

The Texas STOCKMAN-JOURNAL

VOL. 27

FORT WORTH, TEXAS, MARCH 18, 1908

NO. 43

CHAMPION PRIZE WINNING STALLIONS

A. B. Holbert & Sons of Greeley, Iowa, and Fort Worth, with Seven Horses entered carry off three Champion Prizes, five First Prizes and one Second Prize

Imported German Coach Stallion Rittmeister

Rittmeister, No. 2085

Won first prize German Coach Stallion; won grand champion prize over all breeds and ages of coach and carriage horses. Prof. Kennedy, judge of the horse show, pronounced this horse the best ever exhibited before him in either Europe or America. Rittmeister also won first prize as a 2-year-old at the St. Louis Worlds Fair in 1904.

Wintringham A No. 8338

1010, won the first prize imported Hackney Stallion; won reserve champion prize standing in the all coach and carriage class next to Rittmeister.

Imported Forban No. 66969

51503, won first prize in the Percheron class, and reserve champion prize against all breeds and ages in draft stallions.

Prof. Kennedy, judge, declared Forban good enough to win in any show in Europe or America, and as good as any he saw at the great Paris horse show in France last year.

GOLDEN DREAM, No. (10036) 1007, English Hackney, first prize winner under 4-year-old, and Greeley, No. 316, first prize winner in French coach horse class.

These stallions are all for sale at our barns in North Fort Worth.

A. B. HOLBERT & SONS

GREELEY, IOWA, AND FORT WORTH, TEXAS

5,000 Attend Horse Show

Coliseum Presents Entrancing Spectacle to Eye

Fort Worth owned horses were prominent in the list of awards for the first night of the great horse show. Brought into competition with some of the choicest products of Missouri and other states, the locally-owned high-steppers more than held their own.

The program for Thursday night includes some of the best of Fort Worth horses and this city should again be strongly represented in the list of ribbon winners.

First monies in the harness, polo pony, four-in-hand and tandem classes were won by Fort Worth entries, while in numerous other classes second and third prizes fell to the lot of local exhibitors.

Manager W. V. Galbreath, who is one of the most experienced horse show men in the country, is proud of the success of opening night. An audience estimated at 5,000 witnessed the events; the arena of course left nothing to be desired, while the lights, music and general setting were fully on a par with any exhibition ever given anywhere.

The boxes were filled with beautifully gowned women. The audience was a discriminating one, few in the large crowd being without some knowledge of the finer points of the game.

Big Entry List

Nothing can better indicate the unqualified success of the show than the size of the entry list. The judges, who are foremost in the profession, have never been called on to pass on larger fields and they are authority for the statement that the class of the contestants compares favorably with that of larger cities.

Magill & Oliver of Kansas City won the pair event with Grant and Cudahy, Mr. Oliver driving. Oltmann Bros., Eitelknoke and Earl König were awarded second place with H. B. Sanborn's Frank and Robert in third place. Mr. Sanborn's home is in Amarillo and his entry had the support of a large contingent of north Texans in the stands. Other entries in this event are: Redon and Sedon (J. A. Hughes of Dallas), Duke and The Prince (D. I. Galliber, North Fort Worth), Doctor and Deacon (H. B. Sanborn), Warfield and Prince (C. I. Dickinson, Fort Worth), Bojarin and Rodente (Oltmann Bros., North Fort Worth), and Tin and Eddie (H. B. Johnson, Chickasha, Okla.)

Missouri Wins Again

Missouri was again victorious in the saddle horse class and again in the event for trotters. Ragland, an equine beauty owned by Hook & Woods of Paris, Mo., and ridden by Mr. Hook, was adjudged the best of the fifteen entered in this event, and his owner was awarded the first prize of \$60.

An Oklahoma owned horse took second honors with the accompanying purse of \$25. Wood McDonald, owned by Ream & Turman of Wapanucka,

Okla., and ridden by James Graves, an expert horseman, was the red ribbon winner. Third prize goes to Dallas, Dick Cobb, owned and ridden by H. H. Adams of that city being awarded the \$15 show money. The \$100 for this event was subscribed by Armour & Co.

The following also took part: Teresa, owned by G. V. Miller Jr. of McKinney; Prince Imperial, owned by J. H. Murphy of Celina; Red Raven, owned by J. A. Hughes of Dallas; John Rockefeller, owned by J. H. Murphy of Celina; Red Artist, owned by H. O. Craig of Dallas; Blanche, owned by H. L. Wilson of Fort Worth; Lillian Anderson, owned by Willard Burton of Fort Worth; Rockingham, owned by J. J. Coffman of Fort Worth; Indian Highland Forest, owned by Howard Mann of Waco; Rose Gold, owned by Hook & Woods, Paris, Mo.; Chester, owned by Magill & Oliver, Kansas City.

The King a Real Monarch

The King, an appropriately named equine monarch, was an easy winner of the event for trotters. So striking is the appearance of this handsome horse that he was at once made a general favorite of the large crowd, and in spite of the fact that he is owned by a stranger, while a number of popular local men had entries, the crowd was enthusiastic in its preference for this entry.

Don Riley of St. Joseph, Mo., owner of this winner also took third money with Emma, driven by Mr. Snyder of Kansas City. Kitty Harrison, owned by J. J. Coffman of San Antonio and driven by R. H. Greer was winner of second place. The King has won first prizes at horse shows in New York, Chicago, St. Louis and elsewhere and has no superior as a show horse.

The entry list in this event was a revelation, the large arena being crowded with vehicles almost to the point of congestion. The judges had to resort to the process of elimination before securing sufficient room for the entries to exhibit their gaits.

The ever-popular polo pony had his inning, six entries responding to the bugle call. This feature was one of the best of the evening, the contests of speed and agility among these horses bringing out prolonged applause.

Bernie L. Anderson of Fort Worth was an easy winner of the event, his speedy Domino standing out above the others. His exhibition of weaving in and out was one that would have done credit to a circus-trained horse.

Paul Cruseman of Fort Worth won second honors with Hurricane, Richard Walsh of Missouri being the rider. Lady Bird, owned and ridden by L. Napier Magill of Kansas City was third.

Mrs. Durringer Drives Winner

Mrs. W. A. Durringer, driving Trevino, was returned the winner of the next event, a harness horse contest with women drivers. Charles Dickinson's Winfield, driven by Mrs. D. W. Godwin, was second, and Rowdy Bob, with Mrs. Tom Burnett driving, was third. The ladies handled the reins with grace and skill and this event was probably one of the hardest for the judges to decide.

C. E. Hicks of Fort Worth won first place in the four-in-hand class with a splendid outfit of handsome horses and a Brewster coach. J. A. Hill driving Oltmann Bros.' splendid tally-ho, was second; H. B. Sanborn's brake was third. Each vehicle carried a complement of passengers and the merry fanfare of horns added zest to the spectacle.

Following the exhibition of this class, a party of seven of The Telegram's staff who were occupying a box at the show mounted Oltmann Bros.' tally-ho and were toolled around the arena by Mr. Hill, the large crowd greeting the turnout with liberal applause.

Fort Worth Beats Dallas

Fort Worth was the winner over Dallas in the tandem event to the delight of the crowd, which always likes to see the neighboring city defeated in friendly rivalry. Mr. Hill held the ribbons over Oltmann's two, Earl King and Eitelknoke, and won first place; Red Feather and Ostrich Plume, driven by Sam Erskine of Dallas, taking second place without opposition.

Lady Bird, winner of third place in the polo pony contest, came back in the jumper class and placed first money in this event to her owner's credit. She cleared the obstacles with perfect ease. Fencing Master, with Mr. Magill in the saddle, took second honors, and Tarboy, a Kansas City horse, owned and ridden by Wallace Pratt, was third.

There was not a dull moment in the show. Rose Gold, a high school horse of exceptional merit, gave an exhibition that gained him great applause, while burlesque exhibitions of a "cart before a horse" and a bull attached to a buggy convulsed the audience with merriment.

Dr. Pierce's Golden Medical Discovery

The Great Restorative Non-Alcoholic Tonic

of the day, made entirely of native medicinal roots and without a drop of alcohol in its composition.

There are no secrets---all its ingredients being printed on the bottle-wrappers.

The "Golden Medical Discovery" not only builds up the strength of the feeble, debilitated, languid, nervous and easily fatigued, whether young or aged, but it enriches and purifies the blood, thus making the improvement lasting.

It corrects and overcomes indigestion, dyspepsia, biliousness, torpid liver, chronic diarrhea and kindred derangements of the stomach, liver and bowels.

Bronchial, throat and laryngeal affections, attended with hoarseness, persistent cough, and all manner of catarrhal affections are cured by the "Golden Medical Discovery."

In Chronic Nasal Catarrh, it is well to cleanse the nasal passages out freely with Dr. Sage's Catarrh Remedy fluid while taking the "Golden Medical Discovery" as a constitutional treatment. Old obstinate cases of catarrh yield to this thorough course of treatment.

Through enriching and purifying the blood, the "Discovery" cures scrofulous affections, also blotches, pimples, eruptions, and other ugly affections of the skin. Old, open, running sores, or ulcers, are healed by taking the "Golden Medical Discovery" internally and applying Dr. Pierce's All-Healing Salve as a local dressing. The Salve can be had of druggists, or will be sent

by return mail on receipt of 50 cents in stamps. Address Doctor Pierce as below for it.

In short "Golden Medical Discovery" regulates, purifies and invigorates the whole system and thus cures a very large range of diseases. The reason *Why* it cures such a varied list of diseases is made clear in a little booklet of extracts from the leading medical authorities, compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and which he will be pleased to send post-paid and entirely free to any who send him their names and addresses.

You can't afford to accept a substitute of unknown composition for this non-secret MEDICINE OF KNOWN COMPOSITION.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two a mild cathartic. Druggists sell them, and nothing is "just as good." They are the original Little Liver Pills first put up by old Dr. Pierce over 40 years ago. Much imitated, but never equaled. They are tiny sugar-coated granules—easy to take as candy.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps (to cover cost of mailing) for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. Pierce as above.

FREE BOOK ABOUT CANCER

CANCEROL has proved its merits in the treatment of cancer. It is not in an experimental stage. Records of undisputed cures of cancer in nearly every part of the body are contained in Dr. Leach's new 100-page book. This book also tells the cause of cancer and instructs in the care of the patient; tells what to do in case of bleeding, pain, odor, etc. A valuable guide in the treatment of any case. A copy of this valuable book free to those interested. Address Dr. L. T. Leach, Box 107, Indianapolis, Ind.

NELSON- DRAUGHON College BUSINESS

Fort Worth, Texas, guarantees to teach you bookkeeping and banking in from eight to ten weeks, and shorthand in as short a time as any first-class college. Positions secured, or money refunded. Notes accepted for tuition. For catalogue address J. W. Draughon, president, Sixth and Main streets, Fort Worth, Texas.

Cotton Seed Hulls

Low Prices CAKE AND MEAL Any Quantity

It Will Pay You to Get Our Quotations

Street & Graves, Houston, Texas

350 ACRES CHOICE SUGAR PLANTATION

Well improved and part in cultivation, bringing good rent. Price \$21,000. Will trade for cattle or as part payment on ranch and cattle. Address

WILLARD DITCH, Morgan City, La.

POULTRY SHOW WINNERS

Judging in the poultry department was finished and the ribbons tacked on the pens Thursday evening, and Judge Savage and Judge Davis left for their homes in Belton and Farmersville Thursday night. The judging was done by comparison.

Judge Moore, secretary of the show, is highly gratified over its success. It is generally agreed that this is one of the best poultry exhibitions ever held in this section of the country, for while not so great in numbers as some that have been held, it is far ahead of any others in point of quality of the exhibits. Expecting that they would meet strong competition in all classes, the breeders only brought such as they knew to be nearly up to the requirements of the American standards of perfection.

The total entries mounted to one hundred and eighteen, representing practically all the popular varieties of the fancy, and with each entry there were from five to fifty birds. The numbers would have been larger at a more convenient period, but many of the breeders had their breeding pens mated up and could not afford to break their matings at this time.

The awards were placed as follows:

Barred Plymouth Rocks

First pen, W. T. Munger, Lampasas, Texas; second, Rev. C. M. Thompson, Marshall, Texas; third, Frank E. Buck, Guthrie, Okla.; fourth, C. B. Merrifield, Dallas; fifth, W. H. Carter, Bowie, Texas.

First cock, Frank E. Buck, Guthrie, Okla.; second, Rev. C. M. Thompson, Marshall, Texas.

First cockerel, W. T. Munger, Lampasas, Texas; second, C. B. Merrifield, Dallas; third, C. B. Merrifield, Dallas; fourth, W. H. Carter, Bowie, Texas; fifth, Frank E. Buck, Guthrie, Okla.

First hen, W. T. Munger, Lampasas, Texas; second, Rev. C. M. Thompson, Marshall, Texas; third, W. T. Munger, Lampasas, Texas; fourth, Frank E. Buck, Guthrie, Okla.; fifth, Frank E. Buck, Guthrie, Okla.

First pullet, W. T. Munger, Lampasas, Texas; second, Rev. C. M. Thompson, Marshall, Texas; third, W. T. Munger, Lampasas, Texas; fourth, Rev. C. M. Thompson, Marshall, Texas; fifth, Frank E. Buck, Guthrie, Okla.

White Plymouth Rocks

First pen, Mrs. Hiram Knox, Livingston, Texas; second, Mrs. W. R. Stewart, Bowie, Texas; third, Mrs. Hiram Knox, Livingston, Texas; fourth, E. L. Cunningham, Fort Worth; fifth, M. L. Cunningham, Fort Worth.

First cock, Mrs. Hiram Knox, Livingston, Texas.

First cockerel, Mrs. Hiram Knox, Livingston, Texas; second, Mrs. W. R. Stewart, Bowie, Texas.

APPENDICITIS

Grape-Nuts as a Reconstructing Food

The number of cases of appendicitis which get well by proper feeding and nursing, is not less remarkable than the number of cases which were formerly operated on only to find that the operation was unnecessary.

While looking for the cause of this disease, it is well to remember that excessive starch fermentation may be considered a frequent cause, and that suggests more care in the use of starchy food.

Grape-Nuts can be retained on the most sensitive stomach and is extremely nourishing—just the ideal food for appendicitis cases.

"Last spring I was taken ill with appendicitis," writes an Ind. man. "The doctor told me not to be alarmed, for he would do the best he could to save me from the operating table.

"He advised me to eat nothing for two weeks, during which time I became so weak I could hardly move. The trouble began to leave me and I began to eat fruits and milk, but I did not regain the strength I had before I was sick.

"A friend of mine recommended Grape-Nuts. I tried it and it worked wonders with me. I soon began to gain in strength, and in a month was as strong as ever.

"I don't think I ever used a food that did me so much good. I now weigh 160 lbs., as against 130 before I was sick, all due to Grape-Nuts and regular exercise.

"My muscles are like iron and I can do the hardest work. Being employed in a printing office, I have to think a lot, and my mind is clear, thanks to Grape-Nuts." "There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Well-being" in *OKRA*.

Stewart, Bowie, Texas; third, Mrs. Hiram Knox, Livingston, Texas; fourth, E. L. Cunningham, Fort Worth; fifth, M. L. Cunningham, Fort Worth.

First hen, Mrs. Hiram Knox, Livingston, Texas; second, Mrs. Hiram Knox, Livingston, Texas.

First pullet, Mrs. W. R. Stewart, Bowie, Texas; second, Mrs. Hiram Knox, Livingston, Texas; third, Mrs. W. R. Stewart, Bowie, Texas; fourth, Mrs. Hiram Knox, Livingston, Texas; fifth, E. L. Cunningham, Fort Worth.

Buff Plymouth Rocks

First pen, Mrs. J. K. Norton, Denton, Texas.

First cock, Mrs. J. K. Norton, Denton, Texas; second, Mrs. J. K. Norton, Denton, Texas; third, Frank P. McCuiston, Corsicana, Texas.

First cockerel, Mrs. J. K. Norton, Denton, Texas; second, Mrs. J. K. Norton, Denton, Texas; third, Mrs. J. K. Norton, Denton, Texas; fourth, Mrs. J. K. Norton, Denton, Texas.

First hen, Mrs. J. K. Norton, Denton, Texas; second, Mrs. J. K. Norton, Denton, Texas; third, Frank P. McCuiston, Corsicana, Texas.

First pullet, Mrs. J. K. Norton, Denton, Texas; second, Frank P. McCuiston, Corsicana, Texas; third, Mrs. J. K. Norton, Denton, Texas; fourth, Mrs. J. K. Norton, Denton, Texas; fifth, Mrs. J. K. Norton, Denton, Texas.

Silver-Laced Wyandottes

First pullet, A. C. Hoyl, Decatur, Texas.

