Wendell Willkie has returned from abroad, an dwhen asked about the war, he said, "it's awful. Better get our men over there quickly, and millions of them, before it is too late. Hitler hasn't lost anything yet. He is still holding on to what he has taken and has most of Europe in prison camps or working for him."

President Roosevelt Tuesday told Sam Rayburn to "speed-up on that 18 - 19 law. Must get those young men in training at earliest moment."

## Uncle Sam Wants All Available Tin Now

The Clay County Salvage Committee has received the following letter from the State Salvage Committee: "Our war effort needs every tin can in this country—from today until the war is over. Tin and Steel—we want every single ounce. Not one should reach a city or county dump from this week on.

Our country must recover every single ounce of the precious tin and steel that is in these cans. We cannot tell you yet what system of collection will be used. It may be that in some rural areas it may be as before the cans can be collected and in some rural areas it may be as much as a year, but that precious metal must be preserved. If the cans are not carefully prepared the vital tin coating will be lost. Housewives are asked to cut off both ends, wash the cans thoroughly, remove the label and step heavily, flattening the body of the can. By preparing the cans in this manner even a large family will not fill a flour barrel with cans that they use in a year's time. Tell your neighbors to save their cans. There should be created in every home in the county a reserve supply of tin and steel in the form of these cans.

This is War.—And we must realize that our willingness to cooperate fully and completely in the salvage program may mean the difference between Victory and Defeat.

M. S. Duncan, Chairman,  
Clay County Salvage Committee.

## Miss Mary Branch, H. D.A. Knows Her Apples

(By Miss Mary Branch)  
Fresh apples are the Victory Food Special. Abundant supplies are available. In addition to their good flavor, apples have another welcome wedge into wartime meals. Served fresh, they need no sweetening at all. Cooked, they need only be sweetened to taste. And the sweetening may sometimes be honey or corn syrup to help out the sugar ration.

Here are good ways for serving apples—  
Eat them "as is." Simply wash, and shine with a clean cloth. Set on the table as a centerpiece that disappears as dessert.

Fresh apple salad.—Combine dice apples with chopped celery, nuts, and salad dressing. Or mix shredded cabbage, diced apples, and salad dressing with seasoning to taste. Make salad no further ahead of time than absolutely necessary.

Baked apples.—For a simple dessert, wash apples, core them, but do not cut through the stem end. Fill the center with sugar or corn syrup. Add butter or other table fat and chopped nuts if you like. Cover the apples in a baking dish. Bake in a moderate oven until the apples are soft. Serve hot or cold.

Apple Pie with Malted Cheese.—Take a freshly baked or a cold apple pie. Cover the two with American cheese grated or cut into thin slices. Put in a very moderate oven until the cheese melts. Serve at once.

Fry Apples With Onions.—Cube or slice peeled or unpeeled apples. Fry with onions cut in thin slices—in a single layer—in a small amount of fat—in a frying pan. Cover the pan and cook until apples and onions are well browned on both sides. Just before the cooking is finished, sprinkle lightly with sugar and a little salt. Serve hot.

Brown Betty. Put alternate layers of oven-toasted, crumbled bread and diced tart apples in a baking dish. Sprinkle sugar, salt, and cinnamon or any seasoning you like over each layer of apples. Pour some melted, good-flavored fat over the top layer of crumbs. Cover and bake 30 to 45 minutes—or until the apples are soft. At the end of the cooking time, take off the cover to let the top brown.

## County Teachers Met Here Saturday

The Clay County Teachers assembled in Henrietta Saturday, and after being called to order by County Superintendent John W. Callaway, the invocation was pronounced followed by orchestra rendition by Mrs. C. B. McDonald's orchestra.

R. D. Boyce recited the urgent need for scrap materials for our manufacturing plants to keep production on the efficiency basis, and the various methods of securing the scrap, and the splendid cooperation from all sections of the county. Mr. Price was pinch-hitting for County Chairman M. S. Duncan, who was out of the city at the time.

Another musical number by Mrs. McDonald's orchestra was followed by an interesting talk by Miss Edgar Ellen Wilson, State Department of Education, Austin, her subject being, "Importance of Elementary Education in Our Schools."

Mr. L. R. Burkett, deputy state superintendent, brought an interesting message on the various phases of school in wartime. His subject was "The Clay County Schools."

