## Mr. Dickerson Attends Dealers Meeting In Detroit Mich.

As guest of the Ford Motor Company, L. E. Dickerson of Henrietta Motor Corporation, was in Detroit today to take part in the first general meeting of Ford dealers from all parts of the United States and Canada held with Henry Ford, founder, and Edsel Ford president, since the company was organized 33 years ago. Seven thousand dealers were expected.

Unveiling of the new Ford V-8 cars for 1937 and presentation to Henry Ford in Greenfield Village of the historic three-centuries old Cape Cod windmill which once stood at the four corners at West Yarmouth, Mass., are the high spots on the program.

The dealer meeting was scheduled to take place in the Coliseum at the State Fair grounds in Detroit. It has been transformed into a huge theatre, in which the new cars were to be presented in a spectacular setting created by Walter Dorwin Teague, noted industrial designer.

Fred Waring's Pennsylvanians, famous Ford dealer radio band, was to furnish music and entertainment prior to the new car introduction, while brief addresses were to be made by Edsel Ford, W. C. Cowling, sales director and J. R. Davis, his assistant.

This afternoon the dealers were to visit Henry Ford's Greenfield Village for a tour of the historical sights there. Later they were to make formal presentation of their gift to Henry Ford. The Old mill, moved intact from its original site on Cape Cod, was purchased by individual contributions of Ford dealers in 1934. In its Greenfield Village site, it has been reerected, just as it was when built by the Pilgrims in 1633.

Returning to the Coliseum in the evening, the dealers were to be

### County Vote Goes 11 to 1 In Favor of The Democratic Party

In an unprecedented nation-wide election Tuesday, President Franklin Delano Roosevelt and V. P. John Nance Garner were given the greatest vote of confidence by the American people ever recorded in the history of the country, and in receiving this endorsement of their "New Deal" politics, these outstanding leaders of the nation were also given a "working majority" of colleagues in the working out of the nations future destiny, from the lowest to the highest offices in both county and states of the entire country.

These two outstanding leaders carried forty-six of the forty-eight states, as shown by the final analysis of the election returns from over the country, and this is the largest number of states ever carried in any past presidential election.

In expressions of gratitude for this exemplification of the will of the people, both the President and National Democratic Chairman James A. Farley made it plain that they consider it a "victory of the people," and not in any way a personal victory, and both expressed their hope that everyone will now forget the election, with its somewhat bitter feeling on the part of some, and all join together in the common purpose of making the United States a better place in which to live.

Coming over the radio the first report from Mississippi was: Roosevelt 22,000, Landon 113.

We no longer have the "Solid South," but it is now—"the solid Democratic U. S. A."

Second report from Kansas:—Roosevelt carrying Kansas over Landon.—He did, and how.

First report coming in from California: Roosevelt carrying the state on the ratio of 5 to 2.

We were glad to hear that Senators Norris and Borah were re-elected. Fine men and able senators—close friends of Roosevelt.

