Range Caller Reports Sales Very Good

A large crowd of buyers and visitors were present Monday at the agriculture building to witness the buying and selling of live-stock.

**P. PIERCE BROOKS WRITES
ON "MOTHER'S DAY"**

You all remember Christmas, bright lights, decorated trees, presents and all other things that go with the word Christmas. Well, turn Mother's Day into another Christmas and as the present for Mother, —bring yourself.

She will treasure your presence above all the fancy presents of Christmas. Let's make it a really true Mother's Day. A day in which Mother can enjoy herself. Now by that I don't mean a picture of Mother at the stove cooking a fine dinner for Mother's Day while you sit reading the newspaper. A day in which Mother wears herself out cooking and washing. That would not be Mother's Day, it would be your day. This would certainly be a selfish way for you to ask Mother to celebrate the day set aside for her. Mother's Day is supposed to be day of honor for Mother, not a day of Labor. She does that too many days a year. It is a day for reflection. It gives you a chance to reflect on your mistakes of past days. How many times have you come home and said you were dead tired? You went off to the living room to rest. You assume that Mother is as fresh as if she had just arisen. What has she been doing all day? Has she sat idle? No, no, a thousand times no. Her work is as tiring as yours, if not even more so. She sees few people and does the same monotonous work. You have diversions of new faces, of meeting the public. Why not share the evening toil with her? Remember that you are both tired. Why not take her out to supper? That is an idea—have Mother's Day dinner out and let Mother enjoy it as the lovely lady she is and out as a servant-woman to a thoughtless family. She will appreciate it more than you. She will have more time to see you and talk to you.

But a word of caution. There is but one day officially called Mother's Day. But what of the rest of the year? Are we going to be thoughtful of Mother on her designated day, and then resume our thoughtless ways for the rest of the year? You may come back by saying that Mother loves to work for you. True, remember, there is a certain bit of martyrhood in all Mothers. They have grown accustomed to sacrificing when we were young and helpless. That does not mean that we have to allow them to continue to do so after we are grown. Why not turn the tables and you try waiting on her awhile? Remember that a man can dry dishes and help set a table without losing too much of his masculine dignity. So let's carry the Mother's Day spirit through the entire year.

**Don't Starve the Chickens —
Feed Them**

I have lost only 3 chicks because of animals and not a single one from diseases, so I still have 71 says Roselle Medley of the Buffalo Springs 4-H Club.

Roselle has had green feed for chicks since they were very small and feels it has been helpful in preventing disease in the flock.

Joy 4-H Club

The Joy H. D. Club met Wednesday afternoon May 3, 1939 in the Methodist church. Seven members answered roll call. Songs were sung by the members. Making a lawn was discussed by our Demonstrator, Miss Hayden. Why have a lawn, the uses of a lawn, were enjoyed by all. We would love the summer more if we had a lovely cool lawn to live in. Why not make a serviceable lawn with an out-door living room that is easy on the eyes.

The club will meet next week in an all day meeting to quilt a quilt.

The Buffalo Spgs. 4-H club met May 2nd in the gym. The house was called to order by president, and we had the recreation, being the nearest meeting we would have with Miss Hayden we had a "Mother's Day" program. The clubs quartette, (Valera Fuller, Rozelle Medley, Maxine Wilson and Magie Lee Lynn,) sang, "If I Could hear

My Mother Pray Again."

Then came the roll call and was answered by "what I can see from my bedroom window." Everyone was present except two of the members, whom we missed very much. Then the minutes were read without any corrections, following which the president called for reports of committees. No old business so new business was called for. We elected a temporary-reporter, Valera Fuller. Miss Hayden also called for our County-wide meeting to be held at Henrietta on Saturday, May 13. It is for boys and girls, men and women. Every community is united in 4-H and H-D work. The community sending the largest delegation gets a prize. There being no more business so the meeting was turned over to Miss Ruby Hayden. She showed us how to fix our yard, "to plant flowers and shrubs" in it; also how to play games in the yard; also showed us pictures of flowers and trees. All she said and did referred back to "my bedroom window." The meeting was turned over to the president. We talked and explained to our new sponsor Loree Gill, how the 4-H club work was done, and what she would have to do.

Increased demand for Texas livestock for feeding and breeding purposes throughout the South has caused an acute shortage of animals for sale throughout the State.

**PUPILS MISS MCDONALD
PRAISED FOR MERIT**

Carl Berggren of the McPhail School of Minneapolis judged in the Wichita Falls unit. Mrs. C. B. McDonald entered twelve pupils who played Monday afternoon May 8th, and all twelve reached their goal by attaining a place on the honor roll for which they entered.

Each pupil is honored both on the basis of the number of pieces in his program and upon the quality of his playing. Ten numbers are required for National Honors; eight for State Honors.

