BOB WALTON VICTIM OF GUN TRAGEDY

FORMER HENRIETTA MAN KILLED BY 12 YEAR OLD BOY AT SUNSET

Bob Walton, who for a while run a meat market on Main street in Henrietta next door to the postoffice, died at his home in Sunset last Friday from the effect of a gunshot wound inflicted the day before in a difficulty with J. F. Riley arising over differences about a fence line. Riley was also killed, dying instantly. Mrs. Riley, wife of the slain man, is in a serious condition in a Sunset home with a pistol wound in the left breast, but is not expected to die. Accounts of the shooting allege that Bob Walton, son-in-law of Mrs. A. M. Triplett, from whom Riley is said to have purchased the land, rode horseback to the Riley home, a half mile out, shortly after 8 o'clock, armed with a pistol. It is said he called Riley from the house and that Riley came out, also armed with a pistol, and the shooting began. Riley was shot just under the left eye. Mrs. Riley was in the rear of the home when the shooting began, and ran to the front yard just in time to receive a bullet through the left breast, according to statements of the affair. Walton, the accused slayer of Riley, was wounded in the right shoulder by a charge from a shotgun which was said to have been in the hands of little Bob Riley, twelve-year-old son of the slain man. The boy was not hurt.

B. Y. P. U. HONORS DEPARTING AVIATOR

Tuesday evening the BYPU gave a moonlight picnic honoring Frank Caldwell who is to leave today for Austin to take up his duties as a cadet in the aviation service. A party of young people and some older ones, number about 30, left the church at 7 o'clock in automobiles, going to the new water works dam on the Little Wichita. A nice lunch was spread on the grass and the party spent a very pleasant evening playing different kinds of games and indulging in outdoor sports. The return trip was made at about 12 o'clock.

commission as second lieutenant as soon as a vacancy occurs. Earl Brazill of Camp Bowie, has sent home a lot of his personal belongings, indicating that he is among those who have been transferred overseas.

ALL MEN 21 TO REGISTER ON JUNE 5

EXEMPTION BOARD NOTIFIED OF PASSAGE OF THE NEW LAW

The local exemption board has received notice from Major Townes, who has charge of the draft work in Texas, that congress has passed the act providing for the registration of men who have become 21 years of age since June 5th, last, and further advising that a proclamation by the president will be issued shortly naming June 5th, 1918, as the day of registration. Maj. Townes requests that the widest publicity be given to the fact that all men who have attained the age of 21 years since June 5th, 1917, will be required to register on the day mentioned.

Provision has been made by the exemption board for the registration work to be done at the court house in Henrietta. There will be no registering places in the several voting precincts as was done last year, but all must come to Henrietta to register. It is estimated that there will be one hundred young men who will be required to register under the law.

EVERY MEMBER GET ONE SUB BY MONDAY

SPECIAL APPEAL DIRECTED TO SOUTHWESTERN RED CROSS MEMBERS

St. Louis, May 23.—J. L. Johnson, chairman of the Red Cross second war fund campaign for the Southwestern division, issued an appeal last night to members of the Red Cross in the states of Missouri, Kansas, Oklahoma, Arkansas and Texas to get one subscriber to the fund between this time and the close of the campaign Monday night. In his appeal Johnson declares that it is the duty of each and every one of the 3,250,000 members of the Red Cross to get at least one subscription that the campaign in these states may close with a blaze of glory. His appeal follows: To Each and Every Member of the Red Cross of this Division: You belong to one of the banner divisions of the great American Red Cross. You have done wonderful work since the second war fund campaign started May 20. You have helped to make it possible for the Red Cross to continue the great humanitarian work it is doing in Europe and America. Do one thing more that we may wind up the campaign May 27 in a blaze of glory for the Southwestern division. This: Solicit and obtain one subscription other than your own subscription for the war fund. If each member of the Southwestern division will do this, this division should lead all other when the final results of the campaign shall have been made known. The Southwestern division led in the Christmas campaign as a result of your fine devotion to the cause. Washington headquarters expects us to do even better this time. We can and will, if you will get one subscriber to the war fund between this time and the close of the campaign Monday evening. We cannot afford to fail. As your leader I urge you to carry out this plan without delay. Do not wait until Monday to get your subscriber. Do it today; do it now. It will be easier now than it will be tomorrow or Monday. Do not say to yourself that this is work for your neighbor who is a member of the Red Cross or for some one in another locality or town or city. This is your work—it is the work every member of the Red Cross in this division. And I am relying upon you. I know you will not fail.