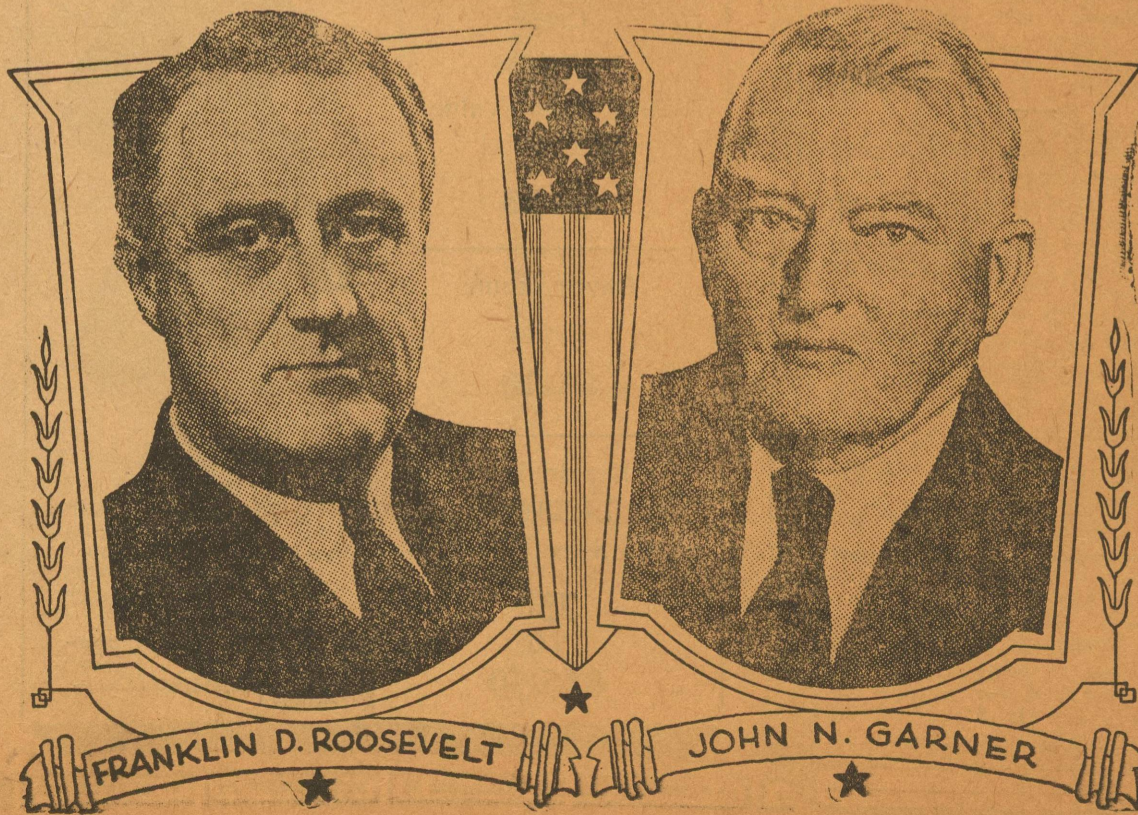

Yes, Governor Landon lost his home state by 67,531 votes.

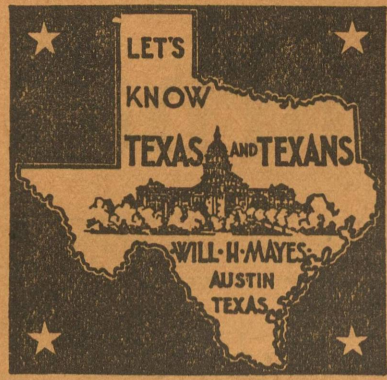

The vote in Clay county for President and Vice-President was as follows:

Democrat	2168
Republican	196
Socialist	2
Communist	3
Union	11
Prohibition	2

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquirers must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

**Q. How many and what were the Texas "municipalities" in 1836? H. H.**

A. There were 18 "municipalities" (government districts) in Texas in 1836, as follows: San Felipe de Austin, Bexar (San Antonio), Brazoria, Goliad, Gonzales Matagorda, Mina (Bastrop), Nacogdoches, San Augustine, San Patricio, Harrisburg, Jasper, Liberty, Milam, Refugio, Shelby (Tehaha), Victoria and Washington.

**Q. Who was Dr. James Grant and what was his part in early Texas history? E. D. T.**

A. He was a native of Scotland, who became a naturalized citizen of Mexico and large land holder near Parras, Coahuila. In 1835 he secured a grant to settle 800 families between the Rio Grande and the Nueces. He became embittered toward Mexico and with 40 men on the Agua Dulce 20 miles west of San Patricio, the Texans were surprised by several hundred Mexicans under Gen. Urrea, and Grant and most of his men were killed.

**Q. What was Dr. Grant's attitude toward the Independence of Texas? E. D. T.**

A. He opposed it and his attempted expedition to Mexico at the time he was killed was with a view to forcing reestablishment of the constitution of 1824, rather than resort to separation of Texas from that country.

