First National Bank Makes Fine Showing In December Call

Elsewhere in this issue will be found the condensed official statement of the First National Bank of Henrietta setting forth its condition as of December 31, 1938, the date the call was made by the comptroller of the currency.

A noticeable feature in this last statement is the increase of \$1,000 in the bank's surplus fund, this fund now showing \$41,000 which together with its capital stock of \$50,000 makes The First National Bank of Henrietta one of the strongest banks in this entire section.

Deposits of well over the half million mark, —\$544,348.77 to be exact,—show the bank to be enjoying a healthy growth. Undivided profits of \$389.77 are to be found, while at the same time dividends unpaid amount to \$5,000, the total amounting to \$640,738.54.

Loans and discounts total \$188,708.59, while the furniture

and close on time. We invite all of the friends who are interested in these studies to come and be with us in the courses.

I Give You Texas

By Boyce House

Profound bit of philosophy to start the day off right;

"Big fleas have little fleas that bite 'em;
And so on—ad in-fin-i-tum

Seldom is a candidate's statesmanlike grasp of important matters so swiftly justified by the logic of events as has been the case with Judge Ralph Yarborough. Last spring, when Judge Yarborough opened his campaign for Attorney General, he told of the iron industry that flourished near Rusk a generation ago and how it was crushed by monopolistic forces. Just the other day, a meeting of East Texas leaders was held and it would not be surprising to see that industry revived soon.

Chewing tobacco is something so essentially masculine that we never thought to see it touched by effeminacy. But the other day in a crossroads grocery, there was a box of "chawing"—and each plug was wrapped in cellophane! Time marches on.

Another favorite story: A negro was being pursued by a darkey who was armed with a razor. The wife of the pursued negro asked, "Wherefore is you runnin'?" He galloped around the block and as he breezed by, he yelled, "Don't stand there in the conversation; have that front gate open de next time I comes by."

Second-hand book stores are as fascinating to many people as grog shops are to a sot. Recently I found a prize in the Arcadia Book Shop on Elm St. in Dallas, which a long time friend, Gene Wagner, runs. It was a 24-year old magazine containing the original printing of one of O Henry's stories. It was one of his best, the one on which the play, "Alias Jimmy Valentine" was based. O Henry enthusiasts will be interested to learn that the tale—entitled "A Retrieved Reformation" in the complete editions—originally had the quaint-sounding title, "A Retrieved Reform."

Biggest find I've ever made though was a copy of "Myself—to Date" by Irvin S. Cobb. The book deals with the famous short story writer's days as a reporter and it was autographed. The dealer asked twenty-five cents, which was cheerfully paid. Money is no object to a book collector.

Incidentally, this chronicler worked on a newspaper in Memphis, Tenn., with Cobb's younger brother—as small and skinny as Irvin is big and fat, but alike in that each has a sense of humor. Ludicrous, intentional mispronunciation was the younger Cobb's specialty.

"Was Zilch in the World War?" someone asked. Cobb answered, "Was he in

the World War? Why, he was decorated for bravery by the French government; they gave him the Crocks de Gooks"—(Croix de Guerre).

And my uncle, who was in the Spanish-American War, always boasted that he was where the bullets were thickest—under the ammunition wagon.

Tom Cooper, Lindale editor and former legislator, has a gift for memorizing. He knows a poem, 21 stanzas long, dealing with the Hoover administration. Former Senator Bob Stuart of Fort Worth can quote a poem, nearly as lengthy, supposed to have been a speech by a one-time member of the House from Cass County. These "poems" can not be reproduced here on account of space limitations.

Anyone who has lost a close friend will read with emotion these beautiful lines from "Trail Dust," Douglas Meador's column in the Matador Tribune:

"Sometimes when my heart hurts with a particular loneliness for his voice, I can almost hear the jingle of his spurs and the hoof-beats of his sorrel pony; his saddle-leather a-popping. If the night is clear and frosty, that thin, silver dust is perhaps his course, chasing a bawling calf back to the herd on the flats of the Milky way."