ALL GRADE TEACHERS ELECTED

SUPT. WALKER CHOSEN FOR ANOTHER YEAR—HIGH SCHOOL OPEN

At a meeting of the school board held last Friday Prof. C. F. Walker was elected superintendent of the public school for another year, and he has accepted the position. This will make his sixth term at the head of our school. Teachers for the grades were also elected, there being but two changes. Misses Coleman and Allen did not ask for their places again, and in their stead, Miss Lelia Stone of Henrietta, and Miss Sibyl Holaday of Byers, were elected. All the other grade teachers who were in the faculty the year just closed were re-elected, namely, Mrs. Jessie Noble, Mrs. W. A. Pope, Miss Lulu Johnson, Miss Agnes Hanagan and Miss Anna Alma Squires. All of these teachers are elected subject to assignment. None of the high school teachers has yet been elected, and none of those in the faculty for last term are applying, though the board is hopeful of inducing Miss Raborn to reconsider her decision not to teach here next year. It is understood that Misses Allen and Walker will attend some higher institutions and take their A. B. degrees, and Prof. Whitehead has enlisted in the navy. The board has plenty of applications, but has come to no decision except that four ladies will be chosen, for the reason that any available man would be liable for call into the military service, and might be compelled to give up the work in the middle of the term. Announcement is made that all salaries will be increased approximately 10 per cent.

ZONE LAW UPHELD BY HIGH COURT

MAJORITY OPINION BY MORROW AND PRENDERGAST —DAVIDSON DISSENTS

Austin, Tex., May 22.—The constitutionality of the dry zone law was upheld this afternoon by the court of criminal appeals in a majority opinion, Judge Davidson dissenting. The court dismissed the application of exparte Hollingsworth, from Tarrant county. A majority of the court holds that the law is within the police power of the state.

Morrow's Opinion. The opinion in the case was written by Associate Judge Morrow, who held that that part of the act under which relator Hollingsworth was prosecuted is not a prohibition of the sale of intoxicating liquors in conflict with the constitution but a regulation of the sale within the police powers of the state. Judge Morrow, however, held that the act is not a war measure. Associate Judge Prendergast, who concurs in the majority opinion adds these additional grounds: "I hold that the act is valid as a necessary and reasonable regulation. And I hold also it is valid under the inalienable police powers of the legislature as straight prohibition in the prescribed zones, as a necessary aid to the successful prosecution of the war; and I further hold that there is no constitutional provision to forbid or prevent it."

Presiding Judge Davidson dissents, holding that the law is illegal and not within the police power of the state, and agrees with Judge Morrow that it is not a war measure and that the legislature has no authority to power to enact such a measure.

HIGH SCHOOL COMMENCEMENT EXERCISES

DIPLOMAS DELIVERED ON MONDAY NIGHT—OTHER PREVIOUS EXERCISES

High school commencement exercises came to a close on Monday night at the Methodist church when Superintendent Walker delivered th diplomas to the 14 graduates in the presence of an immense crowd of friends of the graduates and patrons of the school.

The program as printed below was carried out, the only unusual feature being that Miss Vivian Stone, the salutatorian, was compelled to remain seated in her chair while delivering her address, on account of having been injured in an automobile accident a few days before. She appeared on the stage on crutches. Every number on the entire program was liberally applauded by the immense audience.

Sunday morning the baccalaureate address was delivered by Dr. M. M. Davis of Dallas, a very learned address full of sound advice for the guidance of the graduates in their future life. The other churches dismissed their regular worship and joined in with this occasion.

Friday evening the class play, "The Trial of the American Girl," was produced at the high school auditorium before a large audience. It is a patriotic piece and presents a very fine lesson, illustrated by pantomimes that were most effectively presented.

The commencement program Monday evening, together with the list of graduates follows:

- Invocation—Rev. T. G. Whitten

RED CROSS CAMPAIGN STILL ON

Though Henrietta has gone over her quota for the Red Cross war fund, exceeding it perhaps by \$1000, the committee declined yesterday to give out for publication the entire amount subscribed, because some of the rural precincts had not completed their canvass, owing to long distances and difficulty of communication. It was stated that some districts had fallen down on their quotas, but it was believed a little more work would bring them out on top. The drive does not close until Monday night, and it is the intention of the committee to continue the work until that date.

