County Teachers' Meet Here Saturday

Estimated \$80,000.00 Peanut Crop In County

Mr. W. A. Ferguson reports that he has been appointed to handle the government peanut purchase in Clay County and will convert the entire floor space of his mill into a warehouse for storing the peanuts through a period of about six months. He also informs The Leader that he expects to pay out about \$80,000.00 to the peanut growers of Clay County during the harvest-time which is now just beginning.

This amount of government money put in circulation will raise the buying power of the county farmers in no small degree and give a lift to the volume of business now enjoyed in the various centers throughout the county.

Mrs. J. W. Douthitt Reports Progress In Hospital Fund Work

It is my pleasure at this time to report on the supplies donated to the Sheppard Field Hospital for the boys there. Senator Geo. Moffett Plans Special Bill

A bill to curb the sale of adulterated insecticides within the state will be introduced at the next general session of the legislature beginning in January.

State Senator George "Cotton" Moffett of Chillicothe, author of the proposal, asserted today the sale of certain ineffective insecticides was damaging the business of legitimate manufacturers and reducing crop income.

Auction Sales Held Here Last Monday

Another lively auction sale was held at the Agricultural building in Henrietta Monday, the feature of which was calves, hogs and milch cows being offered for sale.

They had more stock to sell than they had buyers. Quite a few of the hogs put on the market were with-drawn, but will be sold later.

Mr. Fuhrman stated that perhaps the crowds are not so large just at this time, it is that farmers and stockmen have been quite busy gathering their fall crops, but that when that is over, they will give their herds of cattle, horses, mules, hogs and the barn-yard in general the once-over, and all stock etc., that you don't need, will bring them in, and let them go through the Henrietta sales ring, where we are sure they will bring the best prices.

Stockmen and farmers of Clay County, you are urged to bring all stock, cattle, hogs and poultry to Henrietta, where you will get the best market prices.

Witcher Gilbow Writes The Leader

San Diego, Calif. Camp Linda Vista, Sept. 28, 1942.

Clay County Leader, Henrietta, Texas.

Dear Friends: I hope you will find space in your paper to publish a few words from a Texan and a hundred percent Texan. I'm in the Navy, but I've been up the East Coast and in training, I've seen enough. If the civilians of inland could see, they would really realize the government is working hard and doing something to win the war.

A few days ago Secretary of the Navy, Frank Knox, told the people of America, something they all should think about and realize by now. And that is, we are in the midst, not only of a war unprecedented in scope and size, but likewise, a war where defeat is possible and one where defeat is sure to come unless we, as a people, and those associated with us in this war comprehend in full measure the threat and summon the tremendous forces needed for ultimate victory.

I want to tell the citizens of Texas they really should be proud and feel a great favor of the great number of men in the service from Texas. Any place on the East Coast or west coast or wherever you see troops, just ask—"Where you from Mack?" and you'll always hear a few Texans among the men, and they are men with great spirits, and to see these men drilling and preparing for battle—you would never say one word about the taxes, because your money is being well invested by your government, so regardless of the price, let's be willing to pay it and after the war we will still have Democracy and Old Glory flying high and a land worth living in.

So let's all help win the war with out a grumble. It's the only salvation for humanity.

Witcher Gilbow.

Texas Commodity Rolls Cut 49%

Texas commodity rolls have been cut over 49% this year, J. S. Murchison, executive director, State Department of Public Welfare, announced today. During August 1941, 105,201 families in Texas received commodities as compared with 53,478 families receiving the benefits of the program during Aug. 1942. Murchison pointed out this drastic cut can be attributed to persons finding work on Texas farms and in defense industries. Commodity rolls are now mainly confined to families who are unable to secure employment because of physical handicaps.

Food purchased by the United States Department of Agriculture under its price stabilization program is donated to the state. This food is redistributed through two outlets: the commodity distribution program and the community school lunch program. Both programs are operated by the state as one unit.

During March 5,100 schools participated in the community school lunch program in Texas serving over 369,000 school children. Federal and state officials are expanding the program so it will be possible to serve every undernourished school child nutritious noon-day meals by the end of this school term.

"Texas farmers are doing a magnificent production job under the "Food for Freedom" campaign. Production goals this year will reach a new high. The community school lunch and commodity distribution programs are part of our Government's "all-out" requirements program. These programs assure the government and Texas farmers a steady and continuous outlet for this record food crop.
In total war it would be criminal to waste precious food; the school lunch and commodity distribution programs see no food is wasted," Murchison explained.

Wynn Family Held A Reunion

A reunion of the S. T. Wynn family was held Sunday, Sept. 27th at the home of Mrs. Beulah Whisnart in Kamay. Mr. and Mrs. M. E. Wynn were natives of Georgia, but came from Grayson county to Prospect in 1884, living there the remainder of their lives and are buried in the Prospect cemetery. They had nine children. Six children are living, three having passed on.