White Wyandottes

First pen, Jack Megarity, Corsicana, Texas.

First cock, Jack Megarity, Corsicana, Texas; second, L. A. Morgan, Greenville, Texas.

First cockerel, Jack Megarity, Corsicana, Texas.

First hen, Jack Megarity, Corsicana, Texas; second, Jack Megarity, Corsicana, Texas; third, Jack Megarity, Corsicana, Texas.

First pullet, Jack Megarity, Corsicana, Texas; second, Jack Megarity, Corsicana, Texas.

Buff Wyandottes

First pen, Mrs. J. V. McLean, Lake Victor, Texas.

First cock, Shelby Hoyl, Decatur, Texas.

First cockerel, Mrs. J. V. McLean, Lake Victor, Texas.

First hen, Shelby Hoyl, Decatur, Texas.

First, second, third and fourth pullet, Mrs. J. V. McLean, Lake Victor, Texas.

Partridge Wyandottes

First cock, A. N. Finger, Jolly, Texas.

First hen, A. N. Finger, Jolly, Texas; second, A. N. Finger, Jolly, Texas.

First pullet, A. N. Finger, Jolly, Texas; second, A. N. Finger, Jolly, Texas; third, A. N. Finger, Jolly, Texas.

Single-Comb Rhode Island Reds

First cockerel, Mr. and Mrs. W. R. McDill, Fort Worth; third, Mr. and Mrs. W. R. McDill, Fort Worth; fourth, Mrs. Fannie Miller, Klondike, Texas; fifth, A. C. Hoyl, Decatur, Texas.

Second cock, E. D. Jones, Royse City, Texas.

Second hen, E. D. Jones, Royse City, Texas.

First pullet, L. C. Gibbons, Bowie, Texas.

Rose Comb Rhode Island Reds

First cockerel, L. C. Gibbons, Bowie, Texas; second, William M. Gunn, North Fort Worth.

First hen, L. C. Gibbons, Bowie, Texas; second, L. C. Gibbons, Bowie, Texas.

First pullet, L. C. Gibbons, Bowie, Texas; second, L. C. Gibbons, Bowie, Texas.

Buff Cochins

First pen, M. Smith, Corsicana, Texas; second, J. T. Fox, Denison, Texas.

First cockerel, J. T. Fox, Denison, Texas; second, M. Smith, Corsicana, Texas.

First cock, M. Smith, Corsicana, Texas.

First pullet, M. Smith, Corsicana, Texas; second, M. Smith, Corsicana, Texas; third, J. T. Fox, Denison, Texas; fourth, M. Smith, Corsicana, Texas; fifth, J. T. Fox, Denison, Texas.

Partridge Cochins

First cock, Murry Howard, Fort Worth.

Second, third, fourth and fifth hen, Murry Howard, Fort Worth.

Black Langshans

First pen, F. P. Prewitt, Fort Worth; first cock, F. P. Prewitt, Fort Worth; second cock T. S. McNabb, North Fort Worth; first cockerel, F. P. Prewitt, Fort Worth; second cockerel, F. P.

Prewitt, Fort Worth; first hen, F. P. Prewitt, Fort Worth; first pullet, F. P. Prewitt, Fort Worth; second and third pullet, F. P. Prewitt, Fort Worth.

Single Comb Brown Leghorns

First pen, M. Smith, Corsicana; second pen, Geo. Chitwood, Corsicana; third pen, Shelby Hoyl, Decatur; first cock, R. R. Mullen, Saginaw; second cock, R. R. Mullen, Saginaw; first cockerel, M. Smith, Corsicana; second cockerel, Geo. Chitwood, Corsicana; third cockerel, Shelby Hoyl, Decatur; first hen, M. Smith, Corsicana; second hen, M. Smith, Corsicana; third, fourth and fifth hen, Geo. Chitwood, Corsicana; first, second and third pullet, M. Smith, Corsicana; fourth pullet, Geo. Chitwood, Corsicana.

Single Comb White Leghorns

First pen, Geo. Diers, LaGrange; second pen, Mrs. Mitchell Greenwall, Fort Worth; third pen, J. T. Fox, Denison; fourth pen, J. O. Barton, Weatherford; first cock, Geo. Diers, LaGrange; first cockerel, J. T. Fox, Denison; second, third and fourth cockerel, Mrs. M. Greenwall, Fort Worth; fifth cockerel, J. O. Barton, Weatherford; first, second, third, fourth and fifth hen, Geo. Diers, LaGrange; first, second, third, fourth and fifth pullet, Mrs. M. Greenwall, Fort Worth.

Single Comb Black Minorcas

First pen, S. M. Galloway, Dallas; first cock, S. M. Galloway, Dallas; second cock, Orange Swan, Dallas; first hen, S. M. Galloway, Dallas; second hen, Orange Swan, Dallas; first pullet, Orange Swan, Dallas; second, third and fourth pullet, S. M. Galloway, Dallas.

Rose Comb Black Minorcas

First cockerel, C. O. Pollard, Chilli-cothe; first pullet, C. O. Pollard, Chilli-cothe.

Single Comb Buff Orpingtons

First pen, Dave Hoyl, Decatur; second pen, A. G. Gerjes, Austin; second cock, Dave Hoyl, Decatur; fourth cock, Walter Caswell, Fort Worth; first, second and third cockerel, Dave Hoyl, Decatur; first, second, third and fifth hen, A. G. Gerjes, Austin; fourth hen, Dave Hoyl, Decatur; first, second, third and fourth pullet, Dave Hoyl, Decatur.

Single Comb White Orpington

First pen, Shelby Hoyl, Decatur; first cockerel, Shelby Hoyl, Decatur; first, second, third, fourth and fifth pullet, Shelby Hoyl, Decatur.

Silver Spangled Hamburgs

First pen, F. A. Parsons, Corsicana; second pen, J. T. Fox, Denison; first, second and third cock, F. A. Parsons, Corsicana; fourth cock J. T. Fox, Denison; first cockerel, F. A. Parsons, Corsicana; first, second and fifth hen, J. T. Fox, Denison; third and fourth hen, F. A. Parsons, Corsicana; first and second pullet, J. T. Fox, Denison; third, fourth and fifth pullet, F. A. Parsons, Corsicana.

Black Breasted Red Games

First cock, Frank E. Buck, Guthrie, Ok.; first, second and third hen, Frank E. Buck, Guthrie, Ok.; first and second pullet, Frank E. Buck, Guthrie, Ok.

Houdans

First cock, Mrs. Mattie Mathews, Barry; first, second and third hen, Mrs. Mattie Mathews, Barry, Texas.

DUCKS

Indian Runner

First male and second female, M. M. Offut, Cleburne; second male and first female, Eugene Roche, Fort Worth.

TURKEYS

Mammoth Bronze

First, third and fifth tom, J. M. Daffron, Plano; second and fourth tom, W. H. Yeary, Richardson; first, second, third, fourth and fifth hen, J. M. Daffron, Plano; first, second and fourth pairs, J. M. Daffron, Plano; third and fifth pair, W. H. Yeary, Richardson; best display, J. M. Daffron, Plano.

Best Pen—Any Variety

Plymouth Rocks—Mrs. Hiram Knox, Livingston, Texas.

Wyandottes—Jack Megarity, Corsicana, Texas.

Rhode Island Reds—L. C. Gibbons, Bowie, Texas.

Cochins—M. Smith, Corsicana, Texas.

Langshans—F. P. Prewitt, Fort Worth.

Leghorns—Mrs. M. Greenwall, Fort Worth.

Minorcas—S. M. Galloway, Dallas.

Orpingtons—Shelby Hoyl, Decatur.

Hamburgs—J. T. Fox, Denison.

Best Pen—Solid Color

First—Mrs. Hiram Knox, Livingston, Texas.

Second—Mrs. W. R. Stewart, Bowie, Texas.

Third—Mrs. J. K. Norton, Denton, Texas.

Fourth—Mrs. M. Greenwall, Fort Worth.

Best Pen—Parti-Colored

First—W. T. Munger, Lampasas, Texas.

Second—M. Smith, Corsicana, Texas.

Third—L. C. Gibbons, Bowie, Texas.

Fourth—J. T. Fox, Denison, Texas.

Best Pens—Classes

American, Class 1—Mrs. Hiram Knox, Livingston, Texas.

Asiatic, Class 2—M. Smith, Corsicana, Texas.

Mediterranean, Class 3—Mrs. M. Greenwall, Fort Worth.

English, Class 4—Shelby Hoyl, Decatur, Texas.

Best Display of Poultry

J. T. Fox, Denison, Texas.

Fort Worth's Big Show

Do events like the Feeders' and Breeders' show pay? Tho the show is only a little more than half over, comments like this from the Beaumont Enterprise might help answer the question:

This is show week in Fort Worth and there are on in that city a big Stock show and a Pure Food show. These events have been well advertised and are bringing thousands to that city. They are events that mean something and that will make for the advancement of Texas as a whole and the section of which Fort Worth is the market center in particular.

The plan of having these exhibitions of the products of the farms is much better than a single carnival event, with amusement as the only aim. A Mardi Gras entertainment may be amusing, but when it is done it has served no purpose other than that of revelry, and the money expended thereon has been wasted, insofar as accomplishing any permanent good for the city and section is concerned.

The Cleburne Review has this to say:

All good judges say the Fat Stock show at Fort Worth is the best that has ever been given in the Southwest. The great coliseum is a great credit to the pluck and energy of Fort Worth. The building of this coliseum is another evidence of the truism that the Lord helps the city that helps itself. The visitors to Fort Worth this week will pay for that coliseum.

And in the following the Sherman Democrat brings out the fact that the show is of benefit, not only to Fort Worth, but to all Texas:

Fort Worth is having the biggest and best Fat Stock show ever given in the Southwest. With the splendid new coliseum there is ample space to hold an exhibit of greater magnitude than at any former effort.

The story of horses, mules, cattle, sheep, hogs and poultry on exhibition as told by the Fort Worth press causes the pride of Texans to swell, for we are only proving to the world what Texas and Texans are doing in the development of the live stock industry. There is said to be two thousand chickens on exhibition.

BRAND REPORTS RAIN FALL AT HEREFORD

Average Fall for Last Three Years is 24.70 Inches—Amarillo's Average 23.35

HEREFORD, Texas, March 14.—For the benefit of all Texas, the Hereford Brand has taken the trouble to secure the data with reference to the annual rainfall as reported by the local weather station for Hereford. The fall for 1905 was 26.59 inches; for 1906, 24.54 inches; for 1907, 22.01 inches, making the general average for the three years since the record has been kept 24.70 inches. While there is practically no difference in the amount of rainfall for the different parts of the plains, the twelve-year record at Amarillo shows an annual average of 23.25 inches. As rain clouds have a tendency to follow streams, this may account for a difference at Amarillo, the Canadian valley just north a few miles receiving a larger precipitation.

Millions for Carrying Mails

The government this year will pay to railroads \$76,000,000 for carrying the mails. This is a record-breaking figure.

35,000 Visitors See Stock Show

Big Events Both Prove Complete Successes

(FROM SUNDAY'S TELEGRAM)
When more than five thousand people crowded their way out of the big Coliseum at nearly midnight last night the first week of the most successful of Fort Worth's Feeders and Breeders' Shows had been completed.

Not far from 3,000 cattle, horses, mules, hogs and sheep, to say nothing of the poultry, have been shown in the Coliseum arena or the pens of the stock yards. They have been seen by approximately 35,000 people. This estimate is conservative and is based on the following figures:

Wednesday	3,000	Friday	3,000
Wednesday night	4,000	Friday night	6,000
Thursday	2,000	Saturday	7,000
Thursday night	5,000	Saturday night	5,000

The day figures are only approximate. Official attendance has not been announced. Hundreds of free admissions have been given.

The display of live stock has surpassed any ever before shown in the south. In some classes it has surpassed any ever shown in Chicago. In convenience of arrangement, rapidity of judging and announcement of results it has surpassed, from a live stock exposition's standpoint any exhibition of its kind in the United States.

Some Impressive Things

Following are some of the striking features of the week:

The largest classes of young bulls and heifers in the Hereford and Shorthorn classes ever entered in a Fort Worth or Texas show.

The finest exhibit of poultry ever shown in Fort Worth.

Winning of the grand championship in steer classes by a Hereford steer, which the judges say could capture a blue ribbon in Chicago.

Winning of car lot prize for 3-year-olds by Texas-raised Herefords.

Sale of registered Hereford bulls and cows at higher average prices than 1907, despite the financial stringency.

The most brilliant horse show ever held in the south.

These are only a few of the things that have been happening out in North Fort Worth the last week. Two days more of the show are needed to complete the program. These abound in entertainment features and include a sham battle, a broncho busting contest and a grand parade of all the prize winners in all the classes. This last, a parade of the finest animals to be found in Texas, Oklahoma, Missouri, Arkansas, Iowa and other states, will be a striking feature.

For the first time since it opened, the show Saturday morning got a late start. On all previous days it has opened promptly at 9 o'clock, but it was nearly 10 before judging of the thoroughbred horses began. At that time it looked as if Saturday would be only a fairly good day, but nobody who made such an estimate counted on the irresistible drawing powers of a blooded horse. The horse show matinee program announced for the afternoon did the work, and 1 o'clock found the Coliseum fairly well filled. By 2 o'clock it was packed, the crowd rivaling that of any evening crowd that had preceded it. The estimate of 7,000 people present is a conservative one.

Car Lot Prizes

Shortly before dinner the prizes for car lot cattle were announced. Texas cattlemen had more interest in this competition than in any other of the show. Not only were the prizes more than twice as large as those of any other event in the show, but the quality of exhibits shows a decided improvement over any previously exhibited.

The Herefords finally won, claiming back their own from the black muleys, which had wrested away the honor in 1907. Tho defeated in the 3-year-old event, however, the Aberdeen-Angus showed their mettle by taking first in the 2-year-old class.

The Hereford men have been feeling jubilant over the victory of Lee-dale's Lad, grand champion steer, and the victory of the steers in the car lot class added to their celebration. The Shorthorn men are not at all down-cast, however. They point to the \$750 paid for Diamond King Butterfly Sat-

urday afternoon, a Shorthorn bull, that topped all prices paid for pure-bred stuff at the show.

The Angus and Red Polled breeders have their inning Monday, when judging in their classes is scheduled.

Today's Features

Today the features on the program are two sacred concerts by Cox's Five Million Club Band, which will play in the afternoon and again at night. A sounding board has been built over the grand stand, greatly increasing the effectiveness of the music.

Scores Made by Students

Out of a possible 700 points the students of the Agricultural and Mechanical College made the following scores on the judging of horses, cattle, swine and sheep: A. J. Smith, 541; W. G. North, 579; R. W. Faust, 557½; C. E. Jones, 554.

These five men composed the team which won the Swift trophy. Following were the points made by other students: R. F. Miller, 602; O. W. Reagin, 573; W. H. Furneaux, 526; S. A. McMillan, 420; F. W. Muller, 548; B. Cist, 521½; A. L. Ward, 611½; W. G. Houermann, 514; S. H. Ray, 570; U. H. Menke, 545; F. Halm, 513; H. P. Brown, 560; F. Y. Waddington, 541.

Awards of individual prizes out of the entire class were made as follows—First prize, \$50, A. L. Ward, Houston; second, \$25, R. F. Miller, Industry, Texas; third, \$15, G. W. Reagin, Forney, Texas; fourth, \$10, S. H. Ray, Fallsburg.

How Judging Was Done

Professor W. J. Kennedy of Ames, Iowa, was superintendent of the contest. The students judged eight classes of animals, four animals in each class, as follows: Two-year-old fat steers, aged Shorthorn cows, aged Shorthorn bulls, 2-year-old Hereford steers, German Coach stallions, Swift's draft geldings, fat hogs and fat sheep. They were coached for judging in other classes as well, but were unable to handle more than the eight in one day.

Charles McFarland of Weatherford, Texas; Senator Harris of Kansas, Thomas Clark of Beecher, Ill., and H. G. Kalhorn of Fort Worth were the judges of the contest. Fifty per cent of points were awarded on placing and 50 per cent on reasons. Each student was allowed fifteen minutes for placing and two minutes for oral statement of his reasons.

A. and M. Does Well

Agricultural and Mechanical College had an exhibit at the show, including two Shorthorn heifers, 2-year-olds; three Hereford heifers, one calf, one 2-year-old steers, one 3-year-old Angus steer and one 2-year-old Red Polled steer. This steer won first prize and championship in his class. A pure bred Hereford steer calf, presented by J. C. Dibrel of Coleman, Texas, was also exhibited and took second in his class. The college took fourth and fifth prizes on Shorthorn heifers, 2-year-olds, and second and third on senior yearling Hereford heifers. All of the breeding stock shown was purchased from money appropriated by the last legislature. Hereafter the college will exhibit no animals in the pure-bred classes, and will go after only premiums for fat stuff, it being desired to keep the pure bred animals at the college for demonstration work.

