughly, he can do much less with the same or any given amount of strength; so with the labor of digestion. If a cow is furnished food easy to digest, she can use a large amount and produce large results. If it is difficult of digestion it works slowly, like the tough timber, and but little is effected in a given time. But it may be asked what cattle food is easy of digestion, and what difficult? As a rule, young food, whether dry or green, is easy to digest, also such foods as are succulent or have their nutritive properties combined with a considerable amount of

water, such as roots and green soiling foods. Ripe herbage, as a rule, is difficult of digestion. A cow will digest as much nutriment out of green grass in an hour, as she can in three hours out of well matured hay. Well ripened food may be made easy of digestion by steaming or cooking so that it may be substituted for green food. In its natural or raw state, herbage that is well matured has the double disadvantage of digesting slowly and of having a considerable part of its nutritious matter entirely indigestible, so that food in this condition is entirely lost. Cooking remedies both these faults; besides facilitating digestion, it brings into a digestible condition twenty-five or thirty per cent. of nutriment in all well matured herbage, that would otherwise be passed undigested and lost.

But it is not enough that the food of cows should be easy of digestion; it should also have the different elements in the right proportion. The flesh-forming and respiratory matter must sustain certain relations to each other and a part of the later must be fat.

It is found to accord with experience and chemical investigation that one pound of albuminoids, casein, albumen, etc., will supply the daily waste for 500 lbs of live weight of ordinary farm stock, while a pound of starch, sugar, etc., will hardly supply the waste for 100 lbs. A pound of fat will answer for more than 1,000 lbs. For each pound of albuminoids, therefore, there must be five pounds or above of respiratory food and nearly one-half pound of fat; unless this proportion in the relation of food is nearly complied with, the animal will not prosper. From the fact that flesh and flesh-forming food may in part supply respiration, a small amount of starch, sugar, etc., may be wanting without any material injury, if the other element is abundant. But as nothing can answer in the place of albuminoids, there can be no lack of that kind of food without loss. A fattening animal even suffers by any such deficiency. The increase of cells necessary to hold the increased accumulation of fat will not be found if there is a lack of nitrogenous matter to form them of, and having no place in which to lodge, it goes to waste.

Fattening cattle are sometimes fed at considerable loss from this cause. But dairymen much oftener run astray in the use of flesh-producing food.

The rations of a milch cow should be different from those of stall-fed or store cattle. A cow that will weigh 1000 lbs, giving a good flow of milk, will require in her daily food four pounds of albuminoids, twelve to fifteen of carbo-hydrates, and about one and a half pounds of fat. The last two are usually in full supply, but the first is often lacking. There is but little forage that will furnish the needed proportion. In green grass everything is well balanced. But the per cent. of albuminoids decreases as the grass matures, and fails of a proper supply in hay and almost all advanced herbage. Grass, either green or dried, has the advantage of almost all other kinds of food for milk production, in the quality of easy digestion. Nothing yields so easily to the action of the gastric juice. From the large per cent. of water combined with its nutritive matter, nothing is so quickly absorbed or so easily transferred through the vascular system and lodged where it is to be appropriated.

Nothing requires less change to be converted into milk than the material extracted from green pastures. When a cow is fully supplied with green grass she will shrink by feeding mostly oil meal or any other rich food that has reached a stage of maturity. She will shrink, though more abundantly supplied with albuminoids and all other elements that enter into the composition of milk, for the reason that, like the tough-splitting timber, their elements are held together so firmly in comparison with those of grass, that

SCAB! The Only Dip Sold With Positive Guarantee of Effectiveness.

Ladd's Tobacco Sheep Dip

IS guaranteed to ERADICATE SCAB and VERMIN as surely in mid-winter as mid-summer. Those who have used other dips with no or partial success, are especially invited to give ours a trial. Its use more than repays its cost in an

they digest more slowly, and hence fail to furnish as large results as can be desired from the quickly digesting grass. Green food is best for the dairy, but when this fails, foods rich in the elements of flesh make an excellent substitute. There is quite a difference between young grass and that which has stood in the pasture till it has become old.

For this reason it pays to feed pastures off about as fast as the grass will grow when the season is favorable, and soil with green food when there is any occasion. In this way food easily digested may be cheaply supplied through the season, affording a guaranty against drouth as well as securing large returns from keeping up a continuous full flow of milk through a long season.