FLOUR SALES STOPPED BY ADMR. PEDEN

Food Administrator Peden has stopped the sale of flour in Texas. Local merchants received the order Saturday. Stocks of flour on hand were taken up and will be sent to Europe.

It is understood that this rule is to continue until new wheat comes in, which will be somewhere about the first of July.

The order does not affect the bakeries except that they cannot sell bread to hotels and restaurants.

KATY AND DENVER IMPROVEMENT ALLOWANCES

\$200,000 ROAD BOND ELECTION FOR ARCHER

Pursuant to a petition with the required number of signatures being presented before them this week, the Commissioners Court created Road District No. 1, and ordered an election to be held on June 15th to determine

whether or not the issuance of a \$200,000 bond issue should be made for road building purposes.

The district created includes the voting precincts of Bowman, Liberty, Archer City, Baxter, Onion, Midway, Anarene and Terrapin.

It ranges from 5 to 10 miles in width and parallels the proposed hard-surfaced Oil Belt Highway, and the established Southwest Trial.

The estimated tax valuation of the property included in the district is \$3,000,000.

In this election women are not eligible to vote, neither are men who pay no taxes besides a poll tax.—Archer County News.

OIL RIG UP SIX MILES NORTHEAST

P. L. Tippet of Gainesville, has secured a lease of a body of land northeast of Henrietta and has erected a standard rig on the north side of section 2 Angelina county school land, and will go down for oil. Drilling began on Wednesday.

This well is on the H. Boddy ranch, near the ranch house, and is six and a half miles northeast of town.

OUR SOLDIER BOYS

On Friday evening at 8:45 a special service will be held at the Methodist church at which time there will be short addresses delivered by E. W. Coleman, T. H. Marberry, R. E. Taylor, P. M. Stine, and the undersigned. It is simply a patriotic occasion in which will be expressed admiration and love for the men who have surrendered a all, even life itself if need be, for the cause of liberty, country and God. Everybody invited. Plenty of fine music. Mrs. Jessie Noble will read the "Star in the Window."

"STIRRED UP THE ANIMALS"

Kokomo Youngster, Monkey and Auto Horn Raise Bedlam in a Potoskey (Mich.) Park.

Haynes Starbuck, five-year-old son of A. E. Starbuck, of Kokomo, literally "stirred up the animals" in the city park at Potoskey, Mich., recently, relates the Indianapolis News. The senior Starbuck is a member of America's lay-fever brigade, and spends the "season" at Harbor Springs with his family.

On one of their drives the Starbuck family and their guests visited the Potoskey park, which has a small zoo. While the party was strolling about in the park a young monkey leaped into Mr. Starbuck's car and began throwing rugs and cushions to the ground. Haynes Starbuck came back to the car and found Mr. Monkey sitting on the hood, examining the radiator cap.

The lad climbed into the driver's seat and pressed the button of the electric horn. The monkey cleared 20 feet through the air, landing in a tree. But soon it came back and once more mounted the hood, this time trying to unscrew the radiator cap.

The Starbuck boy let loose a series of blasts on the horn, and this time the monkey did a Wilbur Wright to the head of an elderly woman at the side of the driveway. The woman shrieked, the monkey chattered, the horn cut loose again, and then two eagles awoke in their cage and turned loose freedom's call. All the other birds began screaming, the ducks in a pond near by set up an ear-splitting clatter, while the coyotes yapped loudly. Then, high above all the racket, rose a series of blood-curdling wails and howls from two big wolves.

Mr. Starbuck gathered his party and left, but it was more than an hour before the usual peaceful calm of the park was resumed.

B. Y. P. U. PROGRAM
The program for the BYPU on Sunday, May 26, will be a spelling match. The words to be spelled will be names of persons and places selected from the Bible. If you don't think there is more than one way to spell some of these names come out, write and hear for yourself. Everybody invited. You will miss it if you miss it.

The ladies of Henrietta are not taking sufficient interest in their duty of making surgical dressings and hospital garments. There are seldom more than a dozen women on these dressings in our local Red Cross work room any afternoon. There should be 20 or 30 at least. Surely every woman in Henrietta knows the absolute need of these dressings. As we have before stated, what difference will it make five years from now if we do leave some dusting or mending undone or beds unmade. Our boys are not waiting for favorable conditions to themselves before they give up every home comfort and possibly life itself to fight our war.