Following are the results in Saturday's awards and sales:

Mayor Highsmith of Mineral Wells is in Fort Worth attending the Fat Stock Show and as soon as it is over with he expects to go to San Antonio to invite the cattlemen's convention to meet in Mineral Wells next year. He is making the invitation personal by asking as many cattlemen as possible while they are in Fort Worth and he expects to clinch the matter by making a speech at the convention next week.

The speech is going to be a masterful effort on the part of the genial mayor. It is going to contain frequent reference to "healthful ozone," "wonderful curative powers of the waters," "beautiful scenery," "hospitable citizens" and will wind up with a peroration on the corking good time that cattlemen or any other kind of men can have at the great summer resort city of Texas.

"Of course," says Mayor Highsmith, "I hate to take the convention away from Fort Worth and it may make Fort Worth a little sore, but then I guess they will get over it."

THRU PLANTING CORN

Farmers Near Wichita Falls Two Weeks Ahead of Season

WICHITA FALLS, Texas, March 14.—Most farmers are about thru planting corn, which is about two weeks ahead of previous planting. Usually March 16 is early for corn planting here, but this time the farmers have gone far ahead the season. The wheat crop is looking fine and should rains keep coming a "bumper" crop is expected.

WELL KNOWN CATTLEMEN TLL OF APPROVAL OF STOCK SHOW

Col. Dick True Here On Annual Visit

Colonel Dick True, the well known stock farmer of the Ryan neighborhood, in the state of Oklahoma, was on hand, as he always is, at the Fat Stock Show and was showing people round who had not had just as much experience as he had at these functions. True answers to his name whenever he is needed to serve a fellow stockman.

"She is growing each year," said Colonel Dick. "I mean the Stock Show of course. It is better every year. We are all right up in our country and all farming operations are way up in G. Plenty of rain and lots of soil moisture. Can do without rain now for awhile. Cattle have done well this winter, it has been so mild. Grass has come to spend the summer with us now and the cows are beginning to enjoy themselves."

Kirkpatrick Thinks Fruit Is Now Safe

Captain E. W. Kirkpatrick, the noted horticulturist and president of the Texas farmers' congress, was in the city attending the safe and sane legislation conference. Mr. Kirkpatrick is well known all over the state and has made an enviable reputation thru his successful handling of horticultural and farming problems. "I am living now," said Captain Kirkpatrick, "on the identical ground that my father located on in 1854 and I have lived on it all my life. Our farming operations are well up in our section and all things point to a successful year ahead. The fruit is still untouched by frost or cold and it is hardly probable that it will get sufficiently cold later to do much harm, altho such things have happened. I will take in the Fat Stock Show, of course, and shall enjoy it I know."

Will Sansom Comes From Kansas City

Capt. Will Sansom, who has charge of a big commission company's interests in Kansas City, came down, as he does annually, to take part in the Fat Stock Show and to meet the many stockmen who are customers of his company during the year. "Matters are doing very well up in our end of the stock business," said Captain Sansom. "Prices are excellent considering the stringency of the times relative to money matters that we are just passing out of. Cattle are bringing good results now to the cattlemen, which they certainly deserve after the bad times that they have passed thru. Yes, the show is grand and it makes me proud to think that I am a native of Texas when I see the great improvement that has been made each year in the breeding of live stock."

Captain Meyers Optimistic About Stock Prospects

Captain Billie Meyers was on the grounds of the Fat Stock Show with his noted herd of Hereford cattle. Captain Billie lives in Clay county and gets his mail at Henrietta. "The show is greater this year than ever," said Captain Meyers, "and I am proud to have the privilege of bringing my stock in competition with such fine stuff as can be found here. Most of my stuff that I entered is young. I have taken two prizes and that is pretty good when the great number of competing animals is considered. We have had a very fine winter and our stock has not suffered at all. Grass is coming along fine and farming operations are well up."

Col. Marion Sansom Entertains Many
Col. Marion Sansom, the noted stockman of Fort Worth, and assist-

ant in every good work for the best development of the city, was enjoying himself at his offices in the Live Stock Exchange during the show entertaining his friends from Texas and abroad, and they were legion. In addition to keeping open office the colonel was to be found always with a group of cattlemen and others who have the industrial welfare of Texas in their hands, walking around the various parts of the great Stock Show. At one time he had in hand a Dallas delegation consisting of Capt. Bill Gaston, Capt. Sidney Smith, secretary of the Dallas Fair Association, the representative of the Dallas Times-Herald and others. With these was Colonel Wortham of Henrietta, Clay county, the big banker and stockman and a Stockman representative. With these gentlemen it is needless to say that the fun was unlimited and the cordial expressions of esteem expressed for the Dallas and Clay county gentlemen by the Fort Worth representatives was satisfactorily returned over refreshments, by the visitors.

The visiting gentlemen all expressed themselves as much pleased with the greatness of the Stock Show and with the possibilities for the future of the event.

Member of A. & M. Faculty Attends Show

Professor Alvord of the Texas Agricultural and Mechanical college, was in attendance on the Fat Stock Show in the capacity of one of the judges of cattle. He is a recognized authority upon these matters and is very popular with all the stockmen. "This is indeed a fine show," said he, "and will add much to Fort Worth's standing the animal industry world. There are scores of very fine cattle here and it speaks well for Texas that her stockmen and stock farmers have been so energetic even in the last year in their endeavors to bring their stock up to the average of the winners. Every year goes to show that if there is any part of the union that can beat Texas in fine animals it has got to get very busy indeed even to keep its end up. Matters at the college have settled down and work is going on as usual."

Herefords Given the First Prize

R. E. Gatewood of Cleburne Carries Off Honors

Herefords continued their winning streak at the Feeders' and Breeders' show Saturday, and Hereford men cheered loudly when the premium of \$150 for the best carload of beef cattle, 3-year-old steers and over, was awarded to R. E. Gatewood of Cleburne, Texas.

Last year H. B. Johnson of Chickasha, Okla., took the premium with a load of Polled-Angus cattle, but the Hereford men have been busy during the intervening time and Mr. Gatewood managed to produce a car which was pronounced by George B. Mills, Swift's beef buyer at St. Louis, the best in the 3-year-old class.

But the Herefords did not have everything their way. In the car lot beef class for 2-year-old steers, H. B. Johnson of Chickasha, Okla., took first money, also \$150, with his Polled Angus cattle, and he took second in the 1-year-old class.

In the 1-year-old class, the Herefords again came into their own and the first premium of \$150 went to C. B. Campbell of Minco, Okla. Mr. Campbell also took first money, \$150, for the best lot of steer calves under 1 year old, also with Herefords.

The premiums awarded Saturday morning are the largest offered in any classes at the show, and there is more interest in the carlot classes for the

average Texas cattleman than in any other.

There was a good deal of interest in the competition for the best car of grass cattle, and the prize was won by J. F. Green of Encinal with a carload of grades.

S. B. Burnett of Fort Worth came in for \$75, the premium for the best car of feeding steers.

Horses Have Big Time

Horses claimed the eyes of everybody in the Coliseum all day Saturday. In the morning trotters and saddlers were judged and in the afternoon a matinee horse show was given before the largest day crowd that has yet turned out.

Judging of the carlot cattle, the hogs and the sheep, took most of the visitors away from the Coliseum in the morning to the yards and pens outside where the exhibits were. The display of fat cattle this year is larger than ever before and some excellent examples of what Texas and Oklahoma feeding can do are to be seen.

Announcement of awards in the Agricultural and Mechanical College students' judging contest was made at noon.

Carpenters early Saturday morning started building a sounding board for the band stand, and had it finished in time for the opening selection at 10:30 o'clock. The sounding board makes a great improvement in the band's playing, which will be noticeable at the sacred concerts Sunday afternoon and night.

Four days of the Feeders' and Breeders' show have proven it to be even more of a success than any of the managers had anticipated. The plan of showing all the exhibits in one arena, the size, comfort and lighting of the Coliseum, and the improved band concert features have put the show in a class all by itself.

Wise to Get Best Judges

The wisdom of going after the best judges obtainable in the United States also has been shown. Exhibitors, whether winners or losers, are unanimous in praising the judges' work. W. J. Kennedy of Ames, Iowa, has been working on the horses and has made the awards in a prompt, business-like way. Mr. Kennedy is professor of animal husbandry at the Agricultural and Mechanical College of Iowa and is recognized nationally as an expert. Four years ago he toured Europe for the department of agriculture, gathering the first complete statistics of the live stock industry in Europe the United States has ever been able to obtain.

Mr. Kennedy is greatly pleased with the character of the show and especially with the Coliseum. "It is one of the finest buildings of its kind in the world," he declared.

Thomas Clark of Beecher, Ill., who has been judging Herefords, is held in high esteem by all Hereford breeders throughout the United States. "Whenever Tom Clark says an animal is the best in its class you can bank on it," declared a Hereford breeder who was not an exhibitor, Saturday. Mr. Clark has declared that the Coliseum for live stock judges surpasses even the exhibition building in Chicago.

A. Rennick of Winchester, Ky., who has judged the Shorthorns, has been in Fort Worth before and is not only an expert but a pioneer in Shorthorn breeding.

Professor Alvord's Hobby

Professor Charles M. Alvord of the Texas Agricultural and Mechanical College, has judged the Red Polls, and this class was not as large as the others, it is a steadily increasing one. Mr. Alvord is an instructor in the agricultural department at the college and has for a pet hobby dairying. One of his pupils was C. O. Moser of Denison, now in charge of the government dairy experiment farm. Just before coming to Fort Worth Mr. Alvord sold fifty-five head of Holsteins and Jerseys to the Cuban government, getting a price averaging over \$100 a head.

A somewhat unusual feature of the show this year is the absence of representatives from northern and eastern livestock papers who usually are here in full force. Perhaps the anti-pass law had something to do with it, but it is none the less regrettable that the Fort Worth show will lack the reports that outside experts could give it.

A scale company representative who weighed all of the cattle exhibits, and who has done the same work at Chicago, Kansas City and Denver, declares that the cattle exhibits at Fort Worth need not take second place for any in the United States. He was especially enthusiastic over Leedale's Lad, the grand champion steer, declaring that the young Hereford would win a blue ribbon anywhere.

Fort Worth men, C. E. Hicks and S. B. Hovey, served as judges in the Standard bred horse classes Saturday morning.

Prize winners in both the horse and cattle departments will be ex-

hibited Saturday night in the ring of the coliseum. Every winner of a blue ribbon will be led into the ring, this unique display commencing at 8 o'clock. The sight of so many first-prize winners in the same ring will be a display of equine and bovine aristocracy that has never before been equaled in the annals of live stock shows.

Dallas Visitors Pleased

Friday afternoon the big show was given a thorough inspection by E. J. Kiest, president of the Dallas Fair Association; Captain Sydney Smith, secretary, and Captain Gaston, one of the directors. A large number of other Dallas men also came over. Mr. Kiest is publisher of the Dallas Times-Herald and was much pleased with the exhibition. "You have taught us a new wrinkle in using cotton seed hulls on the arena floor," he said. "It's a great idea and we will use it next year."

A. and M. Students Win

The students of the A. and M. College, who won prizes in the stock judging contest at the stock show, are as follows:

First prize, \$50—A. L. Ward, Houston, Texas.

Second prize, \$25—R. F. Miller, Industry, Texas.

Third prize, \$15—O. W. Reagin, Flourney, Texas.

Fourth prize, \$10—F. H. Ray, Falfurnias, Texas.

The young men who participated in the judging contest examined cattle, horses, sheep and hogs and submitted their decisions which were afterward compared with the decisions of the experts who judged the cattle. The young man whose figures tallied nearest to those of the judges was given first prize.

Plan to Win the Cattlemen's Meet

Ranch Owners and Merchants Hold Big Meeting

- COMMITTEE TO LAND CATTLEMEN'S CONVENTION
- Fort Worth Members
- S. B. Burnett, chairman; Geo. T. Reynolds, vice chairman; Sam Davidson, D. B. Gardner, W. T. Waggoner, R. D. Gage, Winfield Scott, John Scarborough, J. T. Pemberton, George Colvin, Louis J. Wortham, W. D. Davis, Marion Sansam, E. E. Baldrige, R. H. McNatt, C. D. Reimbers and Frank Hovenkamp.
- Out-of-Town Members
- A. B. Robinson, Colorado City; W. E. Halsell, Vinita; W. H. Featherston, Henrietta; Frank Kell, Wichita Falls; Dr. J. H. Wilson, Quanah; D. D. Swearingen, Quanah; Tom Bugbee, Clarendon; O. H. Nelson, Amarillo; H. B. Sanborn, Amarillo; Richard Walsh, Clarendon; C. W. Merchant, Abilene; William Waddell, Odessa; Eugene Clark, Snyder; W. P. Johnson, Pecos; Ben Van Tuyle, Colorado City; Ralph Harris, San Angelo; Phil Lee, San Angelo; Sol Meyer, San Angelo; George B. Hendricks, San Angelo, and James Callan, Menardville.

Twenty of the prominent cattle owners of Texas and many prominent Fort Worth business men assembled Saturday morning at the Hotel Worth parlors and took vigorous action in the matter of securing for Fort Worth the session in 1909 of the Texas Cattle Raisers' Association. A committee of thirty-six members, sixteen of whom are residents of Fort Worth and others from all portions of this state and Oklahoma, was named to attend the convention at San Antonio and work for the interests of this city.

The meeting organized by selecting Captain S. Burke Burnett, chairman, and J. T. Pemberton, secretary. Addresses were made by Attorney Sam H. Cowan, Sam Davidson, Captain B. B. Paddock and others of this city, and by Ralph Harris of San Angelo and O. H. Nelson of Amarillo, the latter two speakers pledging the support of their sections to Fort Worth.

Low Rates on Railroads

Judge Cowan notified the meeting that the railroad commission would on application of the roads, grant exceedingly low rates from this city to San

OLD COLONY CANNERY

Box 704. Cincinnati, Ohio

Antonio, and urged a large attendance from this section.

Captain Paddock informed the meeting that the president of the Board of Trade will name a committee from that organization to go to San Antonio and co-operate with the committee of the cattlemen, while Captain Burnett said that the National Feeders' and Breeders' Association would do likewise.

The strongest kind of delegation will be in San Antonio during the convention next week, working in the interests of Fort Worth for the next annual gathering. A fund to be used in defraying the incidental expenses of the committee was raised by contribution.

Suitable Badges Ordered

Suitable badges were ordered printed and the Panther City delegation will advance on the Alamo City in full force, confident of securing the 1909 convention.

San Antonio is known to be in the field as a candidate for entertaining the convention next year, while Houston and El Paso are also active in soliciting the honor. The impression is general among the cattlemen, however, that Fort Worth is the logical candidate and will be selected, but the friends of Fort Worth intend putting forth their best efforts to land the convention irrespective of the apparent lead this city already has on others.

HEREFORD, Texas, March 14.—L. G. Ocheltree of Weatherford, Texas, has written to the secretary of the Hereford Commercial Club and others of the city, asking about the flour mill situation. He proposes to organize a stock company of \$25,000, erect a 100-barrel flour mill, a fifty-barrel meal mill, also put in machinery to thresh and grind kaffir and maize. Mr. Ocheltree has a mill in Chickasha, Okla., and says: "I have had twenty years' experience in the milling business and already have a big line of customers in South Texas, having shipped from 200 to 400 cars of corn and feed stuffs out of Oklahoma every year for the last four years."

FLOYDADA, Texas, March 14.—Miss Margaret Foley, aged 60 years, dropped dead suddenly at the home of her sister, Mrs. G. R. Griggs, here. She was sitting in the kitchen when she fell to the floor. Heart disease is supposed to have been responsible for her death. She was buried at Floydada Wednesday.

DAIRYING

Testing Dairy Cows

A department bulletin suggests that the fat test may be made at frequent intervals, say once a week. Another bulletin advises that a composite test be made by taking a small sample of milk each day, mixing these and testing the mixture at the end of a week. Since the milk given in the morning usually differs somewhat from that given at night, it is more reliable to take samples of both mornings and the night's milk for testing. By keeping a continuous record of the weight of milk produced, and making a composite test of the milk for one week in each month a very close estimate of the milk and butter production of the cow will be secured. The approximate amount of butter can be calculated by adding one-sixth to the butter fat, which is the rule usually followed by the experiment station. The amount of labor involved in keeping this record when once fitted for it is small, and from a pecuniary point of view, it is well worth the undertaking. It shows whether or not the farmer is boarding the cow and drawing on the profit from the better cows in order to do it. No amount of guess work can take its place.