Evidence of Merit.

The best evidence of the merit of any article offered for sale to the people is its popularity—that is, the readiness with which it sells. If a baking powder, for instance, fails to give entire satisfaction in any particular, the cook never fails to complain and it becomes unsalable. Nobody has ever complained about Silver Leaf Baking Powder because it so full strength, absolutely pure chemically, and makes the most wholesome bread of any powder on the market. The guarantee of J. H. Brown is in itself sufficient to make it go like hot cakes.

Mexican Lands.

Mr. J. P. Waties is constantly riding through Northern Mexico in his search for horses, consequently he has unequalled facilities for inspecting the best ranch lands. Parties wishing to buy any kind of land in the "coming country" should correspond with him.

The Refrigerator Question.

Fort Worth Mail.

Much has been said and more written, on the subject of refrigerating works in Texas, but so far nothing definite has been determined upon by the cattlemen of the state, and until the matter is taken up and acted upon by them it is safe to conclude that there will be no such establishment operated in Texas. Chicago and Kansas City syndicates could afford to pay prices for Texas steers that would take every three-year-old hoof out of the state until the infant industry was crushed, and the only safeguard against results of this character is in the ownership of a refrigerator by men who have sufficient cattle to supply the demand from their own herds. If it will require fifty or a hundred or even more of our largest cattle owners to furnish the necessary number of boxes that number should be secured as stockholders in the enterprise, and their obligation given that the works should first be supplied at a fair valuation, regardless of the offers from syndicates north, before a single steer was shipped out of the state.

While Fort Worth is pre-eminently fitted for the building up of such an enterprise on account of its railroad facilities, its nearness to the great Pan Handle country and its cheap feed for fattening cattle, the question of location is secondary to that of ownership, and until this fact is realized and acted upon the success of a great refrigerating establishment in Texas can be but an idle dream. The action of Houston people is commendable in placing the matter before the cattlemen of South Texas and proposing to share the risk that will attend the efforts of placing such an enterprise on a solid footing in their city, and the enterprising citizens of Fort Worth could render their city and section a great service by interesting the Pan Handle rangemen in a move that would bring the cattle interest of that entire section together in the formation of an alliance offensive and defensive for their own protection.

The MAIL is not advised as to whether the time is propitious. If it is, who will take the initiatory steps necessary to put the ball in motion?

What to do With Weeds.

Cor. Journal of Agriculture.

What shall we do with our weeds? This question used to puzzle me, and does yet. But in studying for a solution I have discovered that weeds may be utilized in many cases and turned to profit. For illustration, a field of 20 acres devoted to corn for four or five years was to lie idle for the following two or three years. It was not convenient, for certain reasons, to seed it to grass or use it during that time for other crops. Rag weeds and other weeds got possession. At the end of the second summer, about the last of August, I began to study how that field could be best fitted for cropping the following year. There was a formidable mass of weeds to be dealt with in some way. Had I better mow them and when dry put them in the fire? Or, I might leave them until the spring and let the storms beat them down and then fire them as soon as the weather would permit. There were two or three tons per acre of these weeds. Say 50 tons in all. Were they worth anything as green manure? Why not? They were composed of elements taken from the soil and air. Why not plow them under and return to the soil what they had taken from it during growth, and the additional substances more or less contributed by the atmosphere? I saw at once, or thought I did, that

there was too much manurial value to be wasted. It would require a great outlay of labor to haul from the stables and yards as much manure as was contained in those weeds. That consideration settled it. And now was just the time to do it, plow them under before their seeds ripened. That would give a clean field for next year. Accordingly, we took a strong team and wide plow and the chain to drag down the weeds, as all farmers know how, and we made a very fair job. The following spring we replowed. The green weeds had rotted and the soil was in nice condition. We planted it to corn and had a good crop; the best on the farm that year. The next two years we raised oats on this field. The first year have the best yield of oats we had up to that time raised, by about ten bushels to the acre, and the next, though a few bushels less, was yet better than we had ever done previous to this experiment.

Clover is unquestionably best for green manuring, but if a farmer is so situated as not to have the clover, and has the weeds, let him utilize them. My field is in weeds again, and in a year or two will be treated as before. I have sowed it to clover twice with no good results, as the grasshopper took the young clover as soon as it appeared, and so the weeds got possession. As something is generally better than nothing, I welcome the weeds and expect to turn them to good account.

