Moody has served these five years as pastor of the First Baptist church and Sunday will hold special services at the 11 o'clock hour. Everyone is especially invited to attend since this will be an anniversary service and also Father's Day.

Revival Meeting To Close This Evening

The great city-wide revival now on the last week in the city of Henrietta, participated in by the churches, under the leadership of the Fife Bros., nationally known evangelists and radio artists, will come to a grand closing this Friday night June 16. Fife Bros. will open a similar campaign in De Leon, Tex. June 18, continuing for two weeks. It is generally conceded that the Fife Bros. have drawn consistently some of the largest crowds ever witnessed here for preaching services. The spirit of the meeting is wonderful, and the cooperation apparently perfect.

The Fife Brothers bought new and gave out 200 song books each night for the people to use in singing, and the volume of song, as well as the quality, could be heard for blocks. Many souls have been saved and quite a number will be added to the various churches, with all the churches of the city revived and inspired for new work.

Dr. Fife's subject this morning, (Friday,) will be "And They Continued Steadfastly," and his farewell sermon tonight will be, "And He Said Tomorrow."

Many Bibles were given away, and much interest has been manifested in the meeting. Fife Bros. are great evangelists, and have done much good for our town.

Go to church Sunday.

W. A. Ferguson Says New Wheat Tests Out Above Average

W. A. Ferguson, Grain and Mill Feed dealer, informed The Leader reporter first of the week that he has purchased 17,000 pounds of 1939 wheat, so far this season, and that the grain has tested 60, which is an extra good quality.

Mr. Ferguson also informed us that this is the earliest he has ever been able heretofore to secure new crop grain, and that the quality of this year's wheat and oats has been extra good. He said that although the shortage of rain at times when it might have meant much to the small grain caused a short crop, the quality of that raised has been well above the average.

I hate taxes. And so do most people. And there's a reason. So many of them, like freight rates, are discriminatory; are used to keep up a favored political group; are invested in senseless activities and enterprises, and are mounting year by year.

Fellow Texans, did you know that because of the debts incurred by national, state and local governments, that every man, woman and child of this Nation's 130,215,000 inhabitants is in debt to the tune of \$460. You, each and everyone of you, your wives, your children, down to the babe born this very hour, your fellow-Texans everywhere in this great state, more than 6,000,000 of them—each and everyone, aged and new-born, idle and employed, rich and destitute alike, because of debts incurred by National, State and local governments, you owe to the money-lenders \$460 and probably more.

Moreover, that debt is forever growing greater, grows more unbearable, sinks each and everyone of you deeper into perilous quicksands from which none but the favored classes can hope to escape, destined to engulf our democracy unless intelligent direction be given in all public offices and departments of government.

Moreover, that debt is forever growing greater, grows more insufferable, sinks each and everyone of you deeper into perilous quicksands from which none but the favored classes can hope to escape, destined to engulf our democracy unless intelligent direction be given in all public offices and departments of government.

This \$460 debt is not just a figment of imagination. You and your loved ones are not exempt from this indebtedness. Day in and day out you are paying, not the debt itself, but the penalty, the pound of flesh, the interest to the money changers to whom your governments have put you and your children in hock. You pay in every tax, in every purchase of the very necessities of life in every transaction involving money.

Despite all there is not enough meat and potatoes on the kitchen tables of our revered old folk; Lieutenant Governor, and Governor O'Daniel call to his attention conditions as they now exist in the Legislature halls of this great state. We make this motion, Mr. Speaker, realizing that both the HONOR ROLL AS WELL AS THE MARTYR ROLL will approve; therefore, be it resolved that this would be a service to the entire citizenship of Texas. We furtherfore announce the vote as 91 yeas, with two absent. Thank you, Mr. Speaker.

Well, we are classed as a lobbyist now, so why don't some Big Interest send us a check, in care of Box 2105, Capitol Station, the same city that has the House of many notions commonly called the House of Representatives.