**Q. What position did Ellis P. Bean hold in Nolan's "trading expedition" to Texas? G. S.**

A. Bean was second in command and when Nolan was killed took command and strongly opposed surrender, but yielded to pleadings of his men when the Spaniards agreed to take them to Natchez and release them, instead of which they were chained and taken to Mexican prisons.

It is hoped there will be a goodly number of files finished and exhibited by the time of achievement day. An exchange of recipes was held at this meeting also several covered dishes made to demonstrate the recipes. Several members were interested in cookies for lunchbox use. The recipes demonstrated were: corn-flake kisses; peanut butter cookies; raisin muffins; meat loaf and greens and cornbread. They were very delicious.

Members present were: Mesdames L. F. Streailey, Frank and Ernest Borgman; Misses Fannie and Mattie Vaughn; Mesdames R. R. Pope and Jesse Gore, who were visitors. Miss Stewart and Mrs. H. L. Burnside as hostess. The next meeting will be with Mrs. B. F. Oneal, November 11, with a Thanksgiving Program. Let's be 100 per cent present and have a good program.

**CANDIDATE ROOSEVELT**

Texans who voted for Franklin Delano Roosevelt this year may encounter the Roosevelt name on another ballot sooner than they anticipate. Elliot Roosevelt, son of the President, and citizen of Fort Worth, has confided to friends that he expects to live the rest of his life in Texas, and that he hopes to begin a political career here some day. He has formed a fast friendship with Gov. Allred, and greatly admires the governor's campaigning ability.

Mr. Arch Thompson spent Sunday in Ardmore, Oklahoma.

**HIS DUE SHARE**

It's a far cry from the day when the average farmer raised his produce, sold it for whatever he could and knew nothing about organization.

Today the up-to-the-minute producer belongs to an agriculture selling cooperative. His cooperative management, elected by the members helps him to better producing methods. It studies markets, existing and potential. It makes its voice heard in legislation. It bargains with distributors-not in an attempt to overly boost prices but to see to it that the farmer gets his due share of the eventual consumer price, for what he has to sell. It keeps its members informed on all manner of issues that affect agricultural welfare.

The result is that today's little farmer is in a sounder economic position than yesterday's big or little.

Go to church Sunday.

*A* **COLD**  
*caused this!*

"Colds" are dangerous! Leading doctors tell us that fifty per cent of all disabling diseases START with a "common cold." Thus the COLD GERM becomes America's Public Health Enemy Number One.

Any sudden change in temperature as you go from a warm room into a cold one disturbs the heat-regulating apparatus of the body and makes it susceptible to cold germ attacks. Even the brief time that it takes to answer the telephone in an unheated hall is sufficient. Fight against "colds." They create a condition of depressed physical vitality which is favorable to infection and aid the progress of serious organic diseases that frequently result in death.

If your home is inadequately heated . . . if you "huddle" in one room during winter, sudden temperature changes are unavoidable. Your family goes from an over-heated room where the temperature has climbed as much as ten degrees past the point necessary for comfort, into a cold hall or adjoining room; then shivering and chilled, they return to the heated room. This happens many times a day. Each time it happens they have made themselves susceptible to highly communicable winter diseases.

Fight colds this winter with proper ventilation and adequate heat IN EVERY ROOM IN THE HOME.

LONE STAR GAS SYSTEM

*The common cold germ is a constant threat to your well-being during the winter season. If you do catch cold—don't gamble; consult your family doctor before it has an opportunity to undermine your health.*

The institute of Public Opinion, as shown in The Dallas Morning News each Sunday during the past few weeks of the campaign, gave Gov. Landon three "sure" states in the race, and they were hitting the nail on the head each issue. It all goes to show that where no partisanship is shown in the results desired, the best policy is to let the people do their own voting. This poll of the pre-campaign will make this an outstanding prognosticator in future elections.

Never in the history of the United States, have the people expressed their full intentions more plainly than was the case in Tuesday's election. The fact that the "New Deal" received the majority of votes in forty-six states showed plainly that the people are not to be "carried off their feet" by any whimsical issues or the prejudiced polls of a portion of the country. The American people simply will not be led in a way they do not care to go of their own free will and accord.