FOR MAN AND BEAST!
Mexican Mustang Liniment

CURES

- | | | |
|-------------|---------------|---------------|
| Sciatica, | Scratches. | Contracted |
| Lumbago, | Sprains. | Muscles, |
| Rheumatism. | Strains, | Eruptions, |
| Burns, | Stitches, | Hoof Ail, |
| Scalds, | Stiff Joints, | Screw |
| Stings, | Backache, | Worms, |
| Bites, | Galls, | Swinney, |
| Bruises, | Sores, | Saddle Galls, |
| Bunions, | Spavin | Piles. |
| Corns, | Cracks. | |

THIS GOOD OLD STAND-BY accomplishes for everybody exactly what is claimed for it. One of the reasons for the great popularity of the Mustang Liniment is found in its universal applicability. Everybody needs such a medicine. The Lumberman needs it in case of accident. The Housewife needs it for general family use. The Cannaler needs it for his teams and his men. The Mechanic needs it always on his work bench. The Miner needs it in case of emergency. The Plowman needs it—can't get along without it. The Farmer needs it in his house, his stable, and his stock yard. The Steamboat man or the Boatman needs it in liberal supply afloat and ashore. The Horse-fancier needs it—it is his best friend and safest reliance. The Stock-grower needs it—it will save him thousands of dollars and a world of trouble. The Railroad man needs it and will need it so long as his life is a round of accidents and dangers. The Backwoodsman needs it. There is nothing like it as an antidote for the dangers to life, limb and comfort which surround the pioneer. The Merchant needs it about his store among his employees. Accidents will happen, and when these come the Mustang Liniment is wanted at once. Keep a Bottle in the House. 'Tis the best of economy. Keep a Bottle in the Factory. Its immediate use in case of accident saves pain and loss of wages. Keep a Bottle Always in the Stable for use when wanted.

Cattle in Arizona.

Hoof and Horn, Prescott.

The compilation of the returns of the tax assessors of the counties of Arizona show that there are at present within the Territory 462,790 stock cattle, aggregating in value \$5,624,771.49. The cattle are divided among the several counties as follows:

Yavapai.....	131,259
Pima.....	83,233
Cochise.....	73,285
Apache.....	59,248
Graham.....	37,089
Pinal.....	34,286
Mohave.....	23,172
Gila.....	17,102
Maricopa.....	9,505
Yuma.....	3,510

This shows a direct increase during the year of 99,065 head, as shown by the report of the territorial auditor for 1886, which placed the entire number of cattle in the Territory at 383,725, credited to the different counties as follows:

Yavapai.....	116,286
Pima.....	66,500
Cochise.....	60,492
Apache.....	38,461
Graham.....	29,218
Pinal.....	28,536
Gila.....	15,970
Mohave.....	15,556
Maricopa.....	9,586
Yuma.....	3,111

No other fact can show so plainly as do these figures the rapidly increasing numbers of cattle which the already well-stocked ranges of the Territory are called on to maintain. With an annual increase of twenty-five per cent. as here shown clear over the beef stock yearly marketed, the question is presented most forcibly: "What is to be done to prevent the over-stocking which must inevitably come within the next few years?" The solution of this problem has never yet been as forcibly required in Arizona as it has in other territories and states of the range country where severe winters and excessive drouths were less favorable to the maintenance of large herds. Each day, however, it becomes here more pressing, and if the heavy losses which elsewhere have attended the over-stocking of ranges would be avoided by the stockmen of the territory, it is time they bend their energies towards restricting the increase of cattle in proportion to the limits of the available range facilities.

Is it Really Consumption?

Many a case supposed to be a radical lung disease is really one of liver complaint and indigestion, but, unless that diseased liver can be restored to healthy action, it will so clog the lungs with corrupting matter as to bring on speedy decay, and then indeed we have consumption, which is scrofula of the lungs, in its worst form. Nothing can be more happily calculated to nip this danger in the bud than is Dr. Pierce's "Golden Medical Discovery." By druggists.

The best combination for a farmer in the way of stock is a bunch of dairy cattle and a flock of sheep.

Don't Waste Time.