Dairy Farming Pays

One who has tested the matter compiles the paying factors in the following paragraphs in a very concise way:

It takes less fertility out of the soil than any other form of agriculture, and hence it is useful in following a well-regulated system of rotation.

It can be combined readily with other forms of agriculture or horticulture.

The dairy provides in winter a quantity of stable manure in which the straw from the barn is profitably utilized.

The by-products from the cow, skimmed milk, whey and buttermilk, are a source of income in raising pigs and calves.

Dairying gives constant and regular employment of a bright character to every member of the farmer's family. Dairying inculcates habits of punctuality, industry, cleanliness and thrift on the farm.

Cheese and butter are condensed products, and the cost of carriage, in comparison with their value, is less than that of any other farm product.

The demand for good butter and cheese on the world's markets is unlimited, and, so long as the quality is maintained, an all-around, even and profitable price can always be secured.

The monthly check from the factory provides the mainstay in the household, as against the precarious returns from yearly crops.

In mixed farming the income from the dairy is most reliable.

The farmer's household, as a result of dairy work is always supplied with fresh milk and cream, butter, cheese, pork, bacon and veal.

Storekeepers, traders, bankers, financial men and politicians all fully realize, after years of experience, that wherever dairy farming is conducted farmers are most prosperous, mortgages are rarely found and the value of landed property becomes considerably enhanced.

Cow Testing Association

The forming of cow testing associations among the dairymen of this country is probably destined to put the keeping of cows upon a more business-like and profitable basis. Heretofore, by the masses of the farmers, there has been no general attempt to weigh or test the milk, or keep a record of the performance of their cows. Such practice is on a par with that of a merchant who would run his business by guess, or with a banker who would receive and lend moneys without having an accurate system of bookkeeping.

While in some of the older countries, cow testing associations have flourished and increased for a number of years, the first co-operative cow testing association in the United States was organized in the town of Fremont, Newaygo county, Michigan, in 1905. In Wisconsin, this work has been pushed by the Wisconsin Dairyman's Association, which organization deserves much commendation for its efforts in this direction in behalf of better dairying.

Since last spring, the Wisconsin Dairyman's Association has kept an organizer constantly at work in the state organizing cow testing associations. The organizer, who is Mr. H. C. Searles, generally goes to some creamery, making that a central point to work from. He secures the cooperation of the butter maker and en-

gages him to do the work of testing at a stated price per cow, to be paid by the cow owners. This price is on the whole number of cows tested during the year.

If a cow is tested only once during the year, the full price is charged. The tester and other testing apparatus belonging to the creamery may be counted on free of cost, as it is manifestly a benefit to a creamery to have this work done among its patrons.

Last July, Mr. Searles organized a cow testing association at Cottage Grove having 134 cows, the creamery operator doing the testing. The patron is directed to carefully weigh and sample the milk from each cow for one evening and the following morning, each month, recording the weight in a little book properly headed and arranged, which is furnished by the representative of the Wisconsin Dairyman's Association. In the morning, the patron brings the samples and the book to the creamery, where the operator tests the samples when at liberty from other duties, figuring the amount of fat and of milk for one day and for the month which, with the result of the test, he properly records in the book.

The writer received a letter from Mr. Searles, bearing date of January 7, 1908, stating that he expected to hold a meeting at Medford the next day, in the interests of his work, and that he had a call from Barron, where he had been informed a thousand cows could be secured. I believe that in my own experience these individual tests have had a beneficial effect. They have tended toward good feeling and a better understanding. For the local creamery manager or butter maker who desires to prevent the inroads of the centralizer, and to build up his business by getting in touch with and benefiting and thereby holding his patrons, there is no more inviting opportunity than by taking up this work of cow testing. There can be no doubt that this work, intelligently and persistently carried on, will result in eliminating great numbers of worthless cows and in retaining more of the good ones. If it is true that he who makes two blades of grass grow where only one grew before, is a benefactor of his race, it may well be said that he who greatly increases the profits of dairying and causes more pounds of butter fat to be produced, with as little expenditure, is also a benefactor.—J. W. Benson in Journal of Agriculture.

Hogs and Alfalfa

Hogs will grow splendidly on alfalfa pasture, but it is not good for the alfalfa to pasture it. It costs less in labor to let hogs feed themselves and sometimes the labor expense of cutting alfalfa and feeding it is more than the waste of pasture. This is one of the many feeding problems that each man must work out for himself. The principal thing is to provide the alfalfa. If you have such feed in abundance you will find some way of using it to advantage.

Alfalfa is not a fattening feed. It makes growth, but you need corn or peas with it to make a hog fat. There is no better pork and probably there is no better meat in the world than good healthy pork made from alfalfa and field peas. Hogs are clean animals when kept on pasture and fed grain in the open air on dry ground.

Experiments at the Nebraska experiment station show that one-half of the crop of alfalfa was lost by pasturing, and the cost of running hogs on alfalfa was figured at fifty cents each for the season when the hogs had a medium grain ration in addition to the alfalfa pasture; without grain the cost of pasture is higher. This seems very cheap, even counting the waste at one half the alfalfa crop, but in this experiment the crop was figured at only three tons per acre. Alfalfa should turn more than this. However, that would not affect the problem very seriously.

From six to ten growing shoats may be kept on an acre of alfalfa by giving them a light grain feed twice a day, and it will be necessary to cut the alfalfa just the same as tho the hogs were not trying to eat it down, but the clip sometimes will be light.

It is hardly profitable to run pregnant sows on alfalfa without grain, but an ear or two of corn or a pint of peas makes a great difference.

In pasturing hogs on alfalfa and feeding them grain at the same time, the quantity of grain to be fed must be gauged by the size of the hogs and market conditions. Sometimes it pays to feed heavy of grain, while at other times it is better to withhold most of the grain and let the hogs make growth instead, but this is just another feeders' problem that must be determined as he goes along.

HOGS

Line Breeding

J. M. Hull of Clinton, Mo., before Missouri O. I. C. Swine Breeders' meeting, said:

Line breeding, according to Webster, is breeding a series or succession of animals descended from a common progenitor. It is commonly understood that a common progenitor refers to the male side of the descent. Yet more strictly speaking line breeding should refer to both male and female ancestors. The writer has had but a limited experience in line breeding, more especially as regards the male line, but as regards the female line our experience has been more extended. In order to enter the field of swine breeding it becomes necessary to understand some of the laws of nature. The more and the better we understand her laws the greater and better will be our efforts in the chosen field. Here we have to deal with nature in which are many rooms bearing the sign, "No admittance." Some of her laws that we must know are these. The law of atavism, which is the likeness to some remote ancestors, also the law of the survival of the fittest, like begets like and the law of heredity. Many other laws we will find along our pathway. It is an old saying, "There are exceptions to all rules," but we think nature's laws will account for all apparent exceptions.

Line breeding is closely allied to inbreeding, and this should never be indulged in except by the most skillful breeder. One advantage we think in line breeding is that a more uniform type of animal may be produced, as the breeder knows the type of the ancestor, and by the very law of atavism is enabled to produce the desired type of animal, and that the crossing of some families or lines of blood with others does not produce good offspring. This can only be determined by experience. Right here some inexperienced breeders make a mistake; that watch for the ribbon winners and conclude that they must have some of that blood, and lo! when the time comes they are disappointed in the results. Here comes the law of atavism again.

Sometimes the inferior animal produces the most excellent pigs and we say he breeds well, but "look a little out," you will see him later on. There seems to be law running all thru the animal kingdom like this, that the quick maturing animal is of short life, and we reason that his vitality is weakened. The slow-growing one is long lived and we reason that his vitality is strong. Now the breeder wants the quick growth with the strong vitality. How shall this be accomplished? Here is a problem to be solved. We must maintain a vigorous constitution, a strong vitality to combat disease, and this produce of strong, healthy offspring we must maintain at all hazards, because we believe this the most important to the breeder.

Hill, in his encyclopedia, says that "The breeder has produced animals along certain types that are vast improvements over their natural progenitors." Yet every improvement in one point is made at a sacrifice of some other point. We are half inclined to believe he is right. Hill lays this down as a law of breeding. So we are inclined to think that we must make haste slowly along these lines. We are aware that the progeny of ancestors of close kinship are apt to be deficient in some way, most generally in a weakened vitality.

There are exceptions to this rule, but the survival of the fittest accounts for it. Therefore, in line breeding we must use great care and judgment and keep the kinship quite remote. This takes longer to a perfect type, but we think it pays in the end. The writer after fifteen years of hard study and experience in swine breeding admits he is an "a-b-c-darian" in the business. This is a long, broad and wide field and there is much to learn in it. What we want is to eliminate the born runt. This can be done, we think. We want litters of even specimens, all just alike, no difference as far as being born is concerned. We have had them thus. This can be accomplished in time by careful breeding and judicious mat-

Each season and each lot of hogs is different.

He will make money either way if he follows the business long enough. It is only a question of making the greatest possible profit. The trouble with too many feeders is they run up against a difficulty and instead of studying it out decide at once that there is no profit in the business and the next thing you hear they are trying something else. Such men never did make money and never will.

ing. In the practice of line breeding the survival of the fittest must be closely adhered to. Select the strongest, most robust ones for your next breeders. Do this until the runt is eliminated. This may take several generations, but the result will come whereas by out crossing you will be likely to continue the born runt longer at any rate. But at the same time out crosses are a necessity at times in order to introduce new blood into our herd.

It must be our aim to breed up, not down, in the scale of perfection. The perfect hog has never yet been produced. Some point or points are weak. We are striving to perfect the weak points. We are not taking into consideration the care and feed of the animals, as this is supposed to be of the most approved sort, but we are merely considering the mating of animals for results. We have in mind two herds of Poland-Chinas, and they are good ones, too. These herds are closely related as to kinship, many being inbred, and we know of parties purchasing breeding animals of each herd and mating the same, supposing everything was all right.

Now, when farrowing time came not only a few, but a great majority were farrowed with soft heads without skulls. How do you account for this unless by the close in-breeding? Therefore, we say, do not in line breeding have the ancestors too close akin or dire results may follow it.

Stick to Hogs

Every time feed gets a little high, it seems that a wild desire to get rid of hogs at any price seizes upon the majority of Oklahoma farmers. The same idea that makes those who have no hogs from buying them. And right thru it all are a few farmers scattered about who keep the hogs they have and buy all they can get. They know full well that very soon, everyone will want hogs and there is good money then in having hogs to sell, remarks the Oklahoma Farmer.

Of course, when hogs are fat and ready to market, about the only thing to do is to sell them, after having killed enough to fill the home demands for meat for the next twelve months. But there's no need of sacrificing stock hogs in Oklahoma. Cheap ways of keeping them growing are open to every farmer. If he isn't ready to hold them, he can soon get ready. Oats will provide early spring pasture. A patch of sorghum following that will carry the hogs thru the summer. The wheat field might be made to bear its share of pasturing for a month yet and that without cutting down the yield appreciably.

Then those who have alfalfa and Bermuda grass are fixed to wait. Either of these alone will keep hogs in thrifty condition thru the summer and well into the winter.

When you see a hog sale advertised, attend it and buy hogs. The hog business has its ups and downs. But it has more ups than down and the time to buy hogs is when no one else wants to buy. Then you will be fixed to sell when no one else wants to sell.

To The Stockman-Journal.

I was born and reared in Kentucky, and came to Texas in 1868 with my parents, who settled in Collin county, eight miles west of Plano. I went to work as a hired hand on the John Gililand ranch in Tarrant county in 1872 and have resided here ever since. In December, 1874, I was married to Nancy J. Franklin and have raised seven boys and two girls.

I have 750 acres of land, 200 of which is in cultivation. I do a general farming business, with stock raising, including horses, mules, hogs and cattle.

In March, 1903, I bought of Howell Bros. of Bryan one Red Poll bull calf, Dr. Corporal Favorite, No. 12453. I bought of W. B. Langly & Son of Denton one cow, Blossom 16235; also one heifer named Vera. Have bought others since of noted herds. I am very much gratified with results. I showed four head last March at Fort Worth and took nine prizes, four firsts, three sweepstakes and two grand champions, and best of all I have sold all young bulls at fair prices.

I have reserved my females and am developing them into fine cows. They are all kind and docile, extra good milkers, rich in butter fat, good feeders, and in fact all a man could desire in a cow. I have fifteen in my leading herd, every one a prize winner, or by a prize sire; some of them both sire and dam have taken prizes. Watch this herd.

O. W. ARMSTRONG,
Crowley, Texas.

The Texas Stockman - Journal

FORT WORTH, TEXAS.

Consolidation of the Texas Stock Journal with the West Texas Stockman.

PUBLISHED EVERY WEDNESDAY

Entered as second-class matter, January 5, 1904, at the postoffice at Fort Worth, Texas, under the act of congress of March 3, 1879.

Office of publication, Telegram Building, Eighth and Throckmorton streets, Fort Worth, Texas.

Subscription Price:
One year, in advance.....\$1.00

Cattle Raisers' Association of Texas.

OFFICERS:

President—I. T. Pryor...San Antonio
First V.P.—Richard Walsh...Palodura
Second V.P.—J. H. P. Davis...Richmond
Secretary—H. E. Crowley...Fort Worth
Asst. Sec'y—Berkely Spiller...Fort Worth
Treasurer—S. B. Burnett...Fort Worth

THE OFFICIAL ORGAN

Fully appreciating the efforts put forth by The Stockman-Journal in furthering the interests of the cattle industry in general and the Cattle Raisers' Association of Texas in particular, and believing that said Stockman-Journal is in all respects representative of the interests it champions, and reposing confidence in its management to in future wisely and discreetly champion the interests of the Cattle Raisers' Associations of Texas, do hereby, in executive meeting assembled, endorse the policies of said paper, adopt it as the official organ of this association, and commend it to the membership as such.

Done by order of the executive committee, in the city of Fort Worth, this March 18, 1905.

NOTICE.

Beginning with the new year 1905 the subscription price of the Stockman-Journal will be \$1.00 a year in advance, instead of \$1.50 as heretofore.

All subscribers will be cut off the list without notice on date of the expiration of their subscriptions.

Remember, \$1.00 a year in advance is the price. Watch the label on your paper and renew before your time expires.

The Stockman-Journal will not be sent to any one longer than the time paid for. Watch your labels and renew.

HOW MANY CUTS?

BUT at the Feeders and Breeders' show there are many fine cattle, but the interest of stockmen engaged in raising for the market will center in what are called the "beef types."

When it comes to judging them, the judges will not only look over them with critical eye, but will feel carefully every muscle, probe around for ridges of gristle and pads of fat, until they are satisfied that the animal on which they pin the blue ribbon represents the best type of beef producer shown in the exposition.

A simple test that judges use in judging beef cattle is expressed by the question "How many cuts?" That means how many steaks will the animal produce in proportion to its size and weight, how will the animal produce in proportion to its size and weight, how many roasts, how much shoulder meat, and so on. A steer that is all flanks and no forequarters, or one that has a sunken back or one that is shaped like a barrel, round in the middle and tapering at both ends, will not have much chance to win the prize. It will be the steer most proportionately built, the best all round animal.

We hear a great deal in this day and age about specialists and experts. The papers have many stories of men who are expert in single lines of business. We have surgeons who will operate only on the eye, architects who will draw plans of office buildings, lawyers who will take only cases involving corporation law, preachers who

preach only revival sermons and so on. Such men get good salaries, and are paid in proportion to their knowledge, but the money to pay them with is furnished by all round men, men who have proportioned their intelligence and ability to the everyday needs of business. The all round man is not praised enough. He is the only independent man who lives.

The specialist boasts of his independence in being able to refuse all work except that which comes directly in his line. In reality the specialist is never anything more than a hireling. A city may have among its citizens a man who has given his life to the study of the microscope, a perfectly laudable and honorable occupation. When a murder case comes up in court there may be some question about bloodstains, and the expert is called in to give his testimony. It has much weight with the jury and it is prominently featured in the report of the trial. But how about the rest of the time?

Is the expert microscopist the man who is sent for when some one is very sick and a kindly neighbor is needed to sit up nights at the bedside? Is he called in to help comfort mourning families, or picked out as the best man to break the news of some fatal accident gently? Is he the man whom other men stop on the street and say "I'm glad to see you, old fellow, I've been bothered over something, and want your advice?" Is he the man whom the employer calls into his office, when unexpectedly summoned away and told "Jones, I'm going to leave you in charge while I'm away, because you're an all round man, and can look after things generally better than any of the others?" He isn't.

The specialist is like the type shown in some of the classes of a fine stock show, put there for the benefit of men who have hobbies. He's remarkable in his way, but it is only one way. He has a higher percentage of one kind of "cuts" than anybody else, but when the question of the total "how many" is asked, he often falls far short.

