## A WORD TO CLAY COUNTY CITIZENS:

Back in March, 1933, when President Franklin Delano Roosevelt was inaugurated President of the United States, none will deny that our county was in a terrible state of affairs.

Surrounding himself with a cabinet composed of some of the best minds in the whole country, which cabinet included the Honorable James A. Farley, whom he selected at that time as his Postmaster General, and who had served and is still serving as chairman of the Democratic National Committee, and who had piloted him through a most successful campaign, President Roosevelt began the rebuilding and rehabilitating of our people and their greatly run-down industrial condition.

That he has been successful in this effort none will deny. He has aided every business from the banks and railroads to the humblest citizens, through his New Deal program.

In accomplishing this great task our President was aided by a majority of Congress, and this was made possible by those members of Congress who supported every measure he offered to carry his program to the successful stage it has reached.

Among those who stood by President Roosevelt and who supported his entire program was our own Congressman, W. D. McFarlane, and Mr. McFarlane will continue to support and uphold him in his great humanitarian task. We would prove ungrateful, indeed, did we not ask our friends throughout Clay County to vote for Mr. McFarlane on tomorrow, Saturday, July 25th, and thus show by your vote that his work in behalf of our people in not only Clay County, but in the whole of District 13, was fully appreciated and thus rewarded. Mr. McFarlane has proven the faith,—and now it is time for our citizens to show they have not failed to recognize his work in our behalf.

Mr. McFarlane will appreciate your vote tomorrow, and he assures every citizen of Clay County and the entire 13th District he will continue to serve them faithfully and well.

**Q.** Did the original old-age pension law provide \$30.00 for all eligible applicants over 65 years of age the state to provide \$15.00 and the Federal Government \$15.00? M. K. Gonzales.

**A.** The "original law" is the law now in force. It provides for payments not to exceed the sums mentioned in your question, the amount to be based on the need of applicants. This need and the amount to be paid are determined by those who administer the law.

**Q.** When and where was the first Democratic Convention held in Texas? A. P. Anderson.

**A.** It was held Feb. 21, 1848, at Austin, to select delegates to the National convention at Baltimore. Thirty-five counties were represented and the delegates supported General Cass of Michigan for president, who received in the November election 10,068 votes, General Taylor, the Whig candidate getting 4,509.

**Q.** Can any amendment to a Texas bill or law change its original

purpose? M. K. Gonzales.

**A.** Subsequent legislation repeals or revokes any part of a previous law in conflict with it. Consult a lawyer.

**Q.** Can the old age pension law be changed so as to give one person more than another? M. K. Gonzales.

**A.** The present law is an "old-age disability law" and not a pension law. It provides for disability payments based on the needs of applicants. The same authority that creates a law can change it.

Every man, woman and child in Texas should know the principal events of the momentous period of Texas history from March 1 to April 21, 1836 — events that changed the shape and the destiny of the United States.

The facts essential to this understanding are briefly set forth in a 32 page booklet entitled "Texas Empire Builders of '36," telling of the stirring days which all Texans, native and adopted, are celebrating in 1936.

**Modern Gas Cookery**  
**RETAINS VALUABLE VITAMINS AND MINERAL OILS**

Vigorous boiling in lots of water destroys the valuable vitamin and mineral content of fresh vegetables. The thoughtful woman wants to retain these health-giving elements. The controlled boiling heat provided by the modern gas range does not rapidly evaporate water when boiling vegetables. Mothers can serve more healthful food by following this simple method of modern gas cookery:

1. No special pot or pan is required for semi-waterless cooking on modern gas range. Place vegetables in ordinary utensil and cover with about one-half inch water.

2. Place covered pan over simmer burner. Turn to fast heat. When boiling starts turn to simmering heat which maintains gentle boiling action until vegetables are cooked.

3. After cooking is completed nearly as much liquid remains as was originally put into vessel, and there is no loss of valuable mineral oils or vitamins.

4. Gas simmer cookery is clean and labor saving. It means cooler cooking and a cleaner kitchen for little steam escapes from a covered pot of gently boiling vegetables.

### M. J. Maxey, Clay County Pioneer Dies

—The Clay County Leader

Many of Henrietta's old-timers will be saddened to learn of the recent death of Melville Jackson Maxey who came to Clay County from Illinois more than sixty years ago.

Death came to Mr. Maxey on June 22 after a three month's illness in San Antonio where he was visiting a sister when he was stricken. His family home in Oceanside, San Diego County, California. Had he survived another day, he would have reached his 72nd birthday.

As Mr. Maxey's illness became more serious, his wife and daughters were summoned from California and were present when the end came. With Mr. Maxey's remains, the bereaved family then departed for their home in Oceanside, where on June 26 services were held among the friends and surroundings where he had lived so long.

Mr. Maxey was born in Rome, Illinois on June 23, 1864 and came by wagon train with his parents in 1876 to settle in Henrietta. It was here that he met and married Leona May Bicknell in 1891. known as Indian territory, but because of his wife's health they moved to California a year later where they have since made their home. He was known as one of the foremost stockmen of the southern part of the state where he dealt in stock raising, shipping and farm lands.