With poorly manufactured or impure baking powder. Buy a package of Silver Loaf and give it a fair trial. If you do this you will never regret it. How many disastrous failures in making bread cause troublous vexation in the household! This can all be obviated by a trial of Silver Loaf. J. H. Brown guarantees its purity, strength and efficiency.

Worth Your Attention.

Cut this out and mail it to ALLEN & Co., Augusta, Maine, who will send you free, something new, that just costs money for all workers. As wonderful as the electric light, as genuine as pure gold, it will prove of lifelong value and importance to you. Both sexes, all ages. ALLEN & Co. bear expense of starting you in business. It will bring you in more cash, right away, than anything else in this world. Anyone anywhere can do the work, and live at home also. Better write at once; then, knowing all, should you conclude that you don't care to engage, why no harm is done.

If afflicted with sore eyes use Dr. Isaac Thompson's eye water. Druggists sell it at 25 cents.

A Novel Bet.

While I am not a betting man, said F. J. Cheney, of the firm of F. J. Cheney & Co., I considered it my religious duty to make that fellow a bet. You see, he was about dead, and I guess he would of died before spring if I had not of got him on the bet. You know some men had rather lose their life than lose a hundred. Well, he was one of that kind, and we both came near being out, but I saved my hundred and it only cost him ten dollars. How's that? He sent for me one day and said the doctors had all given him up to die, with the catarrh. I told him that I would bet him \$100 that Hall's Catarrh Cure would cure him, or I would give him \$100 if it failed. He took the latter proposition. This was three months ago; you see how he looks now, don't you? As well as anyone, and a dandy.—American, Toledo, O.

Silver Loaf.

Is properly named. Bread made with this baking powder is as light and nutritious as it is possible to be made. It never fails when the directions are followed, hence there is never a word of complaint heard against it. The inexperienced cook is able to make as good bread with it as the professional baker, simply because its ingredients are so compounded as to make failure impossible when the directions are followed; a trial is all that is necessary to make it indispensable to all well regulated households. J. H. Brown guarantees this.

NEWS OF THE WEEK.

SAN FRANCISCO, CAL., Aug. 24.—Governor Washington Bartlett, who has been in a precarious condition for some time, was stricken by paralysis last night and little hope of his recovery is entertained.

SCRANTON, PA., Aug. 24.—Mr. Powderly says he will take no part in the organization of the new American party. He says that he is an American but cannot take an interest in reviving purely American ideas.

St. Louis, Aug. 24.—The surviving veterans of General William Walker's Nicaraguan expedition, or the Old Phalanx as they call it, are arranging to hold a reunion at Louisville, Ky., sometime this autumn.

CISCO, TEX., Aug. 26.—At the competitive examination for the Sam Houston Normal held here yesterday, Miss Lillie Shelton of Eastland county received the highest grade and will receive the appointment.

WACO, Aug. 26.—William H. Cherry, a farmer living four miles south of here, committed suicide this morning by severing the base of his skull from the cervical column with a knife. He was an old man and his mind had been weak for some time.

PITTSBURG, TEX., Aug. 24.—The election for local option in beat one was had to-day giving ninety-five majority for prohibition. Great rejoicing was had after the vote was announced, the ladies of the town and county taking a big part.

PITTSBURG, PA., Aug. 26.—At a meeting of stone masons of Pittsburg and Allegheny city at Hibernia hall to-night, it was unanimously decided to leave the Knights of Labor and go into the International Association of Bricklayers and Stone Masons. About 400 stone masons were present.

HOUSTON, TEX., Aug. 25.—In a bale of cotton opened at the city compress here yesterday, a letter containing \$411 in currency and written by J. H. Erno, a Lee county farmer, to J. Leopold & Co., Baltimore, Md., was found. As the letter had probably fallen in accidentally while it was being baled, it was returned to Mr. Erno by mail.

WHITESBORO, TEX., Aug. 26.—Bass Crawford and Walter White yesterday evening tried to emulate William Tell. Crawford assumed the roll of William Tell, and White the son. The first shot from a shot-gun proved that Crawford's nerves were not quite steady, as he came near blowing White's head off, the shot taking effect in the side of his head, glancing around. No serious injury resulted.

LARNED, KAN., Aug. 27.—John Groves, the 12-year-old son of J. A.

Groves, a grocer of this city, was sent to his father's farm with a span of ponies. While riding one and leading the other with a halter strap wrapped about his arm, the team became fractious and throwing the boy to the ground dragged him to death. When found his skull was crushed in a frightful manner and the scalp was torn completely from the top of the head.