The all round, every day man is the basis of business and social life, just as the all round or beef type of cattle furnish the basis of the live stock industry which is worth millions to Texas every year.

Think about it next time when you hear a "specialist" inordinately lauded and a modest, kindly, useful man, whose name may be mentioned at the same time, passed by as a person of no particular consequence.

THE POULTRY SHOW

IF ONLY Texas people took as much interest in dairying and hog raising as they do in poultry, cattle and horses, there would be no need for so many columns in the newspapers urging the importance of developing the two industries that deal with the cow and the hog.

For Texas already has the hen. The poultry show in conjunction with the National Feeders and Breeders' exhibit proves that. The poultry show has astonished everybody, including Judge N. B. Moore, who is managing it. More exhibits have come than were to be expected at this season of the year, and not only that, the exhibits are of unusual good quality.

The show proves that scores of Texas people are interested in improving chickens, ducks and geese, and where one is interested enough to go into pure bred, twenty-five are interested enough to raise grades for

market. And that is where the real value of poultry comes from. The pure bred competitions are stimulators, the best kind of stimulators that can be devised. Of the thousands who will visit the poultry show perhaps only a few will go away determined to raise pure bred poultry of their own and bring it next year to the show. But hundreds will go away convinced that there is something in poultry after all and it would be profitable to have a few more chickens, ducks, geese or turkeys around the barnyard. They might come in handy at providing household supplies when none of the other crops are moving.

Poultry is a money crop. Every single chicken can be turned into cash whenever the cash is wanted. Eggs command a market price every day in the year and the price is cold cash, not a warehouse receipt.

Texas is already raising well toward its quota of American poultry, but it is only beginning. Texas climate ought to bring more chicken raisers into the state and make more people already within go into the business, because it is the most favorable to develop profitable types of poultry to be found anywhere.

Now if as much interest can be awakened in dairying and hog raising as has been shown in poultry there isn't any limit to the strides agricultural prosperity in Texas will make. The poultry show is inspiration enough to keep up the fight until Texas leads in pork and dairy products as well as it does now in mules, cotton, cattle, and contented citizens.

SOME THINGS TEXAS NEEDS

A GREAT deal is said about what Texas has because there is a great deal to talk about. There is scarcely a single industry which flourishes anywhere in the United States that cannot be successfully carried on in the state. Of the things that Texas does not have and needs, visitors and outsiders can talk more freely than those who are citizens, but usually the statements of the outsiders are based on limited knowledge.

Exhibitions like the National Feeders and Breeders' show now in progress show that Texas is awake to all the live stock opportunities before it. Expositions like those of Dallas and San Antonio, as well as those in smaller Texas cities, show that the state is not behind in agricultural development. But there are important things needed in the development of the state for which there are few or no expositions. One of the most important of these is dairying. There are dairy exhibits at most of the fairs, and the display at Dallas last year was creditable, but for a state the size of Texas it was exceedingly small. There ought to be enough dairy interest in Texas to give an exhibition which would fill Fort Worth's big coliseum. There is no state offering so many opportunities, climate, water, forage and, best of all, a home market for everything that can be produced for a score of years to come, yet dairying in Texas is only in its infancy.

Hog raising is another. Most of the prizes at the hog shows given are taken by Oklahomans. The production of hogs in Texas compared to the market for pork is astonishingly light. Texas eats pork by the ton and produces it by the hundredweight. The result is that outside states are feeding us with meat that could be produced at home. There ought to be an annual Texas hog show that would bring 5,000 hogs to some central point and people

enough in Texas interested in the industry to furnish a market for the hogs after they get here. The Texas Swine Breeders' association is growing steadily, but there ought to be a time, and it is coming, when the Texas Swine Breeders' association will be as large and as powerful as the Texas Cattle Raisers' association.

And still another thing needed is more good roads. Work for better roads has been in progress during the past several years, especially in the northern part of the state, but it is only begun. Good roads are needed from El Paso to Texarkana and from Texline to Corpus Christi because good roads improve land values, and aid accessibility to market, an important requisite for successful agriculture.

The agricultural sections of Texas are not the only ones that need many things. The cities need better lighting. Even San Antonio, which boasts of its superior street illumination, falls short of what it should be. In time Fort Worth will probably be the best lighted city in the state, but it will take several months. Every city with more than 10,000 population should be as well lighted at night as to excite comment of every visitor.

More needed at present than lighting is paving. Texas cities are behind those of the same class in older states. Oklahoma cities never fail to excite commendation because of the work they have done in this respect. Every street used for business purposes, no matter how little, should be paved, and the principal residence streets should also be improved.

Civic beautification is needed everywhere in the towns from 200 population up. More trees are needed, more parks, more sidewalks, more shrubbery and better lawns. A well-kept city is not only more prosperous, but it is a healthier city in which to live. For many years nobody has ever visited Buffalo, N. Y., without coming away to talk about the miles of asphalt which are washed clean every night.

None of the things mentioned among the needs of either country or city can be classed as a luxury. They are all necessities to improvement and development. They are not the only things, but they are very important.

A convention held in Fort Worth last week voiced the need for fewer laws and better ones. This need is patent, but many cities before telling the legislature how it should run its business should make some improvements in their own methods.

The greatest need of Texas exists, as it has for years, in more settlers of the class who are thrifty, economical, progressive home-builders. There ought to be no room in Texas for the pure speculator in either farm land or city property. The speculator who buys, improves and sells is a developer and is to be encouraged, but the man who buys and waits on the progress of his neighbors to help his own pocketbook is of little value to anybody.

Texas has a future before it, a future which nobody now living in it can do more than guess. Now is the time to build, and to build solidly and substantially, so that when that future comes Texas will take its place as first among all the states of the whole big Union.

Fewer broad hats are seen this year at the Fat Stock Show, but there are more broad smiles. The Texas cattlemen have been prospering.

An ounce of thinking before going into a project often would save a ton of thinking afterward.

IMMORTALITY---By Ella Wheeler Wilcox

A MAN, who says he is "a common workman," writes an uncommonly interesting letter regarding the serious subject of immortality; he wants me to tell him in a brief newspaper article the whole process of reasoning which has led me to believe in immortality.

The letter comes from Three Rivers, Mass., and gives no address; it would be a pleasure to send my correspondent some booklets or to direct him where to obtain books which might aid his own excellent reasoning powers on this most important subject with which we have to deal, the immortality of the spirit of man.

He asks:
 "Where do I come from? Did I have a beginning? Will death end all?"
 "If life is eternal, as you, dear lady, assert, then I cannot have a beginning, but must have existed always. We have no recollection of our former existence; if we had we would not fear death as we do. All conscious beings fear death."
 "I am growing old. Bodily I am and always was very weak. Of the world's riches I have none. I am alone. There is no one whom I call my own. The language I have to speak is foreign to me. Yet I fear death and cling to this miserable life."

"Common Workman" is asking questions which have puzzled the philosophers of the world since the beginning of time. But to those who care to look carefully and patiently into the mass of evidence obtained there is proof absolute of the immortality of all created things. No mind has yet been great enough to conceive a period of time before there was a beginning.

"Who made God?" is the question of every child, before which every parent and theologian pauses silent and abashed. It is useless to waste vitality in trying to think out the unthinkable.

The fact which confronts us is life. We are here. The next fact is death. We must all give up the body eventually.

My own studies into the why and wherefore of existence convince me that in the works of the very earliest seers and masters extant, the Vedas, lie all that can be known of creation.

All later Bibles are included in these remarkable works: This philosophy teaches that periodically the great cause, which in spirit, expresses itself (or Him and Herself) in the form of a material universe.

These periods begin with wholly spiritual beings, who gradually grow more material thru their forgetfulness, as time passes, of their divine origin. When the very depths of materialism have been reached, then there occurs some great cataclysm of nature, and all go back to the original source again, when nothing is but spirit.

The Bible tells of one flood, but there have been many, and there will be many more. Science is continually proving the vast age of this earth and discovering evidences of the former existence of vanished continents and civilizations.

During all these trillions of years each soul on earth has lived. We have occupied many bodies and forms, always progressing in some degree, however we may have deteriorated in others; always gaining a little, however many our losses; always getting back to first principles, even when wandering away into materialism.

It is possible that "The Common Workman" with the uncommon mind and the weak body and the lonely heart was a powerful ruler, with gross appetites and uncontrolled passions, in some prehistoric age. He slaughtered and tyrannized and conquered during his span of life, and cared little for the sorrow he caused, and compelling others to toil for him. So he was sent back to earth to earn his bread by the sweat of his brow, and to be lonely, and to carry a weak body, which he made by his former gluttony; but, while he is physically, financially, and socially on a lower plane than he was of old, his mind and heart have learned to think and feel, and his spirit is becoming more visible thru the clay.

When he comes to earth again he will have learned many lessons and will occupy a much nobler place in the world. That he does not recall his old life or lives is of no more account than the fact that you or I do not recall the day we learned the first letters of the alphabet.

We know the alphabet. That is the important thing.

Meanwhile, between the different incarnations, we pass thru many interesting and wonderful spiritual experiences, where we meet those who are

and have been our close spiritual kin, and we renew old ties of love and friendship, as do scholars who go home between college years. Many people live on earth today who do remember old incarnations. Such a memory can be cultivated; but is not important to man's growth or happiness. Only the results of those experiences are important.

I do not recollect the days when I neglected to master my arithmetic lesson. I do not even recollect the names of the teachers who were vainly trying to make me study these distasteful problems. But I have all my life, since reaching maturity, suffered inconvenience from my neglect in youth to conquer mathematics. Just exactly so we receive benefits or suffer penalties today from acts we committed in former forgotten lives.

I might perhaps sit down and by great effort recall the special seasons and teachers associated with my childish delinquencies; but this would serve small purpose now; it would be much wiser for me to take up the belated study of algebra, or to devote my time to helping other younger scholars to realize the importance of such studies.

In the same way, it is less important for us to devote our mental powers to an effort in recollecting past incarnations than it is to use them in building a noble incarnation for the next return to this or some other planet. Personally I am convinced that I know the period and place of my last life on earth, and I understand the absolute justice which has ruled in making me suffer every painful experience and hardship on this earth which has fallen to my lot; they have been harvests of my own sowing. So, too, have I reaped happiness and pleasure from the good deeds I planted in a former life.

There is a beautiful and good woman of my acquaintance who has been subjected to the most astonishing series of domestic tragedies. Neglect and deceit and cruelty have been shown her in the most peculiar forms, and she has seemed to be driven by a lash of destiny into a life of seclusion from the world which her personal attractions and mental qualities fit her to adorn. To me the woman's former incarnation is as clearly pictured as the story in any book of history. Her whole deportment carries out the narrative. She suggests, despite her womanly charms, a dominating masculine personality. The psychic eye sees the

one-time tyrant who broke the hearts of the women attracted by his power and magnetism; who wooed and won, and "laughed and rode away," like the knight in the old song, and to whom the word "Home" held no meaning and implied no obligation.

"So here and now the law of Karma sends the tyrant back a woman, longing for home and protection and love, and, forced to learn by personal earthly experience just what the lack of those blessings means. Subdued, submissive and uncomplaining, making the best of her solitary life today, thanking God for her friends and health, this woman has learned the lesson set for her, and is making "good karma" for the future.

All the troubles which have come to the denizens of earth, during all the eons of time, have resulted from their forgetfulness of the divine nature in every created thing.

That is what is meant by all the stories of "A Fall of Man" which run thru every old religion. We all started with the starter. We all originated with the originator. And only by losing sight of this fact have we "fallen." So soon as we become fully conscious of our divinity we are "saved," and unto "those who have" that consciousness more shall be given.

And whatsoever they ask shall be given because they are asking only for their own inheritance—health, opulence, happiness and eternal life.

As ye sow so shall ye reap. You are your own savior. From yourself only can salvation come.

CHILD'S BOX PLAITED COAT
 Paris Pattern No. 2308
 All Seams Allowed.

A most attractive all-cover coat for a small child is developed in silver-gray broadcloth. The body portion, which is very full, is box plaited into the square yoke and finished with a deep hem. The shape cape falls in a point at the front and back, and over each shoulder, and this, as well as the turn-back cuffs are trimmed with a double quilling of silver-gray taffeta ribbon. The narrow turn-down collar is finished with a single row of similar quilling. The pattern is in 4 sizes—1 to 7 years. For a child of 3 years the coat requires 4 3/4 yards of material 20 inches wide, 2 1/2 yards 36 inches wide, 2 1/4 yards 42 inches wide, or 1 1/2 yards 54 inches wide; 10 1/2 yards of ribbon to trim.

LADIES' NINE-GORED SKIRT
 Paris Pattern No. 2309
 All Seams Allowed.

As a separate skirt or as part of a jacket costume this is a most serviceable garment. It is made with an inverted box plait at the center-back seam, and below the hip at all the other seams. The trimming consists of two bias bands of moire silk which may be left off if desired. The pattern is in 7 sizes—22 to 34 inches waist measure. For 26 waist the skirt, made of material

with nap, requires 13 1/2 yards 20 inches wide, 7 1/4 yards 36 inches wide, 6 1/4 yards 42 inches wide, or 4 3/4 yards 54 inches wide; without nap, it needs 12 3/4

2309

yards 20 inches wide, 6 1/2 yards 36 inches wide, 5 1/2 yards 42 inches wide, or 4 3/4 yards 54 inches wide; 3 yards of contrasting material 20 inches wide, 1 3/4 yard 36 inches wide, 1 1/2 yard 42 inches wide, or 1 1/4 yard 54 inches wide for bias bands.

2303

LADIES' TUCKED SHIRT-WAIST
 Paris Pattern No. 2303
 All Seams Allowed.

A pretty model for a dressy waist is here portrayed. It may be developed in nun's veiling, chiffon faille, voile, taffetas, surah or any of the pretty novelty silks. The shaped yoke-band,

narrow turn-back wrist cuffs and high collar are trimmed with contrasting or self-colored velvet ribbon, and the removable chemisette, and long wrist cuffs are of all-over cream-colored lace. The girdle is of velvet, and small velvet buttons ornament the yoke band. The pattern is in six sizes—32 to 42 inches, bust measure. For 36 bust the waist requires 4 1/4 yards of material 20 inches wide, 3 1/2 yards 27 inches wide, 2 5/8 yards 36 inches wide, or 2 1/4 yards 42 inches wide; as illustrated, 3/4 yard of all-over lace 18 inches wide and 2 5/8 yards of velvet ribbon.

Any Pattern on this page, 10c. Address Fashion Dept., Stockman-Journal.

Bonita Salad

One cup of cold boiled string beans, one-half cup boiled carrots, one sour apple, one-half cup celery, all cut in dice. Add one-quarter cup English walnuts, one-half cup spiced green tomatoes, one tablespoon corn relish. Season with vinegar from the spiced tomatoes.

Place on lettuce leaves, take yolks of two hard boiled eggs while hot, run thru a ricer, and sprinkle over the top. The different colors of the ingredients make a most attractive ensemble.

Graham Bread

To one quart graham flour, one teacup rye flour, one teacup wheat flour, half teaspoon salt, two or three tablespoons (according to taste) of molasses, and a piece of butter size of a walnut. Add one and a half pints of lukewarm water in which a cake of yeast has been dissolved, and mix all thoroly together. Set in a moderately warm place, free from drafts, to rise. When well risen add one tablespoonful of wheat flour. Knead well. Place in pans and set to rise. When well risen bake in a moderately quick oven. About forty-five minutes will be sufficient to bake. If mixed over night use half cake yeast.

Cottage Cheese

Cook the clabbered milk until the curd separates from the whey; then pour into a colander and let cold water run thru it until the water which drains from it is clear. Salt and let it stand for half an-hour in the colander, with a weight on it, to drain. Season with pepper and dress with thick cream. Cheese made in this way has been pronounced most excellent by those not prone to compliment.

The "Lily" on the Turf Again

Since her husband has come into his baronetcy, Mrs. Langtry is going in for racing on a larger scale, and, moreover, she will drop forever the name by which the stage knew her for so many years. She is now Lady de Bathe, and people will kindly not forget it. It seems with all the other money making irons this astonishing woman has in the fire, seventeen or eighteen horses, bred and owned by her, are now in training, and she looks forward to a big race or two by and by. Under what star was the Jersey Lily born?—Boston Herald.

HERE ARE THE AWARDS AT THE FAT STOCK SHOW

CATTLE

SHORTHORNS

Class 11, section 1, bulls 2 years old and over.

First prize \$40, Diamond King, roan; Frank Scofield, Hillsboro, Texas.

Second prize \$30, Linwood Victor, dark roan; David Harrell, Liberty Hill, Texas.