Farm Committeemen Given Instruction For 1939 Farm Program

Last Wednesday morning, twenty five committeemen and employees of the Clay County Agricultural Conservation Association and the County Agent had the privilege of attending a meeting conducted by Mr. R. P. Kinsey of the State A. A. A. office at the Henrietta High School building. Mr. Kinsey explained how the 1939 farm program operates and instructed the committeemen in the method of figuring the payments that can be expected on a typical farm. Committeemen can follow the instructions given by Mr. Kinsey and assist farmers in the various communities to plan their crops so as to qualify for the maximum benefits under the farm program.

Final Report of Clay County Red Cross

The final report of the Clay County Chapter Red Cross recently completed reflects the following results.

A total of 249 memberships of \$1.00 each, one contributing member of \$5.00, and contributions of less than \$1.00 in the amount of \$9.11, making a total of \$263.11.

Last year we had a membership of 170, and collections of \$175.50.

This shows a gain of 80 members, and \$87.61 in collections. Current Roll Call collections are as follows:

Henrietta	\$111.25
Bellevue	59.60
Byers	50.00
Bluegrove	12.00
Joy	2.50
Petrolia	27.78
Total	\$263.11

While this County did not come up to the quota of 450 members it is indeed very gratifying to know that we do show a nice gain in membership as well as collections over last year.

Towns reporting no collections were — Buffalo Springs, Charliè, Shannon, Stanfield and Vashti.

It has been proven, and the people realize, that The Red

Cross is one of the most popular institutions in the entire world. It has the love and confidence of the people because it impartially relieves and prevents the suffering of all humanity regardless of race, creed or color.

In the afternoon the County Committee for 1939 composed of R. L. Brixey, Hugh Moore and I. A. Hansard met in its first session and unanimously elected R. Dee Price as Secretary and Treasurer of the Clay County A. C. A. for 1939.

The Local, also the National Red Cross wishes to extend our most sincere appreciation and thanks to each of the zone workers, and to each one that contributed, or to anyone having any part that made our Roll Call the success that it was.

Frank Bunting, Chairman,
A. L. Mallick, Roll Call chairman.

T. K. Howard, Publicity chairman.

Outline For The Years Home Demonstration And 4-H Club Work

At the beginning of the year we began taking a clothing, whole farm, or other kind of inventories to see just what we have on hand to work with. The same thing may be applied to ourselves. Do we have health, creative ability, or many other assets that may be used in next year's work? Work that makes us better citizens, better family and home members? Take an inventory and see what there is to work with, then make plans for the new year and don't be afraid to try new things.

This year in home demonstration clubs we will be working inside and outside of the house, for bedroom improvement and landscaping are our demonstrations, however, there has been squeezed in some work on foods, child development and parent education, and literary work, such as a book review and a one act play.

The girls are again working with improving poultry flocks this year. They, too, will have bedroom improvement as a demonstration. As our records now show, there are 216 women enrolled in clubs and 134 girls. With the combined efforts of us all, I am looking forward to a good club year.

Buffalo Springs 4-H Club

The Buffalo Springs 4-H club met January 3, 1939. Our president called the house to order. We had a short recreation period. Our president asked if there was any old business. Then we had new business. As our parliamentarian had moved away we had to elect a new one, we elected Gracie Johnson. Our president appointed Wilma Ruth Johnson for program chairman and Maxine Wilson as chairman of finance committee.

Miss Hayden gave an interesting talk on spring covers and pillow protectors. We all are trying to make this year the best year of club work.

Buffalo Springs H. D. Club

Buffalo Springs H. D. Club met Tuesday afternoon January 3, at the gymnasium with the president in charge.

Several minutes were spent in recreation. Roll call was answered by seven members, Mesdames J. R. Starnes, W. Edwards, Ruth Barnett, Burt Moore, McWhorter, Claud Fox, Miss Hayden and three visitors, Misses Ruth, Ila and Iva Wiltingham.

Mrs. J. R. Starnes resigned reporter. Mrs. Ruby Fox was elected as our new reporter. club voted to buy a note

book for our reporter.