A talk of general interest was that brought by Prof. B. B. Cobb, secretary of the State Teachers' Association. Mr. Cobb is an interesting speaker and his remarks were of vital concern to the teachers in general. Prof. Cobb's subject was "Value of the State Teachers' Association."

He is a former Principal of the Waco High School, and his wide experience and knowledge of school affairs, made his address the more interesting.

Financial Report—Mrs. S. K. Royer  
Following the interesting program a business session was held, presided over by Supt. J. W. Callaway.

Another matter brought out at the meeting Saturday was the shortage of teachers in America and especially in Texas, due to the war. Mr. Steudebaker, U. S. Commissioner of Education in recent communique, said, "There exists throughout the nation an unprecedented shortage of teachers, due to the present war. It is up to us to find teachers; we must not let our schools close. We must keep them going full time. You superintendents and teachers in the various states where the shortage occurs, must find good, qualified teachers to keep our schools open."

If you have ever taught school consult your state and county superintendents and tell them how many years you have taught. You are needed badly throughout the nation to keep our schools going during the war period.

President Roosevelt in his Monday night fireside chat recited the fact that in various sections throughout the nation schools had been closed for periods of fruit gathering and cotton picking etc, and he appreciated that attitude of the American schools to aid the farmers and fruit growers to gather their crops.

The meeting adjourned at noon. Officers elected for year found elsewhere in this issue.

## Distribution In Clay Co. Past Year

How the commodity distribution program helps Clay County farmers as well as underprivileged families was pointed out in a report released today by David G. Guthrie, Jr., Wichita Falls, Area Supervisor, for the Agricultural Marketing Administration.

Over \$12,256.26 worth of commodities which were distributed in Clay County from July 1, 1941, to June 30, 1942, represent additional farm markets created by the program, the report showed.

"Farm products often come to market during season in such heavy supply, prices would be ruinous to the farmers if the Agricultural Marketing Administration did not step in and buy part of the scrap," Mr. Guthrie explained.

The Department feels that commodities obtained thus, could not be put to better use than in helping underprivileged and undernourished build health and morale among our old families.

Foods issued to needy families in the county are purchased by AMA and turned over to the State Department of Public Welfare for distribution.

## Methodist Conference In Dallas Tuesday

Mr. C. C. Elkins, one of the stewards of the local Methodist church, paid The Leader office a call Monday evening, and stated that the Methodist General Conference will convene in Dallas next Tuesday and will continue in session for three or four days.

At the end of the Conference, the list of appointments will be read and made known to the public.

Rev. Earl M. Jones, pastor, will attend the Conference, and his friends and members of this church believe Bro. Jones will be returned to this charge, as he has only been here three years, and has made them a good preacher and ministerial aid.

The presiding elder makes his report to the Bishop, who in turn decides whether to return the pastor or send a new one.

A good report is going to the Bishop from Henrietta M. E. Church of accomplishments of the year just closing, and the financial report is exceptionally good for this war period. The Woman's Missionary Society is also sending in a good report as is the Sunday School and church branches of that organization.

Friends of Bro. Jones are anxious that he be returned to this charge. Bro. Elkins paid us a return visit to listen in on President Roosevelt's fire-side chat, which we all enjoyed.

## Lively Auction Sale Held Here Monday

A pretty day and farmers about up with their cotton picking, a large crowd was on hand early Monday afternoon at the Agricultural building for the regular weekly Auction Sale, with plenty of buyers, and plenty of stock to sell.

Bidding started off lively and continued so throughout the sale, with only a few of the cows, calves, hogs and mules being withdrawn, in which events they were sold later.

As a newspaper reporter, we have two good ears, but we could not at this time, tell you a single bid, because the auctioneer talks too fast. Now, that is their system, and they are running their own business, but tell us please, why does auctioneer sing that "Tra la la lu la aw aw, etc" so fast that not even the man himself can understand the bid. Two or three times we have asked the men standing near us, "what was the bid?" and not one could tell us. We supposed they were selling a red bull calf, as one was brought forward. Our idea is that the auctioneer would get more bids and better bids, if he would articulate slower and plainer.