After June 1 the gauze room in No. 7 over Alcorn's store will be open every afternoon of the week excepting Thursday and Saturday. The main work room in the basement of the Methodist church will be open every morning and afternoon except Saturday. Hours 9 to 12 and 3 to 6. Any one, every one, is urged to help at either or both of these work rooms. Remember, you are welcome and needed.

Surgeon General Gorgas of the U. S. army has just issued an imperative call for 25000 nurses for the army alone, and the needs of the navy must also be met. This call demands the strictest conservation of nursing service, this conservation being as essential as the conservation of food. So if you are employing a nurse largely as a companion, it is your patriotic duty to relieve her for service in the army or navy nurse corps. This necessity devolves strictly upon every person employing nurses where the dictates of life or death or the utmost physical necessity do not demand them.

Boxes of knitted goods and surgical dressings from Newport, Buffalo Springs and Deer Creek auxiliaries are acknowledged with thanks.

Commissioners Court
Commissioners court was in session this week as a board of equalization, few orders aside from tax matters being entered.

A special tax election was held in Russell Creek June 8 to vote on a bond issue. The result is to hold the same.

Returns of the bridge school district here for an increase of the special tax from 15 to 25c was canvassed and the result declared 8 to 4 for the 25c rate.

Women of America

What's the worth of one baby's life,
The time has come when you must put a money value on it.
So much Red Cross money available, so many babies restored.
A little less Red Cross money available, so many babies lost by default.

It's as plain as that.

When you made that first Red Cross investment you had a fairly clear idea that there was plenty to be done and that the Red Cross would make every dollar of money and every minute of time count.

But have you now a clear picture of what price somebody will have to pay for one delayed dollar or a hundred dollars withheld?

You can't read a casual page of Red Cross reports from anywhere "over there" without endangering the coolness of your decision as to "how much."

Suppose you had found "another use" for your Red Cross money a while ago and a corresponding part of the piece of work described below went undone:

"Gas bombs were used. 750 children suddenly thrust upon Prefect's hand. Twenty-one of the children were infants under one year and the remainder were under eight years—herded together in an old barracks, dirty, practically unfurnished, and with no sanitary appliances. Sick children were crowded in with the well and skin disease and vermin abounded. Within two days the Red Cross workers had cleaned all the children, provided new barracks, provided medical care and nurses for the babies, secured suitable food and classified all the refugees to prevent the separation of members of the same family."

Was that money well spent?

Were these babies worth while? Well how much were they worth, per baby?

They are the future of France—the hope and pledge of civilization.

We are in their debt for what their fathers and mothers have paid already—in hunger, in cold, in mutilation, in slavery.

We shall pay up, too. Your first instalment was there in time—now how much?

If You Were There Instead of Here

IF you should see a French child—a tiny girl—sitting by the roadside, sobbing quietly because she is too weak from hunger to cry very loud, you would sell your watch to buy her breakfast.

If you should hear somewhere in the restless wards the low moan of an American soldier, you would gladly sit by him all night, if that would save his life.

You are not there, but here, where these sights and sounds are not brought home to you! But the Red Cross is there—and you can make it your representative!

Over there the Prussians are crucifying the incarnate Liberty of Man, and they are making the world black for children.

The money you give to the Red Cross now will give you the right, when the Beast is beaten down, to think, "There are happy children, clear eyed women, and strong men alive today, because my money went across"

What are you going to do about it?

Every cent of every dollar received for the Red Cross War.

Fund goes for War Relief.

The American Red Cross is the largest and most efficient organization for the relief of suffering that the World has ever seen.

It is made up almost entirely of volunteer workers, the highest executives being without exception men accustomed to large affairs who are in almost all cases giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War torn allied country.

It plans tomorrow to help in the

work of restoration throughout the world.

It feeds and clothes entire populations in times of great calamity. It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and smooth running transportation facilities, it is serving as America's advance guard—and thus helping to win the war.

Congress authorizes it. President Wilson heads it. The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it. Twenty-two million Americans have joined it.

Suffering Described As Torture Relieved by Black-Draught.

Rossville, Ga.—Mrs. Kate Lee Able, of this place, writes: "My husband is an engineer, and once while lifting, he injured himself with a piece of heavy machinery, across the abdomen. He was so sore he could not bear to press on himself at all, on chest or abdomen. He weighed 165 lbs., and fell off until he weighed 110 lbs., in two weeks.