Miss Hayden explained to us our new yearbooks and each member present bought one.

Miss Hayden's demonstration for the afternoon was Planning the home grounds. She gave a very interesting discussion on shrubs identification, yard inspection and plans of our yard. Lets all work together to make our club better for the year 1939.

THINK—

Just a Minute

Love, which defies concrete definition, is the greatest teacher in the world, perhaps, if we would measure in terms of attainment. Love teaches us how to be gentle. It teaches fidelity and happiness in being true.

The plainest woman blossoms as a rose, when love claims her heart. The most clumsy lout of a man attains stature and dignity when the love of a good woman blesses his life.

Love teaches us to make great sacrifices graciously, and to delight in doing so. For the one we love, we will make every effort humanly possible to attain success. No day's work is too hard, if we know that love will meet us at the corner and walk home with us in the evening.

Love does not lift the load, but it makes us strong enough to lift it. Love keeps us on the "straight and narrow" when temptation pulls at us. No song is so touching as those which comes from lips which have been kissed by love!

Yet—with all its great power as a teacher of things magic and of the greatest ecstasy life can bring, there is one thing which love cannot teach us. Love cannot teach us how to wave gaily and say "goodbye" when it is ended!

We cling to love! We fight frantically to fan flame into its dying ashes. Yet, there is nothing as dead as dead love! A dead flower drops to the warm earth and becomes food for growing flowers. A dead body is reclaimed by the great Creator for life beyond the grave. But dead love—is just dead love!

But, love does not teach us that, nor prepare us for the futile anguish of stirring about among the ashes of a dead love, frantically searching for one tiny spark from which to fan a flame! Experience teaches us that bitter lesson . . . yet—Love is a wonderful teacher, and we pity the man or woman who has not known its great ecstasy

Texas Highway Dept. In Safety Campaign

Describing work of the State Highway Department in its efforts to make Texas highways safer for all motor vehicle operators and pedestrians, Harry S. Phillips, Traffic Engineer of that Department, today called attention to the appearance of additional paint lines on highways throughout the state.

"Under a recent program all hard surfaced roads on the

state highway system have been painted with a center stripe," Mr. Phillips said. "The addition of one or two lines to the existing center stripe indicates a warning where single lines of traffic are essential."

One additional line is used on curves and hills where sight distance is restricted, the Traffic Engineer pointed out. It is placed on the right-hand side of the centerline approaching a point of short sight distance and continues to a point from which the driver is able to see at least 1,00 feet ahead.

"In certain sections of the state where the highways have limited sight distance each way, warranting single line traffic in both directions, they are painted with three stripes," Mr. Phillips said, "and motor vehicle operators should never pass another vehicle in such locations. Not only does there exist a possible chance of meeting an approaching vehicle but frequently the curvature of the road demands a slower speed."

Four-lane highways have a continuous double stripe which should never be crossed, the Traffic Engineer cautioned, and traffic should stay on the outside lane except when passing, using the inside lane for passing only.

Go to church Sunday.

CHAMBER OF COMMERCE MET MONDAY TO FORM FURTHER PLANS FOR BANQUET

The Chamber of Commerce met Monday evening at which they formed committees for the various phases of the Chamber of Commerce banquet to be held Thursday, February 16. The committee selected to secure the speaker for the evening is Judge Earl Hall, Mr. Donald Suddath, and Judge Vincent. These men are going to have a very prominent speaker. They are also planning an entirely different program from those that have been experienced at past Chamber of Commerce banquets. The program plans every promise of a very fruitful and entertaining evening. Inquiries have arrived from out-town asking the time and

place of the banquet, and the Chamber of Commerce are expecting the largest crowd that they have ever had at any previous banquet and they have, in the past, reached the 300 mark at one of their banquets.

So from that you can see that if you plan to go you had better make your plans and buy tickets as soon as possible in order that you and yours may be present at this annual banquet.

Mesdames Joe Douthitt, Jack Petro, W. I. Howard, A. V. Adkins, and Tommie Welch attended the funeral of Mrs. Rex Gates' father in Denton Friday afternoon.