Alfred E. Smith told Gov. Landon he would see that the governor had many friends among the democrats. It is true, but they must have all gone fishing on election day.

The Literary Digest surely "missed its guess" in this presidential poll. They may have been perfectly honest in their conclusions and in reaching the results they so forcibly gave out at regular intervals during the entire campaign, but we are prone to believe one of two things, regardless of what others might think in the matter, and that is that they either received a goodly sum for their work, or they are such poor business people and political leaders that we would not care to let any future suggestions they might make influence us in the least. In our opinion, The Literary Digest has digested its own future usefulness and will hereafter be just a common ordinary magazine.

## Leader Editor, Wife Visit Relatives In Louisiana-Alabama

Main Attraction of Trip Was To Visit Son Attending Marion Institute

Friday morning, Oct. 16 the Leader editor and wife left by auto for a visit with relatives in Louisiana and Alabama, the attraction in the latter state being their only son, who is attending Marion Military Institute this term.

We left home at six o'clock in the morning, stopping for breakfast at Roanoke, and lunch at Waskom, Texas. At 7:20 we drove into Vicksburg, Miss., where we spent the night in the home of Mr. and Mrs. N. W. Thayer, who own and conduct the "Abraham Lincoln Tourist Camp", in that old historical city on the Mississippi river. The camp is called by this name because of Mr. Thayer's likeness to the great emancipator, and it is most fitting for he is surely like him, both in looks as well as in hospitality. They were "full up" in the camp, but these good people gave us "the front bed room" and we surely enjoyed the fine sandwiches and hot coffee Mrs. Thayer prepared for us.

At 6:20 Saturday morning, 17th, we left for Marion, driving thru Mississippi, passing through Jackson and Meridian, as well as many other fine towns and cities. It is surely a most beautiful scenic drive through this great state. At Pelahatchie, Miss., we stopped for breakfast about nine a. m. and there we met Mr. William Bailey, leading merchant, who informed us that he, too had attended Marion Institute in boyhood days and had occupied the first room in the north barracks, at the head of the stairway. We enjoyed his acquaintance and then left for the remainder of the drive.

At 1 o'clock p. m. we drove into Marion, Ala. and as we entered the city, we noted the Institute gym, bearing the large red letters, "MI" and we then knew we were near the famous military college. When we came to the college, the 200 or more young men were then marching in formation to the mess hall for their lunch.

We soon were comfortably located at the famous Marion hotel, where Mr. and Mrs. Falstaff made us feel perfectly at home during our entire stay. Their son, Billy, and their two nephews, Messrs. Joe Falstaff and Lawrence McDaniel, who are also students at Marion, were more than kind to us and never failed to give us the benefit of their favors and hospitality at all times during our stay.

At 3:15 our son, Tom was at liberty and visited us at the Hotel. We were surely glad to again be with him, and all during the nine happy days we spent in Marion he waltz with us. And his two fine roommates Messrs. Bob Hanna of Monroe, La., and W. R. Ford of Homer La., had Sunday dinner with us along with our son and after lunch we enjoyed making pictures on the College campus and driving all over the fine little county seat city of Marion.

Marion also is the home of Judson College, an exclusive girls school supported by the Baptist church of that fine state, the college having over 250 students enrolled this term, and the two colleges are a real asset to this fine little city.

We enjoyed a visit with Postmaster Davis and his fine force, in their recently dedicated new post office building. There is a real post office home and to say they are proud of it is saying it very mildly. This force also was very kind to us during our stay.

We met county Judge Irby Pope, (they call his office Probate Judge in Ala., and he has charge of col-

lecting license fees of all kinds, probate matters, presides over and sees after every cent spent by the county commissioners court, and a thousand and one other important county functions) and Judge Pope and the writer enjoyed a drive over to Selma, where Judge Pope disposed of several bales of cotton at top market price. He drove us back to Marion through the famous Artesian Wells Belt, known thus for the number of continuously flowing fine Artesian wells. It is a section that has some of the finest producing land to be found anywhere. Judge Pope's son, William, is in business in Selma and we enjoyed meeting him.