Third prize \$20, Queen's Cup, red; J. F. Hovenkamp & Son, Fort Worth.

Fourth prize \$15, New Year's Gift, red; J. W. Williams, Fort Worth.

Fifth prize \$10, Texas Lad, red; J. Wilson, Dallas.

Sixth prize \$10, Rufus, red; Louis B. Brown, Smithfield, Texas.

Class 11, section 2, bulls, 2 years old and under 3.

First prize \$40, Royal Prince, red; J. A. Edmondson, Gibtown, Texas.

Second prize \$30, Baron Banff, roan; J. Washington, Marietta, Ok.

Suffolks, class 15, section 9, stallion, 4 years old and over: \$15, Radium, C. V. Evans & Co., Saginaw; Suffolks, class 15, section 10, stallion under 4

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them Remedies of Known Composition.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the fullest scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, bilious liver or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native, medicinal plants was gained from the Indians.

As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

years old: \$25, Askmore Pro Bono, C. and over: \$25, Polka, C. V. Evans & Co., Saginaw; \$10, Voltaire, C. V. Evans & Co., Saginaw.

Horse Sales

WEAK MEN RECEIPT FREE

Any man who suffers with nervous debility, loss of natural power, weak back, failing memory or deficient manhood, brought on by excesses, dissipation, unnatural drains or the follies of youth, may cure himself at home with a simple prescription that I will gladly send free, in a plain sealed envelope, to any man who will write for it. A. E. Robinson, 3513 Luck Building, Detroit, Michigan.

BREEDERS' DIRECTORY

All breeders advertising in this directory are invited to send photograph of their herd leader, with a short, pointed description. A cut will be made from the photograph and run from one to three times a year, as seen from the picture below. No extra charge for it. Don't send cuts. Send photograph. The continuation of this feature depends upon your prompt action.

FRANK GOOD, Sparenberg, Texas.

!!! BIG SALE OF HEREFORDS !!!

A breeders' combination sale of Herefords was held at the stockyards Friday afternoon. Colonel R. E. Edmondson was the auctioneer. As a rule fairly good prices were realized. There was splendid bidding for the bull, Hercules of Riverside, which brought \$295 and went to Tom Waggoner of Decatur, and the bull, Lysan, which went to Honaker & Son of San Angelo, for \$225. The bull, Lee J. Rountree, brought \$360, the highest price of the sale. The sale was held under the auspices of the Texas Hereford association. There were thirty-seven sales, the average price paid being \$126.08. The sales in detail:

Corrector XII, 25210, by Corrector, Jr., out of Joy, bred by M. W. Hovenkamp of Keller, sold to B. C. Rhome of Saginaw, Texas, for \$75. Consigned by M. W. Hovenkamp.

Joe Bailey, 265629, by Prince Albert, out of Lione, bred by F. C. Vaden of Sherman; sold to J. D. Dulaney of Sweetwater for \$55. Consigned by F. C. Vaden.

Lady, 261686, by Romeo, out of Gertie IV., bred by W. S. and J. B. Ikard of Henrietta; sold to W. H. Myer of Blooming Grove for \$80. Consigned by W. S. and J. B. Ikard.

Robert, 243956, by Bohemia, out of Helen, bred by F. W. Axtell of Fort Worth; sold to John D. Hughes of Georgetown for \$55. Consigned by F. W. Axtell.

Galen, 264922, by Bohemia, out of Juliana, bred by F. W. Axtell of Fort Worth; sold to G. W. McDonald of Palo Pinto for \$50. Consigned by F. W. Axtell.

Schley, 24988, by Hercules of Riverside, out of Genevieve Schloy, bred by D. M. Casoon of Lavaca, Ark.; sold to Jim Sears of Merkel. Consigned by C. W. Martin.

Emperor Shadeland, 239783, by Maple Leaf Shadeland XX., out of Empress, bred by Elm View Stock farm, Denison; sold to Sol Meyer of Sonora, Texas, for \$90. Calved Feb. 13, 1906, and consigned by G. L. Blackford.

Jack, 241198, by Ike, out of Gertie II., bred by Tom Hoben of Nocona; sold to Lee Brother of San Angelo for \$110. Calved May 7, 1906, and consigned by F. M. Hobson.

Victor, 253465, by Ray, out of Lau-

rine, bred by C. M. Largent of Merkel; sold to Tom Waggoner of Decatur for \$145. Calved Aug. 8, 1906, and consigned by C. M. Largent.

Leedales Czarina, 221887, by Dallas, out of Edytha, bred by Lee Brothers of San Angelo; sold to J. C. Whaley of Gainesville for \$230. Calved March 18, 1905, and consigned by Lee Brothers. This is one of the Lee Brothers' show herd and is a first prize winner.

Lysan, 276397, by Lysander, out of Constance, bred by Herman Specht of Iowa Park, Texas; sold to Honaker & Son of San Angelo for \$225. Calved Feb. 17, 1907, and consigned to Lee Brothers. This animal won first prize and junior championship at the Arkansas Fair, first money at the Dallas and Austin fairs, second at the San Angelo fair, and was the head of a young herd winning the first prize.

Eugene, 286234, by Plutus, out of Miss Ikard, bred by W. D. Jones of San Angelo; sold to Sol Meyer of Sonora for \$145. Calved March 13, 1907, and consigned by Lee Brothers. This animal was grand champion over all ages at the fall fair.

Hercules of Riverside, 201627, by Royal March, out of Ada Gray, bred by Campbell Russell of Hereford, Okla.; sold to Tom Waggoner of Decatur for \$295. Calved Jan. 20, 1904, and consigned by Oscar L. Miles.

Jim, 259936, by Lancet, out of Pride of Lone Oak, bred by J. and F. Durringer, Burleson, Texas and sold to S. A. Overton, Fort Worth, Texas, for \$55. Calved June 16, 1906, and consigned to J. and F. Durringer.

Speculator, 264109, by Maple Leaf Shadeland XXX., out of Bright Jess IV., bred by J. B. Salyer, Jonah, Texas, and sold to Tom Waggoner, Decatur, Texas, for \$120. Calved Dec. 17, 1906, and consigned by J. B. Salyer.

Mitty, 240362, by Maple Leaf Shadeland XII., out of Zora, bred by the Riverside Hereford Cattle company, Jonah, Texas, and sold to J. F. Yearwood, Georgetown, Texas, for \$115. Calved Feb. 23, 1906, and consigned by the Riverside Hereford Cattle company. Bred Oct. 10, 1907, to Gideon, 265234.

Lovely II., 240361, by Maple Leaf Shadeland XI., out of Aaronette, bred by the Riverside Hereford Cattle com-

pany, Jonah, Texas, and sold to J. F. Yearwood, Georgetown, Texas, for \$130. Calved Feb. 2, 1906, and consigned by C. A. Nelson. Bred Sept. 18, 1907, to Gideon, 265234.

Loving Girl, 110456, by Roseberry, out of Love, bred by Hovenkamp & McNatt, Fort Worth, Texas, and sold to F. W. Axtell, Fort Worth, Texas, for \$75. Calved July 30, 1900, and consigned by Sterling P. Clark.

Jumbo, 287656, by Garfield's Boy, out of Daisy Maid, bred by Sterling P. Clark, Fort Worth, Texas, and sold to Tom Waggoner, Decatur, Texas, for \$140. Calved May 2, 1906, and consigned to J. F. Yearwood.

Premier, 269963, by Maple Leaf Shadeland XX., out of Winnie L., bred by Elm View Stock farm, Denison, Texas, and sold to A. Stewart, Bradley, Ark., for \$65. Calved Jan. 14, 1907, and consigned by G. L. Blackford.

HOGS

Class 7, section 1, car load of fifty hogs, 175-225 pounds.—First prize, \$100, W. M. & H. M. Robinson, Frisco, Texas; second, \$75, J. C. Ownsby & Sons, Celina, Texas; third, \$50, Walker Moore, Weatherford, Okla.; fourth, \$25, J. A. Montgomery, Memphis, Texas.

Class 7, section 2, car loads of fifty hogs, 225 pounds and up—First prize, \$100, A. Brower, Thomas, Okla.; second, \$75, W. M. & H. M. Robinson, Frisco, Texas; third, \$50, S. D. Talley, Frisco, Texas; fourth, \$25, J. Q. Adamson, Edmond, Okla.

Class 8, hogs in pens of five head; class 8, section 1, best pen of five fattened hogs, either barrows or sows, 1 year old or over.—First prize, \$25, W. M. & H. M. Robinson, Frisco, Texas.

Class 8, section 2, best pen of five fattened hogs, either barrows or sow, under 1 year—First prize, \$25, J. C. Ownsby & Sons, Celina, Texas; second, \$15, H. Hardesty, Fort Worth; third, \$10, Frank Booth, Fort Worth; fourth, \$5, W. M. & H. M. Robinson, Frisco, Texas.

Sweepstakes, best pen of five hogs, any age, won by J. C. Ownsby & Sons, Celina, Texas.

Registered Swine (Barrow Division) Tamworth

Class 9, section 1, barrow 175-225 pounds—First prize, \$25, J. C. Ownsby & Sons, Celina, Texas; second, \$15, Ed Edmondson, Newark, Texas; third, \$10, Ed Edmondson, Newark, Texas.

Class 9, section 2, barrow, 225 pounds and up—First prize, \$25, J. C. Ownsby & Son, Celina, Texas; second, \$15, Ed Edmondson, Newark, Tex-

as; third, \$10, Ed Edmondson, Newark, Texas.

Berkshires

Class 9, Section 3: Barrow, 175-225 pounds—First prize, \$25, George P. Lillard, Seguin, Texas; second, \$15, George P. Lillard, Seguin, Texas.

Champion Berkshire barrow, George F. Lillard, Seguin, Texas.

Class 9, Section 4: Barrow, 225 pounds and up—Prize \$25, George P. Lillard, Seguin, Texas.

Solicitor, boar, to Roy L. Fry, Wills Point, \$80; Belle of the West, sow, to Roy L. Fry, Wills Point, Texas, \$75; boar pig farrowed in December, to Roy L. Fry, Wills Points, Texas, \$25; Bes-

sie Knight, September gift, to Roy L. Fry, Wills Point, Texas, \$30; Judge Duke, boar pig, to R. H. Norton, Hereford, \$22.50; Oaka Maid, gilt, to E. W. Houston; Ideal Victor, boar pig, to Roy L. Fry, Wills Point, Texas, \$40;

Sow, to E. W. Houston, \$30; Duchess of Elmhurst, yearling sow, to R. H. Norton, Hereford, \$50; Elmhurst Duchess, yearling sow to W. L. Hert-

zog, Sadler, Texas, \$45; boar pig, to J. P. Stewart, Lancaster, Texas, \$7.50; sow pig, to C. Smith, Lancaster, Texas, \$10; boar pig, Headlight's Masterpiece, to F. Manning, Caddo, Okla., \$20; Sher-

man Belle, sow, to W. F. Hertzog, Sadler, Texas, \$30; gilt to R. C. Merrell, Frederick, Okla., \$15; five gilts, to R. C. Merrell, Frederick, Okla., \$10 each.

Poland-Chinas

Class 9, Section 5: Barrow, 175-225 pounds—First prize, \$25, H. E. Singleton, McKinney, Texas; second, \$15, H. E. Singleton, McKinney, Texas; third, \$10, J. F. Hovenkamp & Son, Fort Worth.

Class 9, Section 8: Barrow, 225 pounds and up—First prize, \$25, Ownsby & Son, Celina, Texas; second, \$15, Ed Edmondson, Newark, Texas; third, \$10, G. B. Lowry, Newark, Texas.

Grand champion Poland-China barrow, M. W. Hovenkamp, Keller, Texas.

Class 9, Section 6: Barrow, 225 pounds and up—First prize, \$25, H. E. Singleton, McKinney, Texas; second, \$15, M. W. Hovenkamp & Son, Keller, Texas; third, \$10, M. W. Hovenkamp & Son, Keller, Texas.

Keep Up, aged sow, to T. J. Jowell, Hereford, Texas, \$45; Myrtle, yearling sow, to T. J. Jowell, Hereford, Texas, \$30; Lady Perfection, sow, to M. Hart, Grandview, Texas, \$40; Whiteface Sanders II, sow, to J. T. Bell, McKinney, Texas, \$22.50; Sadie Perfection II, sow, to J. T. Jowell, Hereford, Texas, \$30; Butterfly, yearling sow, to G. F. McCracken, Hereford, Texas, \$10; Daisy, yearling sow, to J. T. Bell, McKinney, Texas, \$20; Chieftain, boar, to J. W. Medlin, Roanoke, Texas, \$35; Great, boar, to Jeff Earle, Fort Worth, \$25; Royal Meddler, boar, to T. J. Jowell, Hereford, Texas, \$27.50.

Duroc-Jerseys

Class 9, Section 7: Barrow, 175-225 pounds—First prize, \$25, Ed Edmondson, Newark, Texas; second, \$15, Ed Edmondson, Newark, Texas; third, \$10, George P. Lillard, Seguin, Texas.

Mabel Surprise, yearling sow, to Tom Fravier, Morgan, Texas, \$45; Olive Surprise, yearling sow, to Ed Edmondson, Newark, Texas, \$35; lady Allison, aged sow, to G. P. Lillard, Seguin, \$65; Model Tip Top, yearling boar, to C. Smith, Whitney, Texas, \$25; Kruger Perfection, boar, to J. D. Jackson, Richardson, Texas, \$20; Peach Blossom, gilt, to C. Smith, Whitney, Texas, \$62.50; Harry, boar, to C. Smith, Whitney, Texas, \$25; Red Bird, sow, to H. K. Kelly, Waco, Texas, \$35; Lee, gilt, to J. R. Dickson, Sherman, Texas, \$22.50; Pearl, gilt, to J. R. Dickson, Sherman, Texas, \$22.50; Alma, gilt, to T. B. Stephens, Rhome, Texas, \$22.50; Jim Long, boar pig, to W. T. Kennedy, Plano, Texas, \$16; C. D. Lee, yearling boar, to Tom Frazier, Morgan, Texas, \$50; Sarah L., yearling sow, to J. A. Blackman, Cooper, Texas, \$52.50; Florida, sow, to Ed Edmondson, Newark, Texas, \$35; Florida D., sow, to Joe Wicker, Dunham, Texas, \$27.50; yearling sow, to J. J. McLain, Anna, Texas, \$25; Maud, sow, to J. J. McLain, Anna, Texas; Sambo, boar, to J. M. Bradson, Weatherford, Texas, \$15; Cherry Bell, sow, to G. G. Moore, DeKalb, Texas, \$22.50; Mate to Cherry Belle, to Joe Wicheer, Durham, Texas, \$17.50; boar pig, to J. R. Brown, Waxahachie, Texas, \$15; sow, to Ed Edmondson, Newark, Texas, \$20.

SHEEP

Carload fat sheep, 1 year old—First, \$50, D. S. McDonald, Krum, Texas. These sheep sold to Swift & Co. at \$5.75.

Class 10, section 2, carload fat lambs—

—First, \$50, W. M. and H. M. Robertson, Frisco, Texas.

Sweepstakes for carload of fat sheep to D. S. Donald, Krum, Texas.

Class 10, section 5, sheep in pens of five, best pen of five muttons, 1 year old and over—First, \$25, J. A. Kuykendall, Royce City, Texas; second, \$15, W. M. and H. M. Robertson, Frisco, Texas.

Class 10, section 4, best pen of five muttons under 1 year old—First, \$25, B. C. Rhome, Jr., Saginaw, Texas; second, \$15, W. M. and H. M. Robertson, Frisco, Texas.

Wethers Long and Medium Wool Type Class 10, section 6, wethers 1 year old and under 2—First prize, \$10, J. A. Kuykendall, Royce City, Texas; second, \$7, J. A. Kuykendall, Royce City, Texas; third, \$5, W. M. and H. M. Robertson, Frisco, Texas.

Class 10, section 7, wether lambs—First, \$10, J. A. Kuykendall, Royce City, Texas.

Section 8, champion wether, \$20, J. A. Kuykendall, Royce City, Texas.

Fine Wool Sheep

Class 10, section 9, wether, 1 year old and under 2—First, \$10, J. A. Kuykendall, Royce City, Texas.

Class 10, section 9, wether lamb—\$10, J. A. Kuykendall, Royce City, Texas.

Section 11, champion wether—First, \$20, J. A. Kuykendall, Royce City, Texas.

CATS

First prize, white Persian kitten, blue eyes, Mrs. S. P. Harrison, Fort Worth; second, white Persian kitten, male, orange eyes, Mrs. S. P. Harrison, Fort Worth.