JUST CRUISING

(By the Captain)

Tom Mooney waited a mighty long time, patiently, before he was able to secure his full pardon for instigating the 1916 Preparedness Day Parade bombing with which he was charged back in that year and convicted and first sentenced to be hanged, later this death sentence being commuted to life imprisonment. Mooney's friends all during these long years—22 of them last July—never faltered in their efforts to secure his freedom from the charge of which they, together with his faithful wife and mother, steadfastly believed him innocent. At that time Mooney was a leader among laborites, and at the time quite a bit of strife was witnessed between labor and capital and Mooney stood at the head of labor movements of every kind. Governor Cuthbert Olsen, who made one of his campaign planks the fact that if elected he would pardon Mooney, granted the long-time incarcerated labor leader a full and unconditional pardon, and when he was given his freedom he was greeted by thousands of admirers and laborites as well as friends from all over the country and a parade formed with Mooney at its head and passing down the same streets and thoroughfares on which the famous 1916 parade winded its way. Many will always believe Mooney guilty, while many will continue to believe he was the victim of too much money! At any rate, California has a governor at this time that delivered after he had stated plainly what he would do, and today Tom Mooney is a free man.

The Texas legislature met Tuesday at high noon in its 46th session and elected its speaker by acclamation, this being the first time the chief official of the lower house has thus been chosen. Following the election of other House and Senate officers, the two houses will spend Wednesday in joint session listening to the out-going governor's final message after which they will most likely adjourn over the week-end, as is their usual custom, in order that the speaker might name his various committees and have them ready to announce at the Monday session. After this procedure, the members of the two houses soon get down to working on other matters. However, legislatures are one branch of the several state governments that doesn't work very hard or very long at a sitting! If they were working for themselves or were "hired" to do what they will really accomplish, it would be done in less than one-third the time spent. But they aren't "hired", but are working on that \$10 per

day basis and to get thru and adjourn too quickly would lose them some of this proposed pay.

The Jackson Day banquets held throughout the entire nation Saturday night brought in quite a nice return for the national democratic executive committee as well as providing entertainment for all attending by furnishing the opportunity to hear speakers of note from every section of the country, with the president heading the speaking list. President Roosevelt's address was broadcast over a nation-wide hookup and untold millions heard him while sitting in their own homes while those at the banquet tables also were provided with this address and that of some other prominent speaker. Banquet plates were provided at prices ranging from \$1 to \$100 per plate. A portion of the funds received at each of the many banquets was to be sent to the national committee for its own use in carrying on the work of the party during this year. Many sent in donations who were unable to attend one of the banquets for various reasons.

The United States government has "cut out" selling airplanes to the Japanese government as well as providing them with other war materials since the Japanese have been using such provisions for bombing civilian populations in the various Chinese cities. With other countries busily engaged making airplanes for their own use at home, it is said that Germany is about the only country now which is in position to supply Japan with airplanes and the fuhrer isn't likely to send very many outside his own borders. War from the air will hereafter prove the most menacing of all devastating activities and it is now becoming a real race between the several most power-

ful nations to see which can and does provide the strongest aerial force. Of course, the undersea or U-boat force will also prove a real factor any time war comes, but this division will never prove as great a factor as the bombing planes. Let us hope that we are never forced into another world war, for it will prove far more destructive than was the last great war.

The regular Monday Auction Sales held at the Agricultural building are really "getting down" to business, and increases both in attendance, in livestock offered for sale, as well as in receipts from sales made are continually being recorded. Col. H. L. Hull, chief

auctioneer, is handling the pioneering in a manner more than meets with the approval of those in charge of the sales and the livestock owner.

At the meeting of the Kiwanis Club Thursday noon, final plans were made for the annual banquet of the Kiwanis Club, which time the recently elected officers will be installed. Mr. Pierre Stine and Frank B. ... are the newly elected President and Vice President respectively. Arrangements are being made to care for one of the ... crowds yet to attend such an affair. Rev. L. G. Hagard is in charge of the program. The banquet will be arranged for Thursday night, Jan. 13, in the basement of the Christian Church.