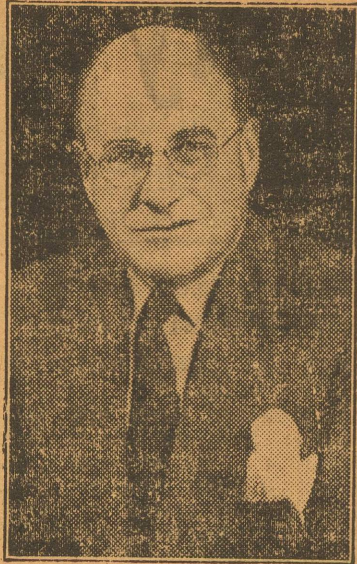

Yours,
RED.

P. S. You know we are from West Texas and so we know all about the blue weeds, sand storms and Gyp water. By the way, three new tax bills will hit the floor this week. The old folks may get some Hillbilly biscuits after all.

The story of Continental Oil Company and its rise to prominence in

rent issue of Fortune Magazine. A striking feature of the article is a thumb-nail sketch of Conoco's President, Dan Moran:

"Born at Cygnet, Ohio, he had picked up cash as an office boy and as a telegraph operator, earned his way through the University of Dayton, and then gone south. To Tulsa, where he saw the oil spout from the Glenn Pool strike, then to Port Arthur, where he signed up as an engineer for the Texas Co. From there he was sent down to Panama and to South America, and from South America he had trekked north again into Mexico and to the States. He had spent seventeen days in a hurricane on an oil barge. He had helped repair the ravages of another hurricane, which, ripping through Port Arthur had floated away the oil tanks of a refinery there like so many toys. He had built refineries, drilled for oil, and had put up ocean terminals at Charleston, at Savannah, Pensacola, Mobile, Key West, and in Cuba. And in the process he had learned something of men and something of the sweet-smelling stuff called crude."

I Give You Texas

It is rumored around Austin that Senator Joe Hill may run for the United States Senate next year. He is a ready debater, a naturalborn fighter, dynamic campaigner and he would have to be reckoned with.

We're a little behind in the "oldest joke" contest, so here are several entries:

A 90-year old mountaineer, with long whiskers, was sitting in the doorway of his cabin when a stranger inquired, "Have you lived here all your life?" He replied, "Not yet."

And of course you remember the one about the farmer visiting a big city for the first time. He was so impressed by the trucks and automobiles whizzing through the street that he wrote a postcard to the folk back home. "They sure are behind in their hauling here."

If you were one of the several hundred thousand who attended Casa Manana in Fort Worth in 1936 you still remember the thrill at hearing "The Night Is Young and You're So Beautiful," a song written especially for the magnificent show. Well, there will be another beautiful ballad in this year's Casa Manana and it will be written by a Texan and the melody will be sung by golden-voiced Kenny Baker to the lucky girl who is chosen as Texas Sweetheart No. 1.

Passing by a Dallas garage recently, this observer saw a car, or what had once been a car. The front wheels had been ripped off, the hood had been crumpled into a shapeless mass and the top had been crushed in. The thought of being inside such a bullet when it crashed at 90 miles an hour made one break out in a cold sweat.

Minutes were read and approved. The roll was called with seven members present.

The meeting was turned over to M. Hayden. The men looked at Ella Marie's chickens and she told us about her year's work. Methods such as practicing cleanliness, were discussed for keeping disease out of the flock. Plowing the ground helps too.

After the meeting adjourned, the girls, Miss Hayden and Mrs. Hardin went to visit Martha Lou Ridinger's poultry demonstration. She had her yard fenced off, and trees set in her yard. Miss Hayden told Martha Lou to build some shade for the chickens until her trees are up for some shade.

Joy H. D. Club

The Joy Home Demonstration Club met Wednesday afternoon June 7th. The recreation time was opened by singing "Beautiful Texas." Then we played an interesting game.

In the absence of the President, Mrs. G. W. Butler called the house to order. The roll was then called, the minutes approved. The Club voted to send Mrs. Ruby Smyers to the Short Course at A. & M. College July 12, 13 and 14.

A motion was made and carried that Joy would help entertain the Commissioner's Court on June 26th with a luncheon at Henrietta. The committee appointed for arranging for the occasion are Mesdames Willie Lumpkin, L. T. Manning and J. M. Bernethy.

A report on Cooperative Extension Work in Agriculture and Home Economics was read by Mrs. Lumpkin.