WHEELING, W. VA., Aug. 26.—The members of the Grand Army who participated in the demonstration in this city to-day refused to pass under a portrait of President Cleveland suspended from the Register office. The entire column made a detour and dropped their colors in passing the picture. The action caused some excitement in the city. There were over 5000 veterans in line from Western Pennsylvania, Ohio and West Virginia.

ANSON, TEX., Aug. 24.—The grand jury has returned thirteen indictments since their reconvention, three against Lem Baker for theft of cattle, four against J. S. Boyd for same offense, four against W. E. Willis for theft of cattle and one for theft of horse, and one against Mel Chapman for theft of cattle. All the parties are in jail, and Willis is now on trial under one of the indictments for theft of cattle. The District Attorney says he has about as many more against each of the prisoners, which will be returned into court to-day. H. Bullard has also been indicted and put in jail for theft of cattle.

MADISON, WIS., Aug. 26.—For the most foul and unnatural crime of incest, practiced to a shocking degree, old Rubert Stein, living in a German settlement in this county, has just been sentenced by Judge Bradley to nine years in the penitentiary. He has four daughters, the youngest about 14, and has outraged, in the face of nature, all, confessing to an intimacy with the two eldest in the old country. Through a priest the law learned of his cohabitation with his youngest child a few weeks ago and was at once arrested. All of his daughters were spirited away to Iowa before his arrest. He confessed by the advice of his attorney.

KANSAS CITY, Aug. 26.—John McClellan, aged about 40 years and a stranger in the city, is locked up at the St. Louis avenue police station. About 7:30 o'clock yesterday evening he ran out of the Union depot and into a lodging house on the opposite side of the street. Without waiting to go through the usual ceremony of engaging a room, he hurried up stairs and jumped into bed with his clothes and boots on. An officer was called to whom he explained that he was being pursued by a band of thugs who were

intent upon killing him. They were on the train that he came to the city in, but the conductor refused to put them off. McClellan was ticketed for Albuquerque and had a gold watch and about \$500 sewed up in his clothes.

OMAHA, NEB., Aug. 25.—Charles Parker, the cowboy accused of robbing Paymaster Bush of \$7,500, at Antelope Springs, W. T., March 18, was arraigned before Judge Dundy in the United States court, on the charge of robbery. He waived examination and was bound over in the sum of \$7,500. In default of this bail he was turned over to the United States marshal of Wyoming Territory to answer at the November term of the United States court in the second judicial district of the territory. Parker's friends have brought suit for \$50,000 against United States Marshal Burbough and J. B. Doan, the sheriff of Logan county, who captured Parker at Gandy, on the ground that the arrest was made without a warrant.

AUSTIN, TEX., Aug. 25.—Governor Ross to-day pardoned a man named John Werringer, who was convicted in Austin county in 1880 on a charge of rape, and sentenced to fifteen years in the penitentiary. The crime was charged to have been committed by Werringer upon his step-daughter, Pauline Trader, and it was upon her testimony that he was convicted. Subsequently, in 1886, the girl on her death-bed confessed to one of the jurymen who tried the case, that her evidence before the jury was false and that she was forced to make the statements she did by her own mother, the wife of Werringer, who was desirous of getting rid of him in order that she might live with another man. The petition for pardon was signed by all the county officers and a number of citizens, who express the belief that the man has been unjustly incarcerated.

WASHINGTON, Aug. 25.—Colonel Switzler, chief of the bureau of statistics, announces that he will soon have ready for distribution a work of great importance to the manufacturing as well as the agricultural element of the population. The work will be a statistical analysis of the wool industries of every country of the world. In it will be incorporated all the various acts of Congress relating to the tariff on wool and woolen manufacturing from the time that the tax of 1793 was passed down to the latest revision of 1883. A brief history of the enormous strides made in wool growing and wool raising and wool manufacturing will be a feature of the report, and everything of value to the farmer and manufacturer in connection with wool, which can possibly be inserted in a work of this kind will be added. Colonel Switzler has gone into the project with

great enthusiasm, and has exhausted every means to secure data which would be likely to add to the interest which he thinks will be taken by those for whom the work is designed.