The six living children, all present at the reunion, were: C. H. Wynn, Route 2, Bellevue. Mrs. M. A. Segler, Iowa Park. Mrs. Lena Lee, Rte. 3, Lufkin. S. T. Wynn, Childress. R. M. Wynn, Ninneka, Okla. Mrs. Nettie Williams, Ninneka, Ok. A delicious dinner was served to the large group, of thirty-five cafeteria style, which was enjoyed.
The recent gathering was the first in twenty-nine years, the six members of the family had been together, and it was a great event.

Canning Of Summer Mincemeat

(By Miss Mary Branch) Summer Mincemeat
What is better on a cold day than fresh mince-meat? Here's our recipe for Summer Mincemeat—
7 1/2 lbs pears (peeled and cored)
1 pound seedless raisins;
1 orange, 1 lemon, 1 apple (peel and all); 3 lbs ugar, 1 cup vinegar, 1 cup grapejuice or other fruit juice (not too sweet); 1 teaspoon of salt; 1 tablespoon each of cinnamon, cloves, mace or other spices to taste. Grind pears, orange, lemon, and apple. Mix with all other ingredients and boil for two hours. Pack in jars and seal while hot. This is an excellent way to use hard pears.

Perrin Soldiers Walk Out And Play Ball

Perrin Field, Texas, Oct. 7.—Our men usually dont march in the armed forces. They usually fly, but members of the 85th Service Group here go out for a walk every few days. The other day the group hiked five miles played baseball and other games, and then walked back. Our men here have found a way to head off discomfort at their post theatre. They take pillows from the barrack bunks when they attend the movies.

WHAT IT TAKES TO END WAR IN 1943 OR 1944—

Build 125,000 more airplanes to bomb Germany out of the war. Drive Japan out of China and off of American property. Train and equip an American Army of 13,000,000 men—and get them safely over there.

Complete a two-ocean Navy, and build at least 16,000,000 additional tons of merchant ships. Start bombing German cities and manufacturing centers, and stay with it until the job is completed.

Meet all in full—this nation's various pledges to Russia, China and Britain.

Watch and protect the American coast lines from attack.

Keep the home fires burning in a civilian economic way on a basis that will facilitate the other jobs.

The Wall Street Journal says this can't all be done in 1943, but will possibly take 1944 or 1945—but we Americans will win this war if it takes ten years. Do your bit. Help Uncle Sam.

Henry A. Kafer Writes The Leader

Camp Edwards, Mass. October 1, 1942.
Clay County Leader, Henrietta, Texas.
Dear Friends:

Will drop a few lines to let you know I enjoy reading The Leader. It is much better than a letter from home, as it tells so much.

Went over to New York last week end. Some City. Went up in the Empire State building which is 90 stories high, or 1250 feet above the ground.

Here we had a frost last night. Hope to see all friends after this war is over.

Your friend, Henry A. Kafer.

You may print this if you wish—A Little Note From Home (By Henry A. Kafer)

As a regular in the Army since 1933 You'd think I'd grown caloused to the things I hear and see; But standing in "Troop Street" at mail-call yesterday, I saw a soldier standing by, and heard him sadly say:

"No mail for me today, Sarge?"—
"not even just a line?"
I haven't got a letter, Sarge, in such a long, long time.
Guess no one loves me any more!"

—He said this like a joke. But standing on the side-lines I saw him all but choke.

He hasn't been in so very long, tho' I guess it seems a year; Now he thinks hes forgotten by the ones he holds so dear. 'Tain't such a lovely feeling for the boys on land and foam, To think they've been forgotten by the folks at home, sweet home.

The sweetest girl in all the world that promised she'd be true, Is a slacker to her duty, unless she drops a line or two; There's mothers' too, God bless 'em there's no one near so fine, Yet "Soldiers' Days" pass mighty slow, when they don't drop a line.

There's dad, who'd give his life blood to help his boy to fight, But business deals come around so fast that he forgets to write. If they could see the heartache, I read in every line, "No mail for me today, Sarge?"—not even just a line?"

Th'ey'd know it's hard to battle, and fight until you fall. When you're choked up with the feeling tha no one cares at all. So in this "all-out war" on land or on sea foam,— Don't forget to do your bit with—"A Little Note From Home."

Raymond Brown Writes From Hawaii

Clay County Leader, Dear Friend:

I enclose some verses which you may print in your paper if it does not take up too much room.
Am O.K. Your Friend, Corp'l Raymond Brown, Somewhere in Hawaii

In Holy Freedom's Fight
The barracks now are silent,
Where once your laughter rang,
The steel guitar is broken,
Where around your bunks we sang,
As the stars give way to morning,
In Oahu's cloud swept sky,
Old Glory's proudly waving there—
Sweeped in hero's crimson dye.

Can you hear us there in Heaven,
As the Dawn Patrol takes flight?
On silvery wings your memory soars—
In Holy Freedom's fight,
The Rona wind whispes softly now,
The Palm trees blows low,
But all America will remember,
Whence came this Dastard's blow.