He became constipated and it looked like he would die. We had three different doctors, yet with all their medicine, his bowels failed to act. He would turn up a ten-cent bottle of castor oil, and drink it two or three days in succession. He did this yet without result. We became desperate, he suffered so. He was swollen terribly. He told me his suffering could only be described as torture.

I sent and bought Theford's Black-Draught. I made him take a big dose, and when it began to act he fainted, he was in such misery, but he got relief and began to mend at once. He got well, and we both feel he owes his life to Theford's Black-Draught."

Theford's Black-Draught will help you to keep fit, ready for the day's work. Try it!

FROM ANTI-SALOON LEAGUE OF AMERICA

The urgent need of the ratification of the national prohibition amendment within seven years by a sufficient number of states to make it effective is explained by Wayne B. Wheeler, attorney and general counsel of the Anti-Saloon League of America, in a statement in which Mr. Wheeler goes in detail into these reasons.

The seven reasons are given below:
1. The resolution adopted by Congress gives but seven years' time for the states to ratify the amendment. Unless it is done within this time, the fight must be started over again. In 1920 a reapportionment of congressional districts is made. The number of wet representatives from the large wet centers of population, will be greatly increased, and the victory may be delayed for years. Every ounce of energy and sacrifice made now is worth ten after the time limit has expired.

2. It is the only way to secure a final solution of the liquor problem. Other methods are efficient, but not sufficient. The larger the dry unit, the more effective is the prohibition.

3. A national evil requires a national remedy. Our interstate relations and the inherent vicious charac-

ter of the traffic makes it a national evil. The alcoholic may drink liquor in one state, and commit crime or become a public charge in another. The remedy must be as far reaching as the evil. State boundaries are not adequate barriers to moral contagion and no state, careless in such matters, should be permitted to dump its drunks and other derelicts over the border line for a neighboring state to care for.

4. The logic of progress demands prohibition. Prohibition has been tried and is a success. Under it, the health, wealth and happiness of the people have increased. Twenty-seven states have adopted it; over 88 per cent of the nation is dry, and over 61 per cent of the people have adopted prohibition; civil conditions cannot remain stationary. They will advance or retreat. The liquor traffic fights every inch on progress whether it be regulation, restriction, prohibition or law enforcement. It is a fight to the finish and the goal of the winning forces is national constitutional prohibition.

5. It will stop the inexcusable waste caused by liquor. More than fifty millions of bushels of food; over sixty million pounds of sugar and molasses, and over five million tons of coal are wasted yearly in making liquor. Two billion dollars is worse than wasted each year for liquor. The efficiency and productive power of the nation is reduced 20 per cent by liquor. One million of people are in-

capacitated by liquor. With this food fuel and manpower saved, the war debt and reconstruction will be easier to bear.

6. It will result in team work between the state and nation in dealing with the liquor traffic. The dry states are handicapped in their effort to enforce prohibition as long as the federal government continues to collect revenue from, and recognizes the outlawed traffic in such states. National prohibition unites the state and federal government in a common policy for the public good.

7. The purpose of the federal government can be more easily consummated under national prohibition. One of the fundamental purposes of the federal constitution is "to promote the general welfare." The courts tell us this means to protect public health and public morals. The liquor traffic undermines or destroys both. We cannot carry out the fundamental purpose of our government, if we foster, protect and encourage crime-producing business, like the beverage liquor traffic.

ENGLAND SAVES \$380,000,000 A YEAR.

The working people of Great Britain are doing their utmost to help win the war by denying themselves every luxury and loaning the money saved to their Government. The English plan of War Savings Stamps is very much like ours. In the past eighteen months the English people have not only bought \$650,000,000 worth of stamps, but the new spirit of thrift has caused savings bank deposits to increase over 100%. There are great signs up all over England, reading, "It is not good form to dress extravagantly," and a woman or man who appears on the street whose dress indicates extravagance, is not only subject to criticism, but in many cases has been attacked and beaten.

LETTERS TO MOTHERS FROM SOLDIER SONS

MULTITUDE OF ODD JOBS AROUND MILITARY CAMP —200 BALL GAMES

Camp Travis, May 23.—Correspondence Division Publicity Officer—Sentiment is supposed to be a stranger in the armed camp. But the supposition is not borne out by the following communication published throughout Camp Travis two days before Mothers' Day:

"General Pershing has issued the following order to all units of the American Expeditionary Forces in France 'May 8.—To All Commanding Officers: I wish every officer and soldier would write a letter home on Mothers' Day. This is a little thing for each one to do but those letters will carry back our courage and our affection to the patriotic women whose love and prayers inspire us and cheer us on to victory. Pershing. The Secretary of War most heartily approves the foregoing and desires to urge upon every officer and soldier in the army that he emulate the example of the soldier in France by writing a letter home on Mothers' Day. May 12th."