Of course, we went around to the newspaper office, where we found the force busy printing their own fine 7-column eight page paper, as well as weekly papers for the Marion high school and the Judson college. They were a busy set. We helped their operator over a small "bump" and enjoyed looking over their fine plant. Mr. Balfour, owner, is a young man of high ambition and has surrounded himself with a fine working force.

At the college we enjoyed meeting Col. Walter Lee Murfee and Mrs. Murfee; Col. Woods in charge of the business end of the college, Continued on Page 8

Capt. Williams, Capt. Murgee, head coach, Major Hurl, and others of the famous faculty. It was our extreme pleasure each day at 12 o'clock to drive out under the large oaks and sit and watch that manly group of youngsters as they drilled for 45 minutes on the large campus and it made us feel mighty good to see our own son among the happy group.

On Sunday morning, about 10:30 the young men are called to formation and with their company officers in charge they march from the college to the church of their choice, and they come to the various churches, each group drops from the line of march. It was a beautiful sight to us, indeed.

While there, on the 23rd, we drove over to Akron, where we saw York, Ala., win a close 7-0 football game from the former high school team, Billie and Joe and Lawrence formerly lived in York and attended high school, and they were with us on this fine trip of course they enjoyed seeing "old home town" win, even if it was in the very last minute of play, when a pass was intercepted and carried for a touchdown, and the extra point was kicked.

On Monday morning, the 26th, we left bright and early after telling our son and his roommates and the other boys good-bye and good luck, driving into Shreveport, La., at 7 o'clock, where we spent two nights and left for Fort Worth at 1:40 Wednesday afternoon, spending Wednesday night with our two daughters, Mesdames Don Brown and Earl Callaway and Mr. Brown and Mr. Callaway. It was a very happy visit.

We reached home about 6 o'clock Thursday evening, tired, but happy in the thought that we had visited our son and daughters and had met some of the finest people on earth, while passing through Louisiana, Mississippi and portions of Texas and Alabama. We are now looking forward to Christmas, at which time Tom will be at home for a few days with us, and we hope to have our daughters and their husbands here with us also. Old Santa would not really know how to "act" if all members of the family aren't at home to "hang up" their sox and stockings at Christmas time!

## Miss Agnes Hanagan In Wichita Hospital

Miss Agnes Hanagan, who underwent an appendix operation in the Bethania Hospital in Wichita Falls a few days ago, is reported to be doing nicely. She was quite sick for a few days, but is doing as well as could be expected. She is still at the hospital but hopes to be able to be removed to her home here soon.

### CARD OF THANKS

We wish to thank our friends and neighbors for the beautiful floral offerings, many kind deeds and words of sympathy, during the illness and death of our son, brother and friend. We shall always hold you in grateful memory.

Mr. and Mrs. D. H. Daniels, J. W. Daniels, Mr. and Mrs. M. H. Daniels, Mrs. J. L. Davis and Mr. and Mrs. W. S. Shutt.

### LIFE CONSERVATION

Tomorrow, in Texas 331 babies will be born. But 86 of them will not live to see their first birthdays. And 73 mothers in Texas die for each 10,000 live births while 72 babies out of each 1,000 die at birth.

To cut down this appalling waste of human life, the state health department this month, in co-operation with the State Medical association, is holding thruout Texas a series of clinics, at which local physicians are instructed on latest development in pediatrics and obstetrics by leading specialists in these medical branches. By such organized campaigns, a Tennessee county cut the maternal death rate from 63 to 47 for each 10,000 live births, and Chicago, in 10 years, reduced its infant death rate from 74.7 to 40 for every 1,000 births. Texas healthers claims as much can be done in Texas thru intensive educational work.

Mr. R. R. Pope and Mr. Paul George visited the Bowie schools Monday.

Miss Essie Mae Coody spent Friday with friends in Bowie.

Miss Dorothy Householder, Lois Wantland, Marjory Howard, Letitia Ramsey, Bonnie Thompson, and Maurene Cook visited the Wichita Falls school Monday.

Jack Hayes spent the week-end at the Dallas Centennial.