Some of the buyers and sellers at the sale Monday were: Henry Fuhrman, Henry Scheer, Carl Scheer, D. C. A. J. Parker, Lindon Garrison, Raymond Dugger, Fred Wines, Spee McWhan, C. L. Wynn, Harry Symons, Jack Arnold, R. S. Copeland, Boss Mathews, Cliff Evans, Walter Smith, Chesney Russell, Sam L. Russell, Fred Muir, John Ruddy, A. O. Holt, L. A. Klein, Geo. Borgman, Leon Wines, Tom McCandless, John Fuhrman, M. F. Ingram, Tom Green, R. Dee Price, Lloyd Prewitt, Henrietta: Claude Cook, St. Joe; Weldon Brashier, Bowie; Tom Wisdom, of Stoneburg; J. M. Shaw, Ringgold, and Frank Andrews, of Joy.

From where I sit...

by Joe Marsh

HAPPENED to me only yesterday. I step on the starter of my car. Engine turns over O. K. but she won't start.

So I look under the hood just as if I know what's the matter. Tap a few things with a wrench. While I'm standin' there, wondering what to do next, a young soldier stops alongside.

"Need some help?" he asks.

"Got her almost fixed," I says. "But still she won't start."

"Looks like your carburetor's flooded," he says. "Got a screw driver handy?"

That young soldier knew what he was doin' all right. Went to work just like a professional.

"She'll be O.K. now," he says, straightenin' up and smilin'.

Boy's face looked sort of familiar. And darned if that soldier wasn't young Charlie Jenkins from Elm Street. Used to be a round-shouldered kid—one of those jitter bugs you hear about. Say! You wouldn't know him after six months in the Army. Fifteen

pounds heavier—straight and tan and real sure of himself. The Army's done a lot for Charlie. Made a man out of him—and I guess that goes for lots of other young fellows, too.

The other day I read how some folks worry about the soldiers havin' a glass of beer now and then. Well, after seein' Charlie, I don't think there's much cause for people to fret.

Just like Charlie says—"If you can trust us with guns and ships and tanks, I guess you can trust us with a glass of beer once in a while, if we happen to want one."