Known always for his philosophical views on life's problems, Mr. Maxey was endeared to both young and old. His opinions were often candid, but always given with the object of helping a fellow man and his treasured friendliness is indeed a great loss to those who knew him.

Besides the widow, Mr. Maxey is survived by two daughters, Mrs. Ruth Witman and Mrs. Joy Barnard, and three grandchildren, all of Oceanside, California.

## McFarlane Represents The Common People

Hon. W. D. McFarlane has served with distinction as your Congressman. I have not known of a congressman from this district who has been in the public eye and accomplished as much for his people as W. D. McFarlane. With a record of this kind why should he not be re-elected.

Some of his accomplishments are: The Lindbergh Anti-Kidnaping bill, sponsored and put over by him in Congress as the result of seven thousand letters written over the United States asking people to write their Congressman to support the bill; a support of the bill which guarantees that you will not lose your money in a bank if the bank goes broke; the Frazier-Lemke bill, providing for 1 1-2 per cent interest to farmers; the anti-holding Company bill; the bill against a consolidated income tax return, making the corporations pay three hundred million dollars more income tax per year; the investigation of the air mail fraud, resulting in the cancellation of all air mail contracts; the naval purchase frauds resulting in a shake up among Navy Officials; the old age pension law, effective January 1st; many laws protecting labor and providing for social security; the Home Owners' Loan Corporation Law, saving seventeen thousand homes that were about to be lost; payment of the soldiers bonus; and many other beneficial acts of Congress.

Mr. McFarlane represents the common people and the little merchant against the big chain, as evidenced by his bill providing against price discrimination in favor of the big purchaser, and resulting in fairer prices to the public.

As a matter of reason, no candidates in the race has a clearer or better record as a democrat than W. D. McFarlane, and some of them do not have as good.

No good reason has been given why this estimable public servant should be taken away from his work and without a good reason we ask that he be returned to his labor, and he will appreciate your vote on July 25th for Congressman from the 13th District.

Very Sincerely Yours,  
DONLEY SUDDATH

Messrs. Max Miller, L. C. Nuneley, T. B. and S. E. O'Bryan were in Wichita Falls Monday night and heard Congressman W. D. McFarlane speak. About 1800 people

were present at the speaking, and it is said the Congressman made one of the best speeches he has made during the entire campaign. The crowd seemed to be very enthusiastically for him.

## Notice to Voters

The duties of my office, coupled with circumstances beyond my control, have rendered it impossible for me to see and talk with each of you personally in my campaign for sheriff of Clay County. I am very sorry that such has been the case, and I take this means once more to solicit your support and to express my appreciation.

I am running for a second term. Since I assumed the duties of the office of sheriff of Clay County I have tried in every way to make you a real hand and to get the job done. I trust I may be permitted to say frankly that I believe my administration, both personally and through my deputies, has been reasonably satisfactory. I base that statement upon the comment of the citizenship of Clay County; I have no other way of knowing.

Please believe me when I say that I am truly thankful for the very generous support and co-operation given my office by the people of the county. I would like also to thank everyone for the many courtesies extended in my behalf, both personal and official.

If you feel that I am entitled, on my record, both as an officer and as a man, to a second term, then I ask you not only to vote for me but to speak a word, where convenient, in my behalf.

Most sincerely and gratefully yours,

E. P. BOMAR,  
Candidate for Sheriff.

## Home Demonstration Clubs Notes

**MISS MARGARET STEWART**  
Home Demonstration Agent

### Wardrobe Demonstrator's Story as Told by Miss Ina Russell First Place Winner.

When asked to take the work of the wardrobe demonstrator, I hesitated as I had never been a member of a demonstration club and knew nothing of the duties of a demonstrator. The fact that I might win the trip to Short Course was too great; I accepted.

The first thing I did was to go over my record book, make the inventories of the wardrobes of the five members of my family. The next thing I did was to record the purchase as each member made a purchase.

As I was a few weeks behind the other club demonstrators, and through the resignation of two other club members as demonstrators, the Home Demonstration Agent came out and helped me to make my foundation pattern.

I did not have to build storage places for any of the family, as we had done so several years ago. With the help of my mother I papered the closet in my brother's room from paper left from papering his room.

My closet is 4½ feet long by 2½ feet wide, and extends from the floor to the ceiling. I used a plain board 1 by 1 inches for the rod to hang my garments on. This rod extends the entire length of the closet. For the overhead shelves I used on one side, a plank 11½ inches wide by 32 inches in length and 1 inch in depth for my hats. I have one hat stand which I made and another which was given to me. On the other side I used two of the above planks for storing my quilts and quilt scraps. Since I use the bottom of my closet for my traveling bag and two pair of riding boots, I made a shoe bag from a yard of cretonne at 15c per yard; and tacked this bag to the door of my closet. This bag holds five pairs of shoes. Just on the inside of the closet door; from the door to the side of my closet I have nailed six strips of lumber 10 inches long by 1 inch in width which makes six other shoe racks.