The meeting was then turned over to Miss Hayden. Miss Hayden gave a talk on adequate furniture, and fitting furniture in the space available; also the various types of

wood furniture was made of. This was very interesting and helpful to us. After the meeting adjourned there were eight members and Miss Hayden present.

Cambridge H. D. Club

The Home Demonstration Club met in the home of Mrs. M. Groves, Friday June 9, 1939.

Our guest of honor was Miss Vida Moore, District Agent from A. & M. College. Miss Ruby E. Hayden gave a delightful discussion on home furnishings, how to buy furniture as to durability, finish and wood. She gave a demonstration on how decorations, and many useful ideas were derived from her talk. The members arranged a miniature bed-room suite in a small room made of paste board.

Mrs. Utley and Mrs. Dickey were appointed to help with the Pioneer

exhibition. The Club is to give a program Friday June 23 with the members of Willow Springs. We are to meet at Mrs. Uteley's at 1:15 and go in a group from there.

Mrs. Jack Tiberghien was given a very pleasant surprise shower. Many pretty and useful gifts were received.

Refreshments were served to Misses Hayden and Moore, Mrs. Clyde Witte, Mrs. Jim Boyd, Mrs. D. H. Utley, Mrs. Beatrice Morse, Mrs. Ray Garrison, Mrs. Isom Daniel, Mrs. Tiberghien, Mrs. Dan Dickey, and Mrs. M. Groves.

Think First—Then Do

"I can make a plan now for improving my yard and then this fall and next spring I can put these plans into practice," says Lillie Fuhrman of the Dean Dale 4-H Club in connection with a demon-

stration on "Improving the view from my Bedroom Window."

A plan for yard improvement should include the house drawn to scale, placing the shrubs, trees and flowers, walk, and drives and an estimate of the space they will cover. A careful plan eliminates moving shrubs or trees after they have grown too large for the space they occupy.

JUST CRUISING

(By The Captain)

We charted a special trip through western territory last weekend and steered our old ship out to Lubbock,—“Hub of the West” Thursday afternoon where we enjoyed meeting and mixing with many of the “Boys of the Fourth Estate” in their 60th Annual Convention of the Texas Press Association in the spacious air-conditioned Hotel Lubbock.

We made “the going trip” over the old reliable Fort Worth and Denver City Railroad, leaving here at 12:24 noon Thursday and enjoying our ride in their air-conditioned cars. We changed trains at Childress and “saw new territory” on this trip from the junction point to Lubbock. We had the privilege of “riding through” the only two tunnels known in Texas through which trains run, these two tunnels being on this railroad and cut through two of the Cap Rock mountains in order for the trains to much easier reach the top of this Texas phenomenon. We were given “a side trip” to Plainview and from there to the host city of Lubbock.

To name all the “fellows” we enjoyed talking to and renewing old times would take much more than our allotted space, but we must say we were “made many years younger” again by meeting and talking with our friends Editors Robert L. Baldrige of the Clifton Record, Sam M. Braswell of the Clarendon News, Sam P. Harben, Richardson Echo and secretary of the association for the past 30 years, and re-elected by a vote of 64 to 13 in the closing hours of the convention; Deskin Wells, president of the association; H. Van Stewart of the Perryton Journal, Sam Roberts of the Haskell Free Press, Walter Buckner, San Marcos Record and newly elected President, and who, incidentally once ran a “daily” paper here; H. Fred Martin of Waco, now a member of the Industrial Accident Board, with headquarters in Austin; H. (Red) Christi, of Austin, now editing his famous “political column” from the state capitol; and we could go and on naming them.

It's just about 30 years ago now since we suddenly decided to leave the employment of Robert L. Baldrige and go to New Orleans, and “learn something” about the linotype machine, which was then “coming into its own.” We were “hand-sticking it” for Mr. Baldrige, setting as we well remember, the first of each month just about four full galleys of 8-point solid in medicine ads, such as Bucklen's Arnica Salve, White Cream Vermifuge, et cetera, and every first we always “had a headache” so that hastened our decision. Anyway, we well remember we went, put in six weeks under “Prop” Churchill of the Linotype Co. at their old Plant on Camp street, met the prettiest girl we ever saw and actually married her and brought her back to Texas with us, and went to Ballinger, where we “went to work” for our lifelong friend, C. P. Shepherd. Great old days, those; of course, Mr. Baldrige “had forgotten” all about how we used to “jiff” him out of cream sodas, cokes, etc., with some seven 18-point quads. Mrs. Baldrige and Miss Dorothy, the latter a 1939 journalism grad from Texas U., were along too.