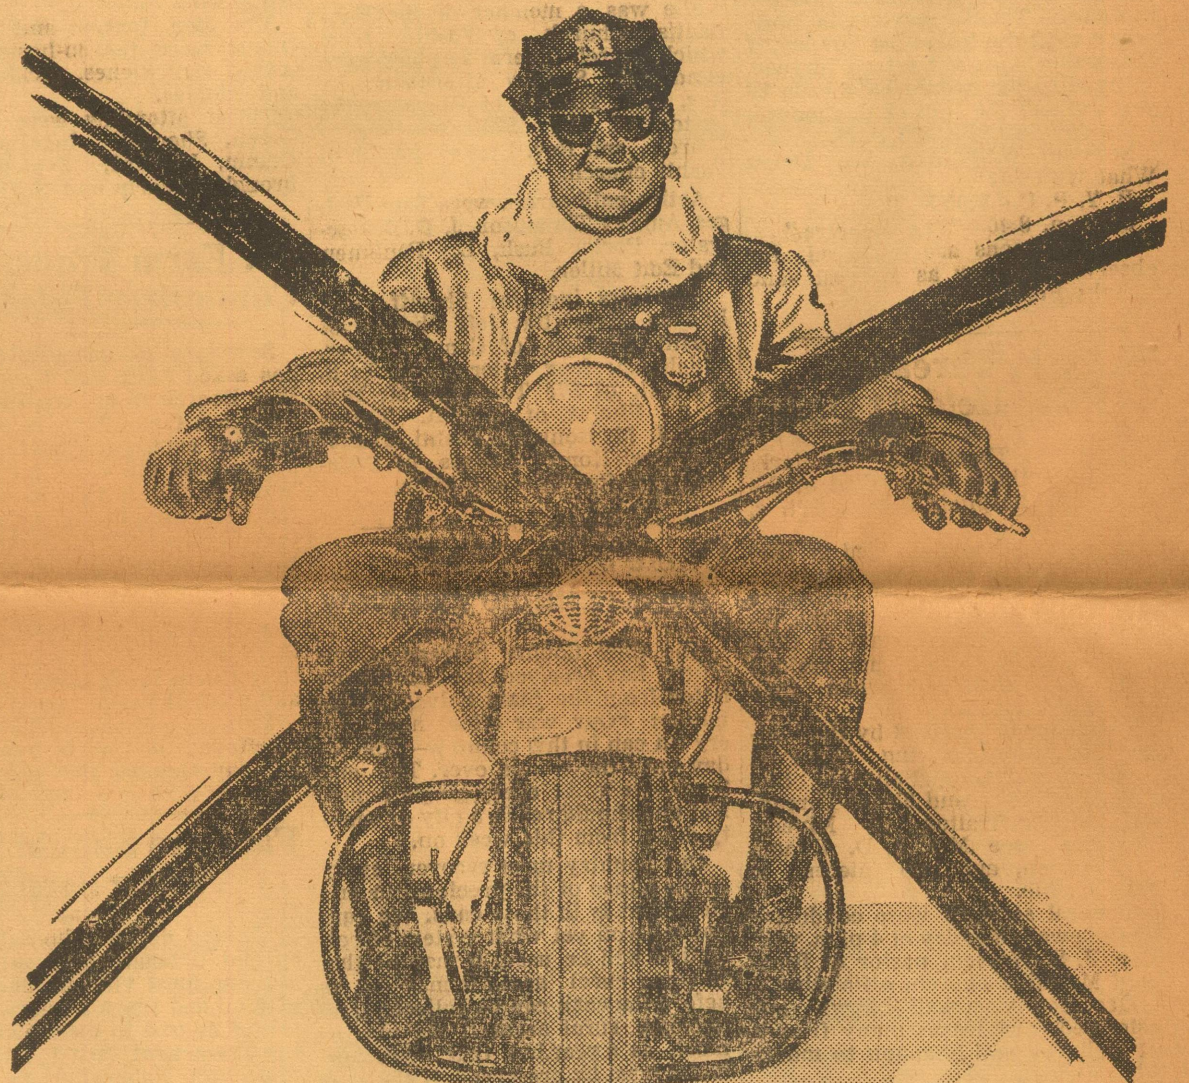

And I know the beer industry is co-operating with the Army and the law-enforcement officers to see that beer is sold in good, clean, decent places.

From where I sit, this country's never seen a finer, cleaner, better-behaved lot of men than the ones in uniform today... I'm not worryin' about 'em!

What to be scared of at 00 miles an hour

YOU need no cop but your Conscience to set your speed limit at 35 or under. It's better for your country and your car. But best of all... for your engine's life... is to double-cross Wear at 00 miles an hour.

While you decide gingerly to "let her in" after starting up cold... while the speedometer still is motionless... you risk grinding metal particles out of your engine. Or you can take steps against that by having your engine OIL-PLATED now, with your correct Conoco Nth motor oil for Winter.

OIL-PLATING is a sleek lining of lubricant that's skin-fitted to inner engine surfaces by an added modern synthetic in Conoco Nth motor oil - patented. OIL-PLATING can inter-join so closely with the metal it protects that it isn't all quickly draining down to the crankcase. That's why OIL-PLATING can wait up for you—clear up to its topmost point in your engine—all day, all night, all week... all the while you use Nth oil.

Sooner than you're dressed in the morning—sooner than you've locked up

or clogged out at night—your Conoco Nth motor oil will already have your engine OIL-PLATED. Let any oil down in the crankcase below try getting up on the job that fast! Talk about "Safety First"... OIL-PLATING means safety ahead of time! Change now to Winter OIL-PLATING. Your Mileage Merchant's Conoco station knows your seasonal grade of Conoco Nth. Continental Oil Co.

JOIN Elect yourself to the ONCE-A-WEEK CLUB FREE at Your Mileage Merchant's Conoco station. Choose your own regular day to drive in and have him check your tires, oil, radiator and battery. His systematic expert attention means trouble-prevention. He'll report to you in advance on lubrication and anything that he finds you need for the duration of your car.

## SUDDATH - WEBER NUPTIALS WAS EVENT OF JULY 2

Miss Myra Margaret Suddath became the bride of Mr. Warren Weber on July 2, in Waurika, Okla., and the happy couple kept their secret from even their relatives and closest personal friends until this week, when they made public announcement of their marriage and left on a ten days honeymoon trip, after which they will return and be at home to their friends in Henrietta.

The bride is the daughter of the late Mr. and Mrs. W. F. Suddath, and is one of our city's best known and most charming young women and numbers her friends by her acquaintances. For the past few years she has been employed in the offices of her brothers, Messrs. Donley and Clyde Suddath, attorneys, and Insurance & Real Estate dealers, as their stenographer and proved a real aid to them in handling their ever-increasing business.