NEW YORK, Aug. 25.—An army man growing old and gray, but yet fit for many a year of good work, has dropped into New York to spend a portion of his month vacation. His name is Col. Thomas Rose, and he has for some years been in command at Fort Concho Tex., perhaps one of the most lonely and uninviting spots on the southwestern frontier. The Colonel was in the war against the rebellion, and one fine day found himself an inmate of Libby Prison. It was he who planned and supervised the construction of the famous tunnel built in darkness, dug out in silence and completed in midwinter, and through whose narrow limits, just wide enough to admit one human body forty-nine federal soldiers crept to light and freedom in the beginning of February, 1864. The Colonel has had charge of many an engineering work in his day, but to none of them does he refer more proudly than to the one he carried out so successfully in the very midst of the rebels' prison yards.

The "Favorite Prescription" of Dr. Pierce cures "female weakness" and kindred affections. By druggists.

San Antonio Times:—Mr. F. P. Hord this morning transferred 2330 acres of the Plunkett survey of land, eight miles northwest of the city, to Geo. W. Ridgely, for the consideration of \$24,770.

Gone where the Woodbine Twineth. Rats are smart, but "ROUGH ON RATS" beats them. Clears out Rats, Mice, Roaches, Water Bugs, Flies, Beetles, Moths, Ants, Mosquitoes, Bed-bugs, Insects, Potato Bugs, Sparrows, Skunks, Weasel, Gophers, Chipmunks, Moles, Musk Rats, Jack Rabbits, Squirrels. 15c. & 25c.

HEN LICE.

"ROUGH ON RATS" is a complete preventive and destroyer of Hen Lice. Mix a 25c. box of "ROUGH ON RATS" to a pail of whitewash, keep it well stirred up while applying. Whitewash the whole interior of the Henery; inside and outside of the nests. The cure is radical and complete.

POTATO BUGS

For Potato Bugs, Insects on Vines, Shrubs, Trees, 1 pound or half the contents of a \$1.00 box of "ROUGH ON RATS" (Agricultural Size) to be thoroughly mixed with one to two barrels of plaster, or what is better air slacked lime. Much depends upon thorough mixing, so as to completely distribute the poison. Sprinkle it on plants, trees or shrubs when damp or wet, and is quite effective when mixed with lime, dusted on without moisture. While in its concentrated state it is the most active and strongest of all Bug Poisons; when mixed as above is comparatively harmless to animals or persons, in any quantity they would take. If preferred to use in liquid form, a table-spoonful of the full strength "ROUGH ON RATS" Powder, well shaken, in a keg of water and applied with a sprinkling pot, spray syringe or whisk broom, will be found very effective. Keep it well stirred up while using. Sold by all Druggists and Storekeepers. 15c., 25c. & \$1. E. S. WELLS, Chemist, Jersey City, N. J.

Full Line of Stockmen's Goods Always on Hand.

Corner First and Houston Streets, FORT WORTH, TEXAS

KANSAS CITY STOCK YARDS,

Are by far the most commodious and best appointed in the Missouri Valley, with ample capacity for feeding, weighing and shipping Cattle, Hogs, Sheep, Horses and Mules. No yards are better watered, and in none is there a better system of drainage.

HIGHER PRICES ARE REALIZED

Here than in the markets East. All the roads running into Kansas City have direct connection with the yards, which thus afford the best accommodation for stock coming from the great grazing grounds of

Colorado, New Mexico, Texas and Kansas,

And also for stock destined for Eastern markets. The business of the yards is done systematically and with the utmost promptness, so that there is no delay and no clashing, and stockmen have found here, and will continue to find, that they get all their stock is worth, with the least possible delay. This company has established in connection with the yards an extensive Horse and Mule market, known as the

KANSAS CITY STOCK YARDS COMPANY

HORSE AND MULE MARKET,

F. E. SHORT & CO., Managers.

FRANK E. SHORT.

CAPT. W. S. TOUGH.

Have always on hand a large stock of all grades of

HORSES AND MULES,

Which are bought and sold on commission by the head and in car-load lots. In connection with the sales market are

LARGE FEED STABLES AND PENS,

Where all stock will receive the best of care. Special attention given to receiving and forwarding. The facilities for handling this class of stock are unsurpassed at any stables in this country. Consignments are solicited with the guaranty that prompt settlement will be made when stock is sold.