Indications are that the appeal found a ready response in the hearts of the Camp Travis men, most of whom are comparatively recent arrivals from civilian life, and a number of whom have just come into the National Army. The YMCA buildings stationary, pen, ink and a place to write the letter in quiet, stamps being obtained at the 'Y' Secretary's desk in each building.

Odd jobs about the cantonment assume a variety and a multiplicity that would astound almost any man uninitiated in the complex demands which can come up in a huge army camp. Somebody has to take care of the door keys to hundreds of buildings, see that they are collected when the building is temporarily out of use owing to the fluctuation of men in and out of camp, see that they are replaced when lost, repair locks and so on. Somebody has to repair the tarviated roads when traffic gets the better of

them in spots. somebody has to patch up the plumbing that the winter cold snaps pop open, and enamel the stoves and stovepipes to keep them from rusting through the summer. Somebody has to paint the signs that indicate the various officers, streets, traffic rules and the like. These are only a few of the odd jobs that the every day matters, practically, for the Division Utilities Office. It has shops for sign painting, stoves and boiler repair, blacksmithing, carpentry, plumbing and electrical fitting and repair.

Just now the carpenter shop is completing twenty-five ice boxes to be used at Camp Bullis, the target range camp about 23 miles from San Antonio. Over at the veterinary hospital a concrete soaking vat ten by twelve feet and one foot deep was constructed for the treatment of the hoofs of draft and saddle animals. The Camp Travis steam laundry, the largest laundry in the world needed one hundred trucks for the carriage of laundry within the great building which houses the plant, and the utilities branch is to construct them. With as many as two hundred baseball games going on at one time—as is not uncommonly the case on holiday afternoons—window lights may be expected to suffer, and the utilities people used to come and replace the panes, but one month there were no less than one thousand panes of glass to be put in, and it looked so like monopolizing the force for this one service that the office now merely issues the glass and the soldiers put them in themselves.

The officers in charge of the utilities branch are Major F. H. Todd of El Paso and Lieutenants J. W. Wyses, Wheelock, Texas; F. E. Laramio, Temple; E. S. Armstrong, San Antonio; and J. S. Deneika, Laredo. The personnel of the shops and office force under these officers is made up of enlisted men of the quartermaster corps.

FRIDAY, MAY 24, 1918.

The Methodist Board of Temperance, Washington, D. C., has issued a statement showing that last winter when coal was short, an iron company in New York that was furnishing material for the manufacture of guns was forced to reduce its output for lack of coal while plants manufacturing intoxicating liquors had a full supply. Also it makes a statement showing the further reduction of the company's output by reason of its employees drinking intoxicants. A test was made of ten drinkers and ten non drinkers, doing the same character of work, and the ten drinkers lost about one third of their time while the non drinkers worked full time and in addition put in a little overtime. Whether intentionally doing so or not, it appears from many sources that the liquor interests in this country are in different ways obstructing the win the war program.

Archer county has come to the front with a proposition to vote an issue of \$200,000 road bonds, within a newly created road district. We wish to congratulate the commissioners court of our sister county on their forward move and hope the people will ratify the action at the polls. If they do, it will mark an epoch in the good roads progress in this section of the state. All we wish is that it may prove as contagious as the whooping cough. We have had enough to do with bonds recently to learn that they are not poison, and when a good roads proposition is up we should not hesitate to use them for all they are worth.

All along we have thought this Hooverizing proposition was a kind of self inflicted penance, that we ought to pursue with long faces and an imagination that we were sacrificing everything in life that is worth while, but we have been rudely awakened. Hooverizing is a picnic. A card issued by Mr. Hoover has fallen into our possession which reads like this: Eat corn, oats, potatoes, poultry, fish, game, eggs, beans, honey, jam, syrup, molasses, peanut butter and the like. Who has a grouch at such feed as that? A fellow can give himself the pecca eccia three times a day on it.

Clay county is sending more soldiers to the cantonments this week. That makes work for the rest of us—we must do what they would do if they were here and in addition do our own usual share. Herein applies the little slogan we have printed several times: Rustle a little harder, work a little over time, earn a little extra money, buy some war stamps and help Uncle Sam lick Kaiser Bill.