Mrs. F. L. Drake, Fort Worth, won the following firsts: Blue Angora, male and female; second, blue Angora, male and female; second on orange-eyed white Persian cat. Second on orange-eyed Persian kitten. First on white Persian kitten, male. First on blue Angora kitten. First on blue-eyed white Persian cat.

White Persian

First male, Mrs. I. L. Drake, Fort Worth; second male, Mrs. S. T. Halvorsen, Fort Worth; first female, Mrs. S. P. Halvorsen, Fort Worth; second female, Mrs. I. L. Drake, Fort Worth; first cat and kitten, Mrs. I. L. Drake, Fort Worth.

Angora Blue

First male and second female, Mrs. I. L. Drake, Fort Worth.

POULTRY SHOW NOTES

A. C. Hoys of Decatur, Texas, was among the exhibitors at the poultry show. He breeds fifteen varieties of chickens, but only had a few on exhibition. However, there were several ribbons tacked to his coops, which is a guarantee that the stock is all right.

The largest exhibit in the poultry department was that of Mrs. Mitchell W. Greenwall. She had several pens and a number of single and pair entries, and made many good winnings.

Dave Hoyle of Decatur, Texas, exhibited some fine Buff and Black Orpingtons, and on the pens were ribbons indicating that the judges had good opinions of them.

McCauley & McDill of Fort Worth were successful exhibitors of Rose Comb and Single-Comb Rhode Island Reds, winning first and third prizes.

L. C. Gibbons of Bowie, Texas, made the best winnings in the Rhode Island Reds, winning several firsts, seconds and thirds on cock, hen, pullet and cockerel.

Mrs. E. L. Cunningham of Fort Worth will carry off several first prizes in White Plymouth Rocks, although she had perhaps the strongest competition of any breeder in the show ring.

One of the old breeders in the state is Professor F. P. Prewitt of Polytchnic Heights. For many years he has been a conspicuous figure in the poultry world, and especially in Texas. He has made a success of breeding fancy poultry, and has for many years stuck to one breed, that of Black Langshans. In this class he made almost a clean sweep.

Sweepstake prizes were awarded, and Mrs. Hiram Knox of Livingston, Texas, carried off the prize for the best pen of any variety, winning on White Plymouth Rocks. J. T. Fox of Denison was awarded the prize on the best display of poultry.

Mrs. J. K. Norton of Denton, in addition to exhibiting a string of Buff Plymouth Rocks, was also in attendance at the show. For several years she has been an exhibitor, and has been defeated but few times in the show rooms. At this show she almost made a "clean sweep" in the Buff Rock class.

There were very few of the Orpington class of chickens on exhibition. The Orpington is the latest English

strain, and has been bred extensively in this country ever since the strain was perfected by Dr. William Cook. It has been very popular in Texas, and, in fact, with all southern breeders, and in many of the largest shows has been leading the various classes. Only two exhibitors are showing Orpingtons at this show.

Judge Savage has the distinction of having held more presidencies of chicken organizations than any other person in the state. Besides his affiliation with other poultry organizations, he has for several terms held the presidency of the Texas Poultry Association, the Texas Langshan Association, the Texas Buff Poultry Club and several other specialty clubs, and still has found time to make the race for the legislature and get elected, and judge many chicken shows thruout the United States, and edit the Poultry Life of America, a monthly publication devoted to poultry and pet stock. While his term as member of the legislature does not expire for some time, he says he is willing to go to the state legislature again, and is telling his friends so.

Editor F. L. Shaw of the Inland Poultry Journal of Indianapolis, Ind., is among the visitors.

HORSE SHOW MATINEE

Only the illumination of electric lights was lacking to make the horse show matinee Saturday afternoon as brilliant an event as any program of the week. The coliseum held fully 5,000 people, the boxes were filled with well known society people of Fort Worth and their guests from neighboring cities, the program was attractive and the contests at times spirited enough to please the most exacting.

A trifling accident occurred in one harness event when Manager Hill of Oltmanns Bros., driving Earikonig, was spilled from his runabout by the breaking of a wheel. Mr. Hill was unhurt, hurried from the ring and in a few minutes returned with another runabout in time to win third prize.

The saddle horse class provoked a lively rivalry and Ruth Berne's final victory aroused much enthusiasm.

A feature of the saddle pony class was the riding of Master Jack Mann on Twilight. Master Mann is only 2 years old and his father walked beside his pony to see that no accidents happened.

The list of awards follow:

Class 45: Harness ponies—First prize, Dido, A. B. Wharton, Fort Worth; second, Prince B. G., R. L. Rippey, Fort Worth.

Class 18: Harness horses—First prize, \$25, Cudahy, Mrs. Gregory, Fort Worth; second, \$15, Winfield, Mrs. Godwin, Fort Worth; third, ribbon, Radium, Mrs. J. A. Hill, Fort Worth.

Class 7: roadster pacer—First prize, \$40, Pansy Direct, John Riley, St. Joseph, Mo.; second, \$15, Dan P., F. P. Padgett, Lafayette, Ind.; third, ribbon, Nobby May, J. A. Clary, Fort Worth.

Class 29: Saddle horses, five gait—First prize, \$50, Wood McDonald, Ream & Turman, Wapanucka, Ok.; second, \$15, Ruth Berne, Hock & Woods, Paris, Mo.; third, \$10, John Rockefeller, J. H. Murphy, Celina, Texas.

Class 16: Harness horse—First prize, \$50, Cudahy, Magill & Oliver, Kansas City, Mo.; second, \$25, Grant, Magill & Oliver, Kansas City, Mo.; third, ribbon, Earikonig, Oltmanns Bros., North Fort Worth.

Class 46: Saddle ponies—First prize, special, Cutee, Miss Avon Dycus, Fort Worth; second, Tony, Robert Whittington, North Fort Worth; third, Buster Brown, owned in Fort Worth; special prize for Jack Manning riding Twilight.

Class 9: Roadsters, trotters—First prize, \$40, The King and Emma R., Don Riley, St. Joseph, Mo.; second, \$15, Kitty Karruson and Alleon, J. J. Coffman, San Antonio; third, ribbon, Vera C. and Lady G., Harry White, McKinney, Texas.

Class 43: Livery outfits—First prize, \$15, Kate and Alice, Union Transfer Company, Fort Worth; second, \$10, Harry and Patsy, Harry White, McKinney, Texas.

Class 10: Roadsters, pacers—First prize, \$40, Dan-P. and Pansy Direct, Don Riley, St. Joseph, Mo.; second, \$20, Electra and Cassell W., C. C. Peters, Fort Worth; third, ribbon, Lime-light and Twilight, W. T. Waggoner, Fort Worth.

POULTRY

Pointers on Eggs

Never allow anyone with soiled hands to gather eggs. A very little grease or oil on the shell of an egg will render it worthless so far as hatching is concerned.

If eggs become soiled in the nest wash them carefully in clear water with the chill removed. Soap must not be used.

Eggs will keep for some time in a dry atmosphere of from 50 to 54 degrees Fahrenheit. An excellent plan is to wrap each egg as gathered in paper. This protects the eggs somewhat from the action of the air.

Turkey and goose eggs will keep perfectly for twenty-one days, hen eggs ten days and duck eggs one week. However, it is always best to have them as fresh as possible.

Write the day when each egg was laid on the outside of the wrapper and do not unwrap to turn.

Place the eggs in boxes one layer deep and turn regularly each day until placed under hens or in the incubators.

If eggs are kept lying on one side for a week or more they will seldom hatch healthy chicks, if they hatch at all. The yolk settles to one side, the result being a deformed chick or none at all.

Be careful in handling shipped eggs. Some people are thoughtless enough to shake them, "just to see if they will rattle," and consequently lose the entire lot.

Have a special time for turning both before and after putting them in the incubator, and do the work carefully and thoroughly, as rough, indifferent handling after the hatching process begins is more disastrous than before.

Of course when the air is excluded for a certain length of time an egg will "rattle" a little when perfectly good, but don't test eggs in this manner.

If by accident the eggs in the incubator become overheated do not get excited and roll them around, for this will only make matters worse; if the temperature goes up to the danger point the eggs should not be turned or handled.

Cool according to directions sent out with your incubator. But bear in mind that common sense and judgment count for more than printed directions sometimes.

Young Chick Feed

A firm that makes brooders sends out the following suggestions on the different feeds usually given chicks and breeding stock:

Corn—Of all grains fed to poultry the cheapest and most plentiful is corn. In the states which produce the most poultry corn is almost the exclusive grain food. It can be fed to advantage, provided the fowls have all the vegetable and animal food they need, and that care is taken to prevent the over-eating of corn in warm weather. Whole corn is both fed shelled and on the ear.

VEHICLES

COLUMBIA.
The old reliable buggy. We have them at all times. We also have other good new and second-hand buggies.
PIPE & MILLER,

FIFTEEN TO GRADUATE

Eleventh Annual Commencement of Veterinary College This Month

GRAND RAPIDS, Mich., March 18.—The eleventh annual commencement exercises of the Grand Rapids Veterinary College of Michigan will be held in the college auditorium on Thursday evening, March 26, 1908.

A class of fifteen young men will be graduated, receiving the degree of doctor of veterinary medicine, and will go forth to devote their best efforts to relieve the suffering of man's best friends.

A very entertaining program has been arranged for the occasion, consisting of music by the Wursburg orchestra, and addresses by George E. Ellis, mayor of the city, and Colon C. Lillie of Coopersville, Michigan's food and dairy inspector, and others. The present year has been one of the most prosperous for the college since its organization, the enrollment reaching beyond the 100 mark, students coming from all parts of the United States, Canada, Cuba and Australia.

The alumni of the college will also meet Thursday afternoon between the hours of 2 and 4 o'clock, when several papers will be read and discussed upon subjects of vital interest to the veterinary profession. It is also the desire of the graduating class to have a few clinics for demonstration and entertainment of visiting veterinarians.

When fed shelled it should be fed in deep litter, so that it may be eaten slowly with exercise. Fed on the ear it may be thrown into the poultry runs for the fowls to peck off the cob. This gives them work and amusement and makes them eat slowly.

Mixed Chop—Is corn and oats equal parts ground together into a corn meal. It is excellent.

Oats—Oats makes an excellent poultry feed if of good quality. It is very important to know the quality, for the husks are so big they conceal the size of the kernels. The best way is to hull a few sample grains before buying. Oats steamed, scalded or cooked are one of the best egg-making foods that can be given. Cooked, they are readily eaten by the fowls and are a good substitute for the mash.

Hulled Oats—Are oats with the coarse, fibrous hull removed; they are a by-product of the mill in making oatmeal. They make an excellent food for fowls, both young and old. They contain a large proportion of protein and if freely fed to growing chicks will make large sturdy frames.

Oatmeal—Pinhead or "C" oatmeal and rolled breakfast oats are somewhat costly foods, but are fed to great advantage to young chicks. No other food makes the bone and muscle develop as do these prepared oats.

Barley—Is a very wholesome food for poultry. It should be fed rolled or crushed, as the fowls do not like the sharp points of the hulls. It comes next to wheat in its value for feeding. Scalded and allowed to steam for a few hours, it makes an excellent substitute for mash and is greedily eaten by the fowls.

Rye—Is the least desirable of all grains for poultry feeding. For some reason the fowls do not care for it, and will seldom eat it if other food is to be had. It ranks in food value between barley and corn. It is used largely for food in some parts of Europe and occasionally in this country.

Buckwheat—There are two varieties of buckwheat, the common black and the pearl or silver skin buckwheat. The last is most desirable in poultry feeding, as the fowls seem to prefer it greatly. It is much liked by pheasants; they will flock to the buckwheat fields in preference to better grain fields.

Sorghum Seed and Small Seeds—Sorghum seed, chicken corn, Kaffir corn, Milo maize, Egyptian corn, broom corn seed and millet are all small grains, and make good poultry foods. When fed in the litter they are excellent to compel exercise. They are particularly valuable for poultry keepers in dry regions, who grow their own poultry grains.

Meat or Animal Foods—Beef scraps, dried blood, animal meal, pork scraps and lard cracklings are all used as poultry foods. The best of these is good, pure, dried, ground beef scraps. An excess of animal blood in a ration causes digestive trouble, and if long continued brings on liver complaint. Green or fresh bone makes a good meat ration. It must be fed carefully, as there is danger of over-feeding; also it must be perfectly fresh and un-

tainted. Raw lean beef is a good animal food, if it can be had cheaply. In feeding uncooked fresh meats it is very important that they should be perfectly fresh and untainted and that no so-called preservatives have been used on them.

MAKE BIG SALES OF SHORTHORNS SATURDAY

The Shorthorn sale Saturday afternoon opened at 2:20 p. m. George Bellows, Maryville, Mo., was auctioneer. Sales:

Wise Cup, red bull, calved June 17, 1905, bred by Lewis A. Hightower, Smithfield, Texas, owned by George W. Short, Decatur, Texas, sold to J. W. Finnall, Stony, Texas, for \$100.

Princeton, red bull, calved February, 1907, bred by R. E. and J. A. Edmonson, Gibtown, Texas, contributed by owners; sold to W. P. Stewart, Jacksboro, Texas, for \$75.

Victoria Anna VII, red cow, calved March, 1906, bred and owned by J. F. Hovenkamp, Fort Worth, contributed by owner; sold to Morris Brown, Smithfield, Texas, for \$425.

Rose Strathhallan II, red cow, calved December, 1906, bred and owned by David Harrell, Liberty Hill, Texas; sold to Frank Scofield, Hillsboro, Texas, for \$150.

Mercedes, red cow, calved September, 1906, bred and contributed by J. F. Rhea, Lawn, Texas; sold to John Burgess, Lawn, Texas, for \$155.

Seraph King, red bull, calved February, 1905, contributed by V. Hildreth, Aledo, Texas; sold to Tom Waggoner, Decatur, Texas, for \$180.

Prince Albert, bull, sold to L. F. Wilson, Wichita Falls, Texas, for \$157.50.

On-the-Dot, roan bull, calved February, 1906, bred by H. Smoot, Denton, Texas, contributed by W. E. Smott, Justin, Texas; sold by L. F. Wilson, Wichita Falls, Texas, for \$75.

Red Rose, red cow, calved December, 1905, bred and contributed by W. E. Smoot, Justin, Texas; sold to W. H. Alfrey, Godley, Texas, for \$37.50.

Travis, red bull, calved September, 1906, bred and owned by R. L. Payne, Cleburne, Texas; sold to L. F. Wilson, Wichita Falls, Texas, for \$75.

Dayton, red bull, calved April, 1906, bred and contributed by H. C. Odle, Meridian, Texas; sold to L. F. Wilson, Wichita Falls, Texas, for \$167.50.

Twin Oak Duke, red bull, calved September, 1906, bred and owned by J. C. Washington, Marietta, Okla.; sold to Tom Waggoner, Decatur, Texas, for \$200.

Bon Ton, red bull, calved August, 1906, bred and owned by J. W. Williams, Fort Worth; sold to L. F. Wilson, Wichita Falls, Texas.

Red Butterfly, red cow, calved March, 1907, bred and owned by Stuart Harrison, Fort Worth; sold to C. A. Winborn, Cache, Okla., for \$45.

Royal Boy, red bull; sold to L. B. Brown, Smithfield, Texas, for \$95.

Diamond King Butterfly, bull, sold to J. F. Rhea, Lawn, Texas, for \$750.

Single Steer Sales

Single steer sales Saturday after-

Weekly Review Livestock Market

In view of the fact that only small supplies were wanted, and it was announced thru the papers that it would be unwise to ship many cattle to market during the National Feeders and Breeders' Show, the offering for the week has been large. Receipts of grown cattle show an increase of 2,312 head as compared with the run of a week ago, and calves show an increase of 193 head.

Buyers from two northern markets made their appearance early in the week, and as they are clamoring for grass steers, unusually good conditions have prevailed in the grass department of the trade. Local packers, however, have been the shippers' friend and handled two of the largest runs of the year in a most surprising manner, advancing the market 10 to 20 cents without any outside competition to speak of. Cows have been in good request, best grades being strong to a shade higher than a week ago, with canners and other grades 10 cents higher. Bulls are selling freely and prices for the week are strong to a shade higher. Calves, with the exception of dogie kinds, have shared in an advance of about 25 cents. New Orleans buyers boosting up the market.

Steers—Very few steers arrived during the week, grassers now being the center of attraction. Northern buyers are here, and altho their purchases were heavy only one or two days, they have already shown that they mean business, and commission men are looking forward to a continuation of present good conditions unless runs become too heavy. Monday and Tuesday about 150 car loads of steers were yarded, Tuesday's supply of eighty-five car loads being the largest of the year. This was followed with a fifty-car drag Wednesday, and enough loads arrived Thursday and Friday to place the total number of shipments well above those for any other week this season. Despite these conditions, however, the trade has taken care of everything nicely at an advance of 10 to 20 cents, placing the market on the best level of the year. Best grade steers sold Tuesday and Wednesday at \$5, choice heavy loads commanding that price, and several loads have crossed the scales at \$4.75, with two long strings at \$4.60. Cornfed beefs are quoted at \$4.70 to \$5.75, the nothing worth more than \$5.50 was shown during the week. Best meal cattle are bringing \$4.60 to \$4.85.

