PERSONALS

In 37 zones throughout the country, 76 dealer meetings will be held. Two groups—the Dealer Service Committee and the Dealer Business Management Committee—will discuss the two current prime phases of the retail automobile business.

Selected delegates from these groups will then convene in Chevrolet's eight regional headquarters points March 3 to prepare a more inclusive report for their representatives to bring to Detroit for the final sessions with Mr. Holler, his staff, and department heads.

"Since early in 1937, regular dealer committee sessions have served

an important liaison role linking Central Office with the more than 8,000 Chevrolet dealers," Mr. Holler said. "The continuity of this program has afforded us the most complete cumulative picture of retail problems and procedures in the industry. At no time in the history of the program have dealers faced such rigorous conditions as confront them today, and thus it follows that never before has Chevrolet had a chance to serve dealers at a time when its support and counsel are more necessary.

"Formerly, these groups were designated the National Dealer Planning and National Dealer Used Car Committees, but as we have broadened our program of 'specialization for efficiency' throughout the wholesale organization, we have likewise encouraged the retailers to adhere to the same principles.

Mr. and Mrs. W. A. Ferguson spent Sunday with Mr. and Mrs. Earl Ferguson and daughter in Frederick, Okla. They attended church at the Baptist church there Sunday morning at which time Mr. and Mrs. Earl Ferguson united with the church.

Mr. James Boddy of Tulsa, Okla., spent the weekend with Mr. and Mrs. P. H. Boddy and Mr. and Mrs. A. B. Staggis.

Mr. and Mrs. Jimmie Hawk spent the weekend with Mrs. Hawks parents, Mr. and Mrs. A. D. Ellis.

Bob Karsteter of Washington, D. C. is spending the week with his mother, Mrs. May Karsteter.

Miss Edith Pileher, of the Little Joe's Cafe, who has been at home for two weeks with the mumps, was out greeting her friends Wednesday.

Mr. and Mrs. Virgil Kuehn of Abilene were weekend guests of Mr. and Mrs. Phillip Kuehn.

Mr. T. C. McLester of Wichita Falls was a dinner-guest of his sister, Mrs. Ben Ingram and family Tuesday.

Chevrolet Doing Its Part to Aid Defense

A comprehensive picture of the retail automotive business in its duration dress, presenting a cross-section of Chevrolet dealers' thinking on problems common to all auto dealers will result from a series of 94 zone, regional and national dealer committee meetings beginning Feb. 24 and concluding with a two-day final session in Detroit, Mar. 16-17, William E. Holler, Chevrolet general sales manager, announced today.

In the face of stringent restrictions applying to the auto manufacturing business as the first war-time commercial casualty, these meetings are expected to develop a compilation of immediate needs foreseen by the retailers so that they may re-

National Defense

President Roosevelt wrote War Production Chairman Nelson "The months just ahead are the critical months of the war. Victory depends in large measure on the increased war production we are able to get from our factories and arsenals in the spring and summer of 1942. . . . This is total war. We are under fire, soldiers and civilians alike. We are all belligerents. To win we must fight. Chairman Nelson announced a continuing national drive has been undertaken to increase production immediately in plants which now have war contracts and to convert other plants to war production as speedily and as completely as possible.

The president in a radio address, said, "We Americans have been compelled to yield ground, but we will regain it . . . soon we and not our enemies will have the offensive; we, not they, will win the final battles; and we, not they, will make the final peace . . . Actually we are taking a heavy toll of the enemy every day that goes by . . ."

President Roosevelt said "Germany, Italy and Japan are very close to their maximum output of planes, guns, tanks and ships. The United Nations are not—especially the United States of America . . ." He asked Americans not stop work for a single day, until the war is won, not to demand special privileges for any group, and to give up conven-

iences cheerfully when necessary.

Foreign Relations

Under Secretary of State Sumner Wells announced two agreements signed with Brazil to strengthen hemispheric solidarity and to provide lend-lease aid to Brazil. Allocations for lend-lease purposes total more than 12 billion dollars as of Feb. 19. The U. S. and Britain signed more than 12 billion dollars as of final settlement of lend-lease costs. The pact commits both nations to virtually unlimited free trade, and provides final terms of the settlement "shall be such as not to burden commerce between the two countries." Mr. Wells announced the Vichy French government has given U. S. assurances it will not aid the Axis beyond terms of the armistice agreements.

Rationing

Price Administrator Henderson stated national books will be held in a rationing book will be held over a four-day period, probably during the last week in March. Approximately 1,400,000 teachers will serve as registrars, and 245,000 schools will be used. One adult may register for each "family unit".

The War Front

The Navy reported naval forces sank seven more, and damaged five 10, 1941, and Feb. 24, 1942, probably sank seven more and damaged five additional. The Navy said in the first two months of this year 116 ships of United Nations registry were attacked in the western half of the Atlantic, and 56 attacks were

WARS WON BY DEEDS

Wars are not won with brave words and stirring bands. Wars are won with deeds. They are won with production; also won through the full, uncompromising cooperation of government, of labor, of industry and of all the people.

Our war will be won on the home front. Victory depends on whether we can make and deliver the endless quantities of planes and ships and guns and ammunition that our troops and our Allies so sorely need.

Disgraceful labor disputes have cost our military forces untold quantities of weapons—and the life of many men. Petty officialism has played politics while war rages throughout the world, and slowed production still more. Bogus reformers have hampered and reviled industry at a time when our greatest need was machines and tools, not ideologies. The people of this nation are now demanding in no uncertain voice that government, industry and of industry—can turn the blueprint enterprises of this nation—the plane and the tank factories, the motor plants, the oil and metal plants which motivate the machines of industry—can turn the blueprints of war needs into realities.

The distastes in the Pacific show what we may expect in the future unless we change the piddling policies of the past.