Commencement sermons and Red Cross sermons are good for some things besides. They cause some of these old fossils who never darken a church door on an ordinary occasion, to get out and rub some of the moss off their backs, and when the preacher has the nerve to deliver a sermon with some kick in it, the results possible of accomplishment are incalculable.

Thus far Clay county has no woman candidate. Other counties have them, and why not? The women are going to vote and it will seem odd for them to be going to the polls in great numbers and voting altogether for the men.

One advantage to a country for the armies to fight in it is that they build good roads. Good roads are required to transport munitions of war, Munitions of peace manage to get along without them.

The government is urging that corn and potatoes be used in greater quantities as a substitute for wheat, and it may be that potatoes will later on be allowed as a substitute for flour. The Germans have for years and years used potato flour for making bread.

Uncle Sam is a wise old man. While he is anxious to enlist women as telephone operators in France he is not accepting the wives of officers and men who are over there or who may go over there.

AMERICAN WAR EXPENDITURES COMPARATIVELY SMALL

With our three issues of Liberty Bonds and two Red Cross drives, it may have appeared to many minds that we are bankrupting ourselves, but such is not the case. Comparatively our war expenditures have been small, and at the rate we are going, we will not be the end of four years spend as much for war purposes as either of the leading nations on either side of the conflict has spent to this date. The United States has spent less than four billions, because more than half the eight billions raised for the war has been loaned to the allies and will be repaid. A statement issued by the treasury department gives the war debt of the various nations in the following sums:

Great Britain, \$27,636,000,000.

France, \$22,227,000,000.

Italy, \$676,000,000.

Germany, \$25,408,000,000.

Austria-Hungary, \$19,018,000,000.

The United States, \$8,000,000,000, of which more than half has been loaned to the allies, is drawing interest and will be repaid.

Still further offsetting the United States expenditures is the fact that it is the richest nation of all and produces more of its necessities than any of the others. This fact is being attested daily by workings of the food laws, made necessary solely to furnish a food supply for the allies.

It will probably be developed, if indeed it is not already developed, that as a purely business proposition the war is yielding a large return to the United States above the enormous sums she is disbursing on account of her participation in the conflict.

All of this is said that we may not get the blues. That we may not be inclined to close ourselves up in a shell, but go on with our usual activities with as happy a heart as is possible in view of the personal sorrows brought to many of our friends whose loved ones have been drafted into the service and who have gone overseas to face the danger of actual conflict. Themorale at home is as necessary as the morals at the front.

Swat the kaiser and the flies, they are all of a kind.

Revival meeting begins next Sunday. You choose your bunch.

There is time and opportunity yet for you to make good with the Red Cross.

One thing we have to say in favor of the henpecked men is that none of us failed to kick in on the Red Cross.

The fellow who said it never would rain in this country has left, and we understand he did not go to the army.

The schools are out and the graduates are showing their patriotism by getting a job chopping cotton or other useful employment.

Talk is cheap, still it stands to the good of some people to be careful how they use it, because their bill may run up higher than they think for.

June 26 the long drouth begins in Texas, and who has not received a frantic appeal from Kansas City or some other foreign port to lay by in store against the terrible scourge?

AMERICAN DESTROYERS IN SUBMARINE ZONE COVER MANY MILES

Some indication of the ceaseless watch kept on the high seas, in the path of American troopships, by the United States naval force operating in European waters, may be gained from statistics just compiled at the naval headquarters in London. These statistics show that a single force of American destroyers operating from one base had steamed almost 1,500,000 miles up to April 1. The maximum distance covered by a single destroyer was more than 580,000 miles from May 1, 1917, to April 1, 1918. This destroyer was one of the first to arrive abroad after war was declared.

It has been announced that Vice Admiral William S. Sims, commanding United States naval forces abroad, offered to send an auxiliary force composed of naval units to the French front at the beginning of the German offensive. The chief of staff of the French navy and Gen. Foch did not consider that the circumstance demanded the presence of such a force at the front.

The French have had a naval division operating in the forces of the Lorraine sector for some time, and the naval units have made their part of the line as shipshape as possible, with everything from big naval guns down to sleeping hammocks and ships' cats.

The American soldiers billeted in England for temporary training or en route for France are more and more compelling the admiration and cooperation of the English people. The National Sporting club of London has started a series of weekly entertainments for enlisted men of the United States army and navy.—Bureau of Publicity.