The groom is a nephew of the

late Mrs. G. A. Jackson, well and favorably known as one of Henrietta's most prominent citizens during her lifetime.

Mr. Weber and his sister have made their home in our city since the death of their aunt, and will continue to make their home here on the return of the young people from their honeymoon trip.

The Leader joins their many friends in extending congratulations and best wishes for a long, happy, and contented life.

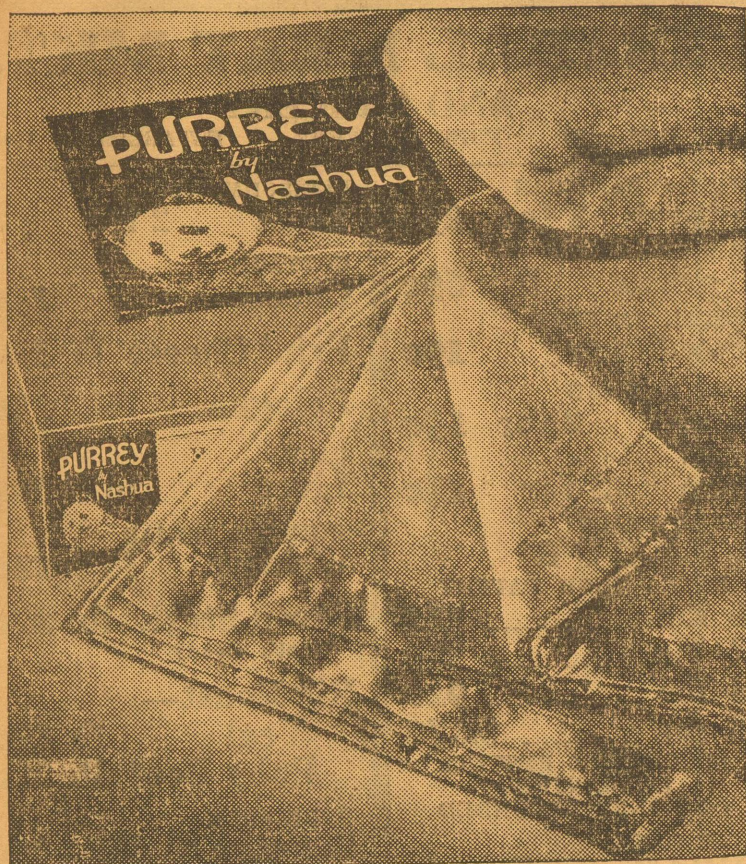

Mr. Dave Utley was in Nocona, Sunday afternoon.

Friends of Mr. W. M. McGregor of Wichita Falls learn that he is convalescing nicely after an operation Monday in a Baltimore hospital. Mr. Carter McGregor, his son is with him at Baltimore.

America's automotive service men are playing an important part in the nation's war effort. It is their job to "save the wheels that serve America."

## The Automotive Mechanic of Yesterday Is the VICTORY SERVICE MAN of Today

Help him to help you  
"SAVE THE WHEELS THAT SERVE AMERICA"

by getting a skilled service check-up regularly

Take the word of millions:

MORE PEOPLE GO TO CHEVROLET DEALERS FOR SERVICE

than to any other dealer organization

Just how important the automotive mechanic's work is to the nation will be clear to all who consider the following facts\*:

● Automobiles and trucks form the sole practicable means of transportation for war workers and war materials in many communities throughout America.

● In some sections, 78% to 100% of the workers drive by automobile to vital war plants.

● 2,314 U. S. cities, with a population of 12,524,000, depend on private cars for transportation;

The automotive mechanic—the trained Chevrolet Victory Service Man—is the lifeguard of America's millions of cars and trucks. Help him to help you and America by getting a skilled service check-up at regular intervals.

\*All statements based on reports compiled by the Michigan State Highway Department and the Statistical Department of A. M. A.

54,000 communities depend entirely on motor vehicles.

● Six out of every ten farms use one car or more; 67% of farm car mileage is necessity driving.

● More than 65.2% of all war plants reporting in Michigan (a typical war production state) depend on trucks to haul their incoming and outgoing freight.

● Trucks haul nearly 100% of the milk supply of most large cities—and 58% of all livestock marketed in the U. S.

● Trucks are the sole transportation system serving our 54,000 communities not reached by railroads.