Feeders and Stockers—All feeding steers of killing qualities have been gobbled up by packers, and as a result outsiders looking for something to feed have been up against a hard market. In fact, receipts of stockers and feeders are very light, hardly enough arriving to give the market a thro test. The demand is good for a limited number.

Cows—Altho cows have not been as popular as steers, they have been disposed of under highly satisfactory conditions, the market being strong to higher on best grades and 10 cents better on canners than a week ago. Receipts have not been large, and with the exception of Friday and Saturday everything offered has been snapped up early. No strictly choice cows in

car loads have been offered, but small drafts have sold as high as \$4.65, with heifers at \$5. Car load lots have sold largely around \$3.40 to \$3.65, with medium to fairly good kinds at \$2.90 to \$3.25.

Bulls—A fair run of bulls arrived and sold on a steady to higher basis, some sales being 10 cents better than a week ago. A strong request prevails for fed grades, and all such are first to move.

Calves—New Orleans buyers have been strong competitors thruout the week, and heavy stuff has found ready sale at an advance of 25 cents. Dogie calves are still slow sale at hard prices. Quotations for the most desirable grades are largely around \$4.50 to \$5.

LATE AWARDS

CATTLE

Red Polled

Class 13, Section 12: Best bull 2 years old and under 3—First prize, \$15, Banker, W. R. Clifton, Waco, Texas; second, \$10, George Gilbert, Howell Brothers, Bryan, Texas.

Class 13, Section 3: Best bull 1 year old and under—First prize, \$15, Cartwright, W. H. Clifton, Waco, Texas; second, \$10, Summer, W. R. Clifton, Waco, Texas; third, \$5, Dr. Boll, Howell Brothers, Bryan, Texas.

Class 13, Section 5: Best cow, 3 years old and over—First prize, \$15, Mayflower, W. R. Clifton, Waco, Texas; second, \$10, Milkmaid, W. C. McKemy, Renner, Texas.

Class 13, Section 6: Best cow, 2 years old and under 3—First prize, \$15, Mina, W. R. Clifton, Waco, Texas; second, \$10, Winnie, W. C. McKemy, Renner, Texas; third, \$5, Apple Blossom, W. M. Glidwell, Finis, Texas.

Class 13, Section 7: Best heifer calf, 1 year old and under 2: First prize, \$15, Bernhardt, W. R. Clifton, Waco, Texas; second, \$10, Nellie, W. R. Clifton, Waco, Texas; third, \$5, Mary, W. C. McKemy, Renner, Texas.

Class 13, Section 8: Best heifer calf under 1 year old—First prize, \$15, Laura, W. R. Clifton, Waco, Texas; second, \$10, Mary Motz, W. R. Clifton, Waco, Texas; third, \$5, Mandy, W. C. McKemy, Renner, Texas.

Class 13, Section 9—Aged herd, best bull, 2 years old and over, best cow 3 years old and over, best cow 2 years old and under 3, best heifer 1 year old and over, best heifer calf—Prize \$15, W. R. Clifton, Waco, Texas. Bull, Banker; cows, Mayflower, Nina, Bernhardt and Laura.

Class 13, Section 10: Young herd, bull under 2 years, two yearling heifers, two heifer calves, all but bull to be bred by exhibitor—First prize, \$15, W. R. Clifton, Waco, Texas; second, \$10, C. McKemy, Renner, Texas.

Class 13, Section 11: Best four get of one bull—First prize, \$15, W. R. Clifton, Waco, Texas; second, \$10, W.

Blacklegoids
Simplest, Safest, Surest Vaccination
for the prevention of
BLACKLEG IN CATTLE
NO DOSE TO MEASURE. NO LIQUID TO SPILL. NO STRING TO ROT.
Just a little pill to be placed under the skin of the animal by a single thrust of the instrument. You cannot afford to let your cattle die of blackleg when a few dollars spent on Blacklegoids will save them. Write for circular.
PARKE, DAVIS & COMPANY
HOME OFFICES AND LABORATORIES, DETROIT, MICH.
NOTICE.—For a limited time we will give to any stockman an injector free with his first purchase of 100 vaccinations.

Tools of Accuracy
Tools for the workshop, farm or home must be tools of accuracy. A Plane, for instance, to smooth a board properly must have a keen blade, carefully adjusted—its surface must be true and it must fit the hand.
KEEN KUTTER
Tools and Cutlery
are tools of accuracy. Every ounce of weight, every line, every handle, every blade is carefully adjusted, balanced and tested before leaving the factory. The trademark on each guarantees it to be satisfactory or money refunded.
The name Keen Kutter includes Carpenters' Tools, Farm and Garden Tools, Scissors and Shears, Pocket-knives and Table Cutlery.
If not at your dealer's, write us.
SIMMONS HARDWARE COMPANY (Inc.), St. Louis and New York, U. S. A.

C. McKamy, Renner, Texas.
Class 13, Section 12: Best two produce of one cow—First prize, \$15, W. R. Clifton, Waco, Texas; second, \$10, Howell Brothers, Bryan, Texas.
Class 13, Section 13: Senior champion bull—Prize \$10, Banker, W. R. Clifton, Waco, Texas.
Class 13, Section 14: Junior champion bull—Prize \$10, Cartwright, W. R. Clifton, Waco, Texas.
Class 13, Section 15: Grand champion bull—Prize \$10, Banker, W. R. Clifton, Waco, Texas.
Class 13, Section 16: Senior champion cow—Prize \$10, Mayflower, W. R. Clifton, Waco, Texas.
Class 13, Section 17: Junior champion cow—Prize \$10, Bernhardt, W. R. Clifton, Waco, Texas.
Class 13, Section 18: Grand champion cow—Mayflower, W. R. Clifton, Waco, Texas.

PRIZES FOR HOLBERT

Three Champions, Five First and One Second, Captured
Represented for the first time at a fat stock show or a horse show in Fort Worth, A. B. Holbert & Sons of Greely, Iowa, and Fort Worth, with seven blooded horses entered, carried off three champion prizes, five first prizes and one second prize. Many

who saw these horses declared that they were the best lot ever brought to Texas at one time and that with them others just as good would follow to this state as fast as the demand required them.
In the sweepstakes class, Professor W. J. Kennedy, expert horse judge and one of the judges at the horse show closing last week, declared that Forban, the 2-year-old Percheron entered by Mr. Holbert, was as good any shown in the Paris horse show in 1907. Of this animal Professor Kennedy said:
"He has an exceptionally good body conforming to the ideal type, and if he had a little more bone and a better sized foot the would rank up to the top at any American show. With such horses as these to breed from, the farmers of Texas should soon be able to produce draft horses equal to any in America. It is a most encouraging exhibit and there can be no question of the future if intelligent breeding is done with such sires as are typified in the horses in this competition."
Mr. Kennedy's praise for the display made by the coach horses was unstinted. Rittmeister, owned by A. B. Holbert & Sons, the grand champion in this competition, was lauded as one of the very highest type.

OUR BEST ATTENTION
Everything of a banking nature entrusted to our care receives our best attention. We shall be glad to have a share of your business.

Dairying, Hog Growing, Poultry Producing AND Sheep Raising
Are the Most Profitable Industries in the World and the Best Adapted Industries in the Amarillo Country of Any Country in the United States.
Go and See With Your Own Eyes
We now offer the L. X. lands for sale to stock farmers in tracts to suit the purchaser, on good terms. We expect as soon as reasonably possible to put a demonstration stock farming colony on these lands, demonstrating what combined farming by combining dairying, hog growing, poultry producing and sheep raising can do in the Amarillo country; demonstrating the possibilities along these lines of the Amarillo country, which we think is the best adapted for the foregoing industries in the United States, which are the most profitable in the United States.
We would advise homeseekers to go up to the Amarillo country and look over our lands and take plenty of time to investigate what we say and inquire of stock people, who have been in that country and have made a success of it, what they think of our proposition before investigating elsewhere.
These lands are near Amarillo, Texas, a city of about 12,000 people, and has three trunk lines of railroad. Amarillo, Texas, is the wonder of the Southwest.
For further information, address E. A. (Pat) Paffrath, lock box No. 62, Fort Worth, Texas, or either Mr. R. S. Allen or George L. Woodward of Electra, Texas, or see Mr. J. H. Avery, our local representative at Amarillo, Texas.
Cut this out and file for future reference.
If you want to buy or sell land or cattle on either side of the quarantine line, it is to your interest to see E. A. (Pat) Paffrath before doing so. It's no trouble for Pat Paffrath to answer either questions or letters.

Here's Leedale's Lad, Grand Champion Steer of the Show

Hereford, Owned and Bred by Lee Brothers of San Angelo, Texas. Age 2 years; Weight 1,580 Pounds.

LIVE STOCK GOSSIP

John A. Brown, a Granbury stockman, was a visitor at the show.

F. H. Marks of Jack county is a visitor of the show.

L. A. Cox of Celina, a breeder of Berkshire hogs, was a visitor at the show.

W. H. Montgomery of Ozona was an early arrival Wednesday. He reports dry weather, but not enough to cause serious damage.

Burk Burnett said: "We have the building, we have the show, cattle, horses, sheep, hogs, chickens and all. Now give us the people for the patronage and we'll die content."

Cox's Five Million Club band comes in for much praise. The band is big enough to fill the coliseum with melody and the arched roof softens the music without re-echoing it.

J. G. Carpenter of Paris is a short-horn exhibitor at the show. "In our section," said Mr. Carpenter, "the

MUSIC STUDENTS

Should Have Steady Nerves

The nervous system of the musician is often very sensitive and any habit like coffee drinking may so upset the nerves as to make regular and necessary daily practice next to impossible.

"I practise from seven to eight hours a day and study harmony two hours," writes a Mich. music student. "Last September I was so nervous I could only practise a few minutes at a time and mother said I would have to drop my music for a year.

"This was terribly discouraging as I couldn't bear the thought of losing a whole year of study. Becoming convinced that my nervousness was caused largely by coffee, and seeing Postum so highly spoken of, I decided I would test it for a while.

"Mother followed the directions carefully and I thought I had never tasted such a delicious drink. We drank Postum every morning instead of coffee, and by November I felt more like myself than for years, and was ready to resume my music.

"I now practise as usual, do my studying and when my day's work is finished I am not any more nervous than when I began.

"I cannot too highly recommend Postum to musicians who practise half a day. My father is a physician and recommends Postum to his patients. Words cannot express my appreciation for this most valuable health beverage, and experience has proven its superiority over all others." "There's a

farmers are well up with their work. Plowing was all done before the last rain came and the ground is ready for planting crops."

On the main floor of the coliseum the Crescent Chemical Company has the only demonstration exhibit, but there are scores of other concessions around the grounds. The Telegram is the only newspaper having headquarters at the show.

R. H. Weller of Musquiz, Coahuila, is a visitor at the Fat Stock Show for the first time. Mr. Weller was formerly of Kansas City, but for the last fourteen years he has been engaged in the live stock business in Mexico. He has fourteen pastures and besides 7,500 head of cattle is raising fine horses and mules.

Frank Good of Sparenberg, Texas, is a fortunate exhibitor for a first-time visitor. Mr. Good took fifth place Wednesday with his junior Hereford bull calf, aged 11 months and 8 days. It weighed 970 pounds, and by many was thought to be nearly tied with the prize winner. The taking fifth place, Mr. Good was beaten by only two exhibitors, M. Hovenkamp and W. & S. Ikard. He feels well satisfied with the results since his entry was up against thirty-four other head of registered stuff.

I. B. Cobble of Big Springs is a visitor at the show and has a steer calf that weighs 840 pounds at 11 months. Mr. Cobble ranches nine miles southwest of Big Springs and brought in the calf to show what could be done with a range product which has been fed only four months. It is a cross Hereford and Durham.

W. E. Oliver of Kansas City, who won first prize for a coach team at Wednesday night's horse show, said: "The building here and the show are away beyond our expectations. The Coliseum is in many respects superior to Convention Hall, Kansas City, notably because of its imposing entrance, its lighting and its accessibility. We are more than glad we came."

W. T. Hudson of Haskell is here for the show. Mr. Hudson had on Tuesday's market two carloads of fine, fat, young bulls, which averaged 1,400 and sold at \$3.65, topping the bull market for thus far in 1908. They were meal-fed and in prime condition, fetching better than \$50 apiece. "Our country is settling up fast, mostly with people from central and eastern Texas. Land is selling at from \$25 to \$35 an acre. We got a little of the last rain and we had enough moisture before that so we are in fine shape. I am feeding five or six carloads of stuff, mostly bulls, and they came thru in good condition."

It is not the number of your friends but the kind that counts.

CRESCENT CHEMICAL COMPANY

Manufacturers of Crescent Stock Food, Crescent Poultry Food, Crescent Antiseptic, Crescent Disinfectant, Crescent Stock Dip, Crescent Bedbug and Insect Exterminator, Crescent Disinfectant Balls, Crescent Screw Worm Killer. Crescent Stock Food is the greatest digester and conditioner on the market.

The dealer takes no risk in selling these goods and the consumer takes no risk in buying them as each article is guaranteed to give satisfaction to the consumer.

CRESCENT CHEMICAL CO., Fort Worth, Texas.

Paffrath Back From Panhandle

E. A. (Pat) Paffrath, when seen Wednesday, said: "I have just returned from a three weeks' trip in the Panhandle. There are immigrants coming to the Panhandle and many of them on excursion trains, on regular trains and in covered wagons. There is a fine season in the ground and winter wheat is looking fine and the people are putting in a large spring wheat and oat crop.

"Steers and land are selling higher in that country than they did a year ago and a great deal of land is changing hands in small tracts.

"Colonel S. T. Bugsbee of Clarendon sold 640 acres of land to a gentleman from Iowa for dairying purposes at \$25 an acre. Mr. J. C. Colson of Trinidad, Colo., who is very extensively engaged in sugar beet industry in the Sun Flower Valley of Colorado, is in Amarillo country and is very much enthused and in his opinion sugar beets can successfully be grown in the Amarillo country. A great many sugar beets are going to be planted thruout the Amarillo country, which will no doubt result in a greater sugar beet factory being built in Amarillo.

"The people of the Panhandle are organizing gin clubs for the purpose of encouraging the growth of cotton in the Panhandle. Claude and Tullia having the honor of being the first two towns who have organized. Tucumcari, N. M., this year grew a great deal of cotton and it is said there will be 10,000 acres of cotton put in there this year. A great deal of cotton was raised in the Plainview country south of there last year. A great deal of cotton is raised northeast of Amarillo on the Santa Fe away into Oklahoma. Also a great deal of cotton is raised on the Choctaw east of Amarillo into Oklahoma, all of which would be tributary to Amarillo, and there are parties now figuring to establish a \$100,000 cotton seed oil mill at Amarillo. There was organized last week at Amarillo

\$150,000 packing company, which electrified the entire Panhandle country with enthusiasm. The people of the Panhandle want a packing house and want one badly, because in the last few years they have had a great deal of trouble in getting cars to ship their cattle and hogs to market and even after they did get cars they were so long delayed in getting to market that their stock was badly damaged in the way of shrinkage and bruising, all of which will be overcome to the profit of the farmers by building a packery at Amarillo, which is well understood by the farming community of the Panhandle and for that reason has electrified them with enthusiasm.

Fair Association Formed

"There was also a \$50,000 fair association organized in Amarillo last week to offer premiums on everything that can be grown agriculturally or in live stock in the Panhandle. This will go far toward acquainting the people of the Amarillo country with the possibilities of their own country, and will show them the way to get the best results. They also organized a \$20,000 amusement company, which carries with it a Chautauqua, at Amarillo last week, and the Palo Duro National Park Association is showing much activity.

"R. A. Morris, who last year bought the Roe steers at three year old, has contracted the aforesaid steers lately to be delivered to Kansas people. One lot of 1,400 at \$39, another lot of 2,000 at \$39. These are good cattle, but these prices are from one to three dollars higher than the same cattle would have brought last year and shows to the country that the Amarillo people are going some. They believe in doing things and doing them now, with a pay car move on them, and no mistake about it.

"The representatives of the Kansas, Oklahoma and Southwestern railroad will be in Amarillo viewing the way from Garden City, Kan., to Amarillo the latter part of this week or early part of next week.

"The Panhandle Cattle Raisers' Association will meet April 21, 22 and 23 at Amarillo."