Let the Nippanese remember this,
As they cringe beneath the sky,
At Hickam's flaming vengeance,
For you, the first to die.

J. H. Jones, Reporting Dept. Pub. Welfare

The State Department of Public Welfare announced that all employable persons now receiving federal surplus commodities or food stamps will be taken off the rolls, if the request is made by the Manpower Board and the County Commissioners' Courts. The department had previously announced "all idle employable persons would be removed from the rolls is so requested," and this has now been broadened to include the "employed persons who have been receiving supplementary aid from the surplus food programs."

Many of the families now receiving surplus commodities have no member physically able to work. They are composed of widows with small children, aged persons with unemployable dependents, physically unable to work. They are composed of widows with small children, aged persons with unemployable dependents, physically incapacitated parents with children.

"There is a widespread demand in all counties to continue the Free Lunch Program. The hungry school child is more noticeable to the public. In these families there is little or no property or income to be expanded by inflation. The only way the war has affected such families is to expand their living soets and to push them back into the category of the forgotten man. The Department feels that since the government has bought this surplus food, in order to relieve market conditions for the farmers at peak production and benefit the farmers, it is much better for it to be distributed to the needy than to be permitted to waste."

From where I sit...

by Joe Marsh

ED CAREY, our fire chief, came stompin' into the printin' office last week, madder'n a hornet.

"Say!" he yells. "If I could get my hands on that fellow Goebbels, I'd stick a fire hose in his mouth and turn on the pressure." Ed shouts, poundin' my desk. "Do you know what he's puttin' on the German short-wave propaganda to America NOW? He's tellin' folks that American army camps are full of drunkenness! Can you beat it?"

"Calm yourself, Ed," says I. "Nobody's going to believe what Goebbels tells 'em."

"But don't you see? He's puttin' this bare-faced lie on the air to stir up trouble."

"Pretty stupid propaganda, I'd say. Pretty silly, even for the Nazis," says I.

"How so?" says Ed. "There's people in this country that want beer taken out of the camps. That sure is going to hurt army morale. And this lie certainly is fuel for their fire."

"Not if I know Americans," I says. "And the Nazis don't know

Why your own car's Zero Hour comes at 00 miles an hour

ON THE OFFENSIVE you've got to be on the instant. Eager fighters, frisky jeeps, and all that's going along, must get going together—exactly at Zero Hour. But on the home front these brisk mornings, will your own precious car and its engine lubrication get going together—without deadly oiling delay? You can be sure as shootin', with your engine OIL-PLATED for Winter by Conoco Nth motor oil... oil that OIL-PLATES!

Even while the speedometer snoozes at 00 miles an hour—and you're still snug in your "kivers"—the chilly insides of your OIL-PLATED engine will already be coated by lubricant. Protective OIL-PLATING is really sort of "magnetized" to piston rings, bearings, and straight up the cylinders, by Conoco Nth oil's strong "power of attraction"—created by an added modern synthetic. This keeps the OIL-PLATING from all draining down to the crankcase overnight—over week-ends—and longer.

No complete lack of lubrication then, at 00 miles an hour—starting up cold. No long needless risk till cold oil comes inching along through passages as slim as spaghetti.

You're off safely, because OIL-PLATING safely stays on—ready to lubricate before any oil can circulate.

This season don't merely change oil. It's fully as simple and inexpensive to change to an OIL-PLATED engine. Just change to patented Conoco Nth oil at Your Mileage Merchant's Conoco station. Continental Oil Co.

Byers Displays Soldier Pictures

Postmaster Joe Wright is seeing to it that the boys who used to frequent the post office here but are now in the nation's armed forces won't be forgotten.

At present more than 50 pictures of these men are neatly displayed in a window of a building on the main street as a reminder that they are fighting America's battles at the front and to remind the on-looker that in helping the war work at home he is helping the boys.

An incomplete list of names of the boys is as follows: Roland Adcox, C. E. Adair, Cliff Berry, Don Bobbitt, Durward Burrus, Marvin Burrus, A. W. Tips on How to— Improve Your Lighting

Place Lamps Closer

The illustration above shows the right and wrong way to place a reading light by an easy chair. If you shorten the distance between you and the lamp one-half, you increase by four times the amount of light on your book or paper. In other places that light is needed, put the lamp as close as practical for better illumination.

JUST LIKE CHANGING A LAMP BULB!

Changing fuses is easy... much like changing a burned-out lamp bulb. Keep a supply of fuses on hand to save you time and trouble when a fuse blows.

CROWDED WITH THE CALLS OF WAR

It's true we usually can put through quickly your long distance telephone calls to towns near-by. But when you send your voice to far cities, it may travel on lines jammed to the limit with calls that help move troops, make planes, build tanks.

We can't put up more lines, because most of the metal has gone to war. So please help us in a vital job. Make as few calls as possible to war centers, or cities far away, and please plan to keep such calls short. It will help clear the way for the calls of war.