Sam Braswell was a boyhood friend; Sam learned how to set type in Dad's old McGregor Observ-

er office, back when his father was pastor of the First Methodist church there. Sam is still “the same old boy,” even though he is a few years older than were we both in those old days.

Secretary Harben is “always” the same courteous, painstaking fellow. Never tires of going out of his way to lend the fellows every possible aid. He has served the association the past thirty years, and although some opposition was shown on account of some features or methods now in use, his friends showed their faith in him by re-electing him by a very substantial vote. As we think about it, have you ever seen any organization, whether it be a Chamber of Commerce, a Kiwanis, Rotary, or Lions Club which didn't have “one member” who usually “does all the work?” Well, in the Texas Press Association, Sam is that fellow, and his friends just think it wouldn't be a Press Association without Sam as secretary.

A wonderfully interesting program was arranged by Ray Nichols of the Vernon Record. Every minute of the time was taken up with “something doing” all the while.

Friday at 1 o'clock everybody was taken for a ride out to the famous Texas Technological College, a wonderfully laid out institution and we have never enjoyed a finer spread than the barbecue luncheon furnished by President Clifford B. Jones and his efficient corps of assistants. We “saw everything about

the college” including their famous printing department where they printed “The Toreador” Texas Tech's college paper, and we had the pleasure of meeting and knowing Ernest Poiner, editor-manager of this popular college paper, and by the way, they published a splendid daily edition each day during the convention. Joiner has been selected to guide the destinies of The Toreador during the next session and he is already “in the harness” and has things well in hand, and we predict continuous success for the college paper during his administration.

Friday evening at 8 o'clock we enjoyed a splendid banquet with Publisher Charles Guy of the splendid Lubbock Avalanche-Journal daily publications as our host. The main address was given by President Jones of Texas Tech and this “already famous” president of Texas' third largest college in both points of attendance and results being accomplished, surely told the happy group of editors and visitors and guests present much valuable information about this famous college. His address was a very fine statement of facts concerning his college and one that will prove beneficial in many ways in the days to come.

Following the closing reports and election of new officers Saturday morning, at which time our friend, Walter Buckner of San Marcos Record was elected president and Editor DeVall of Kolgore, vice president, we met our old friend, Pat Tackett of the Empire Paper Co., Wichita Falls, and we secured a “fast ride” back to the City that Faith Built, leaving Lubbock at 1:15 P. M., and reaching Wichita Falls at 6:20, stopping at Guthrie for a “snack” at Pat's Cafe, and was it a snack? Ask Pat. We then looked around” a little and soon found Constable Grady McMahan and he just took about thirty minutes to “let us out” right in front of our home.

Two of the most interesting fea-

tures we have ever heard at State Press meets were the addresses delivered by Miss Laura Lane, of the Vernon Daily Record on “How to Develop an Interesting Woman's Page,” and Eddie Warren's “Use Local Features but Give Local News First.” Editor Warren is recognized as one of the best editors in the state among the weekly papers. He uses Local Pictures along with his Local News and has made The Post Dispatch the recognized authority on “how best to use local pictures.”

The 60th Annual convention of the Texas Press association at Lubbock will long be remembered as one of the best held during the long life of the organization. Col Joe J. Taylor, “State Press” of the Dallas Morning News, was there, as he usually always is, and gave the association members the benefit of his “sound advice” garnered by his long life in editorial and special column work. His “State Press” column is the most widely read of any special feature in Texas, as well as outside the state. He served as president of the Texas Press Association back in 1913 and has been a regular attendant ever since.

It was a great convention and we hope to attend the 1940 session, regardless of whether it is held at Mineral Wells, Galveston, Waco, Lufkin or elsewhere. These cities extended special invitations to be their guests in 1940, and the executive committee will select the convention city sometime during October and it will be published in the Texas Press Messenger.