I made and fitted, with the help of the County Home Demonstration Agent, nine foundation patterns for the members of the club. One club member, who is deformed in that one side of her body is much higher than the other, had to be fitted to both sides of her pattern. She has found her pattern a great help to her, and she has made three dresses from her pattern. Five of the other women have made one dress by their patterns, but none have made a slip. I had only one cooperator who entered the dress contest.

I find that I have spent, since last October, \$23.75.

The other members of my family have spent the following amounts: Father—\$10.10; mother—7.23; brother—\$18.48 (age 22) and sister—\$24.68 (age 19).

The total cost for clothing for my family is \$84.24 which is a little less than the average family; however, I have not kept my records for quite a year.

In conclusion I feel I have been greatly benefited by my work in that I have a pattern which fits and will help me by saving on material and time. It will also be economical in that I will not have to buy a pattern for each dress I make.

It is a pleasure to have a well organized space for keeping the clothing I wear.

### Demonstrator Tells Story of Her Closet

"I entered the contest for my benefit as well as thinking I might be able to help some one in the community to benefit by my experience" says Miss Faye Newton, Wardrobe Demonstrator of the Joy Home Demonstration Club. I needed a clothes closet and I realized that in entering something like the Wardrobe Contest would be the only way I would build one as I had not the building of the closet off from time to time, and used the money for something that seemed to be more important at the time. The family wardrobe hung on hangers from nails driven in the wall of the bedrooms. Of course, coats and dresses had to be hung on one another sometimes as there would not be room enough on the wall for more nails, and I could not keep the dresses looking very nice.

I built my closet of fir board as it was the best material for the money I had to put in it. The closet is 15 feet by 3 feet and 7 feet high, I used as much old lumber as I had for frames and shelves. Sides of apple boxes, were used for shelves. The fir board, varnish, hinges for two doors, and the finishing strips (1 inch wide) cost \$3.00. I made shoe racks and clothes hangers by taking them apart at the top and cutting them off the length I wanted them and mailing these to a 1 x 4 one at the top of the board and one at the bottom, and fastening these two hangers together at the corners with the pieces which were cut off to make the shoe rack steadier. I made my hat stands of ends of apple boxes by sawing the end into 4 pieces and nailing a piece of broom handle in the center of the square; on the top of the stand or broom handle I crushed tissue paper and covered this with other paper and tied over the end of broom handle which makes a nice head for the hats to rest on. Dresses. Made. From Foundation

### Pattern Have Style

"Dresses made from foundation patterns have style that other dresses do not have" says Mrs. C. E. Witte, Cooperator of the Cambridge Home Demonstration club. Mrs. Witte adds I can since we have

begun work in the County pick out all the dresses made from a foundation pattern because they fit the individual better than other dresses. Since making her pattern in April Mrs. Witte has made three dresses, and two slips by her pattern.

### HD Women and 4-H Club Girls to Attend Centennial

There will be a group of Home Demonstration Women and 4-H club girls to attend the Texas Centennial Exposition Wednesday and Thursday, July 29th and 30th. The group will leave from Henrietta at 6:30 A. M. Wednesday and return late in the afternoon of Thursday.

All girls and women who have not notified your county Home Demonstration Agent of your intentions of going with the group should do so by Saturday, July 25. Ruth Bragg, Secretary to Home Demonstration Agent will be in the office to take care of such matters.

### Quality Eggs

Summer is a bad time on egg quality unless a little care in handling the eggs is protected. The following suggestions will aid in producing quality eggs.

1. Remove all male birds from the laying house.
2. Provide clean litter in the house.
3. Wire dropping boards.
4. Keep nest litter clean (cotton seed hulls and wood shavings make excellent nest litter).
5. Supply fresh water at least twice daily.
6. Provide plenty of tender green food.
7. Allow one nest for every five hens.
8. Pen all broody hens.
9. Gather eggs each day in wire baskets.
10. Allow eggs 8 to 10 hours to cool before placing them in an egg case.
11. Hold eggs in cool room.
12. Cull eggs to remove all small, dirty or cracked eggs before marketing.

13. Market at least twice each week.

### H. D. Club Council

The Clay County Council of the Home Demonstration Clubs met in the District Courtroom Saturday, July 18th.

After the new business was completed the following committees reported: The exhibit committee plans were discussed, and the different clubs are to make the plans for their own educational exhibits. The report of the Centennial, in regard to the number planning to attend; a committee was appointed to meet the commissioner's court of summary; Miss Stewart gave a report on her work and making of mattresses.

The date for the next Council was not announced, and the meeting adjourned.

The following members were present: Mrs. A. S. Hodges, Deer Creek; Mrs. Elvin Hodge, Deer Creek; Mrs. Herbert Adams, Doss; Mrs. L. E. Anderson, Cambridge; Mrs. C. E. Witte, Cambridge; Mrs. H. J. Goss, Charlie; Mrs. S. L. Russell, Neville and Mesdames Frank and Ernest Borgman of New London.