Mary Lee Morris, Mattie Rae Spivey, Geraldine Thaxton and Mary Anna Watson played ten pieces creditably and won National Honors. Peggy Clark played seven pieces creditably and won State honors.

J. T. Ball, Bobby Don Brockman, Beadie Evans, Alvin Moser, Joe Edwin Fitts, Thornton Dell Campbell, Mary Lee Morris and Lewis Leeper played four pieces creditably and won district honors.

Mr. Berggren took the time to make very fine special comments on the work of each individual pupil and also the high type of teaching Mrs. McDonald is doing.

Below are some of the comments: "Mrs. McDonald, your pupils are the reflection of good instruction. All teachers do not do good work. All of your pupils are on the road to the pianists "Niravana." They have honest instruction that I am sure will lead constantly upward. I love honest work."

"You are not hurting any ones pianistic life."

"Your pupils are playing well, and there is no danger for their future."

PUBLIC SCHOOLS

By W. E. Marshall

As stated in last week's article 187 counties, representing over 3,900 school districts, applied for aid of some type. \$3,711,000 were approximated to pay the above amount to over 20,500 teachers.

On the other hand, 199 counties applied for transportation aid. Approximately \$2,250,000 were granted these counties upon their sworn applications, but only \$1,780,000 were appropriated by the Legislature to pay that amount. It is obvious that this amount was insufficient to pay more than 80% of the grants made by the State Department of Education and approved by the State Auditor.

Perhaps the greatest increase in monies requested from the Legislature is for transportation. This is accounted for by the fact that the present Equalization Law limits the amount of money which may be paid for transportation to not exceed \$1.00 per capita for each elementary child transported, and \$2.00 for each high school child transported. In practice it has developed that this amount of money is wholly inadequate to pay for the transportation of children. And in rural area where it has been attempted to pay on this basis, it is found that school busses are poorly equipped, and bus drivers woefully underpaid. Hence, in order, that the transportation aid be administered on the basis of \$2.00 per capita for all children, including both elementary and high school children.

Transportation aid is means of supporting approximately all of the transportation of school children now being carried on within the State, since in only a very few instances are school districts able to operate their own schools with

their own resources and have sufficient funds left over with which to pay for transportation. Many school districts are able to pay for teachers and normal operating cost but are wholly unable to do all of this and pay for their transportation. Many school districts are able to pay for teachers and normal operating costs, but are wholly unable to do all of this and pay for their transportation.

The average cost per child during 1937-38, including elementary students at \$1.00 per month and high school students at \$2.00 per month, was approximately \$12.00 per year. This was exceedingly low cost for the tremendous advantages which the children gained. And it must be borne in mind that daily the busses of Texas transport some 275,000 school children—and at \$2.00 per child per month the cost to the state of Texas would more than double. This does not take into consideration the fact that more than \$1,000,000 worth of the past year's transportation bills are unpaid.

The net result of this is that a conservative estimate would say that the State of Texas is paying directly for the transportation of more than 90% of all children transported with in the State. At the present time, transportation is administered by county boards of education in an effort to provide for efficiency and economy, and since transportation is not supplemented by local taxes of local school districts to any great extent, the burden on the State of Texas directly, and in view of that fact there is a provision in the law for the conservative administration of transportation which requires county boards to prove up convenience and necessity in the establishment of school bus routes.

Now, in addition to the sums appropriated for Salary and Transportation Aid, \$750,000 were ap-

propriated for each year of the biennium 1937-39 for the payment of High School Tuition. For 1937-38 there were granted \$772,630 by the State Department of Education, and approved by the State Auditor, for the payment of High School Tuition claims, but there were only \$750,000, less administration, for payment.

The local school districts must provide the schooling to transferred students until their State and County Available Funds are exhausted, and then the State, thru the Equalization Aid Division of the State Department of Education, must pay the child's tuition in most instances at the rate of \$7.50 per month per pupil. This service alone amounts to approximately \$1,000,000 yearly.

The proper system of classification of the elementary schools and the increased advantages in the county system of transportation have also provided new demands for high school tuition. The Forty-fifth Legislature opened the still further when it provided that "High School tuition of not to exceed \$2.50 per month for each high school student attending such classified or affiliated high school shall be granted pupils in consolidating aid rural high school districts composed of not less than three original districts, and whose valuation is less than \$1,500 per scholastic population, and which is assessing levying, and collecting not less than \$1.00 tax per \$100 dollar valuation, and whose salary budget shows a need, and that maintains an affiliated high school of not less than sixteen accredited units."

Thus it is evident that such a vital and far-reaching program of education in Texas, one so valua-

ble to our boys and girls, as the State Department of Education is sponsoring, calls for money.