Kiwanian Carl Green Presented Program

Kiwanian Carl Green had charge of an interesting question or contest program at the weekly Kiwanis luncheon Thursday.

During the business session the Club voted to give \$10.00 to the boy scouts of Henrietta to be used on a camping trip to Camp Boulder, in Wichita Mountains, in Oklahoma on June 26th.

County Judge, John V. Lyles and the Commissioners, J. C. Payne, M. A. Moon, W. A. Lanham, and Homer Hodges were guests for the luncheon.

Members present included, Albert Harrell, Carl Green, Rev. L. G. Hagard, Rev. E. L. Moody, L. E. Dickerson, Rev. Clyde Lee Fife, Rev. Bob Fife, Rev. Paul J. Merrill, V. J. Cefevre, D. O. Daniels, Clay Coleman, Dr. C. J. Sherill, A. L. Mallick, and Pierre M. Stine.

Mr. and Mrs. Henry Wiest of Hurnville were trading in Henrietta last Saturday. They had seen the big fire on Friday night which burned a field of wheat belonging to Mr. Massey in the Stanfield community, and stated that it was a terrible thing. Lighting up the north end of the county, and destroyed the entire field of shocked bundles of wheat.

SHERIFF RAY PHAGAN ATTENDS CONVENTION

Sheriff Ray Phagan left Tuesday on the five o'clock Fort Worth & Denver train for Galveston, where he will attend the annual convention of the "Texas Sheriffs Association."

The Association met in that city this week for a three-days celebration, June 14, 15, and 16th.

Sheriff Phagan will return to Henrietta the last of the week.

Mr. and Mrs. Lindon Garrison and children, Clyde, Billie, Wayne and Mary Frances, spent Sunday with relatives at Charlie.

Mr. Walter Smith of Stanfield made a business trip to Henrietta Saturday and while here visited his brother, Andrew Smith.

LOWER RIO GRANDE VALLEY TO ENTERTAIN FIREMEN

The Lower Rio Grande Valley has completed plans and waits with open arms to welcome delegates to the 63rd annual convention of the State Firemen's and Fire Marshals' association of Texas, according to information received here this week by Chief John Firestone.

Headquarters for the convention will be in Harlingen, with all fire chiefs in the Valley serving as co-hosts. Dates for the conclave are June 13, 14 and 15th.

FIRE DESTROYS GRAIN FIELD OF MR. DOC MASSEY

Fire of unknown origin destroyed about two-thirds of about thirty acres of wheat, already cut and in the shock last Friday night, belonging to Mr. Doc Massey, who lives in the Stanfield community. Neighbors from Riverland, Byers and other places helped fight to get the fire under control, or there would have been even greater damage, as the wind was very high on that night.

AMERICA'S CRIME RECORD

Crime keeps pace with progress. During the lifetime of middle-aged Texans the population of Texas has doubled. Crime has trebled and then some. No single industry or business, 50 or even 100 years old is comparable in magnitude with illegal activities of criminals. Their tentacles have found their way into every legitimate business and industry in the land. Even the almost impregnable forces of government have not been immune. Fugitives in their flight and in their homes. Lawlessness at times has corrupted legislative halls; it has polluted segments of the judiciary; it has contaminated public office; it has even demoralized certain of our law-enforcing agencies. Its subversive forces are gradually undermining the cornerstone of our social order. The business interests of the state and nation have suffered tremendous damages from the plague of predatory activities. Certainly business can never reach the zenith of prosperity, nor the

home attain to its peace and security until widespread lawlessness, is curbed. And it can be.

But the curb of lawlessness must begin right here in this community. Not all the sins of the nation are committed in the East or in some distant land. This means that there is a grave responsibility right here at home, in the homes of this section, in the schools of this district, and in the law enforcing

agencies of this county. Speaking recently in Houston, Pierce Brooks stated, "It behooves every citizen who loves his state and who loves his home to help in the crisis of these perilous times."

Miss Maurice Mount is at home for the summer holidays.

Mr. and Mrs. Albert Harrell spent Sunday in Nocona, guests of Dr. and Mrs. H. F. Wilton.