JUST CRUISING

(By the Captain)

Sunday, May 14th is Mother's Day! Every Mother, whether still living or among those gone on, will be remembered on this day and everyone's thoughts will turn to her. Thoughts of those Mothers who have passed on will turn back the pages of time when the children were small and were trained in the ways they should live by the sainted mothers of those days. Childhood days are the happiest days of life, and they are made so by the gentle leadership of Mother. To the Mothers of today many gifts and remembrances will be presented, and it should be thus. Mothers have every reason to expect and receive the kindest treatment that can possibly be accorded them on this single day of the year,—Mother's Day!

Governor O'Daniel has finally received the O. K. by the senate on several appointments to the medical and prison boards. It is said in press reports the governor is likely to name his fourth choice for the highway chairmanship, but if he is right smart he will await adjournment of the legislature before making his fourth choice for this all-important position, for then his appointee will serve until the legislature is again called or meets in regular session in 1941.

The baccalaureate service will be held Sunday morning in the First Methodist church and a full auditorium is expected to greet the graduates of Henrietta high school on this occasion. Sunday also being Mother's Day, it will be a double-purpose occasion and service.

Departments in Austin are using tons of paper to no use. We say tons, and we mean it. Every day there is sent to the weekly newspapers of Texas, long letters, of half dozen or more pages, with requests to publish, and not fifty times out of the millions received by the newspapers, are printed, but it makes sales active for some paper manufacturing plant and a host of stenographers in the capitol. Every day there comes to the various post office dozen of letters from these departments to newspapers that have been out of existence for many years. This wanton waste should be stopped. It requires much money of the taxpayers to carry on this wasteful work. No wonder O'Daniel is growing gray, trying to figure out some way to save a little for the fellow who pays the freight.

A couple living in an attractive home on the Dallas Drive, in which they take much pride, have asked Roundabout to make some comment on thoughtlessness of many relative to wild flowers and shrubs which they seem to think common property. They returned to their home Sunday to find some nice looking people breaking large limbs of red bud on their property. They approached the couple and told them they are proud of their red bud trees and desire not to have them broken. For excuse, the intruders said they thought the trees were on the highway, whereupon they were told there is a law against taking they were told that etaoi;fat—caiet flowers on the highway—which they acknowledged knowing about, but evidently had thought they would not be apprehended.—Den-ton Record Chronicle.

A Maine farm home went up in flames, and along with it went \$450 wife raided his pockets, but oh, how much better it would have been had that man placed his money in a nearby bank, which belonged to the Federal Deposit Corporation. His money would have been protected from fire or burglary or ever bank failure. The FDIC, under the sponsorship of the Federal government guarantees the deposits in a member bank up to \$5,000 and depositors of larger amounts participate in the surplus amount after deposits of \$5,000 have been paid out. Its a mighty bad habit to leave money around the house or even carry it with you as fire or burglary may claim it.

The Germans are not permitted to crack jokes about their government as a few have found out who have been sent to concentration camps for a period of 10 years. But there is one joke which failed to be suppressed "Why does Hitler always sit in the front row at the theatre? Because that's one place where the people are behind him.

Decoration Day will be observed at Hope Cemetery, Henrietta, on Sunday, May 28th at 8 o'clock A. M. Fife Brothers, evangelists, of Los Angeles, California, will have charge of the program.

Rev. Paul J. Merrill will be Master of Ceremonies. Sponsored by Knights of Pythias Lodge No. 19.

Otis Trimmier Is Taken Back Home

Otis Y. Trimmier was born December 13, 1903, and died May 5, 1939, at the age of 35 years, 4 months and 22 days. His death occurred in a Wichita Falls hospital where he had been taken for special treatment April 27, and his body was laid to rest in the Rochester, Texas cemetery, Saturday, May 6th, in the presence of a large gathering of sorrowing relatives and friends.

Mr. Trimmier represented the Magnolia Corporation in Rochester until 1937 when he removed to Dallas, and then to Amarillo for a short while, coming to Henrietta about a year and a half ago, being a local agent for this company at the time of his sudden illness, which brought about his death.

Trimmier was a Mason, and the Masonic Order had charge of his a full Masonic funeral. Rev. Ponder, a life-long boyhood friend and chum had charge of the services which were held at the home, and assisted the Masons in their beautiful service at the grave.

Deceased is survived by his wife, Mrs. Leta Trimmier, his mother and seven brothers and one sister. He also leaves many friends to mourn his sudden passing, for Otis was a young man who made friends quickly and held their friendship by his courteous attitude towards everyone. He had not transferred his Masonic membership to the local lodge but had attended meetings regularly until his illness. He was

also a 32nd degree Scottish Rite Mason, and took active interest in all Masonic work.

Friends attending the services from Henrietta were Mr. and Mrs. L. D. Callaway, Mr. and Mrs. R. B. Boyles, and Mr. Pete Moore.
